Latin America's Beverage Leader

FEMSA Delivers Double-Digit Revenues and  
Operating Income Growth in 1Q09

Monterrey, Mexico, April 30, 2009 — Fomento Económico Mexicano, S.A.B. de C.V. ("FEMSA") announced today its operational and financial results for the first quarter of 2009.

First Quarter 2009 Highlights:

- Consolidated total revenues and income from operations grew 20.1%, however, net income declined 27.9%.
  - In spite of the challenging economic environment and continuous pressure from the devaluation of the local currencies in our main markets against the US dollar, FEMSA delivered another quarter of strong growth in revenues and income from operations, driven by double-digit performance across our business units.
  - Net income decrease of 27.9% was driven by higher integral result of financing in the quarter, while net majority income declined 39.4%.
- Coca-Cola FEMSA total revenues and income from operations increased 30.5% and 17.3%, respectively.
  - Driven by double-digit growth in income from operations in Mercosur and Latincentro and stable growth in Mexico.
- FEMSA Cerveza total revenues increased 10.4% and income from operations increased 13.8%.
  - Sales volume in Mexico decreased 3.0%, compared to the solid 7.1% volume growth in 1Q08. Brazil sales volume increased 1.9% in spite of price increases implemented over the past three quarters, and export sales volume grew 2.2%, despite the decline in the overall US import category.
  - Strong top-line growth, combined with tight operating expense containment and the deferral of some marketing expenses, offset raw material pressures resulting in a 13.8% increase in income from operations.
- FEMSA Comercio continued its pace of strong growth and margin expansion.
  -

Income from operations increased over 25% for the ninth consecutive quarter, resulting in an operating margin expansion of 60 basis points to reach 4.1%.

José Antonio Fernández, Chairman and CEO of FEMSA, commented: “Our first quarter results reflect the strength of our strategy and our integrated beverage platform as well as our team’s ability to adjust our business levers to navigate these turbulent waters. We are encouraged by the resilience of our operations across businesses and across territories. However the pressures of the environment, specifically raw material costs and exchange rate, continue to impact our results. Going forward, we are cautious as we see signs that the deceleration of economic activity will continue for some time, while levels of macroeconomic uncertainty remain high. And yet, we are confident that we will continue to deliver solid results and will emerge from the current downturn a leaner and stronger company.”

---

## FEMSA Consolidated

As a useful reference, we note that local currencies in our major operations depreciated against the US dollar particularly starting in the fourth quarter of 2008 and continued depreciating during 1Q09. In this period, the Mexican Peso depreciated approximately 34% and the Brazilian Real approximately 32%, year over year.

Total revenues increased 20.1% compared to 1Q08, to Ps. 43.445 billion. Coca-Cola FEMSA accounted for approximately 73% of the incremental consolidated revenue, while FEMSA Comercio and FEMSA Cerveza provided the balance.

Gross profit increased 18.6% compared to 1Q08 to Ps. 19.301 billion in 1Q09. Gross margin decreased 60 basis points compared to the same period in 2008 to 44.4% of total revenues. FEMSA Comercio's gross profit improvement partially offset raw-material cost pressures at Coca-Cola FEMSA and FEMSA Cerveza, as well as the depreciation of the local currencies as applied to our US dollar denominated costs.

Income from operations increased 20.1% to Ps. 4.781 billion in 1Q09 as compared to the same period in 2008, driven by double-digit growth in all of our business units. Consolidated operating margin was flat as compared to 1Q08 at 11.0%, as FEMSA Comercio and FEMSA Cerveza operating margin improvement and expense containment initiatives offset margin pressure at Coca-Cola FEMSA.

Net income decreased 27.9% compared to 1Q08 to Ps. 1.470 billion in 1Q09, primarily as a result of a higher integral result of financing during the quarter. This increase resulted from the appreciation of the US dollar against our local currencies as applied to our liability position, and higher interest expenses. The effective tax rate was 37.4% in 1Q09 compared with 31.8% in 1Q08, due to lower income before taxes.

Net majority income decreased 39.4% over 1Q08, resulting in Ps. 0.22 per FEMSA Unit<sub>1</sub> in 1Q09. Net majority income per FEMSA ADS was US\$ 0.15 for the quarter.

Capital expenditures increased 13.3% over 1Q08 to Ps. 2.233 billion in 1Q09, mainly driven by manufacturing investments at Coca-Cola FEMSA, and the accelerated expansion in store openings at FEMSA Comercio.

Our consolidated balance sheet as of March 31, 2009, recorded a cash balance of Ps. 12.507 billion (US\$ 880.2 million), an increase of Ps. 1.018 billion (US\$ 71.6 million) compared to the same period of 2008. Short-term debt was Ps. 15.494 billion (US\$ 1.090 billion) while long-term debt was Ps. 31.606 billion (US\$ 2.224 billion). Our net debt increased by Ps. 5.545 billion (US\$390.2 million) mainly reflecting the appreciation of the US dollar as applied to our US dollar liability position, new bank loans and the issuance of Ps. 2.0 billion in Certificados Bursátiles by Coca-Cola FEMSA in January 2009.

Consistent with FEMSA's conservative approach, as of March 31, 2009, our ratio of net debt to EBITDA<sub>2</sub> was only 1.1x, while our mix of US dollar-denominated debt represented 19.9% (9% when measured as percentage of our net debt) and our mix of fixed interest rate represented 50.3%. In terms of our debt profile, we had approximately Ps. 13.4 billion (US\$ 945 million) coming due in 2009, which have been totally refinanced as of April 29, 2009. For 2010 and 2011, we have minor debt maturities, and our debt profile currently extends as far out as 2017.

As a matter of policy, FEMSA follows a conservative approach with respect to its leverage position and seeks to maintain low leverage ratios. FEMSA also seeks to manage risk, through derivative instruments, through which it aims to minimize the volatility and uncertainty of operating results by hedging interest rates, foreign exchange rates and the prices of certain of our raw materials, according to our policy.

---

1 FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B Shares. The number of FEMSA Units outstanding as of March 31, 2008 was 3,578,226,270 equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

2 As used herein, Net debt/EBITDA is calculated by dividing net debt at the end of the quarter by the EBITDA for the last twelve months, as reported in Mexican pesos and converted to US dollars with the period-end exchange rate.

### Soft Drinks – Coca-Cola FEMSA

Coca-Cola FEMSA's financial results and discussion are incorporated by reference from Coca-Cola FEMSA's press release, which is attached to this press release or visit [www.coca-colafemsa.com](http://www.coca-colafemsa.com).

### Beer – FEMSA Cerveza

Mexico sales volume decreased 3.0% to 5.878 million hectoliters in 1Q09 compared to solid 7.1% volume growth in 1Q08. This decrease partially reflects unfavorable calendar effects resulting from one calendar day less in February and the Easter period shifting to 2Q09, as well as price increases implemented during the last twelve months. Our Tecate brand family combined with Dos Equis had another quarter of particularly solid performance.

Brazil sales volume increased 1.9% in 1Q09, to 2.451 million hectoliters, in spite of price increases implemented since September 2008.

Export sales volume increased 2.2% in 1Q09, compared to solid 12.6% growth in 1Q08, to 786 thousand hectoliters in 1Q09, despite a challenging economic environment in the US. This increase was mainly driven by our Dos Equis brand in the US as well as by Sol in other key markets.

Total revenues increased 10.4% over 1Q08 to Ps. 10.054 billion in 1Q09. Higher average price per hectoliter in all of our operations, combined with volume growth in Exports and Brazil drove these results. Mexican beer sales represented 69.8% of total beer revenues, while Brazil and Export beer sales reached 18.2% and 12.0% of total beer revenues, respectively.

Mexico price per hectoliter showed robust growth of 6.2% over 1Q08 to Ps. 1,084.9 in 1Q09, resulting from price increases implemented during 2008 and to a lesser extent, from volumes brought under our own distribution network. Brazil price per hectoliter, calculated in Mexican pesos increased 18.4% to Ps. 678.0 compared to the same period in 2008. Price per hectoliter in local currency was 18.3% higher as a result of price increases implemented over the last three quarters ahead of the industry, as well as incremental volumes coming from our super premium portfolio led by the Heineken brand. Export price per hectoliter in Mexican pesos increased 40.6% to Ps. 1,396.8 in 1Q09 as compared with 1Q08, reflecting the Mexican peso depreciation against the US dollar. In US dollar terms, price per hectoliter increased 4.9% mainly due to price increases implemented over the last twelve months mainly in our Tecate brand.

Cost of sales was Ps. 5.108 billion in 1Q09, an increase of 19.1% compared with 1Q08, ahead of the 10.4% growth in total revenues. Cost per hectoliter increased by 20.7% as a result of continuous cost pressure coming from the effect of the Brazilian Real depreciation of approximately 32%, as applied to our dollar-denominated costs and raw materials increases across all regions, particularly in grains. Gross profit increased 2.6% over 1Q08 to Ps. 4.946 billion in 1Q09, however as a percentage of sales, gross margin declined 370 basis points from 52.9% in 1Q08 to 49.2% in 1Q09.

Income from operations increased 13.8% compared with 1Q08 to Ps. 766 million in 1Q09, resulting in a reduction of 390 basis points of selling and administrative expenses as a percentage of sales, and a 20 basis point improvement in operating margin in the quarter. Robust top-line growth together with a decline in administrative expenses, and a slight increase in selling expenses compared to 1Q08, more than offset the cost pressure experienced during the quarter. Expense containment initiatives implemented across territories and lower marketing investment in Brazil and Mexico, offset the effect of the peso depreciation as applied to our export marketing expenses, as well as incremental expenses driven by volumes brought under our own distribution network in Mexico.

---

## FEMSA Comercio

Total revenues increased 10.4% compared to 1Q08 to Ps. 11.801 billion in 1Q09 driven by the opening of 168 net new stores in the quarter, for a total increase of 906 net new stores in the last twelve months. As of March 31, 2009, there were a total of 6,542 OXXO convenience stores in Mexico. Same-store sales decreased 1.8% for the quarter over 1Q08, due to a 4.1% decline in the average customer ticket, which more than offset the 2.3% increase in store traffic. This decrease reflects, in part, unfavorable calendar effects compared to the prior year as well as the effects seen in 2008 on same-store sales, ticket and traffic dynamics, which reflect the mix shift from prepaid wireless phone cards to the sale of electronic air-time, for which only the margin is recorded, not the full amount of the air-time recharge. On a comparable basis excluding this change, the average ticket would have grown in the mid-single-digits in 1Q09.

Gross profit increased by 20.6% in 1Q09 compared to 1Q08, resulting in a 250 basis point gross margin expansion reaching 30.1%. As was the case in several previous quarters, this increase largely reflects the shift towards electronic air-time recharges as described above and to a lesser extent, better pricing strategies and improved commercial terms with our supplier partners.

Income from operations increased 29.6% over 1Q08 to Ps. 481 million in 1Q09. Operating expenses increased 19.3% to Ps. 3,074 million, mainly resulting from the increased number of stores. Operating margin expanded 60 basis points over 1Q08 reaching 4.1%, as the strong expansion of the gross margin more than offset higher operating expenses.

## Recent Developments

### FEMSA Shareholder Meeting

On March 25, 2009, FEMSA held its Annual Ordinary General Shareholders Meeting, during which shareholders approved the payment of a cash dividend in the amount of Ps. 1,620 million, consisting of Ps. 0.100985875 per each Series "D" share and Ps. 0.0807887 per each Series "B" share, which amounts to Ps. 0.4847322 per "BD" Unit (BMV: FEMSAUBD) or Ps. 4.847322 per ADS (NYSE: FMX), and Ps. 0.4039435 per "B" Unit (BMV: FEMSAUB). The dividend payment will be split in two equal payments, payable on May 4, 2009 and November 3, 2009 with record dates of April 30, 2009 and October 30, 2009, respectively.

Total revenues reached Ps. 22,526 million in the first quarter of 2009, an increase of 30.5% compared to the first quarter of 2008; the acquisition of Refrigerantes Minas Gerais ("REMIL") contributed more than 25% of this growth.

Consolidated operating income grew 17.3% to Ps. 3,305 million for the first quarter of 2009, mainly driven by double-digit operating income growth recorded in our Mercosur and Latincentro divisions. Our operating margin reached 14.7% for the first quarter of 2009.

Consolidated majority net income decreased 18.1% to Ps. 1,327 million in the first quarter of 2009, mainly reflecting the devaluation of the Mexican peso as applied to our U.S. dollar-denominated net debt, resulting in earnings per share of Ps. 0.72 in the first quarter of 2009.

Mexico City (April 29, 2009), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) ("Coca-Cola FEMSA" or the "Company"), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world in terms of sales volume, announces results for the first quarter of 2009.

"Our Company achieved healthy top- and bottom-line results for the quarter, growing volumes, revenues and EBITDA by 7, 30 and 20 percent respectively. Among other factors, we benefited from the consolidation of our REMIL franchise territory in Brazil, the continued successful rollout of the Jugos del Valle line of juice-based beverages in Mexico, Colombia and Central America,

and organic growth. We have the flexibility to adapt our business through initiatives that sustain our cash flow and meet our strategic objectives. Importantly, our company is in a very strong financial position as exemplified by the dividends of more than 1.3 billion Mexican pesos that we paid our shareholders in the month of April." said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

## CONSOLIDATED RESULTS

Our consolidated total revenues increased 30.5% to Ps. 22,526 million in the first quarter of 2009, compared to the first quarter of 2008, as a result of increases in all of our divisions. Revenue growth was driven by (i) organic growth, mainly due to pricing, accounting for approximately 40% of incremental revenues, (ii) the consolidation of Refrigerantes Minas Gerais, Ltda. (“REMIL”) in Brazil, contributing more than 25% of incremental revenues for the quarter and (iii) a positive exchange rate translation effect providing the balance. Excluding the positive translation effect and the acquisition of REMIL, our consolidated total revenues would have increased approximately 12%.

Total sales volume increased 7.1% to 554.2 million unit cases in the first quarter of 2009 as compared to the same period of 2008; excluding REMIL, total sales volume increased 1.7% mainly driven by incremental volumes from our bottled water business and still beverages. Still beverages sales volume grew close to 120%, mainly driven by volumes from the Jugos del Valle brand in our Mexico and Latincentro divisions, accounting for the majority of incremental volumes in this category. Bottled water, including bulk water, grew more than 8%, mainly driven by the consolidation of the Agua de Los Angeles business in Mexico.

Our gross profit increased 26.3% to Ps. 10,443 million in the first quarter of 2009, compared to the first quarter of 2008. Cost of goods sold increased 34.5% mainly driven by (i) higher year-over-year sweetener costs, (ii) the devaluation of the local currencies in our main operations as applied to our U.S. dollar-denominated raw material cost and (iii) the integration of REMIL; which were partially offset by lower cost of resin. Gross margin reached 46.4% in the first quarter of 2009 as compared to 47.9% in the same period of 2008.

Our consolidated operating income increased 17.3% to Ps. 3,305 million in the first quarter of 2009, mainly driven by double-digit operating income growth in our Latincentro and Mercosur divisions. Our operating margin was 14.7% in the first quarter of 2009, a decrease of 160 basis points. Revenue growth compensated higher operating expenses and cost of goods sold.

During the first quarter of 2009, we recorded Ps. 330 million in the other expenses line. These expenses were mainly driven by the loss on sale of some fixed assets and employee profit sharing recorded in the other expenses line, in accordance with the Mexican Financial Reporting Standards.

Our integral result of financing in the first quarter of 2009 recorded an expense of Ps. 938 million as compared to Ps. 222 million in the same period of 2008, mainly due to a higher foreign exchange expense driven by the devaluation of the Mexican peso as applied to our U.S. dollar-denominated net debt.

During the first quarter of 2009, income tax, as a percentage of income before taxes, was 30.7%.

Our consolidated majority net income decreased by 18.1% to Ps. 1,327 million in the first quarter of 2009 as compared to the first quarter of 2008, mainly reflecting the devaluation of the Mexican peso as applied to our U.S. dollar-denominated net debt. Earnings per share (EPS) were Ps. 0.72 (Ps. 7.19 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

April 29, 2009

Page 13

## BALANCE SHEET

As of March 31, 2009, Coca-Cola FEMSA had a cash balance of Ps. 9,760 million including US\$ 449 million in US dollar currency, an increase of Ps. 3,568 million compared to December 31, 2008, net of the US\$ 46 million paid for our share of the joint acquisition of the Brisa bottled water business in Colombia.

Total short-term debt was Ps. 8,206 million and long-term debt was Ps. 12,785 million. Total debt increased Ps. 2,417 million compared with year end 2008 mainly due to the issuance of Ps. 2,000 million in 1.1 year “Certificados Bursátiles” in January 2009, priced at a yield of 28-day TIIE plus 80 basis points. Net debt decreased approximately Ps. 1,151 million compared to year end 2008, mainly as a result of cash generated during the quarter. KOF’s total debt balance includes U.S. dollar-denominated debt in the amount of US\$ 652 million (1).

The weighted average cost of debt for the quarter was 7.4%. The following charts set forth the Company’s debt profile by currency and interest rate type and by maturity date as of March 31, 2009:

Currency	% Total Debt(1)	% Interest Rate Floating(1)(2)
Mexican pesos	43.0%	55.9%
U.S. dollars	43.4%	39.6%
Colombian pesos	8.4%	100.0%
Venezuelan bolivars	0.9%	0.0%
Argentine pesos	4.4%	55.6%

(1) After giving effect to cross-currency swaps and interest rate swaps.

(2) Calculated by weighting each year’s outstanding debt balance mix.

## Debt Maturity Profile

Maturity Date	2009	2010	2011	2012	2013	2014+
% of Total Debt	29.5%	19.2%	0.3%	19.1%	11.9%	20.1%

The US\$ 449 million in dollar currency included in our cash balance are sufficient to meet the maturities of approximately US\$ 400 million coming due in July of 2009.

## Consolidated Cash Flow

Expressed in million of Mexican pesos (PS.) as of March 31, 2009

Mar-09

	Ps.
Income before taxes	2,037
Non cash charges	2,055
	4,093
Change in working capital	16
Resources Generated by Operating Activities	4,109

Investments	(1,316)
Debt	2,165
Other	(915)
Increase in cash and cash equivalents	4,044
Cash and cash equivalents at beginning of period	6,192
Translation Effect	(476)
Cash and cash equivalents at end of period	9,760

The difference between the debt increase of the balance sheet and the debt increase in nominal terms presented in the cash flow is related to the foreign exchange impact, presented separately as translation effect, in accordance with the Mexican Financial Reporting Standards.

## MEXICO DIVISION OPERATING RESULTS

### Revenues

Total revenues from our Mexico division increased 4.8% to Ps. 8,141 million in the first quarter of 2009, as compared to the same period of the previous year. Incremental volumes accounted for close to 70% of incremental revenues during the quarter. Average price per unit case reached Ps. 29.78, an increase of 1.6%, as compared to the first quarter of 2008, reflecting higher average prices per unit case from our growing still beverage portfolio that were partially offset by lower average prices per unit case in flavored sparkling beverages. Excluding bulk water under the brands Ciel and Agua de Los Angeles, our average price per unit case was Ps. 35.13, a 2.6% increase as compared to the same period of 2008.

Total sales volume increased 3.2% to 272.4 million unit cases in the first quarter of 2009, as compared to the first quarter of 2008, resulting from incremental volumes in the still beverage category, increasing almost threefold, driven by the Jugos del Valle product line and more than 11% volume growth in our bottled water business which more than compensated for a sales volume decline of 3.6% in sparkling beverages. This decline was mainly driven by lower flavored sparkling beverages sales.

### Operating Income

Our gross profit increased 3.0% to Ps. 4,077 million in the first quarter of 2009 as compared to the same period of 2008. Cost of goods sold increased 6.6% as a result of the devaluation of the Mexican peso as applied to our U.S. dollar-denominated raw material cost and the third and final stage of the scheduled Coca-Cola Company concentrate price increase announced in 2006, which was partially offset by lower year-over-year cost of resin. Gross margin decreased from 51.0% in the first quarter of 2008 to 50.1% in the same period of 2009.

Operating income increased 0.8% to Ps. 1,334 million in the first quarter of 2009, compared to Ps. 1,323 million in the same period of 2008, as a result of revenue growth, that compensated for higher cost of goods sold and higher selling expenses due to the integration of the specialized sales force of Jugos del Valle, and the integration of the Agua De Los Angeles and Ciel jug water businesses in the Valley of Mexico. Our operating margin was 16.4% in the first quarter of 2009, a decrease of 60 basis points as compared to the same period of 2008.

April 29, 2009

Page 15

---

LATINCENTRO DIVISION OPERATING RESULTS (Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama)

Revenues

Total revenues reached Ps. 8,049 million in the first quarter of 2009, an increase of 50.4% as compared to the same period of 2008. Higher average price per unit case and volume growth accounted for more than 40% of incremental revenues and a positive currency translation effect represented the balance. Excluding this positive currency translation effect, our Latincentro division's revenues would have increased approximately 21%.

Total sales volume in our Latincentro division increased 1.9% to 132.7 million unit cases in the first quarter of 2009 as compared to the same period of 2008. Volume growth was mainly driven by increases in sparkling beverages in Venezuela and still beverages in Colombia, due to the strong performance of the Jugos del Valle line of business, which compensated for a volume decline in Central America.

Operating Income

Gross profit reached Ps. 3,672 million, an increase of 50.2% in the first quarter of 2009, as compared to the same period of 2008. Cost of goods sold increased 50.6% mainly driven by higher sweetener costs across the division and the depreciation of the Colombian peso as applied to our U.S. dollar-denominated packaging costs. Gross margin decreased 10 basis points to 45.6% in the first quarter of 2009.

Our operating income increased 32.0% to Ps. 1,044 million in the first quarter of 2009, compared to the first quarter of 2008, as a result of operating leverage achieved by higher revenues that more than compensated for higher labor costs in Venezuela. Our operating margin reached 13.0% in the first quarter of 2009, resulting in a 180 basis points decline as compared to the same period of 2008.

April 29, 2009

Page 16

---

## MERCOSUR DIVISION OPERATING RESULTS (Brazil and Argentina)

As of June 2008, Coca-Cola FEMSA includes the REMIL operation in its Mercosur division. Volume and average price per unit case exclude beer results.

### Revenues

Net revenues increased 53.1% to Ps. 6,230 million in the first quarter of 2009, as compared to the same period of 2008. Excluding beer, which accounted for Ps. 608 million during the quarter, net revenues increased 50.1% to Ps. 5,622 million, compared to the same period of 2008. The acquisition of REMIL accounted for more than 60% of this growth, higher average prices per unit case accounted for almost 30% of incremental net revenues and a positive translation effect represented the balance. Excluding this positive currency translation effect, our Mercosur division's net revenues would have increased approximately 48%.

Sales volume, excluding beer, increased 20.7% to 149.1 million unit cases in the first quarter of 2009, as compared to the first quarter of 2008, driven by the acquisition of REMIL. Sales volume, excluding REMIL and beer, decreased 1.5% to reach 121.6 million unit cases as a result of volume declines in Argentina.

### Operating Income

In the first quarter of 2009, our gross profit increased 44.2% to Ps. 2,694 million, as compared to the same period of the previous year. Cost of goods sold increased 60.6% driven by (i) the integration of REMIL in Brazil, (ii) the devaluation of the local currencies as applied to our U.S. dollar-denominated raw material cost and (iii) higher sweetener cost in the division, as compared to the same period of last year. Our Mercosur division gross margin decreased 270 basis points to 42.5% in the first quarter of 2009.

Operating income increased 31.7%, reaching Ps. 927 million in the first quarter of 2009, as compared to Ps. 704 million in the same period of 2008. Operating leverage achieved by higher revenues more than compensated for higher labor and freight costs in Argentina. Our operating margin was 14.6% in the first quarter of 2009, a decrease of 240 basis points as compared to the first quarter of 2008.

---

## RECENT DEVELOPEMENTS

- On February 27, 2009 Coca-Cola FEMSA announced that it had successfully closed the transaction with Bavaria, a subsidiary of SABMiller, to jointly acquire with The Coca-Cola Company, the Brisa bottled water business (including the Brisa brand and production assets). This transaction will enable us to increase our presence in the water business and complement our portfolio. Brisa sold 47 million unit cases in 2008 in Colombia. The purchase price of US\$92 million was shared equally by Coca-Cola FEMSA and The Coca-Cola Company. The parties have also agreed a transition arrangement after closing, during which Bavaria will still be producing, selling and distributing Brisa.
- On March 23, 2009 – Coca-Cola FEMSA held its Annual Ordinary General Shareholders Meeting during which its shareholders approved the Company's consolidated financial statements for the year ended December 31, 2008, the declaration of dividends corresponding to fiscal year 2008 and the composition of the Board of Directors and Committees for 2009. Shareholders approved the payment of a cash dividend in the amount of Ps. 1,343.9 million. The dividend was paid on April 13, 2009, in the amount of Ps. 0.7278 per each ordinary share, equivalent to Ps. 7.278 per ADR. In addition, shareholders approved an amount of Ps. 400 million, the maximum amount allowed under Mexican law, which is available to the Company for share repurchases in the future, should it decide to use these funds.

## CONFERENCE CALL INFORMATION

Our first-quarter 2009 Conference Call will be held on: April 29, 2009, at 11:00 A.M. Eastern Time (10:00 A.M. Mexico City Time). To participate in the conference call, please dial: Domestic U.S.: 866-700-7477 or International: 617-213-8840. We invite investors to listen to the live audiocast of the conference call on the Company's website, [www.coca-colafemsa.com](http://www.coca-colafemsa.com)

If you are unable to participate live, an instant replay of the conference call will be available through May 6, 2009. To listen to the replay, please dial: Domestic U.S.: 888-286-8010 or International: 617-801-6888. Pass code: 48063967.

v v v

Coca-Cola FEMSA, S.A.B. de C.V. produces and distributes Coca-Cola, Sprite, Fanta, Lift and other trademark beverages of The Coca-Cola Company in Mexico (a substantial part of central Mexico, including Mexico City and southeast Mexico), Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide), Panama (nationwide), Colombia (most of the country), Venezuela (nationwide), Brazil (greater São Paulo, Campiñas, Santos, the state of Mato Grosso do Sul, part of the state of Goias and Minas Gerais) and Argentina (federal capital of Buenos Aires and surrounding areas), along with bottled water, beer and other beverages in some of these territories. The Company has 30 bottling facilities in Latin America and serves over 1,500,000 retailers in the region. The Coca-Cola Company owns a 31.6% equity interest in Coca-Cola FEMSA.
