Prospectus Supplement No. 7
(To Prospectus dated February 8, 2007)

Inland Real Estate Corporation

**\$180,000,000 Aggregate Principal Amount of 4.625% Convertible Senior Notes due 2026
and 10,000,008 Shares of Common Stock Issuable Upon Conversion of the Notes**

This supplement to the prospectus supplements and, to the extent inconsistent, supersedes information contained in that certain prospectus dated February 8, 2007 of Inland Real Estate Corporation and supersedes, in its entirety, Supplement No. 6 dated August 20, 2007, covering resales by selling securityholders identified therein of our 4.625% convertible senior notes due 2026 and shares of our common stock into which the notes are convertible. We refer to the prospectus, including any amendments or supplements, as the prospectus.

You should read this prospectus supplement in conjunction with the prospectus. This prospectus supplement may not be delivered or utilized without the prospectus. This prospectus supplement is qualified by reference to the prospectus, except to the extent that the information in this prospectus supplement supersedes the information contained in the prospectus.

To read about certain factors you should consider before investing in the notes and our common stock, see Risk Factors beginning on page 7 of the prospectus dated February 8, 2007.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is September 7, 2007.

The information appearing under the section entitled *Selling Securityholders* on pages 78 through 81 of the prospectus dated February 8, 2007 is amended and restated in its entirety by the information below.

SELLING SECURITYHOLDERS

On November 13, 2006, we issued all of the notes in a private placement to Wachovia Capital Markets, LLC, BMO Capital Markets, LLC and KeyBanc Capital Markets, a division of McDonald Investments Inc., as the initial purchasers (each an *initial purchaser* and together, the *initial purchasers*). These initial purchasers then resold the notes in transactions exempt from the registration requirements of the Securities Act to persons reasonably believed by the initial purchasers to be qualified institutional buyers in reliance on Rule 144A of the Securities Act. All of the notes were issued as *restricted securities* under the Securities Act. Selling securityholders may from time to time offer and sell pursuant to this prospectus any, all or none of the notes and shares of common stock issuable upon conversion of the notes.

The following table sets forth information, as of September 6, 2007, with respect to the selling securityholders and the principal amounts of notes beneficially owned by each selling securityholder that may be offered from time to time pursuant to this prospectus. The information is based on information provided by, or on behalf of, the selling securityholders through September 6, 2007, and we have not independently verified this information. The selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act. Therefore, we cannot estimate the amount of the notes or the shares of common stock that are held by the selling securityholders as of the date of this prospectus supplement if the selling securityholders engaged in any sales, transfers or other dispositions after they provided us this information.

The percentage of notes outstanding beneficially owned by each selling securityholder is based on \$180,000,000 aggregate principal amount of notes outstanding. The number of shares of common stock includes shares of common stock owned prior to the offering and shares of common stock issuable upon conversion of the notes. The percentage of common stock outstanding beneficially owned by each selling securityholder is based on 65,421,950 shares of common stock outstanding as of September 6, 2007. The number of shares of common stock issuable upon conversion of the notes offered hereby is based on a maximum conversion rate of 55.5556, and a cash payment in lieu of any fractional share. The current conversion rate is 48.2824 shares of common stock issuable upon conversion of the notes offered hereby, which is based on a conversion price of approximately \$20.71. The conversion price, and therefore, the number of shares of common stock issuable upon conversion of the notes, is subject to adjustment under certain circumstances. No adjustment in the conversion rate is required, however, unless the adjustment requires an increase or decrease of at least 1% of the conversion rate. Any adjustment not made is carried forward and taken into account in any future adjustment. If the notes are called for redemption, all adjustments not previously made will be made on the applicable redemption date. See *Description of Notes Make Whole Upon Certain Change in Control Transactions* and *Description of Notes Conversion Rate Adjustments* in this prospectus.

(1) The maximum principal amount of notes that may be sold under this prospectus will not exceed \$180,000,000. Assuming all of the notes are sold under this prospectus, no selling securityholder will beneficially own any notes upon completion of this offering.

(2) Represents the maximum number of shares of our common stock issuable upon conversion of all of the holder's notes based on the maximum conversion rate of 55.5556 shares of our common stock per \$1,000 principal amount of notes and a cash payment in lieu of any fractional shares. The actual number of shares of common stock issued upon conversion of the notes may be smaller. See Description of Notes Conversion Settlement. The current conversion rate is 48.2824 shares of our common stock per \$1,000 principal amount of notes. See Description of Notes Conversion Rate Adjustments.

(3) Calculated based on Rule 13d-3(d)(1) under the Exchange Act using 65,421,950 shares of our common stock outstanding as of September 6, 2007. In calculating this amount for each holder, we treated as outstanding the number of shares of our common stock issuable upon conversion of all of that holder's notes, but we did not assume conversion of any other holder's notes. The actual number of shares of common stock issued upon conversion of the notes may be smaller. See Description of Notes Conversion Settlement.
