Item 8.01 Other Events

On June 20, 2008, Pacific Premier Bancorp, Inc., the holding company of Pacific Premier Bank (the "Bank"), announced today that the Bank has terminated its investment in the Shay Asset Management AMF family of mutual funds ("Funds") as of June 18, 2008 because of the continuing decline in the net asset value ("NAV") of these funds as well as the recent credit rating downgrade of certain non-agency private label mortgage backed securities held by the Funds. These NAV decreases, which resulted from the uncertainty in spreads in the bond market for mortgage-related securities along with the performance of a small number of the bonds within the Funds, have led the Bank to determine that the Funds should be classified as other than temporarily impaired. Rather than continue as an investor in the Funds, the Bank has redeemed its shares and will receive a pro rata distribution of the securities held by the Funds by June 27, 2008. The shares redeemed for the underlying securities (redemption in kind) will result in a non-cash charge to net income of approximately \$2.1 million or \$0.34 per share on a fully diluted basis. The charge will be recognized during the quarter ending June 30, 2008 and will be partially offset by operating earnings in the quarter. For additional information regarding the Company's impairment charge and withdrawal from the mutual fund,

see the Company's press release attached hereto as Exhibit 99.1, which is incorporated herein by reference.
