Contribution amount includes \$2,584,228 in compensation as reported in the Summary Compensation Table for Fiscal Year 2007.

Further, Mr. Haddrill shall be entitled to retain the rights granted under the RSUs provided that the vesting of the RSUs shall be pro rated through the twelve-month period following the month in which the termination occurs, and the sales restrictions on the stock options granted pursuant to the Haddrill Agreement, as amended, shall lapse as to a pro rata portion of such options through the date

of termination. Upon a "Change in Control," Mr. Hadrill will receive a payment of \$980,000 and will be entitled to retain all of the RSUs and stock options granted pursuant to the Hadrill Agreement, all of which will vest immediately upon the Change in Control, and the sale restrictions on the stock options will immediately lapse. ## Directors' Compensation

The Company's directors who are also employees generally are not separately compensated for their services as directors. Mr. Hadrill, the only director who is also an employee, did not receive separate compensation for his services as a director during fiscal year 2007.

As of the beginning of fiscal year 2007, generally, subject to certain exceptions discussed below under " Other Arrangements," each non-management director received \$50,000 per year plus \$5,000 per year for each committee on which such non-management director served, except that the chairman of each committee received \$10,000 for committee service. Each new non-employee director received a grant of 50,000 stock options upon appointment to the Board of Directors. Each non-employee director also received an annual grant of 30,000 stock options, prorated for a non-employee director whose service is less than one year. All options granted to directors vest upon grant and remain exercisable for the full term of the director's appointment or election, whether or not the director continues to serve as a director, unless the director resigns or is removed before the expiration of his or her term, in which event the options expire sixty days after resignation or removal.

On February 22, 2007, the Board of Directors revised the non-employee director compensation package to increase the Chairman of the Audit Committee's annual fee to \$25,000.

On May 3, 2007, the Board of Directors revised the non-employee director compensation package to provide that future annual equity grants will be comprised of \$125,000 of restricted stock which vests over one year. In addition, each non-employee director will receive annually \$125,000 worth of stock options vested upon grant. The number of stock options is to be determined by dividing \$125,000 by the then current Black-Scholes value of the Company. Newly elected directors will continue to receive 50,000 stock options upon appointment to the Board of Directors, which vest in equal installments over a three-year period, and they will receive a pro-rated annual equity grant.

On December 19, 2007, the Board of Directors modified the fee for membership in the Office of the Chairman to \$25,000 per year. Additionally, the Chairman of the Board of Directors' compensation was modified to provide for the same fees and equity awards as other non-employee directors as well as an additional annual fee of \$85,000. To encourage stock ownership, the Board of Directors also approved a plan in December 2007 pursuant to which non-employee directors may elect to receive restricted stock, which vests over one year, in lieu of fees. For calendar year 2009 and beyond, directors will be eligible to elect to receive stock in lieu of fees in the year prior to receipt of the award, on a dollar for dollar basis, using the closing stock price on the first trading day in January. For calendar year 2008, the stock price used will be the closing stock price during the ten-day trading period prior to the election.

Directors are also reimbursed for their reasonable out-of-pocket expenses incurred on Company business. The Company may grant both employee and non-employee directors additional cash compensation and options as time commitments, responsibilities and other circumstances may warrant.

**Other Arrangements.** Effective July 1, 2004, the Company entered into an agreement with Mr. Robbins pursuant to which he agreed to serve as the Chairman of the Board of Directors and as a member of the Office of the Chairman. This agreement terminated on December 31, 2007 pursuant to its terms. Pursuant to this agreement Mr. Robbins received, in lieu of any other fees, total fees of \$325,000 per year for such services.

Also effective July 1, 2004, the Company entered into an agreement with Mr. Kirschbaum pursuant to which he agreed to serve as a member of the Office of the Chairman for a period of three and one-half years. Pursuant to this agreement Mr. Kirschbaum received fees of \$100,000 per year for such services. The Company made its last payment under this agreement in August 2006 following Mr. Kirschbaum's death.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-K/A

In November 2006, the Company entered into an agreement with Mr. Verner pursuant to which he agreed to serve as a member of the Office of the Chairman until December 31, 2007. Pursuant to this appointment, Mr. Verner received fees of \$75,000 for such services, payable in restricted stock, with the number of shares to be determined based on the average closing price for the twenty trading days preceding the agreement.

## COMPENSATION DISCUSSION AND ANALYSIS

### The Company's Compensation Philosophy & Objectives

The Company's compensation program for executive officers, which has been endorsed by the Compensation Committee of the Board of Directors (the "Compensation Committee"), is designed to enhance stockholder value by tying a large portion of senior executive compensation to the Company's overall performance, as reflected in the value of the Company's common stock. In furtherance of this objective, the Company provides competitive opportunities with respect to salary, annual incentive/bonus, and grants of long-term incentives upon hire and periodically during the term of employment in comparison to both peer organizations within the gaming and technology industries and similarly sized companies. The Company believes this compensation structure enables the Company to attract and retain key executives critical to the Company's long-term vision and success, and to motivate its executives to enhance long-term stockholder value by focusing on growth, productivity, profitability and operating margins.

### Role of the Compensation Committee

**General.** The Compensation Committee, which is comprised of three independent members of the Company's Board of Directors, as discussed in greater detail under "Board of Directors Director Independence" is responsible for, among other things,

The review and approval of the Company's compensation philosophy;

The approval of all executive compensation plans and structures, including that of the Company's and its subsidiaries' executives and senior management;

The approval of bonus criteria and annual and long-term incentive performance metrics, as well as payouts thereunder; and

The approval of other executive benefit plans, including perquisites and retirement benefits.

The Compensation Committee, in consultation with Pearl Meyer & Partners, the independent executive compensation consultant it has retained, also analyzes the reasonableness of the Company's overall executive compensation package. The Compensation Committee's functions are more fully set forth in its charter which has been approved by the Board of Directors, as discussed under "Board of Directors Committees of the Board Compensation Committee."

While the Chief Executive Officer and other senior executive officers may attend meetings of the Compensation Committee, the ultimate decisions regarding executive officer compensation are made solely by the Compensation Committee. These decisions are based not only on the Compensation Committee's deliberations, but also from input requested from outside advisors, including its independent compensation consultant, with respect to, among other things, market data analyses. The final decisions relating to the Chief Executive Officer's compensation are made in executive session of the Compensation Committee without the presence of management. Decisions regarding the other executive officers are typically made by the Compensation Committee after considering recommendations from the Chief Executive Officer.

**Compensation Consultants.** The Compensation Committee historically engages the services of an independent compensation consulting firm to advise it in connection with making executive compensation determinations. The Compensation Committee retained the services of Pearl Meyer & Partners with respect to fiscal years 2007 and 2008. The Chairman of the Compensation Committee defines the scope of any consultant's engagement. The responsibilities may include, among other things, advising on issues of executive or Board of Directors compensation, equity compensation structure or preparing compensation disclosure for inclusion in the Company's SEC filings.

The Compensation Committee retained Pearl Meyer & Partners directly. However, in fulfilling its responsibilities, Pearl Meyer & Partners may interact with management or the Company's other outside advisors to the extent necessary or appropriate. The Company's management has not retained Pearl Meyer & Partners to perform any consulting or advisory services in fiscal year 2007 nor fiscal year-to-date 2008.

### Compensation Structure

Although the final structure may vary from year to year and officer to officer, the Compensation Committee utilizes three main components for executive officer compensation:

*Base Salary* fixed pay that takes into account an individual's duties and responsibilities, experience, expertise and individual performance;

*Annual Incentive/Bonus, for officers other than the Chief Executive Officer* variable cash compensation that takes into account both the Company's and the individual's performance; and

*Long-Term Incentives* stock-based awards including both stock options and restricted stock that reflect the performance of the Company's common stock and align executive officer and stockholder interests.

For fiscal year 2007, the final level and mix of compensation was based on the Compensation Committee's understanding of the objective data relating to the Company's competitive environment and the Company's performance, as well as the subjective factors outlined below.

**Pay Mix.** The Compensation Committee believes that the particular elements of compensation identified above produce a well-balanced mix of security-oriented compensation, retention value, and at-risk compensation that provide the executive officers with both short-term and long-term performance incentives. Base pay provides the executive officer with a measure of security as to the minimum level of compensation he or she will receive while the annual and long-term incentive components motivate the executive officer to focus on the business metrics that will produce a high level of Company performance over the long-term. The Compensation Committee believes that this approach not only leads to increases in stockholder value and long-term wealth creation for the executive, but also reduces the risk of loss of top executives to competitors.

The Compensation Committee believes the components of executive compensation should be weighted towards at-risk pay. This allocation is consistent with the Compensation Committee's overall philosophy with respect to the Named Executive Officers, as defined under "Executive Compensation Fiscal Year 2007 Summary Compensation Table," of pay-for-performance. When past equity compensation awards are combined with the contractual salary and targeted bonuses for the term of each Named Executive Officers' employment agreement (or the vesting schedule of the Named Executive Officer's equity award upon hire), the aggregate base salary payable to each Named Executive Officer over such period comprises between 14% and 41% of the aggregate value of each officer's targeted compensation for the period. The individual components of each of the Named Executive Officer's compensation package are described in more detail below under "Individual Named Executive Officer Compensation."

**Compensation Levels and Benchmarking.** Overall compensation levels for executives are determined based on one or more of the following factors: the individual's duties and responsibilities within the Company, the individual's experience and expertise, the compensation levels for the individual's peers within the Company, compensation levels for similar positions in the industry or in the technology industry more generally, performance of the individual and the Company as a whole, and the levels of compensation necessary to recruit new executives. The Company does not attempt to target a particular pay positioning for executive officers individually or as a group. Rather, the Company assesses each executive on the previously identified factors to determine appropriate levels of compensation. The

Company and the Compensation Committee believe that the resulting compensation package is competitive.

The gaming and gaming monitoring systems industries are highly competitive, and have a limited pool of executive officer candidates with the desired level of industry experience. The Compensation Committee considers information from a variety of sources when assessing the competitiveness of the Company's current and future compensation levels. These sources include, but are not limited to, management, other members of the Board of Directors, publicly available compensation data regarding executive officers both within and outside the industry, the Company's understanding of compensation arrangements of other local companies, and opinions from the Compensation Committee's consultants. The Compensation Committee believes that these sources provide it with an understanding of the competitive marketplace for executive talent among the Company's principal competitors, including: International Game Technology, Aristocrat Leisure, GTECH Holdings, Konami, Progressive Gaming International, Shuffle Master, and WMS Industries. In making compensation decisions for the Named Executive Officers for fiscal year 2007, the Compensation Committee reviewed the terms and conditions of each Named Executive Officer's employment agreement, each of which provides for a set level of base salary and annual incentive opportunity, as well as long-term incentives and benefits. To the extent not governed by contractual commitments, compensation decisions for the Named Executive Officers were made based on the Compensation Committee's understanding of the market pay for similar positions, internal equity, changes in the price of a share of the Company's common stock to the extent it influenced outstanding equity grants, and the amount of unvested outstanding equity grants.

### **Individual Named Executive Officer Compensation**

**Base Salary.** The Compensation Committee annually reviews each executive's base salary, and determines whether such individual deserves any increases or decreases thereto. These reviews include considerations of, among other things, factors such as the Company's overall performance, new duties and/or responsibilities assumed by the executive, the overall performance of the executive's area of responsibility, the executive's impact on strategic goals, and the executive's length of service with the Company. However, there is no specific weighting applied to any one factor in setting the level of base salary, and the process ultimately relies on the subjective exercise of the Compensation Committee's judgment.

Each of the Named Executive Officers was hired pursuant to an employment agreement which established each Named Executive Officer's initial salary. Each employment agreement was the result of negotiation between the Company and the Named Executive Officer. Although the Compensation Committee has the ability to modify each executive's salary, none of the Named Executive Officers' salaries have been modified except through amendments to their respective employment agreements. The following is a brief description of each Named Executive Officer's contractual provisions with respect to base salary.

*Richard Hadrill.* On June 30, 2004, the Company entered into an employment agreement with Mr. Hadrill (the "Hadrill Agreement") pursuant to which Mr. Hadrill began serving as Chief Executive Officer. Pursuant to the Hadrill Agreement, he received a base salary of \$980,000. On June 21, 2006, the Hadrill Agreement was amended to, among other things, increase Mr. Hadrill's salary to \$998,000.

*Robert Caller.* On March 31, 2006, the Company entered into an employment agreement with Mr. Caller (the "Caller Agreement") pursuant to which Mr. Caller began serving as Executive Vice President, Chief Financial Officer and Treasurer. The Caller Agreement provides for a minimum base salary of \$340,000. Mr. Caller's salary has not changed since the execution of the Caller Agreement.

*Michael Gavin Isaacs.* On June 19, 2006, the Company entered into an employment agreement with Mr. Isaacs (the "Isaacs Agreement") pursuant to which Mr. Isaacs began serving as Executive Vice President and Chief Operating Officer. The Isaacs Agreement provides for a minimum base salary of \$340,000. Mr. Isaacs' salary has not changed since the execution of the Isaacs Agreement.

*Robert Luciano.* On March 2, 2004, the Company entered into an employment agreement with Mr. Luciano (the "Luciano Agreement") pursuant to which Mr. Luciano began serving as Chief Technology Officer. The Luciano Agreement provides for a minimum base salary of \$250,000. Mr. Luciano's salary has not changed since the execution of the Luciano Agreement.

*Ramesh Srinivasan.* On March 9, 2005, the Company entered into an employment agreement with Mr. Srinivasan (the "Srinivasan Agreement") pursuant to which Mr. Srinivasan began serving as Executive Vice President for Bally's Systems Division. The Srinivasan Agreement provided for an initial minimum annual base salary of \$250,000 with an increase to \$275,000 on January 1, 2006. Mr. Srinivasan's salary has not been changed other than as expressly set forth in the Srinivasan Agreement.

**Annual Cash Incentive Programs.** The Company believes that an incentive program tied to annual performance is an effective means of motivating and rewarding executives to enhance long-term stockholder value. This structure is accomplished by providing annual cash incentives under the Company's Management Incentive Plan ("MIP"). Each of the Named Executive Officers participates, or is eligible to participate in, the MIP except for Mr. Hadrill. The Company and Mr. Hadrill determined upon Mr. Hadrill's hiring, to more effectively link his compensation to the success of the implementation of intermediate and long-term strategies as well as stockholder returns, that the most desirable compensation program for him would include substantial equity incentive grants up front with multi-year service requirements, and in some cases, performance contingencies. For the remaining executives, annual performance bonuses are tied to the Company's overall performance, as well as both the performance of each individual executive and the performance of his or her area of responsibility.

Under the MIP, the Compensation Committee establishes a target incentive opportunity, the range of possible incentive awards, the performance measures used, and the level of performance which will correspond to a particular incentive payment, all of which the Compensation Committee uses to determine an executive's annual cash incentive awards. Target incentive opportunities under the MIP for each of the Named Executive Officers, other than Mr. Hadrill, are 60% of base salary. This award level can vary between a maximum payout of 102% of salary, a threshold payout of 24% of salary, and \$0. For fiscal year 2007, the performance goals which affected potential payouts for the Named Executive Officers were as follows: (i) 70% of each executive's award was tied to the Company's performance, which performance, if achieved at the maximum level, would result in a payout equal to 84% of such executive's base salary; and (ii) 30% of each executive's award was tied to individual goals as determined by the Chief Executive Officer, which goals, if achieved at the maximum level, would result in a payout equal to 18% of such executive's base salary. Under the MIP, the Company may elect to distribute any award in restricted stock. The Company may modify, amend or eliminate the MIP at any time.

The Compensation Committee sets and approves certain financial or operational objectives for determining the portion of bonuses that are tied to Company performance. Threshold Company performance must be met to receive a payout. For fiscal year 2007, adjusted earnings per share ("Adjusted EPS") was chosen as the Company performance measure. The Compensation Committee chose Adjusted EPS as the Company performance measure because the Company and the Compensation Committee believe that Adjusted EPS is a good indicator of the Company's achievement with respect to its overall business objectives and a significant driver of stock price performance.

Adjusted EPS is defined as diluted earnings per share as determined in accordance with generally accepted accounting principles plus the after tax cost of stock-based compensation as determined in accordance with Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* ("SFAS 123R"). The Compensation Committee established threshold Company performance for fiscal year 2007 to be Adjusted EPS of \$0.42 per share, a target of Adjusted EPS of \$0.55 per share, and a maximum performance goal of Adjusted EPS of \$0.75 per share. For Company performance results that are between the threshold and target, or between the target and the maximum, the bonus amount is determined by straight line interpolation. For fiscal year 2007, the Company earned Adjusted EPS of \$0.59 per share, resulting in a payout of 120% with respect to the portion of the bonus tied to Company performance.

The individual performance component of the bonus is based on the Compensation Committee's subjective evaluation of the overall performance of each executive. The Compensation Committee reviews the executive's individual contributions and efforts during the year as well as recommendations of the Chief Executive Officer. The recommendations of the Chief Executive Officer are based on individual goals set by the Chief Executive Officer and the executive. The following briefly outlines the goals established for each of the Named Executive Officers for fiscal year 2007.

*Robert Caller.* Mr. Caller's individual performance goals, some of which had a subset of goals, included (i) returning to timely and accurate financial reporting, (ii) implementing improved financial processes and controls to enable faster monthly closes, (iii) implementing IT accounting systems to increase functionality, quality/timelines of reporting, and reducing quarterly manual processes, (iv) improving working capital to ease compliance with bank covenants and analyzing capital structure for possible changes, and (v) improving the work/life balance of the finance department.

*Michael Gavin Isaacs.* Mr. Isaacs' individual performance goals included (i) exceeding revenue and margin growth objectives related to the games and gaming operations, (ii) promoting better communications and operational efficiencies, (iii) product cost reduction, (iv) improving teamwork, and (v) improving the reporting on sales performance, product lifecycles and resulting performance.

*Robert Luciano.* Mr. Luciano's individual performance goals included (i) reducing hardware cost, (ii) increasing engineering efficiency, (iii) fulfilling specific commitments to outside parties, (iv) improving specific technical aspects of current products, and (v) aligning development and sales objectives to focus on the highest earnings potential.

*Ramesh Srinivasan.* Mr. Srinivasan's individual performance goals included (i) meeting budgeted revenue and margin goals for the Systems business, (ii) ensuring the scalability of the department's solutions including oversight of specific projects and the management team while maintaining quality, (iii) ensuring substantial improvement in the major products aesthetics, functionality and stability, (iv) ensuring the development of a Casino Management Systems or Slot Management Systems product option, and (v) ensuring specific growth goals and profit margins for billable services.

The Compensation Committee approved, upon the recommendation of the Chief Executive Officer, payouts at 100% of target regarding the individual performance component of cash incentives for all Named Executive Officers except one, reflecting the Chief Executive Officer's overall assessment that the individual goals for each of the Named Executive Officers but one were achieved or exceeded during fiscal year 2007. The Chief Executive Officer determined that one Named Executive Officer's individual component should be paid at 70% of target, reflecting the substantial progress in achieving the outlined goals while recognizing that some of the goals were not fully implemented in the timeframe anticipated at the beginning of the year. Because Mr. Isaacs' was hired after the beginning

of the fiscal year, Mr. Isaac's award was reduced on a pro-rata basis, to reflect his partial year employment.

In addition to cash incentive payments under the MIP, pursuant to the Isaacs Agreement and Luciano Agreement the Company is obligated to make certain bonus payments to Mr. Isaacs and Mr. Luciano. For fiscal year 2007, Mr. Isaacs was entitled to a \$10,000 signing bonus, and Mr. Luciano was entitled to a \$50,000 bonus. This \$50,000 bonus is payable to Mr. Luciano on each anniversary of the effective date of the Luciano Agreement to the extent he remains employed with the Company.

Target and actual incentive amounts, as well as bonus payments, for each Named Executive Officer for fiscal year 2007 were as follows:

Officer	FY 2007 Target MIP	FY 2007 MIP	FY 2007 Guaranteed Bonus(1)
Richard Haddrill	n/a	n/a	n/a
Robert Caller	\$ 204,000	\$ 214,200	\$ 0
Michael Gavin Isaacs	\$ 170,000(2)	\$ 193,723(2)	\$ 10,000
Robert Luciano	\$ 150,000	\$ 171,000	\$ 50,000
Ramesh Srinivasan	\$ 165,000	\$ 188,100	\$ 0

(1) Represents guaranteed bonus per employment agreement.

(2) Represents a pro-rated bonus due to employment occurring after the beginning of the year.

**Long-Term Incentives.** The Company's long-term incentive program is the component of executive compensation that is most aligned with the long-term interests of stockholders. A significant portion of the Named Executive Officers' target compensation is in the form of long-term incentives. Long-term incentive compensation also enables the Company to motivate leaders and key employees as well as encourage them to provide long-term service to the Company. The Company provides long-term incentives to the Named Executive Officers in the form of stock options and restricted stock or restricted stock units ("RSUs"), which are generally granted under the Amended and Restated Plan.

**Stock Options.** Generally, each stock option granted under the Amended and Restated Plan entitles its holder to purchase one share of the Company's common stock at its fair market value on the date of grant. Stock options granted as part of a long-term incentive award generally vest over three to five years. Prior to the Board resolution on October 29, 2007, each granted stock option generally expires after ten years. On October 29, 2007, the Board considered the accounting expense of a ten year exercisable option relative to the accounting expense of a seven year exercisable option. The Board concluded that the value of an option which expires after seven years, as perceived by a recipient, would not be materially different than if the recipient had received an option which expires after ten years. Accordingly, the Board determined that the standard form of an option award will provide for expiration after seven years. Unless provided otherwise by the Board of Directors or the Compensation Committee at the time of grant, or in certain other circumstances, the terms of stock options are generally as follows:

Unvested stock options vest upon a normal retirement (termination of employment by recipient after he or she attains age 65);

Unvested stock options will vest upon becoming "Permanently Disabled";

Unvested stock options granted prior to the amendment to the Amended and Restated Plan in August 2006 (the "Plan Amendment") will vest upon a change in control in which all of the Company's outstanding stock is exchanged;

## Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-K/A

Unvested stock options granted after the Plan Amendment will vest upon a change in control if the recipient is terminated without "Cause" or for "Good Reason" within twelve months of the change in control;

Vested stock options remain exercisable for ten days after termination for "Cause";

Vested stock options remain exercisable for two years upon death; and

Vested stock options remain exercisable for 60 days (or three months in the case of incentive stock options) after termination if the individual is terminated for any reason other than for "Cause" or upon death.

*Restricted Stock or RSUs.* A grant of restricted stock is an award of common stock where the vesting thereof is subject to certain restrictions established by the Board of Directors or the Compensation Committee. RSUs represent a conditional contractual right to receive one share of the Company's common stock at a specified future date subject to certain restrictions such as a vesting period. For RSUs, the underlying stock is not issued until the time restrictions lapse, at which time the RSU is settled or, if previously elected, deferred. In the event a cash dividend is declared and paid on the Company's common stock, holders of RSUs do not receive dividend equivalents. RSUs do not have voting rights because they are not considered legally issued or outstanding shares of common stock. Unless provided otherwise by the Board of Directors or the Compensation Committee at the time of grant, or in certain other circumstances, the terms of restricted stock or RSUs are generally as follows:

Immediate vesting and settlement occurs in the event of normal retirement (defined above) or Permanent Disability;

Immediate vesting and settlement occurs in the event of a change in control (for awards granted after the Plan Amendment) if a recipient is subsequently terminated without "Cause" or for "Good Reason" within twelve months of the change in control; and

Forfeiture of the award upon termination of employment or upon death to the extent the award's restrictions have not lapsed.

For purposes of the Amended and Restated Plan:

"Cause" means (i) the grantee being convicted of a felony, (ii) the grantee willfully committing an act of embezzlement or malfeasance which is intended to materially enrich himself or herself at the expense of the Company or any of its subsidiaries or is otherwise intended to materially harm the Company, or (iii) the grantee being rejected for an applicable license or approval by a gaming regulatory authority having jurisdiction over the Company as a result of an explicit finding of lack of suitability solely as a result of the grantee's commission of a crime or an act of embezzlement or malfeasance.

"Good Reason" means unless otherwise provided in a Grantee's employment agreement, (i) a material reduction in the grantee's base salary, or (ii) a material reduction in the grantee's duties and responsibilities.

"Permanently Disabled" means that, as interpreted by the Compensation Committee, (i) the grantee cannot perform the work previously performed, (ii) the grantee cannot adjust to other position requirements due to a medical condition, and (iii) the grantee's disability has lasted or is expected to last for at least one year or result in death.

*Fiscal Year 2007.* Long-term incentive awards granted to the Named Executive Officers were generally issued in connection with either the executive's initial employment or pursuant to amended employment agreements and are determined based on the Board of Directors' or Compensation Committee's assessment of the amount required to induce employment or continued employment with the Company. Among the factors considered by the Board of Directors or the Compensation

Committee were the Named Executive Officer's compensation at prior employers, the level required to meet the desired mix of pay which emphasizes long-term incentives, and market levels of pay. The following is a brief description of the grants of stock options and restricted stock made in fiscal year 2007 as well as the Compensation Committee's determination of award vesting.

*Mr. Hadrill.* Mr. Hadrill was granted 156,507 RSUs pursuant to the December 22, 2004 amendment to the Hadrill Agreement. The terms of these awards allowed for the accelerated vesting of 50% of the award in fiscal year 2007 if certain performance measures had been met during the year ending October 1, 2006. The Compensation Committee determined on October 25, 2006 that Mr. Hadrill had attained the strategic measures necessary to qualify for accelerated vesting including: the completion of the approved Sarbanes-Oxley remediation plan, development of succession assessment and process for key executive positions, and development of a three-year industry and business growth assessment.

*Mr. Isaacs.* As an inducement to join the Company, the terms of the Isaacs Agreement provided that Mr. Isaacs would receive an option to acquire 150,000 shares of Company common stock at a per-share exercise price equal to the market price thereof on the effective date of the Isaacs Agreement, subject to the approval of the Board of Directors. This award will become exercisable in four equal installments of 37,500 on the first, second, third and fourth anniversary dates of the effective date of the Isaacs Agreement, September 1, 2006. Subject to Board of Director approval, Mr. Isaacs was also to be granted 50,000 shares of the Company's restricted stock, 25,000 of which will vest on September 1, 2008, 12,500 on September 1, 2009 and the remaining 12,500 shares on September 1, 2010. These awards were subsequently approved by the Board of Directors on May 22, 2006 and issued on September 1, 2006.

*Messrs. Caller and Srinivasan.* As stated previously, the Company may issue restricted stock in lieu of cash under the MIP. On September 12, 2006, Messrs. Caller and Srinivasan were issued restricted stock in lieu of cash incentive awards for fiscal year 2006. Mr. Caller's shares vested upon grant and Mr. Srinivasan's shares vested one year after grant.

***Other Executive Benefits, including Perquisites and Retirement Benefits.*** The Named Executive Officers are entitled to the same employee benefits generally available to all full-time employees, subject to certain conditions such as fulfilling any minimum service period. These benefits include, among other things, vacation, health and welfare benefits and participation in the Company's 401(k) Savings Plan.

Certain other perquisites are also made available to executives, including the Named Executive Officers. These benefits include reimbursement for the cost, including any taxable amount, of bi-annual physical exams. In addition, during fiscal year 2007, the Company paid for a country club initiation fee for Mr. Hadrill as required by the Hadrill Agreement as well as limited business-related spousal travel for Messrs. Hadrill and Srinivasan.

In designing these elements, the Company seeks to provide an overall level of benefits that are competitive with those offered by similarly situated companies in the markets in which the Company operates based upon its general understanding of industry practice. The Company believes that these particular plans and programs provide a valuable recruiting and retention mechanism for its executives and enable the Company to compete more successfully for qualified executive talent. In addition, the use of such perquisites in lieu of salary increases to compensate for the loss of those benefits avoids the increased costs that would otherwise occur with respect to certain other benefits that are tied to the level of an executive's base salary (such as annual cash incentive compensation). Further details regarding these types of benefits paid to the Named Executive Officers are set forth in the "All Other Compensation" column and the accompanying footnotes in the "Executive Compensation Fiscal Year 2007 Summary Compensation Table."

### **Timing of Equity Grants**

Executives receive long-term equity awards pursuant to the terms of the Amended and Restated Plan, which was approved by the Company's stockholders. Awards are also granted outside of the Amended and Restated Plan to the extent those grants are permitted by the rules of the NYSE. The Board of Directors, or as delegated to the Compensation Committee, administers the Amended and Restated Plan and establishes the rules for all awards granted thereunder, including grant guidelines, vesting schedules and other provisions. The Board of Directors or the Compensation Committee reviews these rules periodically and considers, among other things, the interests of the stockholders, market conditions, information provided by independent advisors, performance objectives and recommendations made by the Chief Executive Officer.

The Board of Directors or the Compensation Committee reviews awards for all employees. For annual awards, the Compensation Committee has established a process where the Compensation Committee reviews the recommendations of the Chief Executive Officer for executives and other employees, modifies the proposed grants in certain circumstances, and approves the awards effective as of the date of its approval. The annual grants are generally determined following the end of each fiscal year, and in conjunction with the recommendation for annual bonuses. Pursuant to the terms of the Amended and Restated Plan, the Board of Directors has delegated certain limited authority to the Chairman of the Compensation Committee and the Chief Executive Officer to make equity grants in accordance with the rules established by the Board of Directors for, in the case of the Chief Executive Officer, non-direct reports of the Chief Executive Officer, throughout the year. The Chairman of the Compensation Committee has been delegated limited authority to make equity grants to all employees.

The exercise price of stock option grants are set at 100% of the closing market price of a share of Company common stock on the date the Board of Directors or Compensation Committee approves the grants, or upon the date such approval is made by the Chairman of the Compensation Committee or Chief Executive Officer under the limited delegated authority referenced above, to be reported to the Board of Directors or Compensation Committee at its next regularly scheduled meeting. The exercise price of new hire awards and relocation or retention grants is determined as set forth above, except that the exercise price is set on the date of hire or effective date of the underlying agreement providing for such grant rather than the date of the approval thereof.

### **Employment Agreements and Post-Termination Payments**

As previously discussed, the Company maintains employment agreements with each Named Executive Officer. The Compensation Committee determined that the compensation packages provided under these agreements was fair and reasonable on the basis of its assessment of comparable compensation opportunities available to the individuals, including the compensation arrangements of each Named Executive Officer at his prior place of employment.

***Payments due Upon Termination and/or a Change in Control.*** Prior to the effectiveness of the Plan Amendment on August 8, 2006, the Amended and Restated Plan provided for the accelerated vesting of options, restricted stock and RSUs in the event of a change in control in which all of the outstanding stock held by the shareholders of the Company is exchanged for any lawful consideration. The Amended and Restated Plan currently provides for the accelerated vesting of stock options in the event of a change in control and subsequent termination of employment without Cause or for Good Reason within twelve months thereof. In addition, certain employment agreements, as discussed in the section "Executive Compensation Potential Payments upon Termination or Change in Control at Fiscal Year-End 2007", as well as certain forms of equity agreements also set forth specific terms with respect to the accelerated vesting of equity awards upon either a change in control or a change in control followed by a termination of employment.

The Compensation Committee believes that for senior executives, including the Named Executive Officers, accelerated vesting of stock options in the event of a change in control is generally appropriate because in some change in control situations, equity of the target company is cancelled making immediate acceleration necessary in order to preserve the value of the award. In addition, as previously discussed, the Company relies primarily on long-term incentive awards to provide the Named Executive Officers with the opportunity to accumulate substantial resources to fund their retirement income, and the Compensation Committee believes that a change in control event is an appropriate liquidation point for awards designed for such purpose. Although the Company continues to believe that single trigger change in control vesting is appropriate under the circumstances described above, the Company adopted the Plan Amendment to provide additional flexibility in circumstances where the Company believes that it is more appropriate to require a termination of employment within one year following a change in control before vesting is accelerated. The Company presumes that such a termination would likely be due to the change in control and not the employee's performance and therefore the award should be earned. For employees not terminated within twelve months of a change in control, the employees would continue to vest in their awards as they contribute to the success of the surviving company. The Company anticipates that such double trigger vesting acceleration will be used mainly for those employees who receive equity awards which are not a substantial component of their annual compensation or for whom it is considered unlikely in many circumstances that a terminating event would occur for those employees upon a change in control.

In addition, certain executives, including each of the Named Executive Officers, receive cash severance in certain circumstances that result in termination of employment. The Compensation Committee believes these provisions are fair and reasonable based on its understanding of market practice among industry competitors noted above and within the broader environment of technology companies and similarly sized businesses.

Calculations of the payments due to the Named Executive Officers upon certain terminations of employment and/or in connection with a change in control are set forth under "Executive Compensation Potential Payments upon Termination or Change in Control at Fiscal Year-End 2007."

#### **Stock Ownership Guidelines and Hedging Policies**

The Company has neither adopted stock ownership guidelines for executive officers nor any policies prohibiting executives from holding Company securities in a margin account or pledging Company securities as collateral for a loan. However, the Company discourages speculation in Company common stock and encourages employees to diversify their stock holdings. In addition, under Section 304 of the Sarbanes-Oxley Act, if the Company is required to restate its financial statements due to material noncompliance with any financial reporting requirements as a result of misconduct, the Chief Executive Officer and Chief Financial Officer may be required to reimburse the Company for (i) any bonus or other incentive-based or equity-based compensation received during the 12 months following the first public issuance of the non-complying document, and (ii) any profits realized from the sale of securities of the Company during that 12-month period.

#### **Impact of Tax and Accounting**

As a general matter, the Compensation Committee takes into account the various tax and accounting implications of the compensation vehicles employed by the Company.

When determining amounts of long-term incentive grants to executives and employees, the Compensation Committee examines the accounting cost associated with the grants. Under SFAS 123R, grants of stock options and RSUs result in an accounting charge for the Company equal to the grant date fair value of those securities. For RSUs, the accounting cost is generally equal to the fair market value of the underlying shares of common stock on the date of the award. The cost is then amortized

over the requisite service period. With respect to stock options, the Company calculates the grant date fair value based on the Black-Scholes formula with an adjustment for possible forfeitures and amortizes that value as compensation expense over the vesting period.

Section 162(m) of the Code does not permit publicly-traded companies to take income tax deductions for compensation paid to the Chief Executive Officer and certain other executive officers to the extent that compensation exceeds \$1 million per officer in any taxable year and does not otherwise qualify as performance-based compensation. The Amended and Restated Plan is structured so that the compensation deemed paid to an executive officer in connection with the exercise of stock options granted under the Amended and Restated Plan should qualify as performance-based compensation not subject to the \$1 million limitation. In addition, awards of restricted stock or RSUs made under the Amended and Restated Plan may or may not qualify as performance-based compensation. A portion of the restricted stock issued to Mr. Isaacs during fiscal year 2007 will not qualify as performance-based compensation. The restricted stock issued to Messrs. Caller and Srinivasan in lieu of 2006 cash incentives will not qualify as performance-based compensation under Section 162(m) of the Code.

The MIP cash incentive program for fiscal year 2007 is not designed to provide bonus payments that would qualify as performance-based compensation as defined in Section 162(m) of the Code, nor would any guaranteed bonus payments qualify as performance-based compensation.

The Compensation Committee will continue to consider steps that might be in the Company's best interests to comply with Section 162(m) of the Code. However, in establishing the cash and equity incentive compensation programs for the Named Executive Officers, the Compensation Committee believes that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole or primary factor. The Compensation Committee believes that cash and equity incentive compensation must be maintained at the requisite level to attract and retain the executive officers essential to the Company's financial success, even if all or part of that compensation may not be deductible by reason of the limitations of Section 162(m) of the Code.

### **ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE**

#### **Related Party Transactions**

Mr. Kirschbaum until his death in August 2006, was a director of the Company and the sole stockholder, director and officer of Kirkland Investment Corporation ("KIC"), which, effective July 1, 2004, was party to an Advisory Services Agreement that called for the Company to pay KIC \$600,000 annually for advisory and related services for a period of three and one-half years. In August 2006, the Company made its last payment under the advisory agreement as a result of Mr. Kirschbaum's death.

The Company also leases a warehouse and office facility from an entity owned by Mr. Luciano, the Company's Chief Technology Officer (and a Named Executive Officer). The lease was assumed in connection with the Company's acquisition of SDG.. Rental payments for the fiscal years ended June 30, 2007 totaled \$448,000. The Company is obligated to make an aggregate of \$1,083,000 in future payments under the current terms of the lease.

It is the Company's general policy not to enter into related party transactions. To the extent a related party has an interest in a transaction, the Board of Directors reviews such transaction, the related party's interest and determines whether such transaction is in the best interests of the Company and its stockholders.

## Director Independence

The Board of Directors has adopted Independence Guidelines, which are available as part of the Company's Corporate Governance Guidelines on the Company's website, [www.ballytech.com](http://www.ballytech.com) by following the link to "Investor Relations" and "Governance." The Board of Directors has affirmatively determined that Messrs. André, Guido, Stephen M. Race, Robbins, and Verner are, or in Mr. Race's circumstances was, independent under Section 303A.02 of the NYSE Listed Company Manual and the Company's Independence Guidelines. Mr. Race elected not to stand for re-election at the 2006 Annual Meeting of Stockholders and ceased serving as a director effective May 3, 2007. The Board has also affirmatively determined that no relationships exist between any independent director and the Company that, in the opinion of the Board of Directors, would interfere with the exercise of such director's independent judgment in carrying out the responsibilities of a director. The NYSE's independence definition also includes a series of objective tests, such as that the director is not an employee of the Company and has not engaged in various types of business dealings involving the Company, that would prevent a director from being independent. None of the Company's independent directors has any relationship that violates these tests
