**1. Basis of Presentation**

These unaudited interim consolidated financial statements have been prepared by management following the same accounting policies and methods of computation as the audited consolidated financial statements for the year ended June 30, 2004. These interim financial statements should be read in conjunction with the Company's audited consolidated financial statements together with notes for the year ended June 30, 2004.

The Company's primary activities are exploration, development and production of oil and gas. The unaudited consolidated financial results for the six month period ending December 31, 2004 and 2003 include the accounts of the Company and its wholly owned subsidiaries M&M Engineering Limited ("M&M") and its wholly owned subsidiary M&M Offshore Limited ("MMO"), 10915 Newfoundland Limited, 11123 Newfoundland Limited, its partnership Liannu LLP ("Liannu") and the proportionate share of its interests in joint ventures whose business focus is construction mechanical contracting and steel fabrication in Newfoundland. Minority interest represents the net residual interest in the equity of the partnership that belongs to the Company's other partners in Liannu. The results of operations of its wholly owned subsidiaries are accounted for as discontinued operations (See Notes 6 and 8).

Operating results for the six months ended December 31, 2004 are not indicative of the results that may be expected for the full year ending June 30, 2005.

These consolidated financial statements have been prepared by management in accordance with accounting principles generally accepted in Canada.

## **2. Seasonality and Trend Information**

Oil and gas production is not a seasonal business, but increased consumer demand or changes in supply in certain months of the year can influence the price of produced hydrocarbons, depending on the circumstances. Production from the Company's oil and gas properties is the primary determinant for the volume of sales during the year.

## **3. Segmented information**

The Company's operations consist of one operating segment, exploration, development and production of oil and gas. These operations consist of one cost centre, Canada.

## **4. Related Party Transactions**

Included in accounts receivable at December 31, 2004 are advances due from officers of the Company's subsidiary in the amount of \$14,425 (June 30, 2004 - \$2,815).

These transactions were in the normal course of business and were measured at the exchange amount.

## **5. Subsequent Events**

- a) On February 1, 2005 the Company divested its interests in M&M (See Note 6).
- b) In January 2005, M&M formally withdrew from the North Eastern Constructors Limited ("NECL") joint venture.

## **6. Discontinued Operations**

On February 1, 2005 the Company divested its interests in M&M for cash proceeds of Cdn. \$7,361,999. The transaction was closed in escrow on February 1, 2005 pending completion of certain closing conditions that were satisfied on February 4, 2005. Under the terms of the Purchase and Sale Agreement, the parties agreed that M&M would have working capital of not less than Cdn \$3,800,000 at closing and accordingly \$250,000 is held in escrow for up to 30 days pending completion of the working capital calculation of M&M at February 1, 2005. The transaction is

a purchase of 100% of the common shares and 100% of the preferred shares of M&M held by the Company. Prior to closing, the Company retracted preferred shares of M&M for Cdn \$1,000,000 cash. The Company received shareholder approval for the transaction at a special meeting of shareholders held on January 26, 2005.

The results of M&M have been accounted for as discontinued operations. Estimated disposal costs have been included in the net income from discontinued operations.
