AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 29, 2016

(Unaudited)

(Dollars in millions, except per share amounts)

Note 1 Basis of Presentation

AAR CORP. and its subsidiaries are referred to herein collectively as AAR, Company, we, us, and our, unless the context indicates otherwise. The accompanying Condensed Consolidated Financial Statements include the accounts of AAR and its subsidiaries after elimination of intercompany accounts and transactions.

We have prepared these statements without audit, pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC). The Condensed Consolidated Balance Sheet as of May 31, 2015 has been derived from audited financial statements. To prepare the financial statements in conformity with U.S. generally accepted accounting principles (GAAP), management has made a number of estimates and assumptions relating to the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Certain information and note disclosures, normally included in comprehensive financial statements prepared in accordance with GAAP, have been condensed or omitted pursuant to such rules and regulations of the SEC. These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in our latest annual report on Form 10-K.

In the opinion of management, the condensed consolidated financial statements reflect all adjustments (which consist only of normal recurring adjustments) necessary to present fairly the condensed consolidated financial position of AAR CORP. and its subsidiaries as of February 29, 2016, the Condensed Consolidated Statements of Operations and the Condensed Consolidated Statements of Comprehensive Income for the three- and nine-month periods ended February 29, 2016 and February 28, 2015, the Condensed Consolidated Statements of Cash Flows for the nine-month periods ended February 29, 2016 and February 28, 2015, and the Condensed Consolidated Statement of Changes in Equity for the nine-month period ended February 29, 2016. The results of operations for such interim periods are not necessarily indicative of the results for the full year.

New Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* which requires that a disposal representing a strategic shift that has or will have a major effect on an entity's financial results or a business activity classified as held for sale should be reported as discontinued operations. This ASU also expands the disclosure requirements for discontinued operations and adds new disclosures for individually significant dispositions that do not qualify as discontinued operations. The Company adopted this guidance on June 1, 2015 which resulted in expanded disclosures related to the income statement and cash flow activities of our discontinued operations.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, which provides guidance for revenue recognition. This ASU affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of non-financial assets. This ASU will supersede the revenue recognition requirements in ASC 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes certain cost guidance included in Subtopic 605-35, *Revenue Recognition-Construction-Type and Production-Type Contracts*. In August 2015, the FASB issued ASU No. 2015-14 which deferred the effective date of the new standard by one year which will make the new standard effective for us beginning June 1, 2018. We are currently evaluating the impact of the adoption of this new standard on our consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, *Simplifying the Presentation of Debt Issuance Costs*. This ASU amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability instead of a deferred charge. This new standard will be effective for us beginning June 1, 2016. We are currently evaluating the impact of the adoption of this new standard on our consolidated financial statements.

Edgar Filing: AAR CORP - Form 10-Q

Table of Contents

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 29, 2016

(Unaudited)

(Dollars in millions, except per share amounts)

In November 2015, the FASB issued ASU No. 2015-17, *Balance Sheet Classification of Deferred Taxes*. This ASU amends existing guidance to require the presentation of deferred tax liabilities and assets as noncurrent within a classified statement of financial position. Adoption of this new standard may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. This new standard will be effective for us beginning June 1, 2017 with early adoption permitted. We are currently evaluating the impact of the adoption of this new standard on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases*. This ASU amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets, including those classified as operating leases under the current accounting guidance. In addition, this ASU will require new qualitative and quantitative disclosures about the Company's leasing activities. This new standard will be effective for us beginning June 1, 2019 with early adoption permitted. This ASU requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. We are currently evaluating the impact of the adoption of this new standard on our consolidated financial statements.

Note 2 Discontinued Operations

On March 26, 2015, we completed the sale of our Telair Cargo Group to TransDigm, Inc. The Telair Cargo Group was comprised of Telair International, Telair US, and Nordisk Aviation Products. Cash received at closing in the fourth quarter of fiscal 2015 before fees and expenses was \$705 million. The sale also allowed for contingent consideration of up to \$35 million based on the occurrence of certain post-closing events related to the A400M cargo system. We recognized a pre-tax gain on the sale (net of transaction expenses and fees) of \$198.6 million in the fourth quarter of fiscal 2015.

In the first quarter of fiscal 2016, we recognized a gain of \$27.7 million net of expenses representing the resolution of the contingent consideration related to the A400M cargo system.

During fiscal 2015, we also announced our intention to sell our Precision Systems Manufacturing (PSM) business comprised of our metal and composite machined and fabricated parts manufacturing operations. We recognized impairment charges of \$57.5 million during fiscal 2015 to reduce the carrying value of the PSM business's net assets to their expected value at the time of sale.

Edgar Filing: AAR CORP - Form 10-Q

Telair Cargo Group and PSM are reported as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Interest expense allocated to discontinued operations was \$0 million and \$2.8 million during the three months ended February 29, 2016 and February 28, 2015, respectively, and \$0 million and \$8.4 million during the nine months ended February 29, 2016 and February 28, 2015, respectively. No amounts for general corporate overhead were allocated to discontinued operations.

Liabilities of discontinued operations of \$5.8 million and \$5.4 million at February 29, 2016 and May 31, 2015, respectively, were classified as *Accrued Liabilities* on the Condensed Consolidated Balance Sheet. Operating income (loss) from discontinued operations was comprised of the following:

	Three Months Ended February 29/28,		Nine Months Ended February 29/28,	
	2016	2015	2016	2015
Sales	\$ 12.6	\$ 91.8	\$ 34.3	\$ 252.6
Cost of sales	(12.1)	(80.0)	(39.2)	(216.6)
Selling, general and administrative expenses	(1.3)	(9.3)	(4.4)	(22.7)
Interest expense, net		(3.0)		(9.2)
Operating income (loss) from discontinued operations	\$ (0.8)	\$ (0.5)	\$ (9.3)	\$ 4.1

Edgar Filing: AAR CORP - Form 10-Q

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 29, 2016

(Unaudited)

(Dollars in millions, except per share amounts)

Note 3 Revenue Recognition

Sales and related cost of sales for product sales are recognized upon shipment of the product to the customer. Our standard terms and conditions provide that title passes to the customer when the product is shipped to the customer. Sales of certain defense products are recognized upon customer acceptance, which includes transfer of title. Under the majority of our expeditionary airlift services contracts, we are paid and record as revenue a fixed daily amount per aircraft for each day an aircraft is available to perform airlift services. In addition, we are paid and record as revenue an amount which is based on number of hours flown. Sales from services and the related cost of services are generally recognized when customer-owned material is shipped back to the customer. We have adopted this accounting policy because at the time the customer-owned material is shipped back to the customer, all services related to that material are complete as our service agreements generally do not require us to provide services at customer sites. Furthermore, serviced units are typically shipped to the customer immediately upon completion of the related services. Sales and related cost of sales for certain large airframe maintenance contracts and performance-based logistics programs are recognized by the percentage of completion method, based on the relationship of costs incurred to date to the estimated total costs. Lease revenues are recognized as earned. Income from monthly or quarterly rental payments is recorded in the pertinent period according to the lease agreement. However, for leases that provide variable rents, we recognize lease income on a straight-line basis. In addition to a monthly lease rate, some engine leases require an additional rental amount based on the number of hours the engine is used in a particular month. Lease income associated with these contingent rentals is recorded in the period in which actual usage is reported to us by the lessee, which is normally the month following the actual usage.

Certain supply chain management programs we provide to our customers contain multiple elements or deliverables, such as program and warehouse management, parts distribution, and maintenance and repair services. We recognize revenue for each element or deliverable that can be identified as a separate unit of accounting at the time of delivery based upon the relative fair value of the products and services.

Included in accounts receivable as of February 29, 2016 and May 31, 2015, are \$24.6 million and \$21.1 million, respectively, of unbilled accounts receivable related to a defense-related supply program. These unbilled accounts receivable relate to costs we have incurred on parts that were requested and accepted by our customer to support the program. These costs have not been billed by us because the customer has not issued the final paperwork necessary to allow for billing.

Note 4 Accounting for Stock-Based Compensation

Restricted Stock

In August 2015, as part of our annual long-term stock incentive compensation, we granted 109,269 shares of performance-based restricted stock and 28,069 shares of time-based restricted stock to eligible employees. The grant date fair value per share for both grants was \$26.62. In June 2015, we also granted 45,000 shares of time-based restricted stock to members of the Board of Directors with a grant date fair value per share of \$29.54.

Expense charged to operations for restricted stock was \$1.4 million and \$1.6 million during the three months ended February 29, 2016 and February 28, 2015, respectively, and \$3.6 million and \$4.3 million during the nine months ended February 29, 2016 and February 28, 2015, respectively.

Stock Options

The total intrinsic value of stock options exercised during the nine months ended February 29, 2016 and February 28, 2015 was \$0.9 million and \$1.5 million, respectively. Expense charged to operations for stock options was \$0.9 million and \$0.8 million during the three months ended February 29, 2016 and February 28, 2015, respectively, and \$2.6 million and \$2.2 million during the nine months ended February 29, 2016 and February 28, 2015, respectively.

(Unaudited)

(Dollars in millions, except per share amounts)

Note 5 Inventory

The summary of inventories is as follows:

	February 29, 2016	May 31, 2015
Raw materials and parts	\$ 37.9	\$ 43.1
Work-in-process	22.6	18.1
Aircraft and engine parts, components and finished goods	380.1	337.0
Aircraft held for sale and related support parts	17.5	57.8
	\$ 458.1	\$ 456.0

We had eight aircraft held for sale comprised of five fixed-wing and three rotary-wing aircraft at February 29, 2016 and eleven aircraft held for sale comprised of five fixed-wing and six rotary-wing aircraft at May 31, 2015.

Note 6 Aircraft Sale-Leaseback Transactions

During the fourth quarter of fiscal 2015, we entered into a sale-leaseback transaction for our two S-92 rotary-wing aircraft resulting in the recognition of a loss of \$1.1 million. We received proceeds of \$40.3 million in fiscal 2015 which were deferred as a sale-leaseback advance pending completion of the sale transactions. Both of the S-92 aircraft sales were completed in fiscal 2016.

During the nine-month period ended February 29, 2016, we received proceeds of \$38.5 million from sale-leaseback transactions for two AW-189 rotary-wing aircraft. The \$1.7 million gain realized on the sale has been deferred and is being amortized over the lease term of ten years.

Note 7 Income Taxes

During the third quarter of fiscal 2016, we completed a reconciliation of our tax basis assets and liabilities and an analysis of our income tax payable which identified prior year immaterial errors netting to \$0.2 million. The correction of these errors was recognized in the three months ended February 29, 2016 with \$2.7 million recognized as income tax expense in discontinued operations and \$2.5 million recognized as income tax benefit within income from continuing operations. Further, in connection with the reconciliation of our tax basis assets and liabilities, we corrected certain amounts within deferred tax assets and liabilities, accrued liabilities, and goodwill on our condensed consolidated balance sheet as of February 29, 2016. We have concluded these errors were not material to any prior reporting periods.

During the third quarter of fiscal 2016, we recognized \$2.8 million of income tax expense in discontinued operations related to changes in estimates associated with tax provision to federal income tax return filing differences.

Note 8 Supplemental Cash Flow Information

	Nine Months Ended February 29/28,			
	2016		2015	
Interest paid	\$	3.3	\$	32.1
Income taxes paid		26.5		11.7
Income tax refunds received		1.3		12.1

Note 9 Financing Arrangements

A summary of the carrying amount of our debt is as follows:

	February 29, 2016	May 31, 2015
Revolving Credit Facility expiring March 24, 2020 with interest payable monthly	\$ 135.0	\$ 50.0
Industrial revenue bond (secured by property, plant and equipment) due August 1, 2018 with interest payable monthly	25.0	25.0
Note payable due March 9, 2017 with floating interest rate, payable semi-annually on June 1 and December 1	10.0	20.0
Convertible notes payable due March 1, 2016 with interest at 2.25% payable semi-annually on March 1 and September 1	25.7	48.0
Mortgage loan (secured by Wood Dale, Illinois facility) due August 1, 2015		11.0
Total debt	195.7	154.0
Current maturities of debt	(35.7)	(69.0)
Long-term debt	\$ 160.0	\$ 85.0

At February 29, 2016, the carrying value of our variable rate and fixed rate debt had a fair value that approximates the carrying value of \$195.7 million. These debt instruments are classified as Level 3 in the fair value hierarchy which is defined as a fair value determined based upon one or more significant unobservable inputs.

We are subject to a number of covenants under our financing arrangements, including restrictions that relate to the payment of cash dividends, maintenance of debt-to-EBITDA and interest coverage ratios, sales of assets, additional financing, purchase of our shares and other matters. We are in compliance with all financial and other covenants under our financing arrangements.

Convertible Notes

Edgar Filing: AAR CORP - Form 10-Q

During the three-month period ended August 31, 2015, we repurchased \$14.4 million of our outstanding 2.25% convertible notes due March 1, 2016 for \$14.6 million cash including \$0.2 million of accrued interest and recognized a \$0.3 million loss on the early extinguishment of the notes.

During the three-month period ended November 30, 2015, we repurchased \$9.7 million of our outstanding 2.25% convertible notes due March 1, 2016 for \$9.7 million cash and recognized a \$0.1 million loss on the early extinguishment of the notes.

On March 1, 2016, we retired the remaining balance of our 2.25% convertible notes at maturity for \$26.0 million cash including accrued interest of \$0.3 million.

The interest expense associated with convertible notes was as follows:

	Three Months Ended February 29/28,		Nine Months Ended February 29/28,	
	2016	2015	2016	2015
Coupon interest	\$ 0.2	\$ 0.3	\$ 0.6	\$ 1.2
Amortization of deferred financing fees				0.1
Amortization of discount	0.3	0.4	1.3	1.7
Interest expense related to convertible notes	\$ 0.5	\$ 0.7	\$ 1.9	\$ 3.0

Note 10 Derivative Instruments and Hedging Activities

We are exposed to interest rate risk associated with fluctuations in interest rates on our variable rate debt. Prior to the fourth quarter of fiscal 2015, we utilized two derivative financial instruments to manage our variable interest rate exposure. We utilized a floating-to-fixed interest rate swap and an interest rate cap agreement with each hedging \$50.0 million of notional principal interest under our Revolving Credit Facility. In connection with the Amendment of our Revolving Credit Facility, we settled our floating-to-fixed interest rate swap and interest rate cap agreements in the fourth quarter of fiscal 2015 for approximately \$2.6 million.

Prior to the settlement, the derivative instruments were classified as cash flow hedges with gains and losses on the derivative instruments included in other comprehensive income. We recognized gains and losses on our derivative instruments as an adjustment to interest expense in the period the hedged interest payment affected earnings.

Note 11 Earnings per Share

The computation of basic earnings per share is based on the weighted average number of common shares outstanding during each period. The computation of diluted earnings per share is based on the weighted average number of common shares outstanding during the period plus, when their effect is dilutive, incremental shares consisting of shares subject to stock options, shares issuable upon vesting of restricted stock awards, and shares to be issued upon conversion of convertible debt.

We used the if-converted method in calculating the diluted earnings per share effect of the assumed conversion of our contingently convertible debt because the principal for that issuance can be settled in stock, cash, or a combination thereof. Under the if converted method, the after-tax effect of interest expense related to the convertible securities is added back to net income, and the convertible debt is assumed to have been converted into common shares at the beginning of the period.

In accordance with ASC 260-10-45, *Share-Based Payment Arrangements and Participating Securities and the Two-Class Method*, our unvested restricted stock awards are deemed participating securities since these shares are entitled to participate in dividends declared on common shares. During periods of net income, the calculation of earnings per share for common stock excludes income attributable to unvested restricted stock awards from the numerator and excludes the dilutive impact of those shares from the denominator. During periods of net loss, no effect is given

to the participating securities because they do not share in the losses of the Company.

AAR CORP. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

February 29, 2016

(Unaudited)

(Dollars in millions, except per share amounts)

The following table provides a reconciliation of the computations of basic and diluted earnings per share information for the three- and nine-month periods ended February 29, 2016 and February 28, 2015.

	Three Months Ended February 29/28,		Nine Months Ended February 29/28,	
	2016	2015	2016	2015
Basic and Diluted EPS:				
Income from continuing operations	\$ 10.7	\$ 1.9	\$ 29.3	\$ 27.6
Less income attributable to participating shares	(0.1)	(0.1)	(0.3)	(0.6)
Income from continuing operations attributable to common shareholders	10.6	1.8	29.0	27.0
Income (Loss) from discontinued operations attributable to common shareholders	(5.9)	(36.4)	6.4	(32.5)
Net income (loss) attributable to common shareholders				
For earnings per share basic and diluted	\$ 4.7	\$ (34.6)	\$ 35.4	\$ (5.5)
Weighted Average Shares:				
Weighted average common shares outstanding basic	34.2	38.7	34.5	38.7
Additional shares from the assumed exercise of stock options	0.2	0.5	0.2	0.5
Weighted average common shares outstanding diluted	34.4	39.2	34.7	39.2
Earnings per share basic:				
Earnings from continuing operations	\$ 0.31	\$ 0.05	\$ 0.84	\$ 0.70
Earnings (Loss) from discontinued operations	(0.17)	(0.94)	0.19	(0.84)
Earnings per share basic	\$ 0.14	\$ (0.89)	\$ 1.03	\$ (0.14)
Earnings per share diluted:				
Earnings from continuing operations	\$ 0.31	\$ 0.05	\$ 0.84	\$ 0.69
Earnings (Loss) from discontinued operations	(0.17)	(0.94)	0.19	(0.84)
Earnings per share diluted	\$ 0.14	\$ (0.89)	\$ 1.03	\$ (0.15)

At February 29, 2016 and February 28, 2015, respectively, stock options to purchase 178,490 shares and 169,163 shares of common stock were outstanding, but were not included in the computation of diluted earnings per share because the exercise price of each of these options was greater than the average market price of the common shares during the interim periods then ended.

Balance at February 28, 2015	\$ (41.2)	\$ (35.5)	\$ (2.0)	\$ (78.7)

Note 13 Acquisition

On December 4, 2015, we acquired certain assets of Vantem Modular LLC, which designs, manufactures, and distributes modular shelters. The purchase price of the acquisition was \$4.8 million paid at closing with future royalties of up to \$5.0 million. The purchase price has been allocated to intangible assets on a preliminary basis pending completion of the evaluation of the fair value of the assets acquired and liabilities assumed. This business will operate as part of our Expeditionary Services segment.

Table of Contents**Note 14 Business Segment Information**

Consistent with how our chief operating decision making officer (Chief Executive Officer) evaluates performance and the way we are organized internally, we report our activities in two business segments: *Aviation Services* comprised of supply chain and maintenance, repair and overhaul (MRO) activities and *Expeditionary Services* comprised of airlift and mobility activities.

The Aviation Services segment consists of businesses that provide spares and maintenance support for aircraft operated by our commercial and government/defense customers. Sales in the Aviation Services segment are derived from the sale and lease of a wide variety of new, overhauled and repaired engine and airframe parts and components to the commercial aviation and government and defense markets. We provide customized inventory supply chain management, performance based logistics programs, aircraft component repair management services, and aircraft modifications. The segment also includes repair, maintenance and overhaul of aircraft, landing gear and components. We also sell and lease used commercial aircraft (exclusively through joint ventures following the sale of our last two wholly-owned aircraft in the fourth quarter of fiscal 2015). Cost of sales consists principally of the cost of product, direct labor, and overhead.

The Expeditionary Services segment consists of businesses that provide products and services supporting the movement of equipment and personnel by the U.S. Department of Defense (DoD), foreign governments and non-governmental organizations. Sales in the Expeditionary Services segment are derived from the delivery of airlift services to mostly government and defense customers and the design and manufacture of pallets, shelters, and containers used to support the U.S. military's requirements for a mobile and agile force. We also provide system integration services for specialized command and control systems. Cost of sales consists principally of aircraft maintenance costs, depreciation, the cost of material to manufacture products, direct labor and overhead.

The accounting policies for the segments are the same as those described in Note 1 of Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the year ended May 31, 2015. Our chief operating decision making officer evaluates performance based on the reportable segments and utilizes gross profit as a primary profitability measure. Gross profit is calculated by subtracting cost of sales from sales. The assets and certain expenses related to corporate activities are not allocated to the segments. Our reportable segments are aligned principally around differences in products and services.

Selected financial information for each segment is as follows:

	Three Months Ended February 29/28,		Nine Months Ended February 29/28,	
	2016	2015	2016	2015
Sales:				
Aviation Services	\$ 349.2	\$ 318.4	\$ 1,024.6	\$ 955.9

Note 15 Legal Proceedings

DynCorp International LLC v. AAR Airlift Group, Inc.

On November 5, 2015, AAR Airlift Group, Inc. (AAR Airlift), a wholly-owned subsidiary of AAR CORP. filed a motion to dismiss a First Amended Complaint filed by DynCorp International LLC (DynCorp) alleging that AAR Airlift misappropriated DynCorp's trade secrets in connection with the submission of proposals pursuant to the solicitation issued by the Department of State Bureau of International Narcotics and Law Enforcement Affairs, Office of Aviation (INL/A) in support of the WASS program.

On January 14, 2016, the Court granted AAR Airlift's motion to dismiss the First Amended Complaint. On February 2, 2016, DynCorp filed an appeal to the United States Court of Appeals for the Eleventh Circuit with respect to the Court's order on the motion to dismiss and other orders issued by the Court in this case.

AAR Airlift will continue to defend itself vigorously against DynCorp's lawsuit and any attempt to invalidate or interfere with AAR Airlift's lawful participation in the INL/A contract award competition.

OIG Investigation

The U.S. Department of State received and referred to its Office of Inspector General (OIG) a May 2015 letter from DynCorp in which DynCorp made substantially the same allegations against AAR Airlift as set forth in both its original complaint and its First Amended Complaint. The OIG is investigating these allegations, and AAR Airlift is cooperating fully in that investigation.

Table of Contents

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in millions)

General Overview

Upon completing our annual strategic review process and assessing our markets, we entered fiscal 2015 with a mission to narrow our focus, excel as an independent services provider to the global commercial aviation and government and defense markets, strengthen our balance sheet, and improve shareholder return. The comprehensive plan included exploring selling certain manufacturing businesses and as fiscal 2015 progressed included a review of our underperforming product lines and inventories in our services businesses to determine which product areas to focus on going forward.

In the first phase of our transformation, we sold the Telair Cargo Group for total proceeds of \$733 million including contingent consideration received in the first quarter of fiscal 2016 of \$28 million. We also discontinued our Precision Systems Manufacturing (PSM) businesses in fiscal year 2015 and are currently marketing the businesses for sale. In phase two, we used a portion of the Telair proceeds to improve our capital structure through the return of \$152 million to shareholders from shares repurchases and the redemption of our Senior Notes for \$370.6 million to reduce our annual interest expense. In phase three, we streamlined our remaining businesses, including realigning the Company's corporate office, reducing overhead expenses, and consolidating our airframe maintenance, repair, and overhaul business through the closure of our Hot Springs, Arkansas facility.

We report our activities in two business segments: *Aviation Services* comprised of supply chain and MRO activities and *Expeditionary Services* comprised of airlift and mobility activities.

The Aviation Services segment consists of businesses that provide spares and maintenance support for aircraft operated by our commercial and government/defense customers. Sales in the Aviation Services segment are derived from the sale and lease of a wide variety of new, overhauled and repaired engine and airframe parts and components to the commercial aviation and government and defense markets. We provide customized inventory supply chain management, performance based logistics programs, aircraft component repair management services, and aircraft modifications. The segment also includes repair, maintenance and overhaul of aircraft, landing gear and components. We also sell and lease used commercial aircraft (exclusively through joint ventures following the sale of our last two wholly-owned aircraft in the fourth quarter of fiscal 2015). Cost of sales consists principally of the cost of product, direct labor, and overhead.

The Expeditionary Services segment consists of businesses that provide products and services supporting the movement of equipment and personnel by the U.S. DoD, foreign governments and non-governmental organizations. Sales in the Expeditionary Services segment are derived from the delivery of airlift services to mostly government and defense customers and the design and manufacture of pallets, shelters, and containers used to support the U.S. military's requirements for a mobile and agile force. We also provide system integration services for specialized command and control systems. Cost of sales consists principally of aircraft maintenance costs, depreciation, the cost of material to manufacture products, direct labor and overhead.

The Telair Cargo Group and PSM businesses have been reported as discontinued operations for all periods presented.

The accounting policies for the segments are the same as those described in Note 1 of Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the year ended May 31, 2015. Our chief operating decision making officer (Chief Executive Officer) evaluates performance based on the reportable segments and utilizes gross profit as a primary profitability measure. Gross profit is calculated by subtracting cost of sales from sales. The assets and certain expenses related to corporate activities are not allocated to the segments. Our reportable segments are aligned principally around differences in products and services.

Table of Contents**Results of Operations**

Sales and gross profit for our two business segments for the three- and nine months ended February 29, 2016 and February 28, 2015 were as follows:

	Three Months Ended February 29/28,			Nine Months Ended February 29/28,		
	2016	2015	% Change	2016	2015	% Change

	\$ (0.3)	\$ (0.6)	(50.0)%	\$ 6.0	\$ 26.9	(77.7)%

Three-Month Period Ended February 29, 2016*Aviation Services Segment*

Sales in the Aviation Services segment increased \$30.8 million or 9.7% over the prior year period principally due to a \$28.8 million or 36.2% increase in sales to government and defense customers. The increase in sales to government and defense customers was primarily attributable to increased volume in programs of \$18.2 million and higher volumes in distribution of \$6.3 million over the prior year period.

During the third quarter of fiscal 2016, sales in this segment to commercial customers increased \$2.0 million or 0.8% over the prior year period. The increase was primarily due to higher MRO sales of \$17.7 million as volume increased in our airframe maintenance facilities. Sales to commercial customers also increased in distribution by \$7.0 million primarily related to a new consumable and expendable distribution contract announced in the second half of fiscal 2014. These increases were largely offset by lower demand in aftermarket parts trading of \$17.4 million.

Cost of sales in Aviation Services increased \$22.9 million or 8.6% which was largely in line with the sales increase discussed above. Gross profit in the Aviation Services segment increased \$7.9 million or 15.6% over the prior year period. Gross profit on sales to government and defense customers increased \$8.2 million or 65.6% over the prior year, with programs the largest driver of the increase. Improved profitability in programs also helped increase the gross profit margin on sales to government and defense customers from 15.7% in the prior year period to 19.1% in fiscal 2016.

Gross profit on sales to commercial customers decreased \$0.3 million or 0.8% from the prior year period as the gross profit from the decreased volumes in aftermarket trading more than offset the gross profit from the higher MRO volumes. The gross profit margin on sales to commercial customers decreased slightly from 16.0% to 15.7% primarily as a result of the reduced volumes in aftermarket parts trading.

Table of Contents

Expeditionary Services Segment

Sales in the Expeditionary Services segment decreased \$8.1 million or 13.1% from the prior year period. Sales declined \$14.3 million due to lower demand for mobility products as the DoD reduced its purchases of these products due to reduced troop activity. This decrease was partially offset by sales of expeditionary airlift services which increased \$6.3 million over the prior year period due primarily to contract positions outside of Afghanistan. We expect the softness in Expeditionary Services to continue as a result of weak demand and pricing pressures in the competitive environment for DoD products and services.

Gross profit in the Expeditionary Services segment improved slightly from a loss of \$0.6 million in the prior year period to a loss of \$0.3 million in fiscal 2016. Cost of sales for the three month period ended February 28, 2015 included \$4.7 million of impairment charges related to five aircraft available for sale and their related inventory and rotatable assets. No impairment charges were recognized in fiscal 2016. Lower sales volumes for mobility products decreased gross profit by \$4.0 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$0.9 million in fiscal 2016 reflecting increased legal expenses and additional investments in business development activities. These were partially offset by the realization of benefits from the cost control measures implemented by the Company during fiscal 2015.

Interest Expense

Interest expense decreased \$4.7 million in fiscal 2016 compared to the prior year period primarily as a result of the redemption of our \$325 million 7.25% Senior Notes in the fourth quarter of fiscal 2015.

Income Taxes

Our effective income tax rate for continuing operations was 24.1% for the three month period ended February 29, 2016 compared to 26.9% in the prior year period. The effective income tax rate for fiscal 2016 includes a benefit of \$2.5 million related to the correction of prior year immaterial errors. We also recognized tax expense of \$0.9 million in the three month period ended February 29, 2016 for a valuation allowance against certain deferred tax assets.

Nine-Month Period Ended February 29, 2016

Aviation Services Segment

For the nine-month period ended February 29, 2016, sales in the Aviation Services segment increased \$68.7 million or 7.2% over the prior year period primarily as a result of a \$70.3 million or 29.7% increase in sales to government and defense customers. The increase in sales to government and defense customers was primarily attributable to increased volumes in programs of \$42.0 million and higher volumes in distribution of \$27.1 million largely from the new contract wins announced in the second half of fiscal 2014.

Sales in this segment to commercial customers decreased \$1.6 million or 0.2% from the prior year primarily due to lower demand in aftermarket parts trading of \$51.8 million offset by higher MRO sales of \$36.6 million and higher volumes in distribution of \$22.6 million.

Cost of sales in Aviation Services increased \$54.8 million or 6.8% which was largely in line with the sales increase discussed above. Gross profit in the Aviation Services segment increased \$13.9 million or 9.1%. Gross profit in this segment on sales to government and defense customers increased \$15.7 million or 41.6% over the prior year, with programs contributing the majority of the increase. Improved profitability on programs also helped increase the gross profit margin on sales to government and defense customers from 15.9% in the prior year period to 17.4% in fiscal 2016.

Gross profit on sales to commercial customers decreased \$1.8 million or 1.6% from the prior year, with the gross profit margin decreasing slightly from 16.0% in the prior year period to 15.8% in fiscal 2016. The decrease in

Table of Contents

gross profit on sales to commercial customers is primarily attributable to reduced volumes in aftermarket parts trading partially offset by the stronger MRO volumes discussed above.

Expeditionary Services Segment

For the nine-month period ended February 29, 2016, sales in the Expeditionary Services segment decreased \$42.8 million or 19.2% from the prior year period. The decrease in sales was driven by a decrease of \$34.3 million due to lower demand for mobility products as the DoD reduced its purchases of these products due to reduced troop activity. The remainder of the decrease in sales in the Expeditionary Services segment was attributable to expeditionary airlift services, which experienced a reduction in aircraft positions in Afghanistan as a result of the troop drawdown.

Gross profit in the Expeditionary Services segment decreased \$20.9 million or 77.7%, with expeditionary airlift services comprising \$12.5 million of the decrease in gross profit. The lower sales volumes at mobility products contributed the remainder of the gross profit decrease. The gross profit margin decreased to 3.3% in fiscal 2016 from 12.1% in the prior year period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$4.2 million in fiscal 2016 primarily due to increased legal expenses and additional investments in business development activities. These were partially offset by the realization of benefits from the cost control measures implemented by the Company during fiscal 2015.

Interest Expense

Interest expense decreased \$14.2 million in fiscal 2016 compared to the prior year period primarily as a result of the redemption of our \$325 million 7.25% Senior Notes in the fourth quarter of fiscal 2015.

Income Taxes

Our effective income tax rate for continuing operations was 30.9% for the nine-month period ended February 29, 2016 compared to 34.3% in the prior year period. The effective income tax rate for fiscal 2016 includes a benefit of \$2.5 million related to the correction of prior year immaterial errors.

Liquidity, Capital Resources and Financial Position

Our operating activities are funded and commitments met principally through the generation of cash from operations and borrowings against our unsecured credit facility. Periodically, we may raise capital through the issuance of common stock and debt financing in the public and private markets. We continually evaluate various financing arrangements, including the issuance of common stock or debt, which would allow us to improve our liquidity position and finance future growth on commercially reasonable terms. Our continuing ability to borrow from our lenders and issue debt and equity securities to the public and private markets in the future may be negatively affected by a number of factors, including the overall health of the credit markets, general economic conditions, airline industry conditions, geo-political events, and our operating performance. Our ability to generate cash from operations is influenced primarily by our operating performance and changes in working capital.

At February 29, 2016, our liquidity and capital resources included cash of \$50.4 million and working capital of \$611.0 million.

On March 24, 2015, we entered into an amendment to our Credit Agreement dated April 12, 2011, as amended, with various financial institutions, as lenders and Bank of America, N.A., as administrative agent for the lenders. The amended Credit Agreement includes an aggregate revolving credit commitment of \$500 million and provides that the Company, under certain circumstances, may request an increase to the revolving credit commitment by an aggregate amount of up to \$250 million, not to exceed \$750 million in total. The Credit Agreement matures March 24, 2020.

Table of Contents

Borrowings under the amended Credit Agreement bear interest at the offered Eurodollar Rate plus 100 to 200 basis points based on certain financial measurements if a Eurodollar Rate loan, or at the offered fluctuating Base Rate plus 0 to 100 basis points based on certain financial measurements if a Base Rate loan.

Borrowings outstanding under the Credit Agreement at February 29, 2016 were \$135.0 million and there were approximately \$12.6 million of outstanding letters of credit, which reduced the availability of this facility to \$352.4 million. There are no other terms or covenants currently limiting the availability of this facility. We also had \$2.7 million available under a foreign line of credit at February 29, 2016.

We intend to retire current maturities of \$35.7 million through a combination of cash on hand and borrowings under our Credit Agreement.

We are in compliance with all financial and other covenants under each of our financing arrangements.

Cash Flows from Operating Activities

Net cash used in operating activities continuing operations was \$14.1 million in the nine month period ended February 29, 2016 compared to cash provided of \$4.4 million in the prior year period. The decrease from the prior period of \$18.5 million was primarily attributable to a decrease in accrued and other liabilities over the prior period.

The use of cash of \$14.1 million in the nine month period ended February 29, 2016 was primarily due to an increase in inventory of \$40.4 million. Inventories increased \$33.8 million in Aviation Services due to continued investment to support new distribution contract wins announced in the second half of fiscal 2014.

Cash Flows from Investing Activities

Net cash used in investing activities continuing operations was \$32.9 million during the nine month period ended February 29, 2016 compared to a use of cash of \$20.2 million in the prior year period. The decrease of \$12.7 million over the prior period was primarily attributable to additional capital expenditures in fiscal 2016 primarily in expeditionary airlift services. During the nine month period ended February 29, 2016, we completed sale-leaseback transactions for two AW-189 rotary-wing aircraft which resulted in proceeds of \$38.5 million.

Net cash provided from investing activities discontinued operations was \$26.9 million during the nine month period ended February 29, 2016 which included \$28.3 of proceeds from contingent consideration from our sale of Telair Cargo Group.

Cash Flows from Financing Activities

Net cash provided from financing activities – continuing operations was \$16.0 million during the nine month period ended February 29, 2016 compared to a use of cash of \$2.7 million in the prior year period. The increase of \$18.7 million was primarily attributable to increased net borrowings in fiscal 2016 partially offset by \$17.4 million of treasury stock purchases in fiscal 2016 compared to \$1.7 million of treasury stock purchases in the prior year period.

Critical Accounting Policies and Significant Estimates

We make a number of significant estimates, assumptions and judgments in the preparation of our financial statements. See *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our 2015 Form 10-K for a discussion of our critical accounting policies. There have been no significant changes to the application of our critical accounting policies during the third quarter of fiscal 2016.

Table of Contents

Forward-Looking Statements

This report contains certain forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on beliefs of our management, as well as assumptions and estimates based on information available to us as of the dates such assumptions and estimates are made, and are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or those anticipated, depending on a variety of factors, including those factors set forth under Part I, Item 1A in our Annual Report on Form 10-K for the year ended May 31, 2015. Should one or more of those risks or uncertainties materialize adversely, or should underlying assumptions or estimates prove incorrect, actual results may vary materially from those described. Those events and uncertainties are difficult or impossible to predict accurately and many are beyond our control. We assume no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Table of Contents

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk includes fluctuating interest rates under our credit agreements, changes in foreign exchange rates, and credit losses on accounts receivable. See Note 1 of Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for a discussion of accounts receivable exposure.

Foreign Currency Risk. Revenues and expenses of our foreign operations are translated at average exchange rates during the period, and balance sheet accounts are translated at period-end exchange rates. Balance sheet translation adjustments are excluded from the results of operations and are recorded in stockholders' equity as a component of accumulated other comprehensive loss. On March 26, 2015, we sold our Telair Cargo Group which comprised the majority of our foreign operations and as a result, a hypothetical 10 percent devaluation of the U.S. dollar against foreign currencies would not have had a material impact on our financial position or continuing operations as of February 29, 2016.

Interest Rate Risk. Refer to the section Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended May 31, 2015. There were no significant changes during the quarter ended February 29, 2016.

Item 4 Controls and Procedures

As required by Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of February 29, 2016. This evaluation was carried out under the supervision and with participation of our Chief Executive Officer and Chief Financial Officer. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Therefore, effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of February 29, 2016, ensuring that information required to be disclosed in the reports that are filed under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported in a timely manner.

There were no changes in our internal control over financial reporting during the third quarter ended February 29, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1 Legal Proceedings

DynCorp International LLC v. AAR Airlift Group, Inc.

On November 5, 2015, AAR Airlift Group, Inc. ("AAR Airlift"), a wholly-owned subsidiary of AAR CORP. filed a motion to dismiss a First Amended Complaint filed by DynCorp International LLC ("DynCorp") alleging that AAR Airlift misappropriated DynCorp's trade secrets in connection with the submission of proposals pursuant to the solicitation issued by the Department of State Bureau of International Narcotics and Law Enforcement Affairs, Office of Aviation ("INL/A") in support of the WASS program.

On January 14, 2016, the Court granted AAR Airlift's motion to dismiss the First Amended Complaint. On February 2, 2016, DynCorp filed an appeal to the United States Court of Appeals for the Eleventh Circuit with respect to the Court's order on the motion to dismiss and other orders issued by the Court in this case.

AAR Airlift will continue to defend itself vigorously against DynCorp's lawsuit and any attempt to invalidate or interfere with AAR Airlift's lawful participation in the INL/A contract award competition.

For additional information about this lawsuit, please refer to the "Legal Proceedings" section of the Company's Quarterly Reports on Form 10-Q filed with respect to the quarters ended August 31, 2015 and November 30, 2015.

Item 1A Risk Factors

There have been no material changes to our risk factors as set forth in our Annual Report on Form 10-K for the year ended May 31, 2015.

Table of Contents**Item 2 Unregistered Sales of Equity Securities and Use of Proceeds**

(c) The following table provides information about purchases we made during the quarter ended February 29, 2016 of equity securities that are registered by us pursuant to Section 12 of the Exchange Act:

Period		Total Number of Shares Purchased (1)	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
12/1/2015	12/31/2015				
1/1/2016	1/31/2016	312,397	\$ 23.44	312,397	
2/1/2016	2/29/2016				
Total		312,397	\$ 23.44	312,397	\$ 84,096,921

(1) These amounts include share repurchases pursuant to our stock repurchase plan and shares repurchased related to restricted stock grants.

(2) On March 16, 2015, we announced a Board authorization to purchase up to \$250 million of our common stock with no expiration date.

Item 6 Exhibits

The exhibits to this report are listed on the Exhibit Index included elsewhere herein. Management contracts and compensatory arrangements, if any, have been marked with an asterisk (*) on the Exhibit Index.
