**Letter from the chairman**

Dear Shareholder,

The U.S. economy weakened significantly during the six-month reporting period ended March 31, 2009. Looking back, U.S. gross domestic product (GDP) growth was 2.8% during the second quarter of 2008. Contributing to the economy's expansion were rising exports that were buoyed by a weakening U.S. dollar. In addition, consumer spending increased, aided by the government's tax rebate program. However, the dollar's rally and the end of the rebate program, combined with other strains on the economy, caused GDP to take a step backward during the second half of 2008. According to the U.S. Department of Commerce, third and fourth quarter 2008 GDP contracted 0.5% and 6.3%, respectively, the latter being the worst quarterly reading since 1982. Economic weakness continued in early 2009, as the advance estimate for first quarter 2009 GDP decline was 6.1%.

It may seem like ancient history, but when the reporting period began, speculation remained as to whether the U.S. would experience a recession. This ended in December 2008, when the National Bureau of Economic Research (NBER) which has the final say on when one begins and ends announced that a recession had begun in December 2007. Based on a variety of economic indicators, we believe it is now likely that the current recession could be the lengthiest since the Great Depression. Contributing to the economy's troubles is the accelerating weakness in the labor market. Since December 2007, approximately 5.1 million jobs have been shed, with more than two million being lost during the first three months of 2009. In addition, the unemployment rate continued to move steadily higher, rising from 8.1% to 8.5% in March 2009, to reach its highest rate since 1983.

Another strain on the economy, the housing market, has yet to bottom. This is evidenced by the 41% decline in new home sales in February 2009 versus February 2008. In addition, the median price of a new home fell more than 18% over those twelve months. However, not all of the economic news is bad. Inflation remains low and, in March 2009, data were released showing increases in durable goods orders, manufacturing and consumer sentiment, albeit all from depressed levels.

Ongoing issues related to the housing and subprime mortgage markets and seizing credit markets prompted the Federal Reserve Board ( Fed )ii to take aggressive and, in some cases, unprecedented actions. After reducing the

Western Asset High Income Opportunity Fund Inc. I

**Letter from the chairman *continued***

federal funds rate<sup>iii</sup> from 5.25% in August 2007 to 2.00% in April 2008, the Fed then left rates on hold for several months due to growing inflationary pressures as a result of soaring oil and commodity prices, coupled with the sagging U.S. dollar. However, as inflation receded along with oil prices and the global financial crisis escalated, the Fed cut rates twice in October 2008 to 1.00%. Then, in December 2008, it reduced the federal funds rate to a range of zero to 0.25% a historic low and maintained this stance during its next meetings in January, March and April 2009. In conjunction with the April meeting, the Fed stated that it will employ all available tools to promote economic recovery and to preserve price stability. The Committee ... anticipates that economic conditions are likely to warrant exceptionally low levels of the federal funds rate for an extended period.

In addition to the interest rate cuts, the Fed took several actions to improve liquidity in the credit markets. Back in September 2008, it announced an \$85 billion rescue plan for ailing AIG and pumped \$70 billion into the financial system as Lehman Brothers' bankruptcy and mounting troubles at other financial firms roiled the markets. More recently, the Fed has taken additional measures to thaw the frozen credit markets, including the purchase of debt issued by Fannie Mae and Freddie Mac, as well as introducing the Term Asset-Backed Securities Loan Facility ( TALF ). In March 2009, the Fed continued to pursue aggressive measures as it announced its intentions to:

- Purchase up to an additional \$750 billion of agency mortgage-backed securities, bringing its total purchases of these securities to up to \$1.25 trillion in 2009.
- Increase its purchases of agency debt this year by up to \$100 billion to a total of up to \$200 billion.
- Buy up to \$300 billion of longer-term Treasury securities over the next six months.

The U.S. Department of the Treasury has also taken an active role in attempting to stabilize the financial system, as it orchestrated the government's takeover of mortgage giants Fannie Mae and Freddie Mac back in September 2008. In October, the Treasury's \$700 billion Troubled Asset Relief Program ( TARP ) was approved by Congress and signed into law by former President Bush. Then, in March 2009, Treasury Secretary Geithner introduced the Public-Private Partnership Investment Program ( PPIP ), which will be used to facilitate the purchase of \$500 billion to \$1 trillion of troubled mortgage assets from bank balance sheets. President Obama has also made reviving the economy a priority in his administration, the cornerstone thus far being the \$787 billion stimulus package that was signed into law in February 2009.

During the six-month reporting period ended March 31, 2009, both short- and long-term Treasury yields experienced periods of extreme volatility. While earlier in 2008 investors were focused on the subprime segment of the mortgage-backed market, these concerns broadened to include a wide

range of financial institutions and markets. As a result, other fixed-income instruments also experienced increased price volatility. This unrest triggered several flights to quality, causing Treasury yields to move lower (and their prices higher), while riskier segments of the market saw their yields move higher (and their prices lower). This was particularly true toward the end of 2008, as the turmoil in the financial markets and sharply falling stock prices caused investors to flee securities that were perceived to be risky, even high-quality corporate bonds and high-grade municipal bonds. On several occasions, the yield available from short-term Treasuries fell to nearly zero, as investors were essentially willing to forgo any return potential in order to access the relative safety of government-backed securities. During the six months ended March 31, 2009, two-year Treasury yields fell from 2.00% to 0.81%. Over the same time frame, ten-year Treasury yields moved from 3.85% to 2.71%. For the six-month period ended March 31, 2009, the Barclays Capital U.S. Aggregate Index<sup>iv</sup> returned 4.70%.

Periods of increased investor risk aversion caused the high-yield bond market to produce poor results over the six months ended March 31, 2009. While the asset class posted strong returns during three of the last four months of the reporting period, it was not enough to overcome earlier flights to quality. In particular, seizing credit markets, coupled with fears of a global recession and rising corporate bond default rates, sent high-yield bond prices sharply lower in October and November 2008. All told, over the six months ended March 31, 2009, the Citigroup High Yield Market Index<sup>v</sup> returned -13.12%.

Fears of a global recession, falling commodity prices and seizing credit markets sent emerging market debt prices lower during the six-month reporting period. While the asset class rallied on several occasions, it was not enough to offset its sharp loss in October 2008, as the JPMorgan Emerging Markets Bond Index Global (EMBI Global)<sup>vi</sup> returned -14.89% for the month. Over the six months ended March 31, 2009, the EMBI Global returned -2.83%.

#### Performance review

For the six months ended March 31, 2009, Western Asset High Income Opportunity Fund Inc. returned -18.81% based on its net asset value (NAV)<sup>vii</sup> and 3.33% based on its New York Stock Exchange (NYSE) market price per share. The Fund's unmanaged benchmark, the Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index<sup>viii</sup>, returned -12.65% for the same period. The Lipper High Current Yield Closed-End Funds Category Average<sup>ix</sup> returned -21.46% over the same time frame. Please note that Lipper performance returns are based on each fund's NAV.

During the six-month period, the Fund made distributions to common shareholders totaling \$0.30 per share, which may have included a return of capital. The performance table on the next page shows the Fund's six-month total return based on its NAV and market price as of March 31, 2009. **Past performance is no guarantee of future results.**

Letter from the chairman *continued*

**PERFORMANCE SNAPSHOT** as of March 31, 2009 (unaudited)

	6-MONTH TOTAL RETURN* (not annualized)
PRICE PER SHARE	
\$4.21 (NAV)	-18.81%
\$4.16 (Market Price)	3.33%

**All figures represent past performance and are not a guarantee of future results.**

**\*Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

**A special note regarding increased market volatility**

In recent months, we have experienced a series of events that have impacted the financial markets and created concerns among both novice and seasoned investors alike. In particular, we have witnessed the failure and consolidation of several storied financial institutions, periods of heightened market volatility, and aggressive actions by the U.S. federal government to steady the financial markets and restore investor confidence. While we hope that the worst is over in terms of the issues surrounding the credit and housing crises, it is likely that the fallout will continue to impact the financial markets and the U.S. economy well into 2009.

Like all asset management firms, Legg Mason has not been immune to these difficult and, in some ways, unprecedented times. However, today's challenges have only strengthened our resolve to do everything we can to help you reach your financial goals. Now, as always, we remain committed to providing you with excellent service and a full spectrum of investment choices. Rest assured, we will continue to work hard to ensure that our investment managers make every effort to deliver strong long-term results.

We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our enhanced website, [www.leggmason.com/cef](http://www.leggmason.com/cef). Here you can gain immediate access to many special features to help guide you through difficult times, including:

- Fund prices and performance,
- Market insights and commentaries from our portfolio managers, and

- A host of educational resources.

During periods of market unrest, it is especially important to work closely with your financial advisor and remember that reaching one's investment goals unfolds over time and through multiple market cycles. Time and again, history has shown that, over the long run, the markets have eventually recovered and grown.

**IV** Western Asset High Income Opportunity Fund Inc.

**Information about your fund**

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

**Looking for additional information?**

The Fund is traded under the symbol **HIO** and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol **XHIOX** on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as [www.leggmason.com/cef](http://www.leggmason.com/cef).

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

**R. Jay Gerken, CFA**

Chairman, President and Chief Executive Officer

Western Asset High Income Opportunity Fund Inc. **V**

**Letter from the chairman *continued***

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

**RISKS:** The Fund invests in high-yield debt securities, which are subject to greater risks than investments in higher-rated bonds, such as the increased risk of default and greater volatility because of the lower credit quality of the issues. Fixed-income investments are subject to interest rate risk. As interest rates rise, bond prices fall, reducing the value of the Fund's holdings. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on Fund performance. In addition, the Fund may invest in foreign securities, which are subject to certain risks of overseas investing, including currency fluctuations and changes in political and economic conditions, which could result in significant fluctuations. These risks are magnified in emerging markets.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product ( GDP ) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board ( Fed ) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- iv The Barclays Capital (formerly Lehman Brothers) U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- v The Citigroup High Yield Market Index is a broad-based unmanaged index of high-yield securities.
- vi The JPMorgan Emerging Markets Bond Index Global ( EMBI Global ) tracks total returns for U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans, Eurobonds and local market instruments.
- vii Net asset value ( NAV ) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- viii The Barclays Capital (formerly Lehman Brothers) U.S. Corporate High Yield 2% Issuer Cap Index is an index of the 2% Issuer Cap component of the Barclays Capital U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, non-investment grade, fixed-rate, taxable corporate bond market.
- ix Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended March 31, 2009, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 5 funds in the Fund's Lipper category.

**16** Western Asset High Income Opportunity Fund Inc. 2009 Semi-Annual Report

**WESTERN ASSET HIGH INCOME OPPORTUNITY FUND INC.**

- \* Non-income producing security.
- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
- (b) Payment-in-kind security for which part of the income earned may be paid as additional principal.
- (c) Security is currently in default.
- (d) Illiquid security.
- (e) Variable rate security. Interest rate disclosed is that which is in effect at March 31, 2009.
- (f) Security is valued in good faith at fair value by or under the direction of the Board of Directors (See Note 1).
- (g) Security has no maturity date. The date shown represents the next call date.
- (h) On September 7, 2008, the Federal Housing Finance Agency placed Fannie Mae and Freddie Mac into conservatorship.
- (i) Subsequent to March 31, 2009, this security is in default as of April 15, 2009.
- (j) Subsequent to March 31, 2009, this security is in default as of April 1, 2009.
- # Aggregate cost for federal income tax purposes is substantially the same.

Abbreviation used in this schedule:

GMAC General Motors Acceptance Corp.

1 For the six months ended March 31, 2009 (unaudited).

2 Per share amounts have been calculated using the average shares method.

3 Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

4 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

5 Annualized.

6 Included in the expense ratios are certain non-recurring restructuring (and reorganization, if applicable) fees that were incurred by the Fund during the period. Without these fees, the gross and net expense ratios would both have been 0.84%.

7 The impact to the expense ratio was less than 0.01% as a result of fees paid indirectly.

8 Reflects fee waivers and/or expense reimbursements.

See Notes to Financial Statements.

**Notes to financial statements (unaudited)**

**1. Organization and significant accounting policies**

Western Asset High Income Opportunity Fund Inc. (the Fund) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's primary investment objective is to seek high current income. Capital appreciation is a secondary objective.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

**(a) Investment valuation.** Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the bid and asked prices as of the close of business of that market. Equity securities for which market quotations are available are valued at the last reported sale price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

Effective October 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

	MARCH 31, 2009	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)
Investments in securities	\$298,709,088	\$2,246,785	\$292,220,227	\$4,242,076
Other financial instruments*	(560,647)		(560,647)	
Total	\$298,148,441	\$2,246,785	\$291,659,580	\$4,242,076

\* Other financial instruments include swap contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	INVESTMENTS IN SECURITIES
Balance as of September 30, 2008	\$ 1,268,368
Accrued premiums/discounts	21,216
Realized gain (loss)	(2,211,811)(1)
Change in unrealized appreciation (depreciation)	2,213,633(2)
Net purchases (sales)	(57,444)
Transfers in and/or out of Level 3	3,008,114
Balance as of March 31, 2009	\$ 4,242,076
Net unrealized appreciation (depreciation) for investments in securities still held at the reporting date	\$(15,415,814)(2)

(1) This amount is included in net realized gain (loss) from investment transactions in the accompanying Statement of Operations.

(2) This amount is included in the change in net unrealized appreciation (depreciation) in the accompanying Statement of Operations. Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the reporting period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

**(b) Repurchase agreements.** When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

**(c) Written options.** When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market daily to reflect the current market value of the option written. If the option expires, the Fund realizes a gain from investments equal to

**Notes to financial statements (unaudited) continued**

the amount of the premium received. When a written call option is exercised, the difference between the premium received plus the option exercise price and the Fund's basis in the underlying security (in the case of a covered written call option), or the cost to purchase the underlying security (in the case of an uncovered written call option), including brokerage commission, is treated as a realized gain or loss. When a written put option is exercised, the amount of the premium received is subtracted from the cost of the security purchased by the Fund from the exercise of the written put option to form the Fund's basis in the underlying security purchased. The writer or buyer of an option traded on an exchange can liquidate the position before the exercise of the option by entering into a closing transaction. The cost of a closing transaction is deducted from the original premium received resulting in a realized gain or loss to the Fund.

The risk in writing a covered call option is that the Fund may forego the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. The risk in writing a call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

**(d) Swaptions.** The Fund may write swaption contracts to manage exposure to fluctuations in interest rates and to enhance portfolio yield. Swaption contracts written by the Fund represent an option that gives the purchaser the right, but not the obligation, to enter into a previously agreed upon swap contract at a future date. If a written call swaption is exercised, the writer enters a swap and is obligated to pay the fixed rate and receive a floating rate in exchange. If a written put swaption is exercised, the writer enters a swap and is obligated to pay the floating rate and receive a fixed rate in exchange. Swaptions are marked to market daily based upon quotations from market makers.

When the Fund writes a swaption, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked to market daily to reflect the current market value of the swaption written. Changes in the value of the swaption are reported as unrealized gains or losses in the Statement of Operations. If the swaption expires, the Fund realizes a gain equal to the amount of the premium received. When a written swaption is exercised, the premium received is added to the basis of the swap agreement entered.

Entering into a swaption contract involves, to varying degrees, the elements of credit, market and interest rate risk associated with both option contracts and swap contracts. To reduce credit risk from potential counterparty default, the Fund enters into swaption contracts with counterparties whose creditworthiness has been evaluated by the Investment Manager. The Fund bears the market risk arising from any change in index values or interest rates.

(e) **Credit default swaps.** The Fund may enter into credit default swap ( CDS ) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation or in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising a credit index. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer's default. As a seller of protection, the Fund generally receives an upfront payment or a stream of payments throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement the maximum potential amount of future payments (undiscounted) that the Fund could be required to make under a credit default swap agreement, would be an amount equal to the notional amount of the agreement. These amounts of potential payments will be partially offset by any recovery of value from the respective referenced obligations. As a seller of protection, the Fund effectively adds leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Implied spreads are the theoretical price a lender receives for credit default protection. When spreads rise, market perceived credit risk rises and when spreads fall, market perceived credit risk falls. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. Wider credit spreads and decreasing market values, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. Credit spreads utilized in determining the period end market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country are disclosed in the Notes to Financial Statements and serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for credit derivatives. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values particularly in relation to the notional amount of the contract, as well as the annual payment rate serve as an indication of the current status of the payment/performance risk.

Payments received or made at the beginning of the measurement period are reflected as a premium or deposit, respectively, on the Statement of Assets and Liabilities. These upfront payments are amortized over the life of the swap and

**Notes to financial statements (unaudited) continued**

are recognized as realized gain or loss on the Statement of Operations. A liquidation payment received or made at the termination of the swap is recognized as realized gain or loss on the Statement of Operations. Net periodic payments received or paid by the Fund are recognized as realized gain or loss at the time of receipt or payment on the Statement of Operations.

Entering into a CDS agreement involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates.

**(f) Foreign currency translation.** Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities, at the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

**(g) Credit and market risk.** The Fund invests in high yield instruments that are subject to certain credit and market risks. The yields of high yield obligations reflect, among other things, perceived credit and market risks. The Fund's investment in securities rated below investment grade typically involves risks not associated with higher rated securities including, among others, greater

risk related to timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading.

**(h) Security transactions and investment income.** Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

**(i) Distributions to shareholders.** Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

**(j) Fees paid indirectly.** The Fund's custody fees are reduced according to a fee arrangement, which provides for a reduction based on the level of cash deposited with the custodian by the Fund. The amount is shown as a reduction of expenses on the Statement of Operations. Interest expense, if any, paid to the custodian related to cash overdrafts is included in interest expense in the Statement of Operations.

**(k) Federal and other taxes.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements. However, due to the timing of when distributions are made, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income exceeds the distributions from such taxable income for the year.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of March 31, 2009, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

**(l) Reclassification.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

**Notes to financial statements (unaudited) continued**

**2. Investment management agreement and other transactions with affiliates**

Legg Mason Partners Fund Advisor, LLC ( LMPFA ) is the Fund's investment manager. Western Asset Management Company ( Western Asset ) and Western Asset Management Company Limited ( Western Asset Limited ) are the Fund's subadvisers. LMPFA, Western Asset and Western Asset Limited are wholly-owned subsidiaries of Legg Mason, Inc. ( Legg Mason ).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays an investment management fee, calculated daily and paid monthly, at an annual rate of 0.80% of the Fund's average daily net assets.

LMPFA delegates to Western Asset the day-to-day portfolio management of the Fund. Western Asset Limited provides certain advisory services to the Fund relating to currency transactions and investments in non-U.S. dollar denominated debt securities. Western Asset Limited does not receive any compensation from the Fund and is paid by Western Asset for its services to the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund. In turn, Western Asset pays Western Asset Limited a sub-advisory fee of 0.30% on the assets managed by Western Asset Limited.

The Fund had adopted an unfunded, non-qualified deferred compensation plan (the Plan ) which allowed non-interested directors ( Directors ) to defer the receipt of all or a portion of the directors' fees earned until a later date specified by the Directors. The deferred balances are reported in the Statement of Operations under Directors' fees and are considered a general obligation of the Fund and any payments made pursuant to the Plan will be made from the Fund's general assets. The Plan was terminated effective January 1, 2006. This change will have no effect on fees previously deferred. As of March 31, 2009, the Fund had accrued \$9,604 as deferred compensation payable.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

**3. Investments**

During the six months ended March 31, 2009, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$83,589,188
Sales	77,108,997

Edgar Filing: WESTERN ASSET HIGH INCOME OPPORTUNITY FUND INC. - Form N-CSRS

At March 31, 2009, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 3,879,258
Gross unrealized depreciation	(178,370,872)
Net unrealized depreciation	\$(174,491,614)

During the six months ended March 31, 2009, written option transactions for the Fund were as follows:

	NOTIONAL	
	PAR	PREMIUMS
Written options, outstanding September 30, 2008	7,600,000	\$166,250
Options written		
Options closed		
Options exercised	(3,800,000)	(114,950)
Options expired	(3,800,000)	(51,300)
Written options, outstanding March 31, 2009		

At March 31, 2009, the Portfolio held the following credit default swap contracts:

**CREDIT DEFAULT SWAPS ON CREDIT INDICES SELL PROTECTION(1)**

SWAP COUNTERPARTY (REFERENCE ENTITY)	NOTIONAL AMOUNT(2)	TERMINATION DATE	PERIODIC PAYMENTS RECEIVED BY THE FUND	MARKET VALUE(3)	UPFRONT PREMIUMS PAID/ (RECEIVED)	UNREALIZED DEPRECIATION
Credit Suisse (CDX North America High Yield Index)	\$1,824,000	6/20/13	5.000% quarterly	\$(499,457)	\$(209,671)	\$(289,786)
Credit Suisse (CDX North America High Yield Index)	1,824,000	6/20/13	5.000% quarterly	(499,457)	(228,596)	\$(270,861)
Net unrealized depreciation on sales of credit default swaps on credit indices						\$(560,647)

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to make as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) The quoted market prices and resulting values for credit default swap agreements on asset-backed securities and credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement been closed/sold as of the period end. Decreasing market values when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

Percentage shown is an annual percentage rate.

**Notes to financial statements (unaudited) continued**

**4. Capital loss carryforward**

As of September 30, 2008, the Fund had a net capital loss carryforward of approximately \$276,188,983, of which \$69,256,717 expires in 2009, \$141,417,884 expires in 2010, \$62,116,725 expires in 2011, \$2,542,282 expires in 2012 and \$855,375 expires in 2016. These amounts will be available to offset any future taxable capital gains.

**5. Recent accounting pronouncements**

In March 2008, the Financial Accounting Standards Board ( FASB ) issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* ( FAS 161 ). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statements and related disclosures.

\* \* \*

In April 2009, FASB issued FASB Staff Position No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ( FSP 157-4 ). FSP 157-4 provides additional guidance for estimating fair value in accordance with FAS 157, when the volume and level of activity for the asset or liability have significantly decreased as well as guidance on identifying circumstances that indicate a transaction is not orderly. FSP 157-4 is effective for fiscal years and interim periods ending after June 15, 2009. Management is currently evaluating the impact the adoption of FSP 157-4 will have on the Fund's financial statement disclosures.

**Board approval of management and subadvisory agreements (unaudited)**

**Background**

The Investment Company Act of 1940 (the 1940 Act ) requires that the Board of Directors (the Board ) of Western Asset High Income Opportunity Fund, Inc.(the Fund ), including a majority of its members that are not considered to be interested persons under the 1940 Act (the Independent Directors ) voting separately, approve the continuation of the investment management contract (the Management Agreement ) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager ) and the sub-advisory agreements (individually, a Sub-Advisory Agreement and, collectively, the Sub-Advisory Agreements ) with the Manager's affiliates, Western Asset Management Company ( Western Asset ) and Western Asset Management Company Limited in London (together with Western Asset, the Subadviser ), on an annual basis. In response to a request by the Independent Directors, an in-person meeting of the Board was held on October 23, 2008 (the Leadership Meeting ) with senior leadership of the Manager, the Subadviser and their corporate parent, Legg Mason, Inc. ( Legg Mason ) to discuss the investment advisory and other services provided to the Fund and other funds in the same complex under the Board's supervision (the Legg Mason Closed-End Funds ). During this Leadership Meeting, information was presented to the Board regarding, among other things, the Subadviser's economic and financial markets outlook and its investment strategies given that outlook. Additionally, the Board received information regarding recent organizational changes and the continuing financial and other resources available to the Legg Mason organization to support its activities in respect of the Legg Mason Closed-End Funds. At a meeting (the Contract Renewal Meeting ) held in-person on November 12 and 13, 2008, the Board, including the Independent Directors, considered and approved continuation of each of the Management Agreement and Sub-Advisory Agreements for an additional one-year term. To assist in its consideration of the renewals of the Management Agreement and Sub-Advisory Agreements, the Board received and considered a variety of information about the Manager and Subadviser, as well as the management and sub-advisory arrangements for the Fund and the other Legg Mason Closed-End Funds (together with the information provided at the Leadership and Contract Renewal Meetings, the Contract Renewal Information ), certain portions of which are discussed below. A presentation made by the Manager and Subadviser to the Board at the Contract Renewal Meeting in connection with its evaluations of the Management Agreement and Sub-Advisory Agreements encompassed the Fund and the other Legg Mason Closed-End Funds. In addition to the Contract Renewal Information, the Board received performance and other information throughout the year related to the respective services rendered by the Manager and the Subadviser to the Fund. The Board's evaluation took into account the information received throughout the year and also reflected the knowledge and familiarity gained as members of the Board of the Fund and the other Legg Mason Closed-End Funds with respect to the services provided to the Fund by each of the Manager and Subadviser.

**Board approval of management and subadvisory agreements (unaudited) *continued***

The discussion below covers both advisory and administrative functions being rendered by the Manager, each such function being encompassed by the Management Agreement, and the investment advisory function being rendered by the Subadviser.

**Board approval of management agreement and sub-advisory agreements**

In its deliberations regarding renewal of the Management Agreement and Sub-Advisory Agreements, the Fund's Board, including the Independent Directors, considered the factors below.

**Nature, extent and quality of the services under the management agreement and sub-advisory agreements**

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Fund by the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreements, respectively, during the past year. The Board also reviewed Contract Renewal Information regarding the Fund's compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the Contract Renewal Information and the Board's discussions with the Manager at the Contract Renewal Meeting, the financial resources available to the Legg Mason organization.

The Board considered the responsibilities of the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreements, respectively, including the Manager's coordination and oversight of services provided to the Fund by the Subadviser and others.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Management Agreement and the Sub-Advisory Agreements have been satisfactory under the circumstances.

**Fund performance**

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe consisted of the Fund and all nonleveraged closed-end high current yield funds,

32 Western Asset High Income Opportunity Fund Inc.

as classified by Lipper, regardless of asset size. The Board noted that it had received and discussed with the Manager and Subadviser information throughout the year at periodic intervals comparing the Fund's performance against its benchmark and its peer funds as selected by Lipper. The Performance Universe consisted of five funds for the 1-year period ended June 30, 2008 and four funds for the 3-, 5- and 10-year periods ended such date.

The Lipper Performance Information comparing the Fund's performance to that of the Performance Universe based on net asset value per share showed, among other things, that the Fund's performance for each of the 1- and 5-year periods ended June 30, 2008 was ranked third among the funds in the Performance Universe for that period and that the Fund's performance for each of the 3- and 10-year periods ended June 30, 2008 was ranked fourth among the funds in the Performance Universe for that period. In discussing the Fund's performance, the Manager noted, among other things, that the small number of funds in the Performance Universe, which included other funds managed by Western Asset, made meaningful comparisons difficult. For the 3-, 5- and 10-year periods, three of the four funds in the Performance Universe were managed by Western Asset. The Board also considered the volatile market conditions during the past year and the Fund's performance in relation to its benchmark and in absolute terms.

Based on its review, which included consideration of all of the factors noted above, the Board concluded that, under the circumstances, the Fund's performance did not support a decision against continuation of the Management Agreement and Sub-advisory Agreements.

#### **Management fees and expense ratios**

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager in light of the nature, extent and quality of the management and sub-advisory services provided by the Manager and the Subadviser. The Board noted that the compensation paid to the Subadviser (the Sub-Advisory Fee) is paid by the Manager, not the Fund, and, accordingly, that the retention of the Subadviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in an expense universe (the Expense Universe) selected and provided by Lipper for the 1-year period ended June 30, 2008. The Expense Universe consisted of the Fund and four other nonleveraged closed-end high current yield funds, as classified by Lipper. The five funds in the Expense Universe had assets ranging from \$55.0 million to the Fund's \$535.5 million.

The Lipper Expense Information comparing the Management Fee as well as the Fund's actual total expenses to the Fund's Expense Universe showed that the

**Board approval of management and subadvisory agreements (unaudited) *continued***

Management Fee on a contractual basis was ranked third among the five funds in the Expense Universe; the Fund's Management Fee on an actual basis (i.e., giving in effect to any voluntary fee waivers implemented by the Manager with respect to the Fund and by the managers of the other Expense Universe funds) was ranked third among the funds in the Expense Universe; and the Fund's actual total expenses were ranked second among the funds in the Expense Universe. The Fund's Management Fee, whether on a contractual or actual basis, was at the Expense Universe median while its actual total expenses were better than the Expense Universe median. The Board noted the small number of funds in the Expense Universe, which included other funds managed by Western Asset, made meaningful comparisons difficult.

The Board also reviewed Contract Renewal Information regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, separate accounts. The Board was advised that the fees paid by such other clients generally are lower, and may be significantly lower, than the Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other fund service providers. The Board considered the fee comparisons in light of the differences required to manage these different types of accounts. The Contract Renewal Information included an analysis of complex-wide management fees provided by the Manager, which, among other things, set out a proposed framework of fees based on asset classes.

Taking all of the above into consideration, the Board determined that the Management Fee and the Sub-Advisory Fee were reasonable in light of the nature, extent and quality of the services provided to the Fund under the Management Agreement and the Sub-Advisory Agreements.

**Manager profitability**

The Board, as part of the Contract Renewal Information, received a profitability analysis of the Manager and its affiliates in providing services to the Fund for the fiscal years ended March 31, 2008 and March 31, 2007. The Board also received profitability information with respect to the Legg Mason fund complex as a whole. In addition, the Board received information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data. In 2007, the Board received a report from an outside consultant that had reviewed the Manager's methodologies and was assured by the Manager at the Contract Renewal Meeting that there had been no significant changes in those methodologies since the report was rendered. The profitability to the Subadviser was not considered to be a material factor in the Board's considerations since the Sub-Advisory Fee is paid by the Manager, not the Fund. The Board did not consider profitability to be such as to support a

determination against continuation of the Management Agreement and Sub-Advisory Agreements but determined that profitability to the Manager in providing services to the Fund merited continued monitoring at current levels, even though the profitability analysis presented to the Board indicated that profitability to the Manager had decreased by 1 percent during the period covered by the analysis.

**Economies of scale**

The Board received and discussed Contract Renewal Information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that the Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan. Any significant growth in its assets, therefore, generally would occur through appreciation in the value of the Fund's investment portfolio. The Board determined that the management fee structure was appropriate under present circumstances.

**Other benefits to the manager and the subadviser**

The Board considered other benefits received by the Manager, the Subadviser and its affiliates as a result of their relationship with the Fund, including the opportunity to obtain research services from brokers who effect Fund portfolio transactions.

\* \* \* \* \*

In light of all of the foregoing, the Board determined that, under the circumstances, continuation of the Management Agreement and Sub-Advisory Agreements would be consistent with the interests of the Fund and its shareholders and unanimously voted to continue each Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of the Management Agreement and Sub-Advisory Agreements, and each Board member attributed different weights to the various factors. The Independent Directors were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum discussing its responsibilities in connection with the proposed continuation of the Management Agreement and Sub-Advisory Agreements as part of the Contract Renewal Information and the Independent Directors separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Directors also discussed the proposed continuation of the Management Agreement and the Sub-Advisory Agreements in private sessions with their independent legal counsel at which no representatives of the Manager were present.

**Additional shareholder information (unaudited)**

**Results of annual meeting of shareholders**

The Annual Meeting of Shareholders of the Fund was held on February 6, 2009, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting:

**Election of directors**

NOMINEES	Votes For	Votes Withheld
Paolo M. Cucchi	57,165,392	6,125,213
R. Jay Gerken	57,264,411	6,026,194

At March 31, 2009, in addition to Paolo M. Cucchi and R. Jay Gerken, the other Directors of the Fund were as follows:

Carol L. Colman  
Daniel P. Cronin  
Leslie H. Gelb  
William R. Hutchinson  
Riordan Roett  
Jeswald W. Salacuse

**Dividend reinvestment plan (unaudited)**

Under the Fund's Dividend Reinvestment Plan ( Plan ), a shareholder whose shares of common stock are registered in his own name will have all distributions from the Fund reinvested automatically by American Stock Transfer & Trust Company ( AST ), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name ) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of AST as dividend paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds the net asset value ( NAV ) per share of the common stock on the determination date (generally, the record date for the distribution), the Plan participants will be issued shares of common stock by the Fund at a price equal to the greater of NAV determined as described below or 95% of the market price of the common stock.

If the market price of the common stock is less than the NAV of the common stock at the time of valuation (which is the close of business on the determination date) AST will buy common stock in the open market, on the stock exchange or elsewhere, for the participants' accounts. If following the commencement of the purchases and before AST has completed its purchases, the market price exceeds the NAV of the common stock as of the valuation time, AST will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) NAV as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent AST is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by AST may exceed the NAV of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the distribution had been paid in common stock issued by the Fund at such net asset value. AST will begin to purchase common stock on the open market as soon as practicable after the determination date for distributions, but in no event shall such purchases continue later than 30 days after the payment date for such distribution, or the record date for a succeeding distribution, except when necessary to comply with applicable provisions of the federal securities laws.

AST maintains all shareholder accounts in the Plan and furnishes written confirmation of all transactions in each account, including information needed by a

**Dividend reinvestment plan (unaudited) *continued***

shareholder for personal and tax records. The automatic reinvestment of distributions will not relieve Plan participants of any income tax that may be payable on the distributions. Common stock in the account of each Plan participant will be held by AST in uncertificated form in the name of each Plan participant.

Plan participants are subject to no charge for reinvesting distributions under the Plan. AST's fees for handling the reinvestment of distributions will be paid by the Fund. No brokerage charges apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the distributions. The Plan also may be amended or terminated by AST, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed by mail to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038 or by telephone at 1-877-366-6441.
