Item 8.01. Other Events.

On December 8, 2014, ATI provided notice to affected participants that it would end all salaried retiree life insurance benefits on January 1, 2015, and all remaining salaried retiree medical benefits on January 1, 2016. The salaried retiree medical benefit plan being ended was assumed as part of the 2011 Ladish acquisition. Certain participants in the retiree medical plan will have transition provisions through the end of 2016. These changes do not affect benefits for those employees or retirees covered by collective bargaining contracts or other employment agreements. As a result of these changes to other post-retirement benefits, ATI will recognize approximately \$25 million of pre-tax curtailment and settlement gains in the fourth quarter 2014.

Additionally, in the fourth quarter 2014, ATI notified affected employees that it will freeze all future benefit accruals in the ATI Pension Plan, its U.S. qualified defined benefit pension plan, and for executives participating in the Supplemental Pension Plan, effective December 31, 2014. The ATI Pension Plan change affects all employees in this plan other than those in contractual employment arrangements. A consistent defined contribution plan with a base 6.5% company contribution and up to 3% in company matching contributions will provide retirement savings to all affected employees beginning in 2015.

These changes are part of ATI's ongoing initiatives to create an integrated and aligned business with a consistent health, welfare and retirement benefit structure across its operations.
