Financial Statements

March 31, 2005 and 2004

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

Speedemissions, Inc.

We have audited the accompanying balance sheets of Mr. Sticker, Inc. (the "Company") as of March 31, 2005 and 2004, and the related statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mr. Sticker, Inc. as of March 31, 2005 and 2004, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Mr. Sticker, Inc.

Notes to Financial Statements
March 31, 2005 and 2004

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Mr. Sticker, Inc. (“Mr. Sticker” or the “Company”) was incorporated on April 24, 1985, under the laws of the state of Texas for the primary business purpose of opening, acquiring, developing and operating vehicle emission testing stations.

The Company is engaged in opening, acquiring, developing and operating vehicle emissions testing stations. The federal government and a number of state and local governments in the United States (and in certain foreign countries) mandate vehicle emissions testing as a method of improving air quality.

As of March 31, 2005 and 2004, the Company operated six emissions testing stations. All of the operations were located in the metropolitan Houston, Texas area. The Company does business under the trade name *Mr. Sticker*. At its emissions testing stations, the Company uses computerized emissions testing equipment that tests vehicles for compliance with emissions standards; in the emissions testing industry, such stations are known as decentralized facilities. The Company utilizes “basic” testing systems that test a motor vehicle’s emissions while in neutral and “enhanced” testing systems that test a vehicle’s emissions under simulated driving conditions.

Use of Estimates in Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Revenue is recognized as the testing services are performed. Under current state of Texas law, the charge for an emission test is generally limited to \$39.50 per vehicle, which is recorded by the Company as gross revenue. The cost of emissions certificates due to the state of Texas varies between \$5.50 and \$14.00 per certificate depending on the type of test and is shown separately in the accompanying statements of operations. In some cases, in response to competitive situations, the Company has charged less than the statutory maximum revenue charges allowed.

The Company normally requires that the customer’s payment be made with cash, check or credit card; accordingly, the Company does not have significant levels of accounts receivable.

Under current Texas laws, if a vehicle fails an emissions test, it may be retested at no additional charge during a specified period after the initial test, as long as the subsequent test is performed at the same facility. At the time of initial testing, the Company provides an allowance for potential retest costs, based on prior retest experience and information furnished by the state of Texas, which is comprised mainly of the labor cost associated with performing a retest. When a retest is performed, the incremental cost of performing a retest is applied against the retest allowance. At March 31, 2005 and 2004, the allowance for retest costs was not material.

Property and Equipment and Depreciation

Property and equipment are recorded at cost and depreciated on a straight-line basis over the estimated useful lives, as follows: building, twenty years; furniture, fixtures and emission testing equipment, seven years; and vehicles, five years.

Repair and maintenance costs are charged to expense as incurred. Gains or losses on disposals are reflected in operations.

Income Taxes

The Company follows the liability method of accounting for income taxes whereby deferred income taxes are recognized for the tax consequences of temporary differences by applying statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of certain assets and liabilities. Changes in deferred tax assets and liabilities include the impact of any tax rate changes enacted during the year.

Cash Concentrations

At times, cash balances may exceed federally insured amounts. The Company believes it mitigates risks by depositing cash with major financial institutions.

Note 2: Property and Equipment

Property and equipment at March 31, was as follows:

As of March 31, 2005 and 2004, deferred tax liabilities totaled \$55,048 and \$59,526, respectively, relating to depreciation on fixed assets. At March 31, 2005 and 2004, deferred tax assets totaled \$0 and \$12,270, respectively, relating to an operating loss carryforward.

Note 5: Operating Leases

The Company leases land and buildings for its emissions testing stations. The leases generally require that the Company pay taxes, maintenance and insurance. Some of the leases for the emissions testing stations are renewable, at the option of the Company, for specified periods. Management expects that, in the normal course of business, leases that expire will be renewed or replaced by other leases.

Certain of the above leases contain scheduled base rent increases over the terms of the leases. The rent payments are charged to expense on a straight-line basis over the term of the lease. At March 31, 2005 and 2004, the excess of rent expense over cash payments since inception of the leases, which is included in accrued liabilities, was \$18,590 and \$9,350, respectively.

Future minimum rental payments required under the noncancelable operating leases were as follows at March 31, 2005:

Year ending March 31,

| | |
|------------|------------|
| 2006 | \$ 159,963 |
| 2007 | 115,814 |
| 2008 | 75,600 |
| 2009 | 71,000 |
| 2010 | 72,000 |
| Thereafter | 246,000 |
| | \$ 740,377 |

Rent expense under all operating leases totaled \$170,305 in 2005 and \$158,736 in 2004.

Note 6: Related Party Transactions

The president of the Company has periodically made cash loans to the Company for short-term working capital purposes. These loans are repaid by the Company as cash became available. No interest was paid by the Company on these loans. As of March 31, 2005 and 2004, respectively, \$1,785 and \$41,875 was owed by the Company to its president as a result of these loans.

Note 7: Major Supplier

During the years ended March 31, 2005 and 2004 the Company paid, respectively, approximately \$856,000 and \$830,000 to a single supplier, The Texas Department of Public Safety, for the purchase of emission testing stickers.

Note 8: Regulatory Risk and Uncertainties

The current and future demand for the Company's services is substantially dependent upon federal, state, local and foreign legislation and regulations mandating air pollution controls and emissions testing. If any or all of these governmental agencies should change their positions or eliminate or revise their requirements related to air pollution controls and emissions testing (including a shift to centralized facilities versus decentralized facilities), the Company could experience a significant adverse impact on its financial position and results of operations.

Note 9: Subsequent Event

On March 3, 2005, the officers and shareholders of the Company executed a letter of intent to sell the Company to Speedemissions, Inc., a public company based in Georgia. Under the terms of the letter of intent, Speedemissions, Inc. will purchase all of the outstanding common shares of the Company for \$3,100,000. The closing of the sale was effected on June 30, 2005.
