KKR Private Equity Investors Reports its Financial Results for the Fourth Quarter and Year Ended December 31, 2008

Edgar Filing: KKR & Co. L.P. - Form 425

NAV per Unit of \$12.78 as of December 31, 2008

Guernsey, Channel Islands, March 2, 2009 KKR Private Equity Investors, L.P. (Euronext Amsterdam: KPE), a Guernsey limited partnership that is invested predominantly in private equity investments identified by Kohlberg Kravis Roberts & Co. (KKR), today reported its financial results for the quarter and year ended December 31, 2008. As of December 31, 2008, KPE's net asset value (NAV) was \$2,618.7 million, or \$12.78 per unit.

Henry R. Kravis, Co-Founder of KKR and Co-Chairman of KPE's Managing Partner's Board of Directors, commented, "The steep declines in global capital markets during the fourth quarter had a sizable negative impact on KPE's quarterly NAV. We believe that the valuations of KPE's underlying private equity investments are more reflective of broader global macroeconomic conditions and mark-to-market considerations than they are of the fundamentals of KPE. KKR has full confidence that KPE's portfolio will ultimately produce realizations which will accrue to the benefit of KPE unitholders after the economy has stabilized.

George R. Roberts, Co-Founder of KKR and Co-Chairman of KPE's Managing Partner's Board of Directors, commented, "Private equity is inherently a long-term asset class. Our success is never predicated on short-term gains or single-quarter valuations, but on working to improve the operations of our portfolio companies over years and through economic cycles. We believe that we have positioned the companies in KPE's portfolio well for an extended period of slower global growth by managing costs, anticipating refinancing issues and deleveraging. We maintain our adherence to our core values of patience, discipline, multifaceted stakeholder engagement and strong corporate governance, as these are the best ways we know to grow and improve businesses in the long run.

Liquidity and Capital Resources

Edgar Filing: KKR & Co. L.P. - Form 425

As of December 31, 2008, the Investment Partnership had a cash balance of \$623.3 million and had \$951.2 million outstanding on its \$1.0 billion five-year senior secured credit facility established on June 11, 2007.

The Investment Partnership's availability for further borrowings under the credit facility was \$51.4 million as of February 27, 2009 or \$7.5 million assuming that the commitment held by Lehman Commercial Paper Inc., which has declared bankruptcy, will not fund any part of its remaining commitments.

Subsequent to December 31, 2008 and through February 27, 2009, the Investment Partnership sold the remainder of its opportunistic investments in fixed income investments and public equities with a fair value of \$41.2 million as of December 31, 2008 for proceeds of \$47.4 million. In addition, the Investment Partnership settled securities sold short, not yet purchased, with a fair value of \$1.9 million as of December 31, 2008 for \$1.6 million. As of February 27, 2009, the Investment Partnership's pro forma cash balance was \$669.1 million as of February 27, 2009, which represented the cash balance as of December 31, 2008 and the net proceeds from the transactions described above.

Business Environment

Global capital markets continued to experience duress during the fourth quarter of 2008 as the contraction brought on by the global financial and economic crisis accelerated. During the fourth quarter, the valuations of equity and debt securities continued to decline; credit remained generally constricted and credit markets weak; consumer spending deteriorated; home prices continued to fall; unemployment rates rose; equity market volatility levels remained historically elevated; and financial intermediation was challenging. We anticipate that worldwide economies and capital markets will remain under stress for the foreseeable future as the investment community works with governmental and regulatory bodies to implement solutions to the credit crisis and restore confidence in global financial systems. As a result, sources of liquidity may be not only more difficult, but also impossible to obtain in the current market environment.

In addition, subsequent to December 31, 2008 and through February 27, 2009, there has been a further decline in the global economy and capital markets. Until the close of the first quarter and the completion of the first quarter valuation process, KPE and the Investment Partnership will not know the exact impact of this decline on first quarter valuations or results of operations. The state of the financial markets may also adversely impact other aspects of the business, operations, investments or prospects of KPE and the Investment Partnership in ways that are not currently foreseeable.

Business Combination Transaction

On July 27, 2008, KPE and KKR & Co. L.P. announced a transaction for KKR & Co. L.P. to acquire all of the assets and all of the liabilities of KPE in return for the issuance to KPE unitholders of certain interests in KKR & Co. L.P. (the Transaction). KKR & Co. L.P. is an affiliate of KKR. The financial world and markets have changed dramatically since July 2008. KKR and the independent directors of KPE's general partner are in the process of evaluating the impact of these changes on the continued advisability of the Transaction and hope to complete their analysis over the next several weeks.

Reinvestment by KKR

Pursuant to the Investment Agreement between KPE and KKR, whereby KKR agreed to cause its affiliates to reinvest in KPE common units, on a periodic basis, an amount equal to 25% of the aggregate pre-tax cash distributions, if any and subject to certain exceptions, that are made in respect of the carried interests and incentive distribution rights, one or more affiliates of KKR will be purchasing \$0.2 million of KPE common units through open market transactions over the Euronext Amsterdam stock exchange or in privately negotiated transactions, based on market conditions. As required by the Investment Agreement, such purchased common units will be subject to a three-year lock-up. Affiliates investing in KPE's common units will not include KKR's traditional private equity funds.

Financial Report

KPE's annual financial report, which includes its financial statements and the consolidated financial statements of the Investment Partnership, will be available on its website (www.kkrprivateequityinvestors.com) following the close of Euronext Amsterdam on Monday, March 2, 2009. KPE encourages investors to carefully read these documents accompanying this news release.
