#### SECTION 1: SUMMARY OF RESULTS

3Q11: preparing for a more challenging environment

In the nine-month period ended September 30, 2011 (9M11), net income attributable to shareholders<u>1</u> totaled Ch\$332,963 million (Ch\$1.77 per share and US\$3.56/ADR<u>2</u>) and decreased 13.1% compared to net income in the same period of 2010. Return on average equity reached 23.8% in 9M11, among the highest returns in the Chilean financial system. The efficiency ratio in 9M11 reached 38.4%.

In 3Q11, net income attributable to shareholders totaled Ch\$75,153 million (Ch\$0.40 per share and US\$0.80/ADR). Compared to 2Q11 (from now on QoQ) net income decreased 46.9%. Compared to 3Q10 (from now on YoY) net income decreased 40.0%. Several non-recurring items and a cautious stance regarding risks affected these results.

Our outlook for Chile in 2012 continues to be positive, with GDP expected to expand 4.5% and inflation to be close to 3.0%. Nonetheless, the Bank focused its actions on 4 main points in the quarter in order to maintain sustainable levels of high profitability in 2012: (i) Liquidity, (ii) Capital, (iii) Selective loan growth and spreads, and (iv) Prudent risk policies. This process is very similar to the approach we carried out in the 2008-2009 period.

I.Focus on liquidity

Core deposits grow 6.9% QoQ and 30.9% YoY

Total deposits increased 4.4% QoQ. In the quarter, the Bank continued to focus on increasing its core deposit base (non-institutional deposits). These cheaper deposits led growth and expanded 6.9% QoQ and 30.9% YoY, representing more than 70% of the Bank's deposit base. The Bank's loan to deposit ratio (measured as loans minus marketable securities that fund mortgage portfolio over total deposits<u>3</u>) improved to 94.8% as of September 2011 compared to 96.8% as of June 2011 and 100.9% in September 2010.

The Bank's market share in total deposits has increased 36 basis points in the last 12 months to 18.7%. Throughout 2011, funding costs in the banking system have risen due to higher short-term interest rates, but the Bank's funding costs have increased at a slower pace given the focus on core deposit growth. We currently have opened a gap of 20 basis points in average cost of funds compared to the rest of the Chilean banking system.

1 The results in this report are unaudited.

Investor Relations Department Bandera 140 19th Floor, Santiago, Chile, Tel: 562-320-8284, fax: 562-671-6554, email: rmorenoh@santander.cl

<sup>2</sup> Earnings per ADR was calculated using the Observed Exchange Rate of Ch\$515.14 per US\$ as of September 30, 2011.

<sup>3</sup> Mortgage loans in Chile are long-term fixed rate loans. Therefore, we consider it to be more conservative form a market risk and liquidity stand point to fund these loans with long-term fixed rate bonds and not short-term variable rate deposits.

#### Average cost of funds

Cost of funds: Interest expenses / total liabilities annualized. Competition includes all Chilean banks minus Santander. Source of data: Superintendency of Banks of Chile (SBIF)

Surplus liquidity tops US\$3 billion

In the quarter, the Bank's deposit base increased at a faster pace than its loans. This additional liquidity was temporarily invested in Chilean sovereign risk. The Bank's surplus liquidity, defined as financial investments minus non-structural liabilities, averaged US\$3.0 billion in the quarter.

II.Focus on core capital

Core capital at 10.2%. ROAE in 9M11 at 23.8%

The Bank currently has one of the highest capitalization levels in the Chilean financial system. Voting common shareholders' equity is the sole component of our Tier I capital. The Bank core capital ratio reached 10.2%, increasing 40 bp QoQ. The Bank implemented a series of measures to boost core capital ratios by optimizing risk-weighted assets. As a result, the BIS ratio reached 13.9% as of September 30, 2011 compared to 13.4% as of June 2011. ROAE in the nine-month period ended September 30, 2011 reached 23.8%.

III.

Focus on selective loan growth and spreads

In 3Q11, total loans increased 1.5% QoQ and 16.1% YoY. The Bank has been following a more selective approach to loan growth given the market uncertainty, while continuing to focus on retail lending activities. Higher yielding loans to individuals increased 2.1% QoQ in 3Q11. This loan growth was led by lending to middle and upper income individuals, which expanded 2.2% QoQ. Lending to Santander Banefe slowed in the quarter and grew 1.3% QoQ (18.1% YoY). This year the Bank is obtaining attractive returns in this segment given the positive evolution of credit risk and spreads.

**Rising spreads** 

The Banks net interest margin in the quarter reached 4.6% compared to 5.2% in 2Q11. The Bank's margins in the quarter were negatively affected by lower QoQ inflation rates, as the Bank has more assets than liabilities linked to inflation. Inflation in the quarter descended from 1.44% in 2Q11 to 0.56% in 3Q11. For every 100 bp decline in inflation, net interest income falls by approximately Ch\$25 billion. The increase in the Bank's surplus liquidity has also temporarily reduced the Bank's net interest margin.

These negative effects on margins were partially offset by rising loan spreads (excluding the impacts of mismatches in inflation indexed assets and liabilities). Loan spreads in the quarter began to rise as the Bank implemented a stricter pricing policy in light of a potential deterioration of economic conditions and a potentially higher cost of capital. This should also help to sustain or improve margins in coming quarters.

Loan spreads\*, %

Spread = Loan yield minus cost of funds and excluding impacts of inflation indexed asset and liability mismatches.

IV.

Prudent credit risk policies

Risk index stable despite higher provisions

On a year-to date basis net provision expense has increased 7.6% compared to a 16.1% rise in loan growth. Provision for loan losses in the quarter increased 58.9% QoQ and 75.4% YoY. This rise was mainly due to one-time provisions expenses, the expansion of our lending volumes, especially consumer lending and more prudent credit risk policies implemented in light of a possible deterioration of the macro environment. This included restricting renegotiations and, therefore, increasing charge-offs. This also resulted in a temporary rise in NPLs, but did not affect the Bank's risk index. The Risk Index, which includes non-performing loans and additional risk parameters, remained stable QoQ at 2.94%. The Bank is required to have 100% coverage at all times of its Risk Index. The NPL ratio, which includes all loans that are more than 90 days overdue, as of September 2011 reached 2.81%. The coverage ratio of total NPLs (loan loss allowances over non-performing loans) reached 104.8% as of September 2011.

1. The change in earnings per ADR may differ from the change in earnings per share due to the exchange rate movements. Earnings per ADR was calculated using the Observed Exchange Rate Ch\$515.14 per US\$ as of September 30, 2011.

2. Annualized quarterly Net income attributable to shareholders / Average equity attributable to shareholders.

3. NPLs: Non-performing loans; full balance of loans with one installment 90 days or more overdue.

4. Risk Index: Loan loss allowances / Total loans; measures the percentage of loans the banks must provision for given their internal models and the Superintendency of Banks guidelines.

5. PDLs: Past due loans; all loan installments that are more than 90 days overdue.

#### SECTION 2: BALANCE SHEET ANALYSIS

#### LOANS

Selective loan growth led by retail lending to middle-upper income individuals

Loans		Quarter ended,		% Chang	e		
				C		Sep. 11 / J	un.
(Ch\$ million)	Sep-11	Jun-11	Sep-10	Sep. 11 / 1	0	11	
Total loans to individuals1	9,215,686	9,026,697	8,035,617	14.7	%	2.1	%
Consumer loans	2,925,659	2,893,038	2,554,884	14.5	%	1.1	%
Residential mortgage loans	5,016,419	4,909,630	4,498,799	11.5	%	2.2	%
SMEs	2,524,836	2,455,349	2,301,536	9.7	%	2.8	%
Total retail lending	11,740,522	11,482,046	10,337,153	13.6	%	2.3	%
Institutional lending	351,686	372,939	340,274	3.4	%	(5.7	)%
Middle-Market & Real estate	3,731,881	3,625,439	3,160,681	18.1	%	2.9	%
Corporate	1,833,084	1,950,992	1,406,210	30.4	%	(6.0	)%
Total loans 2	17,680,356	17,422,041	15,232,019	16.1	%	1.5	%

1. Includes consumer loans, residential mortgage loans and other commercial loans to individuals.

2. Total loans gross of loan loss allowances. Total loans include other non-segmented loans and excludes interbank loans.

In 3Q11, total loans increased 1.5% QoQ and 16.1% YoY. The Bank has been following a more selective approach to loan growth given the market uncertainty while continuing to focus on retail lending activities.

Loans to individuals, which include consumer, mortgage and commercial loans to high-income individuals, increased of 2.1% QoQ in 3Q11. This loan growth was driven by lending to middle and upper income individuals, which expanded 2.2% QoQ. Lending to Santander Banefe increased 1.3% QoQ as the bank adopted a more selective approach to loan growth in this segment.

Breakdown loans to				% Change	
individuals		% Change		Sep. 11 /	
(Ch\$ million)	Sep-11	Sep. 11 / 10	)	Jun. 11	
Middle-upper income	8,420,540	14.3	%	2.2	%
Santander Banefe	795,146	18.9	%	1.3	%
Individuals	9,215,686	14.7	%	2.1	%

By product, consumer loans increased 1.1% QoQ and 14.5% YoY. In the quarter, the Bank focused on expanding its higher yielding credit card loan portfolio that increased 2.3% QoQ and 28.2% YoY. Installment loans were flat QoQ. Residential mortgage loans increased 2.2% QoQ (11.5% YoY), as long-term rates remained attractive and demand for purchasing homes continued to rise.

Lending to SMEs (defined as companies that sell less than Ch\$1,200 million per year) led growth in retail lending and expanded 2.8% QoQ (9.7% YoY), reflecting the Bank's shift in focus in the quarter given market uncertainties. This segment tends to perform better in slower economic growth periods given the high level of diversification of this portfolio.

#### Investor Relations Department

Bandera 140 19th Floor, Santiago, Chile, Tel: 562-320-8284, fax: 562-671-6554, email: rmorenoh@santander.cl

In the middle market (comprised of companies with annual sales between Ch\$1,200 million and Ch\$10.000 million per year), loans grew a healthy 2.9% QoQ (18.1% YoY). This year the Bank is obtaining attractive returns in this segment given the positive evolution of credit risk and spreads.

Corporate lending (companies with sale over Ch\$10,000 million per year or that are part of a large foreign or local economic group) decreased 6.0% QoQ (+30.4% YoY). This fall was mainly due to 3 corporate debt obligation that were paid in full as company's currently have strong liquidity levels. Non-lending activities with this segment continued to grow in the quarter. (See Funding and Financial transactions, net).

## FUNDING

Focus on liquidity. Core deposits grow 6.9% QoQ and 30.9% YoY

Funding	(	Quarter ended,	% Change Sep. 11 /			
(Ch\$ million)	Sep-11	Jun-11	Sep-10	Sep. 11 / 10	-	
Demand deposits	4,496,757	4,450,290	3,991,732	12.7	% 1.0 %	
Time deposits	9,395,246	8,856,185	7,155,213	31.3 9	% 6.1 %	
Total deposits	13,892,003	13,306,475	11,146,945	24.6	% 4.4 %	
Mutual funds (off-balance sheet)	2,852,379	3,136,413	3,305,683	(13.7)	% (9.1 )%	
Total customer funds	16,744,382	16,442,888	14,452,628	15.9	% 1.8 %	
Loans to deposits1	94.8 %	96.8 %	100.9 %	)		

1. (Loans - marketable securities that fund mortgage portfolio) / (Time deposits + demand deposits).

Customer funds increased 1.8% in the quarter led by a 4.4% QoQ rise in total deposits. Demand deposits increased 1.0% in the same period and time deposits were up 6.1%. In the quarter, the Bank continued to focus on increasing its core deposit base. Core deposits (non-institutional deposits) increased 6.9% QoQ and 30.9% YoY. The Bank's loan to deposit ratio (measured as loans minus marketable securities that fund mortgage portfolio over total deposits) improved to 94.8% as of September 2011 compared to 96.8% as of June 2011 and 100.9% in September 2010. The Bank's market share in total deposits has increased 36 basis points in the last 12 months to 18.7%. Mutual funds under management decreased 9.1% QoQ. This was mainly due to weak equity markets.

## SHAREHOLDERS' EQUITY AND REGULATORY CAPITAL

## SECTION 3: ANALYSIS OF QUARTERLY INCOME STATEMENT

#### NET INTEREST INCOME

Net interest margins negatively affected by lower inflation in the quarter and higher levels of liquidity. Loan spreads rising.

Net Interest Income / Margin	Quarter						Change %				
C C							3Q11/		3Q11 /		
(Ch\$ million)	3Q11		2Q11		3Q10		3Q10		2Q11		
Interest income	420,729		472,132		355,445		18.4	%	(10.9	)%	
Interest expense	(188,672	)	(224,718	)	(119,771	)	57.5	%	(16.0	)%	
Net interest income	232,057		247,414		235,674		(1.5	)%	(6.2	)%	
Average interest-earning assets	20,068,32	22	19,099,82	28	16,463,95	51	21.9	%	5.1	%	
Average loans	17,460,99	92	17,146,71	12	14,874,81	6	17.4	%	1.8	%	
Interest earning asset yield1	8.4	%	9.9	%	8.6	%					
Cost of funds2	4.1	%	5.2	%	2.8	%					
Net interest margin (NIM)3	4.6	%	5.2	%	5.7	%					
Avg. equity + non-interest											
bearing demand deposits / Avg. interest											
earning assets	31.3	%	33.6	%	34.7	%					
Quarterly inflation rate5	0.56	%	1.44	%	0.65	%					
Central Bank reference rate	5.25	%	5.25	%	2.50	%					
Avg. 10 year Central Bank yield (real)	2.63	%	2.90	%	2.82	%					

1. Interest income divided by interest earning assets.

2. Interest expense divided by interest bearing liabilities + demand deposits.

3. Net interest income divided by average interest earning assets annualized.

4. Net interest income net of provision expenses divided by interest earning assets.

5. Inflation measured as the variation of the Unidad de Fomento in the quarter.

Net interest income decreased 6.2% QoQ and 1.5% YoY. The Net interest margin (NIM) in 3Q11 reached 4.6% compared to 5.2% in 2Q11. Compared to 3Q10, the decline in net interest income and NIM was mainly due to higher short-term interest rates. The Central Bank has increased short-term interest rates by 300 basis points to 5.25% in the last twelve months. The Bank's liabilities have a shorter duration than assets and, therefore, re-price more quickly in a rising interest rate environment. This has increased funding costs as reflected in the 57.5% YoY rise in interest expense in the quarter. Interest income on the other hand has increased 18.4% slightly above the 17.4% YoY increase in average loans. To offset this, the Bank focused on increasing core deposit base. We have currently opened a gap of 20 basis points in average cost of funds compared to the rest of the Chilean banking system.

Compared to 2Q11, the decrease in the Bank's net interest income and NIM was mainly due to: (i) the lower QoQ inflation rates, which negatively affected margins, as the Bank has more assets than liabilities linked to inflation. Inflation in the quarter descended from 1.44% in 2Q11 to 0.56% in 3Q11. For every 100 bp decline in inflation, net interest income falls by approximately Ch\$25 billion. This more than offset in the quarter rising loan spreads, which are gradually incorporating the higher interest rate environment. (ii) The increase in the Bank's surplus liquidity has also temporarily reduced the Bank's net interest margin. The Bank deposit base has increased 24.6% YoY and 4.4% QoQ compared to a 17.4% YoY and 1.8% QoQ increase in average loans.

#### Investor Relations Department

Bandera 140 19th Floor, Santiago, Chile, Tel: 562-320-8284, fax: 562-671-6554, email: rmorenoh@santander.cl

This additional liquidity has been temporarily invested in sovereign Chilean risk. The Bank's surplus liquidity, defined as financial investments minus non-structural liabilities, averaged US\$3.0 billion in the quarter.

#### Surplus liquidity (US\$ million)

Surplus liquidity: Financial investments minus non-structural liabilities

The negative effects on margins were partially offset by rising loan spreads (excluding the impacts of mismatches in inflation indexed assets and liabilities). Loan spreads in the quarter began to rise as the Bank implemented a stricter pricing policy in light of a potential deterioration of economic conditions. This should also help to sustain or improve margins in coming quarters.

Loan spreads\*, %

Spread = Loan yield minus cost of funds and excluding impacts of inflation indexed asset and liability mismatches. Excludes corporate banking

## PROVISION FOR LOAN LOSSES

Risk index stable despite higher provisions. Provision expense in 3Q11 affected by various one-time expenses

Provision for loan losses	Quarter						Change %			
							3Q11/	-	3Q11/	
(Ch\$ million)	3Q11		2Q11		3Q10		3Q10		2Q11	
Gross provisions	(18,628	)	1,040		(9,974	)	86.8	%	(1891.2	)%
Charge-offs	(77,466	)	(62,577	)	(49,568	)	56.3	%	23.8	%
Gross provisions and charge-offs	(96,094	)	(61,537	)	(59,542	)	61.4	%	56.2	%
Loan loss recoveries	5,722		4,663		8,017		(28.6	)%	22.7	%
Net provisions for loan losses1	(90,372	)	(56,874	)	(51,525	)	75.4	%	58.9	%
Total loans2	17,680,35	55	17,422,04	-1	15,232,01	9	16.1	%	1.5	%
Loan loss allowances1	520,565		505,887		428,833		21.4	%	2.9	%
Non-performing loans3 (NPLs)	496,786		452,150		407,831		21.8	%	9.9	%
Risk Index4	2.94	%	2.90	%	2.82	%				
NPL / Total loans	2.81	%	2.60	%	2.68	%				
Coverage ratio of NPLs5	104.8	%	111.9	%	105.1	%				

1. The Bank reclassified Ch\$ 31,162 million in provision reversals for off balance sheet lines of credit recognized in 3Q10 as Other operating income to Provisions for loan losses as required by the SBIF.

2.

Excludes interbank loans.

3. NPLs: Non-performing loans; full balance of loans with one installment 90 days or more overdue.

4. Risk Index: Loan loss allowances / Total loans; measures the percentage of loans the banks must provision for given their internal models and the Superintendency of Banks guidelines.

5. Loan loss allowances / NPLs.

Provision for loan losses in the quarter increased 58.9% QoQ and 75.4% YoY. On a year-to date basis net provision expense has increased 7.6% compared to a 16.1% rise in loan growth. The QoQ increase was mainly due to:

i. Strengthening of the residential mortgage provisioning model. As announced in our 2Q11 earnings report, the Bank improved its provisioning model for residential mortgage lending. This change was done in line with our strategic objective of accompanying our loan growth in retail lending with a proactive stance regarding credit risk. This signified a one-time provision expense of approximately Ch\$10,000 million in 3Q11. The Bank migrated to a model with more parameters to determine the risk level of a client with a mortgage loan. Previously, the main factor for determining the reserve level was non-performance. For more details on the new model, see Annex 1.

ii. Higher provisions in the middle-market. In 3Q11, the bank set aside Ch\$4,000 million in provisions for two deteriorated loan positions in the middle market. We do not expect further provisions for these cases in the future.

iii. Provisions related to La Polar. The Bank set aside a further Ch\$600 million in provisions for this loan position in 3Q11.

iv.Translation loss of provisions in US\$. In the quarter, the Chilean peso depreciated 9%. As some large commercial loan positions are denominated in US\$ and, since the Bank must set aside minimum provisions for all large loans analyzed on an individual basis, this resulted in Ch\$4,600 million in higher provision directly related to the depreciation of the exchange rate.

Excluding these one-time items, the adjusted provision expenses increased 38.1% QoQ and 25.1% YoY in 3Q11. This rise was mainly due to one-time provisions expenses, the expansion of our lending volumes, especially consumer lending and more prudent credit risk policies implemented in light of a possible deterioration of the macro environment. This included restricting renegotiations and, therefore, increasing charge-offs. This also resulted in a temporary rise in NPLs, but did not affect the Bank's risk index. The Risk Index, which measures the percentage of loans the banks must provision for given their internal models and the Superintendency of Banks guidelines, remained stable QoQ at 2.94%. We are required to have 100% coverage at all times of its Risk Index. The NPL ratio as of September 2011 reached 2.81%. The coverage ratio of total NPLs (loan loss allowances over non-performing loans) reached 104.8% as of September 2011.

#### Risk Index vs NPLs, %

NPLs: Non-performing loans; full balance of loans with one installment 90 days or more overdue. Risk Index: Loan loss allowances / Total loans; measures the percentage of loans the banks must provision for given their internal models and the Superintendency of Banks guidelines.

#### NET FEE INCOME

Market conditions and the temporary slowdown in loan originations affected fee income

Fee Income Q			Change %				
				3Q11 /		3Q11/	
(Ch\$ million)	3Q11	2Q11	3Q10	3Q10		2Q11	
Collection fees	14,684	16,215	15,324	(4.2	)%	(9.4	)%
Credit, debit & ATM card fees	14,383	16,079	13,518	6.4	%	(10.5	)%
Checking accounts & lines of credit	10,020	10,025	10,604	(5.5	)%	(0.0)	)%
Asset management	8,796	10,179	10,063	(12.6	)%	(13.6	)%
Insurance brokerage	7,955	9,574	8,683	(8.4	)%	(16.9	)%
Guarantees, pledges and other contingent							
operations	6,335	5,697	5,568	13.8	%	11.2	%
Fees from brokerage and custody of							
securities	2,469	2,592	2,399	2.9	%	(4.7	)%
Other Fees	1,349	1,689	277	388.8	%	43,344.9	%
Total fees	65,991	72,050	66,436	(0.7	)%	(8.4	)%

Net fee income was down 8.4% QoQ and 0.7% YoY in 3Q11. The main reason for this decline was the temporary slowdown in loan origination, which had a negative impact on loan related insurance premiums. At the same time, the weaker markets negatively affected our mutual fund fees and fees from securities brokerage. Credit card fees were down due to a seasonal rise in credit card expenses paid to the credit card processor. Gross fees from credit cards were up 3.0% QoQ in line with the growth of this product.

The Bank's client base, especially cross-sold clients continues to grow at a solid pace. The amount of cross-sold clients is growing at double the pace of our total client base. Credit cards continue to be the fastest growing product, the number of which has increased 12.7% YoY.

#### Evolution of client base

#### NET RESULTS FROM FINANCIAL TRANSACTIONS

Positive results from client treasury services

Results from Financial Transactions*		Quarter	Change %				
						3Q11/	
(Ch\$ million)	3Q11	2Q11	3Q10	3Q11/3	Q10	2Q11	
Net income from financial operations	102,133	2,027	(45,068	) —	%	4,938.6	%
Foreign exchange profit (loss), net	(79,132	) 27,049	66,781		%		%
Net results from financial transactions	23,001	29,076	21,713	5.9	%	(20.9	)%

\*These results mainly include the mark-to-market of the Available for sale investment portfolio, realized and unrealized gains of Financial investments held for trading, the interest revenue generated by the Held for trading portfolio, gains or losses from the sale of charged-off loans and the mark-to-market of derivatives. The results recorded as Foreign exchange profits (loss), net mainly includes the translation gains or losses of assets and a liability denominated in foreign currency.

Net results from financial transactions, which include the sum of the net income from financial operations and net foreign exchange profits, totaled a gain of Ch\$23,001 million in 3Q11, a decrease of 20.9% QoQ and an increase of 5.9% YoY. In order to comprehend more clearly these line items, we present them by business area in the table below.

Results from Financial Transactions		Quarter				Change %			
						3Q11/			
(Ch\$ million)	3Q11	2Q11	3Q10	3Q11/30	Q10	2Q11			
Santander Global Connect1	16,259	15,045	11,628	39.8	%	8.1	%		
Market-making	4,958	6,012	8,451	(41.3	)%	(17.5	)%		
Client treasury services	21,217	21,058	20,079	5.7	%	0.8	%		
Non-client treasury services	1,784	8,018	1,635	9.2	%	(77.7	)%		
Net results from financial transactions	23,001	29,076	21,713	5.9	%	(20.9	)%		

1. Santander Global Connect is the Bank's commercial platform for selling treasury products to our clients.

The quarterly results were mainly driven by Client treasury services, which totaled Ch21,217 million in 3Q11 – more than 90% of this line item – that increased 0.8% QoQ and 5.7% YoY. The higher market volatility, especially in the foreign exchange market led to a greater number of clients to hedge exposures resulting in a high gain from Santander Global Connect.

Non-client treasury services fell in the quarter as the Bank maintained high levels of liquidity and avoided taking any major prop-trading positions or gaps, lowering trading results.

#### OPERATING EXPENSES AND EFFICIENCY

Operating expenses flat QoQ

Operating Expenses	Quarter						Change %				
									3Q11 /		
(Ch\$ million)	3Q11		2Q11		3Q10		3Q11/3Q	Q10	2Q11		
Personnel salaries and expenses	(73,884	)	(70,655	)	(63,330	)	16.7	%	4.6	%	
Administrative expenses	(41,041	)	(41,535	)	(37,983	)	8.1	%	(1.2	)%	
Depreciation and amortization	(13,354	)	(12,944	)	(11,294	)	18.2	%	3.2	%	
Impairment	(77	)	(27	)	(963	)	(92.0	)%	185.2	%	
Operating expenses	(128,356	)	(125,161	)	(113,570	)	13.0	%	2.6	%	
Efficiency ratio1	41.3	%	36.5	%	37.2	%					

1. Operating expenses / Operating income. Operating income = Net interest income + Net fee income + Net results from Financial transactions + Other operating income and expenses.

Operating expenses in 3Q11 increased 2.6% QoQ and 13.0% YoY. The efficiency ratio reached 41.3% in 3Q11. The 4.6% QoQ increase in personnel expenses was mainly due to the increase in headcount and a rise in severance payments. Headcount increased 5.9% YoY and 1.6% QoQ. Of the 190 persons hired in 3Q11, 160 were collection agents. As of June 30, 2011 headcount totaled 11,706 employees.

Administrative expenses fell 1.2% QoQ as the Bank commenced to implement a stricter stance regarding costs. At the same time, the Bank continues with its projects of in investing in technology and alternative distribution channels to enhance productivity in future periods. The Bank is currently investment in a new Client Relationship Management system and other IT projects. These projects should drive stronger revenue growth while increasing productivity. The Bank also opened 7 branches in the quarter, 4 of which were Banca Prime branches for upper income individuals.

Investor Relations Department Bandera 140 19th Floor, Santiago, Chile, Tel: 562-320-8284, fax: 562-671-6554, email: rmorenoh@santander.cl

## OTHER INCOME AND EXPENSES

Other Income and Expenses	Quarter				(	Change %				
									3Q11 /	
(Ch\$ million)	3Q11		2Q11		3Q10	-	3Q11 / 3Q	210	2Q11	
Other operating income	2,194		3,309		2,656		(17.4	)%	(33.7	)%
Other operating expenses	(12,156	)	(8,800	)	(21,333	)	(43.0	)%	38.1	%
Other operating income, net	(9,962	)	(5,491	)	(18,677	)	(46.7	)%	81.4	%
Income from investments in other										
companies	546		552		832		(34.4	)%	(1.1	)%
Income tax expense	(16,629	)	(19,416	)	(14,109	)	17.9	%	(14.4	)%
Income tax rate	17.9	%	12.0	%	10.0	%				

Other operating income, net, totaled Ch\$-9,962 million in 3Q11. The lower loss compared to 3Q10 was mainly due to lower charge-off of repossessed assets. Compared to 2Q11 the higher loss from other operating income, net was mainly due to an increase in charge-off of fixed assets mainly related to vandalized ATMs.

The 14.4% QoQ decrease in income tax expense was mainly due to lower net income before taxes. In addition, in 2Q11, the Bank recognized a one-time tax benefit from real estate taxes (contribuciones) paid over assets it has leased to clients. Compared to 3Q10, the rise in the effective tax rate was due the rise of the statutory tax rate to 20% from 17% last year. In 3Q10, the Bank's effective income tax rate also benefitted from the application of the new corporate tax rates over deferred taxes, which resulted in a higher net asset position in differed taxes and therefore a lower effective tax rate in said quarter.

In 2012, the statutory corporate tax rate should decline to 18.5% and 17% in 2013.

## SECTION 4: CREDIT RISK RATINGS

#### International ratings

The Bank has credit ratings from three leading international agencies. In the quarter, Fitch lowered the Bank ratings from AA- to A+. Standard and Poor's modified its outlook to negative and there was no change regarding our ratings from Moody's. These rating changes were driven by a reduction in ratings of our controlling shareholder.

Moody's (Outlook sta	ıble)	Rating
Foreign currency banl	k deposits	Aa3
Senior bonds		Aa3
Subordinated debt		A1
Bank Deposits in Loc	al Currency	Aa3

#### ANNEX 1: NEW PROVISIONING MODEL FOR RESIDENTIAL MORTGAGE LOANS

Prior to June 2011, residential mortgage loans were assigned an allowance level based on credit risk profiles which were determined utilizing a statistical model that considered a borrower's credit history, including any defaults on obligations to other creditors, as well as the overdue periods on the loans borrowed from us. Once the rating of the client was determined, the allowance for a mortgage loan was calculated using a risk category, which was directly related to days overdue. The following table sets forth the allowance to loan ratios previously used by the Bank. The ratios represent the percentage of required allowance amount to the aggregate amount of the principal and accrued but unpaid interest on the loan.

Previous model

Residential mortgage loans Overdue days															
		1-30		31-60	)	61-12	0	121-18	0	181-36	0	361-72	0	>720	
Mortgage	Profile 1	0.3	%	0.5	%	1.2	%	2.4	%	6.8	%	14.1	%	28.3	%
	Profile 2	1.5	%	1.6	%	2.5	%	4.4	%	6.8	%	14.1	%	28.3	%

As of June 2011, residential mortgage loans are assigned an allowance level based on credit risk profiles, which were determined utilizing a statistical model that considers: (i) a borrower's credit history, (ii) if a client is a new client or an existing client, (iii) if the client is a Bank client or a Banefe client and (iv) if this client has been renegotiated in the system.

As of June 2011, the model for determining provisions for residential mortgage loans is as follows. The ratios represent the percentage of required allowance amount to the aggregate amount of the principal and accrued but unpaid interest on the loan.

New model											
Residential mo	rtgage loans	Performi	ng			Ov	erdue	e days			
				1-29		30-59		60-89		>90 days	S
Mortgage											
(Bank client)	New client	0.20	%	2.7	%	3.6	%	4.63	%	11.0	%
	Existing client	0.29	%	1.49	%	2.97	%	3.7	%	11.0	%
	Renegotiated										
	client	1.75	%	1.75	%	1.75	%	1.75	%	11.0	%
Mortgage	New or existing										
(Banefe client)	client	0.35	%	2.19	%	3.64	%	4.72	%	11.0	%
	Renegotiated										
	client	1.75	%	1.75	%	1.75	%	1.75	%	11.0	%

1 Ratio = Loans - marketable securities / Time deposits + demand deposits

2 Capital + future interest of all loans with one installment 90 days or more overdue.

3 Total installments plus lines of credit more than 90 days overdue

4 Based on internal credit models and SBIF guidelines. Banks must have a 100% coverage of expected loss

5 Calculated using the variation of the Unidad de Fomento (UF) in the period

## BANCO SANTANDER CHILE AND SUBSIDIARIES NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STAEMENTS As of September 30, 2011 and 2010 and December 31, 2010

#### NOTE 01 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

#### **Corporate Information**

Banco Santander Chile (formerly Banco Santiago) is a corporation (sociedad anónima bancaria) organized under the laws of the Republic of Chile, headquartered at 140 Bandera St., that provides a broad range of general banking services to its customers, from individuals to major corporations. Banco Santander Chile and its affiliates (collectively referred to herein as the "Bank" or "Banco Santander Chile") offer commercial and consumer banking services, besides other services, including factoring, collection, leasing, securities and insurance brokerage, mutual and investment fund management, and investment banking.

A Special Meeting of Shareholders of Banco Santiago was held on July 18, 2002, the minutes of which were notarized as a public deed on July 19, 2002 at the Notarial Office from Santiago before Notary Nancy de la Fuente Hernández, and there agreed to merge Banco Santander Chile with Banco Santiago by merging the former into the latter, which acquired the former's assets and liabilities. It was likewise agreed to dissolve Banco Santander Chile in advance and change the name from Banco Santiago to Banco Santander Chile. This change was authorized by Resolution No.79 of the Superintendency of Banks and Financial Institutions, adopted on July 26, 2002, published in the Official Journal on August 1, 2002 and registered on page 19,992 under number 16,346 for the year 2002 in the Registry of Commerce of the Curator of Real Estate of Santiago.

In addition to the amendments to the bylaws discussed above, the bylaws have been amended on multiple occasions, the last time at the Special Shareholders Meeting of April 24, 2007, the minutes of which were notarized as a public deed on May 24, 2007 at the Notarial Office of Nancy de la Fuente Hernández. This amendment was approved pursuant to Resolution No.61 of June 6, 2007 of the Superintendency of Banks and Financial Institutions. An extract thereof and the resolution were published in the Official Journal of June 23, 2007 and registered in the Registry of Commerce for 2007 on page 24,064 under number 17,563 of the aforementioned Curator.

By means of this last amendment, Banco Santander Chile, pursuant to its bylaws and as approved by the Superintendency of Banks and Financial Institutions, may also use the names Banco Santander Santiago or Santander Santiago or Banco Santander.

Banco Santander Spain controls Banco Santander-Chile through its share in Teatinos Siglo XXI Inversiones Ltda. and Santander-Chile Holding S.A., which are subsidiaries controlled by Banco Santander Spain. As of September 30, 2011 Banco Santander Spain owns or controls directly and indirectly 99.5% of the Santander-Chile Holding S.A. and 100% of Teatinos Siglo XXI Inversiones Ltda. This grants Banco Santander Spain control over 75% of the Bank's shares.

a)

## Basis of preparation

These Consolidated Financial Statements have been prepared in accordance with the Compendium of Accounting Standards issued by the Superintendency of Banks and Financial Institutions (SBIF), a regulatory agency. Article 15 of the General Banking Law states that, in accordance with the laws, banks must use the accounting criteria issued by the Superintendency and that, in any situation not provided for therein—if it is not contrary to its instructions—must abide by the generally accepted accounting principles, which correspond with the technical standards issued by the Colegio de Contadores de Chile AG (Association of Chilean Accountants), which coincide with the International Financial

Reporting Standards(IFRS) adopted by the International Accounting Standard Board (IASB). In the event of discrepancies between the accounting principles and the accounting criteria issued by the SBIF (Compendium of Accounting Standard), the latter will prevail.

b) Basis of preparation for the Consolidated Interim Financial Statements

The Consolidated Interim Financial Statements include the preparation of separate (individual) financial statements of the Bank and the companies that participate in the consolidation of September 30, 2011 and 2010, and include the adjustments and reclassifications needed to comply with policies and valuation criteria established by the Compendium of Accounting Standards issued by the SBIF.

# Subsidiaries

"Subsidiaries" are defined as entities over which the Bank has the ability to exercise control, which is generally but not exclusively reflected by the direct or indirect ownership of at least 50% of the investee's voting rights, or even if this percentage is lower or zero when the Bank is granted control pursuant to agreements with the investee's shareholders. Control is understood as the power to significantly influence the investee's financial and operating policies, so as to profit from its activities.

The interim financial statements of subsidiaries are consolidated with those of the Bank. According to this, all balances and transactions between consolidated corporations will be eliminated through the consolidation process.

In addition, third parties' shares in the Consolidated Bank's equity are presented as "Non-controlling interests" in the Consolidated Interim Statement of Financial Position. Their shares in the year's income are presented under "Non-controlling interests" in the Consolidated Interim Statement of Income.

Special Purpose Entities

According to IFRS, the Bank must continuously analyze its perimeter of consolidation. The key criterion for such analysis is the degree of control held by the Bank over a given entity, not the percentage of ownership interest in such entity's equity.

In particular, as set forth by International Accounting Standard 27 "Consolidated and Separate Financial Statements" (IAS 27) and by the Standard Interpretations Committee 12 "Consolidation – Special Purpose Entities" (SIC 12), issued by the IASB, the Bank must determine the existence of Special Purpose Entities (SPEs), which must be included in its perimeter of consolidation. The following are its main characteristics:

- The SPEs' activities have essentially been conducted on behalf of the company that presents the Consolidated Interim Financial Statements and in response to its specific business needs.
- The necessary decision making authority is held to obtain most of the benefits from these entities' activities, as well as the rights to obtain most of the benefits or other advantages from such entities.
- The entity essentially retains most of the risks inherent to the ownership or residuals of the SPEs or its assets, for the purpose of obtaining the benefits from its activities.

This assessment is based on methods and procedures which consider the risks and profits retained by the Bank, for which all the relevant factors, including the guarantees furnished or the losses associated with collection of the related assets retained by the Bank, are taken into account. As a consequence of this assessment, the Bank concluded that it exercised control over the following entities, which therefore are part of the consolidation perimeter:

-	Santander Gestión de Recaudación y Cobranza Limitada.
-	Multinegocios S.A.
-	Servicios Administrativos y Financieros Limitada.
-	Fiscalex Limitada.
-	Multiservicios de Negocios Limitada.
-	Bansa Santander S.A.

#### Associates

Associated are those entities over which the Bank may exercise significant influence but not control or joint control, usually this capacity is manifested by holding 20% or more of the entity's voting power. Investments in associated entities are accounted for pursuant to the "equity method."

## BANCO SANTANDER CHILE AND SUBSIDIARIES NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STAEMENTS As of September 30, 2011 and 2010 and December 31, 2010

# NOTE 01 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued:

The following companies are considered "Associates" in which the Bank accounts for its participation pursuant to the equity method:

Associates	As of September 30,		As of December 31,		As of September 30,	
	2011		2010		2010	
Redbank S.A.	33.43	%	33.43	%	33.43	%
