CHINA BIOLOGIC PRODUCTS INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2016 AND 2015

NOTE 1 – BASIS OF PRESENTATION, SIGNIFICANT CONCENTRATION AND RISKS

(a)

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted as permitted by rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). The December 31, 2015 consolidated balance sheet was derived from the audited consolidated financial statements of China Biologic Products, Inc. (the “Company”). The accompanying unaudited consolidated financial statements should be read in conjunction with the December 31, 2015 audited consolidated financial statements of the Company included in the Company’s annual report on Form 10-K for the year ended December 31, 2015.

In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present a fair statement of the financial position as of March 31, 2016, the results of operations for the three months ended March 31, 2016 and 2015, changes in equity for the three months ended March 31, 2016 and 2015, and cash flows for the three months ended March 31, 2016 and 2015, have been made. All significant intercompany transactions and balances are eliminated on consolidation.

The preparation of the unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the useful lives of property, plant and equipment and intangibles with definite lives, the allowances for doubtful accounts, the fair value determinations of stock compensation awards, the realizability of deferred tax assets and inventories, the recoverability of intangible assets, land use rights, property, plant and equipment, equity method investment and loan receivable, and accruals for income tax uncertainties and other contingencies.

(b)

Significant Concentration and Risks

The Company's operations are carried out in the People's Republic of China (the "PRC") and are subject to specific considerations and significant risks not typically associated with companies in North America and Western Europe. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC economy. The Company's results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other matters.

The Company maintains cash and deposit balances at financial institutions which, from time to time, may exceed Federal Deposit Insurance Corporation insured limits for its bank accounts located in the United States or may exceed Hong Kong Deposit Protection Board insured limits for its bank accounts located in Hong Kong or may exceed the insured limits for its bank accounts in China established by China Deposit Insurance Fund Management Institution.

Total cash at banks and deposits as of March 31, 2016 and December 31, 2015 amounted to \$179,625,214 and \$182,291,723, respectively, of which \$2,650,724 and \$3,020,569 are insured, respectively. The Company has not experienced any losses in uninsured bank deposits and does not believe that it is exposed to any significant risks on cash held in bank accounts.

The Company's two major products are human albumin and human immunoglobulin for intravenous injection ("IVIG"). Human albumin accounted for 38.1% and 38.2% of the total sales for the three months ended March 31, 2016 and 2015, respectively. IVIG accounted for 39.9% and 46.7% of the total sales for the three months ended March 31, 2016 and 2015, respectively. If the market demands for human albumin and IVIG cannot be sustained in the future or the price of human albumin and IVIG decreases, the Company's operating results could be adversely affected.

Substantially all of the Company's customers are located in the PRC. There were no customers that individually comprised 10% or more of the total sales during the three months ended March 31, 2016 and March 31, 2015. There was no customer represented more than 10% of accounts receivables as at March 31, 2016 and December 31, 2015, respectively. The Company performs ongoing credit evaluations of its customers' financial condition and, generally, requires no collateral from its customers.

There was one supplier, namely, Xinjiang Deyuan Bioengineering Co., Ltd. ("Xinjiang Deyuan"), that comprised 10% or more of the total purchases for the three months ended March 31, 2016. No supplier that comprised 10% or more of the total purchases for the three months ended March 31, 2015. There was one supplier that represented more than 10% of accounts payables as at March 31, 2016 and December 31, 2015, respectively.

NOTE 2 – ACCOUNTS RECEIVABLE

An inventory write-down of \$59,560 and \$4,576 was recorded during the three months ended March 31, 2016 and 2015, respectively.

NOTE 4 – PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment at March 31, 2016 and December 31, 2015 consisted of the following:

	March 31, 2016	December 31, 2015
	USD	USD
Buildings	31,908,501	31,505,133

Property, plant and equipment, net	115,500,723	105,364,251

Depreciation expense for the three months ended March 31, 2016 and 2015 was \$2,267,623 and \$2,201,020, respectively.

NOTE 5 – DEPOSITS RELATED TO LAND USE RIGHTS

In 2012, Guizhou Taibang made a refundable payment of RMB83,400,000 (approximately \$12,907,818) to the local government in connection with the public bidding for a land use right in Guizhou Province. Given the decrease of the land area to be provided by the local government, RMB13,000,000 (approximately \$2,012,010) and RMB10,000,000 (approximately \$1,547,700) was refunded by the local government in December 2013 and January 2014, respectively. Guizhou Taibang completed the bidding and purchased the land use right in December 2015. In April 2016, RMB 16,082,462 (approximately \$2,489,083) was refunded by the local government. The remaining deposit is expected to be refunded by the end of 2016.

NOTE 6 – LOAN RECEIVABLE

In August 2015, the Company entered into a cooperation agreement with Xinjiang Deyuan and the controlling shareholder of Xinjiang Deyuan. Pursuant to the agreement, Guizhou Taibang agreed to provide Xinjiang Deyuan with interest-bearing loans at an interest rate of 6% per annum with an aggregate principal amount of RMB300,000,000 (approximately \$46,431,000). The loans are due July 31, 2018 and secured by a pledge of Deyuan Shareholder's 58.02% equity interest in Xinjiang Deyuan. Interest will be paid on the 20th day of the last month of each quarter. For the year ended December 31, 2015, RMB258,663,461 (approximately \$40,033,344) was lent to Xinjiang Deyuan. The remaining RMB41,336,539 (approximately \$6,331,518) was lent during the three months period ended March 31, 2016.

Interest income of \$652,306 was accrued and received by Guizhou Taibang for the three months period ended March 31, 2016.

NOTE 7 – INCOME TAX

In October 2014, Shandong provincial government granted Shandong Taibang the High and New Technology Enterprise certificate. This certificate entitled Shandong Taibang to enjoy a preferential income tax rate of 15% for a period of three years from 2014 to 2016.

According to Cai Shui [2011] No. 58 dated July 27, 2011, Guizhou Taibang, being a qualified enterprise located in the western region of PRC, enjoys a preferential income tax rate of 15% effective retroactively from January 1, 2011 to December 31, 2020.

The Company's effective income tax rates were 17% and 16% for the three months ended March 31, 2016 and 2015.

As of and for the three months ended March, 31, 2016, the Company did not have any unrecognized tax benefits and thus no interest and penalties related to unrecognized tax benefits were recorded. In addition, the Company does not expect that the amount of unrecognized tax benefits to change significantly within the next 12 months.

NOTE 8 – OPTIONS AND NONVESTED SHARES

Options

A summary of stock options activity for the three months ended March 31, 2016 is as follow:

For the three months ended March 31, 2016 and 2015, the Company recorded stock compensation expense of \$4,325,818 and \$1,676,923 respectively in general and administrative expenses.

At March 31, 2016, approximately \$44,353,568 of stock compensation expense with respect to nonvested shares is expected to be recognized over approximately 2.57 years.

NOTE 9 – FAIR VALUE MEASUREMENTS

Management used the following methods and assumptions to estimate the fair value of financial instruments at the relevant balance sheet dates:

- Short-term financial instruments (including cash and cash equivalents, time deposits, accounts receivable, other receivables, accounts payable, and other payables and accrued expenses) – The carrying amounts of the short-term financial instruments approximate their fair values because of the short maturity of these instruments.

- Loan receivable – The carrying amounts of loan receivable approximate their fair value. The fair value is estimated using discounted cash flow analysis based on the Company's incremental borrowing rates for similar borrowing.

NOTE 10 – SALES

The Company's sales are primarily derived from the manufacture and sale of Human Albumin and Immunoglobulin products. The Company's sales by significant types of product for the three months ended March 31, 2016 and 2015 are as follows:

	For the three months ended	
	March 31, 2016 USD	March 31, 2015 USD
Human Albumin	32,628,855	26,893,030
Immunoglobulin products:		
Human Immunoglobulin for Intravenous Injection	34,157,762	32,865,791
Other Immunoglobulin products	8,900,316	4,334,122
Placenta Polypeptide	5,708,405	4,552,204
Others	4,192,373	1,709,184
Total	85,587,711	70,354,331

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Commitments

As of March 31, 2016, commitments outstanding for the purchase of property, plant and equipment approximated \$34.1 million.

As of March 31, 2016, commitments outstanding for the purchase of plasma from 2016 to 2018 approximated \$76.1 million.

Dispute with Jie'an over Certain Capital Injection into Guizhou Taibang

In May 2007, a 91% majority of Guizhou Taibang's shareholders approved a plan to raise additional capital from qualified strategic investors through the issuance of an additional 20,000,000 shares of Guizhou Taibang. The plan required all existing Guizhou Taibang shareholders to waive their rights of first refusal to subscribe for the additional shares. The remaining 9% minority shareholder of Guizhou Taibang's shares, Guizhou Jie'an Company, or Jie'an, did

not support the plan and did not waive its right of first refusal. In May 2007, Guizhou Taibang signed an Equity Purchase Agreement with certain alleged strategic investors (who concealed their background), pursuant to which such investors agreed to invest an aggregate of RMB50,960,000 (approximately \$7,887,079) in exchange for 21.4% of Guizhou Taibang's equity interests. Such Equity Purchase Agreement was not approved or ratified by over two-thirds supermajority of Guizhou Taibang's shareholders, which approval or ratification is required under the PRC Company Law. At the same time, as an existing shareholder, Jie'an also subscribed for 1,800,000 shares, representing its pro rata share of the 20,000,000 shares being offered. In total, Guizhou Taibang received RMB50,960,000 (approximately \$7,887,079) from the investors and RMB6,480,000 (approximately \$1,002,910) from Jie'an.

In June 2007, Jie'an brought a lawsuit against Guizhou Taibang, alleging that it had a right to acquire the 18,200,000 shares offered to the investors under the Equity Purchase Agreement. The trial court denied Jie'an's request, and the PRC Supreme Court ultimately sustained the original ruling in May 2009 and denied the rights of first refusal of Jie'an over the 18,200,000 shares.

During the second quarter of 2010, Jie'an requested that Guizhou Taibang register its 1.8 million shares of additional capital injection with the local administration of industry and commerce, or AIC. Guizhou Taibang's board of directors withheld its required ratification of Jie'an's request, pending the outcome of the ongoing litigation. In March 2012, Jie'an brought another lawsuit against Guizhou Taibang for refusing to register the shares. In July 2013, the trial court dismissed the lawsuit for lack of jurisdiction. Jie'an did not appeal the dismissal.

In December 2013, Jie'an brought a third lawsuit against Guizhou Taibang, requesting Guizhou Taibang to register 1.8 million shares under its name with the local AIC. In July 2014, the trial court denied Jie'an's request to register such shares. Despite the denial of Jie'an's share registration request, the trial court, however, in its ruling, ordered Guizhou Taibang to pay accumulated dividends of RMB13,809,197 (approximately \$2,137,249) associated with these shares and the related interest expenses to Jie'an. Guizhou Taibang and Jie'an subsequently filed a cross-appeal. In December 2014, the appellate court ruled in favor of Jie'an supporting its request to register 1.8 million shares and ordered Guizhou Taibang to pay Jie'an its share of accumulated dividends of RMB18,339,227 (approximately \$2,838,362) associated with these shares plus the related interest expenses to Jie'an. In the first half of 2015, Guizhou Taibang paid an aggregate of RMB22,639,227 (approximately \$3,503,873) to the trial court held in escrow pending further appeal of this case. Guizhou Taibang appealed to the High Court of Guizhou in June 2015 which overruled the decision of the appellate court and remanded the case to the trial court for retrial in September 2015.

In November 2013, Guizhou Taibang held a shareholders meeting and the shareholders passed resolutions, or the November 2013 Resolutions, that, inter alia, (i) determined that it was no longer necessary for Guizhou Taibang to obtain additional capital from investors; (ii) rejected Jie'an's request that Jie'an subscribe for additional shares of Guizhou Taibang alone and one or more other shareholders reduce their shareholding in Guizhou Taibang; and (iii) approved the issuance of a total of 20,000,000 new shares to all existing shareholders on a pro rata basis. Jie'an subsequently filed a fourth lawsuit against Guizhou Taibang in December 2013, requesting that the court declare the November 2013 Resolutions void. Both the trial court and the appellate court denied Jie'an's request.

In March 2014, Guizhou Taibang held another shareholders meeting and the shareholders passed resolutions, or the March 2014 Resolutions, that, inter alia, re-calculated the ownership percentage in Guizhou Taibang based on the November 2013 Resolutions and the additional capital injections from existing shareholders. Guizhou Taibang subsequently updated the registration with the local AIC regarding the additional capital injections in August 2014. In September 2014, Jie'an and another minority shareholder of Guizhou Taibang filed a lawsuit against Guizhou Taibang, requesting that the court declare both the November 2013 Resolutions and the March 2014 Resolutions void and instruct Guizhou Taibang to withdraw the AIC registration. In November 2014, the trial court suspended this case pending the final outcome of the third lawsuit filed by Jie'an. In October 2015, the trial court denied their request.

If the pending cases with Jie'an are ultimately ruled in Jie'an's favor, the ownership interest in Guizhou Taibang may be diluted to 83% and Jie'an may be entitled to receive accumulated dividends of RMB18,339,227 (approximately \$2,838,362), being its claimed share of Guizhou Taibang's accumulated dividend distributions associated with the 1.8 million shares, and the related interest expenses from Guizhou Taibang. As of March 31, 2016, Guizhou Taibang had maintained, on its balance sheet, payables to Jie'an in the amounts of RMB5,040,000 (approximately \$780,041) as received funds in respect of the 1.8 million shares in dispute, RMB1,440,000 (approximately \$222,869) for the over-paid subscription price paid by Jie'an and RMB3,759,412 (approximately \$581,844) for the accrued interest. As these cases are closely interlinked to the outcome of the disputes with certain individual investor described below, based on its PRC litigation counsel's assessment, the Company does not expect Jie'an to prevail.

Dispute with Certain Individual Investors over Certain Capital Injection into Guizhou Taibang

In part due to the invalidity of the Equity Purchase Agreement with certain alleged strategic investors in May 2007, which was never approved or ratified by Guizhou Taibang's shareholders, such investors' equity ownership in Guizhou Taibang and the related increase in registered capital of Guizhou Taibang have never been registered with the local AIC. In January 2010, one individual among such investors brought a lawsuit against Guizhou Taibang requesting to register his 14.35% ownership interest in Guizhou Taibang with the local AIC and seeking the distribution of his share of Guizhou Taibang's dividends declared since 2007.

In October 2010, the trial court denied such individual investor's right as shareholders of Guizhou Taibang and his entitlement to share the dividends, which ruling was reaffirmed after a re-trial by the same trial court in December 2012. After such ruling, Guizhou Taibang attempted to return the originally received fund of RMB34,160,000 (approximately \$5,286,943) to such investor by wiring the fund back to his bank account but was unable to do so due to the closure of his bank account. Another investor, however, accepted the returned fund of RMB11,200,000 (approximately \$1,733,424) from Guizhou Taibang in November 2010. In 2013, the same individual investor appealed the case to the PRC Supreme Court, which also denied his claims for shareholder status in Guizhou Taibang and the related dividend distribution and accrued interest in September 2013. Such investor subsequently attempted to seek a re-trial by the PRC Supreme Court, which request was denied by the PRC Supreme Court in January 2014. He then applied to the PRC Supreme Procuratorate to request for a review of the PRC Supreme Court's decision and seek an appeal by the PRC Supreme Procuratorate to the PRC Supreme Court for an ultimate re-trial on his behalf. In July 2015, the PRC Supreme Procuratorate rejected his request for review.

As of March 31, 2016, Guizhou Taibang had maintained, on its balance sheet, payables to the investors of RMB34,160,000 (approximately \$5,286,943) as originally received funds from such individual investor in respect of the shares in dispute, RMB18,082,330 (approximately \$2,798,602) for the interest expenses, and RMB341,600 (approximately \$52,869) for the 1% penalty imposed by the Equity Purchase Agreement for any breach in the event that Guizhou Taibang is required to return the original investment amount to such investor.

NOTE 12 - NET INCOME PER SHARE

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

	For the three months ended	
	March 31, 2016	March 31, 2015
	USD	USD
Net income attributable to China Biologic Products, Inc.	26,197,255	23,162,472
Earnings allocated to participating nonvested shares	(648,471)	(502,298)
Net income used in basic/diluted net income per common stock	25,548,784	22,660,174
Weighted average shares used in computing basic net income per common stock	26,585,926	24,816,877
Diluted effect of stock options	540,912	1,249,909
Weighted average shares used in computing diluted net income per common stock	27,126,838	26,066,786
Net income per common stock – basic	0.96	0.91
Net income per common stock – diluted	0.94	0.87

During the three months ended March 2016 and 2015, no option was antidilutive or excluded from the calculation of diluted net income per common stock.

Overview of Our Business

We are a biopharmaceutical company principally engaged in the research, development, manufacturing and sales of human plasma-based biopharmaceutical products, or plasma products, in China. We operate our business through two majority owned subsidiaries, Shandong Taibang, a company based in Tai’an, Shandong Province and Guizhou Taibang, a company based in Guiyang, Guizhou Province. We also hold a minority equity interest in Huitian, a plasma products company based in Xi’an, Shaanxi Province.

We have a strong product portfolio with over 20 different dosage forms of plasma products and other biopharmaceutical products across nine categories. Our principal products are human albumin and immunoglobulin for intravenous injection, or IVIG. Albumin has been used for almost 50 years to treat critically ill patients by assisting the maintenance of adequate blood volume and pressure. IVIG is used for certain disease prevention and treatment by enhancing specific immunity. These products use human plasma as their principal raw material. Sales of human albumin products represented approximately 38.1% and 38.2% of our total sales for the three months ended March 31, 2016 and 2015, respectively. Sales of IVIG products represented approximately 39.9% and 46.7% of our total sales for the three months ended March 31, 2016 and 2015, respectively. All of our products are prescription medicines administered in the form of injections.

Our sales model focuses on direct sales to hospitals and inoculation centers and is complemented by distributor sales. For the three months ended March 31, 2016 and 2015, our top five customers accounted for approximately 17.5% and 13.8%, respectively, of our total sales.

We operate and manage our business as one single segment. We do not account for the results of our operations on a geographic or other basis.

Our principal executive offices are located at 18th Floor, Jialong International Building, 19 Chaoyang Park Road, Chaoyang District, Beijing 100125, People's Republic of China. Our corporate telephone number is (8610) 6598-3111 and our fax number is (8610) 6598-3222. We maintain a website at <http://www.chinabiologic.com> that contains information about our company, but that information is not part of this report or incorporated by reference herein.

Recent Developments

In April 2016, our wholly owned subsidiary, Guiyang Dalin Biologic Technologies Co., Ltd., increased its equity interest in Guizhou Taibang from 81.81% as of December 31, 2015 to 85.27% following a series of capital injections.

First Quarter Financial Performance Highlights

The following are some financial highlights for the three months ended March 31, 2016:

Sales: Sales increased by \$15.2 million, or 21.6%, to \$85.6 million for the three months ended March 31, 2016, from \$70.4 million for the same period in 2015.

Gross profit: Gross profit increased by \$5.6 million, or 12.2%, to \$51.5 million for the three months ended March 31, 2016, from \$45.9 million for the same period in 2015.

Income from operations: Income from operations increased by \$3.2 million, or 9.2%, to \$37.9 million for the three months ended March 31, 2016, from \$34.7 million for the same period in 2015.

Net income attributable to our company: Net income increased by \$3.0 million, or 12.9%, to \$26.2 million for the three months ended March 31, 2016, from \$23.2 million for the same period in 2015.

Diluted net income per share: Diluted net income per share was \$0.94 for the three months ended March 31, 2016, as compared to \$0.87 for the same period in 2015.

Sales

Our sales increased by \$15.2 million, or 21.6%, to \$85.6 million for the three months ended March 31, 2016, compared to \$70.4 million for the same period in 2015. Excluding the foreign exchange impact resulting from the depreciation of the RMB against the U.S. dollar, our sales would have increased by 29.4% for the three months ended March 31, 2016 as compared to the same period in 2015. The increase in sales for the three months ended March 31, 2016 was primarily attributable to the sales volume increases in major plasma products and human tetanus immunoglobulin products.

The following table summarizes the breakdown of sales by significant types of product:

	For the three months ended March 31,				Change	
	2016		2015			
	Amount	%	Amount	%	Amount	%
(U.S. dollars in millions, except percentage)						
Human albumin	32.6	38.1	26.9	38.2	5.7	21.2
Immunoglobulin products:						
IVIG	34.2	39.9	32.9	46.7	1.3	4.0
Other immunoglobulin products	8.9	10.4	4.3	6.2	4.6	107.0
Placenta polypeptide	5.7	6.7	4.6	6.5	1.1	23.9
Others	4.2	4.9	1.7	2.4	2.5	147.1
Totals	85.6	100.0	70.4	100.0	15.2	21.6

During the three months ended March 31, 2016 as compared to the three months ended March 31, 2015:

the average price for our approved human albumin products, which accounted for 38.1% of our total sales for the three months ended March 31, 2016, increased by 2.8% in RMB term and decreased by 3.4% in USD term; and

the average price for our approved IVIG products, which accounted for 39.9% of our total sales for the three months ended March 31, 2016, increased by 2.7% in RMB term and decreased by 3.4% in USD term; and

The average sales price of our human albumin products and IVIG products increased in RMB term for the three months ended March 31, 2016 as compared to the same period in 2015 following the removal of the retail price ceiling for drug products effective on June 1, 2015.

The sales volume of our products depends on market demand and our production volume. The production volume of our human albumin products and IVIG products depends primarily on the general plasma supply. The production volume of our hyper-immune products, which include human rabies immunoglobulin, human hepatitis B immunoglobulin and human tetanus immunoglobulin products, is subject to the availabilities of specific vaccinated plasma and our production capacity. The supply of specific vaccinated plasma requires several months of lead time. Our production facility currently can only accommodate the production of one type of hyper-immune products at any given time and we rotate the production of different types of hyper-immune products from time to time in response to market demand. As such, the sales volume of any given type of hyper-immune products may vary significantly from quarter to quarter.

The sales volume of our human albumin products and IVIG products increased by 25.6% and 7.6% for the three months ended March 31, 2016 as compared to the same period in 2015 as a result of the increased production volume at Shandong Taibang and Guizhou Taibang. The slower sales growth of IVIG products for the three months ended March 31, 2016 was primarily due to the depletion of IVIG pastes we reserved from previous years to be processed and sold in 2015 in anticipation of favorable market conditions and our improved sales capabilities at that time.

The sales increase of other immunoglobulin products for the three months ended March 31, 2016 as compared to the same period in 2015 was mainly attributable to the increase in both sales volume and sales price of human tetanus immunoglobulin products. The sales of human tetanus immunoglobulin products increased by \$5.0 million for the three months ended March 31, 2016 as compared to the same period in 2015. The average sales price of human tetanus immunoglobulin products increased significantly for the three months ended March 31, 2016 as compared to the same period in 2015 due to the strong market demand coupled by the removal of the retail price ceiling for drug products effective on June 1, 2015.

The sales increase of other products for the three months ended March 31, 2016 as compared to the same period in 2015 was mainly due to the increase in sales volume of human prothrombin complex concentrate, or PCC and factor VIII. We launched PCC to the market in early 2015 and experienced the sales ramp-up for the three months ended March 31, 2016.

Cost of sales and gross profit

	For the three months ended March 31,		Change	
	2016	2015	Amount	%
	(U.S. dollars in millions, except percentage)			
Cost of sales	34.1	24.5	9.6	39.2
as a percentage of total sales	39.8%	34.8%		5.0
Gross Profit	51.5	45.9	5.6	12.2
Gross Margin	60.2%	65.2%		(5.0)

Our cost of sales was \$34.1 million, or 39.8% of our sales for the three months ended March 31, 2016, as compared to \$24.5 million, or 34.8% of our sales for the same period in 2015. Our gross profit was \$51.5 million and \$45.9 million for the three months ended March 31, 2016 and 2015, respectively, representing gross margins of 60.2% and 65.2%, respectively. The decrease of the gross margin was mainly due to the sales derived from the raw material purchased from Xinjiang Deyuan Bioengineering Co., Ltd., or Xinjiang Deyuan, whose cost is moderately higher than plasma from our own collection stations. Excluding this impact, our gross margin remained consistent for the three months ended March 31, 2016 as compared to the same period in 2015.

Our cost of sales and gross margin are affected by the volume and pricing of our sold products, raw material costs, production mix and respective yields, inventory provisions, production cycles and routine maintenance costs. In an effort to increase plasma collection volume and expand our donor base, we increased the nutrition fees paid to donors consistent with the industry practice. We expected the nutrition fees to be paid to donors continue to increase as a result of improving living standards in China. Consequently, future improvements on margins will need to be derived from increases in product pricing and volume, product mix, yields and manufacturing efficiency.

The increase in cost of sales for the three months ended March 31, 2016 as compared to the same period in 2015 was generally in line with the increases in sales volume and cost of plasma. The increase in cost of sales as a percentage of sales for the three months ended March 31, 2016 as compared to the same period in 2015 was mainly due to the moderately higher cost of plasma purchased from Xinjiang Deyuan partially offset by the increase in the average sales price of certain plasma products.

Operating expenses

	For the three months ended March 31,		Change	
	2016	2015	Amount	%
	(U.S. dollars in millions, except percentage)			
Operating expenses	13.6	11.1	2.5	22.5
as a percentage of total sales	15.9%	15.8%		0.1

Our total operating expenses increased by \$2.5 million, or 22.5%, to \$13.6 million for the three months ended March 31, 2016, from \$11.1 million for the same period in 2015. As a percentage of sales, total expenses increased by 0.1% to 15.9% for the three months ended March 31, 2016, from 15.8% for the same period in 2015. The increase of the total operating expenses was mainly due to the increase of the general and administrative expenses as discussed below.

Selling expenses

	For the three months ended March 31,		Change	
	2016	2015	Amount	%
	(U.S. dollars in millions, except percentage)			
Selling expenses	1.2	2.0	(0.8)	(40.0)
as a percentage of total sales	1.4%	2.8%		(1.4%)

Our selling expenses decreased by \$0.8 million, or 40.0%, to \$1.2 million for the three months ended March 31, 2016, from \$2.0 million for the same period in 2015. As a percentage of sales, our selling expenses decreased by 1.4% to 1.4% for the three months ended March 31, 2016, from 2.8% for the same period in 2015 primarily due to the promotion activities on human rabies immunoglobulin products we carried out in the three months ended March 31, 2015.

General and administrative expenses

	For the three months ended March 31,		Change	
	2016	2015	Amount	%
	(U.S. dollars in millions, except percentage)			
General and administrative expenses	11.3	7.9	3.4	43.0
as a percentage of total sales	13.2%	11.2%		2.0

Our general and administrative expenses increased by \$3.4 million, or 43.0%, to \$11.3 million for the three months ended March 31, 2016, from \$7.9 million for the same period in 2015. General and administrative expenses as a percentage of sales increased by 2.0% to 13.2% for the three months ended March 31, 2016, from 11.2% for the same period in 2015. The increase in general and administrative expenses was mainly due to the increase of share-based compensation expenses totaling \$2.6 million.

Research and development expenses

	For the three months ended March 31,		Change	
	2016	2015	Amount	%
	(U.S. dollars in millions, except percentage)			
Research and development expenses	1.1	1.3	(0.2)	(15.4)
as a percentage of total sales	1.3%	1.9%		(0.6)

Our research and development expenses decreased by \$0.2 million, or 15.4%, to \$1.1 million for the three months ended March 31, 2016, from \$1.3 million for the same period in 2015. We received government grants of RMB 0.9 million (approximately \$0.14 million) and recognized it as a reduction of research and development expenses for the three months ended March 31, 2016. Excluding this impact, our research and development expenses remained consistent in RMB term for the three months ended March 31, 2016 as compared to the same period in 2015. As a percentage of sales, our research and development expenses for the three months ended March 31, 2016 and 2015 were 1.3% and 1.9%, respectively.

Income tax

	For the three months ended March 31, 2016	2015	Change Amount (U.S. dollars in millions, except percentage)	
Income tax	6.6	5.6	1.0	17.9
as a percentage of total sales	7.7%	8.0 %		(0.3)

Our provision for income taxes increased by \$1.0 million, or 17.9%, to \$6.6 million for the three months ended March 31, 2016, from \$5.6 million for the same period in 2015. Our effective income tax rate was 16.8% and 15.9% for the three months ended March 31, 2016 and 2015, respectively. The statutory tax rate applicable to our major operating subsidiaries in the PRC for 2016 and 2015 is 15.0%.

Liquidity and Capital Resources

To date, we have financed our operations primarily through cash flows from operations, augmented by bank borrowings and equity contributions by our stockholders. As of March 31, 2016, we had \$180.1 million in cash and cash equivalents, primarily consisting of cash on hand and demand deposits.

The following table provides the summary of our cash flows for the periods indicated:

	For the three months ended March 31, 2016	2015 (U.S. dollars in millions)
Net cash provided by operating activities	24.2	16.5
Net cash used in investing activities	(19.9)	(8.5)
Net cash provided by (used in) financing activities	29.8	(2.1)
Effects of exchange rate change on cash	1.1	(0.7)
Net increase in cash and cash equivalents	35.2	5.2
Cash and cash equivalents at beginning of the period	144.9	80.8
Cash and cash equivalents at end of the period	180.1	86.0

Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2016 was \$24.2 million, as compared to \$16.5 million for the same period in 2015. The increase in net cash provided by operations activities was largely consistent with the improvements in our results of operations, the speed-up of accounts receivable collection and the increase of net non-cash operating expense for the three months ended March 31, 2016 as compared to the same period in 2015, partially offset by an increase in inventories during the relevant period.

Accounts receivable

We sped up our collection of accounts receivable for the three months ended March 31, 2016 as compared to the same period in 2015. The accounts receivable turnover days for plasma products were 33 days and 38 days for the three months period ended March 31, 2016 and March 31, 2015, respectively. For the three months ended March 31, 2015, in order to penetrate the market for human rabies immunoglobulin product, we granted credit terms ranging from two to three months to the distributors rather than requiring them to make full payments prior to deliveries. We no longer implemented such credit policy in the three months ended March 31, 2016.

Inventories

Inventories increased by \$3.9 million during the three months ended March 31, 2016, as compared to \$1.9 million during the same period in 2015, primarily due to the increase of plasma purchased from Xinjiang Deyuan.

Net non-cash operating expenses

Net non-cash operating expenses increased by \$1.5 million during the three months ended March 31, 2016, as compared to the same period in 2015, primarily due to the increase of share-based compensation expenses totaling \$2.6 million.

Investing Activities

Our use of cash for investing activities is primarily for the acquisition of property, plant and equipment, intangibles and long-term loan to a third party.

Net cash used in investing activities for the three months ended March 31, 2016 was \$19.9 million, as compared to \$8.5 million for the same period in 2015. During the three months ended March 31, 2016, we paid \$14.6 million for the acquisition of property, plant and equipment, intangible assets and land use right for Shandong Taibang and Guizhou Taibang, and granted a loan of \$6.3 million to Xinjiang Deyuan pursuant to a cooperation agreement we entered into with Xinjiang Deyuan in August 2015. During the three months ended March 31, 2015, we paid \$8.5 million for the acquisition of property, plant and equipment, for Shandong Taibang and Guizhou Taibang.

Financing Activities

Net cash provided by financing activities for the three months ended March 31, 2016 was \$29.8 million, as compared to net cash used in financing activities of \$2.1 million for the same period in 2015. The net cash provided by financing activities for the three months ended March 31, 2016 mainly consisted of the maturity of a \$37.8 million time deposit as a security for a 24-month loan which was fully repaid in June 2015, partially offset by dividend of \$7.9 million paid to the minority shareholder by Shandong Taibang. The net cash used in financing activities for the three months ended March 31, 2015 mainly consisted of a repayment of \$31.6 million on a short-term bank loan and a dividend of \$3.0 million to be held in escrow by a trial court in connection with disputes with a minority shareholder of Guizhou Taibang, partially offset by the maturity of a \$32.0 million deposit as security for the same short-term bank loan.

Management believes that our company has sufficient cash on hand and will continue to have positive cash inflow for its operations from the sale of its products in the PRC market.

Obligations under Material Contracts

The following table sets forth our material contractual obligations as of March 31, 2016:

Contractual Obligations	Payments Due by Period				
	Less than one year	One to three years	Three to five years	More than five years	
	Total				
	(U.S. dollars in millions)				
Operating lease commitment	1.4	0.4	0.8	-	0.2
Purchase commitment	76.1	29.8	46.3	-	-
Capital commitment	34.1	30.7	3.4	-	-
Total	111.6	60.9	50.5	-	0.2

Seasonality of Our Sales

Our operating results and operating cash flows historically have not been subject to seasonal variations. This pattern may change, however, as a result of new market opportunities or new product introductions.

Inflation

Inflation does not materially affect our business or the results of our operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our investors.

Critical Accounting Policies

Critical accounting policies are those we believe are most important to portraying our financial conditions and results of operations and also require the greatest amount of subjective or complex judgments by management. Judgments and uncertainties regarding the application of these policies may result in materially different amounts being reported under various conditions or using different assumptions. There have been no material changes to the critical accounting policies previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our operations are carried out in the PRC and we are subject to specific considerations and significant risks not typically associated with companies in North America and Western Europe. Accordingly, our business, financial condition and results of operations may be influenced by the political, economic and legal environment in the PRC, and by the general state of the PRC economy. Our results may be adversely affected by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

Interest Rate Risk

We are exposed to interest rate risk primarily with respect to our bank loans. We have not used any derivative financial instruments to manage our interest rate risk exposure. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. However, our future interest expenses may increase due to changes in market interest rates.

Management monitors the banks' prime rates in conjunction with our cash requirements to determine the appropriate level of debt balances relative to other sources of funds. We have not entered into any hedging transactions in an effort to reduce our exposure to interest rate risk.

Foreign Exchange Risk

All of our consolidated revenues and consolidated costs and majority of expenses are denominated in RMB. All of our assets are denominated in RMB, except certain cash balances. However, our reporting currency is U.S. dollars. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between U.S. dollars and RMB. If RMB depreciates against the U.S. dollars, the

value of our RMB revenues, earnings and assets as expressed in our U.S. dollar financial statements will decline. Assets and liabilities are translated at exchange rates at the balance sheet dates and revenue and expenses are translated at the average exchange rates and shareholders' equity is translated at historical exchange rates. Any resulting translation adjustments are not included in determining net income but are included in determining other comprehensive income, a component of stockholders' equity. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

RMB is currently freely convertible under the “current account,” which includes dividends, trade and service-related foreign exchange transactions, but not under the “capital account,” which includes foreign direct investment. In addition, beginning in July 2005, China reformed its exchange rate regime by changing to a managed floating exchange rate regime based on market supply and demand with reference to a basket of major foreign currencies. Under the managed floating exchange rate regime, RMB is no longer pegged to U.S. dollars. The People’s Bank of China announces the closing prices of foreign currencies such as U.S. dollars traded against RMB in the inter-bank foreign exchange market after the closing of the market on each business day, and makes such prices the central parity for trading against RMB on the following business day. On May 19, 2007, the People’s Bank of China announced a policy to expand the maximum daily floating range of RMB trading prices against U.S. dollars in the inter-bank spot foreign exchange market from 0.3% to 0.5%. On June 19, 2010, the People’s Bank of China announced that it would proceed further with the reform of the RMB exchange rate regime to enhance the flexibility of the RMB exchange rate and that emphasis would be placed on reflecting market supply and demand with reference to a basket of major foreign currencies. On April 16, 2012, the People’s Bank of China announced a policy to expand the maximum daily floating range of RMB trading prices against U.S. dollars in the inter-bank spot foreign exchange market from 0.5% to 1.0%. On March 17, 2014, the People’s Bank of China announced a policy to further expand the maximum daily floating range of RMB trading prices against U.S. dollars in the inter-bank spot foreign exchange market to 2.0%. In the long term, RMB may appreciate or depreciate more significantly in value against U.S. dollars or other foreign currencies, depending on the market supply and demand with reference to a basket of major foreign currencies. On August 10, 2015, the People’s Bank of China announced that it had changed the calculation method for RMB’s daily central parity exchange rate against U.S. dollars, which resulted in an approximately 2.0% depreciation of RMB on that day. RMB continued to depreciate against U.S. dollars throughout the remainder of 2015 and the three months ended March 31, 2016.

Account Balances

We maintain balances at financial institutions which, from time to time, may exceed Federal Deposit Insurance Corporation insured limits for the banks located in the United States, Hong Kong Deposit Protection Board insured limits for the banks located in Hong Kong, or China Deposit Insurance Scheme insured limits for the banks located in the PRC. Total cash at banks and time deposits as of March 31, 2016 and December 31, 2015 amounted to \$179.6 million and \$182.3 million, respectively, \$2.7 million and \$3.0 million of which are covered by insurance, respectively. We have not experienced any losses in such accounts and we do not believe that we are exposed to any significant risks on our cash at banks and deposits.

Inflation

Inflationary factors such as increases in the cost of our sales and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net sales if the selling prices

of our products do not increase with these increased costs.

Market for Human Albumin and IVIG

Our two major products, human albumin and IVIG, accounted for 38.1% and 39.9% of the total sales for the three months ended March 31, 2016, respectively. If the market demands for human albumin or IVIG cannot be sustained in the future or if there is substantial price decrease in either or both products, our operating results could be materially and adversely affected.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(e), our management has carried out an evaluation, with the participation and under the supervision of our Chief Executive Officer, Mr. David (Xiaoying) Gao and our Chief Financial Officer, Mr. Ming Yang, of the effectiveness of the design and operation of our disclosure controls and procedures, as of March 31, 2016. Based on that evaluation, Mr. Gao and Mr. Yang concluded that our disclosure controls and procedures were effective as of March 31, 2016.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, we may become involved in various lawsuits and legal proceedings arising in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these, or other matters, may arise from time to time that may harm our business. Other than the legal proceedings set forth below, we are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

Dispute with Jie'an over Certain Capital Injection into Guizhou Taibang

In May 2007, a 91% majority of Guizhou Taibang's shareholders approved a plan to raise additional capital from qualified strategic investors through the issuance of an additional 20,000,000 shares of Guizhou Taibang. The plan required all existing Guizhou Taibang shareholders to waive their rights of first refusal to subscribe for the additional shares. The remaining 9% minority shareholder of Guizhou Taibang's shares, Guizhou Jie'an Company, or Jie'an, did not support the plan and did not waive its right of first refusal. In May 2007, Guizhou Taibang signed an Equity Purchase Agreement with certain alleged strategic investors (who concealed their background), pursuant to which such investors agreed to invest an aggregate of RMB51.0 million (approximately \$7.9 million) in exchange for 21.4% of Guizhou Taibang's equity interests. Such Equity Purchase Agreement was not approved or ratified by over two-thirds supermajority of Guizhou Taibang's shareholders, which approval or ratification is required under the PRC Company Law. At the same time, as an existing shareholder, Jie'an also subscribed for 1,800,000 shares, representing its pro rata share of the 20,000,000 shares being offered. In total, Guizhou Taibang received RMB51.0 million (approximately \$7.9 million) from the investors and RMB6.5 million (approximately \$1.0 million) from Jie'an.

In June 2007, Jie'an brought a lawsuit against Guizhou Taibang, alleging that it had a right to acquire the 18,200,000 shares offered to the investors under the Equity Purchase Agreement. The trial court denied Jie'an's request, and the PRC Supreme Court ultimately sustained the original ruling in May 2009 and denied the rights of first refusal of Jie'an over the 18,200,000 shares.

During the second quarter of 2010, Jie'an requested that Guizhou Taibang register its 1.8 million shares of additional capital injection with the local administration of industry and commerce, or AIC. Guizhou Taibang's board of directors withheld its required ratification of Jie'an's request, pending the outcome of the ongoing litigation. In March 2012,

Jie'an brought another lawsuit against Guizhou Taibang for refusing to register the shares. In July 2013, the trial court dismissed the lawsuit for lack of jurisdiction. Jie'an did not appeal the dismissal.

In December 2013, Jie'an brought a third lawsuit against Guizhou Taibang, requesting Guizhou Taibang to register 1.8 million shares under its name with the local AIC. In July 2014, the trial court denied Jie'an's request to register such shares. Despite the denial of Jie'an's share registration request, the trial court, however, in its ruling, ordered Guizhou Taibang to pay accumulated dividends of RMB13.8 million (approximately \$2.1million) associated with these shares and the related interest expenses to Jie'an. Guizhou Taibang and Jie'an subsequently filed a cross-appeal. In December 2014, the appellate court ruled in favor of Jie'an supporting its request to register 1.8 million shares and ordered Guizhou Taibang to pay Jie'an its share of accumulated dividends of RMB18.3 million (approximately \$2.8 million) associated with these shares plus the related interest expenses to Jie'an. In the first half of 2015, Guizhou Taibang paid an aggregate of RMB22.6 million (approximately \$3.5 million) to the trial court held in escrow pending further appeal of this case. Guizhou Taibang appealed to the High Court of Guizhou in June 2015 which overruled the decision of the appellate court and remanded the case to the trial court for retrial in September 2015.

In November 2013, Guizhou Taibang held a shareholders meeting and the shareholders passed resolutions, or the November 2013 Resolutions, that, inter alia, (i) determined that it was no longer necessary for Guizhou Taibang to obtain additional capital from investors; (ii) rejected Jie'an's request that Jie'an subscribe for additional shares of Guizhou Taibang alone and one or more other shareholders reduce their shareholding in Guizhou Taibang; and (iii) approved the issuance of a total of 20,000,000 new shares to all existing shareholders on a pro rata basis. Jie'an subsequently filed a fourth lawsuit against Guizhou Taibang in December 2013, requesting that the court declare the November 2013 Resolutions void. Both the trial court and the appellate court denied Jie'an's request.

In March 2014, Guizhou Taibang held another shareholders meeting and the shareholders passed resolutions, or the March 2014 Resolutions, that, inter alia, re-calculated the ownership percentage in Guizhou Taibang based on the November 2013 Resolutions and the additional capital injections from existing shareholders. Guizhou Taibang subsequently updated the registration with the local AIC regarding the additional capital injections in August 2014. In September 2014, Jie'an and another minority shareholder of Guizhou Taibang filed a lawsuit against Guizhou Taibang, requesting that the court declare both the November 2013 Resolutions and the March 2014 Resolutions void and instruct Guizhou Taibang to withdraw the AIC registration. In November 2014, the trial court suspended this case pending the final outcome of the third lawsuit filed by Jie'an. In October 2015, the trial court denied their request.

If the pending cases with Jie'an are ultimately ruled in Jie'an's favor, our ownership interest in Guizhou Taibang may be diluted to 83% and Jie'an may be entitled to receive accumulated dividends of RMB18.3 million (approximately \$2.8 million), being its claimed share of Guizhou Taibang's accumulated dividend distributions associated with the 1.8 million shares, and the related interest expenses from Guizhou Taibang. As of March 31, 2016, Guizhou Taibang had maintained, on its balance sheet, payables to Jie'an in the amounts of RMB5.0 million (approximately \$0.8 million) as received funds in respect of the 1.8 million shares in dispute, RMB1.4 million (approximately \$0.2 million) for the over-paid subscription price paid by Jie'an and RMB3.8 million (approximately \$0.6 million) for the accrued interest. As these cases are closely interlinked to the outcome of the disputes with certain individual investor described below, based on our PRC litigation counsel's assessment, we do not expect Jie'an to prevail.

Dispute with Certain Individual Investor over Certain Capital Injection into Guizhou Taibang

In part due to the invalidity of the Equity Purchase Agreement with certain alleged strategic investors in May 2007, which was never approved or ratified by Guizhou Taibang's shareholders, such investors' equity ownership in Guizhou Taibang and the related increase in registered capital of Guizhou Taibang have never been registered with the local AIC. In January 2010, one individual among such investors brought a lawsuit against Guizhou Taibang requesting to register his 14.35% ownership interest in Guizhou Taibang with the local AIC and seeking the distribution of his share of Guizhou Taibang's dividends declared since 2007.

In October 2010, the trial court denied such individual investor's right as shareholder of Guizhou Taibang and his entitlement to share the dividends, which ruling was reaffirmed after a re-trial by the same trial court in December 2012. After such ruling, Guizhou Taibang attempted to return the originally received fund of RMB34.2 million (approximately \$5.3 million) to such investor by wiring the fund back to his bank account but was unable to do so due to the closure of his bank account. Another investor, however, accepted the returned fund of RMB11.2 million (approximately \$1.7 million) from Guizhou Taibang in November 2010. In 2013, the same individual investor appealed the case to the PRC Supreme Court, which also denied his claims for shareholder status in Guizhou Taibang and the related dividend distribution and accrued interest in September 2013. Such investor subsequently attempted to seek a re-trial by the PRC Supreme Court, which request was denied by the PRC Supreme Court in January 2014. He then applied to the PRC Supreme Procuratorate to request for a review of the PRC Supreme Court's decision and seek an appeal by the PRC Supreme Procuratorate to the PRC Supreme Court for an ultimate re-trial on his behalf. In July 2015, the PRC Supreme Procuratorate rejected his request for review.

As of March 31, 2016, Guizhou Taibang had maintained, on its balance sheet, payables to the investors of RMB34.2 million (approximately \$5.3 million) as originally received funds from such individual investor in respect of the shares in dispute, RMB18.1 million (approximately \$2.8 million) for the interest expenses, and RMB0.3 million (approximately \$0.1 million) for the 1% penalty imposed by the Equity Purchase Agreement for any breach in the event that Guizhou Taibang is required to return the original investment amount to such investor.

ITEM 1A. RISK FACTORS.

As of the date of this filing, there have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K filed on February 25, 2016. We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially affect our operations. The risks, uncertainties and other factors set forth in the above-referenced Annual Report on Form 10-K may cause our actual results, performances and achievements to be materially different from those expressed or implied by our forward-looking statements. If any of these risks or events occurs, our business, financial condition or results of operations may be adversely affected.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

We have not sold any equity securities during the three months ended March 31, 2016 that were not previously disclosed in a quarterly report on Form 10-Q or a current report on Form 8-K that was filed during this period. No repurchases of our common stock were made during the three months ended March 31, 2016.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

Disclosure pursuant to Section 13(r) of the Exchange Act

Pursuant to Section 13(r) of the Exchange Act, we may be required to disclose in our annual and quarterly reports to the SEC, whether we or any of our “affiliates” knowingly engaged in certain activities, transactions or dealings relating to Iran or with certain individuals or entities targeted by U.S. economic sanctions. Disclosure is generally required even where the activities, transactions or dealings were conducted in compliance with applicable law. Because the SEC defines the term “affiliate” broadly, it includes any entity under common “control” with us (and the term “control” is also construed broadly by the SEC).

The description of the activities below has been provided to us by Warburg Pincus LLC, or WP, affiliates of which: (i) beneficially own more than 10.0% of our outstanding common stock and/or are a member of our board of directors, (ii) beneficially own more than 10.0% of the equity interests of, and have the right to designate members of the board of directors of Santander Asset Management Investment Holdings Limited, or SAMIH. SAMIH may therefore be deemed to be under common “control” with us; however, this statement is not meant to be an admission that common control exists.

The disclosure below relates solely to activities conducted by SAMIH and its affiliates. The disclosure does not relate to any activities conducted by us or by WP and does not involve our or WP’s management. Neither we nor WP has had any involvement in or control over the disclosed activities, and neither we nor WP has independently verified or participated in the preparation of the disclosure. Neither we nor WP is representing as to the accuracy or completeness of the disclosure nor do we or WP undertake any obligation to correct or update it.

We understand that one or more SEC-reporting affiliates of SAMIH intends to disclose in its next annual or quarterly SEC report that:

(a) Santander UK plc (“Santander UK”) holds two frozen savings accounts and two frozen current accounts for three customers resident in the United Kingdom (“UK”) who are currently designated by the United States (“US”) under the Specially Designated Global Terrorist (“SDGT”) sanctions program. The accounts held by each customer were blocked after the customer’s designation and have remained blocked and dormant through the first quarter of 2016. Revenue generated by Santander UK on these accounts in the first quarter of 2016 was £3.67 whilst net profits in the first quarter of 2016 were negligible relative to the overall profits of Banco Santander, S.A.

(b) An Iranian national, resident in the UK, who is currently designated by the US under the Iranian Financial Sanctions Regulations (“IFSR”) and the Weapons of Mass Destruction Proliferators Sanctions Regulations, holds a mortgage with Santander UK that was issued prior to any such designation. No further drawdown has been made (or

would be allowed) under this mortgage although Santander UK continues to receive repayment instalments. In the first quarter of 2016, total revenue generated by Santander UK in connection with the mortgage was £201.22 whilst net profits were negligible relative to the overall profits of Banco Santander, S.A. Santander UK does not intend to enter into any new relationships with this customer, and any disbursements will only be made in accordance with applicable sanctions. The same Iranian national also holds two investment accounts with Santander ISA Managers Limited. The funds within both accounts are invested in the same portfolio fund. The accounts have remained frozen during the first quarter of 2016. The investment returns are being automatically reinvested, and no disbursements have been made to the customer. Total revenue in the first quarter of 2016 generated by Santander UK in connection with the investment accounts was £4.89 whilst net profits in the first quarter of 2016 were negligible relative to the overall profits of Banco Santander, S.A.

(c) A UK national designated by the US under the SDGT sanctions program holds a Santander UK current account. The account remained in arrears through the first quarter of 2016 (£1,344.01 in debit) and is currently being managed by Santander UK Collections & Recoveries department.

(d) In addition, during the first quarter of 2016, Santander UK has identified an OFAC match on a power of attorney account. A party listed on the account is currently designated by the US under the SDGT and IFSR sanctions programs. During the first quarter of 2016, related revenue generated by Santander UK was £73.81 whilst net profits in the first quarter of 2016 were negligible relative to the overall profits of Banco Santander, S.A.
