NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF PRESENTATION AND DESCRIPTION OF BUSINESS

The unaudited condensed consolidated financial statements of Newtek Business Services, Inc. and Subsidiaries (the "Company" or "Newtek") included herein have been prepared by Newtek pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to SEC rules and regulations. The unaudited condensed consolidated financial statements of Newtek reflect, in the opinion of management, all adjustments necessary to present fairly the financial position of Newtek at September 30, 2003, the results of its operations for the three and nine month periods ended September 30, 2003 and 2002, and its cash flows for the nine month periods ended September 30, 2003 and September 30, 2002. All adjustments are of a normal recurring nature. These financial statements should be read in conjunction with the annual financial statements and notes thereto for the year ended December 31, 2002. The results of operations for the three and nine months ended September 30, 2003 are not necessarily indicative of the results of operations to be expected for the year ending December 31, 2003.

The following is a summary of each certified capital company ("Capco"), state of certification and date of certification:

CAPCO -----	STATE OF CERTIFICATION -----	DATE OF CERTIFICATION -----
WA (Wilshire Advisers)	New York	May 1998
WP (Wilshire Partners)	Florida	December 1998
WI (Wilshire Investors)	Wisconsin	October 1999
WLA (Wilshire Louisiana Advisers)	Louisiana	October 1999
WA II (Wilshire New York Advisers, II)	New York	April 2000
WNY III (Wilshire New York Partners, III)	New York	December 2000
WC (Wilshire Colorado Partners)	Colorado	October 2001

The State of Louisiana has authorized three "Capco funds" which are all a part of the WLA Capco (the first fund). The second, Wilshire Louisiana Partners II (WLP II), and the third, Wilshire Louisiana Partners III (WLP III), were formed in October 2001, and October 2002, respectively and are treated by Newtek as separate Capcos.

In general, the Capcos issue debt and equity instruments, generally warrants ("Certified Capital"), to insurance company investors ("Certified Investors"). The Capcos then make targeted investments ("Investments in Qualified Businesses", as defined under the respective state statutes, or "Qualified Businesses"), with the Certified Capital raised. Such investments may be accounted for as either consolidated subsidiaries, under the equity method or cost method of accounting, depending upon the nature of the investment and the Company's and/or the Capco's ability to control or otherwise exercise significant influence over the investee. Each Capco has a contractual arrangement with the particular state that legally entitles the Capco to receive

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10QSB/A

(or earn) tax credits from the state upon satisfying quantified, defined investment percentage thresholds and time requirements. In order for the Capcos to maintain their state-issued certifications, the Capcos must make Investments in Qualified Businesses in accordance with these requirements. Each Capco also has separate contractual arrangements with the Certified Investors obligating the Capco to pay interest on the aforementioned debt instruments whether or not it meets the

8

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

statutory requirements for Investments in Qualified Businesses. The Capco can satisfy this interest payment obligation, at the Capco's discretion, by delivering tax credits in lieu of paying cash. The Capcos have the right to deliver the tax credits to the Certified Investors. The Certified Investors have the right to receive and use the tax credits and would, in turn, use these tax credits to reduce their respective state tax liabilities in an amount usually equal to 100% (Louisiana Capco and the Louisiana second fund - 110%) of their certified investment. The tax credits can be utilized over a ten-year period at a rate of 10% (Louisiana Capco and Louisiana second fund- 11%) per year and in some instances are transferable and all can be carried forward.

On December 31, 2002, Newtek acquired a majority stake in a nonbank U.S. Small Business Administration ("SBA") lender. As a nonbank SBA lender, the company (originally named Commercial Capital Corp., now named Newtek Small Business Finance ("NSBF")) originates, sells (in whole or in part) and services SBA loans to qualifying small businesses, which are partially guaranteed by the SBA. Newtek Small Business Finance sells the SBA guaranteed portion of such SBA loans to third-party investors, retains the unguaranteed portion and continues to service the SBA loans. Newtek Small Business Finance has the ability to originate SBA loans throughout the United States. Presently, the SBA loans originated by the company are primarily to customers in the Northeast United States. The Company's competition for originating SBA loans comes primarily from banking organizations and the other nonbank entities holding an SBA license.

SBA LOANS RECEIVABLE

As of December 31, 2002, SBA loans that are past due more than 90 days, but were still performing (accruing interest), amounted to \$293,800. Of this amount, \$175,000 became current, and \$100,000 was moved to non-performing status. As of September 30, 2003, SBA loans that are past due more than 90 days, but are still performing (accruing interest), amount to \$65,824.

As of December 31, 2002, SBA loans that are on a non-accrual basis amounted to \$2,914,767. As of September 30, 2003, SBA loans that are on a non-accrual basis amount to \$4,248,724. This increase was predominately due to two SBA loans being downgraded to non-performing.

The Company originates loans to customers under the SBA program that generally provides for SBA guarantees of 75% for loans greater than \$250,000 and 50% for loans of less than \$250,000, subject to a maximum guarantee amount. The Company typically sells the guaranteed portion of each loan to a third party and retains the unguaranteed principal portion in its portfolio. Loan losses are shared pro rata between the guaranteed and unguaranteed portions.

STOCK - BASED COMPENSATION

Newtek has elected to continue using Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," in accounting for

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10QSB/A

employee stock options. No stock-based employee compensation cost is reflected in net income, as all options granted under the Company's plan had an exercise price equal to the market value of the underlying common stock at the date of grant. The following table summarizes the pro forma consolidated results of operations of Newtek as though the fair value based accounting method in SFAS 148 "Accounting for Stock-based Compensation-Transition and Disclosure- an amendment of SFAS 123" had been used in accounting for stock options.

9

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

	FOR THE THREE MONTHS ENDED SEPTEMBER 30,		FOR THE
	2003	2002	2003
As reported			
Net income	\$ 9,474,292	\$ 5,453,038	\$ 14,039,4
Deduct: Total stock based employee Compensation expense determined under fair value based method for all awards, net of related tax effects	(217,945)	(256,659)	(646,0
Pro forma net income	\$ 9,256,347	\$ 5,196,379	\$ 13,393,4
Earnings per share:			
Basic - as reported	\$.037	\$ 0.22	\$ 0.
Basic - pro forma	\$.036	\$ 0.21	\$ 0.
Diluted - as reported	\$.036	\$ 0.22	\$ 0.
Diluted - pro forma	\$.035	\$ 0.21	\$ 0.

For 2003 and 2002, the weighted average fair value of each option granted is estimated on the date of grant using the Black-Scholes model with the following assumptions: expected volatility of 60-85%, risk-free interest rate of 1.61% to 6.15%, respectively, expected dividends of \$0 and expected terms of 1-6 years.

NOTE 2 - COMMON STOCK:

In the third quarter of 2003, Newtek sold 16,666 shares of common stock in private transactions, with gross and net cash proceeds totaling \$75,000. During the same period there were approximately 37,000 stock options exercised, with gross cash proceeds totaling approximately \$108,000. In addition, 2,000 shares of common stock were issued in consideration for consulting services rendered, valued at approximately \$12,000.

During the third quarter of 2003, in connection with two employment agreements, shares of restricted stock, valued at approximately \$120,000 were

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10QSB/A

issued as part of total compensation. The shares vest over a one year period. Total compensation expense for the third quarter was approximately \$22,000.

NOTE 3 - INVESTMENTS IN QUALIFIED BUSINESSES:

The various interests that Newtek acquires in its investments are accounted for under three methods: consolidation, equity method and cost method. The applicable accounting method is generally determined based on the Company's voting interest in an investee.

Consolidation Method. Investments in which Newtek directly or indirectly owns more than 50% of the outstanding voting securities or those Newtek has effective control over are generally accounted for under the consolidation method of accounting and are referred to here as "Partner Companies". Under this method, an investment's financial position and results of operations are reflected within the Company's Balance Sheet and Consolidated Statements of Income. All significant inter-company accounts and transactions have been eliminated. The results of operations and cash flows of a consolidated Partner Company are included through the latest interim period in which Newtek owned a greater than 50% direct or indirect voting interest for the entire interim period or otherwise exercised control over the Partner Company. Upon dilution of control below 50%, the accounting method is adjusted to the equity or cost method of accounting, as appropriate, for subsequent periods.

10

NOTE 3 - INVESTMENTS IN QUALIFIED BUSINESSES (CONTINUED):

Equity Method. Investees that are not consolidated, but over which Newtek exercises significant influence, are accounted for under the equity method of accounting. Whether or not Newtek exercises significant influence with respect to an investee depends on an evaluation of several factors including, among others, representation on the Company's Board of Directors and ownership level, which is generally a 20% to 50% interest in the voting securities of the Company, including voting rights associated with the Company's holdings in common, preferred and other convertible instruments in the investee. Under the equity method of accounting, an investee's accounts are not reflected within the Company's Consolidated Balance Sheet and Consolidated Statements of Income; however, the Company's share of the earnings or losses of the investee is reflected in the caption "Equity in net losses of affiliates" in the Consolidated Statements of Income.

Cost Method. Investees not accounted for under the consolidation or the equity method of accounting are accounted for under the cost method of accounting. Under this method, the Company's share of the earnings or losses of such companies is not included in the Consolidated Balance Sheet and Consolidated Statements of Income. However, cost method impairment charges are recognized, as necessary, in the Consolidated Statement of Income. If circumstances suggest that the value of the investee has subsequently recovered, such recovery is not recorded until realized. In some of the entities which we account for under the cost or equity method, Newtek may own warrants that if exercised, would cause Newtek to use either the equity or consolidation method. As of December 31, 2002, Newtek does not expect these warrants to be exercised in the near future.

During the nine month period ended September 30, 2003, Newtek determined that there was approximately \$943,000 of an other than temporary decline in the value of its investments for Merchant Data Systems, Inc., \$500,000 for 1-800 Gift Certificate, \$271,000 for Direct Creations, LLC,

Edgar Filing: NEWTEK BUSINESS SERVICES INC - Form 10QSB/A

\$145,000 for O.S. Johnson, LLC, \$112,000 for Gerace Auto Parts, LLC, and \$20,000 of an other than temporary decline in the value of its investments in Transworld Business Brokers, LLC. These items aggregated approximately \$1,991,000 which is shown on the statement of income as other than temporary decline in value of investments.

During the nine month period ended September 30, 2002, Newtek determined that there was approximately \$734,000 of an other than temporary decline in the value of its investments for Starphire Technologies, LLC, approximately \$77,000 other than temporary decline in the value of its investments for Embosser's Sales and Service, \$100,000 for O.S. Johnson, LLC, \$458,000 other than temporary decline in the value of its investments for Direct Creations, LLC, and an approximate \$87,000 of an other than temporary decline in the value of its investments for Gino's Seafood. In addition, Newtek determined an impairment existed for a non-Capco investment (included in prepaid expenses and other assets on the balance sheet), and recorded a charge of approximately \$162,000. In 2002, Newtek also recovered approximately \$29,000 of cash on two of its investments written down in 2000. These items aggregate approximately \$1,589,000 which is shown on the statement of income as other than temporary decline in value of investments.

The following table is a summary of such investments as of September 30, 2003, shown separately between their debt and equity components, and all terms of each are summarized. There are no expiration dates on any of the financial instruments, unless disclosed.

In accordance with the provisions of Statement of Financial Accounting Standards No. 115 "Accounting for Certain Investment in Debt and Equity Securities", Newtek classifies its debt investments as held-to-maturity and such investments are initially recorded at amortized cost. On a monthly basis, the Company's Investment Committee meets to evaluate the Company's investments. Newtek considers several factors in determining whether an impairment exists on the investment, such as the investee's net book value, cash flow, revenue growth and net income. In addition, the Investment Committee considers other factors, such as the economy and the investee company's industry, to determine if an other than temporary decline in value exists in the Company's investment
