SEC 1344 (03-05) **Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.**

The AES Corporation (the Company) announced today that it would delay the filing of its 2007 Annual Report on Form 10-K with the Securities and Exchange Commission. The Company's 2007 Annual Report on Form 10-K could not be filed by February 29, 2008 without unreasonable effort or expense due to the fact that the Company has had to take significant time and allocate significant resources to prepare its financial statements as a result of its efforts to remediate its previously-disclosed material weaknesses and to evaluate certain prior period adjustments that will require the Company to restate its previously reported financial statements. The Company has filed a Form 8-K dated March 3, 2008 which further explains the restatement and the Company's statement of non-reliance on prior period financial statements. Although the Company can provide no assurance that it will be able to file its 2007 Form 10-K within the 15 calendar day extension period if additional issues are identified in its review, the Company currently believes that the Form 10-K will be filed within the extension period.

If answer is no, identify report(s).

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

As noted in Part III above, the Company will be restating its prior period financial statements, including for the year ended December 31, 2006. The restatement is driven by a single non-cash adjustment which will increase 2006 net income by \$32 million and relates to the accounting for a power purchase agreement at the Company's facility in Deepwater Texas. Other adjustments will be included in the restatement that are not material. See the Company's Form 8-K dated March 3, 2008 for additional information regarding the restatement.

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.
