NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1.) **ORGANIZATION, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING
POLICIES**

Organization

MFIC Corporation (MFIC or the Company), through its wholly-owned subsidiary, Microfluidics Corporation (Microfluidics), operates in one segment, producing and marketing a broad line of proprietary fluid materials processing systems used for a variety of grinding, mixing, milling, and blending applications across a variety of industries and for use in numerous applications within those industries.

The consolidated financial statements of the Company include the accounts of the Company and its wholly owned subsidiary, Microfluidics. All significant intercompany transactions and balances have been eliminated in consolidation.

Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The Company believes, however, that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's latest annual report on Form 10-K.

Edgar Filing: MFIC CORP - Form 10-Q

The condensed consolidated financial statements, in the opinion of management, include all adjustments necessary to present fairly the Company's financial position and the results of operations. These results are not necessarily indicative of the results to be expected for the entire year.

Significant Accounting Policies

The significant accounting policies followed by the Company and its subsidiary in preparing its consolidated financial statements are set forth in Note 1 to the consolidated financial statements included in the Company's Form 10-K for the year ended December 31, 2004. The Company has made no changes to these policies during this quarter.

Stock Based Compensation

As allowed by SFAS No. 123, *Accounting for Stock-Based Compensation*, the Company has elected to account for stock-based compensation at intrinsic value with disclosure of the effects of fair value accounting on net income and earnings per share on a pro forma basis. At March 31, 2005, the Company had one stock incentive plan. The Company accounts for awards issued to employees under the plan under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. Accordingly, no compensation expense has been recognized for its stock option plans. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123.

On November 17, 2004, the Company entered into a twelve month general financial and advisory services agreement with Maxim Group LLC pursuant to which Maxim Group LLC was granted a three (3) year warrant to purchase 100,000 shares of the Company's common stock at an exercise price of \$3.20 per share. The estimated value of these warrants are being expensed over the length of the agreement. The company recognized \$29,750 in expenses for the quarter ended March 31, 2005.

2.) INVENTORIES

The components of inventories are as follows at:

3) RESULTS OF DISCONTINUED OPERATIONS

The following summarizes operating results of the discontinued operations of the Company's Morehouse-COWLES Division (the Division):

	March 31,	
	2005	2004
Revenues	\$	\$ 323,635
Cost of sales		308,548
Gross profit		15,087
Total operating expenses		238,760
		(223,673)
Loss on disposal of discontinued operations		7,707
Loss from discontinued operations	\$	\$ (231,380)

On February 9, 2004, pursuant to an Asset Purchase Agreement (the Asset Purchase Agreement) dated February 5, 2004 between the Company and a wholly owned subsidiary of NuSil Corporation (NuSil), the Company sold substantially all of the assets and selected liabilities of the Division to NuSil. Other than NuSil's prior purchases of products from the Division, there were no preexisting relationships between the Company and NuSil.

The assets of the Division that were sold included accounts receivable, furniture, fixtures and equipment, inventory and supplies, books and records, bids, contracts, prepaid expenses, leases, intellectual property, goodwill, domain names and claims, all as described in the Asset Purchase Agreement (collectively, the Assets) in the amount of approximately \$2,850,000. In addition, certain rights and obligations arising after February 9, 2004 under the Division's PacifiCare Group Health Insurance Policy were assigned. The Division's cash and cash equivalents on hand on February 9, 2004 were excluded from the assets being sold. Under the Asset Purchase Agreement, the Division's executory obligations under certain contracts and bids, and the Division's accounts payable as of February 9, 2004 in the amount of \$623,240, were assumed by NuSil.

The purchase price (other than the assumption of accounts payable described in the preceding paragraph) paid under the Asset Purchase Agreement was \$918,238. Of the purchase price, \$768,238 (the Closing Cash) was paid in cash, \$100,000 was paid in the form of a Promissory Note (the Purchase Note) and \$50,000 (the Holdback Payment) was withheld for payment at a future date subject to any purchase price adjustments and offsets, as provided for in the Asset Purchase Agreement. The Holdback Payment was paid in full on March 26, 2004 without adjustment or offset.

The sale generated a loss of approximately \$1,400,000, which includes approximately \$130,000 of selling costs. In addition, due to the sale of the Division, goodwill associated with the 1998 purchase of this Division in the amount of \$2,100,000 was impaired in 2003.

The aforementioned Purchase Note bears interest at five percent (5%) per annum, is secured by the Assets pursuant to a Security Agreement dated February 5, 2004 (the Security Agreement), between the parties and is subject to certain offsets as provided in the Asset Purchase Agreement. Principal and interest on the Purchase Note were payable on February 9, 2005. Nusil forwarded a payment of \$91,651 to the Company on that date, and claims the Company is responsible for certain costs related to the sale. The Company is currently disputing the costs, has not deposited the payment, and is in discussions with Nusil regarding the full payment of the Purchase Note.

Pursuant to the Asset Purchase Agreement, MFIC entered into a Noncompetition and Nonsolicitation Agreement, dated February 5, 2004, which limits the Company's ability to compete with the business of the Division for a period of five years.

4.) EARNINGS (LOSS) PER SHARE

Basic and diluted net (loss) earnings per share are presented in conformity with Statement of Financial Accounting Standards No. 128, *Earnings per Share* (*SFAS No. 128*), for all periods presented. In accordance with SFAS No. 128, basic net income per common share was determined by dividing net income applicable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income per share (EPS) reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock, unless the effects of dilution would be anti-dilutive.

	Three months ended	
	March 31, 2005	March 31, 2004
Shares for computation of basic net income per share	9,678,292	8,468,537

Shares for computation of diluted net income per share	9,678,292	8,468,537

5.) CREDIT FACILITY

On February 6, 2004 the Company and PNC Bank, N.A (*PNC*) entered into a Fourth Amendment and Waiver to Revolving Credit and Term Loan Agreement permitting the sale of the assets of the Company's Morehouse-COWLES Division in exchange for payment to PNC of all monies received by the Company in connection with such sale and assignment to PNC of deferred payments and a promissory note from the purchase issued as part of the purchase price. On March 3, 2004, the outstanding loan balance was repaid from the proceeds of a new senior debt financing from Banknorth, N.A.

On March 3, 2004, the Company and its Microfluidics Corporation subsidiary, as co-borrowers, entered into a revolving credit and term loan agreement with Banknorth, N.A. (the *Lender*) providing the Company with a \$2,000,000 demand revolving credit and four year term loan facility (the *Credit Facility*). The Credit Facility, which expires on March 2, 2008, is comprised of (i) a \$1 million demand revolving line of credit (*Revolving Credit Line*) with advances thereunder bearing interest at an interest rate equal to the prime rate (the *Prime Rate* for United States borrowings from Banknorth, N.A. as publicly announced from time to time). All borrowings under the Revolving Credit Line are evidenced by a \$1 million demand promissory note (the *Revolving Note*), and (ii) a \$1,000,000 term promissory note, amortized over a four year period

Edgar Filing: MFIC CORP - Form 10-Q

and having a maturity date of March 3, 2008 and bearing interest at an interest rate equal to the Federal Home Loan Bank Classic Rate at March 4, 2004 plus two and one-half percent. Loans under the Credit Facility are secured by a collateral pledge to the Lender of substantially all the assets of the Company and its subsidiary. The Company is required to meet two covenants on an annual (calendar) basis as of December 31 of each year: (i) the Company's senior debt may not be more than four times the amount of its tangible capital base, and (ii) its debt service coverage ratio may not be less than 1.20 to 1.

Due to the subjective acceleration clause, and the lock-box arrangement, the Revolving Credit Line is classified as a current liability in the condensed consolidated balance sheet. At March 31, 2005, the outstanding balance on the Revolving Credit Line was \$252,500, having an interest rate of 5.75%. The balance outstanding on the term loan was \$750,004, at an interest rate of 5.67%.

6.) PRIVATE PLACEMENT OFFERING

On March 31, 2004, the Company completed a private placement offering of investment units (each unit consisting of one share of common stock and a 3-year warrant to purchase an additional ½ share of common stock). A total of 1,426,616 units were sold, yielding gross proceeds of \$3,566,540. The units were priced at \$2.50 and the associated warrants are exercisable at \$3.05. Additionally, the placement agent for the offering received 5-year warrants to purchase 213,992 shares of common stock at an exercise price of \$3.20 per share. The value of the warrants granted to the placement agent is approximately \$351,000, and was accounted for as a non cash financing activity.

7.) DEBT

Debt as of the following dates consisted of:

	March 31, 2005 (Unaudited)	December 31, 2004
Line of credit	\$ 252,500	\$
10% subordinated note payable to related party		6,250
Term note payable	750,004	812,503
Equipment notes payable	79,426	
	1,081,930	818,753
Less current portion	(541,007)	(256,250)
Long term debt, net of current portion	\$ 540,923	\$ 562,503

The equipment notes payable consist of three capitalized leases with bargain purchase options that the Company is obligated to pay over a three year period.

8.) INCOME TAXES

Edgar Filing: MFIC CORP - Form 10-Q

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate for the full fiscal year. Cumulative adjustments to the tax provision are recorded in the interim period in which a change in the estimated annual effective rate is determined.

MFIC CORPORATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

1. BACKGROUND

In 1998, the Company purchased the assets and liabilities of Morehouse-COWLES, Inc. (the Division). This was done to complete a strategic combination with the Microfluidics Division, in order to enhance the Company's position in the coatings market, which, at the time, was the dominant part of the Company's business.

Since that time, the direction of the core business of the Company changed significantly from coatings to other areas, in particular the Health Care sector. The Company determined that it could no longer support the previous strategic plan and the Company, therefore, prepared a plan to divest the Division.

It was expected that the sale would positively impact the Company's cash flow, and would allow the Company to focus on the core business, and expand its sales and marketing resources for the Company's Microfluidizer® processor systems line, and promote its new MMR nanoparticle production systems.

During the fourth quarter of 2003, management committed to a plan to sell substantially all the assets and associated liabilities of the Division. Accordingly, at the end of fiscal year 2003, the Company reported the Division as discontinued operations and reclassified the assets and associated liabilities as available for sale. The search for a buyer eventually resulted in NuSil Corporation, a California corporation (NuSil), making an offer in December 2003 to purchase the Division's assets and selected liabilities at a price that was acceptable to the Company.

On February 9, 2004, pursuant to an Asset Purchase Agreement (the Asset Purchase Agreement) dated February 5, 2004 between the Company and a wholly owned subsidiary of NuSil, the Company sold substantially all of the assets and selected liabilities of the Division to NuSil. Other than NuSil's prior purchases of products from the Division, there were no preexisting relationships between the Company and NuSil.

The assets of the Division that were sold included accounts receivable, furniture, fixtures and equipment, inventory and supplies, books and records, bids, contracts, prepaid expenses, leases, intellectual property, goodwill, domain names and claims, all as described in the Asset Purchase Agreement (collectively, the Assets). In addition, certain rights and obligations arising after February 9, 2004 under the Division's PacifiCare Group Health Insurance Policy were assigned. The Division's cash or cash equivalents on hand on February 9, 2004 were excluded from the assets being sold. Under the Asset Purchase Agreement, the Division's executory obligations under certain contracts and bids, and the Division's accounts payable as of February 9, 2004 in the amount of \$623,240, were assumed by NuSil.

Edgar Filing: MFIC CORP - Form 10-Q

The purchase price (other than the assumption of accounts payable described in the preceding paragraph) paid under the Asset Purchase Agreement was \$918,238. Of the purchase price, \$768,238 (the Closing Cash) was paid in cash, \$100,000 was paid in the form of a Promissory Note (the Purchase Note) and \$50,000 (the Holdback Payment) was withheld for payment at a future date subject to any purchase price adjustments and offsets, as provided for in the Asset Purchase Agreement. The Holdback Payment was paid in full on March 26, 2004 without adjustment or offset.

The Closing Cash was paid directly to PNC Bank, National Association (PNC), to be applied to the Company's outstanding balance under MFIC's Revolving Credit Loan with PNC.

The aforementioned Purchase Note bears interest at five percent (5%) per annum, is secured by the Assets pursuant to a Security Agreement dated February 5, 2004 (the Security Agreement), between the parties

and is subject to certain offsets as provided in the Asset Purchase Agreement. Principal and interest on the Purchase Note were payable on February 9, 2005. Nusil forwarded a payment of \$91,651 to the Company on that date, and claims the Company is responsible for certain costs related to the sale. The Company is currently disputing the costs, has not deposited the payment, and is in discussions with Nusil regarding the full payment of the Purchase Note.

Pursuant to the Asset Purchase Agreement, the Company entered into a Noncompetition and Nonsolicitation Agreement, dated February 5, 2004, which limits the Company's ability to compete with the business of the Division for a period of five years.

The sale generated a loss of approximately \$1,420,000. Due to the sale of the Division, goodwill associated with the 1998 purchase of this division in the amount of \$2,100,000 was impaired in 2003.

RESULTS OF CONTINUING OPERATIONS

Total Company revenues for the quarter ended March 31, 2005 from continuing operations were \$2,536,469, as compared to revenues of \$2,251,452 for the three months ended March 31, 2004, representing an increase of \$285,017, or 13%. The increase during this period is due principally to an increase in the sale of spare parts of approximately \$411,000 and a decrease in sales of machines of approximately \$126,000.

Cost of goods sold for the three months ended March 31, 2005 was \$1,148,929, or 45% of revenue, compared to \$1,012,873, or 45% of revenue, for the three months ended March 31, 2004. The increase in cost of goods sold in absolute dollars for the three months ended March 31, 2005, reflects the overall increase in sales. The Company's major product lines have different profit margins, as well as multiple profit margins within each product line.

Total operating expenses for the three months ended March 31, 2005 were \$1,573,188, or 62% of revenue, as compared to \$1,277,729, or 57% of revenue, for the three months ended March 31, 2004, which is an increase of approximately \$295,000, or 23%.

3. FORWARD-LOOKING INFORMATION

This report may contain forward-looking statements that are subject to certain risks and uncertainties including statements relating to the Company's plan to achieve revenue growth, to maintain and/or increase operating profitability, and to attain net income profitability. Such statements are based on the Company's current expectations and are subject to a number of factors and uncertainties that could cause actual results achieved by the Company to differ materially from those described in the forward-looking statements.
