**SECTION 8 OTHER EVENTS**

**ITEM 8.01 Other Events.**

On November 29, 2013, the Company made the new Clipstream® Cloud service commercially available to the public at <http://clipstream.com> and <http://my.clipstream.com>. This service allows users to drag and drop videos in a wide variety of streaming video formats into free encoder software. This encoder software converts the video into the proprietary Clipstream® streaming video format, which plays on most modern browsers across a wide variety of devices. The revenue model is transactional based, whereby customers purchase packages which include storage and transfer minutes. An extra fee is charged for usage above the usage allowed by the package that was chosen. Marketing of the service is expected to begin in December 2013.
