Notes to Unaudited Condensed Consolidated Financial Statements

General

1. Basis of Presentation

The condensed unaudited interim consolidated financial statements included herein have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). However, in the opinion of management, all adjustments consisting of normal, recurring adjustments considered necessary for a fair presentation of the financial position and results of operations have been included. The condensed consolidated financial statements and notes are presented in accordance with GAAP. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of results that may be expected for the year ending December 31, 2015. The accompanying condensed unaudited interim consolidated financial statements should be read in conjunction with the 2014 audited financial statements and notes thereto, which are included in the Company’s Annual Report on Form 10-K, as amended, filed for the year ended December 31, 2014 (“2014 Form 10-K”).

2. Presentation of Financial Statements

The Company’s condensed consolidated financial statements include the accounts of Medifast, Inc. and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

3. Recent Accounting Pronouncements

We have considered all new accounting pronouncements and have concluded that there are no new pronouncements that may have a material impact on our results of operations, financial condition, or cash flows, based on current

information, except for:

ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, requires the Company to recognize revenue for the transfer of goods or services to customers for the amount the Company expects to be entitled in exchange for those goods or services. The Company will be required to identify the contract, identify the relevant performance obligations, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize the revenue when the entity satisfies a performance obligation. The provisions of this ASU are effective for interim and annual periods beginning after December 15, 2017. Management is currently evaluating the effect that the provisions of ASU 2014-12 will have on the Company's financial statements.

ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. It is effective for annual periods beginning on or after December 15, 2014. The Company elected early option of the pronouncement and accounted for the discontinued operations of the Medifast Corporate Weight Control Center channel in accordance with these guidelines.

4. Revenue Recognition

Revenue is recognized net of discounts, rebates, promotional adjustments, price adjustments, and estimated returns and upon transfer of title and risk to the customer which primarily occurs at shipping (F.O.B. terms). Upon shipment, the Company has no further performance obligations and collection is reasonably assured as the majority of sales are paid for prior to shipping. Revenue from our Franchise Medifast Weight Control Centers is primarily generated from product sales

5. Inventories

Inventories consist principally of packaged meal replacements held in the Company's warehouses. Inventory is stated at the lower of cost or market, utilizing the first-in, first-out method. The cost of finished goods includes the cost of raw materials, packaging supplies, direct and indirect labor and other indirect manufacturing costs. On a quarterly basis, management reviews inventory for unsalable or obsolete inventory.

Inventories consisted of the following at June 30, 2015 and December 31, 2014:

	2015	2014
Raw Materials	\$3,439,000	\$4,410,000
Packaging	797,000	920,000
Non-food Finished Goods	843,000	1,108,000
Finished Goods	7,691,000	9,689,000
Reserve for Obsolete Inventory	(346,000)	(392,000)
	\$ 12,424,000	\$ 15,735,000

6. Earnings per Share

Basic earnings per share (“EPS”) computations are calculated utilizing the weighted average number of shares of common stock outstanding during the periods presented. Diluted EPS is calculated utilizing the weighted average number of shares of common stock outstanding adjusted for the effect of dilutive common stock equivalents.

The following table sets forth the computation of basic and diluted EPS for the three and six months ended June 30:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Numerator:				
Income from continuing operations	\$ 5,847,000	\$ 6,619,000	\$ 10,263,000	\$ 13,164,000
Income (loss) from discontinued operations	401,000	(899,000)	429,000	(1,477,000)
Net income	\$ 6,248,000	\$ 5,720,000	\$ 10,692,000	\$ 11,687,000
Denominator:				
Weighted average shares of common stock outstanding	12,069,150	13,050,346	12,085,221	13,111,348
Effect of dilutive common stock equivalents	90,136	99,068	90,764	88,859
Weighted average shares of common stock outstanding	12,159,286	13,149,414	12,175,985	13,200,207
EPS:				
Basic earnings per share				
Earnings per share from continuing operations	\$ 0.48	\$ 0.50	\$ 0.85	\$ 0.99
Earnings (loss) per share from discontinued operations	\$ 0.03	\$ (0.06)	\$ 0.03	\$ (0.10)
Earnings per share	\$ 0.51	\$ 0.44	\$ 0.88	\$ 0.89

Edgar Filing: MEDIFAST INC - Form 10-Q

Diluted earnings per share				
Earnings per share from continuing operations	\$ 0.48	\$ 0.50	\$ 0.84	\$ 1.00
Earnings (loss) per share from discontinued operations	\$ 0.03	\$ (0.06) \$ 0.04	\$ (0.11)
Earnings per share	\$ 0.51	\$ 0.44	\$ 0.88	\$ 0.89

The calculation of diluted earnings per share excluded 54,375 and 70,542 options outstanding for the three and six months ended June 30, 2015 and 2014, respectively, that could potentially dilute base earnings per share in the future.

7. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

8. Financial Instruments

Certain financial assets and liabilities are accounted for at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following fair value hierarchy prioritizes the inputs used to measure fair value:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management’s best estimate of fair value from the perspective of a market participant.

Edgar Filing: MEDIFAST INC - Form 10-Q

The Company had realized gains of \$16,000 and \$45,000 for the three months ended June 30, 2015 and 2014, respectively and \$134,000 and \$233,000 for the six months ended June 30, 2015 and 2014, respectively.

9. Shared-based Compensation

Stock Options:

The Company has issued non-qualified and incentive stock options to employees and nonemployee directors. The fair value of these options are estimated on the date of grant using the Black-Scholes option pricing model, which requires estimates of the expected term of the option, the expected volatility of the price of the Company's common stock, dividend yield and the risk-free interest rate. Options outstanding as of June 30, 2015 vest over a period of three years with an expiration term of ten years. The exercise price of these options ranges from \$24.26 to \$31.55. The expected volatility is based on the historical volatility of the Company's common stock over the period of time equivalent to the expected term for each award. Due to the Company's lack of option exercise history, the expected term is calculated using the simplified method defined as the midpoint between the vesting period and the contractual term of each award. The risk free interest rate is based on the U.S. Treasury yield curve in effect on the date of grant which most closely corresponds to the expected term of the option. The Company historically has not issued dividends and therefore does not utilize a dividend yield in the calculation. The weighted average input assumptions used and resulting fair values were as follows:

	2015	2014
Expected life (in years)	6	6
Risk-free interest rate	1.72 %	1.61 %
Expected volatility	52.69 %	63.15 %
Dividend yield	-	-

The following table summarizes the stock option activity:

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Yrs)	Aggregate Intrinsic Value
Outstanding at December 31, 2014	67,375	\$ 26.05		
Granted	53,500	31.55		
Exercised	(1,666)	26.52		
Forfeited	-	-		
Expired	-	-		
Outstanding at June 30, 2015	119,209	\$ 28.51	8.96	478,981
Exerciseable at June 30, 2015	34,615	\$ 26.27	8.42	216,549

The weighted-average grant date fair value of options granted was \$16.00. The unrecognized compensation expense calculated under the fair value method for shares expected to vest as of June 30, 2015 was approximately \$0.7 million

and is expected to be recognized over a weighted average period of 2.2 years.

Restricted Stock:

The Company has issued restricted stock to employees and nonemployee directors generally with terms up to five years. The fair value is equal to the market price of the Company's common stock on the date of grant. Expense for restricted stock is amortized ratably over the vesting period. The following table summarizes the restricted stock activity:

	Shares	Weighted-Average Grant Date Fair Value
Unvested at December 31, 2014	333,676	\$ 25.31
Granted	8,980	31.55
Vested	(75,703)	25.08
Forfeited	-	-
Unvested at June 30, 2015	266,953	\$ 25.59

The total costs of the options and restricted awards vested and charged against income during the three months ended June 30, 2015 and 2014 was \$575,000 and \$854,000, respectively, and \$1.1 million and \$1.6 million for the six months ended June 30, 2015 and 2014, respectively. The Company accrued an additional \$129,000 and \$34,000 for performance awards for the three months ended June 30, 2015 and 2014, respectively, and \$478,000 and \$372,000 for the six months ended June 30, 2015 and 2014, respectively. The cost of the 2015 awards will depend on the Company's fiscal 2015 performance and will be finalized and approved at the first Board of Directors meeting in 2016. The cost recognized during the quarter is based on the performance that management expects the Company will achieve as of June 30, 2015. The total income tax benefit recognized in the consolidated statements of income for these restricted stock awards was approximately \$203,000 and \$301,000 for the three months ended June 30, 2015 and 2014, respectively, and \$390,000 and \$573,000 for six months ended June 30, 2015 and 2014, respectively. The total tax benefit recognized in additional paid-in capital upon vesting of restricted stock awards for the three months and six months ended June 30, 2015 and 2014 was \$165,000 and \$39,000, respectively. There was approximately \$4.8 million of total unrecognized compensation cost related to restricted stock awards as of June 30, 2015. The cost is expected to be recognized over a weighted-average period of approximately 2.8 years.

10.

Business Segments

Operating segments are components of an enterprise about which separate financial information is available that is regularly reviewed by the chief operating decision maker about how to allocate resources and in assessing performance. The consolidated operating profit of the Company is reviewed by the chief operating decision maker as a single segment and sales are reviewed at the channel level.

The following table presents sales by channel for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

11.

Contingencies

The Company filed a civil complaint on February 17, 2010 in the U.S. District Court (SD, Cal) against Barry Minkow and the Fraud Discovery Institute, Inc. (collectively, "Minkow"), iBusiness Reporting, and its editor William Lobdell, Tracy Coenen and Sequence, Inc. (collectively, "Coenen"), "Zee Yourself", and Robert L. Fitzpatrick ("FitzPatrick") for defamation, market manipulation and unfair business practices, alleging a scheme of market manipulation of Medifast stock for Defendants' for monetary gain, and damaging the business reputation of Medifast and its Take Shape For Life® division. Bradley T. MacDonald, former Executive Chairman of Medifast and a stockholder, joined the lawsuit individually. The lawsuit seeks \$270 million in compensatory damages, punitive damages, and ancillary relief. In March 2011, the District Court granted in part and denied in part certain Anti-SLAPP Motions to Strike (i.e. motions to dismiss) previously filed by all Defendants. The Company appealed that portion of the District Court's ruling which dismissed its defamation claims against Minkow and Coenen in the 9th Circuit Court of Appeals. Defendant FitzPatrick's motion was denied as to the Company's defamation claim, and FitzPatrick appealed that portion of the Court's ruling. On June 4, 2014, the Panel of the 9th Circuit Court of Appeals issued a decision, denying FitzPatrick's appeal and remanding to the District Court for further consideration; reversing the District Court's decision as to Minkow and remanding for further consideration; denying MacDonald's appeal in its entirety; and denying Medifast's appeal as to Coenen. On September 26, 2014, the District Court obtained jurisdiction of the case once again and the parties set a briefing schedule on the outstanding issues remanded by the Ninth Circuit. Coenen filed a motion for attorneys' fees, which Medifast has opposed. The Court issued an Order on the motion, granting it in part and denying it in part, on March 24, 2015. Judgment was entered on behalf of Coenen on April 21, 2015. Medifast reached a settlement with Minkow and FitzPatrick, and the remainder of the case was dismissed on May 22, 2015.

The Company entered into guarantee agreements with two key franchisee partners in order to support them obtaining additional funding to expand their business into new markets. This is in line with the Company's long-term strategy of expanding the franchise business utilizing knowledgeable franchise partners. The loans associated with these agreements have been paid in full. The first guarantee with Team Wellness, Inc. provides financial coverage for a \$1.0 million loan and a \$1.0 million line of credit. The variable rate term loan has a 2 year term expiring in September 2015; payment calculations assume a 7 year amortization with a balloon payment due at the end of the term. The line of credit has a two year term expiring in September 2015. The franchisee associated with these loans failed to pay the monthly obligations and the Company paid off the loans in April 2015, which was fully accrued as of December 31, 2014. The Company is a secondary guarantor on the loan and line of credit and has pursued personal recourse against the franchise owner. The second guarantee provides financial coverage for a \$1.4 million loan and was paid in full in March 2015. The variable rate term loan has a 2 year term expiring in October 2015; payment calculations assume a 7 year amortization with a balloon payment due at the end of the term. The Company is the third guarantor on these loans and has recourse against another entity owned by the franchisee and the franchisee owner(s) themselves should it be deemed necessary.

12. Discontinued Operations, Exit Activities, and Clinic Obligations

In 2014, the Company exited the MWCC corporate center model by selling 41 centers to existing franchise partners (24 centers were sold in June 2014 and the remaining 17 centers were sold in December 2014) and closing the remaining 34 corporate centers. In accordance with ASU 2014-08, *Presentation of Financial Statements (Topic 205) and Property Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* the assets, liabilities, operating results, and cash flows of the MWCC corporate center channel have been presented separately as discontinued operations in the Consolidated Financial Statements for all periods presented.

The following is a summary of the Company's operating results for discontinued operations for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended June 30,		Six Months Ended June 30,

Stockholders' Rights Plan

On August 28, 2014, the Company adopted a stockholders' rights plan whereby the Board of Directors authorized and declared a dividend distribution of one right for each outstanding share of common stock of the Company to the stockholders of record at the close of business on September 9, 2014. The rights are not presently exercisable and remain attached to the shares of common stock until the occurrence of certain triggering events. The rights will expire on August 28, 2015, unless exercised, redeemed, or exchanged prior to that time. The Board of Directors may terminate the rights plan before the expiration date.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS. FORWARD LOOKING STATEMENTS

Special Note Regarding Forward-Looking Statements

This report contains information that may constitute "forward-looking statements." Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "will," and similar expressions identify forward-looking statements, which genera

are not historical in nature. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future – including statements relating to future operating results- are forward-looking statements. Management believes that these forward-looking statements are reasonable as and when made. However, caution should be taken not to place undue reliance on any such forward-looking statements because such statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those in our Annual Report on Form 10-K for the year ended December 31, 2014 (the “Form 10-K”), and those described from time to time in our future reports filed with the Securities and Exchange Commission.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and related notes appearing elsewhere herein.

Overview

Medifast, Inc. (“Medifast,” the “Company,” “we,” “us,” or “our”) is engaged in the production, distribution, and sale of weight loss and weight management products and services and other consumable health and diet products. The Company’s product lines include weight loss and weight management products, meal replacements, and supplements. Customers of our independent contractor health coaches (“Health Coaches”) in the Take Shape For Life® person-to-person direct sales channel are directed to order our products through either the internet or the Company’s in-house call center. Our product sales accounted for 97% of our revenues in the first three months of 2015 and 98% of our revenues in the first three months of 2014. Revenue consists primarily of meal replacement food sales. In the second quarter of 2015, total revenue decreased to \$72.2 million compared to \$74.7 million in the second quarter of 2014, a decrease of \$2.5 million or 3.3%. For the six months ended June 30, 2015 revenue declined \$8.5 million, or 5.5%, to \$145.5 million compared to \$154.0 million for the same period of 2014. The decline for both periods was due to a decrease in revenue in the Take Shape For Life® and Medifast Direct channels offset by improvements in the Franchise Medifast Weight Control Centers (“MWCC”). Revenue in the Medifast Wholesale channel decreased for the quarter compared to the prior year but increased compared to last year for the first six months of the year. These revenue changes are further described in the “Overview of Results of Operations” section. For the quarter ended June 30, 2015 the Take Shape For Life® sales channel accounted for 72.4%, the Medifast Direct channel accounted for 19.0%, the Franchise MWCC channel accounted for 6.5%, and the Medifast Wholesale channel accounted for 2.1% of total revenue. For the six months ended June 30, 2015 the Take Shape For Life® sales channel accounted for 71.8%, the Medifast Direct channel accounted for 19.3%, the Franchise MWCC channel accounted for 6.4%, and the Medifast Wholesale channel accounted for 2.5% of total revenue. See Note 10, “Business Segments” of the notes to the financial statements for a detailed breakout of revenues of the Company’s business channels.

We review and analyze a number of key operating and financial metrics to manage our business, including revenue to advertising spend, number of active Health Coaches and average monthly revenue generated per health coach in the Take Shape For Life® channel.

In 2014, the Company exited the MWCC corporate center model by selling 41 centers to existing franchise partners and closing the remaining 34 corporate centers. The assets, liabilities, operating results, and cash flows of the MWCC corporate center channel have been presented separately as discontinued operations in the Consolidated Financial Statements for all periods presented.

Sales Channels

Medifast Direct – In the direct-to-consumer channel (“Medifast Direct”), customers order Medifast products directly through the Company’s website, www.medifastnow.com or our in-house call center. This business is driven by a multi-media customer acquisition, retention, and reactivation strategy that includes digital advertising, national television, direct mail, and email as well as public relations, word of mouth referrals, and social media initiatives. The Medifast Direct division focuses on targeted marketing initiatives to acquire and retain customers and provides support through its on-line community, in-house call center and nutrition support team to better serve its customers.

Take Shape For Life® – Take Shape For Life® is a thriving, vibrant community that is redefining the path to wellbeing and creating Optimal Health™ through a network of Independent Health Coaches, who provide support and personal encouragement to help Clients safely and effectively reach and sustain a healthy weight, and adopt habits for a lifetime of health. Within our Trilogy of Optimal Health, the Company offers individuals an opportunity to create sustainable health in all areas of their lives – building a healthy body, developing a healthy mind, and generating healthy finances. Take Shape For Life® provides Health Coaches with tools and support; an innovative and leading edge lifestyle program; training and knowledge; and best of all, a community of like-minded individuals working toward the common goal of getting America healthy. In 2014, Take Shape For Life®, and its parent company Medifast® were ranked in the top 20 of the Direct Selling Association’s largest companies, and is a Code of Ethics member.

Franchise Medifast Weight Control Centers – MWCC’s offer structured programs and a team of professionals to help customers achieve weight-loss and weight-management success. Counselors at each location work with members to provide nutritional and behavioral support based on the member’s personal needs.

In 2008, Medifast Franchise Systems, Inc. (“MFSI”), a subsidiary of Medifast, began offering the center model as a franchise opportunity. MFSI currently has MWCC franchised centers located in Arizona, California, Louisiana, Minnesota, Maryland, Pennsylvania, Texas, and Wisconsin. As of June 30, 2015, 62 MWCC franchise centers were in

operation.

Medifast Wholesale – The Medifast Wholesale channel consists of licensed healthcare providers who offer the Medifast program through their practice and provide support to patients who use it and other distributing companies. This channel offers directed weight loss and weight management through a health care provider or non-retail medical center. Since 1980, over 20,000 doctors have recommended Medifast products and programs as a medically-proven solution that helps people control their weight and improve their health. Medifast medical provider practices carry an inventory of wholesale products and resell them to patients while providing appropriate medical monitoring, testing, and support to ensure healthy weight loss. The Company offers extensive resources to assist the providers, their staff and their patients in achieving success with their program.

Critical Accounting Policies and Estimates

Our consolidated financial statements are prepared in accordance with GAAP. Our significant accounting policies are described in Note 2 of the consolidated financial statements included in the Form 10-K.

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Management develops, and changes periodically, these estimates and assumptions based on historical experience and on various other factors that it believes to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. The accounting estimates we consider critical include revenue recognition, impairment of fixed assets and intangible assets, income taxes, reserves for returns, operating leases and clinic closure costs.

During the six months ended June 30, 2015, we did not make any material changes to our critical accounting policies.

For the three months ended June 30, 2015, Take Shape For Life® revenue decreased 3% to \$52.3 million compared to \$54.0 million in 2014. For the six months ended June 30, 2015, Take Shape For Life® revenue decreased 6% to \$104.4 million compared to \$111.0 for the six months ended June 30, 2014. The decline in revenue for Take Shape For Life® was driven by a decrease in the number of active Health Coaches. The decrease in active Health Coaches was offset by an increase in the revenue per active Health Coach. Active Health Coaches are defined as Health Coaches earning income from a product sale during the quarter. The number of active Health Coaches for the second quarter of 2015 decreased to 11,800 compared with 12,400 during the same period for 2014, a decrease of 5.0%. The revenue per Health Coach increased 2% to \$4,423 in the second quarter of 2015 compared to \$4,347 in the second quarter of 2014.

Medifast Direct revenue decreased 10% to \$13.7 million for the three months ended June 30, 2015 and 13% to \$28.1 million for the six months ended June 30, 2015 compared to the same periods in 2014. Revenues in this channel are driven primarily by targeted customer advertising on-line, via email and direct mail campaigns, and by highlighting customer successes in large national publications and on television. Sales are down year-over-year as new customer acquisition continues to be challenging. The Company continues to focus on efficiently managing the investment of additional dollars into marketing.

Franchise MWCC channel revenue increased 22% year-over-year during the second quarter, with revenue of \$4.7 million in 2015 compared to \$3.8 million for the same period of 2014. For the six months ended June 30, 2015, revenue increased 26% to \$9.3 million compared to \$7.4 million in 2014. The year-over-year increases in revenue were driven by the conversion of corporate centers over to franchise centers partially offset by franchise center closures as well as a decrease in sales of franchise centers open greater than one year. Sixty-two franchise centers were in operation as of June 30, 2015, compared to 73 franchise centers as of June 30, 2014. Although the number of franchise centers decreased year-over-year, the 2014 count includes 24 centers that were transitioned from corporate centers to franchise centers on the last day of the quarter and therefore did not contribute to the 2014 year to date revenue. From the second quarter of 2014 to the second quarter of 2015, 17 centers were transitioned from the corporate model in December 2014, 15 of the corporate centers transitioned in June 2014 were closed and 13 centers that were open for more than 1 year were closed.

Medifast Wholesale revenue decreased \$0.2 million, to \$1.5 million for the three months ended June 30, 2015 compared to \$1.7 million for the three months ended June 30, 2014. For the six months ended June 30, 2015, revenue increased \$0.5 million to \$3.7 million compared to \$3.2 million for the six months ended June 30, 2014. The increase was primarily driven by an increase in activity within a few specific accounts for the quarter.

Costs of Sales: Cost of sales decreased approximately \$0.2 million to \$19.0 million for the three months ended June 30, 2015 compared to the same period in 2014. For the six months ended June 30, 2015, cost of sales decreased \$1.9 million to \$38.6 million compared to the prior year. The decrease in cost of sales for the periods was primarily due to decreased volume. As a percentage of sales, gross margin decreased to 73.7% from 74.4% in the second quarter of 2015 versus the prior year and decreased to 73.5% from 73.7% for the first six months of 2015 compared to 2014. The gross margin deterioration was the result of an increase in certain raw ingredient costs, higher manufacturing variances due to reduced volumes, and an increase in obsolescence for a single product due to expiration dates. These cost increases were partially offset by price increases initiated at the end of the first quarter.

Selling, General and Administrative Costs: Selling, general and administrative expenses were \$44.5 million for the three months ended June 30, 2015 compared to \$45.7 million in the same period of 2014. As a percentage of sales, selling, general and administrative expenses increased to 61.7% versus 61.2% in the second quarter of 2014. The Company incurred \$0.3 million in extraordinary legal expenses related to 13D filings during the quarter. Excluding those expenses, selling, general, and administrative costs would have been \$44.2 million, or 61.3%. For the six months ended June 30, 2015, selling, general, and administrative expenses were \$91.8 million compared to \$94.0 for the six months ended June 30, 2014. As a percentage of sales, selling, general and administrative expenses increased to 63.1% versus 61.1% in 2014. The Company incurred \$2.1 million in extraordinary legal expenses related to 13D filings during the period. Excluding those expenses, selling, general, and administrative costs would have been \$89.7 million, or 61.6%. Take Shape For Life® commission expense, which is variable based upon product sales, decreased by approximately \$0.8 million for the three months ended June 30, 2015 as TSFL sales declined 3% compared to the prior year. For the first six months of 2015, commission expense decreased by \$3.2 million as TSFL sales declined 6% compared to the prior year.

Salaries and benefits increased by approximately \$0.5 million and \$0.6 million for the three and six months ended June 30, 2015 compared to the same periods in 2014. The increase for the quarter was driven by higher medical costs, and bonus estimates offset by a reduction in the use of temporary labor. The year to date increase was driven by higher bonus estimates offset by the reduction in the use of temporary labor and a reduction in stock compensation expense.

Sales and marketing expense decreased by \$0.8 million in the second quarter of 2015 and \$1.1 million for the first half of 2015 compared to same periods in 2014. The quarter-over-quarter decrease was mainly driven by reduced advertising spend offset by a new Take Shape For Life® convention incentive earned during the quarter. The year-to-date decrease was also driven by reduced advertising spending but the increased spend for the convention incentive was offset by reduced expenses for the annual Take Shape For Life® incentive trip. The decrease was also offset by an increase in production costs for the new Medifast commercials that aired during the first quarter of 2015.

General expenses increased \$0.5 million for the three months ended June 30, 2015 and \$2.0 million for the six months ended June 30, 2015 in comparison to the same periods in 2014. The Company retained the services of GKV, as the marketing and advertising agency of record in late 2014 which contributed to \$0.2 million of the quarterly increase. The six month increase was primarily driven by \$2.1 million in extraordinary legal expenses resulting from 13D filings mainly incurred during the first quarter. The Company reached a settlement agreement with Engaged Capital, LLC., a stockholder of the Company, during the first quarter and does not anticipate incurring additional expenses. The costs were coupled with the increased consulting expenses offset by a decrease in general office expenses and legal expenses excluding the costs of the 13D filings. Other expenses decreased by \$0.5 million and \$0.6 million for the three and six months ended June 30, 2015. The decrease in expenses for the periods was the result of a reduction in depreciation expense. Reduced credit card fees resulting from decreased sales also contributed to the year-to-date decrease offset by an increase in licenses and fees.

Income taxes: In the second quarter of 2015, the Company recorded \$3.0 million in income tax expense, an effective rate of 33.8%, compared to \$3.5 million in income tax expense, an effective rate of 34.4% in the second quarter of 2014. Income tax expense for the first six months of 2015 was \$5.4 million, 34.3%, compared to \$6.9 million, 34.3%, for the six months ended June 30, 2014. The decrease in the effective tax rate for the second quarter of 2015 in comparison to 2014 was due to the increase in permanent differences primarily driven by higher tax exempt interest income partially offset by an increase in state income taxes. The Company anticipates a full year tax rate of approximately 34-35% in 2015.

Income from continuing operations: Income from continuing operations was \$5.8 million in the second quarter of 2015 compared to \$6.6 million in the second quarter of 2014, a decrease of \$0.8 million. Pre-tax profit as a percent of sales decreased to 12.2% in the second quarter of 2015 compared to 13.5% in the first quarter of 2014. Income from continuing operations was \$10.3 million for the six months ended June 30, 2015 compared to \$13.2 million for the six months ended June 30, 2014, a decrease of \$2.9 million. Pre-tax profit as a percent of sales decreased to 10.7% in 2015 compared to 13.0% in 2014. The decrease in income is a result of the reduced sales and the extraordinary legal expenses resulting from 13D filings. Excluding the extraordinary legal expenses, income from continuing operations would have been \$6.0 million or \$0.50 per diluted share and \$11.6 million or \$0.96 per diluted share for the three and six months ended June 30, 2015.

Income from discontinued operations: In 2014, the Company exited the MWCC corporate center model by selling 41 centers to existing franchise partners and closing the remaining 34 corporate centers. The Company had \$0.4 million in income from discontinued operations in 2015 for the three and six months ended June 30, 2015 from the settlement of lease agreements offset by incremental closure costs incurred during the quarter.

Net income: Net income was \$6.2 million and \$10.7 million for the three and six months ended June 30, 2015 compared to \$5.7 million and \$11.7 million for the three and six months ended June 30, 2014. The year-over-year changes were driven by the factors described above in the explanations from continuing operations and income from discontinued operations.

Liquidity and Capital Resources

The Company had stockholders' equity of \$88.2 million and working capital of \$63.3 million on June 30, 2015 compared with \$80.5 million and \$55.0 million at December 31, 2014. The \$7.7 million net increase in stockholder's equity includes \$10.7 million in net income from 2015 offset by \$3.3 million used to repurchase treasury stock as well as the other equity transactions outlined in the "Condensed Consolidated Statement of Changes in Stockholders' Equity". The Company's cash and cash equivalents position increased from \$24.5 million at December 31, 2014 to \$37.1 million at June 30, 2015.

In the six months ended June 30, 2015 the Company generated cash flow of \$21.0 million from continuing operations, partially attributable to \$10.3 million in income from continuing operations. Cash provided by operating activities of \$12.5 million include a \$4.1 million decrease in prepaid income taxes, \$3.7 million in depreciation and amortization, a \$3.3 million decrease in inventory, \$1.1 million in share-based compensation expense, a \$0.3 million decrease in other assets. This was offset by cash used by operating activities of \$1.8 million which includes a \$0.5 million deferred income tax benefit, \$0.6 million decrease in accounts payable and accrued expenses, \$0.3 million increase in accounts receivable, \$0.3 million increase in prepaid expenses and other current assets, and a \$0.1 million realized gain on investment securities.

Net cash used in operating activities from discontinued operations was \$3.1 million primarily including a \$5.3 million decrease in accounts payable and accrued expenses. The use of cash was offset by a \$0.1 million decrease in inventory, and a \$1.5 million of deferred income benefit.

In the six months ended June 30, 2015, net cash used in investing activities from continuing operations was \$1.1 million, which was due to \$4.2 million for the purchase of investment securities offset by \$4.5 million of cash generated by the sale of investment securities and \$1.4 million for the purchase of property and equipment.

In the six months ended June 30, 2015, financing activities used \$4.1 million in cash including \$3.3 million of the purchase of treasury stock, \$0.9 million for net shares repurchased for employee taxes, and \$0.1 million for the repayment of long-term debt and capital leases. The use of cash was offset by \$0.2 million for excess tax benefits from share-based compensation.

In pursuing its business strategy, the Company may require additional cash for operating and investing activities. The Company expects future cash requirements, if any, to be funded from operating cash flow and financing activities.

On August 28, 2014, the Company adopted a stockholders' rights plan whereby the Board of Directors authorized and declared a dividend distribution of one right for each outstanding share of common stock of the Company to the stockholders of record at the close of business on September 9, 2014. The rights are not presently exercisable and remain attached to the shares of common stock until the occurrence of certain triggering events. The rights will expire on August 28, 2015, unless exercised, redeemed, or exchanged prior to that time. The Board of Directors may terminate the rights plan before the expiration date.

Off-Balance Sheet Arrangements

From time to time, the Company has entered into guarantee agreements for the benefit of key franchisee partners in order to support them maintaining their business and obtaining additional funding to expand their business into new markets. As of June 30, 2015, the Company does not have any outstanding guarantees with franchisees.

For one franchisee, the Company provided a guarantee for financial coverage for a \$1.0 million loan and a \$1.0 million line of credit. The variable rate term loan has a 2 year term expiring in September 2015; payment calculations assume a 7 year amortization with a balloon payment due at the end of the term. The line of credit has a two year term expiring in September 2015. The franchisee associated with these loans has failed to pay the monthly obligations and the Company paid off the loans in April 2015, which was fully accrued as of December 31, 2014. The Company is a secondary guarantor on the loan and line of credit and has pursued personal recourse against the franchise owner.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates and a decline in the stock market. The Company does not enter into derivatives, foreign exchange transactions or other financial instruments for trading or speculative purposes.

The Company is exposed to market risk related to changes in interest rates and market pricing impacting our investment portfolio. Its current investment policy is to maintain an investment portfolio consisting mainly of U.S. money market and high-grade corporate securities, directly or through managed funds. Its cash is deposited in and invested through highly rated financial institutions in North America. Its marketable securities are subject to interest rate risk and market pricing risk and will fall in value if market interest rates increase or if market pricing decreases. If market interest rates were to increase and market pricing were to decrease immediately and uniformly by 10% from levels at June 30, 2015, it estimates that the fair value of its investment portfolio would decline by an immaterial amount and therefore it would not expect its operating results or cash flows to be affected to any significant degree by the effect of a change in market conditions on our investments.

There have been no material changes to our market risk exposure since June 30, 2015.

Item 4. Controls and Procedures

Management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of June 30, 2015. Our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported accurately and on a timely basis. Based on this evaluation performed in accordance with the criteria established in the 2013 Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, our management concluded that the Company’s disclosure controls and procedures are effective of the reasonable assurance level as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting:

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

The Company filed a civil complaint on February 17, 2010 in the U.S. District Court (SD, Cal) against Barry Minkow and the Fraud Discovery Institute, Inc. (collectively, “Minkow”), iBusiness Reporting, and its editor William Lobdell, Tracy Coenen and Sequence, Inc. (collectively, “Coenen”), “Zee Yourself”, and Robert L. Fitzpatrick (“FitzPatrick”) for defamation, market manipulation and unfair business practices, alleging a scheme of market manipulation of Medifast stock for Defendants’ for monetary gain, and damaging the business reputation of Medifast and its Take Shape For Life® division. Bradley T. MacDonald, former Executive Chairman of Medifast and a stockholder, joined the lawsuit individually. The lawsuit seeks \$270 million in compensatory damages, punitive damages, and ancillary relief. In March 2011, the District Court granted in part and denied in part certain Anti-SLAPP Motions to Strike (i.e. motions to dismiss) previously filed by all Defendants. The Company appealed that portion of the District Court’s ruling which dismissed its defamation claims against Minkow and Coenen in the 9th

Circuit Court of Appeals. Defendant FitzPatrick's motion was denied as to the Company's defamation claim, and FitzPatrick appealed that portion of the Court's ruling. On June 4, 2014, the Panel of the 9th Circuit Court of Appeals issued a decision, denying FitzPatrick's appeal and remanding to the District Court for further consideration; reversing the District Court's decision as to Minkow and remanding for further consideration; denying MacDonald's appeal in its entirety; and denying Medifast's appeal as to Coenen. On September 26, 2014, the District Court obtained jurisdiction of the case once again and the parties set a briefing schedule on the outstanding issues remanded by the Ninth Circuit. Coenen filed a motion for attorneys' fees, which Medifast has opposed. The Court issued an Order on the motion, granting it in part and denying it in part, on March 24, 2015. Judgment was entered on behalf of Coenen on April 21, 2015. Medifast reached a settlement with Minkow and FitzPatrick, and the remainder of the case was dismissed on May 22, 2015.

Medifast entered into a number of Franchise Agreements with Team Wellness, Inc. and Team Wellness Louisiana, LLC for the operation of Medifast centers in the States of Alabama, Tennessee, and Louisiana. The primary owner and representative of the Team Wellness companies personally guaranteed the companies' obligations.

Team Wellness, Inc. failed to make payments required under the terms of a Loan Agreement that Team Wellness, Inc. had entered into with Bank of America and for which Medifast provided a limited guarantee. The cost of the loan was accrued as of December 31, 2014 and the Company does not have any future obligations. See Note 11, "Contingencies". As a result of the franchisee failing to make the loan payments, Medifast served Team Wellness, Inc. with a Notice of Default and Opportunity to Cure. After Team Wellness, Inc. failed to cure and pay the outstanding amounts, and was otherwise in default under the Franchise Agreements, Medifast served Team Wellness, Inc. with a Notice of Termination.

When the companies and the primary guarantor failed to pay the monies owed or comply with their post-termination obligations, Medifast filed a lawsuit against the primary guarantor and the companies in the United States District Court for the District of Maryland. The complaint seeks damages, enforcement of the termination of the Franchise Agreements, and an injunction ordering the defendants to comply with their post-termination obligations under the Franchise Agreements. Medifast moved for a default judgment against the companies after they failed to answer the complaint. The court granted the motion on June 24, 2015. The Court's Order requires the companies to pay \$2.1 million to Medifast, which represents outstanding royalties and receivables on food purchases in the amount of \$0.1 million, reimbursement for loan payments in the amount of \$1.9 million, and interest and fees on those loan payments in the amount of \$67 thousand. In addition, the court awarded Medifast its attorneys' fees and costs in the amount of \$45 thousand. The Court's Order also requires the companies to abide by the post-termination obligations of the Franchise Agreements, including that they cease using Medifast's confidential information. The case against the primary guarantor remains ongoing and is in active discovery. The guarantor answered the complaint and asserted a number of affirmative defenses. No amounts have been recorded in connection with this lawsuit.

In addition to the above matters, the Company is, from time to time, subject to a variety of litigation and similar proceedings incidental to its business. Based upon the Company's experience, current information and applicable law, it does not believe that these proceedings and claims will have a material adverse effect on its results of operations, financial position or liquidity.

Item 1A. Risk Factors

There have been no material changes to the risk factors set forth in Part I, Item 1A of the Form 10-K.

Item 5. Other Information

At the outset of the quarter ended June 30, 2015, there were 1,211,908 shares of the Company's common stock eligible for repurchase under the repurchase authorization dated September 16, 2014.
