OUTSTANDING SHARES AND VOTING RIGHTS

The Board of Directors of the Company fixed April 8, 2016 as the record date ("*Record Date*") for the determination of stockholders entitled to notice of and to vote at the Meeting. On the Record Date there were 21,759,860 shares of common stock issued, outstanding and entitled to vote. The Company has no other voting securities outstanding. Each stockholder of record is entitled to one vote per share held on all matters submitted to a vote of stockholders, except that in electing directors each stockholder is entitled to cumulate his or her votes and give any one candidate an aggregate number of votes equal to the number of directors to be elected (6), multiplied by the number of his or her shares, or to distribute such aggregate number of votes among as many candidates as he or she chooses. For a stockholder to exercise cumulative voting rights, the stockholder must give notice of his or her intention to cumulatively vote prior to the Meeting or at the Meeting in person, prior to voting. If any stockholder has given such notice, all stockholders may cumulatively vote. The holders of proxies will have authority to cumulatively vote and allocate such votes in their discretion to one or more of the director nominees. The holders of the proxies solicited do not intend to cumulatively vote the shares they represent unless a stockholder indicates his or her intent to do so, in which instance they intend to cumulatively vote all the shares they hold by proxy in favor of the director nominees identified herein.

The holders of a majority of the outstanding shares of common stock on the Record Date entitled to vote at the Meeting in person or by proxy will constitute a quorum for the transaction of business at the Meeting. In accordance with the Company's Amended and Restated Bylaws, an affirmative vote of a majority of the votes cast is required for approval of all matters. Abstentions and broker non-votes are not included in the determination of the number of votes cast at the Meeting, but are counted for purposes of determining whether a quorum is present.

CORPORATE GOVERNANCE

In accordance with the Delaware General Corporation Law, the Company's Restated Certificate of Incorporation and Amended and Restated Bylaws, the Company's business, property and affairs are managed under the direction of the Board of Directors. Although the Company's non-employee directors are not involved in day-to-day operations, they are kept informed of the Company's business through written financial and operations reports and other documents provided to them from time to time by the officers of the Company, as well as by operating, financial and other reports presented by the officers of the Company in preparation for, and at meetings of, the Board of Directors and the three standing committees of the Board of Directors.

The Board of Directors is ultimately responsible for the Company's corporate governance and it is the responsibility of the Board of Directors to ensure that the Company complies with federal securities laws and regulations, including those promulgated under the Sarbanes-Oxley Act of 2002.

The Board of Directors has adopted a Code of Ethics for Chief Executive Officer, Chief Financial Officer and Other Executive Officers as well as a Code of Ethics for Directors (collectively the "*Codes of Ethics*"), which have been filed with the SEC and posted on the Company's website at www.usecology.com. Please note that none of the information on the Company's website is incorporated by reference in this Proxy Statement. There have been no waivers to the Codes of Ethics since their adoption. Any future waivers or changes would be disclosed on the Company's website.

Independence. The Company is required by NASDAQ listing standards to have a majority of independent directors. The Board of Directors has determined that the following directors are independent as defined by the applicable NASDAQ standards: Joe F. Colvin, Katina Dorton, Daniel Fox, Stephen A. Romano and John T. Sahlberg. The Board of Directors has determined that each of these directors is free of any relationship that would interfere with his or her exercise of independent judgment in carrying out the responsibilities of a director.

Mr. Feeler is the Company's President and Chief Executive Officer and therefore not considered independent under the applicable NASDAQ standards. The Board of Directors also determined that David M. Lusk, who is currently a director of the Company but who is not standing for reelection at the Annual Meeting, is independent under such standards.

Meetings of the Board of Directors. During the year ended December 31, 2015, the Board of Directors held five regularly scheduled meetings. Six special meetings of the Board were also held. Each of the directors attended at least 75% of the total meetings of the Board of Directors and the total number of meetings held by the committees on which he or she served. Director attendance at the Annual Meeting of Stockholders is encouraged but not required. All directors who stood for election at the 2015 Annual Meeting of Stockholders on May 27, 2015 attended that meeting. It is the policy of the Board to hold regular executive sessions where non-employee directors meet without management participation. The Board of Directors met in executive session without management present at all regularly scheduled Board of Directors meetings in fiscal year 2015.

Risk Oversight. The Board of Directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value while managing risk. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to understand and manage those risks, but also evaluating what level of risk is appropriate for the Company. The involvement of the full Board of Directors in setting the Company's business strategy is a key part of its assessment of management's risk tolerance and determination of what constitutes an appropriate level of risk for the Company. The full Board of Directors participates in an annual enterprise risk management assessment, which is monitored and coordinated by the Company's Audit Committee. In this process, risk is assessed throughout the business, focusing on three primary areas of risk: financial risk, legal/compliance risk and operational/strategic risk.

While the Board of Directors has the ultimate oversight responsibility for the risk management process, committees of the Board also have responsibility for certain aspects of risk management. In particular, the Audit Committee focuses on financial risk, including internal controls. In setting compensation, the Compensation Committee strives to create incentives and equity ownership programs that will align the interests of management with stockholders and encourage an appropriate level of risk-taking behavior consistent with the Company's business strategy. The Company conducts an annual assessment of the risk management process which is monitored and coordinated by the Company's Audit Committee, the findings of which are reported to the Board.

Committees of the Board of Directors. The three standing committees of the Board of Directors are the Audit, Corporate Governance and Compensation Committees.

Audit Committee The current members of the Audit Committee are Messrs. Fox and Sahlberg, and Ms. Dorton. Mr. Fox is the chairman. The Audit Committee, which met four times in 2015, has duties that include the following:

Reviewing the proposed plan and scope of the Company's annual audit, as well as the audit results, and reviewing and approving the selection of and services provided by the Company's independent registered public accountant and its fees;

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Meeting with management to assure the adequacy of accounting principles, financial controls and policies;

Reviewing transactions that may present a conflict of interest on the part of management or individual directors;

Meeting at least quarterly to review financial results, discuss financial statements and SEC reporting and make recommendations to the Board;

Overseeing enterprise-wide approach to risk management;

Monitoring dividend policy and confirming that cash flows are legally sufficient to support dividend payments prior to declaration; and

Reviewing the independent registered public accountant's recommendations for internal controls, adequacy of staff and management performance concerning audit and financial controls.

The Board of Directors has determined that each of Messrs. Fox and Sahlberg, and Ms. Dorton meet the independence requirements for Audit Committee service set forth in the applicable rules under the Securities Exchange Act of 1934, as amended (the "*Exchange Act*"), and that each of Mr. Fox and Ms. Dorton qualifies as an "audit committee financial expert" as defined in Item 407 of Regulation S-K. The written charter for the Audit Committee is available on the Company's website at www.usecology.com.

Corporate Governance Committee The current members of the Corporate Governance Committee are Messrs. Colvin and Fox, and Ms. Dorton. Ms. Dorton is the chairman. The Corporate Governance Committee, which met two times in 2015, fulfills the requirement of a nominating committee composed solely of independent directors as required by the applicable NASDAQ listing standards. The Corporate Governance Committee is responsible for identifying and recommending qualified and experienced individuals to fill vacancies and potential new director seats if the Board is expanded. On March 3, 2016, the Corporate Governance Committee recommended and the Board of Directors discussed and approved the six director nominees standing for election at the Annual Meeting, five of whom the Board of Directors has determined are independent as defined by the applicable NASDAQ standards.

The Corporate Governance Committee does not have a stated policy with regard to the consideration of diversity in identifying director nominees, but rather evaluates candidates based upon various factors, including, but not limited to:

Integrity;

Education and business experience;

Broad-based business acumen;

Understanding of the Company's business, industry and related regulatory environment; and

Expertise.

The Company believes that consideration of these and other factors leads to a Board consisting of individuals with viewpoints, professional experience, education, skills and other qualities that contribute to Board heterogeneity. The Corporate Governance Committee and Board evaluated the qualifications of the Board as a whole, considering a number of key skills. The Corporate Governance Committee concluded that the individuals nominated to stand for election at the Annual Meeting of Stockholders collectively offer a mix of skills, expertise and experience that is well suited to the Company's needs. The written charter for the Corporate Governance Committee is available on the Company's website at www.usecology.com.

Compensation Committee The current members of the Compensation Committee are Messrs. Colvin, Fox and Sahlberg. Mr. Colvin is the chairman. The Board of Directors has determined that each of Messrs. Colvin, Fox and Sahlberg meets the independence requirements for Compensation Committee service set forth by the applicable NASDAQ listing standards. The Compensation Committee, which met five times in 2015, oversees the Company's overall compensation policies, reviews and approves performance targets for the Company's incentive compensation programs, designs and administers the Company's equity compensation plans, and reviews and approves the compensation of each of the Named Executive Officers, including the amount of base salary, incentive compensation and equity compensation payable. The Compensation Committee also makes recommendations to the Board regarding compensation of the Board and performs other Board-delegated functions. The written charter for the Compensation Committee is available on the Company's website at www.usecology.com.

Board Leadership Structure. Each year the Board selects a Chairman of the Board and a Chief Executive Officer. The Chairman of the Board is responsible for helping establish the Company's strategic priorities, presiding over Board meetings and communicating the Board's guidance to management. The Chief Executive Officer, on the other hand, is responsible for the day-to-day management of the Company's operations and business and reports directly to the Board.

During the 2015-2016 Board year, the roles of Chairman of the Board and Chief Executive Officer were both held by Mr. Feeler. Mr. Feeler has been with the Company for nearly a decade, which has given him a unique understanding of the environmental services industry, market trends and the Company's strategic position, strengths and weaknesses, as well as day-to-day operational details. The Board believes that these attributes make Mr. Feeler uniquely qualified to serve in both positions and helps the Board and management operate in an efficient and effective manner.

The Company's Corporate Governance Guidelines specify that when the Chairman of the Board also serves as an employee of the Company, the Chairman of the Corporate Governance Committee shall serve as "Lead Independent Director" and, among other things, serve as a liaison between the non-independent chairman and the independent directors; review and approve the schedule, agenda and materials for all meetings of the Board; chair executive sessions of the independent Board members at scheduled Board meetings without the non-independent chairman present; provide consultation and direct communication to major stockholders, if requested; and call special meetings of the independent Board members if needed. From the date of Mr. Feeler's appointment to Chairman of the Board on May 27, 2015, Ms. Dorton has served as Lead Independent Director.

Although the Board believes that this leadership structure is currently in the best interests of the Company and its stockholders, the Board will, from time to time, reevaluate whether to separate the responsibilities of Chief Executive Officer and Chairman of the Board.

SUBMISSION OF STOCKHOLDER PROPOSALS AND DIRECTOR NOMINATIONS

In accordance with SEC rules and regulations, the Company must receive stockholder proposals submitted for inclusion in the Company's proxy materials and for consideration at the 2017 Annual Meeting of Stockholders ("*2017 Annual Meeting*") no later than December 12, 2016. Any such proposals are requested to be submitted to Wayne R. Ipsen, Secretary, US Ecology, Inc., 251 E. Front St., Suite 400, Boise, Idaho 83702 and should comply with the SEC rules governing stockholder proposals submitted for inclusion in proxy materials.

Stockholders may also submit recommendations for nominees for director to Wayne R. Ipsen, Secretary, US Ecology, Inc., 251 E. Front St., Suite 400, Boise, Idaho 83702. Recommendations are requested no later than December 12, 2016 for consideration by the Corporate Governance Committee for the 2017 Annual Meeting of Stockholders. In considering any nominee proposed by a stockholder, the Corporate Governance Committee will apply the same criteria it uses in evaluating all director candidates. Nominees should reflect suitable expertise, skills, attributes and personal and professional backgrounds for service as a director of the Company.

Other stockholder communications to the Board of Directors may be sent at any time to US Ecology, Inc., c/o Wayne R. Ipsen, Secretary, 251 E. Front St., Suite 400, Boise, Idaho 83702. Management intends to summarize and present all such communications to the Board of Directors.

The SEC has promulgated rules relating to the exercise of discretionary voting authority under proxies solicited by the Board of Directors. If a stockholder intends to present a proposal at the 2017 Annual Meeting without inclusion of that proposal in the Company's proxy materials and written notice of the proposal is not received by the Secretary of the Company by March 8, 2017 (the date that is forty-five (45) days before the one year anniversary on which the Company first sent its proxy materials for this Annual Meeting), or if the Company meets other requirements of the applicable SEC rules, the proxies solicited by the Board of Directors for use at the 2017 Annual Meeting will confer discretionary authority to vote on the proposal should it then be raised at the 2017 Annual Meeting.

ELECTION OF DIRECTORS

PROPOSAL NO. 1

At the Meeting, the six director nominees receiving the greatest number of votes cast will be elected, provided that each nominee receives a majority of the votes cast. Directors so elected will hold office until the next Annual Meeting of Stockholders or until their death, resignation or removal, in which case the Board of Directors may or may not appoint a successor. It is the intent of the persons named in the proxy, Jeffrey R. Feeler and Wayne R. Ipsen, to vote proxies that are not marked to the contrary for the director nominees named below. If any nominee is unable to serve, the named proxies may, in their discretion, vote for any or all other persons who may be nominated.

The Corporate Governance Committee recommended six directors to stand for election to the Board of Directors. All nominees have agreed to serve if elected. During 2015, the Company did not receive any nominee recommendations from stockholders.

**RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

PROPOSAL NO. 2

The Audit Committee has selected Deloitte & Touche LLP ("*Deloitte*") as the Company's independent registered public accountant for the 2016 fiscal year. A Deloitte representative plans to be present telephonically or in person at the Annual Meeting, available to answer appropriate questions and will have an opportunity to make a statement if he or she desires to do so.

While stockholder ratification of Deloitte as the Company's independent registered public accountant is not required by the Company's Restated Certificate of Incorporation, Amended and Restated Bylaws or otherwise, the Board is submitting its selection of Deloitte for ratification as a matter of good corporate practice. If the stockholders do not ratify the selection, the Board, in conjunction with its Audit Committee, will further evaluate whether to retain Deloitte. If the selection is ratified, the Board and the Audit Committee, in their discretion, may direct the appointment of a different independent accounting firm at any time if they determine that such a change would be in the best interests of the Company and its stockholders.

The affirmative vote of the holders of a majority of the votes cast is required to ratify the appointment of Deloitte. Abstentions and broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether this proposal has been ratified.

Deloitte prepared an annual engagement letter that was submitted to the Audit Committee for approval for the 2015 audit. The Audit Committee approved all of the non-audit services provided by Deloitte in fiscal year 2015 in advance of the services being performed. The engagement letter created a contract between the Company and Deloitte that specified the responsibilities of each party. It was signed on behalf of the Company by the Chairman of the Audit Committee and the Chief Financial Officer. The Company paid Deloitte a fixed amount for the annual audit and each quarterly review and for other services agreed to in the engagement letter and subsequent amendments. The Audit Committee believes that Deloitte's provision of non-audit services has been compatible with maintaining the firm's independence.

The Board of Directors unanimously recommends a vote FOR ratification of the appointment of Deloitte & Touche LLP as the Company's independent registered public accounting firm.

ADVISORY VOTE ON EXECUTIVE COMPENSATION

PROPOSAL NO. 3

As required by Section 14 of the Exchange Act, the Company is providing its stockholders with the opportunity to cast an advisory vote on the compensation of its named executive officers, as disclosed pursuant to Item 402 of Regulation S-K in the Compensation Discussion and Analysis section and accompanying tables of this Proxy Statement. These individuals are referred to collectively in this Proxy Statement as the Company's "Named Executive Officers". The Board of Directors believes it is appropriate to seek the views of its stockholders on the design and effectiveness of the Company's executive compensation program.

The Company's goal for its executive compensation program is to attract and retain exceptional, highly motivated individuals as executive officers who will provide leadership for the Company's success in dynamic, highly competitive markets. The Company seeks to accomplish this goal in a way that is aligned with the long-term interests of the Company's stockholders. The Company believes that its executive compensation program achieves this goal with its emphasis on long-term equity awards and performance-based compensation.

As an advisory vote, this proposal is not binding upon the Company. However, the Board of Directors values the opinions expressed by stockholders in their vote on this proposal and, to the extent that a significant percentage of votes are cast against the compensation of the Named Executive Officers, the Compensation Committee will evaluate potential changes for consideration by the full Board to address the concerns reflected in such votes. The Company expects to hold its next advisory vote on executive compensation at its 2017 Annual Meeting in accordance with the preference expressed by the majority of the Company's stockholders.

Accordingly, the Company asks the stockholders to vote on the following resolution:

"RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K in the Compensation Discussion and Analysis, compensation tables and narrative discussion sections of this Proxy Statement, is hereby APPROVED."

The Board of Directors unanimously recommends a vote FOR the resolution approving the compensation of the Company's Named Executive Officers.

AUDIT COMMITTEE REPORT

The information contained in this report shall not be deemed to be "soliciting material" or "filed" or incorporated by reference in future filings with the SEC or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

The Audit Committee has reviewed and discussed the Company's audited financial statements with management. The Audit Committee has also discussed with Deloitte, the Company's independent registered public accountant for fiscal year 2015, the matters required to be discussed by the Public Company Accounting Oversight Board (the "PCAOB") and the SEC. These include, among other items, the audit of the Company's financial statements. The Audit Committee has reviewed with the independent registered public accountant its judgment as to the quality, not just the acceptability, of the Company's accounting principles, as well as its opinion on the effectiveness of the Company's internal controls over financial reporting.

The Audit Committee has received written disclosures and the letter from Deloitte required by the PCAOB Ethics and Independence Rule 3526 relating to the registered public accountant's independence from the Company and its related entities and has discussed with Deloitte the registered public accountant's independence from the Company. The Audit Committee has considered whether the provision of services by the registered public accountant, other than audit services and review of Forms 10-Q, is compatible with maintaining the registered public accountant's independence.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the Company's earnings releases and quarterly reports on Form 10-Q for the quarters ended March 31, June 30, and September 30, 2015, and the fiscal year earnings release and audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. This included discussion of the quality, not just the acceptability, of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

Based on the review of the Company's audited financial statements and discussion with management and the independent registered public accountant described above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

In addition, the Audit Committee, in consultation with executive management, has selected Deloitte as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2016. The Board has recommended to the stockholders that they ratify and approve the selection of Deloitte as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2016.

While the Audit Committee has provided oversight, advice and direction regarding the Company's financial reporting process, management is responsible for establishing and maintaining the Company's internal controls, the preparation, presentation and integrity of financial statements and for the appropriateness of the accounting principles and reporting policies used by the Company. It is the responsibility of the independent registered public accountant, not the Audit Committee, to conduct the audit and opine on the conformity of the financial statements with accounting principles generally accepted in the United States, to opine on the effectiveness of the Company's internal control over financial reporting and to review the Company's unaudited interim financial statements. The Audit Committee's responsibility is to monitor and review these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

This report is respectfully submitted by the Audit Committee of the Board of Directors:

AUDIT COMMITTEE

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes the Company's compensation program for the Named Executive Officers for fiscal year 2015. The Company's executive compensation program is performance-based and otherwise designed to ensure that the interests of its executive officers, including the Named Executive Officers, are closely aligned with those of stockholders. The Board believes this program is effective in allowing the Company to attract and motivate highly qualified senior talent capable of delivering outstanding business performance. The following discussion presents the Company's executive compensation program and policies. The Compensation Committee has provided oversight on the design and administration of the Company's executive compensation program and policies, participated in the preparation of the Compensation Discussion and Analysis and recommended to the Board that it be included in this Proxy Statement. The Company's stockholders overwhelmingly approved our executive compensation program at our last annual meeting. Of the shares voted, 99.45% voted for approval, .37% voted against, and .16% abstained. Although this vote is non-binding, the Compensation Committee viewed this strong endorsement of our executive compensation decisions and policies as an additional factor supporting the Compensation Committee's conclusion that our existing approach to executive compensation has been successful for the Company and our stockholders.

The Company's Named Executive Officers for fiscal year 2015 were Jeffrey R. Feeler (President and Chief Executive Officer), Eric L. Gerratt (Executive Vice President, Chief Financial Officer and Treasurer), Steven D. Welling (Executive Vice President of Sales and Marketing), Simon G. Bell (Executive Vice President of Operations, Environmental Services) and Mario Romero (Executive Vice President of Operations, Field and Industrial Services).

Oversight of the Executive Compensation Program

The Compensation Committee, which is composed entirely of independent directors, administers the Company's executive compensation program. Committee membership is determined by the Board of Directors. The Compensation Committee has direct responsibility to review and recommend corporate goals and objectives relevant to the compensation of the Company's Chief Executive Officer, evaluate his performance in light of such goals and objectives, and make recommendations regarding his compensation based on this evaluation. The Compensation Committee also reviews the evaluation process and compensation structure for the Company's other executive officers, including the other Named Executive Officers, and makes recommendations regarding their compensation and that of the Board of Directors. The Compensation Committee also administers the Company's programs for incentive cash and equity payments.

Objective of the Executive Compensation Program

The Company's long-term goal is to increase stockholder value. The objective of the executive compensation program is to attract, motivate, reward and retain highly qualified executive officers with the ability to help the Company achieve this goal. The executive compensation program is designed to provide a foundation of fixed compensation and a significant portion of performance-based compensation to align the interests of the Company's executive officers, including the Named Executive Officers, with those of the Company's stockholders.

Principles

The Company believes that in order to meet its goal of increasing stockholder value, compensation must be both reasonable and competitive with what the Named Executive Officers would otherwise obtain if employed elsewhere in a similar position with similar responsibilities. The Compensation Committee believes performance-based executive compensation should reflect value created for stockholders consistent with the Company's strategic goals. The following principles are among those applied by the Compensation Committee:

Executive compensation programs should support short and long-term strategic goals and objectives;

Executive compensation programs should reflect the Company's overall value and business growth and reward individuals for outstanding contributions; and

Short and long-term executive compensation are critical factors in attracting and retaining well-qualified executive officers.

The Compensation Committee seeks to apply best practices in developing and administering compensation and benefit programs and has taken steps to enhance its ability to effectively carry out its responsibilities and to ensure that the Company maintains strong links between pay and performance. Examples of actions the Compensation Committee has taken to accomplish this include:

Periodically rotating Compensation Committee members and the Compensation Committee Chairman;

Reviewing publicly available data on compensation for executive officers in peer group companies;

Establishing minimum stock ownership requirements for directors and Named Executive Officers; and

Establishing incentive programs for Named Executive Officers.

Role of Executive Officers and Consultants

While the Compensation Committee determines the Company's overall compensation philosophy and independently recommends the compensation of the Chief Executive Officer to the full Board, it consults with the Chief Executive Officer with respect to both overall guidelines and specific compensation decisions for the other executive officers. As part of this process, the Chief Executive Officer gathers compensation data for public and sometimes private companies. The Compensation Committee then evaluates this and other information and discusses it with the Chief Executive Officer before presenting recommendations to the Board of Directors. The Compensation Committee has the authority to retain independent compensation consultants to provide advice relating to market and compensation trends and to assist with data gathering and analysis. In 2014 and 2015 the Compensation Committee engaged Meridian Compensation Partners, LLC ("*Meridian*") to assist the Committee in its review of executive and director compensation. The Committee authorizes the Company to pay Meridian for its services around executive and director compensation and related governance, including meeting preparation and attendance, advice and best practice information, as well as competitive data. In 2016, Meridian also provided services related to change-of-control agreements for certain non-Named Executive Officers.

Meridian has no other business relationships with the Company and provides no other services to the Company. The Compensation Committee adopted a written policy to review the independence of any compensation consultants it uses for executive compensation matters. The Compensation Committee considered Meridian in light of the six independence factors mandated by SEC rules and related NASDAQ listing standards and concluded that Meridian is independent.

Relevance to Performance

The executive compensation program emphasizes performance measured by goals or equity vehicles that align the interest of executives with those of the Company and its stockholders. For the Named Executive Officers to earn cash-based incentive payments, the Company must meet or exceed specified performance targets based on achievement of operating income, health and safety and environmental compliance targets, each determined by the Board of Directors to align with the creation of stockholder value. The Compensation Committee may also recommend that the Board grant other equity-based compensation such as restricted stock and/or options to purchase the Company's common stock based on the Company's performance and the performance of executives and other employees considered for such grants. The Compensation Committee evaluates the financial impact of such grants on the Company, including the effect of dilution on earnings per share. The performance-based incentive programs for fiscal year 2015 are addressed in detail under the "Elements of Compensation" section in this Proxy Statement.

Competitive Considerations

The Company reviews relevant market and industry compensation practices, from time to time, in order to determine appropriate overall compensation for the Named Executive Officers. It does so to balance the need to compete for talent with the need to maintain a reasonable and responsible cost structure and to better align the Named Executive Officers' interests with stockholders' interests. Peer compensation data and performance metrics as well as historical compensation information for Named Executive Officers are provided to the Compensation Committee by Meridian. The Chief Executive Officer makes recommendations to the Compensation Committee with respect to Named Executive Officer compensation other than for himself. The Compensation Committee makes recommendations for Named Executive Officer compensation, including for the CEO, to the Board of Directors, which then discusses and acts upon the recommendations.

In 2014, the Committee, with advice from Meridian, approved a peer group for benchmarking executive compensation consisting of eighteen (18) companies; fourteen (14) of which are in the environmental and facilities services industry and four of which are from other industries; collectively referred to as the "2014 Industry Peer Group". The 2014 Industry Peer Group companies generally ranged from 1/4 to 4 times the size of the Company and the Company was positioned very close to the median of the group in terms of both assets and revenue when selected. The companies in the 2014 Industry Peer Group are as follows:

Casella Waste Sys Inc.	Horsehead Holding Corp.	Progressive Waste Solutions
CECO Environmental Corp.	Matrix Service Co.	Stericycle Inc.
Clean Harbors Inc.	Newalta Corp.	Team Inc.
Covanta Holding Corp.	North American Energy Partners	Tetra Tech Inc.
Ecology and Environment Inc.	Nuverra Environmental Solutions	TRC Cos Inc.
Heritage-Crystal Clean Inc.	Perma-Fix Environmental Services	Waste Connections Inc.

The median of sales, total assets and market capitalization of these companies when selected in 2014 were respectively, in millions, \$620, \$828 and \$852. At the time the 2014 Industry Peer Group was considered by the Compensation Committee, the Company was positioned at approximately the median of the group in revenue or asset terms, and at approximately the 65th percentile in market cap terms. In 2015 the Compensation Committee reviewed this group with assistance from Meridian and decided to make no changes to it.

In recommending the compensation for each Named Executive Officer for 2015 and 2016, the Compensation Committee reviewed the base salary, annual incentive, equity-based/long-term incentive and total compensation data from the 2014 Industry Peer Group, which was provided by Meridian. The Company does not target a particular peer or market percentile when making compensation decisions. Instead, total compensation for the Named Executive Officers is reviewed to determine whether the Company is generally competitive in the market in which it operates, taking into consideration, among other things, (i) the relative size of the Company; (ii) geographical location; (iii) the performance of the Company and the contributing roles of individual Named Executive Officers; (iv) each Named Executive Officer's experience and responsibilities; (v) the performance of each Named Executive Officer; (vi) internal pay alignment; and (vii) executive compensation at peer group companies, taking into account the relative size of those companies. The Compensation Committee does not assign a particular weight to any of these factors.

Elements of Compensation

Executive compensation is based primarily on three components: base salary, annual short-term incentive opportunities and long-term equity-based awards. The Compensation Committee regularly reviews each element of the compensation program to ensure consistency with the Company's objectives. The Compensation Committee believes that each compensation element complements the others and that together they serve to achieve the Company's compensation objectives. The Compensation Committee does not require that a particular component comprise a set portion of the total compensation mix. The Compensation Committee believes that a significant portion of the compensation should be performance-based and at-risk, and that the performance-based (incentive) compensation should align an executive's interests with those of stockholders. While the Compensation Committee reviews total direct compensation (the sum of base salary, incentive opportunities and equity awards) for the Named Executive Officers, it does not have a fixed target with respect to such total direct compensation.

Base Salary The Company provides competitive base salaries to attract and retain executive talent. The Compensation Committee believes a competitive base salary provides a degree of financial stability for the Named Executive Officers. Salaries may also form the basis for other compensation. For example, annual short-term incentive opportunities are calculated as a percentage of base salary.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Base salaries for the Named Executive Officers effective September 12, 2014 and continuing through December 27, 2015 are set forth in the table below:

Name and Principal Position	Initial Base Salary for 2015⁽¹⁾ (\$)
Jeffrey R. Feeler <i>President and Chief Executive Officer</i>	450,000
Steven D. Welling <i>Executive Vice President of Sales & Marketing</i>	325,000
Simon G. Bell <i>Executive Vice President of Operations, Environmental Services</i>	300,000
Eric L. Gerratt <i>Executive Vice President, Chief Financial Officer & Treasurer</i>	300,000
Mario Romero <i>Executive Vice President of Operations, Field and Industrial Services</i>	300,000

(1) Increases in base salaries for fiscal year 2016 became effective on December 28, 2015 to coincide with the commencement of the payroll period nearest the beginning of the new year. Base salary was increased to \$485,000 for Mr. Feeler, \$340,000 for Mr. Welling, and \$316,500 for each of Messrs. Bell, Gerratt and Romero.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Annual Short-Term Incentives Consistent with its commitment to performance-based compensation, the Company has established plans under which the Named Executive Officers and other employees are eligible to earn annual incentive cash payments based on Company performance compared to established operating income and other targets (the "*Cash Incentive*"). Each Named Executive Officer has an annual target Cash Incentive that is established as a percentage of annual base salary. These percentages are developed by the Compensation Committee according to each person's duties, level and range of responsibility and other compensation. Upon the availability of audited financial statements, Cash Incentives are determined and paid for the prior fiscal year.

On March 10, 2015 the Compensation Committee recommended and the Board of Directors approved the 2015 Management Incentive Plan ("*2015 MIP*") for all Named Executive Officers and certain other key employees. Under the 2015 MIP, each Named Executive Officer was eligible to receive an incentive payment for fiscal year 2015 based upon the achievement of four independent objectives: (1) financial; (2) individual performance (3) health and safety; and (4) compliance (each a "*Plan Objective*"). The payout available for achievement of 100% of each Plan Objective was a percentage of the Named Executive Officer's annual base salary ("*Target Cash Incentive*"). The Target Cash Incentive for the Named Executive Officers for 2015 is set forth in the following table:

Named Executive Officer	Target Cash Incentive
Jeffrey R. Feeler	80%
Steven D. Welling	50%
Simon G. Bell	50%
Eric L. Gerratt	50%
Mario Romero	50%

The amount available for achievement of each Plan Objective was weighted as a percentage of a Named Executive Officer's Target Cash Incentive and could be earned even if the threshold performance was not met for another Plan Objective.

The portion of a Named Executive Officer's Target Cash Incentive based on financial performance was scalable beginning with every percentage point over 79% of the Company's Board-approved consolidated operating income target ("*Base MIP Target*") and was weighted at up to 50% of the Named Executive Officer's Target Cash Incentive ("*Finance Target Incentive*"). For every percentage point achievement over 79% of the Base MIP Target, up to and including 89% (rounded to the nearest percentage), such Named Executive Officer would earn 2.33% of his respective Finance Target Incentive. For every percentage point achievement over 89% of the Base MIP Target, up to and including 100% (rounded to the nearest percentage), such Named Executive Officer would earn 6.98% of his respective Finance Target Incentive. Upon 100% achievement of the Base MIP Target, 100% of the respective Finance Target Incentive (or 50% of the Named Executive Officer's Target Cash Incentive) would be awarded to the Named Executive Officer. The Named Executive Officers were eligible for an additional incentive payment in an amount calculated by multiplying their respective base salaries by an additional 4.5% for every 1% increase over the Base MIP Target and multiplying the resulting product by 50%. The additional incentive was capped at one times the participant's Target Cash Incentive. For purposes of the 2015 MIP, as approved by and in the discretion of the Board, "consolidated operating income" excluded certain extraordinary expenses and was further adjusted to add back the 2015 MIP expense and associated payroll taxes.

Up to an additional 30% of a Named Executive Officer's Target Cash Incentive could have been earned based on the Compensation Committee's assessment of individual performance, including through achievement of established annual priorities, effective use of Company resources and other evaluative factors as determined by the Compensation Committee. The metric was independent and mutually exclusive of achievement of any other Plan Objective.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

The three metrics for the health and safety objective (as enumerated below) were weighted cumulatively at up to 10% of the Named Executive Officer's Target Cash Incentive and individually at up to 3.33% each of a participant's Target Cash Incentive. Each metric was independent and mutually exclusive of the other two metrics so that a percentage of the Target Cash Incentive related to one of the health and safety metrics could have been earned independent of achievement of the other two health and safety metrics. The health and safety metrics included (i) total case rates (number of safety incidents that meet OSHA recordable criteria), (ii) days away restricted time (safety incidents that result in the employee being placed on restricted duty or time away from work) and (iii) lost time incidents (number of safety incidents that result in an employee having to spend time away from work or be re-assigned to another job function to recover from a work related injury).

Up to 10% of a Named Executive Officer's Target Cash Incentive was based on the metric for the compliance objective. The metric for the compliance objective was subjective based on the Company's overall compliance program effectiveness and considered the avoidance of "notices of violation or enforcement" with monetary penalties, among other compliance goals and objectives. The corresponding incentive was earned based on a determination by the Compensation Committee taking into consideration, among other things, the dollar amount of a monetary penalty paid (or accrued under GAAP) in the plan year, the nature of the notices of violation or enforcement, the regulatory basis for any such penalty and the respective fact patterns.

A summary of the 2015 MIP targets is provided below:

Objective/Weight	Target
Financial (50%) Consolidated Operating Income	\$87,635,305
As Adjusted to Exclude Budgeted Results of Divested Business Unit	\$84,065,205
Individual Performance (30%)	Achievement of Established Priorities
Health and Safety (10%)	
Total Recordable Incident Rate (3.34%)	=<1.57
Days Away Restricted Time (3.33%)	=<0.83
Lost Time Incident (3.33%)	=<0.34
Compliance (10%)	Subjective Based On Actual Results

The Company's 2015 consolidated operating income, adjusted by adding back certain extraordinary expenses and excluding the 2015 MIP expense, associated payroll taxes and results of a divested business unit, was \$82,130,421, or 2.3% below the Base MIP Target, as adjusted to exclude budgeted results of a divested business unit (\$84,065,205). The Company awarded the Named Executive Officers 86% of their respective Finance Target Incentive for achievement of 97.7% of the Base MIP Target (as adjusted).

The Company did not achieve the 2015 MIP targets for (i) total case rates (number of safety incidents that meet OSHA recordable criteria) or "TRIR", (ii) days away restricted time (safety incidents that result in the employee being placed on restricted duty or time away from work) or "DART", and (iii) lost time incidents (number of safety incidents that result in an employee having to spend time away from work or be re-assigned to another job function to recover from a work related injury), resulting in lost time or "LTI". Therefore, the Cash Incentive earned for achievement of the health and safety objective was reduced from 10.0% to 0.0% of the Named Executive Officer's Target Cash Incentive.

The Cash Incentive earned by the Named Executive Officers for compliance was 10% because determined compliance program goals were considered to have been substantially achieved.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

A summary of the 2015 MIP actual results compared to the applicable targets is provided below:

Objective/Weight	Target	Actual	Comment
Financial (50%)	\$84,065,205 (As Adjusted to Exclude Budgeted Results of Divested Business Unit)	\$ 82,130,421	Achieved 97.7% of the Target Amount
Individual Performance (30%)	Achievement of Individual and Team Objectives		Individual and Team Objectives Substantially Achieved
Health and Safety (10%)			
TRIR (3.34%)	=<1.57	2.06	Not Achieved
DART (3.33%)	=<0.83	1.43	Not Achieved
LTI (3.33%)	=<0.34	0.63	Not Achieved
Compliance (10%)	Compliance Program Effectiveness		Determined Program Goals Substantially Achieved

The amount paid to each Named Executive Officer under the 2015 MIP is set forth in the "Summary Compensation Table" of this Proxy Statement.

Long-Term Incentives The Company uses equity awards to provide long-term incentive opportunities to the Named Executive Officers and may grant performance stock units ("PSU"), options to purchase common stock and shares of restricted stock as part of their total compensation package pursuant to the Company's Omnibus Incentive Plan. These awards align the Named Executive Officers with the Company's stockholders because the ultimate value of the stock options and stock depends on the Company's future success to which each Named Executive Officer must contribute over a period of years in order to ultimately vest in or be entitled to exercise such grants. After not making any regular program equity awards to Named Executive Officers in 2014, for 2015 the Compensation Committee introduced a new long-term incentive program based on the following three vehicles:

PSUs linked to relative Total Stockholder Return ("TSR") (approximately 20% of total value)

Stock options (approximately 40% of total value)

Restricted stock (approximately 40% of total value)

PSU Awards PSU awards are designed to link a portion of a Named Executive Officer's compensation with increases in stockholder value relative to an established index and peer group. The total number of PSUs granted in 2015 that each Named Executive Officer is eligible to earn ranges from 0% to 200% of the target number of PSUs granted (for each Named Executive Officer, the "Target PSUs"), based on the Company's TSR relative to the TSR of the S&P 600 (50% of Target PSUs) and the TSR of certain companies in the environmental and facilities services industry ("Peer Group") (50% of Target PSUs) over the three-year performance period beginning January 1, 2015. The Peer Group includes those companies in the 2014 Industry Peer Group, Waste Management, Inc. and

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Republic Services, Inc. The measures and potential payouts for the PSUs awarded in 2015 are set forth in more detail in the following table:

Three-year Company TSR Relative to S&P 600 (50% of Target PSUs)		Three-year Company TSR Relative to Peer Group (50% of Target PSUs)	
Percentile Rank	Resulting PSUs Earned (% of Target)	Percentile Rank	Resulting PSUs Earned (% of Target)
90 th Percentile or Higher	200%	90 th Percentile or Higher	200%
50 th Percentile	100%	50 th Percentile	100%
35 th Percentile	50%	35 th Percentile	50%
Below 35 th Percentile	0	Below 35 th Percentile	0

Stock Option Awards Stock options granted to the Named Executive Officers in 2015 vest in equal annual installments over three years. The Company believes that, because the option holder will not realize value from a stock option unless the value of our stock increases after the grant date, stock options are performance-based awards that directly align the interests of the option holder with those of our stockholders. In addition, the long-term vesting of the awards provides a key retention tool while providing a long-term focus on driving increased stockholder value.

Restricted Stock Awards Restricted stock granted to the Named Executive Officers in 2015 vests in its entirety on or after the third anniversary of the grant date. The value of restricted stock is tied to the market price of our common stock and further aligns the Named Executive Officers with the stockholders, while also providing the Company a significant retention tool.

Equity Awards Granted in 2015 The equity awards granted to the Named Executive Officers in 2015 are set forth in the table below:

Named Executive Officer	Performance Stock Units Granted (Target) (#)	Restricted Stock Granted (#)	Stock Options Granted (#)
Jeffrey R. Feeler	2,559	4,800	20,300
Steven D. Welling	1,172	2,200	9,300
Simon G. Bell	1,066	2,000	8,500
Eric L. Gerratt	1,066	2,000	8,500
Mario Romero	1,066	2,000	8,500

Discretionary Bonuses The Company may, from time to time, grant discretionary bonuses to Named Executive Officers in order to achieve defined objectives. Discretionary bonuses were not paid to the Named Executive Officers in 2015.

Other Compensation The Company provides employee benefits that are intended to meet current and future health and financial security needs for its employees, including the Named Executive Officers, and their families. Such employee benefits include medical, dental and life insurance benefits, short-term disability pay, long-term disability insurance, flexible or health savings accounts for medical expense reimbursements and a 401(k) retirement savings plan that includes a partial Company match, which are provided to the Named Executive Officers on the same terms and conditions that apply to all other full-time regular employees.

Equity and Security Ownership Guidelines

Effective May 27, 2015 the Board approved a Share Ownership Policy in which target share ownership levels (set forth below) were established for the Named Executive Officers and outside

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

directors (each a "Participant") based on a multiple of annual salary in the case of Named Executive Officers and the annual cash retainer in the case of directors ("Target Ownership Level").

CEO 4 times base salary

Other Named Executive Officers 2 times base salary

Outside Directors 3 times annual cash retainer

The following forms of equity interests are included in determining the ownership value held:

Common shares of the Company owned directly by the Participant or owned through the Company retirement or savings plans;

Restricted stock or restricted stock units held pursuant to the Company's equity plans; and

Vested performance stock or PSUs held pursuant to the Company's equity plans.

For common shares owned outright, the value is equal to the greater of the cost of acquisition or the market value. For unvested restricted stock or restricted stock units, the value is equal to the greater of the grant date value and the market value. For vested performance stock or PSUs, the value is equal to the market value at the date of measurement. Under the Share Ownership Policy, a Participant must retain the net after-tax proceeds from exercised stock options or vested shares received until the Target Ownership Level is met. A Participant who wishes to sell shares and who is under the Target Ownership Level must obtain the written permission of the Compensation Committee. The Share Ownership Policy replaced the requirements set out in the employment agreements we entered into with each of Messrs. Feeler, Welling, Bell and Gerratt in 2013 ("2013 Employment Agreements") and the requirements in the Corporate Governance Guidelines which, effective September 12, 2014 through May 26, 2015, required Directors to hold Company stock equal to three times his or her annual cash retainer, requiring a minimum achievement of one-quarter of the requirement after one year, one-half of the requirement after two years and three-quarters of the requirement after three years.

The following table summarizes equity holding requirements as set forth in the Share Ownership Policy and the value of eligible equity awards granted in 2015 as approved by the Board.

Named Executive Officer	Minimum Equity Holding Requirement 12/31/15 (\$)	2015 Restricted Stock Award (\$) ⁽¹⁾	2015 Stock Option Award (\$) ⁽¹⁾
Jeffrey R. Feeler	1,455,000	240,000	240,000

Mario Romero	633,000	100,000	100,000

(1) Amounts are based on the dollar value of shares and options granted as approved by the Board. The 2015 grants of restricted stock vest in their entirety on the third anniversary of the grant date and stock options vest in equal annual installments over three years. Equity grants in 2015 were, and future grants will be, determined based on a variety of measures including Company performance, individual performance, compensation surveys and other measures.

Severance Arrangements

In addition to establishing salaries, equity grants and ownership requirements, the 2013 Employment Agreements established rights in the event of a termination or change of control in 2015. Under these agreements, the executive was entitled to certain payments and benefits in the event of a termination or change of control. Change-of-control payments were subject to a subsequent termination by the Company without cause or by the executive for good reason, as those terms are defined in the 2013 Employment Agreements. The Compensation Committee believes these protections were an effective tool for attracting and retaining key employees and are reasonably similar to those of other companies. An offer of employment letter ("*2014 Employment Letter*") was accepted by Mr. Romero upon his appointment to Executive Vice President of Operations, Field and Industrial Services wherein he was entitled to certain payments if his employment is involuntarily terminated without cause prior to December 31, 2015. For more information on potential severance payments and change-of-control benefits in 2015, refer to the "Potential Payments Upon Termination or Change of Control" section of this Proxy Statement.

Risk Considerations

The Compensation Committee considers, in establishing and reviewing the executive compensation program, whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. Base salaries are fixed in amount and thus do not encourage risk-taking. While the performance-based Cash Incentive awards focus on achievement of annual goals, the Company's Cash Incentive program is only one element of the Named Executive Officers' total compensation. The Compensation Committee believes that the Cash Incentive program appropriately balances risk and the desire to focus the Named Executive Officers on specific short-term goals important to the Company's success, and that it does not encourage unnecessary or excessive risk taking. Further, the Company grants equity awards that focus the attention of Named Executive Officers on long-term strategic goals through multi-year vesting formulas. Moreover, the Named Executive Officers are required to own and hold a significant amount of stock in the Company. Such long-term equity awards and ownership interests further reduce the incentive for the Company's Named Executive Officers to engage in actions designed to achieve only short-term results. The Company has reviewed its compensation policies and practices for all employees, including the Named Executive Officers, and concluded that any risks arising from the policies and programs are not reasonably likely to have a material adverse effect on the Company.

Tax and Accounting Considerations

U.S. federal income tax generally limits the tax deductibility of compensation the Company pays to its President and Chief Executive Officer and certain other highly compensated executive officers to \$1.0 million in the year the compensation becomes taxable to such executive officers. There is an exception to the limit on deductibility for performance-based compensation that meets certain requirements. Although deductibility of compensation is preferred, tax deductibility is not a primary objective of the Company's executive compensation program. Rather, the Company seeks to maintain flexibility in its executive compensation program as to the objectives of the program described above and, accordingly, the Company may be limited in its ability to deduct amounts of compensation from time to time. Accounting rules require the Company to expense the cost of equity grants. Because of equity expensing and the impact of dilution on our stockholders, we carefully consider the type of equity awards that are granted and the number and value of the shares underlying such awards.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with the Company's management and, based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

(1) Includes paid time off ("PTO") balances paid in 2015 resulting from a change in policy reducing the number of hours allowed to be carried forward from one year to the next. PTO balances paid were as follows: Mr. Feeler; \$21,635, Mr. Welling; \$30,000, Mr. Bell; \$14,423, and Mr. Gerratt; \$14,423. Mr. Romero had not accrued the threshold number of PTO hours necessary to cause a payout.

(2) The amounts listed represent the aggregate grant date fair value of restricted stock and PSUs determined in accordance with FASB ASC Topic 718. The values of restricted stock are determined by multiplying the closing stock price on the date of grant (\$49.97) by the number of stock awards. The 2015 grants of restricted stock vest in their entirety on or after the third anniversary of the grant date. The PSU grant date fair values were determined based on a Monte Carlo simulation (which probability weights multiple potential outcomes). The amounts may not be indicative of the realized value of the awards if and when they vest. See the "Grants of Plan-Based Awards" table of this Proxy Statement for details on the stock awards granted to the Named Executive Officers during 2015. Assuming that the highest level of performance conditions will be achieved with respect to the PSUs (and thus the maximum number of shares will be issued under the PSUs), using the fair market value of the Company's common stock on the grant date for such shares, the 2015 stock awards would be as follows: \$479,839 for Mr. Feeler; \$219,844 for Mr. Welling and \$199,909 for each of Messrs. Bell, Gerratt and Romero. The measures and potential payouts for the PSUs are described in more detail in the "Elements of Compensation-Long-Term Incentives" section of this Proxy Statement. Additional information regarding the awards are disclosed in Note 18 of Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

(3) The amounts listed represent the aggregate grant date fair value of awards during the year determined in accordance with FASB ASC Topic 718. The assumptions made in determining the grant date fair values of the options are disclosed in Note 18 of Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. The 2015 grants of stock options vest in equal annual installments over three years.

(4)

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Includes contributions the Company made on behalf of each Named Executive Officer under the Company-sponsored 401(k) plan, dividends paid on unvested restricted stock and the dollar value of insurance premiums paid by the Company with respect to life and disability insurance. Certain perquisites provided to certain of our Named Executive Officers are not required to be disclosed in the "Summary Compensation Table" because the amount of such benefits do not exceed the applicable disclosure thresholds.

The measures and potential payouts for the PSUs are described in more detail in the "Elements of Compensation-Long-Term Incentives" section of this Proxy Statement. These columns show the potential number of shares to be paid out to the Named Executive Officers under the PSU grant at threshold, target or maximum performance. The award date fair value is included in the "Stock Awards" column of the "Summary Compensation Table" in this Proxy Statement.

(5) These restricted stock awards, awarded with an effective date of March 10, 2015, vest in their entirety on or after the third anniversary of the grant date.

(6) These stock options, awarded March 10, 2015, vest in equal annual installments over three years.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

We entered into new employment agreements with each of our Named Executive Officers effective February 25, 2016 (the "2016 Employment Agreements"). The following discussion describes the potential payments upon termination or change of control with respect to the 2013 Employment Agreements and the 2014 Employment Letter (together, the "Employment Agreements"). Payments and benefits to which the Named Executive Officers would be entitled as a result of a termination or change of control as set forth in the 2016 Employment Agreements will be described more fully in the Company's Proxy Statement to be filed in 2017.

Among other things, the Employment Agreements established a minimum annual base salary and provided for participation in the Company's employee benefit plans, including any Cash Incentive plans. The Employment Agreements required the Company or its successors to pay or provide certain compensation and benefits in the event of termination of employment or, in the case of the 2013 Employment Agreements, a change of control. The compensation and benefits payable in the event of a termination of employment in 2015 were set forth in the respective Employment Agreement. Upon a termination of employment during 2015, the Company would have been obligated to pay the Named Executive Officers:

1. Any unpaid base salary through the termination date and any accrued vacation;
2. Any unpaid Cash Incentive earned for any fiscal year ending on or prior to the termination date;
3. Any un-reimbursed business expenses incurred through the termination date; and
4. All other payments or other benefits the Named Executive Officer may be entitled to under the terms of any applicable compensation arrangement or benefit, equity or fringe benefit program or grant.

These payments are referred to below as the "Accrued Obligations".

Termination Compensation due to a Named Executive Officer in the event of termination from the Company in 2015 was dependent upon the basis for separation.

For Cause or Without Good Reason If a Named Executive Officer's employment had been terminated during 2015 by the Company for cause or by a Named Executive Officer without good reason the Company would have paid such the Accrued Obligations only.

Without Cause or for Good Reason Had Messrs. Feeler's, Welling's, Bell's or Gerratt's employment been terminated during 2015 by the Company without cause or by the executive for good reason, in addition to the Accrued Obligations, such executive would have been entitled to the following:

1. An amount equal to the greater of the base salary payable for the remainder of the employment term or one year's base salary;
2. Continued vesting of granted stock options for the shorter of one year or the original expiration date of such option;
3. Continued vesting of restricted stock grants for a period of one year; and
4. Continued medical, hospitalization, life insurance and disability benefits to which the executive was entitled at the termination date for a period of twelve (12) months following the termination date ((twenty-four (24) months) in the case of Mr. Feeler's 2013 Employment Agreement).

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Had Mr. Romero been involuntarily terminated by the Company without cause during 2015, in addition to the Accrued Obligations, he would have been entitled to:

1. An amount equal to one year's base salary paid in accordance with regular payroll practices; and
2. Continued health insurance benefits, which include medical, dental, vision and prescription as per plan provisions.

A Named Executive Officer's eligibility for receipt of the additional benefits above was subject to compliance with applicable confidentiality, work product assignment, return of property, and non-competition/non-solicitation covenants and execution of a release of claims in favor of the Company.

The definition of *good reason* included, among other things, a material diminution of duties and responsibilities, material diminution in compensation arrangements or employee benefits or any material breach by the Company of the provisions of the applicable Employment Agreement. *Cause* was defined as a determination by two-thirds of the members of the Board voting that the Named Executive Officer has (i) engaged in willful neglect (other than neglect resulting from his incapacity due to physical or mental illness) or willful misconduct in the performance of his duties; (ii) engaged in willful conduct the consequences of which are materially adverse to the Company; (iii) materially breached the terms of his employment agreement and such breach persisted after notice thereof from the Company and a reasonable opportunity to cure; or (iv) been convicted of (or has plead guilty or no contest to) any felony other than a traffic violation.

Death or Disability Had a Named Executive Officer's employment been terminated during 2015 due to death, the Company would have paid such Named Executive Officer's estate the Accrued Obligations. Had a Named Executive Officer's employment been terminated during 2015 due to disability the Company would have paid such Named Executive Officer his Accrued Obligations. In addition to the Accrued Obligations, a Named Executive Officer would have been eligible to participate in the Company's long-term disability plan on a basis no less favorable to him than other senior employees of the Company.

Retirement Had a Named Executive Officer's employment been terminated by retirement, such Named Executive Officer would have been paid the Accrued Obligations only.

Edgar Filing: US ECOLOGY, INC. - Form DEF 14A

Based on a hypothetical termination of employment on December 31, 2015, and assuming no event occurred causing the forfeiture of amounts due under an incentive plan, the Named Executive Officers would have been entitled to the amounts set forth in the table on the following page, depending on the basis for termination identified in the first column:

Change of Control Change-of-control benefits are intended to encourage cooperation and minimize potential resistance of Messrs. Feeler, Welling, Bell and Gerratt and other key managers to potential change-of-control transactions that may be in the best interests of stockholders.

For purposes of the 2013 Employment Agreements, *change of control* was defined to include any of the following events:

A merger or consolidation of the Company with or into another entity or any other corporate reorganization, if more than 40% of the combined voting power of the continuing or surviving entity's securities outstanding immediately after such merger, consolidation or other reorganization is owned by persons who were not stockholders immediately prior to such merger, consolidation or other reorganization; provided, however, that a public offering of the Company's securities shall not constitute a corporate reorganization; or

The sale, transfer, or other disposition of all or substantially all of the Company's assets; or

Any transaction as a result of which any person is the "beneficial owner", directly or indirectly, of securities of the Company representing more than 25% of the total voting power represented by the Company's then outstanding voting securities; or

A change in the composition of the Board in any two-year period as a result of which fewer than a majority of the directors are incumbent directors.

Under the 2013 Employment Agreements, both a change-of-control event and subsequent termination of employment by the Company without cause or by the executive for good reason within twenty-four (24) months of such change of control were required for payment. In such an event, the executive would have been entitled to the following:

1. In lieu of severance, payment equal to two times the sum of (i) base salary; and (ii) the greatest of (a) any earned but unpaid amount due under any Cash Incentive plan; (b) the executive's target incentive amount under a Cash Incentive plan for which a payment is earned, but unpaid; and (c) the Cash Incentive plan payment received (if any) for the fiscal year immediately preceding the Cash Incentive plan year in which the termination occurs; and
2. All other benefits due the executive as if his employment was terminated by the Company without cause or by the executive for good reason, except that all unvested stock options and restricted stock shall become fully vested upon the termination date; provided, however, that if unvested stock options and restricted stock held by the executive are not continued, substituted for or assumed by the successor company in connection with a change of control, such awards shall immediately vest upon the change of control.

The amount of Mr. Romero's potential severance benefits was not affected by the occurrence of a change-of-control event.

Based on a hypothetical change-of-control event and termination on December 31, 2015, the Named Executive Officers would have been entitled to Accrued Obligations and the amounts set forth in the table below. The Named Executive Officers would also have been entitled to continued medical,

hospitalization, life insurance and disability benefits in the amounts set forth in the table above based on a termination by the Company without cause or by the Named Executive Officer for good reason.

- (1) Assumes the exercise of unvested options granted on March 5, 2013 and September 7, 2013 and the sale of the underlying common stock at the December 31, 2015 closing market price of \$36.44. Unvested options granted on March 10, 2015 were not assumed to have been sold as the strike price exceeded the December 31, 2015 closing market price.
- (2) Assumes the sale of all unvested restricted stock on December 31, 2015 at the closing market price of \$36.44.
- (3) Assumes a termination by the Company without cause.

In the event that the severance and other benefits provided for in the Employment Agreements or otherwise payable to the Named Executive Officers had constituted "parachute payments" within the meaning of Section 280G of the Internal Revenue Code and would have been subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, then the executive would have received either the full amount of such severance benefits or such lesser amount as would result in no portion of such severance benefits being subject to excise tax under Section 4999 of the Internal Revenue Code. After taking into account the applicable federal, state and local income taxes and the excise tax imposed by Section 4999 of the Internal Revenue Code, the executive would have received the amount that, on an after-tax basis, resulted in the greatest amount of severance benefits, notwithstanding that all of some portion of such severance benefits may have been taxable under Section 4999 of the Code.

COMPENSATION OF DIRECTORS

Effective September 12, 2014, directors who are not employees of the Company or its subsidiaries are entitled to an annual fee of \$50,000. A non-employee Chairman of the Board is entitled to receive an additional fee of \$60,000. Chairmen of each of the standing committees are each entitled to receive an additional fee of \$20,000. Audit Committee members are entitled to a cash retainer of \$7,000, Corporate Governance Committee members are entitled to a cash retainer of \$5,000 and Compensation Committee members are entitled to a cash retainer of \$5,000. A non-employee director who does not complete his or her annual service term, upon which the payment of an annual cash retainer was paid, is required to reimburse the Company a pro-rata portion of any such retainer.

Non-employee directors also receive an equity award issued in the form of restricted stock or options to purchase the Company's common stock worth \$75,000 at the time of election or re-election to the Board at the Annual Meeting of Stockholders. Equity awards granted to non-employee directors vest over one year with vesting contingent on attending at least 75% of the regularly scheduled meetings of the Board between the award and vesting dates. All directors met the meeting attendance requirement during the 2015-2016 Board year. All directors are reimbursed for their reasonable travel and other expenses involved in attending Board and committee meetings.

Effective May 27, 2015, the Share Ownership Policy required that each non-employee director hold Company stock equal to three times his or her annual cash retainer. For shares owned outright, the value is measured by the greater of the cost of acquisition and the market value at the date of measurement. For unvested restricted stock the value is measured by the greater of grant date value and market value. Director compensation for the year ended December 31, 2015 for the Company's non-employee directors is set forth in the following table:

Name	Fees Earned in Cash (\$)	Stock Awards ⁽¹⁾ (\$)	All Other Compensation (\$)	Total (\$)
