Item 8.01 Other Events.

On April 6, 2010, Genta Incorporated, (the Company), announced that that the U.S. Food and Drug Administration (FDA) has granted the Company's request for "Fast Track" designation of tesetaxel for treatment of patients with advanced gastric cancer. Tesetaxel — a late Phase 2 oncology product — is the leading oral taxane currently in clinical development.

Fast Track designation is designed to facilitate the development and expedite the review of new drugs that are intended to treat serious or life-threatening conditions and that demonstrate the potential to address unmet medical needs. The designation typically enables a Company to submit a New Drug Application (NDA) on a "rolling" basis with ongoing FDA review during the submission process. NDAs with Fast Track designation are also usually granted priority review by FDA at the time of submission.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number	Description
