INNOVATIVE ACQUISITIONS CORP.
(A Development Stage Company)
NOTES TO UNAUDITED FINANCIAL STATEMENTS
March 31, 2011

Note 1 – Basis of Presentation

The accompanying unaudited interim financial statements of Innovative Acquisitions Corp. (“Innovative”) have been prepared in accordance with the accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission and should be read in conjunction with the audited financial statements and notes thereto contained in Innovative’s Form 10-K filed with the SEC on March 30, 2011. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the period ended December 31, 2010 as reported in Form 10-K have been omitted.

Note 2 – Going Concern

These financial statements have been prepared on a going concern basis. The Company has not generated any revenue since inception and is unlikely to generate revenue in the immediate or foreseeable future. The continuation of the Company as a going concern is dependent upon financial support from its shareholders, the ability to obtain necessary equity financing and the attainment of profitable operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 – Equity

The Company received $8,200 and $8,800 additional cash capital contributions from its directors during the six months ended June 30, 2011 and 2010, respectively, and received $70,650 cash capital contribution from its directors from April 27, 2007 (inception) to June 30, 2011. No additional shares of common stock were issued as a result of these capital contributions.

Note 4 – Related Party

The Company’s principal office is located with a related party at 12 Georgiana Drive, Cumberland, RI pursuant to a verbal agreement on a rent-free month-to-month basis.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statement Notice

Certain statements made in this Quarterly Report on Form 10-Q are “forward-looking statements” (within the meaning of the Private Securities Litigation Reform Act of 1995) in regard to the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Innovative Acquisitions Corp. (“we”, “us”, “our” or the “Company”) to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Quarterly Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Description of Business

The Company was incorporated in the State of Delaware on April 27, 2007 (Inception) and maintains its principal executive office at c/o Faraaz Siddiqi, 12 Georgiana Drive, Cumberland, RI 02864. Since inception, the Company has been engaged in organizational efforts and obtaining initial financing. The Company was formed as a vehicle to pursue a business combination through the acquisition of, or merger with, an operating business. The Company filed a Registration Statement on Form 10-SB with the U.S. Securities and Exchange Commission (the “SEC”) on September 14, 2007, and since its effectiveness, the Company has focused its efforts to identify a possible business combination.

The Company, based on proposed business activities, is a “blank check” company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is also a “shell company,” defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations. Management does not intend to undertake any efforts to cause a market to develop in our securities, either debt or equity, until we have successfully concluded a business combination. The Company intends to comply with the periodic reporting requirements of the Exchange Act for so long as we are subject to those requirements.

The Company was organized as a vehicle to investigate and, if such investigation warrants, acquire a target company or business seeking the perceived advantages of being a publicly held corporation. The Company's principal business objective for the next 12 months and beyond such time will be to achieve long-term growth potential through a combination with an operating business. The Company will not restrict its potential candidate target companies to any specific business, industry or geographical location and, thus, may acquire any type of business.

The Company currently does not engage in any business activities that provide cash flow. During the next twelve months we anticipate incurring costs related to:

(i) filing Exchange Act reports, and
(ii) investigating, analyzing and consummating an acquisition.

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors. As of the date of the period covered by this report, the Company has $1,747 in its treasury. We currently have no agreements or specific arrangements in place with our stockholders, management or other investors, however, our management and stockholders have indicated an intention to advance funds to the Company as needed in order to cover costs related to the Company's Exchange Act filing requirements and investigating, analyzing and consummating an acquisition. There are no assurances that such funds will be advanced or that the Company will be able to secure any additional funding as needed. Currently, however our ability to continue as a going concern is dependent upon our ability to generate future profitable operations and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. Our ability to continue as a going concern is also dependant on our ability to find a suitable target company and enter into a possible reverse merger with such company. Management's plan includes obtaining additional funds by equity financing through a reverse merger transaction and/or related party advances, however there is no assurance of additional funding being available.

The Company may consider acquiring a business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, a business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital but which desires to establish a public trading market for its shares while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Since our Registration Statement on Form 10-SB went effective, our management has not had any contact or discussions with representatives of other entities regarding a business combination with us. Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

Our management anticipates that it will likely be able to effect only one business combination, due primarily to our limited financing and the dilution of interest for present and prospective stockholders, which is likely to occur as a result of our management's plan to offer a controlling interest to a target business in order to achieve a tax-free reorganization. This lack of diversification should be considered a substantial risk in investing in us, because it will not permit us to offset potential losses from one venture against gains from another.

The Company anticipates that the selection of a business combination will be complex and extremely risky. Our management believes that there are numerous firms seeking the perceived benefits of becoming a publicly traded corporation. Such perceived benefits of becoming a publicly traded corporation include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

We have not established a specific timeline nor have we created a specific plan to identify an acquisition target and consummate a business combination. Our management has indicated an intent to advance funds on behalf of the Company as needed in order to accomplish its business plan and comply with its Exchange Act reporting requirements, however, there are no agreements in effect between the Company and our management and its stockholders. Therefore, there are no assurances that the Company will be able to obtain the required financing as needed in order to consummate a business combination transaction.

Liquidity and Capital Resources

As of June 30 2011, the Company had assets equal to $1,747, comprised exclusively of cash. This compares to assets of $462, comprised exclusively of cash, as of December 31, 2010. The Company's liabilities as of June 30, 2011 totaled $3,280 comprised exclusively of accounts payable. This compares to liabilities of $0 as of December 31, 2010. The Company can provide no assurance that it can continue to satisfy its cash requirements for at least the next twelve months.

The following is a summary of the Company's cash flows provided by (used in) operating, investing, and financing activities for the six months ended June 30, 2011 and 2010 and for the cumulative period from April 27, 2007 (Inception) to June 30, 2011:

	Six Months Ended June 30, 2011	Six Months Ended June 30, 2010	April 27, 2007 (Inception) through June 30, 2011
Net cash used in operating activities	$ (6,915)	$ (9,405)	$ (68,903)
Net cash used in investing activities	-	-	-
Net cash provided by financing activities	$ 8,200	$ 8,800	$ 70,650
Net increase (decrease) in cash	$ 1,285	$ (605)	$ 1,747

The Company has nominal assets and has generated no revenues since inception. The Company is also dependent upon the receipt of capital investment or other financing to fund its ongoing operations and to execute its business plan of seeking a combination with a private operating company. In addition, the Company is dependent upon certain related parties to provide continued funding and capital resources. If continued funding and capital resources are unavailable at reasonable terms, the Company may not be able to implement its plan of operations.

Results of Operations

The Company has not conducted any active operations since inception, except for its efforts to locate suitable acquisition candidates. No revenue has been generated by the Company from April 27, 2007 (Inception) to June 30, 2011. It is unlikely the Company will have any revenues unless it is able to effect an acquisition or merger with an operating company, of which there can be no assurance. It is management's assertion that these circumstances may hinder the Company's ability to continue as a going concern. The Company's plan of operation for the next twelve months shall be to continue its efforts to locate suitable acquisition candidates.

For the three and six months ending June 30, 2011, the Company had a net loss of $3,312 and $10,195, respectively, consisting of legal, accounting, audit and other professional service fees incurred in relation to the preparation and filing of the Company's Annual Report on Form 10-K for the year ended December 31, 2010 in March of 2011 and the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 filed in May of 2011. This compares with a net loss of $2,438 and $7,135 for the three and six months, respectively, ending June 30, 2010 consisting of legal, accounting, audit and other professional service fees incurred in relation to the preparation and filing of the Company's Annual Report on Form 10-K for the year ended December 31, 2009 in March of 2010 and Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2010 filed in May of 2010.

For the cumulative period from April 27, 2007 (Inception) to June 30, 2011, the Company had a net loss of $72,183, consisting of legal, accounting, audit and other professional service fees incurred in relation to the formation of the Company, the filing of the Company's Registration Statement on Form 10-SB in September of 2007 and the filing of the Company's periodic reports and other filings as required in accordance with the Securities Exchange Act of 1934.

Critical Accounting Policies

The preparation of financial statements in accordance with generally accepted accounting principles requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses. We base our estimates on historical experience and various other assumptions that we believe are reasonable under the circumstances. Our estimates form the basis for making judgments about amounts and timing of revenue and expenses, the carrying values of assets and the recorded amounts of liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and such estimates may change if the underlying conditions or assumptions change. Information with respect to our critical accounting policies that we believe could have the most significant effect on our reported results or require subjective or complex judgments by management is contained in our 2010 Form 10-K.We believe that at June 30, 2011, there has been no material change to this information.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual Obligations

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide this information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules, regulations and related forms, and that such information is accumulated and communicated to our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of June 30, 2011, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and our principal financial officer of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Controls

There have been no changes in our internal controls over financial reporting during the quarter ended June 30, 2011 that have materially affected or are reasonably likely to materially affect our internal controls.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

There are presently no material pending legal proceedings to which the Company, any of its subsidiaries, any executive officer, any owner of record or beneficially of more than five percent of any class of voting securities is a party or as to which any of its property is subject, and no such proceedings are known to the Registrant to be threatened or contemplated against it.

Item 1A. Risk Factors.

As a “smaller reporting company” as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Removed and Reserved.

Item 5. Other Information.

None.

Item 6. Exhibits.

(a) Exhibits required by Item 601 of Regulation S-K.
