Item 8.01 Other Events

Tengasco, Inc. (NYSE MKT: TGC) announced that on August 16, 2013 the Company closed the sale of its Swan Creek field in Hancock County, Tennessee and all of its other Tennessee oil and natural gas leases and related properties together with its 67-mile natural gas pipeline system and related properties extending from the Swan Creek field to Kingsport, Tennessee, for \$1.5 million pursuant to the terms of a previously announced March 1, 2013 purchase and sale agreement between the Company and Swan Creek Partners LLC and its affiliate General Gas Pipeline LLC. However, the sale did not include assets of Manufactured Methane Corporation, including the methane facility and electric generator at Carter Valley landfill in Hawkins County, Tennessee.

Closing had been contingent upon the Tennessee Regulatory Authority granting regulatory approval to General Gas Pipeline LLC for the transfer of utility status of the pipeline, and the Company receiving certain landowner approvals of assignment of pipeline easements. The Tennessee Regulatory Authority granted transfer approval in July 2013 and the remaining conditions to closing were completed the first week of August, 2013.

On closing of the sale, the Company now has no remaining oil or natural gas producing properties or lease position for oil or gas exploration in Tennessee, and no natural gas pipeline assets. The Company has used all of the proceeds of this sale to pay down its borrowings, reducing the current balance owed under its existing credit facility with F&M Bank in Dallas, Texas from \$5.2 million to approximately \$3.8 million. As a result of the Company's impairment of its pipeline asset in 2012 to a reduced value of \$1.4 million, it is anticipated that this sale will have no effect upon the Company's earnings in the current reporting period.
