### **Item 1.01 Entry into a Material Definitive Agreement.**

On June 29, 2006, Tengasco, Inc. (the Company) entered into a \$50,000,000 revolving senior credit facility with Citibank Texas, N.A. in its own capacity and also as agent for other banks.

Under the facility, loans and letters of credit will be available to the Company on a revolving basis in an amount outstanding not to exceed the lesser of \$50,000,000 or the borrowing base in effect from time to time. The Company's initial borrowing base was set at \$2,600,000.

The initial loan under the facility with Citibank closed on June 29, 2006 in the principal amount of \$2.6 million, bearing interest at a floating rate equal to LIBOR plus 2.5%, resulting in a current rate of interest of approximately 8.2%. Interest only is payable during the term of the loan and the principal balance of the loan is due thirty-six months from closing. The facility is secured by a lien on substantially all of the Company's producing and non-producing oil and gas properties and pipeline assets.

\$1.393 million of the \$2.6 million loan proceeds was used by the Company on June 29, 2006 to exercise its option to repurchase from Hoactzin Partners, L.P. (Hoactzin) the Company's obligation to drill the final six wells of the Company's twelve-well Kansas drilling program (the Twelve Well Program). The Company had previously accepted an exchange from Hoactzin of promissory notes made by the Company in the principal amount of \$2,514,000 for a 94.3% working interest in the Twelve Well Program. The Company retained the remaining 5.7% working interest in the Twelve Well Program. The promissory notes exchanged were originally issued by the Company in connection with loans made to the Company by Dolphin Offshore Partners, L.P. (Dolphin) to fund the Company's cash exchange to holders of its Series A, B and C Preferred Stock as part of its offer to eliminate its preferred stockholders. Peter E. Salas, the Chairman of the Board of Directors of the Company, is the controlling person of Hoactzin. He is also the sole shareholder and controlling person of Dolphin Management, Inc., the general partner of Dolphin, which is the Company's largest shareholder.

As a result of the repurchase, the Twelve Well Program has now been converted to a six well program and Hoactzin will continue to receive production from those six wells in accordance with the payment terms of the drilling program plus an additional 6.25% overriding royalty in those six wells. If the Company did not exercise its repurchase option, Hoactzin would have received a 94% working interest in the final six wells of the program. Instead, it will receive only a 6.25% overriding royalty in six Company wells to be drilled. Since the Company's prior eight-well program drilling obligations were also satisfied earlier in 2006, the Company as of June 30, 2006 has no obligation to drill any additional wells for any parties other than the Company itself.

The balance of the \$2.6 million loan will be used by the Company for lease acquisition and three dimensional seismic shoots and analysis for oil exploration on a large tract in Kansas.

### **Item 2.02. Results of Operations and Financial Condition.**

On July 5, 2006, Tengasco, Inc. issued a press release which, among other things, discloses the Company's record level oil production in Kansas for the month of June, 2006 and the second quarter ended June 30, 2006. The full text of the press release issued in connection with the announcement is furnished as Exhibit 99.1 to this Current Report on Form 8-K.
