Accordingly, certain information and note disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States have been condensed or omitted. In management's opinion, the accompanying interim condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results presented. Senior Secured Credit Facility Our Senior Secured Credit Facility as amended and restated (Credit Facility) consists of a \$300,000 revolving line of credit. The Credit Facility is secured on a first priority basis by substantially all of our assets and guaranteed by substantially all of our significant subsidiaries.

Our net revolving line of credit availability at October 26, 2014, as limited by our maximum consolidated total leverage ratio, was approximately \$178,000, after consideration of approximately \$32,000 in outstanding letters of credit. We have an annual commitment fee related to the unused portion of the Credit Facility of up to 0.55% which is included in interest expense in the accompanying consolidated statements of operations. The weighted average effective interest rates of the Credit Facility for the six months ended October 26, 2014 was 3.54%.

The Credit Facility includes a number of affirmative and negative covenants. Additionally, we must comply with certain financial covenants including maintenance of a total leverage ratio, senior secured leverage ratio and minimum interest coverage ratio. The Credit Facility also restricts our ability to make certain investments or distributions. We were in compliance with the covenants as of October 26, 2014.

Subsequent to quarter end, on October 29, 2014, we amended our Credit Facility to revise the definition of consolidated EBITDA to exclude the costs associated with the Colorado Referendum and certain severance expenses related to the corporate restructuring. The amendment will be effective beginning in the third quarter fiscal 2015.

5.875% Senior Notes In March 2013, we issued \$350,000 of 5.875% Senior Notes due 2021 (5.875% Senior Notes). The net proceeds from the issuance were used to repay term loans under our Credit Facility. The 5.875% Senior Notes are general unsecured obligations and rank junior to all of our senior secured indebtedness and senior to our senior subordinated indebtedness. The 5.875% Senior Notes are redeemable, in whole or in part, at our option at any time on or after March 15, 2016, with call premiums as defined in the indenture governing the 5.875% Senior Notes.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

7.75% Senior Notes In March 2011, we issued \$300,000 of 7.75% Senior Notes due 2019 at a price of 99.264% (*7.75% Senior Notes*). The *7.75% Senior Notes* are general unsecured obligations and rank junior to all of our senior secured indebtedness and senior to our senior subordinated indebtedness. The *7.75% Senior Notes* are redeemable, in whole or in part, at our option at any time on or after March 15, 2015, with call premiums as defined in the indenture governing the *7.75% Senior Notes*.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

8.875% Senior Subordinated Notes In August 2012, we issued \$350,000 of 8.875% Senior Subordinated Notes due 2020 (8.875% Senior Subordinated Notes). The 8.875% Senior Subordinated Notes are general unsecured obligations and rank junior to all of our senior indebtedness. The 8.875% Senior Subordinated Notes are redeemable, in whole or in part, at our option at any time on or after June 15, 2016, with call premiums as defined in the indenture governing the 8.875% Senior Subordinated Notes.

The 5.875% Senior Notes, 7.75% Senior Notes and 8.875% Senior Subordinated Notes are guaranteed, on a joint and several basis, by substantially all of our significant subsidiaries and certain other subsidiaries as described in Note 9. All of the guarantor subsidiaries are wholly owned by us.

The indentures governing the 5.875% Senior Notes, 7.75% Senior Notes and 8.875% Senior Subordinated Notes limit, among other things, our ability and our restricted subsidiaries' ability to borrow money, make restricted payments, use assets as security in other transactions, enter into transactions with affiliates, pay dividends, or repurchase stock. The indentures also limit our ability to issue and sell capital stock of subsidiaries, sell assets in excess of specified amounts or merge with or into other companies.

Restricted Stock Units During fiscal 2013, we granted restricted stock units (RSUs) containing market performance conditions which will determine the ultimate amount of RSUs, if any, to be awarded up to 1,656,943 shares. Any RSUs earned will vest 50% on April 26, 2015 and 50% on April 26, 2016. The fair value of these RSUs was determined utilizing a lattice pricing model which considered a range of assumptions including volatility and risk-free interest rates. The aggregate compensation cost related to these RSUs is \$4,695 to be recognized over the vesting periods. As of October 26, 2014, our unrecognized compensation cost for these RSUs was \$1,265.

Restricted Stock During the six months ended October 26, 2014, we issued 107,214 shares of restricted stock with a weighted average grant date fair value of \$7.92 to employees and 122,325 shares of restricted stock with a weighted-average grant date fair value of \$7.24 to directors. Restricted stock awards are made to employees and directors under annual long-term incentive grants which primarily vest one-third on each anniversary of the grant date for employees and vests one-half on the grant date and one-half on the first anniversary of the grant date for directors. Our aggregate estimate of forfeitures for restricted stock for employees and directors is 12% and 0%, respectively. As of October 26, 2014, our unrecognized compensation cost for unvested restricted stock was \$1,430 with a remaining weighted average vesting period of 1.15 years.

Debt obligations with a short remaining maturity have a carrying amount that approximates fair value.

7. Income Taxes

A summary of our effective income tax provision from continuing operations is as follows:

| | Three Months Ended | | Six Months Ended | |

| | October 26, 2014 | October 27, 2013 | October 26, 2014 | October 27, 2013 |

| Income tax provision from continuing operations | \$ 1,024 | \$ 1,359 | \$ 2,007 | \$ 2,770 |

Our income tax provision consists of changes in the deferred tax liability attributable to indefinite lived intangibles and expense in state jurisdictions without net operating loss carryforwards available.

As of October 26, 2014, we have a full valuation allowance on our federal and state deferred tax assets and have concluded that the valuation allowance was still needed due to our history of cumulative losses. During fiscal 2014, our Florida operations experienced their second consecutive year of substantive pretax income. We continue to evaluate our cumulative income position and income trend, as well as our future projections of sustained profitability for our Florida operations. We will continue to evaluate whether this profitability trend constitutes sufficient positive evidence to support a full, or partial, reversal of our Florida state valuation allowance of approximately \$3,000.

8. Supplemental Disclosures

Cash Flow For the six months ended October 26, 2014 and October 27, 2013, we made net cash interest payments of \$40,466 and \$43,652, respectively. 10. Commitments and Contingencies

Legal and Regulatory Proceedings In October 2012, we opened our new casino in Cape Girardeau, Missouri. A subcontractor filed a mechanics lien against our property resulting from a dispute between the subcontractor and our general contractor for the construction project. We demanded that the general contractor cause the lien to be bonded against or satisfied, however the general contractor refused to do so and asserted that a portion of the subcontractor's claim resulted from additional work directly requested by us. In October 2013, the subcontractor filed suit against our wholly-owned subsidiary IOC-Cape Girardeau, LLC, the general contractor and two other defendants alleging various contract and equitable claims and is seeking damages of approximately \$4,600. In August 2014, we filed a cross claim against the general contractor alleging breach of contract and various indemnity claims. The outcome of this matter is still in doubt and cannot be predicted with any degree of certainty. In the event that we incur any costs in connection with this matter, we do not believe that any such costs would be material, and if incurred, the settlement of construction costs would be capitalized.

Our wholly owned subsidiary, Lady Luck Gaming Corporation, and several joint venture partners have been defendants in the Greek Civil Courts and the Greek Administrative Courts in similar lawsuits brought by the country of Greece. The actions alleged that the defendants failed to make specified payments in connection with the gaming license bid process for Patras, Greece. In the Civil Court lawsuit, the Civil Court of First Instance ruled in our favor and dismissed the lawsuit in 2001. The lawsuits continued through the appeals process and in October 2013, the Supreme Administrative Court rejected both lawsuits in a final and irrevocable decision which disposed of this matter completely. As a result, during the three months ended October 27, 2013, we reversed a litigation accrual of \$14,730, of which \$7,351 was recorded as a reduction to operating expenses and \$7,379 was recorded as a reduction to interest expense.

We are subject to certain federal, state and local environmental protection, health and safety laws, regulations and ordinances that apply to businesses generally, and are subject to cleanup requirements at certain of our facilities as a result thereof. We have not made, and do not anticipate making material expenditures, nor do we anticipate incurring delays with respect to environmental remediation or protection. However, in part because our present and future development sites have, in some cases, been used as manufacturing facilities or other facilities that generate materials that are required to be remediated under environmental laws and regulations, there can be no guarantee that additional pre-existing conditions will not be discovered and we will not experience material liabilities or delays.

We are subject to various contingencies and litigation matters and have a number of unresolved claims. Although the ultimate liability of these contingencies, this litigation and these claims cannot be determined at this time, we believe they will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

On February 1, 2013, we signed an agreement with Tower Investments, Inc. to manage The Provence, the resort and casino on North Broad Street, Philadelphia, proposed by Tower Entertainment, LLC (the "Tower JV"), if the project was selected by the Pennsylvania Gaming Control Board. The agreement included a commitment for a loan that was secured by a stand by letter of credit of \$25,000, which could only be drawn upon if the Tower JV was awarded the license. On November 18, 2014, the license was awarded to another applicant and we subsequently cancelled the letter of credit.

Executive Overview

We are a developer, owner and operator of branded gaming facilities and related dining, lodging and entertainment facilities in regional markets in the United States. We have sought and established geographic diversity to limit the risks caused by weather, regional economic difficulties, gaming tax rates and regulations of local gaming authorities. We currently operate casinos in Colorado, Florida, Iowa, Louisiana, Mississippi, Missouri and Pennsylvania.

Our operating results for the periods presented have been affected, both positively and negatively, by current economic conditions and several other factors discussed in detail below. Our historical operating results may not be indicative of our future results of operations because of these factors and the changing competitive landscape in each of our markets, as well as by factors discussed elsewhere herein. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the year ended April 27, 2014 and by giving consideration to the following:

Items Impacting Income (Loss) from Continuing Operations Significant items impacting our income (loss) from continuing operations during the periods ended October 26, 2014, and October 27, 2013 are as follows:

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Colorado Referendum Costs During the three and six months ended October 26, 2014, the Company incurred costs of \$3.0 million and \$4.1 million, respectively, in support of efforts to defeat the proposed November referendum that would have expanded gaming to racetracks in certain Colorado counties.

Property Tax Settlement During the three months ended October 26, 2014, we reduced property tax expense by \$1.2 million as a result of the settlement of our property tax appeal at our Waterloo, Iowa property for calendar years 2011 through 2014.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Corporate Restructuring - During the six months ended October 26, 2014, we eliminated executive positions in the corporate office to maximize efficiency and streamline reporting lines, resulting in severance expense of \$2.3 million.

Casino Openings We opened our Lady Luck Casino on the Nemaquin Woodlands Resort in Farmington, Pennsylvania on July 1, 2013.

Legal Recoveries During October 2013, we received a favorable appellate ruling in our Greece gaming license legal proceedings. As a result of this favorable ruling, during the three months ended October 27, 2013, we reversed a litigation accrual of \$14.7 million, of which \$7.3 million was recorded as a reduction to operating expenses and \$7.4 million was recorded as a reduction to interest expense.

Disruption Our Black Hawk property's attendance was negatively impacted by the severe weather and flooding in Colorado during September 2013. Our Boonville property was affected by power outages and was forced to close three times for a total of approximately 40 hours, of which two periods were over the key holidays of Father's Day weekend and on the 4th of July. These disruptive events had a negative impact on our operating results for the prior year periods.

Income Tax Provision Our income tax provision from continuing operations was impacted by changes in the deferred tax liability attributable to indefinite lived intangibles and expense for state jurisdictions where taxable income is generated. Our tax provision was \$1.0 million and \$1.4 million for the three months ended October 26, 2014 and October 27, 2013, respectively, and was \$2.0 million and \$2.8 million for the six months ended October 26, 2014 and October 27, 2013, respectively.

Rooms Rooms revenue decreased \$0.2 million, or 2.7%, and \$0.8 million, or 4.8%, for the three and six months ended October 26, 2014, respectively, as compared to the same period in the prior fiscal year due to lower occupancy rates.

Excluding this reversal, interest expense decreased \$1.5 million and \$2.8 million in the three and six months of the current year on lower credit facility borrowings.

Liquidity and Capital Resources

Cash Flows from Operating Activities - During the six months ended October 26, 2014, we generated \$48.9 million in cash flows from operating activities compared to generating \$32.3 million during the six months ended October 27, 2013. The year over year increase in cash flows from operating activities is primarily the result of working capital changes associated with accounts payable and construction activities in the prior year.

Cash Flows used in Investing Activities - During the six months ended October 26, 2014, we used \$17.9 million for investing activities compared to using \$35.9 million during the six months ended October 27, 2013. Significant investing activities for the six months ended October 26, 2014 included capital expenditures of \$18.7 million. Significant investing activities for the six months ended October 27, 2013 included capital expenditures of \$30.7 million, of which \$17.7 million related to Nemaocolin, as well as an additional \$7.5 million toward a Nemaocolin table gaming license. These outflows were offset by \$1.2 million of cash inflows from the change in restricted cash and investments and \$1.2 million in proceeds from the sale of property and equipment.

Cash Flows used in Financing Activities - During the six months ended October 26, 2014, our net cash flows used in financing activities were primarily to repay \$31.9 million of borrowings under our Credit Facility. During the six months ended October 27, 2013, our net cash flows provided from financing activities were primarily from \$6.0 million in borrowings under our Credit Facility.

Availability of Cash and Additional Capital - At October 26, 2014, we had cash and cash equivalents of \$68.8 million and marketable securities of \$27.1 million. As of October 26, 2014, we had \$32.8 million in outstanding revolving credit borrowings under our Credit Facility and our net line of credit availability was approximately \$178.0 million, as limited by our maximum consolidated total leverage ratio. On October 29, 2014, we amended our Credit Facility to revise the definition of consolidated EBITDA to exclude the costs associated with the Colorado Referendum and certain severance expenses related to the corporate restructuring. The amendment will be effective beginning in the third quarter fiscal 2015.

Capital Expenditures and Development Activities - Historically, as part of our business development activities, we have entered into agreements which have resulted in the acquisition or development of businesses or assets. These business development efforts and related agreements typically require the expenditure of cash, which may be significant. The amount and timing of our cash expenditures relating to development activities may vary based upon our evaluation of current and future development opportunities, our financial condition and the condition of the financing markets. Our development activities are subject to a variety of factors including but not limited to: obtaining permits, licenses and approvals from appropriate regulatory and other agencies, legislative changes and, in certain circumstances, negotiating acceptable leases.

On February 1, 2013, we signed an agreement with Tower Investments, Inc. to manage The Provence, the resort and casino on North Broad Street, Philadelphia, proposed by Tower Entertainment, LLC (the "Tower JV"), if the project was selected by the Pennsylvania Gaming Control Board. The agreement included a commitment for a loan that was secured by a stand by letter of credit of \$25 million, which could only be drawn upon if the Tower JV was awarded the license. On November 18, 2014, the license was awarded to another applicant and we subsequently cancelled the letter of credit.

Historically, we have made significant investments in property and equipment and expect that our operations will continue to demand ongoing investments to keep our properties competitive. The timing, completion and amount of additional capital projects will be subject to improvement of economic and local market conditions, cash flows from our continuing operations and borrowing availability under our Credit Facility.

Typically, we have funded our daily operations through net cash provided by operating activities and our significant capital expenditures through operating cash flow and debt financing. While we believe that cash on hand, cash flow from operations, and available borrowings under our Credit Facility will be sufficient to support our working capital needs, planned capital expenditures and debt service requirements for the foreseeable future, there is no assurance that these sources will in fact provide adequate funding for our planned and necessary expenditures or that the level of our capital investments will be sufficient to allow us to remain competitive in our existing markets.

We are highly leveraged and may be unable to obtain additional debt or equity financing on acceptable terms if our current sources of liquidity are not sufficient or if we fail to stay in compliance with the covenants of our Credit Facility. We will continue to evaluate our planned capital expenditures at each of our existing locations in light of the operating performance of the facilities at such locations.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles that require our management to make estimates and assumptions that affect reported amounts and related disclosures. Management identifies critical accounting estimates as:

- those that require the use of assumptions about matters that are inherently and highly uncertain at the time the estimates are made;
- those estimates where, had we chosen different estimates or assumptions, the resulting differences would have had a material impact on our financial condition, changes in financial condition or results of operations; and
- those estimates that, if they were to change from period to period, likely would result in a material impact on our financial condition, changes in financial condition or results of operations.

For a discussion of our significant accounting policies and estimates, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes to Consolidated Financial Statements presented in our 2014 Annual Report on Form 10-K. There were no newly identified significant accounting estimates in the second quarter of fiscal year 2015, nor were there any material changes to the critical accounting policies and estimates set forth in our 2014 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices, including interest rates, commodity prices and equity prices. Our primary exposure to market risk is interest rate risk associated with our Credit Facility.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of October 26, 2014. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of October 26, 2014, our disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports we file or submit under the Exchange Act of 1934 and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended April 27, 2014, except for the following:

We face significant competition from other gaming operations, including Native American gaming facilities, and from legalization or expansion of gaming by states in or near where we own properties, that could have a material adverse effect on our future operations.

The gaming industry is intensely competitive, and we face a high degree of competition in the markets in which we operate. We have numerous competitors, including land-based casinos, dockside casinos, riverboat casinos, casinos located on racing, pari-mutuel operations or Native American-owned lands and video lottery and poker machines not located in casinos. We also compete with other forms of legalized gaming and entertainment such as online computer gambling, bingo, pull tab games, card parlors, sports books, cruise-to-nowhere operations, pari-mutuel or telephonic betting on horse racing and dog racing, state-sponsored lotteries, jai-alai, and, in the future, may compete with gaming at other venues. In addition, we compete more generally with other forms of entertainment for the discretionary spending of our customers. We also face the risk that existing competitors will expand their operations and the risk that Native American gaming will continue to grow. For example, an existing competitor in Davenport, Iowa, has announced plans to move its riverboat casino to a new land-based gaming facility that will compete with our Bettendorf, Iowa property, and a new casino is under construction in Lake Charles, Louisiana that will compete with our property there. Some of our competitors may have better name recognition, marketing and financial resources than we do; competitors with more financial resources may therefore be able to improve the quality of, or expand, their gaming facilities in a way that we may be unable to match.

In addition, we also face the risk of further legalization and/or expansion of gaming. Certain states have recently legalized, and other states are currently considering legalizing gaming. Our existing casinos attract a significant number of their customers from Houston, Texas; South Florida; Little Rock, Arkansas; and Denver, Colorado. Our continued success depends upon drawing customers from each of these geographic markets. In the past, legislation to legalize or expand gaming has been introduced that would impact some of these markets. In July 2014, the Secretary of State of Colorado declared that proponents of an initiative to expand gaming to horse tracks in Colorado had obtained sufficient signatures to place the initiative on the ballot in November 2014. If passed, the initiative would expand gaming at Arapahoe Park horse racetrack and no more than one horse racetrack in each of Pueblo and Mesa counties where racing and wagering have taken place for at least five consecutive years. On November 4, 2014, the initiative failed. Had the initiative passed, our business would have been adversely affected, particularly our Black Hawk, Colorado property.

We expect similar proposals to legalize or expand gaming will be made in the future in various states, and it is uncertain whether such proposals will be successful. Further, because the economic recession has reduced the revenues of state governments from traditional tax sources, voters

and state legislatures may be more sympathetic to proposals authorizing or expanding gaming in those jurisdictions.

In addition, there is no limit on the number of gaming licenses that may be granted in several of the jurisdictions in which we operate. As a result, new gaming licenses could be awarded in these jurisdictions, which could allow new gaming operators to enter our markets that could have an adverse effect on our operating results.
