Report on Executive Compensation

The Compensation Committee of the Board of Directors is responsible for reviewing and approving the remuneration of the senior management of the Company, including the President and chief executive officer. The guiding philosophy of the Compensation Committee in the determination of executive compensation is ensuring that the Company is able to attract the best possible candidates for management positions, given the high level of competition for competent management in the mining industry, and to align the interests of management with those of the Company's shareholders.

The Company's executive compensation policies are designed to recognize and reward individual contribution, performance and level of responsibility and ensure that the compensation levels remain competitive with other companies in the same industry. The key components of total compensation are base salary and incentives.

The Compensation Committee has no formal process for determining appropriate base salary ranges. Currently the Company pays executive compensation in the form of a base salary to its President only. The base salary to the President was based on a proposal from the President, which were accepted by the Company after considering his experience and expected responsibility and contribution to the Company.

Stock options are granted to senior management to align the financial interests of management with the interests of shareholders of the Company and to encourage senior management to focus on strategies and results that enhance shareholder value in the longer term. The number of options to purchase Common Shares granted to each individual will depend largely on his level of responsibility and contribution to the Company's performance.

The Compensation Committee considers, on an ongoing basis, the appropriateness and effectiveness of the Company's executive compensation policies, given prevailing circumstances.

The Compensation Committee has been authorized by the board of directors to take steps on its behalf as are necessary regarding: (a) appointing and compensating executive officers and approving succession plans for executive officers, excluding the Chief Executive Officer, (b) approving and reporting to the Board respecting the Corporation's human resources policies for executive officers, and (c) overseeing the administration of the Corporation's compensation and benefits plans. Compensation Committee authorities cannot be delegated without board approval.

None of the members of the Compensation Committee served as an employee of the Company during the fiscal year ended December 31, 2013 (or subsequently). No current member of the Compensation Committee formerly served as an officer of the Company, and none of the current members of the Compensation Committee have entered into a transaction with the Company in which they had a direct or indirect interest that is required to be disclosed pursuant to Item 404 of Regulation S-K.
