Greene County Bancorp, Inc.
Announces Quarterly Earnings

Catskill, N.Y. -- (BUSINESS WIRE) October 29, 2003-- Greene County Bancorp, Inc. (the "Company") (NASDAQ: GCBC), the holding company for The Bank of Greene County (the "Bank"), today reported net income for the quarter ended September 30, 2003. Net income for the quarter ended September 30, 2003 amounted to \$687,000, or \$0.34 per basic and \$0.33 per diluted share as compared to \$641,000, or \$0.32 per basic and diluted share for the quarter ended September 30, 2002, an increase of \$46,000, or 7.2%. Improvement in net interest income and noninterest income contributed to the overall increase in net income and was partially offset by increases in noninterest expense when comparing the quarters ended September 30, 2003 and 2002.

Net interest income increased to \$2.3 million for the quarter ended September 30, 2003 as compared to \$2.1 million for the quarter ended September 30, 2002, an improvement of \$0.2 million or 9.5%. Net interest spread decreased 15 basis points to 3.66% as compared to 3.81% when comparing the quarters ended September 30, 2003 to 2002. Net interest margin decreased 20 basis points to 3.76% as compared to 3.96% when comparing the quarters ended September 30, 2003 and 2002. These decreases were primarily the result of the continued low interest rate environment and the repricing of investments and mortgages at lower rates.

The provision for loan losses increased to \$45,000 for the quarter ended September 30, 2003 as compared to no provision for the quarter ended September 30, 2002. During the quarter ended September 30, 2002, a large recovery eliminated the need for a loan loss provision, for that quarter.

Noninterest income increased to \$726,000 for the quarter ended September 30, 2003 as compared to \$635,000 for the quarter ended September 30, 2002, an increase of \$91,000 or 14.3%. Items contributing to this increase were fees associated with debit card fees, other E-commerce fees and the Overdraft Protection Program, initiated in October 2001. Gains on the sale of real estate owned amounted to \$1,500 for the quarter ended September 30, 2003 as compared to \$67,200 for the quarter ended September 30, 2002.

Noninterest expense increased to \$2.0 million from \$1.9 million, an increase of \$0.1 million or 5.3% when comparing the quarters ended September 30, 2003 and 2002. Increases in salaries and benefits resulted from the addition of several new positions including additional marketing and computer technology staff, as well as a new employee profit sharing bonus and higher retirement associated expenses. The Company continues to invest in technology and staff in order to bring customers the highest quality products and services. These increases offset decreases in service and data processing fees, office supplies and other expenses. Investments in technology aimed at reducing costs began to yield results during the quarter ended September 30, 2003.

The effective tax rate increased to 32.5% for the quarter ended September 30, 2003, compared to 29.5% for the quarter ended September 30, 2002. A major reason for the change in effective rate was the decrease in the percentage of income that municipal securities and other tax free investments contributed to total income when comparing the quarters.

Total assets of the Company were \$259.4 million at September 30, 2003 as compared to \$257.0 million at June 30, 2003, an increase of \$2.4 million, or 0.9%. Growth occurred in net loans and cash and cash equivalents, which increased \$2.0 million and \$2.9 million, respectively when comparing September 30, 2003 to June 30, 2003. The increase in assets was funded by deposit inflows, which amounted to \$3.1 million. Money market accounts experienced the largest increases. Investors continue to move and keep money in banks due to the stock market volatility and uncertainty.

Shareholders' equity decreased to \$28.9 million at September 30, 2003 from \$29.1 million at June 30, 2003, as net income of \$0.7 million was partially offset by dividends paid of \$325,000. Net unrealized gains associated with the available-for-sale investment portfolio decreased causing accumulated other comprehensive income to decrease by approximately \$0.7 million, net of tax.
