Item 8.01. Other Events.

On February 15, 2005, Itron, Inc. announced preliminary financial results for the fourth quarter and year ending December 31, 2004. On March 11, 2005, Itron filed its Annual Report on Form 10-K, which included final financial results for the fourth quarter and year ending December 31, 2004.

The final results included a non-cash stock compensation adjustment as well as certain financial statement reclassification adjustments that were not included in the preliminary results. The non-cash stock compensation adjustment related to the Company's employee stock purchase plan resulted in an increase of \$227,000 to the previously reported GAAP loss before tax for the fourth quarter and full year of 2004. The balance sheet reclassification adjustments did not affect total assets, total liabilities or total shareholders' equity. However, we did reclassify an additional \$17 million of our bank debt from long-term to short-term. In addition, cash flow from operations was approximately \$1 million higher for the fourth quarter and full year 2004 than previously reported.

Attached as exhibits are schedules that reconcile GAAP net income (loss) with pro forma net income, EBITDA and pro forma EBITDA.
