2. Summary of Significant Accounting Policies

Accounting Principles

The financial statements and accompanying notes have been prepared in

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K/A

conformity with accounting principles generally accepted in the United States of America.

Basis of presentation

The financial statements comprise the accounts of Elender Rt, Elender Kft, Webigen Rt, Aquarius 2002 Rt and Elender Web Kft. Elender Kft acquired Webigen Rt. in December 2002 from a related party at book value, while Aquarius 2002 Rt and Elender Web Kft together with Webigen Rt. merged with Elender Kft. as of October 13, 2003. All material intercompany balances and transactions have been eliminated.

2. Summary of Significant Accounting Policies Continued

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported

7

amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Business segment reporting

Management has determined that the Company operates in one industry segment, providing Internet access and additional value added services to business customers and individuals. All of the Company's revenues are derived from the provision of such services.

Fair value of financial instruments

The carrying values of cash equivalents, notes and loans receivable, accounts payable, loans payable and accrued expenses approximate their fair values.

Cash and cash equivalents

2. Summary of Significant Accounting Policies Continued

Property and equipment

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K/A

Property and equipment are stated at cost less accumulated depreciation. Equipment purchased under capital leases is stated at the present value of minimum lease payments at the inception of the lease less accumulated depreciation. Leased assets are depreciated using a straight-line method over the estimated useful lives of the leased asset. The Company provides for depreciation of property and equipment using the straight-line method over the following estimated useful lives:

Software	3 years
Computer equipment	3 years
Other furniture equipment and fixtures	3-5 years
Vehicles	5 years

Recurring maintenance on property and equipment is expensed as incurred.

Long-lived assets

In accordance with Statements of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," the Company periodically reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of those assets are no longer appropriate. Each impairment test is based on a comparison of the undiscounted cash flows to the recorded value of the asset. If impairment is indicated, the asset is written down to its estimated fair value based on a discounted cash flow analysis.

Investment in affiliate

The Company uses the equity method to account for its investments in non-marketable equity securities where it has an ownership interest of between 20-50%.

2. Summary of Significant Accounting Policies Continued

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K/A

Company is able to determine fair value based on comparable cash transactions for the services provided and for which the advertiser has the financial ability to pay cash. Revenue related to bartered services is recognized when the services are rendered. The barter advertising credits are initially recorded as an asset in "Prepaid and other current assets" and expensed in "Other selling, general and administrative expenses" when they are utilized. 2. Summary of Significant Accounting Policies Continued

Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities, net of appropriate valuation allowances, are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities, if any, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

- (A) To reflect the excess of acquisition cost over the estimated fair value of net assets acquired (goodwill). The purchase price, purchase price allocation, and financing of the transaction are summarized as follows:

Purchase price is calculated as as:

Cash	\$ 6,500,000
Fair value of shares issued less registration cost	2,877,420
Direct acquisition expenditures	111,000

Total purchase consideration	9,488,420
Allocated to:	
Transferable shareholders loan	1,065,230
Fair value of Elender's assets acquired and liabilities assumed	196,203
Customer contracts	2,412,759

Excess purchase price over allocation to identifiable assets and liabilities (Goodwill)	\$ 5,814,228
	=====

These unaudited pro forma consolidated financial statements reflect the preliminary allocation of the purchase price based on a preliminary fair value assessment of the assets acquired and liabilities assumed, and as such, the Company has assigned approximately \$2.4 million to customer contracts intangible assets.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K/A

These identified intangible assets will be amortized over a period of three years, which has been reflected as pro forma adjustment in the profit and loss statements. The purchase price allocation will be finalized upon the completion of intangible assets valuation.

In accordance with Statement of Financial Accounting Standard ("SFAS") No. 142, Goodwill and Other Intangible Assets, goodwill is not amortized. Accordingly, there is no goodwill amortization expense in the pro forma consolidated statements of operations.

The estimated total purchase price of approximately \$9,488,420 consists of approximately \$6,500,000 cash, \$2,877,420 of Euroweb International's common stock, representing an estimated 677,201 shares and estimated direct transaction costs of approximately \$111,000. Under US GAAP, securities issued in a purchase business combination should be valued at market prices for a reasonable period before and after the measurement date in determining the fair value of the securities issued. For the purposes of these unaudited pro forma consolidated financial statements, the purchase consideration has been estimated using a signing date of the transaction, as measurement date, of February 23, 2004. Accordingly, the Euroweb International's shares issued in consideration are valued based on the average closing price of the Company's common stock for the five consecutive trading days between February 19, 2004 and February 25, 2004, which was \$4.28 per share.

28

- (B) The selling parties will also receive Euroweb International shares during the acquisition of Elender Rt. Each of them will have less than 10% of ownership in Euroweb International Corporation, so they are not categorized as related parties and those transactions are shown as third party transactions. Elender Rt has an insignificant business relationship with Pantel Rt, the related party in respect to Euroweb International Corporation. Total of \$3,208,141 short and long term related party loans of Elender has been reclassified as \$1,606,138 short term and \$536,773 long term third party loan, while \$1,065,230 is owed to Euroweb International Corporation (transferable shareholder loan).
- (C) Restated financial statements include the combined financial statements of Euroweb International Corporation and Euroweb Hungary Rt purchased in February 2004. According to SFAS No. 141, Business Combinations, transfers of net assets or exchanges of shares between entities under common control are required to be accounted for by the receiving entity at carryover or the predecessor basis of the transferring entity, so Euroweb Hungary is included in the books as if Euroweb Hungary had always been consolidated.
- (D) The historical financial position and results of operations of Elender Rt. have been derived from Elender's historical financial statements (denominated in Hungarian Forint) and translated, for the purpose of preparing pro forma financial information, into U.S. dollars using the following exchange rates:

Consolidated pro forma balance sheet as of March 31, 2004 - 203.65 HUF/US\$ (current exchange rate)

Consolidated pro forma statements of operations for the year ended December 31, 2003 - 223.66 HUF/US\$ (average exchange rate)

Consolidated pro forma statements of operations for the quarter ended March 31, 2004 - 208.49 HUF/US\$ (average exchange rate)

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 8-K/A

(E) No adjustments were made to reflect the income tax effect of increased amortization of intangibles since Euroweb International Corporation has significant net operating loss carryforwards and, therefore, does not expect to have taxable income in the foreseeable future.
