## Edgar Filing: SANDY SPRING BANCORP INC - Form 8-K

Commission Regulation G and Item 10 of Commission Regulation S-K. The issuer has for many years used this traditional efficiency ratio as a measure of operating expense control and efficiency of operations. Management believes that this traditional ratio better focuses attention on the operating performance of the issuer over time than does a GAAP based ratio, and is highly useful in comparing period-to-period operating performance of the Company's core business operations. It is used by management as part of its assessment of its performance in managing noninterest expenses. However this measure is supplemental, and is not a substitute for an analysis of performance measures based on GAAP. Exhibit 99 also includes disclosure and discussion of the GAAP-based efficiency ratio and the differences between the two ratios. The traditional efficiency ratio used by the issuer may not be comparable to GAAP or non-GAAP efficiency ratios reported by other financial institutions.
