VALMONT INDUSTRIES, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Condensed Consolidated Financial Statements

The Condensed Consolidated Balance Sheet as of September 24, 2016, the Condensed Consolidated Statements of Earnings and Comprehensive Income for the thirteen and thirty-nine weeks ended September 24, 2016 and September 26, 2015, and the Condensed Consolidated Statements of Cash Flows and Shareholders' Equity for the thirty-nine week periods then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of September 24, 2016 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 26, 2015. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 26, 2015. The results of operations for the period ended September 24, 2016 are not necessarily indicative of the operating results for the full year.

Inventories

Approximately 38% and 39% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market as of September 24, 2016 and December 26, 2015. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured and finished goods. The excess of replacement cost of inventories over the LIFO value is approximately \$38,267 and \$35,075 at September 24, 2016 and December 26, 2015, respectively.

Inventories consisted of the following:

	September 24, 2016	December 26, 2015
Raw materials and purchased parts	\$ 174,442	\$ 162,977
Work-in-process	26,079	25,644

Income Taxes

Earnings before income taxes and equity in earnings of nonconsolidated subsidiaries for the thirteen and thirty-nine weeks ended September 24, 2016 and September 26, 2015, were as follows:

	Thirteen Weeks		Thirty-nine Weeks	
	Ended		Ended

	\$43,789	\$25,567	\$156,876	\$117,368

Pension Benefits

The Company incurs expenses in connection with the Delta Pension Plan ("DPP"). The DPP was acquired as part of the Delta plc acquisition in fiscal 2010 and has no members that are active employees. In order to measure expense and the related benefit obligation, various assumptions are made including discount rates used to value the obligation, expected return on plan assets used to fund these expenses and estimated future inflation rates. These assumptions are based on historical experience as well as current facts and circumstances. An actuarial analysis is used to measure the expense and liability associated with pension benefits.

The components of the net periodic pension (benefit) expense for the thirteen and thirty-nine weeks ended September 24, 2016 and September 26, 2015 were as follows:

	Thirteen Weeks		Thirty-nine Weeks	
	Ended		Ended	
	2016	2015	2016	2015
Net periodic (benefit) expense:				
Interest cost	\$6,092	\$6,186	\$19,134	\$18,486
Expected return on plan assets	(5,565)	(6,341)	(17,648)	(18,946)
Net periodic (benefit) expense	\$527	\$(155)	\$1,486	\$(460)

Stock Plans

The Company maintains stock based compensation plans approved by the shareholders, which provide that the Human Resource Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common stock. At September 24, 2016, 884,562 shares of common stock remained available for issuance under the plans. Shares and options issued and available are subject to changes in capitalization.

Under the plans, the exercise price of each option equals the closing market price at the date of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the fifth anniversary of the grant.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expiration of grants is from seven to ten years from the date of grant. The Company's compensation expense (included in selling, general and administrative expenses) and associated income tax benefits related to stock options for the thirteen and thirty-nine weeks ended September 24, 2016 and September 26, 2015, respectively, were as follows:

	Thirteen Weeks Ended		Thirty-nine Weeks Ended

Equity Method Investments

The Company has equity method investments in non-consolidated subsidiaries, which are recorded within "Other assets" on the Condensed Consolidated Balance Sheet.

Fair Value

The Company applies the provisions of Accounting Standards Codification 820, Fair Value Measurements ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of ASC 820 apply to other accounting pronouncements that require or permit fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

ASC 820 establishes a three level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Trading Securities: The assets and liabilities recorded for the investments held in the Valmont Deferred Compensation Plan of \$36,925 (\$37,963 at December 26, 2015) represent mutual funds, invested in debt and equity securities, classified as trading securities in accordance with Accounting Standards Codification 320, Accounting for Certain Investments in Debt and Equity Securities, considering the employee's ability to change investment allocation of their deferred compensation at any time.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company's ownership of shares in Delta EMD Pty. Ltd. (JSE:DTA) is also classified as trading securities. The shares are valued at \$1,721 and \$4,734 as of September 24, 2016 and December 26, 2015, respectively, which is the estimated fair value. During the first quarter of 2016, the Company received a dividend of \$1,541 from Delta EMD Pty. Ltd and the market price of the shares were proportionately reduced accordingly. Quoted market prices are available for these securities in an active market and therefore categorized as a Level 1 input.

Comprehensive Income

Comprehensive income includes net earnings, currency translation adjustments, certain derivative-related activity and changes in net actuarial gains/losses from a pension plan. Results of operations for foreign subsidiaries are translated using the average exchange rates during the period. Assets and liabilities are translated at the exchange rates in effect on the balance sheet dates. Accumulated other comprehensive income (loss) consisted of the following at September 24, 2016 and December 26, 2015:

	Foreign Currency Translation Adjustments	Gain on Hedging Activities	Defined Benefit Pension Plan	Accumulated Other Comprehensive Income
Balance at December 26, 2015	\$(191,928)	\$ 3,678	\$(78,968)	\$(267,218)

Balance at September 24, 2016	\$(205,998)	\$ 8,631	\$(68,602)	\$(265,969)

Net Investment Hedge

In the second quarter of 2016, the Company entered into a one-year foreign currency forward contract which qualified as a net investment hedge, in order to mitigate foreign currency risk on a portion of our investments denominated in

British pounds. No ineffectiveness resulted from the hedge and the balance is recorded in the Condensed Consolidated Statements of Other Comprehensive Income within gain/(loss) on hedging activities. The realized gain (loss) will be deferred in other comprehensive income where it will remain until the net investments in our British subsidiaries are divested. The unrealized gain recorded at September 24, 2016 is \$4,897 and is included in Other Current Assets on the Condensed Consolidated Balance Sheets.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-9, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605, Revenue Recognition. The new revenue recognition standard requires entities to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-9 was to be effective for interim and annual reporting periods beginning after December 15, 2016 and is to be applied retrospectively. In August 2015, the FASB issued ASU 2015-14, Deferral of the Effective Date, which defers the effective date by one year to interim and annual reporting periods beginning after December 15, 2017 and is to be applied retrospectively. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its consolidated results of operations and financial position.

In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory. Under this ASU, inventory will be measured at the "lower of cost and net realizable value" and options that currently exist for "market value" will be eliminated. The ASU defines net realizable value as the "estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation." No other changes were made to the current guidance on inventory measurement. ASU 2015-11 is effective for interim and annual periods beginning after December 15, 2016 and should be applied prospectively. The Company is evaluating the provisions of this statement, including which period to adopt, and has not determined what impact the adoption of ASU 2015-11 will have on the Company's financial position or results of operations. The Company plans to adopt this ASU in fiscal 2017.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which provides guidance requiring debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability and further clarification guidance allows the cost of securing a revolving line of credit to be recorded as a deferred asset regardless of whether a balance is outstanding. The Company retrospectively adopted this guidance during the first quarter of 2016 and reclassified approximately \$7,000 of debt issuance cost for its long-term debt (excluding its revolving line of credit) to a direct reduction of long-term debt instead of an other asset in the condensed consolidated balance sheets for December 26, 2015.

In February 2016, the FASB issued ASU 2016-02, Leases, which provides revised guidance on leases requiring lessees to recognize a right-of-use asset and a lease liability for virtually all of their leases (other than leases that meet the definition of a short-term lease). The liability will be equal to the present value of lease payments. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Operating leases will result in straight-line expense (similar to current operating leases) while finance leases will result in a front-loaded expense pattern (similar to current capital leases). Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018 and is to be applied on a modified retrospective transition. The Company is currently evaluating the effect that adopting this new accounting guidance will have on its consolidated results of operations and financial position.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which provides revised guidance for employee share-based compensation payments. The ASU requires all excess tax benefits and tax deficiencies (including tax benefits of dividends on share-based payment awards) be recognized as income tax expense or benefit in the income statement. It also states excess tax benefits to be classified along with other income tax cash flows as an operating activity whereas currently it is classified within a financing cash flow activity. ASU 2016-09 is effective prospectively for interim and annual reporting periods beginning after December 15, 2016. The Company early adopted this guidance prospectively in the second quarter of 2016 which resulted in an

income tax benefit of approximately \$289.

(2) ACQUISITIONS

On September 30, 2015, the Company purchased American Galvanizing for \$12,778 in cash, net of cash acquired, plus assumed liabilities. American Galvanizing operates a custom galvanizing operation in New Jersey with annual sales of approximately \$10,000. In the purchase price allocation, goodwill of \$3,019 and \$2,178 of customer relationships, trade name and other intangible assets were recorded. Goodwill is not deductible for tax purposes. This business is included in the Coatings segment and was acquired to expand the Company's geographic presence in the Northeast United States. The purchase price allocation was finalized in the first quarter of 2016. Pro-forma disclosures were omitted as this business did not have a significant impact on the Company's 2015 or 2016 financial results.

Acquisitions of Noncontrolling Interests

In April 2016, the Company acquired the remaining 30% of IGC Galvanizing Industries (M) Sdn Bhd that it did not own for \$5,841. In June 2016, the Company acquired 5.2% of the remaining 10% of Valmont SM that it did not own for \$5,168. As these transactions were for acquisitions of part or all of the remaining shares of consolidated subsidiaries with no change in control, they were recorded within shareholders' equity and as a financing cash flow in the Consolidated Statements of Cash Flows.

In April 2015, the Company's Board of Directors authorized a broad restructuring plan (the "2015 Plan") to respond to the market environment in certain businesses. During fiscal 2015, the Company substantially completed this 2015 Plan and recognized \$21,708 of pre-tax restructuring expenses in cost of sales and \$18,144 of pre-tax restructuring expenses in selling, general, and administrative expenses. Within the total fiscal 2015 pre-tax restructuring expense of \$39,852 were pre-tax asset impairments of \$19,836.

During fiscal 2016, the Company recognized the following pre-tax restructuring cash expense related to the 2015 Plan:

- Engineered Support Structures (ESS) recognized \$587 (SG&A)
- Corporate recorded \$1,572 (SG&A) and

(4) GOODWILL AND INTANGIBLE ASSETS (Continued)

Estimated annual amortization expense related to finite lived intangible assets is as follows:

	Estimated Amortization Expense
2016	\$ 15,895
2017	15,390
2018	13,764
2019	12,994
2020	11,945

The useful lives assigned to finite lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

Non-amortized intangible assets

Intangible assets with indefinite lives are not amortized. The carrying values of trade names at September 24, 2016 and December 26, 2015 were as follows:

	September 24, December 26, 2016 2015		Year Acquired
Webforge	\$ 9,061	\$ 10,430	2010
Valmont SM	9,333	8,919	2014
Newmark	11,111	11,111	2004
Ingal EPS/Ingal Civil Products	7,387	8,504	2010
Donhad	5,573	6,415	2010
Shakespeare	4,000	4,000	2014
Industrial Galvanizers	2,313	2,662	2010
Other	14,089	13,889	
	\$ 62,867	\$ 65,930	

In its determination of these intangible assets as indefinite lived, the Company considered such factors as its expected future use of the intangible asset, legal, regulatory, technological and competitive factors that may impact the useful life or value of the intangible asset and the expected costs to maintain the value of the intangible asset. The Company expects that these intangible assets will maintain their value indefinitely. Accordingly, these assets are not amortized.

The Company's trade names were tested for impairment in the third quarter of 2016. The values of each trade name was determined using the relief-from-royalty method. Based on this evaluation, no trade names were determined to be impaired as of the third quarter of 2016. In the third quarter of 2015, the Company recorded a \$5,000 impairment of the Webforge trade name (in Energy & Mining segment) and a \$1,100 impairment of the Industrial Galvanizing trade name (in Coatings segment). The Company also recognized an additional \$830 impairment of the Webforge trade name in the fourth quarter of 2015.

Goodwill

The carrying amount of goodwill by segment as of September 24, 2016 and December 26, 2015 was as follows:

	Engineered Support Structures Segment	Energy & Mining Segment	Utility Support Structures Segment	Coatings Segment	Irrigation Segment	Total
Gross goodwill at December 26, 2015	\$ 101,275	\$ 99,829	\$ 75,404	\$ 75,941	\$ 19,359	\$ 371,808
Accumulated impairment losses	—	(18,670)	—	(16,222)	—	(34,892)
Balance at December 26, 2015	\$ 101,275	\$ 81,159	\$ 75,404	\$ 59,719	\$ 19,359	\$ 336,916
Foreign currency translation	(4,559)	(4,968)	—	163	311	(9,053)
Balance at September 24, 2016	\$ 96,716	\$ 76,191	\$ 75,404	\$ 59,882	\$ 19,670	\$ 327,863

The Company's annual impairment test of goodwill was performed during the third quarter of 2016, using the discounted cash flow method. As a result of that testing, the Company determined that its goodwill was not impaired, as the valuation of the reporting units exceeded their respective carrying values. The Company's offshore and other complex steel structures reporting unit with \$13,872 of goodwill, is the reporting unit with the least amount of cushion between its estimated fair value and its carrying value. In the impairment model, the Company is forecasting steady growth in sales between 2018 to 2020 of the other complex steel structures to offset the significant decline in sales from offshore oil and gas structures realized in fiscal 2016. If this reporting unit is not able to build out a backlog of other product lines projects during 2017 to construct and deliver in fiscal 2018, an interim impairment test may be required before the next annual impairment test. The Company continues to monitor changes in the global economy that could impact future operating results of its reporting units. If such conditions arise, the Company will test a given reporting unit for impairment prior to the annual test.

In the third quarter of 2015, the APAC Coatings reporting unit failed step one in that the estimated fair value was lower than the carrying value. As a result, the Company recorded a \$9,100 impairment of goodwill on the APAC Coatings reporting unit. The Company finalized step two of the impairment analysis during the fourth quarter of 2015 and recorded an additional impairment of \$7,122, which was the remaining goodwill of this reporting unit. The Company also recorded an \$18,670 impairment of access system's goodwill in the fourth quarter of 2015.

(5) CASH FLOW SUPPLEMENTARY INFORMATION

The Company considers all highly liquid temporary cash investments purchased with an original maturity of three months or less at the time of purchase to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the thirty-nine weeks ended September 24, 2016 and September 26, 2015 were as follows:

	2016	2015

Share Repurchase Programs

On May 13, 2014, the Company announced a new capital allocation philosophy which increased the dividend by 50% and covered a share repurchase program of up to \$500,000 of the Company's outstanding common stock to be acquired from time to time over twelve months at prevailing market prices, through open market or privately-negotiated transactions. On February 24, 2015, the Board of Directors authorized an additional purchase of up to \$250,000 of the Company's outstanding common stock with no stated expiration date. As of September 24, 2016, the Company has acquired 4,531,259 shares for approximately \$610,600 under the share repurchase programs.

Earnings per share are computed independently for each of the quarters. Therefore, the sum of the quarterly earnings per share may not equal the total for the year primarily due to the share buyback program.

At September 24, 2016 and September 26, 2015, there were 378,566 and 433,401 outstanding stock options with exercise prices exceeding the market price of common stock that were excluded from the computation of diluted earnings per share, respectively.

(7) BUSINESS SEGMENTS

In the fourth quarter of 2015, the Company changed its reportable segment structure to improve transparency. The Company now has five reportable segments and its management structure was changed to align with this new reporting structure. A new reportable segment, Energy & Mining, includes the businesses primarily serving the energy and mining end markets. This segment includes the access systems applications businesses and offshore structures business that was formerly part of the Engineered Infrastructure Products (EIP) segment, and the grinding media business that was formerly included in the "Other" category. The remaining businesses from the EIP segment was also renamed "Engineered Support Structures". The last change in the reporting structure was moving the tubing business from the "Other" category to the Irrigation segment. Prior year information in this footnote has been updated to match the new reportable segment structure.

Reportable segments are as follows:

ENGINEERED SUPPORT STRUCTURES: This segment consists of the manufacture of engineered metal structures and components for the global lighting and traffic, wireless communication, and roadway safety industries;

ENERGY AND MINING: This segment, all outside of the United States, consists of the manufacture of access systems applications, forged steel grinding media, on and off shore oil, gas, and wind energy structures;

UTILITY SUPPORT STRUCTURES: This segment consists of the manufacture of engineered steel and concrete structures for the global utility industry;

COATINGS: This segment consists of galvanizing, anodizing and powder coating services on a global basis; and

IRRIGATION: This segment consists of the manufacture of agricultural irrigation equipment and related parts and services for the global agricultural industry and tubular products for industrial customers.

Due to the business reorganization and restructuring activities that occurred in 2015, there are no longer business operations included in Other for fiscal 2016. In 2015, the Company had other businesses and activities that individually were not more than 1% of consolidated sales.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its business segments based upon operating income and invested capital. The Company does not allocate interest expense, non-operating income and deductions, or income taxes to its business segments.
