HEMISPHER<sub>x</sub> BIOPHARMA, INC. AND SUBSIDIARIES  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Basis Of Presentation

The consolidated financial statements include the financial statements of Hemispherx Biopharma, Inc. and its wholly-owned subsidiaries. The Company has three domestic subsidiaries BioPro Corp., BioAegean Corp. and Core Biotech Corp., all of which are incorporated in Delaware and are dormant. The Company's foreign subsidiary, Hemispherx Biopharma Europe N.V./S.A., established in Belgium in 1998, has minimal activity. All significant intercompany balances and transactions have been eliminated in consolidation.

In the opinion of Management, all adjustments necessary for a fair presentation of such consolidated financial statements have been included. Such adjustments consist of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The interim consolidated financial statements and notes thereto are presented as permitted by the Securities and Exchange Commission ("SEC"), and do not contain certain information which will be included in our annual consolidated financial statements and notes thereto.

These consolidated financial statements should be read in conjunction with our consolidated financial statements included in our annual report on Form 10-K, filed March 12, 2010, and 10-K/A, filed April 30, 2010, for the year ended December 31, 2009.

Note 2: Net Loss Per Share

Basic and diluted net loss per share is computed using the weighted average number of shares of common stock outstanding during the period. Equivalent common shares, consisting of stock options and warrants including the Company's convertible debentures, which amounted to 35,817,809 and 52,641,984 shares, are excluded from the calculation of diluted net loss per share for the six months ended June 30, 2009 and 2010, respectively, since their effect is antidilutive.

Note 3: Equity Based Compensation

The fair value of each option award is estimated on the date of grant using a Black-Scholes option valuation model. Expected volatility is based on the historical volatility of the price of the Company's stock. The risk-free interest rate is based on U.S. Treasury issues with a term equal to the expected life of the option. The Company uses historical data to estimate expected dividend yield, expected life and forfeiture rates. The fair values of the options granted, were estimated based on the following weighted average assumptions:

	Six Months Ended June 30,	
	2009	2010
Risk-free interest rate	1.76% - 2.54%	1.02%-2.03%
Expected dividend yield	-	-

## Note 4: Inventories and Other Assets

The Company uses the lower of first-in, first-out (“FIFO”) cost or market method of accounting for inventory.

Inventories consist of the following:

	(in thousands)	
	December 31, 2009	June 30, 2010
Inventory work in process	\$ -	\$ 934
Finished goods, net of reserves of \$282,000 at December 31, 2009 and \$250,000 at June 30, 2010.	-	-
	\$ -	\$ 934

The conversion of existing Alferon N Injection® Work-In-Progress inventory was started up again in May 2010 towards the manufacture of new Finished Goods and is estimated to be available for commercial sales in mid-2011. As a result the Work-In-Progress of \$864,000, which was included in “Other assets” in 2009, has been reclassified and included with current assets at the June 30, 2010 value of \$934,000.

On September 16, 2009, our Board of Directors approved up to \$4.4 million for full engineering studies, capital improvements, system upgrades and introduction of building management systems to enhance production of three products: Alferon N Injection®, Alferon® LDO and Ampligen®. Construction in progress consists of accumulated costs for the construction and installation of property and equipment within the Company's New Jersey facility until the assets are placed into service. As of December 31, 2009, construction in progress was \$135,000 as compared to \$405,000 for the six months ended June 30, 2010.

Note 9: Stockholders' Equity

The Equity Compensation Plan effective May 1, 2004, authorizes the grant of non-qualified and incentive stock options, stock appreciation rights, restricted stock and other stock awards. A maximum of 8,000,000 shares of common stock is reserved for potential issuance pursuant to awards under the Equity Plan of 2004. Unless sooner terminated, the Equity Compensation Plan of 2004 will continue in effect for a period of 10 years from its effective date. As of June 30, 2010, the Company effectively exhausted this plan and issued an aggregate 7,999,981 shares, stock options and warrants to vendors, Board Members, Directors and consultants under the 2004 Equity Compensation Plan. The shares had prices ranging from \$0.35 to \$0.89 based on the NYSE Amex closing price. The stock options had various exercise prices ranging from \$1.30 to \$6.00, had terms of five to ten years and vesting over varying periods.

The Equity Incentive Plan of 2007, effective June 20, 2007, authorizes the grant of non-qualified and incentive stock options, stock appreciation rights, restricted stock and other stock awards. A maximum of 9,000,000 shares of common stock is reserved for potential issuance pursuant to awards under the Equity Incentive Plan of 2007. Unless sooner terminated, the Equity Incentive Plan of 2007 will continue in effect for a period of 10 years from its effective date. The Company issued to vendors, Board Members, Directors and consultants, shares, stock options, warrants and "Incentive Rights" under the Employee Wages or Hours Reduction Program. As of June 30, 2010, the Company effectively exhausted this plan and issued an aggregate of 8,980,374 shares and shares issuable upon exercise/conversion of the foregoing securities. The aggregate shares to vendors, Board Members, Directors and consultants had prices ranging from \$0.32 to \$2.54 based on the NYSE Amex closing price. The stock options had various exercise prices ranging from \$0.72 to \$3.05, terms of ten years and vesting over varying periods.

The Company utilized the Black-Scholes Pricing Model to fair value the stock options which had been issued during the six months ended June 30, 2010 and accordingly recorded approximately \$435,000 as equity based compensation for these issuances during this period. The stock options generally vested immediately upon grant with the exception of 20,000 options to one officer which vest over 18 months.

In an effort to conserve our cash, the Employee Wage Or Hours Reduction Program (the "Program") was ratified by our Board effective January 1, 2009. The Incentive Rights are rights for employees to receive Company shares and had prices ranging from \$0.13 to \$0.80 based on the average daily closing prices of the Company shares on the NYSE Amex. The Program was suspended as of May 31, 2009 with employees returning back to their rate of pay as of January 1, 2009. At the passage of six months for each of their months of participation, non-affiliate employees executed their right to receive shares for the months ended July 31, August 31, September 30, October 30 and November 30, 2009. Dr. William A. Carter, and his spouse, Dr. Katalin Kovari, have yet to exercise their rights to receive their 820,826 shares of stock related to this Program.

The Equity Incentive Plan of 2009, effective June 24, 2009, authorizes the grant of non-qualified and incentive stock options, stock appreciation rights, restricted stock and other stock awards. A maximum of 15,000,000 shares of common stock is reserved for potential issuance pursuant to awards under the Equity Incentive Plan of 2009. Unless sooner terminated, the Equity Incentive Plan of 2009 will continue in effect for a period of 10 years from its effective date. As of June 30, 2010 the Company issued 2,571,081 securities to Directors and consultants consisting of an aggregate of 2,101,642 options and 469,439 shares of common stock issuable upon exercise/conversion of the foregoing securities. The shares issued to consultants had prices ranging from \$0.40 to \$0.68 based on the NYSE Amex closing price.

The aggregate stock options had various exercise prices ranging from \$0.51 to \$2.81, had terms of ten years and vested immediately upon grant.

On May 28, 2010, we entered into an Equity Distribution Agreement (the “Agreement”) with Maxim Group LLC (“Maxim”) to create an At-The-Market (“ATM”) equity program under which we may sell up to 32,000,000 shares of our Common Stock (the “Shares”) from time to time through Maxim as our sales agent (the “Agent”). Under the Agreement, the Agent is entitled to a commission at a fixed commission rate of 4.0% of the gross sales price per Share sold, up to aggregate gross proceeds of \$10,000,000, and, thereafter, at a fixed commission rate of 3.0% of the gross sales price per Share sold. Sales of the Shares under the Agreement may be made in transactions that are deemed to be “at-the-market” offerings as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made by means of ordinary brokers’ transactions, including on the NYSE Amex, at market prices or as otherwise agreed with the Agent. We have no obligation to sell any of the Shares, and may at any time suspend offers under the Agreement or terminate the Agreement. The Shares will be issued pursuant to our previously filed and effective Registration Statement on Form S-3 (File No. 333-159856). On June 22, 2009, we filed a base Prospectus and on May 28, 2010, filed a Prospectus Supplement relating to the offering with the Securities and Exchange Commission. During the quarter ended June 30, 2010, we sold 520,000 shares through the ATM equity program that resulted in net cash proceeds of \$292,785 and commissions paid to Maxim of \$12,199. The Shares sold through the ATM equity program had an average daily selling price ranging from \$0.53 to \$0.61.

#### Note 10: Fair Value

The Company is required under U.S. Generally Accepted Accounting Principles (“GAAP”) to disclose information about the fair value of all the Company’s financial instruments, whether or not these instruments are measured at fair value on the Company’s consolidated balance sheet.

The Company estimates that the fair values of cash and cash equivalents, marketable securities, other assets, accounts payable and accrued expenses approximate their carrying values due to the short-term maturities of these items. Additionally, the Company has certain warrants with a cash settlement feature (in the event of a change in control to a non-public company) that are carried at fair value. Management estimates the fair value using a model which determines the probability that the cash settlement feature conditions will arise. The carrying amount and estimated fair value of the above warrants was zero at June 30, 2010.

On January 1, 2008, the Company adopted new accounting guidance (codified at FASB ASC 820 and formerly Statement No. 157 Fair Value Measurements) that defines fair value, establishes a framework for measuring fair value in Generally Accepted Accounting Principles, and expands disclosures about fair value measurements. The guidance does not impose any new requirements around which assets and liabilities are to be measured at fair value, and instead applies to asset and liability balances required or permitted to be measured at fair value under existing accounting pronouncements. The Company measures its marketable securities based on quoted prices of active markets and warrant liability, for those warrants with a cash settlement feature, at fair value. As of June 30, 2010, the Company had no derivative assets or liabilities.

FASB ASC 820-10-35-37 (formerly SFAS No. 157) establishes a valuation hierarchy based on the transparency of inputs used in the valuation of an asset or liability. Classification is based on the lowest level of inputs that is significant to the fair value measurement. The valuation hierarchy contains three levels:

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities at the reporting date.
- Level 2 – Observable inputs other than Level 1 prices such as quote prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. As of December 31, 2009, the Company has classified the warrants with cash settlement features as Level 3. Management evaluates a variety of inputs and then estimates fair value based on those inputs. The primary inputs evaluated by management to determine the likelihood of a change in control to a non-public company (thereby triggering the cash settlement feature) were the Company's FDA approval status including the additional requirements including required cash outflows prior to resubmission to the FDA (observable), the industry and market conditions (unobservable), litigation matters against the Company (observable) and statistics regarding the number of company's going private (observable).

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy as of June 30, 2010:

	Total	Level 1	Level 2	Level 3
<b>Assets:</b>				
Marketable Securities	\$ 45,216	\$ 45,216	\$ -	\$ -
<b>Liabilities:</b>				
Warrants	-	-	-	-
<b>Total</b>	<b>\$ 45,216</b>	<b>\$ 45,216</b>	<b>\$ -</b>	<b>\$ -</b>

For detailed information regarding the change to the fair value of assets recorded in Level 1 (See Note 5: Marketable Securities). There were no changes in the fair value for the Level 3 Warrants during the three months ended June 30, 2010.

#### NOTE 11: Cash And Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

NOTE 12: Recent Accounting Pronouncements

The Financial Accounting Standards Board ("FASB") has published FASB Accounting Standards Update 2010-01 through 2010-12. The adoption of published FASB Accounting Standards Update 2010-01 through 2010-20 has no material effect on the Company's financial statements for the six months ended June 30, 2010.

NOTE 13: Subsequent Events

The Company evaluated subsequent events through the date on which the financial statements were issued, and determined that three amended employment agreements with Executive Officers and an amended adviser's agreement with The Sage Group, Inc. ("SAGE") constituted subsequent events that required disclosure without adjustment to the financial statements for the six months ended June 30, 2010. In summary:

- The June 11, 2010 employment agreements with William A. Carter, Chairman of the Board and Chief Executive Officer, and Thomas K. Equels, Vice Chairman of the Board, Secretary and General Counsel, were amended to make certain terminology revisions that did not impact or alter the terms of these executives' compensation. These amendments were reviewed and approved by the Compensation Committee on July 14, 2010 with unanimous recommendation to the Board for approval. On July 15, 2010, the Board of Directors unanimously approved the amendments. As a result, these amended employment agreements were signed on July 15, 2010 with an effective date of June 11, 2010.
- The existing employment agreement with Robert Dickey IV, Senior Vice President, was set to expire on September 1, 2010. Upon discussion and review on July 14, 2010, the Compensation Committee unanimously recommended to the Board that an agreement be authorized for renewal on a month-to-month basis at the same general terms and level of compensation as established in the employment agreement of February 1, 2010. On July 15, 2010, the Board of Directors unanimously authorized the renewal of this extension within the terms recommended by the Compensation Committee. As a result, this agreement renewal was signed on August 3, 2010 with an effective date of September 1, 2010.
- The adviser's agreement with SAGE was scheduled to expire on November 13, 2010. Upon discussion and review on July 15, 2010, the Company entered into an amended adviser's agreement for an initial term of 18 months.

Special Note Regarding Forward-Looking Statements

Certain statements in this document constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1995 (collectively, the "Reform Act"). Certain, but not necessarily all, of such forward-looking statements can be identified by the use of forward-looking terminology such as "believes", "expects", "may", "will", "should", or "anticipates" or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties. All statements other than statements of historical fact, included in this report regarding our financial position, business strategy and plans or objectives for future operations are forward-looking statements. Without limiting the broader description of forward-looking statements above, we specifically note that statements regarding potential drugs, their potential therapeutic effect, the possibility of obtaining regulatory approval, our ability to manufacture and sell any products, market acceptance or our ability to earn a profit from sales or licenses of any drugs or our ability to discover new drugs in the future are all forward-looking in nature.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors, including but not limited to, the risk factors discussed below, which may cause the actual results, performance or achievements of Hemispherx and its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements and other factors referenced in this report. We do not undertake and specifically decline any obligation to publicly release the results of any revisions which may be made to any forward-looking statement to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

## Overview

### General

We are a specialty pharmaceutical company based in Philadelphia, Pennsylvania and engaged in the clinical development of new drug therapies based on natural immune system enhancing technologies for the treatment of viral and immune based chronic disorders. We were founded in the early 1970s doing contract research for the National Institutes of Health. Since that time, we have established a strong foundation of laboratory, pre-clinical and clinical data with respect to the development of natural interferon and nucleic acids to enhance the natural antiviral defense system of the human body and to aid the development of therapeutic products for the treatment of certain chronic diseases. We have three domestic subsidiaries BioPro Corp., BioAegean Corp., and Core BioTech Corp., all of which are incorporated in Delaware and are dormant. Our foreign subsidiary is Hemispherx Biopharma Europe N.V./S.A. established in Belgium in 1998, which has minimal activity. All significant intercompany balances and transactions have been eliminated in consolidation.

Our current strategic focus is derived from four applications of our two core pharmaceutical technology platforms Ampligen® and Alferon N Injection®. The commercial focus for Ampligen® includes application as a treatment for Chronic Fatigue Syndrome (“CFS”) and as an influenza vaccine enhancer (adjuvant) for both therapeutic and preventative vaccine development. Alferon N Injection® is a Food and Drug Administration (“FDA”) approved product with an indication for refractory or recurring genital warts. Alferon® LDO (Low Dose Oral) is a formulation currently under development targeting influenza.

We have formed an independent Data Monitoring Committee (“DMC”) which will oversee our various drug development programs. The principal role of an independent DMC is to perform interim analyses of the clinical outcome data and to insure the safety of patients in clinical trials. The DMC also plays a critical role in studies that may use “Adaptive Design” wherein trial design modifications can be made after patient enrollment has started. Adaptive Design should enable us to respond to data collected during a trial to increase the likelihood of generating statistically and clinically significant results. As of August 3, 2010, there has yet to be any clinical outcome data generated for the DMC to review.
