## (2) Details of Business

Tender Offeror was incorporated in 2001 as a 100% privately-owned financial holding company in order to actively respond to trends of consolidation and diversification in the financial environment.

Since its incorporation, Tender Offeror strategically aimed at establishing the business structure of a total financial group, and developed systematic strategies, focusing on four key tasks: (i) improvement of the holding companies system; (ii) specific negotiations of strategic alliance; (iii) implementation of strategies to expand initial synergies; and (iv) enhancement of internal and external communications. First, Tender Offeror achieved management transparency by improving the governance and management system of the group and established an enhanced holding companies system as well as a system of mutual cooperation and support among group members by organizing various councils for each business division such as retail, corporate banking and asset management business, in an effort to build a foundation for one-portal, one-stop total financial services.

Tender Offeror incorporated a bank, a securities company, a credit card company, an investment trust management company, a capital company and an insurance company as its subsidiaries, thereby establishing a system that enables it to provide services in all financial areas as a total financial group. It is now promoting cross-selling among subsidiaries of products such as funds and FNA securities savings deposits, and focusing on development of complex products linked with insurance and credit card. Moreover, it engages itself in database marketing activities at the group level using an integrated group database.

Following the proposed stock acquisition through which LG Card will become one of its subsidiary, Tender Offeror will substantially enhance its presence in non-banking sectors by expanding its business areas and target markets based on an increased customer base and channels, and will increase the competency of the entire group in order to secure its leading position in the domestic financial market.

Finally, Tender Offeror will, in good faith, build a management system in compliance with world class standards and secure world class competency as a foundation for long-term survival and growth in the global competitive financial environment.

**4. Capital and Total Number of Issued Shares (as of the Filing Date)**

[Unit: KRW, shares; Par value per share: KRW 5,000]

Type	Class	No. of Issued Shares	Total Amount of Par Value	Capital
Registered	Common stock	381,567,614	1,907,838,070,000	1,907,838,070,000
Registered	Redeemable Preferred Stock	68,757,169	343,785,845,000	407,869,805,000
Registered	Convertible Redeemable Preferred Stock	14,721,000	73,605,000,000	73,605,000,000
	<b>Total</b>	<b>465,045,783</b>	<b>2,325,228,915,000</b>	<b>2,389,312,875,000</b>

Note 1) The difference between the total amount of par value and the capital of redeemable preferred stocks issued by SFG can be explained by the fact that the capital cannot be decreased under the current Korean Commercial Code, even though the number of issued preferred stocks was reduced due to redemption of Series 1 preferred stocks (9,316,792 shares) and Series 6 preferred stocks (3,500,000 shares) that matured on August 21, 2006. For this reason, there is a difference (amounting to KRW 64,083,960,000) between the capital and the total amount of par value of issued and outstanding shares.

**Table of Contents**

Note 2) SFG resolved at the board meeting on December 18, 2006 to increase the capital for the purpose of financing the acquisition of LG Card shares and completed the capital increase (via issuance of redeemable preferred stocks and convertible redeemable preferred stocks) on January 25, 2007 as follows:  
[Unit: KRW, shares; Par Value per share: KRW 5,000]

Classification	Series 10 Redeemable Preferred Stock	Series 11 Convertible Redeemable Preferred Stock	Total
Issue Price Per Share	100,000	57,806	
No. of Shares Issued	28,990,000	14,721,000	43,711,000
Total Issue Price	2,899,000,000,000	850,962,126,000	3,749,962,126,000
Capital	144,950,000,000	73,605,000,000	218,555,000,000
Capital Surplus	2,754,050,000,000	777,357,126,000	3,531,407,126,000

Note 3) The Company resolved at the BOD meeting on May 28, 2007 to redeem certain Class 2 redeemable preferred stocks as follows:

Redeemed stocks: 9,316,792 shares of Class 2 redeemable preferred stock (issued on August 19, 2003)

Total amount of redemption: 172,811,836,286 Korean Won (18,548.427 Korean Won per share)

(Expected) Date of redemption: 20 August 2007 (Monday)

If the redemption is completed during the month of August, 2007 as expected, the total number of issued and outstanding shares of the Company will be reduced by the number of redeemed shares, but the amount of capital will not be reduced because the redemption will be done using distributable income.

Note 4) The Company decided by a BOD resolution on May 28, 2007 to effect an all-inclusive stock swap to incorporate LG Card, an existing partial subsidiary, as its wholly-owned subsidiary.

The major terms of the proposed stock swap are as follows:

stock exchange ratio: 0.84932

\* 0.84932 registered common share of SFG for each registered common share of LG Card

Date of stock swap: September 21, 2007

The number of issued and outstanding shares and capita amount will change after the stock swap on September 21, 2007.

For more information on the proposed stock swap, please see the Stock Swap/Transfer Report submitted by SFG and LG Card on May 28, 2007.

More specifically, if the number of shares offered in the Tender Offer is less than the Target Number of Shares, a decision will be made on whether LG Card stock held by Shinhan Bank will be offered in the Tender Offer, but only to the extent that the number of LG Card shares so offered does not exceed the difference from the Target Number of Shares, so that the total number of offered shares does not exceed the Target Number of Shares.

--	--	---

<1> Following the expiration of the Tender Offer Period, a notice of purchase in the form attached hereto as Exhibit 1 ( Notice of Purchase ) will be sent without delay by the Tender Offer Agent to the address specified in the tender application of each shareholder who has validly tendered LG Card shares (each, a Shareholder ).

<2> The Tender Offer purchase price will be transferred to the account with the Tender Offer Agent designated by each Shareholder, provided that the securities transaction tax at the rate of 0.5% and any other applicable tax will be deducted or withheld therefrom prior to each such transfer. In the case of a non-resident Shareholder (including foreign corporations), applicable law may require the Tender Offer Agent to withhold certain capital gains taxes and applicable surtaxes, unless (i) applicable tax treaties exempt the Shareholder from such withholdings and (ii) all actions necessary for such exemptions to be available have been taken by the Shareholder.

**Settlement Method**

\* The burden of proof in respect of the eligibility for exemption from withholding taxes under the Tax Treaty or the authenticity of any supporting documents lies on the relevant Shareholders, and the Tender Offer Agent who is obligated to withhold such taxes may refuse to apply the exemption if the relevant Shareholder refuses to fulfill the burden.

<3> If the total number of tendered LG Card shares is less than the Target Number of Shares, Tender Offeror is to purchase the entire number of tendered shares, and if the total number of tendered LG Card shares exceeds the Target Number of Shares, Tender Offeror is to purchase such shares on a pro-rated basis in accordance with the rules of allocation (see below). In respect of any LG Card shares not purchased in excess of the Target Number of Shares, the prohibition on withdrawal of such shares will be lifted on the Settlement Date.

**Return of Tendered LG Card Shares**

Tendered LG Card shares may be withdrawn immediately, if (i) after the commencement of the Tender Offer Period, Tender Offeror cancels or withdraws the Tender Offer pursuant to Article 12-7 of the Enforcement Decree of the SEA, or (ii) a Shareholder takes the required action to withdraw from the Tender Offer. For instructions regarding withdrawal from the Tender Offer, please refer to Part X, Section 2.

<Rules of Allocation>

If the total number of tendered LG Card shares exceeds the Target Number of Shares, the Target Number of Shares will first be allocated in proportion to the shareholders' respective ratios of their shares to the total number of tendered shares, with any number of allocated shares that is less than a share (a decimal point) being written off. Any such remaining number of shares will then be allocated in accordance with the decimal points of the shares from the greatest to the smallest, repeatedly until there is no remaining share.

**VI. Particulars of Agreement to Purchase Target Company's Shares Other than through Tender Offer After Public Notice Date (if any)**

1. Each SFG and LG Card decided by BOD resolutions on May 28, 2007 to effect an all-inclusive stock swap pursuant to Articles 350-3 and 360-10 of the Commercial Code to incorporate LG Card, an existing partial subsidiary of SFG, as SFG's wholly-owned subsidiary, and accordingly entered into a stock swap agreement.

2. Major terms of stock swap

0.84932 registered common share of SFG for each registered common share of LG Card

\* All common stock of LG Card held by the LG Card shareholders, other than SFG, as of September 20, 2007, the date immediately preceding the date of stock swap will be swapped.

The stock swap is scheduled to take place on September 21, 2007.

Appraisal rights for dissenting shareholders will not be granted SFG because the stock swap will be effected in the manner of a small-scale stock swap pursuant to Article 360-10 of the Commercial Code and a BOD resolution replaces shareholders' approval.

\* However, if shareholders of SFG holding at least 20/100 of total outstanding shares of SFG notify of their dissent to the stock swap, the stock swap cannot be undertaken.

As to LG Card, the shareholders of LG Card Co., Ltd., who dissent to SFG's BOD resolution approving the stock swap, may exercise their appraisal rights in accordance with Article 360-3 of the Commercial Code.

\* A general shareholders' meeting is scheduled for August 13, 2007.

\* Demand for appraisal of shares must be made between August 13, 2007 and September 3, 2007.

Upon exercise of their appraisal rights, shares held by the exercising LG Card shareholders will be purchased at 45,416 Won per share, which may be adjusted in accordance with the procedures set by the SEA.

**Table of Contents**

For more information on the proposed stock swap, please see the Stock Swap/Transfer Report jointly submitted by SFG and LG Card on May 28, 2007.

3. If the stock swap is effected as planned following the Tender Offer, SFG will become a wholly owning company of LG Card effective September 21, 2007.

4. The stock swap is not subject to Article 23(2) of the SEA, which stipulates that no tender offeror (including a specially related person) shall, during the period from the date on which tender offer is permitted pursuant to paragraph (1) to the date on which period of tender offer expires, make any purchase of securities specified in the said statement by means other than a tender offer.

5. There are no other terms of agreement to purchase LG Card's shares other than by means of a tender offer after the public notice date.

**XIII. Agreements Between Tender Offeror and Officers/Major Shareholders of Target Company**

1. Because SFG is the largest shareholder of LG Card, prior consultation with the largest shareholder of the target company has no relevance.
2. SFG informed LG Card and its officers in advance of the purpose, rationale and scope of the Tender Offer, that they, as its specially related persons, are prohibited under Article 23(2) of the SEA to purchase the target shares by means other than a tender offer from the date on which tender offer is permitted pursuant to paragraph (1) to the date on which period of tender offer expires, and of the possibility of punishment and sanctions under the applicable laws and regulations for any violation thereof.
3. The Tender Offer is led by SFG and any related decisions were made under the leadership of the responsible and related officers and employees.

**XIV. Future Plans Regarding Target Company After the Tender Offer**

SFG, the Tender Offeror, has incorporated securities, credit card, invest trust, capital, insurance and other companies as its subsidiaries to equip itself to become a total financial group covering all financial sectors. Cross-sale of various funds and FNA securities savings deposits among its subsidiaries is in full swing, and SFG is concentrating on developing mixed or linked products involving insurance and credit card. The recent completion of the group-wide database has speeded up database-based marketing activities.

Following the Tender Offer and the subsequent all-inclusive stock swap, LG Card will become a wholly owned subsidiary of SFG and Shinhan Card will be incorporated through the proposed business transfer into the largest single credit card company in Korea. In this regard, each SFG and LG Card decided by BOD resolutions on May 28, 2007 to effect the stock swap and the business transfer to LG Card, each of which is now being undertaken.

In parallel with the plans to strengthen LG Card's competitiveness through the stock swap and the business transfer, SFG plans to combine LG Card's strength with SFG's outstanding management systems, including refined risk management and customer analysis systems. These efforts will increase LG Card's own income generating capability and maximize synergy through mutually linked sales activities between LG Card and banking, securities, insurance and other existing subsidiaries of SFG based on LG Card's customer base (e.g. the sale to LG Card's customers of products of the existing subsidiaries and the sale to the existing subsidiaries' customers of LG Card's products). As explained above, Tender Offeror will enhance LG Card's competitiveness and, by integrating LG Card into SFG, improve the non-banking sectors within SFG so that, at the end, SFG and LG Card can become the leader in the Korean financial market.
