**Valuation of investments**

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. Non-listed equity securities are valued using evaluated prices determined by an independent pricing service which takes into consideration such factors as similar security prices, spreads, liquidity, benchmark quotes and market conditions. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics..

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market values due to trading or events

occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current fair value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

**Foreign currency translation**

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on investments. income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

**Options**

The Fund may write covered put or call options. When a Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

**Short sales**

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement. Any interest or dividends accrued on such borrowed securities during the period of the loan is recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. A gain,

limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

### **Valuation hierarchy**

On November 1, 2008, the Fund implemented Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("FAS 157"). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 establishes a fair value hierarchy based upon the various inputs used in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

January 31, 2009 (unaudited)

As of January 31, 2009, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

| Valuation Inputs                                 | Investments<br>in Securities | Investments in Securities<br>Sold Short | Other Financial<br>Instruments* |
|--------------------------------------------------|------------------------------|-----------------------------------------|---------------------------------|
| Level 1 – Quoted Prices                          | \$141,622,381                | \$ (692,192 )                           | \$ 0                            |
| Level 2 – Other Significant Observable<br>Inputs | 301,044,644                  | (1,528,966 )                            | (733,876 )                      |
| Level 3 – Significant Unobservable<br>Inputs     | 0                            | 0                                       | 0                               |
| <b>Total</b>                                     | <b>\$442,667,025</b>         | <b>\$ (2,221,158 )</b>                  | <b>\$ (733,876 )</b>            |

\* Other financial instruments include written option contracts.

**Item 2 - Controls and Procedures**

- (a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized, and reported timely.
- (b) There has been no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonable likely to materially affect, the registrant's internal control over financial reporting.

**Item 3 - Exhibits**

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940, are attached as EX-99.CERT.
-

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Evergreen Global Dividend Opportunity Fund
