PART I

Item 1. Description of Business

Corporate History

United Management, Inc. was incorporated on January 29, 1997 under the laws of the State of Nevada. In December 2000, United entered into an agreement to merge with RRUN Ventures, Inc. by acquiring all of RRUN's issued and outstanding shares of capital stock. RRUN Ventures Inc. was founded in Vancouver, British Columbia in June of 2000 and incorporated in October 2000 under the laws of Nevada. Final approval of this merger was obtained from the shareholders in August, 2001. At the same time as the approval of the merger, United adopted its new name, RRUN Ventures Network, Inc. Also acquired in the merger was a majority shareholder position in RAHX, Inc., a Nevada corporation, which was incorporated in 2000. In September, 2001, RRUN co-founded AXXUS Corporation, a Nevada Corporation, which was incorporated in September, 2001.

In September, 2001, RRUN founded RRUN Labs Incorporated and subsequently acquired 100% of the common stock of RRUN Labs Incorporated, a Delaware Corporation., which was incorporated in September, 2001. Additional information regarding AXXUS and RRUN Labs may be found in the press releases dated October 10th and 11th attached to Form 10-KSB filed on October 15, 2001. In addition, a discussion of the discontinuance of operations of RRUN Labs may be found in Form 8-K filed with the Commission on November 21, 2001.

General Overview

RRUN Ventures Network Inc. ("RRUN" or "RRUN vni") is a venture development and holding company building and/or acquiring companies that will be serving the lifestyle needs of the 18-34 year Digital Generation through the production and marketing of lifestyle products and services.

RRUN vni hopes to build a network of innovative, profitable and global businesses. Furthermore, RRUN vni hopes to build shareholder value by developing innovative business concepts, processes and technologies. In addition, RRUN vni hopes to create an environment that attracts and retains talent, and nurtures the ideas and leaders of tomorrow.

The company intends to invest capital into the following lines of business:

1. Media and Entertainment - businesses that produce and/or distribute content for the consumers across various mediums. These include music, live entertainment, filmed entertainment, online and offline publishing, online

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

and offline interactive gaming, and digital media distribution.

2. Infrastructure Technologies - businesses that provide the foundation for people to interact and transact through multiple technology products. These include communication, commerce, and payment systems.

2

3. Lifestyle Products and Services - businesses that serve consumers with the products and services that satisfy their lifestyles. These include clothing, mobile phones, PDA's and ticketing services.

Currently the Company has two business units, RAHX Inc. (RAHX) and AXXUS Corporation (AXXUS), with RAHX being the Company's lead venture. The RAHX and AXXUS ventures both have offline and online technology components. The online components are built on proprietary technology that utilizes Peer to Peer (P2P) Distributed Architecture and contain Digital Rights Management Systems and Advanced Integration and Personalization Software.

In addition to RAHX and AXXUS, the Company has other business units currently in development.

In September of 2001 RRUN added a wholly owned research and development subsidiary, RRUN LABS Incorporated. RRUN LABS was formed to play a role in the development of the RAHX and AXXUS technologies. RRUN Labs operations were suspended indefinitely in November 2001 and all staff was terminated. This was due to RRUN's inability to continue funding the RRUN Labs operation.

The Company's RAHX venture has shifted its strategy from being focused solely on P2P music file exchange to one of developing an Entertainment Experience Network. RRUN hopes to deliver a number of RAHX branded entertainment products and services to its target market via an integrated network approach.

Revenue Generation

As a venture development and holding company RRUN hopes to generate revenue through the following methods:

1. Product Sales - sales of products and services generated via the RRUN vni subsidiaries/business units.
2. Administration Fees - RRUN vni will charge its business units a number of fees that include: rent, utilities, leasing, corporate services.
3. Revenue Sharing - as a method of return of investment from a business unit, RRUN vni may directly share in the revenue generated by the unit.
4. Dividends - at the end of each period, RRUN vni will receive its proportionate profit share from the dividends issue, if any, from each of its business units.
5. Sale Of Business Units - RRUN vni will only sell a partial or full ownership stake in a business unit when the sale will benefit the RRUN vni shareholders more than continuing the operations of the unit through the RRUN vni organization.
6. Financing Charges - RRUN vni will earn interest and other financial related income for lending capital to its business units.
7. Venture Development & Support Services - RRUN vni will charge its subsidiaries fees for the use of its functional units that help develop the business unit. This includes use of the Accounting, HR, Marketing, Sales, Technology Development, and Finance .

CURRENT BUSINESS UNITS

RAHX INC. (PRONOUNCED "ROCKS")

RAHX Inc. (RAHX) is currently the core business unit of RRUN. RAHX intends to promote and market entertainment products and services for the 18-34 year old Digital Generation.

RAHX product offerings are intended to include, but not be limited to, digital media software and online services, concerts and video games.

The first product offerings intended to be released from RAHX are:

1. RAHX 1.0 - a software and online web service that will allow users to exchange digital media files but also connect with their favorite shopping and services vendors. RAHX 1.0 will be powered by technology from AXXUS. RAHX 1.0 is a key product in development for RAHX. RAHX 1.0's digital media component/entertainment engine is called RAHX FX (File Exchange).
2. RAHX Live - a planned live entertainment production service. RAHX Live will service its target market with dynamic live entertainment ranging from concerts, festivals and special events.

The Company anticipates that attendees of RAHX Live events will remain connected and informed of upcoming events through RAHX 1.0. The management anticipates that additional offline and online product and service offerings will be evaluated, developed and added to the Entertainment Experience Network according to feasibility and return on investment.

RAHX 1.0 PRODUCT DETAILS

The Company intends to develop RAHX 1.0. This product will be an online web service that uses Peer to Peer (P2P) technologies to enable and enhance the distribution of digital media files and communication and commerce with business vendors over the Internet. The RAHX 1.0 service will be enabled through its P2P oriented software that is installed with both consumers and their favorite vendors. Consumers will be able to communicate and exchange files among themselves in addition to being able to communicate and conduct commerce with vendors. RAHX 1.0's digital media component/entertainment engine will be called RAHX FX (File Exchange). RAHX FX is planned to be one of the initial key services of RAHX 1.0.

RAHX FX COMPONENT PRODUCT DETAILS

RAHX FX provides media users and content owners with an end-to-end solution of distributing music over the Internet by performing the following functions:

- Facilitate transfer and exchange of digital media files;
- Manage the income flow from consumers to content owners;

- Track content usage;
- Store income for the benefit of content owners;
- Distribute income to content owners and;
- Protect consumers with Internet security and content owners with digital

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

rights management.

RAHX 1.0 TECHNOLOGY OVERVIEW

For consumers, the RAHX 1.0 Service will be powered by the RAHX Lifestyle Manager (RAHX LM 1.0).

- The RAHX LM will have two fundamental components: a lifestyle engine and an entertainment engine:
 - The lifestyle engine component features 1) instant messaging so users can communicate with one another; 2) an opt-in programmable concierge service that allows the user to set preferences to receive media product messages (i.e. release of new movie trailer, new music single, restaurant bookings, movie tickets, concert tickets etc.), amongst other functionalities.
 - The entertainment engine (RAHX FX) will allow users to search and download media (games, music, movies, etc.) through a paid legal system.

For entertainment businesses, the RAHX 1.0 Service will be powered by the RAHX Business Manager (RAHX BM 1.0).

- The RAHX BM 1.0 will have two fundamental components: a direct marketing engine (for communication with consumers) and a business management engine (for communication and transactions with suppliers, partners and internal use).

RAHX FX TECHNOLOGY OVERVIEW

RAHX FX will combine standard Internet and EDI protocols with XML programming and various other software tools. RAHX FX will consist of four subsystems: a file exchange system; content management system, commercial transaction system, and digital rights management system. These four systems are integrated to function as one unified RAHX FX system.

This RAHX FX technology will produce the following features and capabilities:

- Royalty tracking - RAHX FX compiles accounting of all music single downloads by detailing copyright owners and accurately reporting music royalty remittance;
- Customer debit accounts - RAHX FX establishes debit accounts for its customers to facilitate their purchases of downloaded music;
- Transaction facilitation - RAHX FX uses a transaction-facilitating engine that simultaneously debits the account of a buyer and credits the accounts of the music owners;

5

- Catalogue database - RAHX FX syncs with new and existing and new music databases to accurately identify all music recordings within the exchange network; and

- Firewall protection - RAHX FX provides a security firewall to protect end users.

RAHX 1.0 REVENUE GENERATION

The Core RAHX 1.0 Business Model will operate as follows:

1. Consumers are provided with the RAHX 1.0 Service (including the RAHX LM software) at no cost and are offered premium services through a

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

- monthly subscription fee. These premium services include content services and increased levels of entertainment services.
2. Small to mid sized businesses an initial sign up fee, which includes the cost of RAHX BM software, and monthly subscription service to utilize the Business Service. Enterprise level businesses pay an initial sign-up fee, monthly service fees, and additional customization fees. All businesses pay for premium services such as marketing services, loyalty programs, and the right to private label the RAHX LM software.
 3. The interconnection between businesses and consumers that RAHX 1.0 provides creates a critical mass of buyers and sellers.
 4. Every activity RAHX 1.0 facilitates generates transaction fees.

Within RAHX 1.0, the Company anticipates RAHX FX to earn income for RRUN through a two-pronged business model Direct to Consumer Model and Licensing Model:

1. In the Direct to Consumer Model, RAHX will provide an FX (file exchange) service or P2P media service directly to consumers and will use its RAHX FX component of RAHX 1.0 to generate transaction fees by acting as an agent to facilitate transactions between consumers and content owners.
2. In the Licensing Model, RAHX may license its RAHX FX software to other P2P media services that desire a method to generate revenue. RAHX will bill these file exchange services software license fees and transaction facilitation fees. Under this model, RAHX will earn a smaller transaction fee rate than in the direct to consumer model.

AXXUS CORPORATION

AXXUS will be the backbone technology of RRUN's venture network. AXXUS focuses on "lifestyle improving" technologies. Services under AXXUS include the creation, integration, and implementation of customized e-commerce and communications solutions for businesses focused on the Digital Generations. RAHX 1.0 is the first application of AXXUS' core product, the AXXUSNET Platform. This product suite is an integrated platform that will enable online and offline systems to deliver various services. In doing so, AXXUS hopes to create a common "standard" of delivery in function and software design for communication, commerce and interactive services. AXXUS is primarily focused on being a technology backbone for the RAHX 1.0 online

6

web service and its RAHX FX component. As RRUN develops, AXXUS will begin to develop its own business plan.

1. In development stage is THE AXXUS NETWORK MARKETPLACE, another product that will be introduced using AXXUS technology. It is hoped that this global marketplace will be made up of an infrastructure-type network of everyone in the supply chain including consumers, retailers, distributors, wholesalers and manufacturers. AXXUS intends to extend market reach by channeling online and offline services into a multidimensional and multilevel distribution network that integrates intelligent devices and user valuation systems. AXXUS will be the lead venture in the second initiative of RRUN and hopes to establish a standard in delivering products and services that improve the way consumers and businesses interact, transact and communicate over digital mediums to ultimately enhance the lifestyle experience of the end user. RAHX will use AXXUSNET for an entertainment industry application. Other applications of AXXUS will be developed for other industries through future partners and/or licensees.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

AXXUS also plans to provide support services to its partners such as RAHX and also provide AXXUS Enterprise Services - customized technology solutions built for large businesses.

RAHX MARKET ANALYSIS

RAHX 1.0 Digital Media and P2P Media Services Market Analysis

Currently, there is an effort to merge telecommunications and content management to enhance the delivery of content to consumers. Cable and wireless technologies are being re-focused as content distribution platforms, resulting in an increase of audio and video distribution devices. The mass proliferation of P2P applications and broadband technologies has enabled consumers to increase their enjoyment of digital entertainment:

1. One-third of all Internet users will use next-generation peer-to-peer computing services to store and share personal data by 2005. (National Post, 2001)
2. 28 million or one third of US homes will use a high-speed connection by the year 2005, a 5-year increase of 22 million people. (Jupiter Communications, 2000)

Consumers are now requiring entertainment to be directly delivered to their devices on demand. As a result, the market potential for delivering legal and secure entertainment through Internet technologies is expected to be significant:

Before P2P Media Services emerged, Internet users located certain digital media such as music over the web by spending time searching websites for specific music recordings, or by visiting MP3 music sites like MP3.com and Emusic.com, where they were given access to a limited amount of music and were required to pay for it. Napster entered the P2P Media Service and provided users with a convenient method of locating music. Users were now able to type a music title in a search field and any computer that contained the search item throughout the network was displayed.

7

Digital Media Services such as the RAHX FX component of RAHX 1.0 should have a growing market for which it can use for the benefit of its shareholders. For example, consumers are already able to trade movies in the controversial Div-X format. Just like MP3s impacted the music industry, Div-X is doing the same for the movie industry. Div-X movies are DVD quality and can be copied from a PC hard drive to a regular CD. The CD is then played in a standard DVD player. Other digital files currently being exchanged over P2P Media Services are e-books, text documents, photo images, and software programs. In addition, we believe P2P Media Services in the future will also facilitate online video gaming and video on demand. As a result, RRUN believes that the consumer demand for these Digital Media and P2P Media Services will continue to expand, resulting in potentially greater revenue streams for companies that possess a sustainable business model.

RAHX 1.0'S RAHX FX COMPONENT COMPETITIVE BUSINESS CONDITIONS

In the past few years, there were over 25 music P2P Media Services on the Internet, and eight, have emerged as the major participants due to their claims

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

of large consumer user bases: Napster, Gnutella, Hotline, Cute MX, iMesh, AudioGalaxy, Morpheus and Spin Frenzy. As of today a number of these services may no longer exist. These companies were the first to offer P2P Media Services, and, quickly amassed large user bases because they charged no user fees

Napster, Morpheus, and other companies with the same "free music sharing" concept, are currently or have been subject to a number of highly publicized lawsuits because, among other things, it was argued that they promote the use of a software that violates the rights of music copyright owners including major record labels Sony and Universal. As a result of these lawsuits, two new competitors in the Digital Media Services market were formed through joint ventures with music industry giants and Internet powerhouses. MusicNet, a joint venture between RealNetworks, AOL Time Warner, Bertelsmann AG and EMI recorded Music, and Pressplay, a joint-venture between Sony Music Entertainment and Universal Music Group with the affiliates of Yahoo, MSN and MP3.com, have both announced plans to enter into the market. Both new companies plan to offer digital download services and possible P2P file sharing services in exchange for either a subscription fee or sharing fee charge. As of today both Musicnet and Pressplay have begun testing or launched with limited catalogs. Details of the structure of these companies have yet to be fully disclosed.

INTELLECTUAL PROPERTY

PATENTS

The RAHX 1.0 (including RAHX FX, RAHX LM, RAHX BM) and AXXUS (including AXXUS NET) platforms are proprietary properties consisting of numerous individual proprietary assets. RRUN has begun to prepare the necessary documents to facilitate the Company's plan to file for various patents. RRUN has begun preparing the system architecture designs that will accompany the patent applications.

8

In regards to RAHX and its' subsystems, RRUN intends to patent the base concept, business model, and subsequently the data model architecture. The patenting will include software/hardware components at a high level. Individual software and/or hardware components built to work within the initial framework of the RAHX platform will also undergo copyright, followed by patenting. It takes two to three years to complete a patent, so as the system grows, it is initially copyrighted and a patent is filed when the entire system is integrated. At the inception phase any component will be linked to a manufacturing process that may be copyrighted for uniqueness, and included in the design requirements for the patent.

POTENTIAL LIABILITY

From Digital Distribution of Copyrighted Music in addition to the Risk Factors described in the Exhibit to this filing, the operation of RRUN's RAHX FX digital media component may result in liabilities or levels of unacceptance that may affect its profitability. Specifically, one or more of the factors listed below may result in liability or levels of unacceptance that may harm its present or future operations:

- 1) If RRUN's RAHX FX products and services do not accurately or completely provide rights reporting information, record companies and artists might not use its platform to digitally deliver their recorded music, and its business might

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

be harmed.

2) RRUN might incur liability for the content of the recorded music that it digitally delivers for the following reasons:

- Because RRUN digitally delivers recorded music to third parties, it might be sued for negligence, copyright infringement, trademark infringement or other reasons.

- These claims might include, among others, claims that by hosting, directly or indirectly, the websites of third parties, it is liable for copyright or trademark infringement or other wrongful actions by these third parties through these websites.

- While RRUN has taken steps to prevent these claims, we cannot assure you that RRUN will successfully defend these claims. Even if a claim does not result in liability, RRUN could incur significant costs in investigating and defending against them.

3) RRUN's success and ability to compete substantially depends on its internally developed technologies and trademarks, which it protects through the application of patent, copyright, trade secret and trademark laws.

- There is a possibility that patent applications or trademark registrations may not be approved. Even if they are approved, its patents or trademarks may be successfully challenged by others or invalidated.

- If its trademark registrations are not approved because third parties own these trademarks, its use of these trademarks would be restricted unless it enters into

9

arrangements with the third-party owners, which might not be possible on commercially reasonable terms or at all.

- Despite its efforts to protect its proprietary rights from unauthorized use or disclosure, parties may attempt to disclose, obtain or use its solutions or technologies.

- The steps RRUN has taken may not prevent others from misappropriating its solutions or technologies in foreign countries where laws or law enforcement practices may not protect its proprietary rights as fully as in the United States.

PROTECTION OF PROPRIETARY RIGHTS

RRUN's success and ability to compete substantially depends on its internally developed technologies and trademarks, which it protects through a combination of patent, copyright, trade secret and trademark laws. Patent applications or trademark registrations may not be approved. Even if they are approved, its patents or trademarks may be successfully challenged by others or invalidated. If its trademark registrations are not approved because third parties own these trademarks, its use of these trademarks would be restricted unless it enters into arrangements with the third-party owners, which might not be possible on commercially reasonable terms or at all. The primary forms of intellectual property protection for its products and services internationally are patents and copyrights. Patent protection throughout the world is generally established on a country-by-country basis.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

To date, RRUN has not applied for any patents outside the United States. It may do so in the future. Copyrights throughout the world are protected by several international treaties, including the Berne Convention for the Protection of Literary and Artistic Works. Despite these international laws, the level of practical protection for intellectual property varies among countries. In particular, United States government officials have criticized various countries, including China and Brazil, for inadequate intellectual property protection. If its intellectual property is infringed in any country without a high level of intellectual property protection, its business could be harmed.

RRUN generally enters into confidentiality or license agreements with its employees, consultants and corporate partners, and generally controls access to and distribution of its technologies, documentation and other proprietary information.

Despite its efforts to protect its proprietary rights from unauthorized use or disclosure, parties may attempt to disclose, obtain or use its solutions or technologies. The steps RRUN has taken may not prevent others from misappropriating its solutions or technologies, particularly in foreign countries where laws or law enforcement practices may not protect its proprietary rights as fully as in the United States. RRUN has licensed, and it may license in the future, certain proprietary rights to third parties.

While it attempts to ensure that the quality of its brand is maintained by its business partners, they may take actions that could impair the value of its proprietary rights or its reputation. In addition, these business partners may not take the same steps RRUN has taken to prevent others from misappropriating its solutions or technologies.

10

EFFECT OF EXISTING OR PROBABLE GOVERNMENTAL REGULATIONS ON THE BUSINESS

RAHX FX is designed to accurately record, collect, and distribute music royalties to their rightful owners. Since digital music emerged on the Internet, record companies have been searching for a viable system that allows them to use a financial system that will appeal to consumers. The RAHX FX digital media component allows for consumers to purchase music for a reasonable price, and in turn deposit the money into the account of the copyright owner. Second, if other P2P media services employ the RAHX FX financial subsystem, RRUN expects that it may save record companies and copyright owners the time and money otherwise expended in lawsuits. Third, RRUN anticipates that through RAHX FX, artists and record labels can generate revenue for no additional costs. For every dollar generated on a sale of a CD, tape, or vinyl record, the artist and record label incurs costs due to the manufacturing and marketing dollars spent on the physical recording. With digital music, there is no additional manufacturing or marketing costs as the music product of the artist and record label is only a digital file of a sound recording. Fourth, RRUN believes that RAHX FX will allow consumers to easily locate outdated or hard-to-find songs; and can provide compensation to copyright owners for these music recordings. Many times record companies stop distributing music recordings because it may be too expensive to manufacture and inventory product that is not in high demand. As a result, consumers are unable to find older music, and artists are not able earn revenue from these potential sales. RAHX FX expects that it can provide a system that will benefit both consumers and artists. Fifth, RRUN expects that RAHX FX will give independent artists an opportunity to showcase their talent and generate revenue from the sales of their music. Through RAHX FX, independent artists may have another medium that

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

directly distributes their music over the Internet. As a result, artists may be able to maximize their revenues and retain control of their music.

EMPLOYEES

At December 31, 2001, RRUN had five Executive Officers and three Directors, and employed a total of 13 people including officers and employees. RRUN and its subsidiaries intend to hire additional employees in the foreseeable future.

RESEARCH AND DEVELOPMENT EXPENDITURES

RRUN expects to incur research and development expenditures over the twelve months following December 31, 2001. The amounts to be incurred are entirely dependent upon the amount of additional funding we will require to support such efforts. It is impossible to give a meaningful forecast at this time as to the amounts of research and development expenditures that will be incurred.

	Year Ended June 30, 2001	Year Ended Dec. 31, 2001
	-----	-----
RRUN Ventures Network, Inc.	\$0	\$778,258

11

Item 2. Description of Property

We have no real estate property holdings and at this time we have no agreements to acquire any properties. During August 2001, the Company moved its headquarters into leased premises at 62 W. 8th Avenue, 4th Floor, Vancouver, British Columbia, Canada V5Y 1M7. RRUN has an option to secure additional space in the building. The lease commitment expires on December 31, 2002.

Item 3. Legal Proceedings

Other than the proceedings described herein, RRUN is not a party to any material legal proceedings and to RRUN's knowledge, no such proceedings are threatened or contemplated. At this time we have no bankruptcy, receivership or similar proceedings pending.

Randolph C. Demuyneck filed a lawsuit in February, 2002 in the Lynchburg General District Court for the Commonwealth of Virginia. The action concerned an alleged claim for unpaid wages of an employee of RRUN Labs, Inc., a subsidiary of RRUN Ventures Network, Inc. The amount of the lawsuit is \$7,524.42, not including interest accruing from October 30, 2001 at 9% plus court costs of \$56.

James E. Silverstrim filed a lawsuit in February, 2002 in the Lynchburg General District Court for the Commonwealth of Virginia. The action concerned an alleged claim for unpaid wages of an employee of RRUN Labs, Inc., a subsidiary of RRUN Ventures Network, Inc. The amount of the lawsuit is \$11,439.67, not including interest accruing from October 30, 2001 at 9% plus court costs of \$56.

In April, 2002, the Company received notice that Luke Kolesar filed a lawsuit against the Company in Lynchburg General District Court for the Commonwealth of Virginia. The action concerned an alleged claim for unpaid wages of an employee of RRUN Labs, Inc., a subsidiary of RRUN Ventures Network, Inc. The amount of the lawsuit is \$6,853.85, not including interest accruing from October 30, 2001 at 9% plus court costs of \$56.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

In addition, the Company believes that there are approximately two-dozen other former employees of RRUN Labs, Inc. who are owed wages by RRUN Labs, Inc. The total amount of unpaid wages claims, not yet subject to any lawsuit against the Company, is approximately \$168,000. All amounts have been included in the Financial Statements as of December 31, 2001.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted during the fourth quarter of the fiscal year ended December 31, 2001, to a vote of security holders through the solicitation of proxies or otherwise.

12

Part II

Item 5. Market for Registrant's Common Equity and Related Stockholders Matters

Prior to September, 2001, there was no trading market for our common stock. The Company received approval for listing and in September, 2001, the Company obtained a trading symbol of "RRUN" and began trading on the NASD Over-the-Counter Bulletin Board. Although we have a listing on the Bulletin Board, it is impossible to know or predict from day to day how active that market will be. There presently is a trading market for our stock, however, we cannot guarantee that a trading market will continue. As at December 31, 2001 there were 144 record holders of the Company's common stock.

Market Price

Our common stock is quoted at the present time. At April 9, 2002, our stock's closing price was \$0.30 per share. This price, however, is an inter-dealer price without retail mark-up, mark-down or commission and may not represent an actual transaction. The Securities and Exchange Commission has adopted a Rule that defines a "penny stock," for purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. Our common stock is presently considered a "penny stock" and is subject to such market rules.

	HIGH	LOW
	-----	-----
2001**		
First Quarter	Not Trading*	
Second Quarter	Not Trading*	
Third Quarter	\$3.10	\$1.50
Fourth Quarter	\$1.50	\$0.45
2002**		
First Quarter	\$0.60	\$0.10

*Trading of our stock did not begin until late September 2001.

** The prices are all "closing" prices and appear as approximate figures.

Dividends

We have not paid any dividends to date, and have no plans to do so in the immediate future.

Transfer Agent

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

We have retained the services of Jersey Transfer and Trust as our transfer agent at this time.

The transaction was valued at \$0.20 per share. For each share issued, the purchaser was also given warrants for the purchase of 2 common shares at \$0.20 per share. The transaction was an isolated transaction with one person having a

close affiliation with the Company and was exempt from registration under the Securities Act of 1933 pursuant to Section 4(2) of the Act because of not being part of a public offering. The offering was for a limited purpose and did not use the machinery of public distribution.

RRUN also issued during the fiscal year ended December 31, 2001, incentive stock options to the following officers, directors and consultants.

Optionee -----	Options Granted -----
Ray Hawkins	100,000
Pavel Bains	100,000
Edwin Kwong	100,000
Saya Kyvrikosaios	100,000
Emanuel Koseos	100,000
16 other consultants & employees	781,500

Total # of Options Granted	1,281,500

The options have various exercise prices of between \$0.10/share and \$0.75/share. The options were issued to a total of 21 officers, directors, employees and consultants all having a close association with the Company and were exempt from registration under Section 4(2) of the Securities Act of 1933.

RRUN also issued common stock warrants to staff, consultants and advisors. No warrants were issued to Directors and Officers. No warrant holder received an issuance of warrants to make such warrant holder a 5% or greater stockholder of the Company. The total number of warrants issued as of December 31, 2001 was 1,744,650 shares with an exercise price ranging from \$0.10 to \$3.00 per share. None of these common stock warrants has been exercised as of December 31, 2001. The warrants were issued for services rendered to a total of 14 staff, consultants and advisors, all having a business association with the Company and were exempt from registration under Section 4(2) of the Securities Act of 1933.

Item 6. Management's Discussion and Analysis or Plan of Operation

Plan of Operation

The following discussion should be read along with the financial statements and notes, and by other more detailed financial information appearing in other parts of this annual report.

BUSINESS STRATEGY FOR RAHX 1.0

From System Architecture Design to Alpha and Beta releases and testing to full release, RAHX hopes to be develop RAHX 1.0 at an accelerated cycle of six to

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

nine months. The development of all features of RAHX 1.0 will require a staff of 25 consisting of programmers/integrators, project managers, and a projected budget of \$2 million. In the event the Company does not acquire the necessary capital, the Company plans to reduce the number of features in the 1.0 version of the product and to reduce the staff and capital required while still attaining the commercial release of a version of the product.

RRUN intends to file for a patent on RAHX and all of its components when it completes its working prototype. Although the technology used to create RAHX is proprietary, RRUN expects that others may be able to substantially reproduce the patented results within six months. RRUN expects that it must devote a minimum of approximately 5% of RAHX Inc. revenues towards RAHX research and development.

Over the twelve months following December 31, 2001, RRUN will conduct significant product research and development, or R & D for its Peer to Peer based (P2P) product, RAHX 1.0 and its RAHX FX component.

The R & D anticipated to be executed by RRUN for RAHX 1.0 will include but will not be limited to:

- Development of the RAHX 1.0 software and its RAHX FX software subset components
 - Development of the RAHX 1.0 back end platform system (AXXUS)
 - Development of various RAHX 1.0 software licensee user tools
- Such research and development is dependent upon our ability to raise sufficient capital to support R & D.

Within the twelve months following December 31, 2001, RRUN intends to invest significantly in equipment to be used in developing products, the RAHX 1.0 and AXXUS back end technology and corporate file servers. Such investment is dependent upon RRUN's ability to raise additional capital.

The equipment invested in will include but not limited to:

- Audio and Video Production equipment for the development of the interactive front end websites
- Web, File, DNS and Proxy Servers that will handle the products' capacity needs
- Networking/Communication servers to load balance the traffic coming through the RAHX websites

RRUN will continue its main operations out of its Vancouver, British Columbia, Canada facility. RRUN currently operates a business development office in Los Angeles, CA and hopes to open other business development offices in U.S. cities.

RRUN VENTURES NETWORK INC. IMPLEMENTATION PLAN

16

RRUN requires approximately \$6,000,000 in operational capital for the 12 month period following December 31, 2001. The RRUN Ventures Network Inc. implementation is planned over a period of four phases totaling 12 months. Each phase is three months. The implementation plan during each phase describes the activity of RAHX across various departments such as Operations, Finance, Venture Development/Product Development, and Sales/Marketing/Business Development.

RRUN hopes to secure the financing to satisfy the capital needs for each phase through the execution of various funding methods, primarily private placement investments. RRUN hopes to achieve this by securing relationships with

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

investment bankers, venture capitals, and/or finance advisors that have the experience and relationships to aid RRUN with its capital raising efforts. The source of the private placement financing will be comprised of a mix of principal shareholders, private investors and venture capitalist companies.

If the

funding is unavailable, in whole or in part, at the expected time, RRUN will delay implementation of entire components of certain aspects of the implementation plan until the necessary funding is secured. There cannot be any assurance that RRUN will raise sufficient capital to meet its business plan. In addition to delays to the implementation plan, if sufficient capital is not raised, RRUN may suffer consequences including but not limited to the following; RRUN may have to suspend or discontinue operations of one or more of its business units, such as RAHX; RRUN may have to suspend or discontinue its entire operation.

RRUN's 2002 implementation plan regarding its core business unit RAHX is:

Phase One (Jan - March 2002): continue RAHX 1.0 software development; form RAHX Live division of RAHX, Inc.; continue sourcing additional vertical markets for AXXUS Net Software; commence venture development of new RRUN business units;

Phase Two (April - June 2002): Finalize Operations and Marketing plans; Commence testing of RAHX 1.0 service and software; develop first RAHX live events; release completed components of the RAHX 1.0 service; commence additional staff hiring.

Phase Three (July - September 2002): Secure capital; commence marketing of RAHX 1.0; open business development office in Toronto, Ontario; introduce new features of RAHX 1.0 when complete.

Phase Four (October - December 2002): continue marketing of RAHX 1.0; Secure next stage of Capital; open business development office in New York, NY; introduce new features of RAHX 1.0 when complete.

MARKETING PLAN

KEY OBJECTIVES

With RAHX 1.0 and its RAHX FX component being the initial key product under RRUN, the marketing strategy is designed to help the Company realize the following objectives:

1. Develop a RAHX.com brand awareness to attract customers;

17

2. Build a strong RAHX user and business customer base for its RAHX 1.0 service;
3. Develop RAHX awareness in the Digital Media industry.

The marketing strategy covers elements of distribution, promotion, and pricing. The marketing strategy spans across the upcoming fiscal year in accordance with the aforementioned RRUN implementation plan.

DISTRIBUTION STRATEGY

The objectives of the distribution strategy are:

- 1) To execute a rapid, efficient and widespread deployment of:
 - The RAHX 1.0 online web service and its respective software products (RAHX FX,

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

RAHX LM, RAHX BM)

2) To produce, launch and promote the RAHX.com and RAHX.net websites to serve as the distribution location for the RAHX 1.0 software products

3) To achieve a significant distribution reach through RAHX 1.0 business customers.

Whether we are able to achieve our distribution strategy will depend upon our ability to raise sufficient capital to support such strategy.

PROMOTION STRATEGY

The objective of the promotion strategy is to effectively invest promotion and advertising dollars to attain a critical mass of RAHX users and RAHX enabled business. Dependent upon our ability to raise sufficient capital, within the first year RRUN hopes to:

- Develop RAHX brand awareness
- Build a base of loyal RAHX users
- Build a base of loyal RAHX business users
- Develop relationships with digital music companies and P2P Media Services
- Develop relationships with leading companies in the content industries, i.e., music, movies, publishing, etc.

The details of the promotion strategy are as follows:

The promotional mix will revolve around Direct Sales, Internet Marketing, Trade Shows, Promotions, Advertising and Publicity in support of the launches of RAHX.com and RAHX 1.0.

1) Direct Sales

RRUN intends to build a RAHX sales team that will research, develop, and maintain relationships with potential customers. This team is expected to serve as liaisons with licensee customers and constantly be on the front lines searching out new customers at tradeshow, conventions, etc.

18

2) Internet Marketing

RRUN seeks to develop a marketing program that will research, develop and implement an online marketing strategy to create RAHX.com and RAHX 1.0 service and software brand awareness and get the RAHX message to consumers and potential licensee customers. This will include search engine positioning, affiliate programs, online news releases, direct mailing lists, newsgroup monitoring, newsletter distribution, and other innovative web marketing tools still in development.

3) Trade Shows

Attendance at industry trade shows can provide RAHX 1.0 with an excellent cost effective opportunity to source potential partners, competition, and other product development opportunities. The RAHX sales team would attend trade shows that focus on the P2P and digital entertainment industry.

4) Promotions

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

- Promotional teams - RAHX aims to develop brand awareness in the minds of its target consumer market and increase the RAHX 1.0 user base through street-level marketing tactics. The RAHX Promotion Teams will visit local hot spots frequented by the target consumers, including universities, nightclubs, sporting events, etc.

- Sponsorships - RAHX plans to sponsor entertainment, sporting, music and other events in each North American market that targets typical RAHX consumers. This effort can provide an opportunity to develop RAHX brand awareness and to associate the RAHX brand with the lifestyle of the target consumer.

5) Advertising

Dependent upon our ability to raise capital, RAHX plans to implement an advertising campaign in each local market to create RAHX brand awareness and increase RAHX membership. The advertising campaign may be done through print, radio, and the Internet. Each of these mediums will be targeted towards the consumer market.

6) Publicity

RAHX seeks to generate publicity through news releases, publicity campaigns and, charity events. These marketing initiatives are intended to spread the RAHX name in each local market and tie RAHX in with the local community.

PRICING STRATEGY

RAHX 1.0 will be offered to consumers and businesses and licensees for free through the RAHX websites. However, as stated, consumers will be charged for premium services, and for downloading music a subscription fee or a per music recording price. RAHX and the content owners will set the actual price for the music fees.

PART III

Item 9. Directors and Executive Officers of the Registrant

Name	Age	Offices Held
Ray A. Hawkins (1)	32	President, Chief Executive Officer, Director
Edwin Kwong (1)	30	Chief Operations Officer, Chief Financial Officer, Treasurer, Secretary and Director
Saya Kyvrikosaios (1)	34	Chief Venture Development. Officer, Director
Pavel Bains	25	Executive Vice President - Media & Entertainment
Emanuel Koseos	40	Chief Technology Officer

(1) Directors were appointed to the Board on August 17, 2001.

TERMS OF OFFICE

All executive officers are employed by RRUN on a full-time basis. The above listed directors will serve until the next annual meeting of the shareholders or until their death, resignation, retirement, removal, or disqualification, or until their successors have been duly elected and qualified. Vacancies in the existing Board of Director are filled by

20

majority vote of the remaining Directors. The officers serve at the will of the Board of Directors. Saya Kyvrikosaios and Emanuel Koseos are related as Brothers. There are no other family relationships between any executive officer And director.

MANAGEMENT

Ray Hawkins - Director, President & CEO.

As the President & CEO, Mr. Hawkins duties include the forging of business development, securing of partnerships, and overseeing product development, and marketing campaigns. Mr. Hawkins is a serial entrepreneur with over a decade of experience in the fields of media, entertainment, and marketing. From 1990-1995, Mr. Hawkins operated his own music artist management firm, RAH Talent. During that time Mr. Hawkins also acted as the CEO of Empire Communications, a record label that produced a number of cutting edge music artists. From 1993-1997 Mr. Hawkins acted as a music consultant, procuring cutting edge music for movie and television production houses like Paramount Pictures and video game companies like Electronic Arts. From 1996-1999 Mr. Hawkins was the founder, President, and CEO of TAXI Communications Network Inc., a leading edge media and marketing firm that produced a popular local culture magazine, TAXI Vancouver, and developed urban based marketing campaigns for companies like Labatt Breweries, Universal Music, Virgin Megastore and Molson Canada.

Edwin Kwong - Director, COO and CFO.

Mr. Kwong uses his background in finance and project management to oversee the day-to-day operations of RRUN. Mr. Kwong has over 5 years of international

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

management consulting experience in Project Management and Finance in Canada and Asia. In 1993 Mr. Kwong received a Bachelor of Commerce in Finance from the University of British Columbia. In 1996 Mr. Kwong received a Graduate Diploma in Asian Pacific Management. From 1994-1996 Mr. Kwong worked as Investment Advisor Assistant for Great Pacific Management in Vancouver. From 1996 to 1997 Mr. Kwong acted as a consultant in Hong Kong for Manulife International Ltd. and Ernst and Young Management Consulting. From 1997-1998 Mr. Kwong was a Project Executive for Hopewell Holdings in Hong Kong and Indonesia. In 1998 Mr. Kwong completed his Level 1 examination in the Chartered Financial Analyst program. From 1999-2000 Mr. Kwong was the Senior Business Specialist for Intria Items Inc., a financial technology solutions division of Canadian Imperial Bank of Commerce.

Saya Kyvrikosaios - Director, Chief Development Officer.

Mr. Kyvrikosaios is a well-diversified management and technology professional and uses his skills and experience to lead the product and technology development for RRUN. From 1991-1995 Mr. Kyvrikosaios acted as the Branch Manager and Implementation Consultant for Laurentian Bank. From 1995-1998 Mr. Kyvrikosaios was the Project Manager and Technology Implementation Consultant for Credit Union Enterprise Datawest Ltd. From 1998-2000 Mr. Kyvrikosaios acted as the Project Leader of Western Canada for INTRIA Items Inc., a subsidiary of the Canadian Imperial

21

Bank of Commerce. In 1999 Mr. Kyvrikosaios received his Bachelor's degree in Business Administration from Simon Fraser University.

Pavel Bains, Executive Vice President, Media & Entertainment.

Mr. Bains has over five years of experience in marketing and promotion, e-commerce development, and business strategy. Prior to RRUN, Mr. Bains was employed as a Marketing Representative for both Labatt Breweries and Budweiser where he produced promotional and marketing programs aimed at the urban market. Mr. Bains has also tenured with the National Basketball Association's Vancouver Grizzlies in a media relations role. Mr. Bains has a Bachelor's degree in Business Administration from Simon Fraser University where he won a top-consulting award for his work for Amazon.com.

Emanuel Koseos, Chief Technology Officer.

Mr. Koseos has two decades of diverse leadership experience with a variety of entrepreneurial, high technology, and market-making businesses. His most recent role was as a Senior Engineer at Ericsson Incorporated (U.S.). Mr. Koseos continues his entrepreneurial interests through Kaph Data Engineering, as an independent business development consultant specializing in systems integration and Internet technologies. Mr. Koseos is a member of MIT Technology Panel, USENIX, Adobe Developer Group, Linux Kernel Hackers, Active Perl Developers, Rational Partners, DevX, and SiteBuilder Networks. He maintains business partnerships with Amazon, Beyond, Infoseek, ATT, Talk City, and Real Networks Internet-based businesses.

SIGNIFICANT EMPLOYEES

Other than those individuals described above, RRUN does not have any employees who are not executive officers that are expected to make a significant contribution to the business.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The following persons have failed to file, on a timely basis, the identified reports required by Section 16(a) of the Exchange Act during the most recent fiscal year:

Name and principal position	Number Of late Reports	Transactions Not Timely Reported	Known Failures To File a Required Form
Ray A. Hawkins CEO, President and Director	1	0	0
Edwin Kwong COO, CFO, Treasurer, Secretary and Director	1	0	0
Saya Kyvrikosaivos Chief Venture Development.	1	0	0
	22		
Officer and Director			
Pavel Bains Executive Vice President, Media & Entertainment	2	0	0
Emanuel Koseos Chief Technology Officer	0	0	0

Note: Form 3 was filed by each Director within 30 days of the occurrence of the event necessitating the filing. Such event was the appointment by the Company to the Board of Directors or as an Officer of the Company.

Item 10. Executive Compensation

The following table sets forth certain information as to our President and the highest paid officers and directors for our last fiscal year ended December 31, 2001. No other compensation was paid to any such officers or directors during this time period.

23

Annual Compensation Table

All RRUN directors and officers as a group (5persons)	4,824,343 (4)	29.5%

(1) Ray A. Hawkins owns 74% of 550605 B.C. Ltd.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

- (2) Emanuel Koseos owns 85% of Kaph Data Engineering Inc.
- (3) Includes shares issuable upon the exercise of options within 60 days.
- (4) Includes 795,000 shares issuable upon the exercise of options within 60 days.

Item 12. Certain Relationships and Related Transactions

Except as disclosed below, none of the following parties since the date of RRUN's incorporation has had any material interest, direct or indirect, in any transaction with RRUN or in any presently proposed transaction that, in either case, has or will materially affect RRUN.

- Director or officer of RRUN
- Proposed nominee for election as a director of RRUN
- Person who beneficially owns, directly or indirectly, shares carrying more than 10% of the voting rights attached to all outstanding shares of RRUN.
- Promoter of RRUN
- Relative or spouse of any of the foregoing persons

Certain Relationships and Related Transactions

1. Incentive Stock Options. Option rights issued to Officers and Directors under our Incentive Stock Option Plan. A copy of the Plan as well as Incentive Stock Option Agreements for each Executive Officer and Director were attached as Exhibits to Form 10-KSB filed on October 15, 2001.

2. As of September 1, 2001, RRUN Ventures Network Inc. owed a total of \$321,598 to RRUN Ventures Network Inc.'s President and CEO, Ray Hawkins. RRUN is obligated to repay such loans as per terms of a Promissory Note issued to Ray Hawkins dated September 1, 2001. This debt is interest free and has a repayment term of one year from the date of September 1, 2001. In exchange for a reduction of \$50,544 indebtedness by RRUN, Ray Hawkins subscribed to additional shares of common stock of the Company. Such stock subscriptions are described in further detail under the "Resent Sales of Unregistered Securities". The Company also repaid \$11,537 during the fourth quarter of 2001. In addition, at September 1, 2001, Ray Hawkins was granted the option to convert to common shares an additional \$20,000 in debt owed by the Company. The terms of such conversion are that Ray Hawkins is granted the right to convert such debt to stock at \$0.02 per share; however, Ray Hawkins cannot execute such conversion until after February 28, 2002.

In February, 2002, the Company executed an amendment to the Promissory Note dated September 1, 2001 with Ray Hawkins. The amended Promissory reflected the amount owing from RRUN to Ray Hawkins as of December 31, 2001, as a total of \$259,517.00. RRUN is obligated to repay such loans as per terms of the amended Promissory Note issued to Ray Hawkins in February, 2002. The debt is interest free and has a repayment term of one year from the date of the February, 2002 Promissory Note. Ray Hawkins was granted the option to convert to common shares the entire amount of outstanding debt owed to Ray Hawkins by the Company. The terms of such conversion are that Ray Hawkins is granted the right to convert such debt to stock at \$0.02 per share. Ray Hawkins cannot execute such conversion until after September 1, 2002.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

amount of outstanding debt owed to Ray by the Company. The terms of such conversion are that Ray Hawkins is granted the right to convert such debt to stock at \$0.02 per share. Ray Hawkins cannot execute such conversion until after September 1, 2002.

3. Emanuel Koseos, our Chief Technology Officer, is the owner of Kaph Data Engineering Inc. Kaph is a related party to RRUN as follows: (1) RRUN Ventures Inc. owned 15% of Kaph Data Engineering inc. As of August 17, 2001 RRUN now owns that 15% of Kaph Data Engineering inc. as a result of the merger between United Management Inc. and RRUN Ventures Inc. and (2) Kaph provided and may continue to provide professional services to RRUN. Compensation paid to Kaph for such services is determined at the fair market value of such services customarily paid in the industry.

4. In September , 2001, RRUN Ventures Network, Inc. owed a total of \$9,435 to RRUN Ventures Network, Inc.'s COO, Edwin Kwong. RRUN is obligated to repay such loans. This debt is interest free and repayable within one year from date of the promissory note issued to Edwin Kwong from RRUN dated September 1, 2001. In exchange for a reduction of \$3,900 indebtedness by RRUN, Edwin Kwong subscribed to additional shares of common stock of the Company. Such stock subscriptions are described in further detail under the "Resent Sales of Unregistered Securities". In addition, at September 1, 2001, Edwin Kwong was granted the option to convert the outstanding balance in debt to common shares at \$0.02 per share; however, Edwin Kwong cannot execute such conversion until after September 1, 2002.

At December 31, RRUN Ventures Network Inc. owed a balance of \$103,053 to Edwin Kwong. This debt is interest free and is repayable within one year from the Date of each promissory note, respectively issued to Edwin Kwong.

As of February 7, RRUN executed two Promissory Notes totaling \$100,035. In addition, Edwin Kwong was granted the option to convert to common shares the outstanding balance in debt owed by the Company at \$0.10 per share; however, Edwin Kwong cannot execute such conversion until after May 31, 2002. As of February 27, 2002, RRUN executed a Promissory Note totaling \$5,550, where by Edwin Kwong was granted the option to convert to common shares the outstanding balance in debt owed by the Company at \$0.17 per share; however, Edwin Kwong cannot execute such conversion until after August 31, 2002.

AUDITORS' REPORT

To the Shareholders
RRUN Ventures Network Inc.
(Formerly United Management, Inc.)
(A development stage company)

We have audited the consolidated balance sheets of RRUN Ventures Network Inc. (formerly United Management, Inc.) (a development stage company) as at December 31, 2001 and 2000, and the consolidated statements of operations and deficit accumulated during the development stage, cash flows and stockholders' equity for the year ended December 31, 2001, and for the period from inception, October 12, 2000, to December 31, 2000. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with United States generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2001 and 2000, and the results of its operations and cash flows for the year ended December 31, 2001, and for the period from inception, October 12, 2000, to December 31, 2000 in accordance with United States generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1(c) to the consolidated financial statements, the Company has suffered recurring losses and net cash outflows from operations since inception. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also discussed in Note 1(c). The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

RRUN VENTURES NETWORK INC.
(Formerly United Management, Inc.)
(A Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2001 AND 2000
(Stated in U.S. Dollars)

1. NATURE OF OPERATIONS

a) Organization

The Company was incorporated in the State of Nevada, U.S.A., on October 12, 2000.

b) Development Stage Activities

The Company was organized as a holding company to develop or acquire innovative ventures with an emphasis on serving the lifestyle needs of the 18 - 34 year Digital Generation through the production and marketing of lifestyle products and services. The Company's initial venture is RAHX, a business concept focused on delivering, for its customers, a consolidated Entertainment Experience Network comprised of many services ranging from digital media peer to peer file exchange to live entertainment and online video games. The Company's other venture is AXXUS, an enhanced e-commerce and communication backbone technology.

c) Going Concern

Since inception, the Company has suffered recurring losses, net cash outflows from operations and, at December 31, 2001, has a working capital deficiency of \$1,626,076. The Company expects to continue to incur substantial losses to complete the development and testing of its technology. Since its inception, the Company has funded operations through common stock issuances and related party loans in order to meet its strategic objectives. Management believes that sufficient funding will be available to meet its business objectives, including anticipated cash needs for working capital, and is currently evaluating several

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

financing options. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of and, if successful, to commence the sale of its products under development. As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements for a period necessarily involves the use of estimates which have been made using careful judgment.

RRUN VENTURES NETWORK INC.
(Formerly United Management, Inc.)
(A Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2001 AND 2000
(Stated in U.S. Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The consolidated financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Consolidation

These consolidated financial statements include the accounts of the Company, its 100% owned subsidiaries, RRUN Labs Inc. and AXXUS Corporation, and its 67% owned subsidiary, RAHX, Inc.

b) Development Stage Company

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

c) Investments

Investments in companies owned less than 20% are recorded at the lower of cost or fair market value.

d) Software Development Costs

The costs to develop new software products and enhancements to existing software products will be expensed as incurred until technological feasibility has been established. Once technological feasibility has been established, any additional costs will be capitalized.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

e) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 - "Accounting for Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

RRUN VENTURES NETWORK INC.
(Formerly United Management, Inc.)
(A Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2001 AND 2000
(Stated in U.S. Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Amortization

Capital assets are being amortized on the declining balance basis at the following rates:

Computer equipment	30%
Computer software	100%
Office furniture and equipment	20%

g) Stock Based Compensation

The Company accounts for stock based employee compensation arrangements in accordance with the provisions of Accounting Principles Board Opinion No. 25 - "Accounting for Stock Issued to Employees" (APB No. 25) and complies with the disclosure provisions of Statement of Financial Accounting Standards No. 123 - "Accounting for Stock Based Compensation" (SFAS No. 123). Under APB No. 25, compensation expense is recognized based on the difference, if any, on the date of grant between the estimated fair value of the Company's stock and the amount an employee must pay to acquire the stock. Compensation expense is recognized immediately for past services and ratably for future services over the option vesting period.

h) Financial Instruments

The Company's financial instruments consist of cash, GST recoverable, prepaid expenses and accounts payable.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

i) Net Loss Per Share

Net loss per share is calculated using the weighted average number of common shares outstanding during the period. Fully diluted loss per share is not presented as the impact of the exercise of options is anti-dilutive.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2001 AND 2000
(Stated in U.S. Dollars)

3. ACQUISITION OF SUBSIDIARY

a) Effective November 13, 2000, RRUN Ventures, Inc. acquired 67% of the issued and outstanding shares of RAHX, Inc. by issuing 2,814,000 common shares. Since the transaction resulted in the former shareholders of RAHX, Inc. owning the majority of the issued shares of RRUN Ventures, Inc., the transaction, which is referred to as a "reverse take-over", has been treated for accounting purposes as an acquisition by RAHX, Inc. of the net assets and liabilities of RRUN Ventures, Inc. Under this purchase method of accounting, the results of operations of RRUN Ventures, Inc. are included in these consolidated financial statements from November 13, 2000.

RRUN Ventures Inc. had a net asset deficiency at the acquisition date, therefore, the 2,814,000 common shares issued on acquisition were issued at an ascribed value of \$Nil with the net asset deficiency of \$12,355 charged to deficit. RAHX, Inc. is deemed to be the purchaser for accounting purposes. Accordingly, its net assets are included in the consolidated balance sheet at their previously recorded amounts.

The acquisition is summarized as follows:

Current Assets	\$ 11,357
Current Liabilities	23,712

Net Asset Deficiency	\$ (12,355)
	=====

b) Effective August 17, 2001, RRUN Ventures Network Inc. acquired 100% of the issued and outstanding shares of RRUN Ventures, Inc. by issuing 305,439 common shares. Since the transaction resulted in the former shareholders of RRUN Ventures, Inc. owning the majority of the issued shares of RRUN Ventures Network Inc., the transaction, which is referred to as a "reverse take-over", has been treated for accounting purposes as an acquisition by RRUN Ventures, Inc. of the net assets and liabilities of RRUN Ventures Network Inc. Under this purchase method of accounting, the results of operations of RRUN Ventures Network Inc. are included in these consolidated financial statements from August 17, 2001.

Control of the net assets of RRUN Ventures Network Inc. was acquired for consideration of \$28,631 representing the fair value of the assets of RRUN Ventures Network Inc. RRUN Ventures, Inc. is deemed to be the purchaser for accounting purposes. Accordingly, its net assets are included in the balance sheet at their previously recorded values.

\$ 1,000	\$ 0.02	September 17, 2002
\$ 205,095	\$ 0.10	May 31, 2002
\$ 9,417	\$ 0.12	August 31, 2002

8. COMMITMENT

The Company has leased real estate at \$2,675 per month to December 31, 2002, And at \$9,000 per month to October 31, 2002.

9. SUBSEQUENT EVENT

a)

Subsequent to December 31, 2001, the Company executed Management Services Memorandums with five key directors/officers which are effective January 1, 2002. In addition to total signing bonuses of \$258,000, which have no specific payment date and are payable in cash or shares of the Company or its subsidiary, RAHX, Inc., the memorandums provide for performance bonuses and total annual compensation as follows:

Year ended December 31, 2002	\$ 460,000
Year ended December 31, 2003	\$ 460,000
Year ended December 31, 2004	\$ 460,000
Year ended December 31, 2005	\$ 380,000
Year ended December 31, 2006	\$ 380,000

b)

Subsequent to December 31, 2001, a total of 2,200,000 stock options have been granted at various prices between \$0.10 and \$0.20 per share and expire between February 5 and February 25, 2005.

(Stated in U.S. Dollars)

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10KSB

9. SUBSEQUENT EVENTS (Continued)

c) Subsequent to December 31, 2001, the Company issued common stock warrants for the purchase of up to 900,000 common shares at various prices between \$0.10 and \$1.00. These warrants expire between January 17 and March 22, 2005.

d) Subsequent to December 31, 2001, the Company issued 500,000 common shares to settle accounts payable of \$50,000 at December 31, 2001.

e) Subsequent to December 31, 2001, the Company issued 500,000 common shares as part consideration under a business consulting agreement entered into in February 2002.

f) Subsequent to December 31, 2001, the Company amended the terms of certain loans and advances referred to in Note 7 such that an additional \$239,517 is convertible to common shares at \$0.02 per share after February 28, 2002.
