Shaw Communications Inc. announces solid start to 2007 with first quarter results

Calgary, Alberta (January 11, 2007) Shaw Communications Inc. announced today results for its first quarter ended November 30, 2006. Consolidated service revenue of \$671.0 million for the three month period, increased 13.8% over the comparable quarter and total service operating income before amortization¹ of \$299.8 million improved by 17.4%. Funds flow from operations² increased to \$243.9 million for the quarter compared to \$197.2 million.

Commenting on the results, Jim Shaw, Chief Executive Officer, noted: We are off to a solid start in fiscal 2007. Both divisions reported strong revenue growth and improved service operating income before amortization over last year.

We continued the roll-out of Digital Phone with the service now available to approximately 2.3 million homes, representing approximately 70% of homes passed. We provide a facilities-based, competitive alternative to the traditional phone companies and offer the services and value our customers are looking for.

Customer gains were posted this quarter across all products. Digital Phone lines increased 38,197 to 250,904 as at November 30, 2006. Internet and Digital subscribers increased by 35,877 to 1,348,639 and 25,331 to 696,887, respectively. Basic subscribers were up 12,664 to 2,213,457 and DTH customers increased 2,426 to 871,634.

Free cash flow² for the quarter was \$76.1 million compared to \$32.1 million for the same period last year. The growth in free cash flow was primarily related to the increase in service operating income before amortization.

Shaw's continued customer growth and improved financial performance results from our focus on the customer, the commitment of our team, the capabilities of our network, and the strength of our product offering. said Jim Shaw.

Net income of \$81.1 million or \$0.38 per share for the first quarter ended November 30, 2006 compared to net income of \$75.7 million or \$0.35 per share for the same quarter last year. The current and comparable three month period included non-operating items which are more fully detailed in Management's Discussions and Analysis (MD&A).

These included a tax recovery related to reductions in enacted income tax rates in the comparable three month period.³

Cable service revenue for the quarter of \$499.2 million was up 15.8% over the same period last year primarily as a result of customer growth and rate increases. Service operating income before amortization for the three month period increased 14.6% over the same quarter to \$237.8 million driven by the growth in revenue.

Satellite division quarterly service revenue of \$171.8 million improved 8.4% over the same period last year primarily due to rate increases and customer growth. Service operating income before amortization for the quarter increased by 29.7% to \$62.0 million. The improvement was largely due to growth in DTH revenues.

In closing, Mr. Shaw summarized: Throughout the remainder of this year we will continue to focus on our key priorities of customer service, the further expansion of the Digital Phone foot print, strengthening our video offering with new programming and HDTV services, and bundling strategies. We also plan to launch a business voice service. Our customer focus continues to differentiate us, strengthen our financial position, and build value for all shareholders.

ADDITIONAL HIGHLIGHTS

The expansion of Shaw's Digital Phone footprint continued with roll-outs during the quarter in New Westminster, British Columbia; Lethbridge, Medicine Hat and Red Deer, Alberta; and, Saskatoon, Saskatchewan. Most recently, the service was launched in Kelowna and Kamloops in British Columbia. As at November 30, 2006, the number of Digital Phone lines, including pending installations, was 250,904.

Customer growth continued across all business lines in the first quarter with increases of 12,664 for Basic cable, 25,331 for Digital, 35,877 for Internet, 38,197 for Digital Phone and 2,426 for DTH.

Consolidated service revenue of \$671.0 million for the three month period, increased 13.8% over the prior year and total service operating income before amortization² of \$299.8 million improved by 17.4% over the same period. Consolidated free cash flow more than doubled over the same quarter last year to \$76.1 million.

The Company announced a 67% increase in the equivalent annual dividend rate on Shaw's Class A Participating Shares and Class B Non-Voting Participating Shares to an equivalent annual dividend rate of \$0.995 per Class A Participating Share and \$1.00 per Class B Non-Voting Participating Share, payable in monthly installments commencing December 29, 2006.

The Company received approval from the Toronto Stock Exchange (TSX) to renew its normal course issuer bid to purchase up to an additional 15,300,000 of its Class B Non-Voting Shares for cancellation. Shaw's normal course issuer bid will now expire on November 16, 2007.

Consolidated Overview

Consolidated service revenue of \$671.0 million for the three month period improved by 13.8% over the same period last year primarily due to customer growth and rate increases. Consolidated service operating income before amortization for the quarter increased by 17.4% over the comparable period to \$299.8 million primarily due to overall revenue growth. These improvements were partially offset by increased costs in the cable division resulting from expenditures incurred to support continued growth, the delivery of quality customer service, enhancements to products, and the launch of Digital Phone in new markets.

Net income was \$81.1 million for the three months ended November 30, 2006, compared to \$75.7 million for the same period last year. A number of non-operating items affected net income in each of the periods including a future tax recovery recorded during the first quarter of fiscal 2006 related to a reduction in corporate income tax rates which contributed \$31.4 million to net income. Outlined below are further details on this and other operating and non-operating components of net income for each quarter. The fiscal 2006 tax recovery, related to reductions in corporate income tax rates, has been reflected as non-operating.

Earnings per share were \$0.38 for the quarter which represents a \$0.03 improvement over the same period last year. The improvement in the current quarter was due to higher net income of \$5.5 million and included increased service operating income before amortization of \$44.5 million and decreased amortization of \$14.2 million. These improvements were partially offset by increased income taxes of \$47.8 million. The increased income taxes were due to higher service operating income before amortization in the current quarter and a tax recovery of \$31.4 million in the comparable quarter related to reductions in corporate income tax rates.

Net income in the current quarter decreased \$129.2 million over the fourth quarter of fiscal 2006. The reduction was due to a \$150.0 million tax recovery recorded in the fourth quarter, primarily related to reductions in corporate income tax rates, partially offset by improved service operating income before amortization in the current quarter of \$24.7 million.

Shaw Communications Inc.

Funds flow from operations was \$243.9 million in the first quarter compared to \$197.2 million last year. The growth was principally due to increased service operating income before amortization of \$44.5 million and reduced interest expense of \$1.6 million.

Consolidated free cash flow for the quarter of \$76.1 million increased \$44.0 million over the comparable quarter due to improved service operating income before amortization. The Cable division generated \$44.4 million of free cash flow for the quarter compared to \$32.0 million in the comparable period. The Satellite division achieved free cash flow of \$31.7 million compared to free cash flow of \$0.1 million last year.

During the quarter, the Company increased the equivalent annual dividend rate on Shaw's Class A Participating Shares and Class B Non-Voting Participating Shares to \$0.995 per Class A Participating Share and \$1.00 per Class B Non-Voting Participating Share, payable in monthly installments commencing December 29, 2006.

In November, 2006 Shaw received approval from the TSX to renew its normal course issuer bid to purchase its Class B Non-Voting Shares for a further one year period. The Company's normal course issuer bid will expire on November 16, 2007 and Shaw is authorized to repurchase up to an additional 15,300,000 Class B Non-Voting Shares. Shaw continues to believe that purchases of Class B Non-Voting Shares under the bid are in the best interests of its shareholders and that such purchases constitute a desirable use of Shaw's free cash flow.

Key Performance Drivers

The Company's continuous disclosure documents may provide discussion and analysis of non-GAAP financial measures. These financial measures do not have standard definitions prescribed by Canadian GAAP or US GAAP and therefore may not be comparable to similar measures disclosed by other companies. The Company utilizes these measures in making operating decisions and assessing its performance. Certain investors, analysts and others, utilize these measures in assessing the Company's financial performance and as an indicator of its ability to service debt. These non-GAAP financial measures have not been presented as an alternative to net income or any other measure of performance required by Canadian or US GAAP.

The following contains a listing of the Company's use of non-GAAP financial measures and provides a reconciliation to the nearest GAAP measurement or provides a reference to such reconciliation.

Service operating income before amortization and operating margin

Service operating income before amortization is calculated as service revenue less operating, general and administrative expenses and is presented as a sub-total line item in the Company's unaudited interim Consolidated Statements of Income and Deficit. It is intended to indicate the Company's ability to service and/or incur debt, and therefore it is calculated before amortization (a non-cash expense) and interest. Service operating income before amortization is also one of the measures used by the investing community to value the business. Operating margin is calculated by dividing service operating income before amortization by service revenue.

Shaw Communications Inc.Free cash flow

The Company utilizes this measurement as it measures the Company's ability to repay debt and return cash to shareholders. Free cash flow for cable and satellite is calculated as service operating income before amortization, less interest, cash taxes on net income, capital expenditures (on an accrual basis) and equipment costs (net). Consolidated free cash flow is calculated as follows:

	Three months ended November 30,

OPERATING HIGHLIGHTS

During the quarter the Company added 38,197 Digital Phone lines to total 250,904, including pending installations. The expansion of Shaw's Digital Phone footprint continued with the service now available to approximately 70% of homes passed and included roll-outs during the quarter in New Westminster, British Columbia; Lethbridge, Medicine Hat and Red Deer, Alberta; and, Saskatoon, Saskatchewan. Most recently, the service was launched in Kelowna and Kamloops in British Columbia.

7

Shaw Communications Inc.

Customer growth continued in the first quarter with increases of 12,664 for Basic cable, 25,331 for Digital, and 35,877 for Internet. At November 30, Basic subscribers total 2,213,457, and Digital and Internet stand at 696,887 and 1,348,639, respectively. Internet penetration of basic is now 60.9%.

Shaw completed the acquisition of several cable systems that complement existing operations including Whistler Cable and Grand Forks, both in British Columbia, as well as a system operating in and around Kenora, Ontario adding a total of 14,702 cable subscribers.

Cable service revenue improved 15.8% over the same period last year primarily as a result of customer growth and rate increases. Service operating income before amortization increased 14.6% for the comparable three month period. The increase was driven by revenue growth, partially offset by increased costs resulting from expenditures incurred to support continued growth, the delivery of quality customer service, and the launch of Digital Phone.

Service revenue improved \$31.9 million or 6.8% over the fourth quarter of fiscal 2006 as a result of customer growth and rate increases. Service operating income before amortization improved \$21.0 million or 9.7% over this same period mainly due to the revenue related growth.

First quarter capital expenditures were \$141.9 million, an increase of \$20.3 million over the same period last year. Shaw invested \$29.2 million in the first quarter of 2007 on Digital Phone compared to \$35.4 million in the same quarter last year.

Spending in the upgrade and enhancement category increased \$18.2 million over the comparable three month period primarily due to increase network capacity to support digital phone and internet growth, upgrades to support Video-On-Demand (VOD), digital cable and high definition (HD) TV initiatives. Spending in Buildings and Other was up \$6.8 million over the comparable three month period mainly due to various facilities projects.

Success based capital decreased over the comparable three month period to \$20.3 million. Digital Phone success based capital increased during the current quarter as a result of customer growth, however, this was more than offset by reduced success based capital related to digital cable terminal (DCT) sales as a result of price increases implemented during the latter part of fiscal 2006.

Throughout the quarter Shaw delivered on its strategy of enhancing its various service offerings, and launching new products. In September, the Company announced the doubling of the download speed of the High-Speed Lite Internet service, at no additional cost to the customer, and in November announced the launch of its newest Internet product, Shaw High-Speed Nitro. This new service has a download speed of up to 25 Mbps and an upload speed of 1 Mbps. Shaw now offers four levels of Internet service including High Speed Nitro, High Speed Xtreme-I, High Speed Internet and High Speed Lite.

Shaw Communications Inc.

The Company continues to expand VOD content, signing agreements during the quarter with Sony Pictures and CBS Paramount to provide *Survivor: Cook Islands* on Shaw's VOD service.

The Company also recently launched a new Standard Definition Personal Video Recorder (PVR) to complement the HD PVR offered for the past several years. These ongoing initiatives allow Shaw to meet the needs of their customers home entertainment requirements and contribute to continued subscriber growth.

OPERATING HIGHLIGHTS

Free cash flow for the quarter was \$31.7 million compared to \$0.1 million for the same period last year.

Star Choice added 2,426 customers to total 871,634.

For the second year in a row Star Choice received the SQM Group Inc. award for its customer satisfaction rating for customer contact in a call centre within the Telecommunications and TV Industry. Service revenue improved 8.4% over the same quarter last year primarily as a result of rate increases and customer growth. Service operating income before amortization increased 29.7% over the comparable three month period to \$62.0 million. The improvement was primarily due to the growth in service revenue, lower bad debt, the recovery of provisions related to certain contractual matters, and certain reduced expenses.

Shaw Communications Inc.

Service revenue increased 4.4% over the fourth quarter of fiscal 2006 primarily due to rate increases and customer growth. Service operating income before amortization improved 6.3% over this same quarter primarily due to revenue growth.

Capital spending of \$20.2 million decreased \$17.2 million over the comparable three month period. Quarterly success based capital expenditures of \$18.4 million was \$11.8 million lower mainly due to favorable pricing on receivers and reduced activations. Spending in Transponders and Other decreased \$5.4 million over the comparable period primarily due to spending in the comparable quarter on uplink equipment to add additional transponder capacity.

During the quarter, and for the second consecutive year, Star Choice was recognized by SQM Group Inc., receiving their award for customer satisfaction within the Telecommunications and TV Industry. In addition to the focus on customer service, Star Choice has also undertaken several initiatives to enhance the quality of the programming service it offers by continually adding popular channels and new HD channels. Star Choice expanded their channel line up with new HD programming adding A&E HD, Super Ecran HD and Discovery HD during the quarter, and most recently added Showcase HD and National Geographic HD. They now offer 20 HD channels.

Deferred charges	(1,237)	(1,258)	(1.7)
Property, plant and equipment	(92,165)	(100,840)	(8.6)

The increase in amortization of deferred equipment revenue over the comparative period is primarily due to growth in sales of higher priced HD digital equipment commencing in fiscal 2005. Amortization of property, plant and equipment decreased over the comparative period as the impact of assets that became fully depreciated in fiscal 2006 exceeded amortization on new capital purchases.

Interest expense decreased over the comparative period mainly as a result of lower average debt levels.

Investment activity

During the current and comparative quarter, the Company realized gains of \$0.4 million and \$1.7 million, respectively, on the sale of minor interests in publicly traded companies.

Foreign exchange gain on unhedged and hedged long-term debt

	Three months ended November 30,		
	2006	2005	Change %
<i>(\$000 s Cdn)</i>			
Foreign exchange gain on unhedged long-term debt		3,481	(100)

In June 2006, the Company amended its existing credit facility and repaid US dollar denominated bank loans. Until that time Shaw recorded foreign exchange gains on the translation of foreign denominated unhedged bank debt. In addition, the Company recorded a foreign exchange gain on the US \$172.5 million COPrS prior to entering into a US dollar forward purchase contract in the first quarter of 2006 to hedge the redemption of the issue. Currently the Company does not have any foreign denominated unhedged long-term debt and therefore, does not anticipate recording any further foreign exchange gains and losses.

Under Canadian generally accepted accounting principles (GAAP), the Company translates long-term debt at period-end foreign exchange rates. Because the Company follows hedge accounting, the resulting foreign exchange gains or losses on translating hedged long-term debt are included in deferred credits or deferred charges. As a result, the amount of hedged long-term debt that is reported under GAAP is often different than the amount at which the hedged debt would be settled under existing cross-currency interest rate agreements. As outlined in Note 4 to the unaudited interim Consolidated Financial Statements, if the rate of translation was adjusted to reflect the hedged rates of the Company s cross-currency agreements (which fix the liability for interest and principal), long-term debt would increase by \$373.1 million (August 31, 2006 \$408.7 million) which represents the corresponding hedged amounts included in deferred credits.

Shaw Communications Inc.

Other gains and losses

This category consists mainly of realized and unrealized foreign exchange gains and losses on US dollar denominated current assets and liabilities, gains and losses on disposal of property, plant and equipment, and the Company's share of the operations of Burrard Landing Lot 2 Holdings Partnership (the Partnership). Due to fluctuations of the Canadian dollar relative to the US dollar, the Company recorded a foreign exchange loss of \$1.3 million for the quarter (2005 gain of \$1.2 million).

Income Taxes

Income taxes increased over the comparative period primarily due to the future income tax recovery of \$31.4 million related to reductions in corporate income tax rates recorded in the comparative quarter and increased income taxes on higher income in the current quarter.

RISKS AND UNCERTAINTIES

There have been no material changes in any risks or uncertainties facing the Company since August 31, 2006. A discussion of risks affecting the Company and its business is set forth in the Company's August 31, 2006 Annual Report under the Introduction to the Business - Known Events, Trends, Risks and Uncertainties in Management's Discussion and Analysis.

FINANCIAL POSITION

Total assets at November 30, 2006 were \$7.7 billion compared to \$7.5 billion at August 31, 2006. Following is a discussion of significant changes in the consolidated balance sheet since August 31, 2006.

Current assets increased by \$16.5 million due to an increase in accounts receivable of \$16.4 million. Accounts receivable increased primarily due to customer growth, rate increases and timing of equipment shipments to retailers. Investments and other assets decreased by \$9.3 million due to the sale of an interest in a publicly traded company. Property, plant and equipment increased by \$57.7 million as current quarter capital expenditures exceeded amortization.

Broadcast licenses increased by \$67.2 million due to the acquisition of Whistler and Grand Forks cable systems in British Columbia and the Kenora cable system in Ontario.

Current liabilities (excluding current portion of long-term debt) decreased by \$16.4 million due to lower accounts payable of \$39.8 million, partially offset by increases in bank indebtedness of \$17.6 million and unearned revenue of \$5.9 million. Accounts payable decreased primarily due to timing of interest payments. Unearned revenue increased due to customer growth and rate increases.

Shaw Communications Inc.

Total long-term debt increased by \$60.5 million as a result of higher bank borrowings and Partnership debt of \$24.9 million and an increase of \$35.6 million relating to the translation of US denominated debt.

Deferred credits decreased by \$30.0 million principally due to the decrease in deferred foreign exchange gains on the translation of hedged US dollar denominated debt of \$35.6 million. Future income taxes increased by \$55.6 million due to the impact of cable system acquisitions and the future income tax expense recorded in the current year.

LIQUIDITY AND CAPITAL RESOURCES

In the current year, Shaw generated \$76.1 million of consolidated free cash flow. Shaw used its free cash flow along with the increase in bank debt of \$42.6 million, proceeds on the sale of various assets of \$9.8 million, proceeds on issuance of Class B Non-Voting Shares of \$8.8 million and other net items of \$8.6 million to fund the cash component of cable systems acquisitions of \$52.4 million, pay common share dividends of \$32.2 million and fund the net change in working capital requirements of \$61.3 million.

On November 14, 2006, Shaw received the approval of the TSX to renew its normal course issuer bid to purchase its Class B Non-Voting Shares for a further one year period. The Company is authorized to acquire up to an additional 15,300,000 Class B Non-Voting Shares, representing approximately 10% of the public float of Class B Non-Voting Shares, during the period November 17, 2006 to November 16, 2007.

At November 30, 2006, Shaw had access to \$716.6 million of available credit facilities. Based on available credit facilities and forecasted free cash flow, the Company expects to have sufficient liquidity to fund operations and obligations during the current fiscal year. On a longer-term basis, Shaw expects to generate free cash flow and have borrowing capacity sufficient to finance foreseeable future business plans and to refinance maturing debt.

Shaw Communications Inc.**CASH FLOW****Operating Activities**

Net increase in non-cash working capital balances related to operations	(61,345)	(22,193)	(176.4)
	182,591	175,015	4.3

Funds flow from operations increased over comparative periods as a result of growth in service operating income before amortization and lower interest expense. The net change in non-cash working capital balances over the comparative periods is mainly due to timing of payment of accounts payable and accrued liabilities.

Investing Activities

Cash flow used in investing activities	(201,680)	(167,767)	(33,913)

The cash used in investing activities increased \$33.9 million over the comparative quarter due to cable systems acquisitions and higher capital expenditures in the current quarter, partially offset by lower cash requirements for equipment costs (net) and inventories.

Financing Activities

The changes in financing activities during the comparative periods were as follows:

(1) See definition and discussion under Key Performance Drivers in Management's Discussion and Analysis.

(2) Diluted earnings per share equals basic earnings per share except in the fourth quarter of 2006 where diluted earnings per share is \$0.96.

(3) Funds flow from operations is presented before changes in net non-cash working capital as presented in the unaudited interim Consolidated Statements of Cash Flows.

Generally, service revenue and service operating income before amortization have grown quarter-over-quarter mainly due to customer growth and rate increases. Net income has generally trended positively quarter-over-quarter as a result of the growth in service operating income before amortization described above, reductions of interest expense as a result of debt repayment and retirement, the impact of the net change in non-operating items such as gains on sale of investments, foreign currency fluctuations on unhedged US denominated debt, fair value adjustments on foreign currency forward contracts and the impact of corporate income tax rate reductions. The exceptions to the consecutive quarter-over-quarter increases in net income are the second quarter of 2006 and first quarter of 2007. Net income declined by \$29.9 million in the second quarter of 2006 and by \$129.2 million in the first quarter of 2007 due to income tax recoveries primarily related to reductions in corporate income tax rates. The Company recorded \$31.4 million and \$150.0 million in the first and fourth quarters of 2006, respectively. As a result of the aforementioned changes in net income, basic and diluted earnings per share have trended accordingly.

ACCOUNTING STANDARDS**Update to critical accounting policies and estimates**

The Management's Discussion and Analysis (MD&A) included in the Company's August 31, 2006 Annual Report outlined critical accounting policies including key estimates and assumptions that management has made under these policies and how they affect the amounts reported in the Consolidated Financial Statements. The MD&A also

describes significant accounting policies where alternatives exist. The unaudited interim Consolidated Financial Statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements.

CAUTION CONCERNING FORWARD LOOKING STATEMENTS

Certain statements included and incorporated by reference herein may constitute forward-looking statements. Such forward-looking statements involve risks, uncertainties and other factors which may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used, the words anticipate, believe, expect, plan, intend, target, guideline, goal, and similar expressions generally identify forward-looking statements. These forward-looking statements include, but are not limited to, references to future capital expenditures (including the amount and nature thereof), financial guidance for future performance, business strategies and measures to implement strategies, competitive strengths, goals, expansion and growth of Shaw's business and operations, plans and references to the future success of Shaw. These forward-looking statements are based on certain assumptions and analyses made by Shaw in light of its experience and its perception of historical trends, current conditions and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform with expectations and predictions of the Company is subject to a number of risks and uncertainties. These factors include general economic, market or business conditions; the opportunities (or lack thereof) that may be presented to and pursued by Shaw; increased competition in the markets in which Shaw operates and from the development of new markets for emerging technologies; changes in laws, regulations and decisions by regulators in Shaw's industries in both Canada and the United States; Shaw's status as a holding company with separate operating subsidiaries; changing conditions in the entertainment, information and communications industries; risks associated with the economic, political and regulatory policies of local governments and laws and policies of Canada and the United States; and other factors, many of which are beyond the control of Shaw. Should one or more of these risks materialize or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those as described herein. Consequently, all of the forward-looking statements made in this report and the documents incorporated by reference herein are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Shaw will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company.

You should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement (and such risks, uncertainties and other factors) speaks only as of the date on which it was originally made and the Company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained in this document to reflect any change in expectations with regard to those statements or any other change in events, conditions or circumstances on which any such statement is based, except as required by law. New factors affecting the Company emerge from time to time, and it is not possible for the Company to predict what factors will arise or when. In addition, the Company cannot assess the impact of each factor on its business or the extent to which any particular factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement.

(1) Foreign denominated long-term debt is translated at the period-end foreign exchange rates. Because the Company follows hedge accounting, the resulting exchange gains and losses on translating hedged long-term debt are included in deferred charges or deferred credits. If the rate of translation was adjusted to reflect the hedged rates of the Company's cross-currency interest rate agreements (which fix the liability for interest and principal), long-term debt would increase by \$373,085 (August 31, 2006 \$408,693) representing a corresponding amount in deferred credits. The hedged rates on the Senior notes of US \$440,000, US \$225,000 and US \$300,000 are 1.4605, 1.5815 and 1.5895, respectively.

(2) Availabilities under banking facilities are as follows at November 30, 2006:

	Total	Bank loans^{(a)(b)}	Operating credit facilities^(a)

- (a) Bank loans represent liabilities classified as long-term debt. Operating credit facilities are for terms less than one year and accordingly are classified as bank indebtedness.
- (b) The \$1 billion revolving credit facility is due May 31, 2011 and is unsecured and ranks pari passu with the senior unsecured notes.
- (3) Current portion of long-term debt includes the Senior notes due October 17, 2007 and the amount due within one year on the Partnership's mortgage bonds.

Stock option plan

In our stock option plan, directors, officers, employees and consultants of the Company are eligible to receive stock options to acquire Class B Non-Voting Shares with terms not to exceed 10 years from the date of grant. Twenty-five percent of the options are exercisable on each of the first four anniversary dates from the date of the original grant. The options must be issued at not less than the fair market value of the Class B Non-Voting Shares at the date of grant. The maximum number of Class B Non-Voting Shares issuable under this plan and the warrant plan described below may not exceed 16,000,000. To date, 344,085 Class B Non-Voting Shares have been issued under these plans. During the three months ended November 30, 2006, 270,218 options were exercised for \$8,675.

The changes in options for the quarter ended November 30, 2006 are as follows:

	Shares	Weighted average exercise price \$
Outstanding at beginning of period	9,558,801	32.60
Granted	1,174,500	33.41
Forfeited	(398,383)	32.75
Exercised	(270,218)	32.10
Outstanding at end of period	10,064,700	32.70

Shaw Communications Inc.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table summarizes information about the options outstanding at November 30, 2006:

Range of prices	Number	Weighted	Weighted average exercise price	Number	Weighted
	Outstanding at November 30, 2006	average remaining contractual life		exercisable at November 30, 2006	average exercise price
\$17.37	10,000	6.89	\$ 17.37	7,500	\$ 17.37
\$29.70 - \$34.70	10,054,700	6.39	\$ 32.72	5,934,640	\$ 32.63

During the quarter, the Company recorded compensation expense and credited contributed surplus for \$1,152 (2005 \$620) in respect of the estimated fair value of the options. Upon exercise of 270,218 options in the current quarter, \$160 was transferred from contributed surplus to share capital.

For all common share options granted to employees up to August 2003, had the Company determined compensation costs based on the fair values at grant dates of the common share options consistent with the method prescribed under CICA Handbook Section 3870, the Company's net income and earnings per share would have been reported as the pro forma amounts indicated below:

	Three months ended November 30,	
	2006 \$	2005 \$
Net income for the period	81,138	75,681
Fair value of stock option grants	30	468
Pro forma net income for the period	81,108	75,213
Pro forma earnings per share – basic and diluted	0.38	0.34

The weighted average estimated fair value at the date of the grant for common share options granted was \$6.45 per option (2005 \$2.69 per option) for the quarter. The fair value of each option granted was estimated on the date of the grant using the Black-Scholes option-pricing model with the following assumptions:

	Three months ended November 30,	
	2006 \$	2005 \$
Dividend yield	2.99%	1.67%
Risk-free interest rate	3.98%	3.51%
Expected life of options	4 years	4 years

Expected volatility factor of the future expected market price of Class B Non-Voting Shares	25.6%	23.9%
---	-------	-------

For the purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options vesting period.

Other stock options

In conjunction with the acquisition of Satellite Services, holders of Satellite Services options elected to receive 0.9 of a Shaw Class B Non-Voting Share in lieu of one Satellite Services share which would have been received upon the exercise of an option under the Satellite Services plan.

Shaw Communications Inc.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)****November 30, 2006 and 2005****[all amounts in thousands of Canadian dollars, except per share amounts]**

At November 30, 2006 there were 33,836 Satellite Services options outstanding with exercise prices between \$7.75 and \$23.25 and a weighted average price of \$11.70. The weighted average remaining contractual life of the Satellite Services options is 1.3 years. At November 30, 2006, 33,836 Satellite Services options were exercisable into 30,452 Class B Non-Voting Shares of the Company at a weighted average price of \$13.00 per Class B Non-Voting Share. During the three months ended November 30, 2006, 5,000 options were exercised into 4,500 Class B Non-Voting Shares for \$116.

Warrants

Prior to the Company's acquisition and consolidation of Satellite Services effective July 1, 2000, Satellite Services and its subsidiary Star Choice had established a plan to grant warrants to acquire Satellite Services common shares at a price of \$22.50 per share to distributors and dealers. The Company provided for this obligation (using \$25 per equivalent Shaw Class B Non-Voting Share) in assigning fair values to the assets and liabilities in the purchase equation on consolidation based on the market price of the Shaw Class B Non-Voting Shares at that time. Accordingly, the issue of the warrants under the plan had no impact on the earnings of the Company. On September 1, 2006, 250 warrants were exercised for \$6 and the remaining 5,350 warrants expired.

6. EARNINGS PER SHARE

Earnings per share calculations are as follows:

	Three months ended November 30,	
	2006	2005
	\$	\$
Net income	81,138	75,681
Earnings per share – basic and diluted	0.38	0.35
Weighted average number of Class A and Class B Non-Voting Shares used as denominator in above calculation (thousands of shares)	215,034	219,035

The Class B Non-Voting Shares issuable on settlement of the COPrS and under the terms of the Company's stock option and warrant plans are anti-dilutive (increase earnings per share) and are therefore, not included in the calculation of diluted earnings per share.

Included in shareholders' equity is accumulated other comprehensive income (loss), which refers to revenues, expenses, gains and losses that under US GAAP are included in comprehensive income (loss) but are excluded from income (loss) as these amounts are recorded directly as an adjustment to shareholders' equity, net of tax. The Company's accumulated other comprehensive loss is comprised of the following:

Shaw Communications Inc.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

	(105,114)	(117,176)

Areas of material difference between accounting principles generally accepted in Canada and the United States and their impact on the unaudited interim Consolidated Financial Statements are as follows:

- (1) Amortization of intangibles prior to September 1, 2001 is required on a straight-line basis for US GAAP purposes, instead of an increasing charge method.
- (2) US GAAP requires the excess of equipment cost deferrals over equipment revenue deferrals to be expensed as incurred instead of being deferred and amortized.
- (3) Equity in loss of investees have been adjusted to reflect US GAAP.
- (4) Gain on a sale of a subsidiary that was not permitted to be recognized under Canadian GAAP was required to be recognized under US GAAP.
- (5) Gain on an exchange of cable systems was required to be recorded under US GAAP but may not be recorded under Canadian GAAP.
- (6) US GAAP requires equity securities included in investments to be carried at fair value rather than cost as required by Canadian GAAP.
- (7) Under US GAAP, all derivatives are recognized in the balance sheet at fair value with gains and losses recorded in income or comprehensive income (loss).
- (8) Foreign exchange gains (losses) on translation of hedged long-term debt are deferred under Canadian GAAP but included in income (loss) for US GAAP.
- (9) US GAAP requires subscriber connection revenue and related costs to be recognized immediately instead of being deferred and amortized.
- (10) The Company's unfunded non-contributory defined benefit pension plan for certain of its senior executives had an accumulated benefit obligation of \$79,902 as at August 31, 2006. Under US GAAP, an additional minimum liability is to be recorded for the difference between the accumulated benefit obligation and the accrued pension

liability. The additional liability is offset in deferred charges up to an amount not exceeding the unamortized past service costs. The remaining difference is recognized in other comprehensive income (loss), net of tax. Under Canadian GAAP, the accumulated benefit obligation and additional minimum liability are not recognized.
