Statements by the CEO and CFO

Cemig's CEO, Mr. Djalma Bastos de Moraes, makes the following comments:

The exceptional results that we present for the first quarter of 2011 reflect the success of our Long-term Strategic Plan, and of the strategy that is linked to it. By focusing on the long term, this Plan enables Cemig to present growing results, with a balanced portfolio of businesses, and with low risk.

After successfully making a number of acquisitions, Cemig is now very well positioned, in the context of an increasingly strong Brazilian economy, as indicated by the exceptional growth in the consumer market.

We do not cease to do our homework, growing in a balanced fashion across all our sectors, with our focus on operational excellence.

The results show that we are on the right path and in particular that the decisions taken in the last few years are having the effect we intend: constantly adding value to our businesses, and making Cemig a company with continuously increasing strength and solidity, led by efficient corporate management.

Cemig's Chief Finance and Investor Relations Officer, Luiz Fernando Rolla, comments as follows:

In this first quarter we have continued to generate consistent, robust cash flow as a result of our operations and, as intended, add value to our businesses.

Table of Contents

Our Ebitda in 1Q11 is R\$ 1.3 billion, 11% more than in the first quarter of 2010 benefiting from our policy of maintaining high levels of operational efficiency.

This excellence is evidenced by our net income, of R\$ 526 million in the first 3 months of this year, 1% more than in 1Q10.

We are now operating at a new level of results, which reflects the correctness of our strategy of growing through acquisitions and new projects, within the process of consolidation of the Brazilian electricity sector.

Even with its large universe of 58 companies and 10 consortia, the Cemig Group has operations that are synergetic, increasingly profitable, positioned with lower risk, and greater stability and results that are always growing over the long term.

Our solid cash position of R\$ 2.7 billion provides the basis for execution of our Strategic plan, dividend policy and debt management, and also the execution of planned investments, including those associated with acquisition opportunities.

The excellent results we present today show that we continue to add value, both continuously and sustainably, for all our shareholders and all our other stakeholders.

In this release, we summarize the main points of our results for 1Q11.

Table of Contents

The economic context

The first quarter of 2011 continued to show signs of strengthening and recovery in the world's leading economies.

Growth continued in the US, though at a modest seasonally adjusted rate of 1.8% p.a. in the first quarter, 1.9 percentage points lower than its year-on-year growth of 3.7% in first quarter 2010 (1Q10). Similarly, growth in the Eurozone to the end of March was 2.5%, which compares to 1Q10, led by Germany and the Netherlands. China, Brazil's largest export destination, reported 12-month GDP growth of 9.7% to the end of 1Q11. Industrial production in Japan was down 4.5% year-on-year in the quarter, representing a reversal of 6.2 percentage points from the growth of 1.7% reported in 1Q10. Year-on-year growth in industrial production in Argentina, one of Brazil's leading export customers, was 6.4% in the quarter, lower than the year-on-year growth of 14.25% reported in 1Q10.

In the Brazilian economy, strongly based on exports, aggregate demand was strong, reflecting growth in income, strong performance in the labor market, expansion of lending, and high levels of consumer and business confidence.

Brazil recorded its lowest-ever recorded average unemployment rate for a first quarter, of 6.3%, which compares to 7.4% in 1Q10. And real wages were up 4.0% in 1Q11 – the highest year-on-year comparison in many years. Lending was higher from the same period of the last year, with lending to individuals up 13.2%, and lending to

Table of Contents

companies up 9.9%. Confidence indices were optimistic. The consumer confidence indicator was up 1.4% from a year ago; and the National Industries Federation's business confidence index, though down 9.7% from last year, was still high at 60.5.

Industrial production, by volume, was up 2.1% year-on-year in Brazil, and 3.8% in Minas Gerais – the state where the majority of Cemig's revenue is concentrated:

Sources: Brazilian Geography and Statistics Institute (IBGE); Brazilian Finance Ministry.

Note that the rate of expansion of industrial production of the state of Minas Gerais overtook that of Brazil at the end of 2009, and has remained ahead of it during 2010 and 2011.

Industrial production indicators in two other important industries – mining and the automobile industry – have accommodated slightly in the first quarter, though at high levels:

Table of Contents

Sources: Brazilian Geography and Statistics Institute (IBGE); Brazilian Finance Ministry.

The auto industry and mining are leading elements of the economy of Minas Gerais, the state in which Cemig generates most of its revenue.

Early in the year, the imbalance between high domestic absorption and industrial production continued to pressure inflation, which reached the upper limit of the inflation target range (6.5%) – the center of the range is 4.5%. During the quarter the Central Bank’s Monetary Policy Committee (Copom) raised the basic (Selic) interest rate twice, by 0.25 percentage points in January and by 0.5 percentage points in March, bringing it to 11.75% at the end of the quarter. The Central Bank expects that its interest rate policy, together with macroprudential measures being taken since last year, will bring inflation within the target in 2012.

Electricity consumption in 1Q11 was higher than in 1Q10 in all the consumer categories: residential consumption was 3.5% higher, consumption by industrial consumers was 5.3% higher, consumption by the commercial user category was up 6.1%, and consumption by rural and other consumers was 3.1% higher.

In the whole of Brazil, these categories consumed the following average volumes of electricity per month in the first quarter of 2011:

- Industrial 14,817 GWh
- Residential 9,587 GWh
- Commercial 6,321 GWh
- Others 5,046 GWh

Adoption of International Financial Standards

The results below are reported under the new Brazilian accounting practices, which arose from the process of harmonization of Brazilian accounting rules with International Financial Reporting Standards. The results for the first quarter of 2010 have been restated to reflect these changes and to allow comparability with the first quarter of 2011.

Cemig's consolidated energy market

Cemig's market comprises the sale of electricity by Cemig D, Cemig GT consolidated (Cemig GT itself plus Cachoeirão, Pipoca and the proportionate holdings in the *Parajuru*, *Morgado* and *Volta do Rio* wind farms), the subsidiaries and affiliates (Horizontes, Ipatinga, Sá Carvalho, Barreiro, Cemig PCH, Rosal and Capim Branco) and Light (in proportion to Cemig's holding).

These include sales both to captive consumers and free clients, in the concession area of Minas Gerais and outside the State, and also the sale of electricity to other agents of the electricity sector in the Free and Regulated Markets, and the sales under the Proinfa program to encourage alternative electricity sources, and on the CCEE (wholesale market) eliminating transactions between companies of the Cemig group.

Table of Contents

In 1Qartely 2011, Cemig sold a total of 17,981 GWh, 16% more than in 2009 (15,518).

The figure includes a large volume of electricity sold to industrial consumers, totaling 6,257 GWh the result of the strong economic growth and of Cemig's position as leader in the free market in electricity in Brazil, another highlight is our sales under the *residential*, which grew by 21% to 2,832 GWh in 1Q11.

Revenue from use of the network

This refers to the tariff charged to agents in the electricity sector, including Free Consumers connected to the high voltage network, for use of that part of the National transmission Grid that is owned by the Company.

The electricity market of Cemig D

On April 8, 2011 Aneel published the result of the Tariff Adjustment of Cemig D. The Company's tariffs were differentiated by voltage level, and the average impact was an increase of 6.04%, effective on that date.

Revenue from supply of electricity

Revenue from supply of electricity in 1Q11 was R\$ 2,326,835, compared to R\$ 2,303,663 in 1Q10.

The main impacts on revenue from sales to final consumers in 1Q11 arose from:

- The quantity of electricity supplied to final consumers was 7.52% higher year-on-year.
- Tariff increase with average impact on consumer tariffs of 1.67%, from April 8, 2010 (full effect in 1Q11).

Table of Contents

Total	6,025	5,603	8

In GWh

The categories with the largest year-on-year increases were the residential, industrial and commercial categories, respectively 7.27%, 10.33% and 7.10%. The increases in these categories were mainly due to an increased number of consumers, expansion of industrial activity, and growth in private consumption, due to the favorable economic conditions in the state of Minas Gerais.

In spite of the quantity of electricity sold being 7.52% higher, revenue was only 1.01% higher. This result is substantially due to the effects arising from the regulatory assets and liabilities being transferred to tariffs in the periods concerned.

Revenue from use of the network

This is revenue from the TUSD – Tariff for Use of the Distribution System – charged to Free Consumers on electricity sold to them. In first quarter 2011 this revenue was R\$ 447,341, 35.50% more than its total of R\$ 330,147 in first quarter 2010. This variation arises principally from the

Table of Contents

increase in the volume transported, as a result of the migration of captive consumers to the status of free consumers, and also from the greater industrial activity in 2011.

The electricity market of Light

Total electricity consumption in 1Q11, at 6,291 GWh, was 3.4% more than in 1Q10. Consumption by the residential category of consumers was 3.0% higher than in 1Q10, even though average temperatures were nearly 1°C lower than in 1Q10.

For more details on **Light**'s sales in the second quarter of 1Q11, please see the report on this link:

http://www.mzweb.com.br/light/web/arquivos/Light_S.A._Release_1Q11.pdf

Operational revenue

Revenue from supply of electricity

Gross revenue from supply of electricity in 1Q11 was R\$ 3,969,051, 14.53% more than in 1Q10 (R\$ 3,465,493).

Final consumers

The revenue from electricity sold to final consumers in 1Q11, excluding the group's own consumption, was R\$ 3,498,847, compared to R\$ 3,097,476 in the first quarter of 2010.

Table of Contents

The main factors in this result are:

- The volume of energy invoiced to final consumers (excluding Cemig's own consumption) was 15,60% higher.
- Tariff increase for Cemig D with average effect on consumer tariffs of 1.67%, starting from April 8, 2010.
- Price adjustment in contracts for sale of electricity, most of which are indexed to the IGP-M inflation index.
- In spite of the effects reported above, revenue is 14.53% higher, mainly because of the effects arising from regulatory assets and liabilities that were transferred to tariffs in the periods concerned.

Electricity sold to final consumers

	1Q 2011	1Q 2010	Change, %
Residential	2,831	2,350	21%

In GWh

Revenue from wholesale electricity sales

The volume of electricity sold to other concession holders in 1H11 was 5.35% higher than in 1H10, for average price 4.56% higher, at R\$ 106.95/MWh in 1Q112011, vs. R\$ 102.29/MWh in 1Q10. As a result, revenue from wholesale supply to other concession holders was 10.15% higher year-on-year, at R\$ 364,724 in 1Q2011, than in 1Q2010

Table of Contents

(R\$ 331,127). Revenues from energy sold to other concession holders totaled R\$ 3,410,217 in 1Q11, compared to R\$ 3,237,078 million in 1Q10.

Revenue from use of the electricity distribution systems (TUSD)

The revenue from the TUSD (Tariff for Use of the Distribution System), received by **Cemig D** and **Light**, was 56.51% higher in 1Q11, at R\$ 524,375, compared to R\$ 335,042 in 1Q10. This revenue comes from charges made to Free Consumers on energy sold by other agents of the electricity sector, and its increase arises from a higher volume of transport of energy for free consumers, a consequence of the recovery of industrial activity and of migration of captive clients to the free market.

Revenue from use of the transmission grid

Revenue for use of the network was 3.51%, or R\$ 11,153, higher year-on-year in 1Q11, at R\$ 329,028, compared to R\$ 317,875 in 1Q10.

This revenue is from the transmission capacity of Cemig GT made available to the national grid, and also from the jointly-controlled transmission subsidiaries, among which we highlight the transmission groups known as **TBE** and **Taesa**.

The increase in this revenue in 2011 is mainly due to acquisition of an interest in **Taesa**, in May 2010, through a public offer to acquire shares, which increased these revenues in 1Q11.

Table of Contents

Deductions from operational revenues

Deductions from operational revenues in 1Q11 totaled R\$ 1,647,650, which was 18.27% more than in 1Q10 (R\$ 1,393,136). The main variations in these deductions from revenue between the two years are as follows:

The Fuel Consumption Account - CCC

The deduction for the CCC charge was R\$ 157,302 in 1Q11, compared to R\$ 98,942 in 1Q10, an increase of 58.98%. This charge is for the costs of operation of the thermal plants in the national grid and in the isolated systems. It is prorated between electricity concession holders, on a basis set by an Aneel Resolution.

This is a non-controllable cost: in the distribution activity, the difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is compensated for in the next tariff adjustment. For the portion relating to transmission services the Company charges the CCC amount to Free Consumers on their invoices and passes it on to Eletrobrás.

CDE - Energy Development Account

The deduction from revenue for the CDE charge was R\$ 122,855 in 1Q11, compared to R\$ 110,176 in 1Q10, an increase of 11.51%. These payments are specified by a Resolution issued by the regulator, Aneel. This is a non-controllable cost: in the distribution activity, the

Table of Contents

difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is compensated for in the next tariff adjustment. For the portion related to transmission services the Company merely acts as a channel for the CDE amount, charging it to Free Consumers on their invoices and paying it on to Eletrobrás.

The other deductions from revenue are taxes, calculated as a percentage of amounts invoiced. Hence their variations are substantially proportional to the changes in revenue.

Ebitda

Cemig's Ebitda in 1Q11 was 11% higher than in 1Q10:

(Method of calculation not reviewed by external auditors)

R\$ mn	1Q 2011	1Q 2010	Change, %

+ Depreciation and amortization	233	214	9

The higher Ebitda in 1Q11 than in 1Q10 mainly reflects Revenue 17.69% higher, partially offset by Operational costs and expenses (excluding Depreciation and amortization) 22.23% higher. The higher

Table of Contents

Operational costs and expenses in 1H11 than in 1H10 are reflected in Ebitda margin, which was 40.46% in 1Q2010, and 38.16% in 1Q 2010.

Net income for the period

Cemig's consolidated net income in 1Q11 was R\$ 526,151, which compares with R\$ 520,066 in 1Q10, an increase of 1.17%. This mainly reflects higher revenue due to volume of electricity sold being 3.11% higher year-on-year, in turn mainly due to higher industrial activity; and also to revenue from use of the grid up 3.51% year-on-year, due to the addition of the transmission company **Taesa** to the network in May 2010.

Operational costs and expenses (excluding Financial revenue/expenses)

Operational costs and expenses (excluding Net financial revenue (expenses)) totaled R\$ 2,327,125 in 1Q11, 20.74% more than in 1Q10 (R\$ 1,927,335). This is mainly due to increases in the costs of Electricity bought for resale, and Outsourced services. There is more information on this in Explanatory Note 23 to the Consolidated Quarterly Information.

The following paragraphs outline the main variations in expenses:

Electricity bought for resale

The expense on electricity bought for resale in 1Q11 was R\$ 1,075,760, 49.84% more than in 1Q10 (R\$ 717,941). The higher amount is basically due to a higher volume of selling activity by **Cemig GT** reflected in higher revenues. This is a non-controllable cost: in the distribution activity, the difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is

Table of Contents

compensated for in the next tariff adjustment. There is more information on this in Explanatory Note 22 to the Consolidated Quarterly Information.

Personnel

Personnel expenses totaled R\$ 281,967 in 1Q11, 4.27% less than in 1Q10 (R\$ 294,543). This result is largely due to the reduction of the number for employees from 2010 to 2011, as a result of the Company's Voluntary Retirement Program, the effect being partly offset by the average salary increase of 7% agreed in November 2010, in the negotiations for the annual Collective Work Agreement for 2010-11.

Charges for use of the transmission grid

The expense on charges for use of the transmission network in 1Q11 was R\$ 189,614, 1.44% more than in 1Q10 (R\$ 186,921).

These charges, set by an Aneel Resolution, are payable by electricity distribution and generation agents for use of the facilities that are components of the national grid. This is a non-controllable cost: in the distribution activity, the difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is compensated for in the next tariff adjustment.

Depreciation and amortization

Depreciation and amortization was 8.83% higher year-on-year: R\$ 232,797 in 1Q11, compared to R\$ 213,904 in 1Q10.

The increase effectively reflects the Company's increased investment program, mainly in the distribution business.

Table of Contents

Post-employment liabilities

Expenses on post-employment obligations totaled R\$ 30,888 in 1Q11, 10.69% more than in 1Q10 (R\$ 27,905). This expense represents the updating of the obligation, calculated in accordance with an actuarial opinion prepared by external consultants.

Operational provisions

Operational provisions totaled R\$ 41,068 in 1Q11, compared to R\$ 23,148 in 1Q10, an increase of 77.42%. The higher figure is mainly due to a reversal, in 1Q10, of the provision for civil lawsuits on the subject of tariff increases, due to finalization of the cases. Further information is given in Explanatory Note 22 to the Consolidated Quarterly Information.

Financial revenues (expenses)

The company posted net financial expenses of R\$ 282,819 for 1Q11, which compares with net financial expenses of R\$ 129,446 in 1Q10. The main factors affecting net financial revenues (expenses) were:

- Higher expense on costs of loans and financings: R\$ 302,699 in 1Q11, compared to R\$ 231,034 in 1Q10. The higher figure reflects entry of new financings, one of the most important being the issue

Table of Contents

of R\$ 600,000 by Cemig GT in May 2010; and also the higher aggregate CDI rate over 1Q11 than in 1Q10 the result of the increase in the Selic Rate by the Central Bank.

- Increase in the expense of monetary variation on Loans and financings in Brazilian currency: R\$ 50,964 in 1Q11, compared to R\$ 31,975 in 1Q10. This increase is due, substantially, to the higher volume of funds indexed to the IPCA in first quarter 2011 than in 1Q10, arising from financings obtained at the end of 1Q 2010.

For a breakdown of financial revenues and expenses, please see Explanatory Note 24 to the Consolidated Quarterly Information.

Income tax and Social Contribution tax

In 1Q11, Cemig posted expenses on income tax and Social Contribution tax of R\$ 250,492, which was 32.25% of the pre-tax profit of R\$ 776,643.

In 1Q10, Cemig posted expenses on income tax and Social Contribution tax of R\$ 300,806, representing 36.65% of the pre-tax profit of R\$ 820,872. These effective rates are reconciled with the nominal rates in Note 9 to the Consolidated Quarterly Information.

(MESSAGE FROM MANAGEMENT - CVM-DFP 31/12/10)

For Cemig, 2010 was a year of consolidation of several important advances that it has achieved in recent years, mainly related to the quest for operational efficiency and improvement of the indicators of quality of the service we give to the population of our local market, the Brazilian State of Minas Gerais.

A highlight is our Capital Investment Program scheduled for the period relating to the Company's second Tariff Review – the period from 2008 to 2013 – involving an amount of more than R\$ 3.2 billion, to be spent on expanding, and especially updating, refurbishing and perfecting our distribution networks.

As well as that amount, we continue to invest in the Light for Everyone Program. The next phases of the Program, for conclusion in 2011, will connect approximately 100,000 new consumers – which, when added to the consumers already connected under the program brings the number of new consumers served to 300,000. That means an estimated 1 million people in Minas Gerais State.

Adding together the investment in the Light for Everyone Program and the Company's other projects gives a total capital expenditure in 2010 of R\$ 448 million.

These investments we are making have already been reflected in Cemig D's quality and service indicators in 2010. We have succeeded in reducing the average duration of outages by 7.2%, and the average number of outages by more than 20% – which again means provision of better service for the people of Minas Gerais.

Our net profit in 2010 was R\$ 441mn. Adjustment for non-recurring items gives R\$ 568mn – 35.31% less than the profit for 2009 when adjusted for non-recurring items. It is important to point out that these results reflect the new accounting rules, in which all the Company's regulatory assets and liabilities are written off. Ebitda adjusted for non-recurring items was R\$ 1.370 billion, 23.51% lower than in 2009.

Operational efficiency is an unceasing quest for Cemig D. We have the challenge of reducing our costs in an environment of heated demand, with pressure on costs of services and contracted labor. We have implemented voluntary retirement plans in the last two years, which have enabled us to reduce personnel expenses. We now have the challenge of consolidating these gains through financial discipline, and we believe that in 2011 we can achieve better results than those of 2010.

We expect the Brazilian economy to continue to grow in 2011, with the continuing volume of investments in infrastructure – for which availability of electricity is a vital enabling factor. We believe Cemig has a significant role to play in this process, as an energy company that serves millions of residential consumers and a considerable part of the companies of the State of Minas Gerais.

We thank all our employees for their commitment and competence, and, especially, our controlling stockholder, the State of Minas Gerais; and their joint strength and effort, which continue to make Cemig the producer of Brazil's best energy .

Explanatory Notes

1. OPERATIONAL CONTEXT

(a) The Company

CEMIG DISTRIBUIÇÃO S.A. Cemig Distribuição S.A. (the Company , or Cemig D) is a corporation registered for listing in Brazil and a wholly-owned subsidiary of Companhia Energética de Minas Gerais Cemig (Cemig). It was created on September 8, 2004, as a result of the segregation (unbundling) of Cemig's activities, and started operations on January 1, 2005. Its shares are not traded on any exchange.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Cemig D has a concession area of 567,478km2, approximately 97.00% of the Brazilian State of Minas Gerais, serving 7,063,389 consumers, on December 31, 2010.

The Company is an entity domiciled in Brazil, with head office at Avenida Barbacena 1200, Belo Horizonte, Minas Gerais.

(b) The Electricity Sector in Brazil:

Brazil's electricity sector is regulated by the federal government through the Mining and Energy Ministry (MME), which has exclusive authority over the sector. The regulatory policy for the sector is implemented by the Brazilian electricity regulator, Aneel (Agência Nacional de Energia Elétrica).

Retail supply of electricity by the Company takes place in accordance with the clauses in its long-term electricity sale concession contracts. Under these concession contracts the Company is authorized to charge its consumers a rate for retail supply of energy that consists of two components: 1) a portion relating to the costs of generation, transmission and distribution that are non-controllable (Portion A Costs); and (2) a portion of operational costs (Portion B Costs). Both portions are set as part of the original concession for given initial periods. Subsequently to the initial periods, and at regular intervals, Aneel has the authority to review the Company's costs, to determine inflation adjustments (or other similar adjustment factors), if any, applicable to the Portion B Costs (the Scalar Adjustment) for the subsequent period.

This review may result in a positive, null or negative scalar adjustment.

Table of Contents

In addition to the adjustments relating to the Portion A and Portion B Costs mentioned above, concessions for retail supply of electricity have an annual tariff adjustment based on a series of factors, including inflation. Additionally, as a result of the regulatory changes made in December 2001, the Company may now apply for tariff adjustments resulting from significant events that destroy the economic-financial equilibrium of its business. It is also permitted for other normal or recurring events (such as increases in the cost of bought energy, taxes on revenue or even local inflation) to be absorbed through specific tariff increases. When the Company requests a tariff adjustment it is necessary to prove the financial impact resulting from these events on its operations. See Notes 2 and 4.

Continuing with the agenda, the Chair put to debate the remuneration of the Managers of the Company and the Members of the Company's Audit Board. Asking for the floor, the representative of the Stockholder The State of Minas Gerais asked the Chair to put the following proposal before the stockholders for consideration:

1 To allocate, taking into account that the Company currently has eleven Chief Officers, a Global Annual Amount for Remuneration of the Management and the Audit Board, comprising the Board of Directors, the Executive Board and the Audit Board, of up to R\$ 16,400,000.00 (sixteen million, four hundred thousand Reais), including health insurance for the Chief Officers, to be contracted at the same level of the Health Plan in force for the employees of the Company, the Chief Executive Officer to receive monthly fees of R\$ 35,000.00 (thirty five thousand Reais) and the other Directors, individually, the amount of R\$ 30,000.00 (thirty thousand Reais); the present amounts received by the Chief Officers as paid leave, bonuses and other benefits of any nature to be adjusted, consequently, in the same proportion.

2 To establish that the monthly remuneration of each one of the members of the Board of Directors excluding those sitting and substitute Members who exercise the position of Chief Officers, and subject to the condition relating to the payment of jeton mentioned in Item 3 below should be equivalent to 20% (twenty per cent) of that earned, on average, by a Chief Officer of the Company, i.e. R\$ 6,090.91 (six thousand and ninety Reais and ninety one centavos).

3 To establish that the sitting members of the Board of Directors should receive 50% (fifty per cent) of the monthly remuneration stipulated, the rest being divided into jetons paid to the sitting Member or to the substitute member who replaces that Member during meetings. In the event of there being more than one meeting in the month, the jeton will be divided proportionately over the number of meetings held, and received by the sitting Member or by the substitute Member who replaces that Member; in the event of there not being a meeting in the month, the sitting Member shall receive the total amount of the monthly remuneration; in the event of there being a meeting in the month and neither the sitting Member nor his or her substitute Member attending, the portion relating to the jeton shall not be payable, and the sitting Member shall receive the fixed portion.

4 To establish that sitting and substitute Members of the Board of Directors or the Audit Board who are resident in other municipalities than that of the head office of the Company shall be reimbursed expenses of travel and accommodation necessary for their attendance at the meetings or carrying out their functions, and that they shall also receive, as cost support, the equivalent of, approximately, 10% (ten per cent) of the total monthly remuneration of the Member, for each meeting they attend.

5 To establish that the compensation of the Executive Board and the remuneration of the Members of the Board of Directors and the Audit Board shall be paid on the same dates as the remuneration of the Company's employees.

6 To establish that the monthly remuneration of each Sitting Member of the Audit Board should be equivalent to 10% (ten per cent) of the average remuneration of a Chief Officer of the Company, i.e. R\$ 3,045.45 (three thousand forty five Reais and forty five centavos); and also that the monthly remuneration of each Substitute Member of the Audit Board be equivalent to 80% (eighty per cent) of the monthly remuneration of the Sitting Member, i.e. R\$ 2,436.36 (two thousand four hundred and thirty six Reais and thirty six centavos), in both cases excluding the benefits normally applicable under the Law.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

7 To establish remuneration equivalent to that referred to in Item 2 above, for the substitute Members of the Board of Directors who sit on the Board of Directors Support Committee excluding those Members who exercise the position of Chief Officers and obeying the criteria mentioned in Item 3 above.

8 To establish that Substitute Members of the Board of Directors who take part in the Board of Directors Support Committee excluding those board members who hold positions of Chief

Officer should receive only the remuneration relating to Item 7 above, even if they replace Sitting Members in meetings.

9 To establish that Sitting Members of the Board of Directors who take part in the Board of Directors Support Committee excluding those board members who hold positions of Chief Officer should receive only the remuneration relating to Item 3 above. The proposal by the representative of the stockholder The State of Minas Gerais was placed in debate and, subsequently, put to the vote, and was approved, with Caixa de Previdência dos Funcionários do Banco do Brasil Previ voting against the proposal, since it believed there was inconsistency between the information given in items 13.2 and 13.16 of the Reference Form filed with the Brazilian Securities Commission (*Comissão de Valores Mobiliários*) in relation to these General Meetings of Stockholders, and with the following Funds abstaining: BB Top Ações Dividendos FI, BB Top Ações Índice de Sustentabilidade Empresarial FI, BB RPPS Ações Governança Previdenciário FI, BB Top Multimercado Balanceado FI Longo Prazo, BB Brasil Ações Dividendos FI and Brasilprev Top Ações Dividendos FI. The Chair pointed out that the Chief Officers had, thus, received an increase in their remuneration of 29.6%, and the CEO an increase of 25.44%, noting that the CEO had previously stated himself to be in agreement with the differentiation in the increase, in compliance with the majority stockholder's policy of reduction of costs.

The Chair then stated that the publications by Cemig specified in Law 6404 of December 15, 1976, as amended, will be made not only in the newspaper *Minas Gerais*, the official publication of the Powers of the State, but also in *O Tempo*, without prejudice to possible publication in other newspapers.

The meeting being opened to the floor, the stockholder Rubens Antonio França took the floor and offered his congratulations to the present Executive Board.

However, continuing, he recommended that for the next elections, the same criteria for choice should be used, thus avoiding the occurrence of isolated events such as those published in the media about a former Chief Officer and a former General Manager. The meeting still being open to the floor, the representative of the stockholder The State of Minas Gerais took the floor and once again congratulated the Executive Board, the members of the Board of Directors and the Audit Board, and the employees, for the Company's performance and the excellent work that done by all of them. In conclusion, he thanked and congratulated the Corporate Executive Office team.

The meeting remaining open to the floor, and since no-one else wished to speak, the Chair ordered the session suspended for the time necessary for the writing of the minutes. The session being reopened, the Chair, after putting the said minutes to debate and to the vote and verifying that they had been approved and signed, closed the meeting.

For the record, I, Anamaria Pugedo Frade Barros, Secretary, wrote these minutes and sign them together with all those present.
