Springfield, New Jersey - October 2, 2003 - Village Super Market, Inc. (NSD-VLGEA) today reported sales and net income for the fourth quarter and year ended July 26, 2003.

Net income was \$2,713,000 (\$.87 per diluted share) in the fourth quarter of fiscal 2003, a decrease of 30% from the prior year. Net income declined due to a soft economy, a lower gross profit percentage, higher operating expenses as a percentage of sales and a higher effective tax rate. The gross profit percentage declined primarily due to higher promotional spending in the current year. The operating expense percentage increased primarily as a result of higher required contributions to employee health and pension plans.

Sales in the fourth quarter of fiscal 2003 were \$230,521,000. Total sales and same store sales both increased 2.3% from the prior year. Approximately half of the same store sales increase is due to higher sales in the Garwood and Hammonton stores, which opened during fiscal 2002 and are now included in same store sales.

Net income for the fiscal year was \$11,100,000 (\$3.54 per diluted share), a decrease of 12% from the prior year. Excluding \$967,000 (after-tax) of income received from two partnerships in fiscal 2003 and a \$403,000 (after-tax) impairment charge in the prior year, net income declined 22%. The decline in net income for the fiscal year was primarily attributable to a soft economy, increased promotional activities, higher required contributions to employee health and pension plans and a higher effective tax rate. Sales were \$902,420,000, an increase of 2.2% from the prior year. Same store sales increased 1.6%. Approximately half of the same store sales increase was attributable to improved sales in the Garwood and Hammonton stores after their inclusion in same store sales.

Village Super Market operates a chain of 23 supermarkets under the ShopRite name in New Jersey and eastern Pennsylvania.

This Press Release contains "forward-looking statements" within the meaning of federal securities law. Actual events and results may vary significantly from those contemplated or implied by such forward looking statements. The following are among the principal factors that could cause results to differ materially from forward-looking statements: local economic conditions; competitive pressures from the Company's operating environment; the ability of the Company to improve its sales and margins; the ability to attract and retain qualified associates; the availability of new store locations; the availability of capital; the liquidity of the Company on a cash flow basis; the success of operating initiatives; consumer spending patterns; increased cost of goods sold, including increased costs from the Company's principal supplier, Wakefern; the results of union contract negotiations; competitive store
