NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

These consolidated financial statements contain unaudited information as of September 30, 2007 and for the three and nine month periods ended September 30, 2007 and 2006. The unaudited interim financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain disclosures required by accounting principles generally accepted in the United States of America are not included herein. In management's opinion, these unaudited financial statements include all adjustments necessary for a fair presentation of the information when read in conjunction with our audited consolidated financial statements and the related notes thereto. The financial information as of December 31, 2006 is derived from our 2006 Annual Report on Form 10-K. The interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in our 2006 Annual Report on Form 10-K. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Note 2. Inventories

Inventories are valued at the lower of market value or cost, using the specific identification method for vehicles and parts. The cost of new and used vehicle inventories includes the cost of any equipment added, reconditioning and transportation. Inventories consisted of the following (in thousands):

	September 30, 2007	December 31, 2006
New and program vehicles	\$ 409,328	\$ 466,703
Used vehicles	118,913	103,857

Note 4. Comprehensive Income

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the fair value of cash flow hedging instruments, since their designation date of December 31, 2006, that are reflected in stockholders' equity, net of tax, instead of net income. Comprehensive income was the same as net income for the three and nine-month periods ended September 30, 2006. The following table sets forth the calculation of comprehensive income for the three and nine-month periods ended September 30, 2007 (in thousands):

Note 5. Acquisitions

The following acquisitions were made in the first nine months of 2007:

In February 2007, we acquired Jordan Motors, Inc., which was comprised of four stores, in Ames, Johnston and Des Moines, Iowa. The stores had annualized combined revenues of approximately \$100 million. The stores were renamed Honda of Ames, Lithia Nissan of Ames, Acura of Johnston, Lithia Infiniti of Des Moines, Lithia Volkswagen of Des Moines and Audi Des Moines. The three stores in Des Moines are considered one location;

In May 2007, we acquired the operations of a Jeep franchise in Pocatello, Idaho that was added to our existing Chrysler store; and

In August 2007, we acquired a Volkswagen and Audi store from Peterson Motor Company in Boise, Idaho. The acquisition is considered one store and has anticipated annualized revenues of \$15 million. The store was renamed Lithia Volkswagen of Boise and Audi Boise.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

The above acquisitions were accounted for under the purchase method of accounting. Pro forma results of operations, assuming the above acquisitions and the previously disclosed 2006 acquisitions occurred as of January 1, 2006, were as follows (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

The Volkswagen/Audi store in Boise, Idaho was acquired through an exchange with Peterson Motor Company in which we traded a Chevrolet store and, in addition to the Volkswagen/Audi store, received \$1.6 million in cash.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

There are no future contingent payouts related to the 2007 acquisitions and no portion of the purchase price was paid with our equity securities. During the first nine months of 2007, we acquired the five stores and the Jeep franchise discussed above for \$17.1 million in cash and value of exchanged franchise, which included \$10.3 million of goodwill and \$4.2 million of other, primarily indefinite lived, intangible assets. The purchase price for the balance of the assets acquired was funded by borrowings. In addition, we acquired new vehicle inventory and associated floorplan debt in the amount of \$14.8 million in connection with the above acquisitions.

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Within one year from the purchase date of each store, we may update the value allocated to its purchased assets and the resulting goodwill balances as a result of information received regarding the valuation of such assets and liabilities that was not available at the time of purchase in accordance with SFAS No. 141, Business Combinations. All of the goodwill from the above acquisitions is expected to be deductible for tax purposes.

Note 6. Dividend Payments

Our Board of Directors declared dividends of \$0.14 per share on our Class A and Class B common stock, which were paid in January 2007, April 2007 and July 2007, and totaled approximately \$2.7 million to \$2.8 million each.

Note 7. Stock-Based Compensation

In the first quarter of 2007, we issued our annual non-qualified stock option grants to executive officers and restricted stock grants to other employees. The non-qualified stock option grants cover a total of 108,000 shares of our common stock and were granted at the fair market value on the date of grant at \$28.34 per share. These options vest 100% on the fifth anniversary of the grant date and expire on the sixth anniversary. Restricted stock grants covering 60,821 shares of our common stock were also granted and have varying vesting provisions with full vesting occurring between four and five years. Total compensation related to these stock-based awards was \$2.1 million as calculated pursuant to the fair value methods prescribed by Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payments. Of the \$2.1 million, approximately \$0.4 million will be recognized in 2007.

In the second quarter of 2007, we granted 5,600 shares of common stock to members of our Board of Directors and one consultant. The fair market value on the date of grant was \$27.13 per share and the shares were 100% vested on the date of grant. Total compensation expense related to these shares in the second quarter of 2007 was \$152,000.

Note 8. Discontinued Operations

We continually monitor the performance of each of our stores and make determinations to sell a store based primarily on return on capital criteria. When a store meets the criteria of held for sale, as defined in SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the results of operations are reclassified into discontinued operations. All stores included in discontinued operations

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

have been, or will be, eliminated from our on-going operations upon completion of the sale. We anticipate the completion of the sale for each store to occur within 12 months from the date of determination.

During the first nine months of 2007, we added three stores and one body shop to those classified as discontinued operations. In the third quarter of 2007, we disposed of two of the stores that were held for sale. As of September 30, 2007 and December 31, 2006, we had three and two stores, respectively, held for sale and classified within assets and liabilities held for sale. Results of operations of these stores are shown within discontinued operations on the consolidated statements of operations. The body shop was closed and is not held for sale. Certain financial information related to discontinued operations was as follows (in thousands):

The pre-tax loss in the nine-month period ended September 30, 2006 included legal settlements related to stores in California that were sold in prior years.

Interest expense is allocated to stores classified as discontinued operations for actual flooring interest expense directly related to the new vehicles in the store. Interest expense related to our working capital, acquisition and used vehicle credit facility is allocated based on the amount of assets pledged towards the total borrowing base.

Note 9. Adoption of Interpretation No. 48

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, which is an interpretation of FASB Statement No. 109. Interpretation No. 48 applies to all tax positions accounted for under Statement No. 109. The interpretation applies to situations where the uncertainty is to the timing of the deduction, the amount of the deduction, or the validity of the deduction. Interpretation No. 48 is effective as of the beginning of the first fiscal year beginning after December 15, 2006 (January 1, 2007 for us). At adoption, companies must adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. Positions that meet this criterion should be measured using the largest benefit that is more than 50 percent likely to be realized. The necessary adjustment should be recorded directly to the beginning balance of retained earnings in the period of adoption and reported as a change

in accounting principle, if material. However, because of the immaterial nature of the adjustment, we have not presented this item separately on the face of the balance sheet.

At adoption, important information in regard to our reporting for Interpretation No. 48 was as follows:

Total amount of unrecognized tax benefits	\$
Amount of unrecognized tax benefits that would impact the effective rate if recognized	\$
Nature and potential magnitude of significant changes in unrecognized tax benefits that are reasonably possible within the 12 months following the adoption date pursuant to paragraph 21(d) of Interpretation No. 48	\$
Accrued interest and penalties as of the date of adoption	\$

Note 10. Repurchases of Common Stock

In the first quarter of 2007, we repurchased 124,809 shares of our Class A common stock for \$3.4 million, or an average price of \$26.88 per share. In the third quarter of 2007, we repurchased 100,000 shares of our Class A common stock for \$1.9 million, or an average price of \$18.77 per share. Of these repurchases, 221,800 were pursuant to the program approved by our Board of Directors in June 2000, which authorized the repurchase of up to 1,000,000 shares of our Class A common stock. Through September 30, 2007, we have purchased a total of 478,631 shares under this program.

Note 11. New Accounting Pronouncements

EITF 06-11

In June 2007, the Emerging Issues Task Force (EITF) issued EITF 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards, which states that tax benefits received on dividends associated with share-based awards that are charged to retained earnings should be recorded in additional paid-in capital and included in the pool of excess tax benefits available to absorb potential future tax deficiencies on share-based payment awards. The consensus is effective for the tax benefits of dividends declared in fiscal years beginning after December 15, 2007. We currently account for such income tax benefits in accordance with the method prescribed by EITF 06-11 and, accordingly, the adoption of EITF 06-11 will not have any effect on our financial position, results of operations or cash flows.

Note 12. Reclassifications

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Reclassifications related to discontinued operations were made to the prior period financial statements to conform to the current period presentation in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. In addition, borrowings and repayments on our lines of credit were broken out separately on our consolidated statements of cash flows. Certain other immaterial reclassifications were also made to conform to the current period presentation.

Note 13. Contingencies

Litigation

We are party to numerous legal proceedings arising in the normal course of our business. While we cannot predict with certainty the outcomes of these matters, we do not anticipate that the resolution of these proceedings will have a material adverse effect on our business, results of operations, financial condition, or cash flows.

Phillips/Allen Cases

On November 25, 2003, Aimee Phillips filed a lawsuit in the U.S. District Court for the District of Oregon (Case No. 03-3109-HO) against Lithia Motors, Inc. and two of its wholly-owned subsidiaries alleging violations of state and federal RICO laws, the Oregon Unfair Trade Practices Act (UTPA) and common law fraud. Ms. Phillips seeks damages, attorney s fees and injunctive relief. Ms. Phillips complaint stems from her purchase of a Toyota Tacoma pick-up truck on July 6, 2002. On May 14, 2004, we filed an answer to Ms. Phillips Complaint. This case was consolidated with the Allen case described below and has a similar current procedural status.

On April 28, 2004, Robert Allen and 29 other plaintiffs (Allen Plaintiffs) filed a lawsuit in the U.S. District Court for the District of Oregon (Case No. 04-3032-HO) against Lithia Motors, Inc. and three of its wholly-owned subsidiaries alleging violations of state and federal RICO laws, the Oregon UTPA and common law fraud. The Allen Plaintiffs seek damages, attorney s fees and injunctive relief. The Allen Plaintiffs Complaint stems from vehicle purchases made at Lithia stores between July 2000 and April 2001. On August 27, 2004, we filed a Motion to Dismiss the Complaint. On May 26, 2005, the Court entered an Order granting Defendants Motion to Dismiss plaintiffs state and federal RICO claims with prejudice. The Court declined to exercise supplemental jurisdiction over plaintiffs UTPA and fraud claims. Plaintiffs filed a Motion to Reconsider the dismissal Order. On August 23, 2005, the Court granted Plaintiffs Motion for Reconsideration and permitted the filing of a Second Amended Complaint (SAC). On September 21, 2005, the Allen Plaintiffs, along with Ms. Phillips, filed the SAC. In this complaint, the Allen plaintiffs seek actual damages that total less than \$500,000, trebled, approximately \$3.0 million in mental distress claims, trebled, punitive damages of \$15.0 million, attorney s fees and injunctive relief. The SAC added as defendants certain officers and employees of Lithia. In addition, the SAC added a claim for relief based on the Truth in Lending Act (TILA). On November 14, 2005 we filed a second Motion to Dismiss the Complaint and a Motion to Compel Arbitration. In two subsequent rulings, the Court has dismissed all claims except those under Oregon s Unfair Trade Practices Act and a single fraud claim for a named individual. We believe the actions of the court have significantly narrowed the claims and potential damages sought by the plaintiffs. Lithia s motion to Compel Arbitration of Plaintiff s remaining claims was denied. We have filed a Notice of Appeal relating to the denial of our Motion to Compel Arbitration. This appeal is currently pending before the Ninth Circuit Court of Appeals (No. 07-35670).

On September 23, 2005, Maria Anabel Aripe and 19 other plaintiffs (Aripe Plaintiffs) filed a lawsuit in the U.S. District Court for the District of Oregon (Case No. 05-3083-HO) against Lithia Motors, Inc., 12 of its wholly-owned subsidiaries and certain officers and employees of Lithia, alleging violations of state and federal RICO laws, the Oregon UTPA, common law fraud and TILA. The Aripe Plaintiffs seek actual damages of less than \$600,000, trebled, approximately \$3.7 million in mental distress claims, trebled, punitive damages of \$12.6 million, attorney s fees and injunctive relief. The Aripe Plaintiffs Complaint stems from vehicle purchases made at Lithia stores between May 2001 and August 2005 and is substantially similar to the allegations made in the Allen case. On April 18, 2006, the Court stayed the proceedings in the Aripe case, pending resolution of certain motions in the Allen case. The relevant motions in the Allen case have now been resolved, and we anticipate that the stay in the Aripe case will soon be lifted.

Alaska Used Vehicles Sales Disclosures

On May 30, 2006 four of our wholly owned subsidiaries located in Alaska were served with a lawsuit alleging that the stores failed to comply with Alaska law relating to various disclosures required to be made during the sale of a used vehicle. The complaint was filed by Jackie Lee Neese et al v. Lithia Chrysler Jeep of Anchorage, Inc. et al in the Superior Court for the State of Alaska at Anchorage, case number 3AN-06-04815CI. The complainants seek to represent other similarly situated customers. The court has not certified the suit as a class action. During the pendency of this case, the State of Alaska brought charges against Lithia s subsidiaries alleging the same factual allegations. The company settled the State action which the company believes resolves the disputes. However, the plaintiffs in the private action moved to intervene in the State of Alaska matter. The court denied their request and the plaintiff s have filed an appeal with the Alaska Supreme Court challenging that denial. Both the private cause of

action, as well as the implementation of the settlement with the State of Alaska, have been stayed pending a ruling in the appeal.

Washington State B&O Tax Suit

On October 19, 2005, Marcia Johnson and Theron Johnson, on their own behalf and on behalf of all other similarly situated individuals and entities (the Johnson Plaintiffs), filed suit in the Superior Court for the State of Washington, Spokane County (Case No. 05205059-9) against Lithia Motors, Inc. and one of its wholly-owned subsidiaries, individually and as representatives of a proposed defendant class of other motor vehicle dealers. The Johnson plaintiffs seek declaratory and injunctive relief, and damages, for defendants' alleged practice of itemizing and collecting the Washington State Business and Occupation Tax (B&O Tax) from customers buying vehicles from defendants - a practice the Johnson plaintiffs allege is prohibited by state law.

The allegations in the Johnson case involved legal issues similar to those that were litigated in another case filed in the State of Washington (*Nelson vs. Appleway Chevrolet, Inc.*, i.e., the Nelson case). By agreement of the parties, the Johnson case was stayed while the Nelson case was appealed to the Washington State Supreme Court.

In April 2007, the Washington Supreme Court upheld the lower court decisions in favor of the plaintiffs in the Nelson case. The decision was based on the Appleway dealer's practice of adding a B&O tax charge to a vehicle's purchase price after the customer and the dealer reached agreement on the vehicle's price.

Shortly after Lithia and its subsidiary filed for summary judgment, the Johnson plaintiffs filed an amended complaint adding an allegation that the defendants' actions also violated Washington's Consumer Protection Act. In addition to compensatory damages, the Johnson plaintiffs seek treble damages up to \$10,000 for each alleged violation of the Act.

The Johnson plaintiffs then cross-moved for partial summary judgment, contending that the Supreme Court's decision in the Nelson case established that Lithia and its subsidiary had violated Washington's tax and Consumer Protection Act laws. After hearing oral argument on the motions, the trial court judge on October 12, 2007, issued an oral ruling in favor of the Johnsons and against the Lithia subsidiary. The court denied Lithia's and its subsidiary's summary judgment motion. The case has not yet been certified as a class action.

Because Lithia's subsidiary negotiated with the Johnson plaintiffs over a proposed B&O tax charge before reaching agreement on a purchase price for the Johnsons' new vehicle, Lithia and its subsidiary believe its action did not violate the law. Lithia and its subsidiary believe the Supreme Court's decision in the Nelson case establishes that the subsidiary's practice was permissible under Washington tax law. Accordingly, Lithia and its subsidiary believe upon appellate review, the decision rendered by the trial court judge will be overturned although no assurances can be provided. We do not believe that the ultimate resolution of the case will have a material adverse impact on our consolidated financial statements.

We intend to vigorously defend all matters and management believes that the likelihood of a judgment for the amount of damages sought in any of the cases is remote.

Dividend

In October 2007, we announced a dividend on our Class A and Class B common stock of \$0.14 per share for the third quarter of 2007. The dividend, which totaled approximately \$2.8 million, was paid on October 29, 2007 to shareholders of record on October 15, 2007.

Forward Looking Statements and Risk Factors

Some of the statements in this Form 10-Q constitute forward-looking statements. In some cases, you can identify forward-looking statements by terms such as may, will, should, expect, plan, intend, forecast, anticipate, believe, estimate, predict, potential, and confidence, or other comparable terminology. The forward-looking statements contained in this Form 10-Q involve known and unknown risks, uncertainties and situations that may cause our actual results, level of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these statements. Some of the important factors that could cause actual results to differ from our expectations are discussed in Item 1A to our 2006 Form 10-K, which was filed with the Securities and Exchange Commission on March 9, 2007. These risk factors have not significantly changed since the filing of the 2006 Form 10-K.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. You should not place undue reliance on these forward-looking statements.

Overview

We are a leading operator of automotive franchises and retailer of new and used vehicles and services. As of November 6, 2007, we offered 30 brands of new vehicles in 108 stores in the Western United States and over the Internet. We sell new and used cars and light trucks; sell replacement parts; provide vehicle maintenance, warranty, paint and repair services; and arrange related financing, service contracts, protection products and credit insurance for our automotive customers.

We currently achieve gross profit margins above industry averages by selling a higher ratio of retail used vehicles to new vehicles and by arranging finance and extended warranty contracts for a greater percentage of our customers.

Our acquisition model is focused on acquiring new vehicle stores where the store is the dominant or the only franchise of that brand in the market. Our goal is to improve the operations of all four departments of every store we acquire. Since 1996, our ability to integrate the stores that we acquire continues to improve. We have also developed a better process for identifying acquisition targets that fit our operating model. Our cash position, substantial lines of credit, plus an experienced and well-trained staff are all available to facilitate our continued growth as opportunities develop.

Our current new vehicle revenue mix is weighted towards domestic brands at approximately 60%. Our strategy is to target a more balanced mix between our domestic, import and luxury brands in the years ahead. Approximately 65% of our acquisition revenues in the last four quarters were from import and luxury brands, contributing to an improvement in our import/domestic mix, especially as we continue to dispose of our lowest performing domestic stores.

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

In keeping with this model, we acquired five stores and one franchise in the first ten months of 2007 with total estimated annual revenues of approximately \$115 million. At November 6, 2007, we had three stores held for sale with their results of operations displayed as discontinued operations. Combined annual revenues of stores disposed of during 2007 and those held for sale at November 6, 2007 were approximately \$167 million.

We expect that manufacturers will continue to offer incentives on new vehicle sales during the remainder of 2007 through a combination of repricing strategies, rebates, lease programs, early lease cancellation programs and low interest rate loans to consumers. To complement the manufacturers' incentive strategy, we employ a volume-based strategy for our new vehicle sales.

We have completed, or are currently working on, the following initiatives that we expect will improve our operations in future periods:

Under the automated car deal process, our showrooms are equipped with interactive personal computers, which allows the salesperson to quickly and efficiently enter data and interact with the customer to speed up the sales process;

Improved functionality of our centralized inventory control and procurement process;

IT initiatives related to centralizing certain office functions, leading to an approximately 20% reduction in office staff at the stores;

In August 2007, we opened our first stand-alone used vehicle store, L2 Auto, in Loveland, Colorado and should open the next two by the end of 2007;

Our Assured Vehicle Selling Program has been fully installed in several locations and will be rolled out to the rest of our stores by the end of the first quarter of 2008. With our new Assured Sales Program, all of our vehicles will have Drive it Now Pricing. All of our vehicle sales will have a 3 day return policy, 100% money back guarantee. In addition, our used vehicles have an if it breaks, we fix it guarantee. There is no deductible and our guarantee is valid for 60 days or 3,000 miles; and

A cost-cutting initiative in our stores including staffing, employee bonuses, advertising and travel is expected to have a significant impact on selling, general and administrative expense in the fourth quarter of 2007 and into 2008.

Revenues

Total revenues increased 3.0% and 7.6%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006, as a result of acquisitions, partially offset by a 5.6% and a 3.1% decrease, respectively, in same-store sales, excluding fleet. The nine-month period ended September 30, 2007 faced a difficult comparison with the comparable period of 2006 when total same-store sales grew by 4.5%. The decreases in the 2007 periods were also impacted by a weak retail sales environment, especially with our domestic brands. This is related to the ripple effect from the struggling housing market, high gas prices and consumer debt pressures.

Same-store sales percentage increases (decreases) were as follows:

	Three months ended September 30, 2007 vs. three months ended September 30, 2006	Nine months ended September 30, 2007 vs. nine months ended September 30, 2006
New vehicle retail, excluding fleet	(6.6)%	(4.3)%
Used vehicle, retail	(8.6)	(5.8)

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Used vehicle, wholesale	1.6	6.5
Total vehicle sales, excluding fleet	(6.6)	(4.1)
Finance and insurance	(5.9)	(1.7)
Service, body and parts	3.3	4.5
Total sales, excluding fleet	(5.6)	(3.1)

Same-store sales are calculated for stores that were in operation as of September 30, 2006, and only including the months of operations for both comparable periods. For example, a store acquired in July 2006 would be included in same-store operating data beginning in August 2006, after its first full complete comparable month of operation. Thus, operating results for same-store comparisons would include only the periods of August through September of both comparable years.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

New vehicle same-store sales declined 6.6% and 4.3%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. The decreases were primarily due to a challenging sales environment in the first nine months of 2007 and declining sales of domestic manufacturers' vehicles that represent a large percentage of our new vehicle sales. Prior year comparisons were high due to aggressive manufacturer incentive programs, which have not been sustained at those high levels in 2007. Same-store unit sales were down 11.6% and 7.9%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. The decreases in same-store unit sales were partially offset by a 5.7% and a 3.9% increase, respectively, in same-store average selling prices.

Used retail vehicle same-store sales declined 8.6% and 5.8%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. The decreases in same-store sales were primarily due to the challenging sales environment mentioned above. Same-store retail unit sales decreased 11.5% and 7.4%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. These same-store decreases were partially offset by a 3.3% and a 1.7% increase in same-store average selling prices.

Used wholesale vehicle same-store sales increased 1.6% and 6.5%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. Same-store unit sales declined 5.6% and 0.5%, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. Same-store average selling price increased 7.6% and 7.0%, respectively, in the same periods.

Same-store finance and insurance sales were negatively affected in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006 by decreases in same-store vehicle unit sales, which lowered the overall opportunity for finance and insurance sales. This was offset by a 6.5% and a 6.6% increase, respectively, in the finance and insurance sales per unit in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006.

The increases in same-store service, body and parts sales in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006 were primarily due to a 3.1% and a 4.6% increase, respectively, in the customer-paid portion of the business. The customer-paid portion of the business excludes warranty and currently represents approximately 82% of total service, body and parts sales. In addition, we realized a 4.2% and a 4.1% increase, respectively, in same-store warranty sales.

Penetration rates for certain products were as follows:

Gross Profit

Gross profit increased \$5.9 million and \$30.6 million, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006 due to increased total revenues in both periods and an increase of 20 basis points in the overall gross profit margin in

Gross profit margins in the service, body and parts business line decreased in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006 partially due to a shift in mix towards selling more parts and accessories, which carry lower margins than the service side of the business.

Selling, General and Administrative Expense

Selling, general and administrative expense (SG&A) includes salaries and related personnel expenses, facility lease expense, advertising (net of manufacturer cooperative advertising credits), legal, accounting, professional services and general corporate expenses.

SG&A increased \$5.2 million and \$30.3 million, respectively, in the three and nine-month periods ended September 30, 2007 compared to same periods of 2006. SG&A increased to 12.5% and 13.0% of revenue, respectively, in the three and nine-month periods ended September 30, 2007 compared to 12.3% and 12.7%, respectively, in the comparable periods of 2006.

The increases in dollars spent were primarily due to the following:

Three months ended September 30, 2007 vs. three months ended	Nine months ended September 30, 2007 vs. nine months ended
--	--

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

	September 30, 2007		September 30, 2006
Increase related to acquisitions	\$	8.8 million	\$ 31.4 million
Savings in salaries and bonuses		(3.3) million	(3.8) million
Savings in advertising expense		(1.3) million	(2.0) million
Other expenses		1.0 million	4.7 million

Two of our largest expenses, sales compensation and advertising, as a percentage of gross profit were down 90 basis points and 80 basis points, respectively, in the three and nine-month periods ended September 30, 2007 compared with the same periods of 2006. These declines were primarily due to management's focus on expense control at our stores and savings related to our operational initiatives.

SG&A as a percentage of gross profit is an industry standard for measuring performance relative to SG&A. As a result of expenses detailed above, as well as costs related to our investments in personnel for our centralization efforts, L2 Auto and the other initiatives, SG&A as a percentage of gross profit increased by 50 basis points and 170 basis points, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006.

SG&A as a percentage of gross profit was as follows:

Three Months Ended September 30,		Nine Months Ended September 30,	
2007	2006	2007	2006
74.2%	73.7%	76.2%	74.5%

Our 5-year third quarter and year-to-date historical average was 72.4% and 75.2%, respectively. We anticipate achieving a positive long-term impact related to the investment in our initiatives by a reduction in SG&A as a percentage of gross profit in future periods.

Depreciation and Amortization

Depreciation and amortization increased \$1.1 million and \$3.1 million, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006 due to the addition of property and equipment primarily related to our acquisitions, as well as improvements to existing facilities and equipment costs related to our initiatives. We expect this expense to grow as we continue to upgrade facilities and equipment in future years.

Income from Operations

Operating margins declined by 20 basis points and 40 basis points, respectively, in the three and nine-month periods ended September 30, 2007 to 3.7% and 3.4%, respectively, from 3.9% and 3.8%, respectively, in the comparable periods of 2006. The decreases were due primarily to the increased SG&A and depreciation and amortization as discussed above.

Floorplan Interest Expense

Floorplan interest expense decreased \$4.1 million and \$1.1 million, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. In the three and nine-month periods ended September 30, 2006, we recorded a \$2.3 million charge and a \$0.2 million benefit, respectively, to interest expense related to our interest rate swaps. In 2007, we designated our interest rate swaps as cash flow hedging instruments and, accordingly, changes in the fair value of our interest rate swaps were recorded in Accumulated Other Comprehensive Income. Additionally, a decrease of \$0.6 million and an increase of \$0.8 million, respectively, resulted from changes in the average interest rates on our floorplan facilities. We also realized a decrease of \$1.2 million and \$2.2 million, respectively, as a result of decreases in the average outstanding balances of our floorplan facilities.

Other Interest Expense

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Other interest expense includes interest on our senior subordinated convertible notes, debt incurred related to acquisitions, real estate mortgages and our working capital, acquisition and used vehicle line of credit.

Other interest expense increased \$1.4 million and \$4.8 million, respectively, in the three and nine-month periods ended September 30, 2007 compared to the same periods of 2006. Changes in the average outstanding balances resulted in increases of approximately \$1.4 million and \$4.9 million, respectively. The weighted average interest rates on our debt remained relatively unchanged, resulting in minimal savings. Interest expense related to the \$85.0 million of senior subordinated convertible notes that were issued in May 2004 currently totals approximately \$765,000 per quarter, which consists of \$611,000 of contractual interest and \$154,000 of amortization of debt issuance costs.

Other interest expense was reduced by \$1.0 million and \$2.4 million, respectively, due to the benefit of capitalized interest on construction projects for the three and nine-month periods ended September 30, 2007 and \$0.5 million and \$1.1 million, respectively, for the comparable periods of 2006.

Income Tax Expense

Our effective tax rate was 40.5% and 39.9%, respectively, in the three and nine-month periods ended September 30, 2007 compared to 35.7% and 39.2%, respectively, in the comparable periods of 2006. Our

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

federal income tax rate is 35% and our state income tax rate is currently 3.03%, which varies with the mix of states where our stores are located. We also have certain non-deductible expenses and other adjustments that increase our effective rate. Our tax rate in the nine-month period ended September 30, 2006 included a reduction in amounts provided for identified tax contingencies.

Income from Continuing Operations

Income from continuing operations was flat in the three-month period ended September 30, 2007 compared to the same period of 2006 and declined by 20 basis points in the nine-month period ended September 30, 2007 compared to the same period of 2006 as a result of the increased SG&A, increased depreciation and amortization and increased other interest expense being offset by decreased floorplan interest expense as discussed above.

Discontinued Operations

During the first nine months of 2007, we added three stores and one body shop to those classified as discontinued operations. In the third quarter of 2007, we disposed of two of the stores that were held for sale. As of September 30, 2007 and December 31, 2006, we had three and two stores, respectively, held for sale and classified within assets and liabilities held for sale. Results of operations of these stores are shown within discontinued operations on the consolidated statements of operations. The body shop was closed and is not held for sale. Certain financial information related to discontinued operations was as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

The pre-tax loss in the nine-month period ended September 30, 2006 included legal settlements related to stores in California that were sold in prior years.

Interest expense is allocated to stores classified as discontinued operations for actual flooring interest expense directly related to the new vehicles in the store. Interest expense related to our working capital, acquisition and used vehicle credit facility is allocated based on the amount of assets pledged towards the total borrowing base.

Seasonality and Quarterly Fluctuations

Historically, our sales have been lower in the first and fourth quarters of each year due to consumer purchasing patterns during the holiday season, inclement weather in certain of our markets and the reduced number of business days during the holiday season. As a result, financial performance is expected to be lower during the first and fourth quarters than during the second and third quarters of each fiscal year. We believe that interest rates, levels of consumer debt, consumer confidence and manufacturer sales incentives, as well as general economic conditions, also contribute to fluctuations in sales and operating results. Acquisitions have also been a contributor to fluctuations in our operating results from quarter to quarter.

Liquidity and Capital Resources

Our principal needs for capital resources are to finance acquisitions and capital expenditures, as well as for working capital and the funding of our cash dividend payments. We have relied primarily upon internally generated cash flows from operations, borrowings under our credit agreements and the proceeds from public equity and private debt offerings to finance operations and expansion. We believe that our available cash, cash equivalents, available lines of credit and cash flows from operations will be sufficient to meet our anticipated operating expenses, capital requirements, projected acquisitions and current level of cash dividends for at least the next 12 months from September 30, 2007. Beyond 12 months from September 30, 2007, we anticipate the need for possible additional financing options to augment our existing cash and working capital line of credit to accommodate our growth strategy.

Interest rates on all of the facilities below ranged from 6.27% to 7.12% at September 30, 2007. Amounts outstanding on the lines at September 30, 2007, together with amounts remaining available under such lines were as follows (in thousands):

	Outstanding at September 30, 2007	Remaining Availability as of September 30, 2007

Working capital, acquisition and used vehicle credit facility	137,000	87,066(2)
	\$ 574,607	\$ 87,066

- (1) There are no formal limits on the new and program vehicle lines with certain lenders.
- (2) Reduced by \$934,000 for outstanding letters of credit.

Flooring Notes Payable

Our inventories decreased to \$559.3 million at September 30, 2007 from \$603.3 million at December 31, 2006. We have maintained a disciplined inventory approach throughout the first nine months of 2007. As a result, our days supply of new vehicles at September 30, 2007 was 16 days below September 30, 2006, flat with our average historical September 30 balances and two days below our December 31, 2006 levels.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Our new vehicle flooring notes payable decreased to \$437.6 million at September 30, 2007 from \$499.7 million at December 31, 2006. New vehicles are financed at approximately 100%.

Share Repurchase and Dividends

Our Board of Directors declared dividends of \$0.14 per share on our Class A and Class B common stock, which were paid in January 2007, April 2007, July 2007 and October 2007, and totaled approximately \$2.7 million to \$2.8 million each. We anticipate recommending to the Board of Directors the approval of a cash dividend each quarter.

In June 2000, our Board of Directors authorized the repurchase of up to 1,000,000 shares of our Class A common stock. Through September 30, 2007, we have purchased a total of 478,631 shares under this program, of which 221,800 were purchased during the first nine months of 2007. We may continue to

repurchase shares from time to time in the future as conditions warrant. The recent change in the tax law tends to equalize the benefits of dividends and share repurchases as a means to return capital or earnings to shareholders. As a result, we believe it is now advantageous to shareholders to have a dividend in place. With the dividend, we are able to offer an immediate and tangible return to our shareholders.

Credit Facility

We have a working capital, acquisition and used vehicle credit facility with U.S. Bank National Association, DaimlerChrysler Financial Services Americas LLC (DCFS) and Toyota Motor Credit Corporation (TMCC), totaling up to \$225 million (the Credit Facility), which expires August 31, 2009. We anticipate increasing the aggregate amount of this facility as part of our annual renewal process in the fourth quarter of 2007. Loans are guaranteed by all of our subsidiaries and are secured by new vehicle inventory, used vehicle and parts inventory, equipment other than fixtures, deposit accounts, accounts receivable, investment property and other intangible personal property. Stock and other equity interests of our subsidiary stores and certain other subsidiaries are excluded. The lenders' security interest in new vehicle inventory is subordinated to the interests of floorplan financing lenders, including DCFS and TMCC. The agreement for this facility provides for events of default that include nonpayment, breach of covenants, a change of control and certain cross-defaults with other indebtedness. In the event of a default, the agreement provides that the lenders may declare the entire principal balance immediately due, foreclose on collateral and increase the applicable interest rate to the revolving loan rate plus 3 percent, among other remedies.

Our working capital, acquisition and used vehicle credit facility decreased to \$137.0 million at September 30, 2007 from \$144.0 million at December 31, 2006 primarily due to the timing of payments, partially offset by acquisitions, capital expenditures related to our initiatives and the development of L2 Auto.

Vehicle Flooring

Ford Motor Credit, General Motors Acceptance Corporation (GMAC), Volkswagen Credit and BMW Financial Services NA, LLC have agreed to floor all of our new vehicles for their respective brands. DCFS and TMCC serve as the primary lenders for their respective brands and substantially all other brands. The new vehicle lines are secured by new vehicle inventory of the relevant brands. Vehicles financed by lenders not directly associated with the manufacturer are classified as floorplan notes payable: non-trade and are included as a financing activity in our statements of cash flows. Vehicles financed by lenders directly associated with the manufacturer are classified as floorplan notes payable and are included as an operating activity.

On November 30, 2006, General Motors (GM) completed the sale of a majority equity stake in GMAC to an investment consortium. Although GMAC will continue to be the exclusive provider of GM financial products and services and continues to have the relationships with GM, a majority equity stake in GMAC has been sold to an independent third-party and GM has indicated in its public filings that it no longer controls the GMAC entity. As a result, we will be treating new vehicles financed by GMAC after the change in ownership control as floorplan notes payable: non-trade and related changes as a financing activity in our statements of cash flows. Vehicles financed prior to this change in control will continue to be classified as floorplan notes payable: trade, with related changes reflected as operating activities in our statements of cash flows, since these GMAC vehicle financings occurred while GM retained control of GMAC as its captive finance subsidiary.

Debt Covenants

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

We are subject to certain financial and restrictive covenants for all of our debt agreements. The Credit Facility agreement includes financial and restrictive covenants typical of such agreements such as requirements to maintain a minimum total net worth, minimum current ratio, fixed charge coverage ratio and cash flow leverage ratio requirements. The covenants restrict us from incurring additional indebtedness, making investments, selling or acquiring assets and granting security interests in our assets. At September 30, 2007, we were in compliance with all of the financial and restrictive covenants.

In addition, cash dividends are limited to \$15 million per fiscal year and repurchases by us of our common stock are limited to \$20 million per fiscal year.

We expect to be in compliance with the covenants for all of our debt agreements in the foreseeable future. In the event that we are unable to meet such requirements, and any available cure period has passed, the lender may require an acceleration of payment, increase the interest rate or limit our ability to borrow or pay cash dividends.

2.875% Senior Subordinated Convertible Notes due 2014

We also have outstanding \$85.0 million of 2.875% senior subordinated convertible notes due 2014. We will also pay contingent interest on the notes during any six-month interest period beginning May 1, 2009, in which the trading price of the notes for a specified period of time equals or exceeds 120% of the principal amount of the notes. The notes are convertible into shares of our Class A common stock at a price of \$37.24 per share upon the satisfaction of certain conditions and upon the occurrence of certain events as follows:

if, prior to May 1, 2009, and during any calendar quarter, the closing sale price of our common stock exceeds 120% of the conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding calendar quarter;

if, after May 1, 2009, the closing sale price of our common stock exceeds 120% of the conversion price;

if, during the five business day period after any five consecutive trading day period in which the trading price per \$1,000 principal amount of notes for each day of such period was less than 98% of the product of the closing sale price of our common stock and the number of shares issuable upon conversion of \$1,000 principal amount of the notes;

if the notes have been called for redemption; or

upon certain specified corporate events.

A declaration and payment of a dividend in excess of \$0.08 per share per quarter will result in additional adjustments in the conversion rate for the notes if such cumulative adjustment exceeds 1% of the current conversion rate. The current conversion rate per \$1,000 of notes is 26.8556.

The notes are redeemable at our option beginning May 6, 2009 at the redemption price of 100% of the principal amount plus any accrued interest. The holders of the notes can require us to repurchase all or some of the notes on May 1, 2009 and upon certain events constituting a fundamental change or a termination of trading. A fundamental change is any transaction or event in which all or substantially all of our common stock is exchanged for, converted into, acquired for, or constitutes solely the right to receive, consideration that is not all, or substantially all, common stock that is listed on, or immediately after the transaction or event, will be listed on, a United States national securities exchange. A termination of trading will have occurred if our common stock is not listed for trading on a national securities exchange or the Nasdaq National Market.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Our earnings to fixed charge coverage ratio, as defined in the senior subordinated convertible notes, was 1.98 for the quarter ended September 30, 2007.

Capital Commitments

We had capital commitments of \$41.5 million at September 30, 2007 for the construction of five new facilities, an addition to one existing facility and one remodel. Of the new facilities, two are replacing existing facilities. We anticipate incurring \$18.2 million in the remainder of 2007 and the remaining \$23.3 million in 2008. We expect to pay for the construction out of existing cash balances and borrowings on our line of credit until completion of the projects, at which time we anticipate securing long-term financing and general borrowings from third party lenders for 70% to 90% of the amounts expended.

We anticipate approximately \$30 million in non-financeable capital expenditures in 2008, which is similar to our anticipated 2007 amount.

In addition to the above, in the next 1 to 3 years, we have approximately \$95 million to \$105 million in planned capital expenditures under consideration for various new facilities and remodeling projects. These projects are still in the planning stage or are awaiting approvals from governmental agencies or manufacturers. We feel that these projects are a critical part of our future growth strategy. We anticipate the need for additional financing options to augment our working capital line of credit to accommodate this growth strategy.

There were no significant changes to our other contractual payment obligations from those reported in our 2006 Form 10-K as filed with the Securities and Exchange Commission on March 9, 2007.

Critical Accounting Policies and Use of Estimates

We reaffirm our critical accounting policies and use of estimates as described in our Annual Report on Form 10-K as filed with the Securities and Exchange Commission on March 9, 2007.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our reported market risks or risk management policies since the filing of our 2006 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on March 9, 2007.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

Our management evaluated, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our President and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and that such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Comprehensive income for the three and nine-month periods ended September 30, 2007 included the change in the

PART II - OTHER INFORMATION**Item 1. Legal Proceedings**

We are party to numerous legal proceedings arising in the normal course of our business. While we cannot predict with certainty the outcomes of these matters, we do not anticipate that the resolution of these proceedings will have a material adverse effect on our business, results of operations, financial condition or cash flows. See also Note 13 of Condensed Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

We intend to vigorously defend all matters and management believes that the likelihood of a judgment for the amount of damages sought in any outstanding case is remote.

Item 1A. Risk Factors

Our Annual Report on Form 10-K for the year ended December 31, 2006 includes a detailed discussion of our risk factors. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K. Accordingly, the information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006, which was filed with the Securities and Exchange Commission on March 9, 2007. See also Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations in this report under the heading "Forward-Looking Statements."

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We repurchased the following shares of our Class A common stock during the third quarter of 2007:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plan	Maximum number of shares that may yet be purchased under the plan
July 1 to July 31	5,000	\$ 19.05	383,631	616,369
August 1 to August 31	95,000	18.75	478,631	521,369
September 1 to September 30				
Total	100,000	18.77	478,631	521,369

The plan to repurchase up to a total of 1.0 million shares of our Class A common stock was approved by our Board of Directors in June 2000 and renewed in August 2005 and does not have an expiration date.
