- (a) Pursuant to an agreement dated October 6, 2000, the Company paid \$4,000,000 for the acquisition of certain assets and technology relating to the production of Hepatitis B vaccine. The vendor of the transaction was a company named Alphatech Bioengineering Limited, incorporated in Hong Kong, with two shareholders who are both directors of the Company.
- (b) Pursuant to an amended agreement dated June 5, 2001, in the event that the Company failed to find a joint venture partner, establish a production facility for the vaccine project or sell the project to a third party within nine months from the date of this amended agreement, Dr. Longbin Liu, a director of the Company (and President and CEO of the Company at the time of the transaction) and one of the shareholders of Alphatech, demanded to repurchase the project from the Company. The repurchase price of \$4.0 million is payable as follows:
- (i) \$500,000 at the date of repurchase; and
  - (ii) the balance to be paid within eighteen (18) months of the date of repurchase with interest at 6% per annum. The interest will be accrued from six months after the date of repurchase.

The Company decided not to pursue the project and Dr. Liu has repurchased the project on the agreed terms.

The amount owing by Dr. Liu to the Company is unsecured. The Company has chosen, given the significant amount involved and the lack of security, to conservatively value the amount owing and has set up a provision for the full amount, less a nominal amount of \$100.
