NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

1. Management's Interim Financial Statement Representation:

The accompanying consolidated condensed financial statements have been prepared by Winmark Corporation and subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The Company has a 52/53 week year which ends on the last Saturday in December. The information in the consolidated condensed financial statements includes normal recurring adjustments and reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of such financial statements. The consolidated condensed financial statements and notes are presented in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions for Form 10-Q, and therefore do not contain certain information included in the Company's annual consolidated financial statements and notes. This report should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

Revenues and operating results for the six months ended June 25, 2011 are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain reclassifications of previously reported amounts have been made to conform to the current year presentation. Such reclassifications did not impact net income or shareholders' equity as previously reported.

2. Organization and Business:

The Company offers licenses to operate franchises using the service marks Plato's Closet®, Play It Again Sports®, Once Upon A Child® and Music Go Round®. The Company also operates both middle market and small-ticket equipment leasing businesses under the Winmark Capital® and Wirth Business Credit® marks.

3. Fair Value Measurements

The Company defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company uses three levels of inputs to measure fair value:

Edgar Filing: WINMARK CORP - Form 10-Q

- Level 1 quoted prices in active markets for identical assets and liabilities.
- Level 2 observable inputs other than quoted prices in active markets for identical assets and liabilities.
- Level 3 unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

The Company's marketable securities were valued based on Level 1 inputs using quoted prices. The Company's investment in BridgeFunds notes was valued based on Level 3 inputs (see Note 4).

Due to their nature, the carrying value of cash equivalents, receivables, payables and debt obligations approximates fair value.

Table of Contents**4. Investments:***Marketable Securities*

The following is a summary of marketable securities classified as available-for-sale securities:

	June 25, 2011		December 25, 2010	
	Cost	Fair Value	Cost	Fair Value
Equity securities	\$ 8,400	\$ 7,400	\$ 161,000	\$ 161,000

The Company's unrealized losses for marketable securities classified as available-for-sale securities in accumulated other comprehensive loss are as follows:

	June 25, 2011	December 25, 2010
Unrealized gains	\$	\$
Unrealized losses		(1,000)
Net unrealized losses	\$	(1,000)

The Company's realized gains recognized on sales of available-for-sale marketable securities are as follows:

	Three Months Ended		Six Months Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010

Realized losses				
Net realized gains/(losses)	\$	\$ 2,100	\$	\$ 75,800

Amounts reclassified out of accumulated other comprehensive loss into earnings is determined by using the average cost of the security when sold.

Other Long-Term Investments

The Company has an investment in Tomsten, Inc. (Tomsten), the parent company of Archiver's retail chain. Archiver's is a retail concept created to help people preserve and enjoy their photographs. The Company has invested a total of \$8.5 million in the purchase of common stock of Tomsten (including \$1.0 million invested in June 2011 pursuant to a Rights Offering by Tomsten). The Company's investment currently represents 22.0% of the outstanding common stock of Tomsten (which represents an increase from 18.3% prior to the Company's participation in the Rights Offering in June 2011.) As of June 25, 2011, \$0.3 million of the Company's investment, with a current carrying amount of \$2.8

Edgar Filing: WINMARK CORP - Form 10-Q

million, is attributable to goodwill. The amount of goodwill was determined by calculating the difference between the Company's net investment in Tomsten less its pro rata share of Tomsten's net worth. The Company also provides management services to Tomsten.

The Company has a \$2.0 million investment in senior subordinated promissory notes with warrants in BridgeFunds Limited (BridgeFunds). BridgeFunds advances funds to claimants involved in civil litigation to cover litigation expenses. Monthly prepayment of the principal of such notes in an amount equal to Available Cash Flow (as defined within the agreements governing the notes) is required. In July 2011, the Company entered into an amendment to the agreement governing the notes whereby the maturity date of all of the outstanding notes was changed to June 30, 2012. During the six months ended June 25, 2011, the Company received \$28,200 in payments of interest and did not receive any payments of principal on the notes. The Company stopped accruing interest on this investment as of September 30, 2010. In evaluating this investment for impairment during the second quarter of 2011, the Company determined that its present value of expected future cash flows, discounted at the effective interest rate on the notes of 15%, is less than the recorded investment in the notes. In developing its estimate of expected future cash flows, the Company used certain information obtained from BridgeFunds concerning existing liabilities, claimant cases outstanding and historic default rates on claimant advances, and made certain

Table of Contents

assumptions regarding the timing of case settlements, the payment of future liabilities and future default rates. The Company recognized a \$252,900 impairment charge and established a corresponding valuation allowance in the second quarter of 2011. As of June 25, 2011, the \$1.75 million net investment balance is classified as long-term based on expected payments from Available Cash Flow, and \$0.2 million of related interest receivable is included in current receivables.

5. Investment in Leasing Operations:

Investment in leasing operations consists of the following:

	June 25, 2011	December 25, 2010
Direct financing and sales-type leases:		
Minimum lease payments receivable	\$ 26,420,800	\$ 30,244,700

Net investment in direct financing and sales-type leases	29,244,400	30,622,200
Operating leases:		
Operating lease assets	934,100	520,200
Less accumulated depreciation and amortization	(235,600)	(483,200)
Net investment in operating leases	698,500	37,000
Total net investment in leasing operations	\$ 29,942,900	\$ 30,659,200

As of June 25, 2011, the \$29.9 million total net investment in leases consists of \$12.2 million classified as current and \$17.7 million classified as long-term. As of December 25, 2010, the \$30.7 million total net investment in leases consists of \$13.9 million classified as current and \$16.8 million classified as long-term.

As of June 25, 2011, leased assets with one customer approximated 15% of the Company's total assets.

Future minimum lease payments receivable under lease contracts and the amortization of unearned lease income, net of initial direct costs deferred, is as follows for the remainder of fiscal 2011 and the full fiscal years thereafter as of June 25, 2011:

	Direct Financing and Sales-Type Leases:		Operating Leases:	
	Minimum Lease	Income	Minimum Lease	
	Payments Receivable	Amortization	Payments Receivable	
2011	\$ 8,676,700	\$ 1,573,400	\$ 741,200

Table of Contents

The activity in the allowance for credit losses for leasing operations during the first six months of 2011 and 2010, respectively, is as follows:

	June 25, 2011		June 26, 2010	
Balance at beginning of period	\$	907,800	\$	1,339,400
Provisions charged to expense		21,300		11,900
Recoveries		178,700		285,500
Deductions for amounts written-off		(262,300)		(490,400)
Balance at end of period	\$	845,500	\$	1,146,400

The Company's investment in direct financing and sales-type leases (investment in leases) and allowance for credit losses by loss evaluation methodology are as follows:

	June 25, 2011		December 25, 2010	
	Investment In Leases	Allowance for Credit Losses	Investment In Leases	Allowance for Credit Losses
Collectively evaluated for loss potential	\$ 30,089,900	\$ 845,500	\$ 31,530,000	\$ 907,800
Individually evaluated for loss potential				
Total	\$ 30,089,900	\$ 845,500	\$ 31,530,000	\$ 907,800

The Company's key credit quality indicator for its investment in direct financing and sales-type leases is the status of the lease, defined as accruing or non-accruing. Leases that are accruing income are considered to have a lower risk of loss. Non-accrual leases are those that the Company believes have a higher risk of loss. The following table sets forth information regarding the Company's accruing and non-accrual leases. Delinquent balances are determined based on the contractual terms of the lease.

	June 25, 2011		Non-Accrual		Total
	0-60 Days Delinquent and Accruing	61-90 Days Delinquent and Accruing	Over 90 Days Delinquent and Accruing

Small-Ticket	7,832,200	138,800		84,600	8,055,600
Total Investment in Leases	\$ 31,306,600	\$ 138,800	\$	\$ 84,600	\$ 31,530,000

6. Accounting for Stock-Based Compensation:

Edgar Filing: WINMARK CORP - Form 10-Q

The Company recognizes the cost of all share-based payments to employees, including grants of employee stock options, in the consolidated financial statements based on the grant date fair value of those awards. This cost is recognized over the period for which an employee is required to provide service in exchange for the award. Compensation expense of \$351,100 and \$343,200 relating to the vested portion of the fair value of stock options granted was expensed to Selling, General and Administrative Expenses in the first six months of 2011 and 2010, respectively.

Table of Contents

The Company estimates the fair value of options granted using the Black-Scholes option valuation model. The Company estimates the volatility of its common stock at the date of grant based on its historical volatility rate over the expected term. The Company's decision to use historical volatility was based upon the lack of actively traded options on its common stock. The Company estimates the expected term based upon historical option exercises. The risk-free interest rate assumption is based on observed interest rates for the expected term. The Company uses historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. For options granted, the Company amortizes the fair value on a straight-line basis. All options are amortized over the vesting periods.

The fair value of each option granted in 2011 and 2010 was estimated on the date of the grant using the Black-Scholes option pricing model with the following assumptions:

Year Granted	Option Fair Value	Risk Free Interest Rate	Expected Life (Years)	Expected Volatility	Dividend Yield
2011	\$11.28	1.94%	6	28.0%	.32%

7. New Accounting Pronouncements:

In July 2010, the Financial Accounting Standards Board (FASB) issued new accounting guidance that requires new disclosures about an entity's allowance for credit losses and the credit quality of its financing receivables. Existing disclosures are amended to require an entity to provide certain disclosures on a disaggregated basis by portfolio segment or by class of financing receivables. The new and amended disclosures that relate to information as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. The disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The Company adopted the new and amended disclosures that relate to information as of the end of a reporting period in its annual report on Form 10-K for the fiscal year ending December 25, 2010 and adopted the new and amended disclosures that relate to information for activity that occurs during a reporting period in its quarterly report on Form 10-Q for the fiscal period ending March 26, 2011. See Note 5 for disclosures related to this adoption. The adoption of these disclosure requirements has not had an impact on the consolidated results of the Company.

In June 2011, the FASB amended its accounting guidance on the presentation of other comprehensive income (OCI) in an entity's financial statements. The amended guidance eliminates the option to present the components of OCI as part of the statement of changes in shareholders equity and provides two options for presenting OCI: in a statement included in the income statement or in a separate statement immediately following the income statement. The amendments do not change the guidance for the items that have to be reported in OCI or when an item of OCI has to be moved into net income. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Adoption of this guidance will not have an impact on the consolidated results of the Company.

8. Earnings Per Share:

The Company calculates earnings per share by dividing net income by the weighted average number of shares of common stock outstanding to arrive at the Earnings Per Share - Basic. The Company calculates Earnings Per Share - Diluted by dividing net income by the weighted average number of shares of common stock and dilutive stock equivalents from the exercise of stock options using the treasury stock method.

Table of Contents

The dilutive effect of stock options equivalent to 258,599 shares and 163,981 shares for the three months and 242,248 shares and 115,975 shares for the six months ended June 25, 2011 and June 26, 2010, respectively, were used in the calculation of Earnings Per Share - Diluted. Options totaling 11,459 and 18,752 shares for the three months and 20,006 shares and 35,381 shares for the six months ended June 25, 2011 and June 26, 2010, respectively, were outstanding but were not included in the calculation of Earnings Per Share - Diluted because their exercise prices were greater than the average market price of the common shares and, therefore, including the options in the denominator would be anti-dilutive.

9. Shareholders Equity:*Repurchase of Common Stock*

In the first six months of 2011, the Company repurchased 94,099 shares for an aggregate purchase price of \$3,313,500 or \$35.21 per share. These repurchase transactions reduced the dollar amount of common stock on the balance sheet to zero, with the remainder recorded to retained earnings. Since inception of stock repurchase activities in November 1995 through June 25, 2011, the Company has repurchased 4,498,733 shares of its stock at an average price of \$15.12 per share. Under the board of directors' authorization, as of June 25, 2011, the Company has the ability to repurchase an additional 501,267 shares of its common stock. Repurchases may be made from time to time at prevailing prices, subject to certain restrictions on volume, pricing and timing.

Stock Option Plans

The Company had authorized up to 750,000 shares of common stock to be reserved for granting either nonqualified or incentive stock options to officers and key employees under the Company's 2001 Stock Option Plan (the 2001 Plan). The 2001 Plan expired on February 20, 2011. The Company has authorized up to 250,000 shares of common stock to be reserved for granting either nonqualified or incentive stock option to officers and key employees under the Company's 2010 Stock Option Plan (the 2010 Plan).

The Company also sponsors a Stock Option Plan for Nonemployee Directors (the Nonemployee Directors Plan) and has reserved a total of 300,000 shares for issuance to directors of the Company who are not employees.

Stock option activity under the 2001 Plan, 2010 Plan and Nonemployee Directors Plan as of June 25, 2011 was as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Intrinsic Value
Outstanding at December 25, 2010	644,220	\$ 20.45	6.82	\$ 7,571,000

------------------------------	---------	----	-------	------	----	-----------

All unexercised options at June 25, 2011 have an exercise price equal to the fair market value on the date of the grant.

Table of Contents

As of June 25, 2011, the Company had \$1,766,900 of total unrecognized compensation expense related to stock options that is expected to be recognized over the remaining weighted average period of approximately 2.1 years.

10. Long-term Debt:

As of June 25, 2011, there were no borrowings outstanding under the Company's Line of Credit with the PrivateBank and Trust Company and Harris, N.A.

The Line of Credit, which provides for an aggregate commitment of \$30.0 million subject to certain borrowing base limitations, was used to complete the redemption of the Renewal Unsecured Subordinated Notes (as indicated below) and has been and will continue to be used for general corporate purposes. The Line of Credit is secured by a lien against substantially all of the Company's assets, contains customary financial conditions and covenants, and requires maintenance of minimum levels of debt service coverage and tangible net worth and maximum levels of leverage (all as defined within the Line of Credit). As of June 25, 2011, the Company was in compliance with all of its financial covenants.

Renewable Unsecured Subordinated Notes

In 2006, the Company filed a public offering of up to \$50 million of Renewable Unsecured Subordinated Notes that was declared effective in June of that year. Every year since the registration became effective, we have filed Post-Effective Amendments to keep the registration statement effective. On July 30, 2010, the Company redeemed all of its outstanding Renewable Unsecured Subordinated Notes and subsequently deregistered all securities pursuant to the registration. The redemption price equaled 100% of the principal amount, plus accrued and unpaid interest up to the redemption date. The Company borrowed \$16.0 million on its Line of Credit to finance the redemption.

The Company made interest payments of \$965,900 on the renewable unsecured subordinated notes during the first six months of 2010.

11. Discounted Lease Rentals

The Company utilized certain lease receivables and underlying equipment as collateral to borrow from financial institutions at a weighted average rate of 5.57% at June 25, 2011 on a non-recourse basis. In the event of a default by a customer in non-recourse financing, the financial institution has a first lien on the underlying leased equipment, with no further recourse against the Company.

12. Segment Reporting:

Edgar Filing: WINMARK CORP - Form 10-Q

The Company currently has two reportable business segments, franchising and leasing. The franchising segment franchises value-oriented retail store concepts that buy, sell, trade and consign merchandise. The leasing segment includes (i) Winmark Capital Corporation, a middle-market equipment leasing business and (ii) Wirth Business Credit, Inc., a small ticket financing business. Segment reporting is intended to give financial statement users a better view of how the Company manages and evaluates its businesses. The Company's internal management reporting is the basis for the information disclosed for its business segments and includes allocation of shared-service costs. Segment assets are those that are directly used in or identified with segment operations, including cash, accounts receivable, prepaids, inventory, property and equipment and investment in leasing operations. Unallocated assets include corporate cash and cash equivalents, marketable securities, current and long-term investments, deferred tax amounts and other corporate assets. Inter-segment balances and transactions have been eliminated.

ITEM 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview**

As of June 25, 2011, we had 908 franchises operating under the Plato's Closet, Play It Again Sports, Once Upon A Child and Music Go Round brands and had a leasing portfolio of \$29.9 million. Management closely tracks the following financial criteria to evaluate current business operations and future prospects: royalties, leasing activity, and selling, general and administrative expenses.

Our most profitable source of franchising revenue is royalties received from our franchise partners. During the first six months of 2011, our royalties increased \$1,140,300 or 9.0% compared to the first six months of 2010.

During the first six months of 2011, we purchased \$10.9 million in equipment for lease customers compared to \$8.5 million in the first six months of 2010. Overall, our leasing portfolio (net investment in leases – current and long-term) decreased to \$29.9 million at June 25, 2011 from \$30.7 million at December 25, 2010. Leasing income net of leasing expense during the first six months of 2011 was \$6.4 million compared to \$3.9 million in the same period last year. Fluctuations in period-to-period leasing income and leasing expense result primarily from

Edgar Filing: WINMARK CORP - Form 10-Q

the manner and timing in which leasing income and leasing expense is recognized over the term of each particular lease in accordance with accounting guidance applicable to leasing. For this reason, we believe that more meaningful levels of leasing activity are the purchases of equipment for lease customers and the medium- to long-term trend in the size of the leasing portfolio. Our earnings are also impacted by credit losses. During the first six months of 2011, our provision for credit losses increased to \$21,300 from \$11,900 in the first six months of 2010.

Table of Contents

Management continually monitors the level and timing of selling, general and administrative expenses. The major components of selling, general and administrative expenses include salaries, wages and benefits, advertising, travel, occupancy, legal and professional fees. During the first six months of 2011, selling, general and administrative expense increased \$143,200, or 1.5%, compared to the first six months of 2010.

Management also monitors several nonfinancial factors in evaluating the current business operations and future prospects including franchise openings and closings and franchise renewals. The following is a summary of our franchising activity for the first six months ended June 25, 2011:

	TOTAL 12/25/10	OPENED	CLOSED	TOTAL 6/25/11	SIX MONTHS ENDING 6/25/11 AVAILABLE FOR RENEWAL	COMPLETED RENEWALS
<u>Play It Again Sports</u>

Total Franchises/Territories	918	12	(22)	908	42	42

(1) During the first quarter of 2011, the franchise agreements for the 15 Wirth Business Credit territories were terminated for various reasons.

Renewal activity is a key focus area for management. Our franchisees sign 10-year agreements with us. The renewal of existing franchise agreements as they approach their expiration is an indicator that management monitors to determine the health of our business and the preservation of future royalties. During the first six months of 2011, we renewed 42 of the 42 franchise agreements available for renewal.

Our ability to grow our profits is dependent on our ability to: (i) effectively support our franchise partners so that they produce higher revenues, (ii) open new franchises, (iii) increase lease originations and minimize write-offs in our leasing portfolios, and (iv) control our selling, general and administrative expenses.

Comparison of Three Months Ended June 25, 2011 to Three Months Ended June 26, 2010**Revenue**

Revenues for the quarter ended June 25, 2011 totaled \$15.2 million compared to \$9.9 million for the comparable period in 2010.

Royalties and Franchise Fees

Royalties increased to \$6.8 million for the second quarter of 2011 from \$6.4 million for the second quarter of 2010, a 7.1% increase. The increase was due to higher Plato's Closet and Once Upon A Child royalties of \$427,400 and \$157,400, respectively, partially offset by lower Play It Again Sports royalties of \$133,300. The increase in royalties for Plato's Closet and Once Upon A Child is primarily due to higher franchisee retail sales in these brands as well as having 28 additional Plato's Closet franchises in the second quarter of 2011 compared to the same period last year.

Franchise fees decreased to \$245,000 for the second quarter of 2011 compared to \$305,000 for the second quarter of 2010, primarily as a result of opening five fewer franchises in the 2011 period compared to the same period in 2010.

Table of Contents

Leasing Income

Leasing income increased to \$7.0 million for the second quarter of 2011 compared to \$2.3 million for the same period in 2010. The increase is due to a higher level of equipment sales to customers.

Merchandise Sales

Merchandise sales include the sale of product to franchisees either through the Play It Again Sports buying group, or through our Computer Support Center (together, Direct Franchisee Sales). Direct Franchisee Sales increased 51.3% to \$833,000 for the second quarter 2011 from \$550,500 in the same period of 2010. The increase is primarily due to an increase in technology purchases by our franchisees.

Cost of Merchandise Sold

Cost of merchandise sold includes in-bound freight and the cost of merchandise associated with Direct Franchisee Sales. Cost of merchandise sold increased 52.7% to \$794,200 for the second quarter of 2011 from \$520,200 in the same period of 2010. The increase was primarily due to an increase in Direct Franchisee Sales discussed above. Cost of merchandise sold as a percentage of Direct Franchisee Sales for the second quarter of 2011 and 2010 was 95.3% and 94.5%, respectively.

Leasing Expense

Leasing expense increased to \$3,340,200 for the second quarter of 2011 compared to \$439,300 for the second quarter of 2010. The increase is due to an increase in the associated cost of equipment sales to customers discussed above.

Provision for Credit Losses

Provision for credit losses was \$(24,100) for the second quarter of 2011 compared to \$(160,200) for the second quarter of 2010. Provision levels for the periods presented were impacted by net recoveries as well as a lower level of delinquencies, primarily in the small-ticket financing business portion of our leasing segment. During the second quarter of 2011, we had total net recoveries of \$9,100 compared to total net recoveries of \$90,500 in the second quarter of 2010.

Selling, General and Administrative

Selling, general and administrative expenses increased 3.1% to \$5,030,400 in the second quarter of 2011 from \$4,877,200 in the same period of 2010. The increase was primarily due to an increase in sales-related compensation expense.

Loss from Equity Investments

During the second quarter of 2011 and 2010, we recorded losses of \$(142,900) and \$(102,000), respectively, from our investment in Tomsten (representing our pro-rata share of losses for the periods).

Impairment of Investment in Notes

During the second quarter of 2011, we recorded a \$252,900 impairment charge for our investment in BridgeFunds notes. (See Note 4 Investments).

Table of Contents

Interest Expense

Interest expense decreased to \$26,900 for the second quarter of 2011 compared to \$273,100 for the second quarter of 2010. The decrease is due to lower corporate borrowings.

Interest and Other Income

During the second quarter of 2011, we had interest and other income of \$13,900 compared to \$103,000 of interest and other income in the second quarter of 2010. Interest and other income during the second quarter of 2010 included interest accrued on the Company's investment in BridgeFunds and realized gains on sales of marketable securities that did not recur during the second quarter of 2011. (See Note 4 Investments).

Income Taxes

The provision for income taxes was calculated at an effective rate of 40.1% and 40.5% for the first six months of 2011 and 2010, respectively. The lower effective rate in the second quarter of 2011 compared to 2010 is primarily due to tax benefits from stock option exercises.

Comparison of Six Months Ended June 25, 2011 to Six Months Ended June 26, 2010

Revenue

Revenues for the first six months of 2011 totaled \$26.3 million compared to \$19.7 million for the comparable period in 2010.

Royalties and Franchise Fees

Royalties increased to \$13.9 million for the first six months of 2011 from \$12.7 million for the first six months of 2010, a 9.0% increase. The increase was due to higher Plato's Closet and Once Upon A Child royalties of \$855,000 and \$318,400, respectively. The increase in royalties for these brands is primarily due to higher franchisee retail sales in these brands as well as having 28 additional Plato's Closet franchises in the first six months of 2011 compared to the same period last year.

Edgar Filing: WINMARK CORP - Form 10-Q

Franchise fees decreased to \$320,000 for the first six months of 2011 compared to \$528,500 for the first six months of 2010, primarily as a result of opening 12 fewer franchises in the 2011 period compared to the same period in 2010.

Leasing Income

Leasing income increased to \$10,215,200 for the first six months of 2011 compared to \$4,870,700 in the same period in 2010. The increase is due to a higher level of equipment sales to customers.

Merchandise Sales

Merchandise sales include the sale of product to franchisees either through the Play It Again Sports buying group, or through our Computer Support Center (together, Direct Franchisee Sales). Direct Franchisee Sales increased 27.7% to \$1,334,400 for the first six months of 2011 from \$1,045,200 for the same period last year. The increase is primarily due to an increase in technology purchases by our franchisees.

Table of Contents

Cost of Merchandise Sold

Cost of merchandise sold includes in-bound freight and the cost of merchandise associated with Direct Franchisee Sales. Cost of merchandise sold increased 28.8 % to \$1,277,100 for the first six months of 2011 from \$991,200 for the same period last year. The increase was primarily due to an increase in Direct Franchisee Sales discussed above. Cost of merchandise sold as a percentage of Direct Franchisee Sales for the first six months of 2011 and 2010 was 95.7% and 94.8%, respectively.

Leasing Expense

Leasing expense increased to \$3,858,900 for the first six months of 2011 compared to \$986,600 for the first six months of 2010. The increase is primarily due to an increase in the associated cost of equipment sales to customers discussed above.

Provision for Credit Losses

Provision for credit losses was \$21,300 for the first six months of 2011 compared to \$11,900 for the first six months of 2010. Provision levels for the periods presented were impacted by net write-offs as well as a lower level of delinquencies, primarily in the small-ticket financing business portion of our leasing segment. During the first six months of 2011, we had total net write-offs of \$83,600 compared to \$204,900 in the first six months of 2010.

Selling, General and Administrative

Selling, general and administrative expenses increased 1.5% to \$9,876,300 in the first six months of 2011 from \$9,733,100 in 2010. The increase is primarily due to an increase in sales-related compensation expense.

Loss from Equity Investments

During the first six months of 2011 and 2010, we recorded losses of \$(219,900) and \$(122,200), respectively, from our investment in Tomsten (representing our pro-rata share of losses for the periods).

Impairment of Investment in Notes

Edgar Filing: WINMARK CORP - Form 10-Q

During the second quarter of 2011, we recorded a \$252,900 impairment charge for our investment in BridgeFunds notes. (See Note 4 Investments).

Interest Expense

Interest expense decreased to \$58,000 for the first six months of 2011 compared to \$561,300 for the first six months of 2010. The decrease is due to lower corporate borrowings.

Interest and Other Income

During the first six months of 2011, we had interest and other income of \$31,100 compared to \$280,700 of interest and other income in the first six months of 2010. Interest and other income during the first six months of 2010 included interest accrued on the Company's investment in BridgeFunds and realized gains on sales of marketable securities that did not recur during the first six months of 2011. (See Note 4 Investments).

Table of Contents

Income Taxes

The provision for income taxes was calculated at an effective rate of 40.5% and 40.5% for the first six months of 2011 and 2010, respectively.

Segment Comparison of Three Months Ended June 25, 2011 to Three Months Ended June 26, 2010

Franchising segment operating income

The franchising segment's operating income for the second quarter of 2011 increased by \$310,300, or 9.1%, to \$3.7 million from \$3.4 million for the second quarter of 2010. The increase in segment contribution was primarily due to increased royalty revenue.

Leasing segment operating income

The leasing segment's operating income for the second quarter of 2011 increased to \$2,371,800 from \$800,600 for the second quarter of 2010. The increase in segment contribution was primarily due to an increase in leasing income net of leasing expenses.

Segment Comparison of Six Months Ended June 25, 2011 to Six Months Ended June 26, 2010

Franchising segment operating income

The franchising segment's operating income for the first six months of 2011 increased by \$676,100, or 10.0%, to \$7.5 million from \$6.8 million for the first six months of 2010. The increase in segment contribution was primarily due to increased royalty revenue.

Leasing segment operating income

The leasing segment's operating income for the first six months of 2011 increased to \$3.8 million from \$1.2 million during the first six months of 2010. The increase in segment contribution was primarily due to an increase in leasing income net of leasing expense.

Liquidity and Capital Resources

Our primary sources of liquidity have historically been cash flow from operations and borrowings. The components of the consolidated statement of operations that affect our liquidity include non-cash items for depreciation, compensation expense related to stock options and loss from equity investments. The most significant component of the consolidated balance sheet that affects liquidity is investments. Investments include \$4.5 million of illiquid investments in two private companies: Tomsten, Inc. and BridgeFunds, LLC (see Note 4 Investments).

We ended the second quarter of 2011 with \$1.0 million in cash and cash equivalents and a current ratio (current assets divided by current liabilities) of 1.6 to 1.0 compared to \$10.6 million in cash and cash equivalents and a current ratio of 1.5 to 1.0 at the end of the second quarter of 2010.

Operating activities provided \$11.3 million of cash during the first six months of 2011 compared to \$6.6 million during the same period last year. Cash provided by operating assets and liabilities include an increase in income taxes payable of \$1.7 million, primarily due to tax depreciation on lease equipment purchases. Accounts payable provided cash of \$0.8 million, primarily due to an increase in amounts owed for lease equipment purchases.

Table of Contents

Investing activities used \$1.0 million of cash during the first six months of 2011 compared to \$2.3 million provided during the same period of 2010. The 2011 activities consisted primarily of the purchase of equipment for lease customers of \$10.9 million, collections on lease receivables of \$10.9 million and an additional \$1.0 million investment in Tomsten.

Financing activities used \$11.5 million of cash during the first six months of 2011 compared to \$7.8 million used during the same period of 2010. The 2011 activities consisted primarily of net proceeds and tax benefits from exercises of stock options of \$0.9 million, net payments on our line of credit of \$8.8 million, \$3.3 million used to purchase 94,099 shares of our common stock and \$0.2 million for the payment of dividends.

As of June 25, 2011, we had no off balance sheet arrangements.

As of June 25, 2011, our borrowing availability under our credit agreement with The PrivateBank and Trust Company and Harris, N.A. (the Line of Credit) was \$30.0 million (the lesser of the borrowing base or the aggregate line of credit). There were no borrowings outstanding at June 25, 2011 under the Line of Credit, leaving the entire Line of Credit available for additional borrowings.

The Line of Credit has been and will continue to be used for general corporate purposes. The Line of Credit is secured by a lien against substantially all of our assets, contains customary financial conditions and covenants, and requires maintenance of minimum levels of debt service coverage and tangible net worth and maximum levels of leverage (all as defined within the Line of Credit). As of June 25, 2011, we were in compliance with all of our financial covenants.

We may utilize discounted lease financing to provide funds for a portion of our leasing activities. Rates for discounted lease financing reflect prevailing market interest rates and the credit standing of the lessees for which the payment stream of the leases are discounted. We believe that discounted lease financing will continue to be available to us at competitive rates of interest through the relationships we have established with financial institutions.

We believe that the combination of our cash on hand, the cash generated from our franchising business, cash generated from discounting sources and our Line of Credit will be adequate to fund our planned operations through 2012.

Critical Accounting Policies

The Company prepares the consolidated financial statements of Winmark Corporation and Subsidiaries in conformity with accounting principles generally accepted in the United States of America. As such, the Company is required to make certain estimates, judgments and assumptions that it believes are reasonable based on information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. There can be no assurance that actual results will not differ from these estimates. The critical accounting policies that the Company believes are most important to aid in fully understanding and evaluating the reported financial results include the following:

Table of Contents

Revenue Recognition Royalty Revenue and Franchise Fees

The Company collects royalties from each retail franchise based on a percentage of retail store gross sales. The Company recognizes royalties as revenue when earned. At the end of each accounting period, estimates of royalty amounts due are made based on applying historical weekly sales information to the number of weeks of unreported franchisee sales. If there are significant changes in the actual performance of franchisees versus the Company's estimates, its royalty revenue would be impacted. During the first six months of 2011, the Company collected \$60,200 more than it estimated at December 25, 2010. As of June 25, 2011, the Company's royalty receivable was \$1,090,300.

The Company collects initial franchise fees when franchise agreements are signed and recognizes the initial franchise fees as revenue when the franchise is opened, which is when the Company has performed substantially all initial services required by the franchise agreement. Franchise fees collected from franchisees but not yet recognized as income are recorded as deferred revenue in the liability section of the consolidated balance sheet. As of June 25, 2011, deferred franchise fees were \$1,132,200.

Leasing Income Recognition

Leasing income for direct financing leases is recognized under the effective interest method. The effective interest method of income recognition applies a constant rate of interest equal to the internal rate of return on the lease. Generally, when a lease is more than 90 days delinquent (where more than three monthly payments are owed), the lease is classified as being on non-accrual and the Company stops recognizing leasing income on that date. Payments received on leases in non-accrual status generally reduce the lease receivable. Leases on non-accrual status remain classified as such until there is sustained payment performance that, in the Company's judgment, would indicate that all contractual amounts will be collected in full.

In certain circumstances, the Company may re-lease equipment in its existing portfolio. This may give rise to dealer profit and require the Company to account for the lease as a sales-type lease. At inception of a sales-type lease, revenue is recorded that consists of the present value of the future minimum lease payments discounted at the rate implicit in the lease. In subsequent periods, the recording of income is consistent with the accounting for a direct financing lease.

For leases that are accounted for as operating leases, income is recognized on a straight-line basis when payments under the lease contract are due.

Allowances for Credit Losses

The Company maintains an allowance for credit losses at an amount that it believes to be sufficient to absorb losses inherent in its existing lease portfolio as of the reporting dates. Leases are collectively evaluated for potential loss. The Company's methodology for determining the allowance for credit losses includes consideration of the level of delinquencies and non-accrual leases, historical net charge-off amounts and review of any significant concentrations.

A provision is charged against earnings to maintain the allowance for credit losses at the appropriate level. If the actual results are different from the Company's estimates, results could be different. The Company's policy is to charge-off against the allowance the estimated unrecoverable portion of accounts once they reach 121 days delinquent. (See Note 5 for disclosures related to the Company's allowance for credit losses).

Table of Contents

Stock-Based Compensation

The Company currently uses the Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of the awards on the date of grant using an option-pricing model is affected by stock price as well as assumptions regarding a number of complex and subjective variables. These variables include implied volatility over the term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends.

The Company evaluates the assumptions used to value awards on an annual basis. If factors change and the Company employs different assumptions for estimating stock-based compensation expense in future periods or if the Company decides to use a different valuation model, the future periods may differ significantly from what it has recorded in the current period and could materially affect operating income, net income and earnings per share.

Impairment of Long-term Investments

The Company evaluates its long-term investments for impairment on an annual basis or whenever events or changes in circumstances indicate the carrying amount may not be recoverable. The impairment, if any, is measured by the difference between the assets' carrying amount and their fair value (as prescribed by applicable accounting guidance), based on the best information available, including market prices, discounted cash flow analysis or other financial metrics that management utilizes to help determine fair value. Judgments made by management related to the fair value of its long-term investments are affected by factors such as the ongoing financial performance of the investees, additional capital raised by the investees as well as general changes in the economy. If there are significant changes in the actual performance of the long-term investments versus the Company's estimates, the carrying value of these investments could be significantly impacted.

Forward Looking Statements

The statements contained in this Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations that are not strictly historical fact, including without limitation, the Company's belief that it will have adequate capital and reserves to meet its current and contingent obligations and operating needs, as well as its disclosures regarding market rate risk are forward looking statements made under the safe harbor provision of the Private Securities Litigation Reform Act. Such statements are based on management's current expectations as of the date of this Report, but involve risks, uncertainties and other factors that may cause actual results to differ materially from those contemplated by such forward looking statements. Investors are cautioned to consider these forward looking statements in light of important factors which may result in material variations between results contemplated by such forward looking statements and actual results and conditions. See the section appearing in our Annual Report on Form 10-K for the fiscal year ended December 25, 2010 entitled "Risk Factors" and Part II, Item 1A in this Report for a more complete discussion of certain factors that may cause the Company's actual results to differ from those in its forward looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date they were made. The Company undertakes no obligation to revise or update publicly any forward-looking statements for any reason.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

The Company incurs financial markets risk in the form of interest rate risk. Risk can be quantified by measuring the financial impact of a near-term adverse increase in short-term interest rates. At June 25, 2011, the Company had available a \$30.0 million line of credit with the PrivateBank and Trust Company and Harris, N.A. The interest rates applicable to this agreement are based on either the bank's base rate or LIBOR for short-term borrowings (less than three months) or the bank's index rate for borrowings one year or greater. The Company had no debt outstanding at June 25, 2011 under this line of credit. The Company's earnings would be affected by changes in these short-term interest rates only in the event that it were to borrow amounts under this facility. With the Company's borrowings at June 25, 2011, a one percent increase in short-term rates would have no impact on pretax earnings. The Company had no interest rate derivatives in place at June 25, 2011.

None of the Company's cash and cash equivalents at June 25, 2011 was invested in money market mutual funds, which are subject to the effects of market fluctuations in interest rates.

Although the Company conducts business in foreign countries, international operations are not material to its consolidated financial position, results of operations or cash flows. Additionally, foreign currency transaction gains and losses were not material to the Company's results of operations for the six months ended June 25, 2011. Accordingly, the Company is not currently subject to material foreign currency exchange rate risks from the effects that exchange rate movements of foreign currencies would have on its future costs or on future cash flows it would receive from its foreign activity. To date, the Company has not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

ITEM 4: Controls and Procedures

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of its disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act). Based upon, and as of the date of that evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. There was no change in the Company's internal control over financial reporting during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.
