### Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business which are based on management's current expectations, estimates and projections about future events and financial trends which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expressions identify forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could cause actual results to differ materially include, among others, changes in regional, national and international commercial and economic conditions; inflation rates, increases in customer default and any other delays in credit operations; increases in the allowance for loan loss; loss of funding capacity; loss of clientele or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, have an adverse effect on our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place undue reliance on these forward-looking statements. In all cases, these forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

Analysis of the Statement of Income - In millions of reais

**Income from Credit and Leasing Operations**

Twelve-month Period			2003		
2002	2003	% Variation	3rd Qtr.	4th Qtr.	% Variation
16,121	12,590	(21.9)	3,587	3,244	(9.6)

This decrease mainly reflects: (i) negative exchange variation of 18.2% for the year (2003) against positive exchange variation of 52.3% in 2002, impacting U.S. dollar-indexed operations, partially mitigated by (ii) the increase in average interest rates in 2003.

The decrease was due in part to: (i) negative exchange variation of 1.2% for 4Q03, against positive exchange variation of 1.8% in 3Q03, impacting U.S. dollar-indexed operations ; and (ii) decrease in average interest rates in 4Q03.

**Results of Securities (TVM) and Derivative Financial Instrument Operations**

Twelve-month Period		
2002	2003	% Variation
7,455	7,384	(1.0)

This variation for the year was due in part to: (i) negative exchange variation of 18.2% in 2003, against positive exchange variation of 52.3% in 2002, impacting U.S. dollar-indexed or dollar-denominated securities, partially offset by: (ii) income on securities as a result of market recovery and gains on treasury operations - R\$ 699; (iii) the increase in average interest rates and increase in average volume in 2003; and (iv) income determined on the sale of shares of Latasa - R\$ 195.

2003		
3rd Qtr.	4th Qtr.	% Variation
2,345	2,240	(4.5)

The variation for the period mainly reflects: (i) the decrease in average interest rates in 4Q03; (ii) negative exchange variation of 1.2% for 4Q03, against positive exchange variation of 1.8% in 3Q03; and (iii) positive results determined on the sale of shares of Latasa - R\$ 195, in 4Q03.

**Financial Income on Insurance, Private Pension Plans and Savings Bonds**

Twelve-month Period		
2002	2003	% Variation
3,272	5,360	63.8

The increase for the year reflects: (i) the growth in average volume of securities subject to technical reserves, especially VGBL and PGBL products; and (ii) the increase in average interest rates in 2003.

2003		
3rd Qtr.	4th Qtr.	% Variation
1,335	1,412	5.8

The increase reflects mainly the growth in average volume of securities subject to technical reserves, in particular the VGBL product.

**Results of Foreign Exchange Transactions**

Twelve-month Period		
2002	2003	% Variation
4,457	797	(82.1)

This account should be analyzed net of foreign funding expenses used to finance import/export operations, as described in Note 13a to the financial statements. Net of these deductions, results would total R\$ 386 for 2002 and R\$ 325 for 2003, affected by (i) negative exchange variation for the year partially offset by (ii) the increase in the average volume of the fx portfolio.

2003		
3rd Qtr.	4th Qtr.	% Variation
275	254	(7.6)

This account should be analyzed net of foreign funding expenses used to finance import/export operations. Net of these deductions, results would total R\$ 61 for 3Q03 and R\$ 130 for 4Q03, affected by the increase in the average volume of the fx portfolio in 4Q03.

**Results of Compulsory Deposits**

Twelve-month Period		
---------------------	--	--

2003		
------	--	--

Edgar Filing: BANK BRADESCO - Form 6-K

2002	2003	% Variation
595	1,386	132.9

This variation was mainly due to: (i) the creation of an additional rate of 8% for demand and time deposits and of 10% for savings account deposits, both remunerated based on the SELIC rate from 3Q02; (ii) the increase in the TR reference rate used to remunerate savings account deposits, from 2.5% in 2002 to 4.6% in 2003; and (iii) the increase in the volume of deposits.

3rd Qtr.	4th Qtr.	% Variation
366	289	(21.0)

The decrease reflects the drop from 5.6% in 3Q03 to 4.4% in 4Q03 in the SELIC rate, used to remunerate the additional compulsory deposit on deposits.

**Interest and Charges on Deposits**

Twelve-month Period		
2002	2003	% Variation
10,993	10,536	(4.2)

This decrease reflects, for the most part, negative exchange variation of 18.2% in 2003 against positive exchange variation of 52.3% in 2002, particularly impacting securities issued abroad, offset by the increase in average interest rates, especially TR and CDI used to adjust savings deposits and time deposits, respectively.

2003		
3rd Qtr.	4th Qtr.	% Variation
3,434	2,605	(24.1)

The variation was due substantially to less expense for: (i) time deposits - R\$ 331; (ii) funding abroad - R\$ 334; (iii) purchase and sale commitments - R\$ 106; and (iv) savings deposits - R\$ 104, mainly as a result of lower interest rates in 4Q03, such as: TR - 1.3% and 0.7%; CDI - 5.6% and 4.4%; and USD - 1.8% and (1.2%) in 3Q03 and 4Q03, respectively.

**Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds**

Twelve-month Period		
2002	2003	% Variation
2,241	3,120	39.2

The increase for the year reflects: (i) the growth in the volume of technical reserves, particularly in VGBL and PBGL products; and (ii) the increase in the average interest rates of assets subject to technical reserves, reflected accordingly.

2003		
3rd Qtr.	4th Qtr.	% Variation
761	701	(7.9)

This decrease reflects mainly the fall in average interest rates in 4Q03.

**Expenses for Borrowings and Onlendings**

Twelve-month Period		
2002	2003	% Variation
7,194	1,083	(84.9)

2003		
3rd Qtr.	4th Qtr.	% Variation
555	490	(11.7)

Edgar Filing: BANK BRADESCO - Form 6-K

The decrease is directly related to negative exchange variation of 18.2% in 2003, against positive exchange variation of 52.3% in 2002, mainly impacting foreign borrowings and onlendings.

The decrease mainly reflects negative exchange variation of 1.2% in 4Q03, against positive exchange variation of 1.8% in 3Q03, mostly affecting transactions with foreign borrowings and onlendings and the maturity of a portion of the transactions indexed or denominated in foreign currency.

**Financial Margin**

Twelve-month Period		
2002	2003	% Variation
11,472	12,778	11.4

Margin growth was due mainly to: (i) increased average volume and the impact of average interest rates - R\$ 468; (ii) income on securities as a result of market recovery and gains on treasury transactions - R\$ 699; and (iii) income determined on the sale of shares of Latasa - R\$ 195.

2003		
3 rd Qtr.	4th Qtr.	% Variation
3,158	3,643	15.4

Margin increase was due for the most part to: (i) increased average volume and the impact of average interest rates - R\$ 180; (ii) income on securities as a result of market recovery and gains on treasury transactions - R\$ 93; (iii) income determined on the sale of shares of Latasa - R\$ 195.

**Expenses for Provision for Loan Losses**

Twelve-month Period		
2002	2003	% Variation
2,819	2,450	(13.1)

Excluding the additional provisions of R\$ 272 and R\$ 354, recorded for 2002 and for 2003, respectively, the decrease of R\$ 451 in this expense reflects the Bank's continually improving selective credit granting policy, resulting from the ongoing enhancement of its credit rating instruments.

2003		
3rd Qtr.	4th Qtr.	% Variation
603	452	(25.0)

Excluding the additional provisions of R\$ 5 and R\$ 37, recorded for 3Q03 and for 4Q03, respectively, the decrease of R\$ 183 in this expense reflects the Bank's continually improving selective credit granting policy, resulting from the ongoing enhancement of its credit rating instruments.

**Income on Commissions and Fees**

Twelve-month Period		
2002	2003	% Variation
3,712	4,557	22.8

This growth reflects increases in transactions and number of customers and improved collection of bank charges: (i) checking accounts - R\$ 198, principally maintenance charges; (ii) cards -

2003		
3rd Qtr.	4th Qtr.	% Variation
1,182	1,275	7.9

Revenue growth reflects increases in transactions and number of customers and improved collection of bank charges: (i) fund management - R\$ 27; (ii) checking accounts - R\$ 24; (iii) cards -

Edgar Filing: BANK BRADESCO - Form 6-K

R\$ 176; (iii) credit operations - R\$158, mainly from contracting and opening of credit; (iv) managed funds R\$ 132; and (v) consolidation of BBV Banco - R\$ 91.

R\$ 17; (iv) credit operations - R\$ 11; and (v) consortium - R\$ 6.

**Income from Insurance Premiums, Private Pension Plans and Savings Bonds**

Twelve-month Period		
2002	2003	% Variation
10,135	12,495	23.3

The variation for the year is detailed below:

**a) Insurance Premiums Retained**

Twelve-month Period		
2002	2003	% Variation
4,914	5,686	15.7

This variation was mainly derived from increases in the sales of Auto and Health products.

**b) Private Pension Plan Contributions**

Twelve-month Period		
2002	2003	% Variation
4,201	5,653	34.6

This variation in revenue was mainly derived from increases in the sales of VGBL and PGBL products.

**c) Income on Savings Bonds**

Twelve-month Period		
2002	2003	% Variation

2003		
3rd Qtr.	4th Qtr.	% Variation
3,119	3,697	18.5

The variation for the quarter is detailed below:

2003		
3rd Qtr.	4th Qtr.	% Variation
1,472	1,505	2.2

The variation was mainly due to increases in the sales of Life products.

2003		
3rd Qtr.	4th Qtr.	% Variation
1,355	1,878	38.6

The variation in revenue was substantially derived from an increase in the sales of VGBL, especially for 4Q03.

**Insurance Claims**

Twelve-month Period		
2002	2003	% Variation
(3,615)	(4,321)	19.5

The increase in expense with claims was due to: (i) increased Auto and Health line indemnities; and (ii) the change in methodology for calculating the provision for claims incurred but not reported (IBNR) in the Health line, in compliance with ANS legislation.

2003		
3rd Qtr.	4th Qtr.	% Variation
(1,111)	(1,139)	2.5

The increase in claims reflects mainly the increase in indemnities in the Auto and Life lines.

**Savings Bond Redemptions**

### Financial Market Indicators

#### Analysis of Financial Margin

Bradesco's consolidated financial margin (before PDD) totaled R\$ 12,778 million for 2003, an 11.4% increase as compared to R\$ 11,472 million for 2002.

The financial margin for the fourth quarter of 2003 (4Q03) totaled R\$ 3,643 million compared to R\$ 3,158 million for 3Q03 and R\$ 2,941 million for 4Q02, ie, an increase of 15.4% and 23.9%, respectively.

We present below the main factors responsible for the growth in financial margin:

- Average balance of technical reserves for insurance, private pension plans and savings bonds was up from R\$ 15,869 million in 2002 to R\$ 22,762 million in 2003, a growth rate of 43.4%. At the end of December 2003, the balance of these reserves was R\$ 26,409 million. For the most part, these are medium and long-term funds providing Bradesco with a stable base of resources.
- Total deposits grew by 13.7%, comparing average balances in 2003 to 2002, in particular, demand deposits (up by 17.6%) and savings deposits (up by 8.7%). This growth was the result of Bradesco's successful efforts to secure new customers, an increase of 11.3% between 2002 and 2003, as well as the creation of a number of different business lines, forming a wide range of products, services and customer service channels designed to meet the demands of our customers. For example, we highlight the acquisition of BBV Banco, the creation of the consortium purchase system Bradesco Consórcios, the post-office bank Banco Postal, Finasa Promotora and conclusion of the customer segmentation process, among others.
- Credit operations, leasing operations and advances on foreign exchange contracts grew by 3.6% comparing average balances in 2002 and 2003. In 4Q03, the average balance of these operations totaled R\$ 52,786 million, a 1.3% increase over 3Q03 and a 2.5% increase over the same quarter in 2002. We stress that a portion of these operations is subject to exchange variation and accordingly, following an 18.2% strengthening of the real this year, dollar-indexed credit operations suffered a negative impact.
- The excellent positioning of Bradesco's securities and derivatives portfolios was also responsible for the increase in financial margin, since in 2003 the markets recovered with a positive effect on results of security transactions.

Financial margin on total average assets in 4Q03 was 8.8% compared to 8.2% in 3Q03, up by 0.6 percentage points.

Comparing 2003 to 2002, the financial margin rates on average total assets were 8.2% and 9.0% respectively. However, the 2002 financial margin was affected by the significant exchange variation recorded in that year which totaled 52.3%. Adopting a conservative approach, Bradesco recorded an additional provision for market fluctuation and risk, recognized in other operating expenses in 2002 and reversed to other operating income in 2003.

Accordingly, adjusting this provision, the financial margin on total assets in 2002 would be 8.3% compared to 8.5% in 2003.

Banco Bradesco's principal activity which is to finance production and consumption was not favorable in 2003, as a result of the macroeconomic scenario, affected in particular by minimal GDP growth, which had a negative impact on

the demand for new credit. This is further confirmed by comparing the growth of the Bank's share of credit and leasing operations and advances on foreign exchange contracts (ACC) with the average balance of total assets. While this share was 38.9% in 2002, these operations correspond to 32.8% in 2003.

## Human Resources

At December 31, 2003, Bradesco's employees, including staff at the subsidiaries, totaled 75,781. The increase compared with December 2002 was generated mainly by the acquisition of BBV Banco in June 2003. Mercantil and BBV Banco employees are incorporated into Bradesco's December 2003 headcount. The following table presents the growth in the number of Bradesco employees:

**Personnel Expenses**

At December 31, 2003, Bradesco's accumulated personnel expenses totaled R\$ 4.8 billion, including expenses for remuneration, social charges, benefits, training, employee profit sharing, bonus (single payment) and others.

Benefits offered by Bradesco to its employees include health insurance and dental care, as well as a supplementary retirement pension plan.

The following pie graph presents the percentage share of each item in relation to total Bradesco personnel expenditure:

#### **Training**

Bradesco's staff training activities are tuned to its organizational strategies, to the ongoing improvement of its customer service quality and to its capacity to produce results and are developed by its Training Department, which is ISO 9001:2000 certified.

Accordingly, the Training Program uses tailor-made methodologies, offering in-class or distance self-development training courses/initiatives to all of its staff, designed to meet both their professional and personal development needs.

The most innovative of these training methodologies, permitting the rapid inclusion of a considerable number of employees, is the 'TreiNet', online training program which was used for the period from January to December 2003 by 209,494 participants for courses in Integration and Basic Banking, Financial Math, Business Accounting and Balance Sheet Analysis, Financial Market and Investments, Loans and Financing, Business Support Platforms, Convenience Services, Internal Control Systems, Savings Bonds, Vida e Previdência pension plans, Cashier Training, Written Communication and Performance Management and Decision-making Support (GDAD), Auto-line Insurance and Money Laundering Prevention.

Through the important partnerships entered into with Consulting Firms, Universities and Business Schools, such as USP, FGV and IBMEC, the Bank qualifies its professional staff to operate in the Organization's diverse specialist segments, such as Bradesco Empresas (Middle Market), Corporate Banking, Private Banking, Prime and Consortium.

The specialization courses offered at post-graduate level should be given particular emphasis. Three groups have now concluded their studies in Business Process Management, Foreign Trade and International Operations and Banking Business and another two groups are taking the Banking Business course. These courses are given by the prestigious FIA, FIPE and FGV universities.

Bradesco's compliance culture was also strengthened through distance learning courses, via manuals and TreiNet programs available to all the Organization's employees.

During the year, staff from the Mercantil and BBV banks were incorporated by Bradesco which required the organization of training courses on products, services, operating systems and customer service for 9,783 participants.

During the period from January to December of 2003, 1,268 courses were given, in 15,240 groups, with 414,314 employee participations and a total of 7,150,310 hours spent in training, as well as investments of R\$ 61.2 million.

<b>Operating Efficiency Ratio (%)</b>						

The operating efficiency ratio remained stable compared to the prior year, confirming the Organization's successful efforts to control expenses. We stress that the synergy process relating to the Institutions acquired in recent years is still in progress.

#### Activity-Based Costing

As part of the Organization's ongoing pursuit to optimize its results and performance, our cost management model will be supported by Activity-Based Costing (ABC) methodology which has already provided, among others, support for studies relating to the formation and negotiation of banking charges, costing information for performance and decision-making support management and for customer profitability purposes, and for the formation of a database for analyses regarding the unification and rationalization of the Bank's different units.

The Organization is currently implementing ABM (Activity-Based Management) methodology which will rapidly lead to cost prevention practices and a pro-active approach as regards the identification of opportunities. Thus, at the same time as we improve our processes, we are also able to seamlessly integrate operating performance with strategic objectives, in the pursuit to create and/or sustain competitive advantages and value for both our customers and stockholders.

Accordingly, the future mission of the activity-based management model is to provide ongoing support for planning and controlling the Bank's business processes and to promote the permanent improvement of operating and tactical issues and to provide a firm basis for their strategic gearing.

**Interbank and Interdepartmental Accounts**

December		
2002	2003	% Variation
13,135	14,528	10.6

The variation reflects substantially the increase in compulsory Brazilian Central Bank (BACEN) deposits, as a result of the increase in the average volume of deposits for the year.

2003		
September	December	% Variation
13,253	14,528	9.6

The variation reflects mainly the increase in compulsory BACEN deposits, as a result of the increase in the average volume of deposits for the quarter.

**Credit and Leasing Operations**

December		
2002	2003	% Variation
50,801	54,336	7.0

The variation in the credit portfolio for the year reflects mainly: (i) consolidation of BBV Banco - R\$ 3,985; influenced by (ii) negative exchange variation of 18.2%, in 2003, affecting foreign currency indexed or denominated contracts; and (iii) less credit demand during the year, as a result of the level of economic activity in Brazil, as well as greater credit granting selectivity.

N.B. Includes advances on foreign exchange contracts and other receivables and does not include the allowance for loan losses, as described in Note 12 to the financial statements.

2003		
September	December	% Variation
52,776	54,336	3.0

The variation in the credit portfolio for the quarter reflects the seasonal increase in demand and signs of the return to growth of economic activity following consecutive interest rate cuts.

N.B. Includes advances on foreign exchange contracts and other receivables and does not include the allowance for loan losses.

**Allowance for Loan Losses (PDD)**

December		
2002	2003	% Variation
3,665	4,059	10.8

2003		
September	December	% Variation
4,151	4,059	(2.2)

Edgar Filing: BANK BRADESCO - Form 6-K

In 2003 this account includes: (i) allowance for loan losses (PDD) - R\$ 2,449 (R\$ 354 of excess provision); (ii) balances incorporated from BBV Banco - R\$ 171; and (iii) amounts written off - R\$ 2,226, as described in Note 12g to the financial statements. Total PDD on credit operations increased from 7.2% in 2002 to 7.5% in 2003. The total allowance on the abnormal course credit portfolio, rated from D to H, increased from 137.0% in 2002 to 154.2% in 2003.

Total PDD decreased from 7.9% in 3Q03 to 7.5% in 4Q03, as a result of amounts written off - R\$ 543 in excess of amounts recorded - R\$ 451. On the other hand, the total allowance on the abnormal course credit portfolio, rated from D to H, increased from 142.1% in 3Q03 to 154.2% in 4Q03.

**Other Receivables and Assets**

December		
2002	2003	% Variation
21,250	24,543	15.5

The variation is mainly due to: (i) increase in the volume of the fx portfolio; and (ii) consolidation of BBV Banco.  
N.B. This total is less (net of corresponding PDD) an amount of R\$ 518 in 2002 and R\$ 625 in 2003, allocated to the Credit and leasing operations and Allowance for loan losses accounts.

2003		
September	December	% Variation
24,886	24,543	(1.4)

The variation is mostly due to negative exchange variation for 4Q03 affecting the fx portfolio balance.  
N.B. This total is less (net of corresponding PDD) of an amount of R\$ 595 in 3Q03 and of R\$ 625 in 4Q03, allocated to the Credit and leasing operations and Allowance for loan losses accounts.

**Permanent Assets**

December		
2002	2003	% Variation
5,483	4,956	(9.6)

The decrease for the year was mainly generated by: (i) sale of branches by auction; (ii) amortization of goodwill in subsidiary companies, net of acquisitions - R\$ 727; and partially offset by (iii) consolidation of BBV Banco.

2003		
September	December	% Variation
5,069	4,956	(2.2)

The decrease for the quarter was mainly due to: (i) sale of branches by auction; (ii) amortization of goodwill in subsidiary companies - R\$ 181; (iii) non-consolidation of permanent assets of Latasa - R\$ 306, following its sale; (iv) transfer of the investment in Banco Espirito Santo (BES) from current to permanent assets - R\$ 365.

**Deposits**

December		
2002	2003	% Variation
56,363	58,024	2.9

The increase in this account balance for the year reflects mainly: (i) growth in the volume savings account deposits; and (ii) consolidation of BBV Banco.

2003		
September	December	% Variation
58,337	58,024	(0.5)

The variation in this balance for the quarter was mainly due to: (i) decreased volume of time deposits - R\$ 2,846; partially offset by (ii) an increase in the volume of demand - R\$ 1,669 and savings deposits - R\$ 1,243.

**Deposits Received Under Security Repurchase Agreements**

December		
2002	2003	% Variation
16,013	32,793	104.8

The growth in this account balance for the year was due to greater demand for this type of funding, reflecting the interest for investments in assets with greater liquidity.

N.B. Includes investment fund and managed portfolio resources invested in purchase and sale commitments with Banco Bradesco, the investors in which are subsidiary companies included in the consolidated financial statements in the amount of R\$ 9,431 (2002) and R\$ 11,512 (2003).

2003		
September	December	% Variation
23,069	32,793	42.2

The increase in this balance for the quarter was the result of greater demand for this type of funding, reflecting interest for asset investments with greater liquidity.

N.B. Includes investment fund and managed portfolio resources invested in purchase and sale commitments with Banco Bradesco, the investors in which are subsidiary companies included in the consolidated financial statements in the amount of R\$ 10,508 (September) and R\$ 11,512 (December).

**Funds from Acceptance and Issuance of Securities**

December		
2002	2003	% Variation
3,137	6,847	118.3

This increase mainly reflects: (i) new securities issued abroad (securitization of the future flows of payment orders and credit card bills), net of payments; (ii) as well as the consolidation of BBV Banco; partially offset by: (iii) negative exchange variation of 18.2% in 2003.

2003		
September	December	% Variation
7,905	6,847	(13.4)

This variation reflects for the most part: (i) redemption of securities issued abroad (eurobonds and euronotes) matured in the fourth quarter; and to a lesser extent; (ii) negative exchange variation for the quarter.

**Interbank and Interdepartmental Accounts**

December		
2002	2003	% Variation
1,944	2,311	18.9

This growth is derived in particular from the increase in the volume of collection and money orders in 2003, following the increase in the number of customers and in the customer service network.

2003		
September	December	% Variation
1,474	2,311	56.8

The increase is mainly due to the increase in the volume of collection and money orders in 4Q03.

**Borrowings and Onlendings**

December

------	--	--

Edgar Filing: BANK BRADESCO - Form 6-K

2002	2003	% Variation
16,438	14,795	(10.0)

The decrease for the year was mainly generated by: (i) negative exchange variation of 18.2% in 2003; and (ii) the settlement of a portion of transactions indexed and/or denominated in foreign currency.

**Other Liabilities and Derivative Financial Instruments**

December		
2002	2003	% Variation
24,083	27,410	13.8

The oscillation for the year was due mainly to: (i) issuance of subordinated debt in foreign currency; (ii) consolidation of BBV Banco; and was partially offset by (iii) negative exchange variation of 18.2% in 2003.

N.B. Excludes advances on foreign exchange contracts of R\$ 5,481 and R\$ 6,183, allocated to the specific account in credit operations in 2002 and 2003, respectively.

**Technical Reserves for Insurance, Private Pension Plans and Savings Bonds**

December		
2002	2003	% Variation
19,155	26,409	37.9

The variation for the year was principally derived from an ongoing strengthening of reserves resulting from the increased sales of private pension plans and insurance policies, in particular, VGBL and PGBL products.

**Minority Interest in Subsidiaries**

December		
2002	2003	% Variation
271	113	(58.3)

September	December	% Variation
15,186	14,795	(2.6)

This oscillation reflects, for the most part, the settlement of a portion of overdue transactions indexed and/or denominated in foreign currency.

2003		
September	December	% Variation
26,991	27,410	1.6

The oscillation for the quarter results mainly from funds obtained from abroad, through the issuance of subordinated debt.

N.B. Excludes advances on foreign exchange contracts of R\$ 6,168 and R\$ 6,183, allocated to the specific account in credit operations in 3Q03 and 4Q03, respectively.

The variation for the quarter mainly reflects the ongoing strengthening of reserves following increased sales of private pension plans and insurance policies, in particular, VGBL products.

2003		
September	December	% Variation
111	113	1.8

Edgar Filing: BANK BRADESCO - Form 6-K

The decrease for the year was mainly due to the incorporation of all the minority stockholders of Banco Mercantil.

This increase was derived mainly from minority interest in results determined for 4Q03.

**Stockholders Equity**

December		
2002	2003	% Variation
10,846	13,547	24.9

2003		
September	December	% Variation
12,967	13,547	4.5

This variation reflects: (i) capital increase - R\$ 1,290; (ii) appropriation of net income for the year - R\$ 2,306; (iii) mark-to-market adjustment of securities and derivatives - R\$ 470; offset by: (iv) interest attributed to own capital, paid and accrued - R\$ 1,347, and (v) others - R\$ 19.

The variation reflects: (i) appropriation of net income for 4Q03 - R\$ 715; (ii) increase in the reserve for mark-to-market adjustment of securities and derivatives - R\$ 238; and was offset by: (iii) interest attributed to own capital, paid and accrued - R\$ 347; and (iv) others - R\$ 26.

## Edgar Filing: BANK BRADESCO - Form 6-K

At the end of 2003, 99.7% of the credit portfolio was directed to the private sector, with no significant movement compared with the prior quarter. By economic activity sector, manufacturing maintained the majority of credit volume, with a 33.7% share of total operations, particularly food and beverage, steel, metal products and mechanics. Credits directed to the service sector, including financial intermediaries, comprised 22.2%, whereas commerce and farming/livestock activities recorded a 13.6% and 1.4% portfolio share, respectively. Loans to consumers comprised 28.8% of the portfolio.

### Portfolio Performance

Despite the initial signs of a return to growth registered in the final quarter, following the consecutive interest rate cuts and seasonal increase in demand, the overall credit portfolio performance for 2003 was substantially impacted by the shrinking salary mass and low levels of economic activity, which affected the level of consumption and the volume of new investments, reflected in the country's sluggish GDP.

As a result, the volume of Bradesco's consolidated credit portfolio in December totaled R\$ 54.3 billion, corresponding to an increase of 3.0%, as compared to September, or 7.0% when analyzed in relation to the prior 12 months.

Projections for 2004 point towards increased credit demand growth, based on the resumption of economic activity and private sector investments on a more consistent basis, and assuming that the favorable economic panorama and flexible monetary policy will be maintained, as well as the recently approved methods for stimulating consumer credit through loan repayments discounted directly from payroll.

### Composition of the Credit Portfolio by Risk Levels

The classification and quality of the credit portfolio by risk level, at the end of the year, improved in comparison with the third quarter. The operations concentrated from levels AA to C, classified by BACEN as normal course operations, totaled 91.2% of the accumulated balance. 2.8% of operations were classified at risk administration level D and will remain so until this risk is reduced or guarantees with greater liquidity are obtained. Only 6.0% were considered to be abnormal course operations, subject to partial loss after the application of customary recovery procedures. The maintenance of these rates reflects the Bank's permanent use of credit assessment and monitoring instruments.

- (1) On total portfolio.  
 (2) For operations with installments overdue by more than 14 days.  
 (3) Recorded based on the customer/transaction classification.  
 (4) The additional provision is recorded based on management's experience and expected collection of the credit portfolio to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2682. The additional provision per customer was classified in the above table according to the corresponding risk levels.

The volume of the allowance for loan losses in December 2003 totaled R\$ 4,059 million, corresponding to 7.5% of total credit operations. However, of this amount, only 44.7% effectively comprises overdue operations (past due and falling due) compared to 46.7% in September and the remaining portion is recorded as a precaution only, based on the customers' internal classification or to cover specific and general portfolio risks.

### Movement of the Portfolio between December 2002 and December 2003 - In Millions of reais

The performance of the consolidated credit portfolio over the prior twelve months up to December 2003, despite the low level of economic activity, evidences the maintenance of the quality of the assets, in particular as a result of new borrowers, corresponding to an increase of 23.7%, compared to the balance of the credit portfolio up to December 2002.

#### Portfolio Movement between December 2002 and December 2003

#### Risk Management

##### Activities and Structure

At Bradesco, risk management is seen as a competitive advantage, adding value to the Bradesco name and at the same time supporting the diverse business areas, facilitating a stable environment and ensuring that resources yield maximum benefits and that capital is allocated to the benefit of stockholders and society as a whole.

Bradesco adopts an ongoing strategy designed to enhance its risk management activities, in the pursuit to keep abreast of the best market practices adopted worldwide. These activities have become increasingly important not only as a result of the global economy, but also on account of the complex nature of the products and services offered to the community.

The independence of the risk management area is essential for achieving the successful management of market, liquidity, credit and operating risks. This activity together with others including money-laundering prevention, internal controls and compliance are managed by the Risk Management and Compliance Department, under the direct control of the Statutory Department Director, who in turn is subordinated to an Executive Director, reporting directly to the Institution's President:

This organizational structure is designed not only to guarantee area independence but also to place greater focus on these important value-added activities, confirming the Organization's commitment to the implementation of best corporate governance practices, using every available resource, whether human, technical or financial, to ensure that this area meets the conditions required to manage risk across the Group. In particular, because Bradesco is now extending its risk analysis strategy to encompass not only its banking business but also its associated companies, including Bradesco Vida e Previdência (private pensions), Bradesco Saúde (healthcare insurance), Bradesco Seguros (insurance), BRAM (asset management) and Bradesco Capitalização (savings bonds) as regards actuarial and market risks, consolidating its risk management culture on an Organization-wide basis.

The Risk Management and Compliance Department is also responsible for coordinating compliance with the regulations determined by the Brazilian Central Bank, particularly those relating to the New Capital Accord (Basel II) to be published in the near future by the Basel Committee.

Within this context, Bradesco is proud to inform that it was rated Best Bank for Risk Management in the Treasury area (Latin America 2003), by Global Finance magazine.

##### Credit Risk Management

As part of its credit risk management enhancement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, develop new loss calculation models, enhance and prepare rating inventories used in the various sectors in which the Bank operates, oversee credit analysis, granting and settlement processes, monitor credit concentration and to define the dividing line between operating risks and credit risks.

As part of this ongoing enhancement process, additional efforts are being made to prepare the Bank for the introduction of more advanced risk management techniques, based on the recommendations of the New Capital Accord to be introduced by the Basel Committee, among which we highlight the following:

- Structuring of the expected loss calculation system in line with Basel II requirements.
- Identification of the reporting process changes required to improve decision making and credit portfolio management.
- Redevelopment and specification of the management information structure. (MIS to Gestão ).
- Mapping, evaluation and identification of credit risk management capacity gaps, as regards Basel II requirements, recommending roles and responsibilities, professional qualification, review of the organizational structure and IT demands.

### Credit Policy

Designed to ensure maximum security, quality and liquidity in the investment of assets, minimizing risks inherent to all types of credit operation, the Organization's Credit Policy also seeks to offer agile and profitable business, applying appropriate methodology for each of the Bank's business segments, as well as directing the establishment of operating limits and the granting of credit.

Credit is granted based on a highly automated and efficient approvals system, supported by assessment policies which are geared by constantly improving technical parameters designed to ensure proper support for credit decisions.

As part of this system, the Branches operate within varying limits depending on the size and type of guarantee offered, while specialized credit scoring systems maximize the speed and security of the approvals process, based on strict protection standards.

The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, dispersed and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

### Market Segmentation

Bradesco operates on a segmented service basis, seeking to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco's structure permits the grouping together of customers with similar profiles facilitating superior quality customer service, extending business opportunities with a greater focus on relationship actions.

Major corporations with annual billings in excess of R\$ 180 million are served since June 1999 by Bradesco Corporate Banking which provides a range of sophisticated financial solutions, enhancing its service structure through the use of the Asian and Euro Desks, focused on prospecting new business in these regions.

Middle market companies, with annual billings from R\$ 15 million to R\$ 180 million, are served by Bradesco Empresas which came into operation in January 2002 designed to offer a differentiated service in exclusive VIP areas, tailored to the specific needs of this type of customer, who in general prefer the use of alternative channels such as the telephone, ATMs and the Internet, instruments in which Bradesco technology is outstanding.

## Edgar Filing: BANK BRADESCO - Form 6-K

In the consumer customer area, the first step in terms of customer segmentation was taken via Bradesco Private Banking, focused on the personalized management of high-income customer accounts with funds available for investment in excess of R\$ 1 million, which commenced operations in November 2000.

In May 2003, following the incorporation of Banco Mercantil de São Paulo, the Bradesco Prime service was launched targeting consumer customers with monthly incomes of more than R\$ 4 thousand or investments in excess of R\$ 50 thousand. Through exclusive branches, or specifically reserved areas in traditional branches, this public receives a high standard of personalized customer service with a wide range of products and services, including diverse credit lines, insurance policies and private pension plans.

Other customers are classified on a retail basis as companies or consumers. Bradesco's activities in this segment were strengthened through the partnership entered into last year with the Brazilian Postal and Telegraph Company - Correios for the purpose of creating Banco Postal, the post-office bank. Dedicated to extending banking service access to low-income bracket consumers, particularly those who live in the country's remote interior regions, Bradesco is now present in all of Brazil's states.

### Methodology used for Credit Portfolio classification

In addition to supporting the establishment of minimum parameters for granting credit and managing risk, the credit risk scoring system established by the Brazilian Central Bank also facilitates the definition of differentiated credit policies based on the customer's specific characteristics and size, providing a basis for the correct pricing of operations and for establishing the most appropriate guarantees for each situation.

In accordance with internal policy, Bradesco customer risk ratings are established on a corporate basis and are permanently reviewed to maintain the quality of the credit portfolio. These ratings are segmented as follows:

### Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. This risk is monitored on a strict basis by the financial market to avoid losses for institutions.

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

## Edgar Filing: BANK BRADESCO - Form 6-K

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on statistical bases, whereas future prospects are calculated based on economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

We present below the VaR of the Own Portfolio positions (Treasury) :

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization's entire portfolio and of minimum capital requirements.

### Operating Risk Management

Operating risks are those inherent to activities which provide support for transactions in which the Organization participates and may occur as a result of the interruption of business, system failures, errors, omission, fraud or external events impacting the results of the Institution and of its customers.

Following recent guidelines issued by the Basel Committee, the Organization is working to adapt its processes to comply with possible future Central Bank demands, complementing its present capital management policies, based on an analysis of operating losses.

Operating risk is managed at Bradesco based on the dissemination of its culture, disclosure of its policies and development of own methodologies, models and tools designed to permit, among other factors, decreases in the cost of regulatory capital to be subscribed and at the same time increases in operating efficiency.

Bradesco, through its Operating Risk Management area, prepared a plan designed to achieve full compliance with the 10 principles of good operating-risk-management practice determined by the Basel Committee.

In line with the definition and development of the methodology and accounting and management criteria used for managing operating risk, the area is now implementing a specific Internal Management System for streamlining this information, designed to manage, enhance and increase the knowledge used to administrate operating loss events, facilitating an in-depth assessment, based on either management or accounting controls.

The cutting-edge nature of this internal operating risk management process can be regarded as a benchmark of Bradesco's important status within Brazil 's financial scenario, increasing its competitive edge as a result of greater operating efficiency and adding stockholder value, as well as extending its relationship of trust with customers, the market and regulatory bodies.

### Liquidity Risk Management

## Edgar Filing: BANK BRADESCO - Form 6-K

Liquidity risk management is designed to control the different mismatched liquidation terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

### Capital Risk Management

The Organization's capital is managed to optimize the risk to return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio ( Basel ).

### Internal Controls

The Organization has developed a number of systems, policies and internal controls over the years to mitigate possible potential losses generated by its exposure to risk.

Aware of the importance of these controls, Bradesco has developed and implemented certain tools designed to optimize these processes and procedures, among which we highlight the following:

- Implementation of an internal controls system (Compliance), based on the pillars defined by Basel and the methodology of the Committee of Sponsoring Organizations (COSO), mainly as regards components in the following areas: control environment, risk assessment, control activities, information, communications and monitoring, ensuring that activities, policies and normative instructions are in constant compliance with legal and regulatory standards.
- Implementation of a Brazilian Payments System (SPB) management process for the specific purpose of monitoring the flow of messages transmitted between the Organization's banks and the external entities such as the Brazilian Central Bank, Special Clearance and Custody System (SELIC), clearing houses and other financial institutions. This monitoring process is based on Organization information system tools and intense staff training activities to facilitate the identification and rectification of events in environments and systems and also to ensure that online cash transfers (TEDs) processed via SPB are properly validated. Complementing these monitoring activities, the Bank also adopts a Systems Contingency Plan for SPB to cover the main departments handling critical transactions, addressing pre-established scenarios and actions and reducing the possibility of messages not being correctly processed. This area is also responsible for the external contingency process with the Brazilian Central Bank.
- Ongoing improvement of technology tools and employee training, focused on the process used to monitor the financial activity of customers and designed to prevent money laundering and utilization of the Organization for processing illegal transactions.
- Dissemination of processes and procedures to guarantee information security, based on Corporate Information Security Policy and Standards, the guidelines of which establish premises for protecting the confidentiality, integrity and availability of information.

### **Banco Postal**

Bradesco uses the post office bank, Banco Postal, created in partnership with the Brazilian Postal and Telegraph Company (Correios) to offer its banking products and services nationwide in the majority of Brazilian town and cities.

The first Branch was opened in São Francisco de Paula, MG, on March 25, 2002. Three months later at the end of the first half, the post-office bank had 1,000 Branches which increased to 2,500 by December 2002. Branch # 3,000 was opened in September 2003 in Fernando de Noronha . At the end of 2003 there were 4,000 units in operation.

Banco Postal is now present throughout Brazil in the country's most remote cities, from Oiapoque in the North to Chuí in the South and from the island of Fernando de Noronha in the East to Santa Rosa do Purus, in the western region of the state of Acre .

Today, 1,164 towns and villages, with no previous bank access, can rely on the services offered by Banco Postal, which benefits a population of more than 11.3 million people. In the first half of 2004, a further 507 towns will be able to rely on the advantages brought by Banco Postal.

Banco Postal has an enormous social reach and is of particular importance for including low-income families in the financial system, especially retired people, who before the arrival of the post office bank had to travel long distances by boat or dirt track just to receive their monthly pension or to pay a bill, spending a large part of their income in the process.

At present, more than 1.2 million people, with no previous access to the financial system, are Banco Postal customers, increasing Bradesco's customer base. Of these, 84% are savings account holders with an average balance of R\$ 171.00. As account holders, they are able to increase the efficiency with which they manage their household budgets, since they are no longer obliged to withdraw the full amount of their salary or social security benefit. All post-office bank customers have debit cards which can be used nationwide and more than 15% also use check books.

Banco Postal is an important agent for extending credit to all income brackets and for implementing the federal government's social policies. More than 18% of post-office bank customers have been granted credit through 220 thousand contracts at an average amount of R\$ 400.00, in the case of consumer customers and R\$ 2,000.00 for corporate customers. Microcredit operations total 41 thousand contracts with more than R\$ 19 million loaned to low-income families in the average amount of R\$ 480.00.

In densely populated areas, Banco Postal also contributes by enhancing the customer service provided by the traditional Bradesco Branches, since a considerable number of the Bank's customers and other users are now able to use the post-office bank structure as an alternative service channel.

### Bradesco Internet Banking

Bradesco online services were created to facilitate the day-to-day life of its customers, offering access to the transactions available through the branch network from any point on the globe.

The internet is an important and profitable customer relationship channel, generating benefits for both customers and stockholders.

### ShopInvest Bradesco

In March 1999, Bradesco launched ShopInvest ( [www.shopinvest.com.br](http://www.shopinvest.com.br) ), the first Brazilian retail bank broker to operate in BOVESPA's online Home Broker service.

Through ShopInvest, investors can access a variety of different information and trade shares in BOVESPA, even if they are not Bradesco account holders. All of these services are provided free-of-charge and comply with the same rules applicable to bricks-and-mortar trading.

ShopInvest stands out for its wide range of investment options, available in nine Investment Rooms: Shares; Savings Bonds; CDB; Funds; Real Estate; BM&F; Savings Accounts; Vida e Previdência (Private Pension Plans) and Insurance.

### ShopCredit

In May 2001, Bradesco launched ShopCredit ( [www.shopcredit.com.br](http://www.shopcredit.com.br) ), the Bank's Financing and Loan website, which offers a complete portfolio of Bradesco's credit lines. The products are grouped together for purchase by consumer or corporate customers with full details on each option and visitors can use a simulator to calculate amounts and terms in the Personal Credit, Consumer Financing (CDC), Leasing, Housing Loans and Finame (Moderfrota, Prefixado and Proleite) modes. ShopCredit visitors can also request instant personal credit, quickly and securely.

### Bradesco Net Empresa

On September 18, 2001, Bradesco launched its new corporate banking website.

With Bradesco Net Empresa, companies gained a new ally for optimizing the financial management of their businesses. Through this website, companies can operate bank accounts, make payments and collections and perform other transactions online without having to visit a bricks-and-mortar branch.

### B2C (Business to Consumer)

Bradesco Electronic Trade was created in 1998 and soon became a successful hallmark. In the wake of this success, ShopFácil was launched in 2000, offering, among other services, Meios de Pagamento Eletrônico Bradesco (Bradesco Online Payment Methods) - the safest, most practical and economic way to shop online.

Bradesco is currently the only Bank in the world to date to receive ISO 9001:2000 certification for its Online Commercial Payment Methods.

Bradesco Electronic Payment Methods comprise: Electronic Wallet (Bradesco debit cards, PoupCard and Bradesco Visa and MasterCard Credit Cards), Pagamento Fácil (Easy Payment), Boletão Bancário (Online Dockets), Interaccount Transfers and Bradesco Online Credit.

### B2B (Business to Business)

In the B2B area, emphasis should be given to the business solutions offered by Bradesco comprising the following: a security and limits module, B2B payment methods, management tools (buyer, seller and bank) and a financial reconciliation module for the seller.

At present, the Bank offers the following B2B Payment Methods:

- Online Docket;
- Electronic Wallet (Credit Cards); and
- Financing lines.

### Credit Cards

The number of Bradesco credit cards increased by 14.8% in 2003 compared to the prior year, while the Visa and MasterCard market grew by some 3.5%. This growth rate expanded our market share from 14.8% in 2002 to 15.7% in 2003.

Year-end billings totaled R\$ 9.9 billion, a growth rate of 20.1% as compared to 2002, with a 14.1% increase in the number of transactions.

These results include the addition of 64.8 thousand credit cards to Bradesco's card base, following the incorporation of BBV Banco.

### Debit Cards (Electron)

The number of debit cards increased by 20.1% in 2003, compared to the prior year, confirming Bradesco's leadership of the Visa Electron market.

In terms of billings, there was a significant 55.3% increase in comparison with 2002. These two indicators demonstrate clearly that Brazilians are changing their payment habits, substituting checks and cash for the use of debit cards. The commercial establishments are our allies in this market, since debit cards are preferred for their guaranteed liquidity, security and easy operation.

### Acquiring Market

The network of commercial establishments in Brazil, accredited by the Visa system, is administered by Companhia Brasileira de Meios de Pagamentos - Visanet, in which Bradesco has a direct capital holding of 39.7%. In 2003, Visanet processed some R\$ 55.4 billion in transactions, including both credit and debit card billings, a 32.0% increase over 2002. At present, Visanet has 655 thousand associated establishments nationwide. The Visa network is preferred by customers precisely because of the card's wide market acceptance.

#### Bradesco Corporate Banking - Corporate

Bradesco Corporate Banking's specialized structures are designed to provide the best possible service to 1,198 Economic Groups comprising its target market, segmented as follows:

**Corporate** - The structure devised to conduct the Bank's relationship with Brazil's major corporations is growing and improving year by year. Every effort is made to ensure that the related-area professionals have a thorough working knowledge of the corresponding economic sectors and companies and as a result are able to offer complete solutions and genuine added value, developing solutions in the areas of cash management, private pension plans, asset management, overseas trade and risk management.

**Infrastructure** - This team is responsible for corporate relationships in the telecom, power, sanitation and transport sectors, focusing on the development of structured solutions designed to meet specific sector needs, including the structuring of long-term corporate finance and project finance, among other activities.

**Agribusiness** - This is a specialized structure formed to attend companies in this key economic segment, designed to provide product and service solutions in line with their specific corporate needs. As part of the Corporate Banking services, this area is able to operate throughout the production chain in the pursuit to implement feasible structured solutions.

**Asian Desk** - A partnership entered into with the UFJ Bank for the purpose of developing financial solutions, in the role of economic and financial advisor and main banker for companies interested in the commercial and financial flows between Brazil/Japan and Brazil/Asia.

**Euro Desk** - Following the conclusion of the acquisition of BBV Banco, the Euro Desk is now under implementation. Focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, fostering business synergies with BBVA in Europe, the U.S. and Latin America.

#### Bradesco Empresas (middle market)

Bradesco's middle market segment, Bradesco Empresas, was created in April 2002, designed to offer quality corporate customer service for companies all over Brazil.

This segment targets middle market companies with annual billings from R\$ 15 million to R\$ 180 million.

The Bank's traditional Branch customers who are compatible with this profile are invited to join the Bradesco Empresas segment.

The Bradesco Empresas service offers exclusively reserved Branches for its corporate customers in this segment, located in strategic areas.

By December 2003, this segment had 61 service outlets in the Southeast (42), South (16), Central West (2) and Northeast (1) regions with 9,418 customers from the different production chain sectors.

The personalized service offered by Bradesco Empresas prompted significant investments in this area, including specific training for our Relationship Managers and the restructuring of the IT structure, designed to provide added value and increase the Bank's share of this segment.

## Edgar Filing: BANK BRADESCO - Form 6-K

Since they are responsible for a maximum portfolio of 25 to 30 organizations, each Relationship Manager is able to focus on increasing business in the following areas: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Transactions.

The recent mergers of other financial institutions by Bradesco have had a positive effect, increasing the Bank's product portfolio and market share.

Following the opening of 5 new branches in January 2004, Bradesco Empresas will have a total of 66 Middle Market Branches.

### Bradesco Private Banking - Private

Through the deployment of a broad range of different ISO 9001:2000 certified products and services, comprising both local and foreign capital market investments, Bradesco Private Banking, offers a personalized service to high-income consumer customers, advising them on the best investment options and preferred portfolio focus, designed to maximize returns and achieve their objectives.

### Bradesco Prime

As part of the segmentation strategy implemented by the Organization in 1999, Bradesco Prime commenced activities on May 19, 2003 and now boasts a Network of 143 Branches distributed nationwide and which is expected to increase to 175 by February 2004.

Bradesco Prime's target public comprises consumer customers with a monthly income of more than R\$ 4,000.00 or with investments in excess of R\$ 50,000.00.

Bradesco Prime coordinates the Bank's commercial relationship with these segment customers, providing VIP facilities and personalized attendance by Relationship Managers, as well as bespoke products and services.

The Bradesco Prime Relationship Manager is a high-caliber professional capable of catering to all the financial needs of his/her customers. Since customer portfolios are kept small, managers are able to dedicate special attention to each one.

Bradesco Prime Customers have access to the extensive Bradesco customer service network, comprising its nationwide branches and self-service network.

### International Area

The International Area operates under the following framework:

#### 17 Operational Units in Brazil

12 Bradesco

1 Subsidiary in Tokyo - Bradesco Services Co., Ltd.

1 Subsidiary in Grand Cayman - Cidade Capital Markets Ltd.

Throughout the years, the Bradesco Organization has supported and fostered the development of Brazil's foreign trade activities.

In this same spirit, we highlight the substantial amount of US\$ 15.4 billion, posted at the 2003 year-end, in foreign exchange trading for exports. This corresponds to a 23.7% increase over 2002 and a record volume operated to date by the Bradesco Organization in this modality.

## Edgar Filing: BANK BRADESCO - Form 6-K

Performance was even better in foreign exchange trading for imports, since the total volume of contracts in the amount of US\$ 5.8 billion guaranteed a 37.1% increase compared to results for 2002. As with exports, this amount corresponds to the largest volume operated to date by the Organization in this modality.

Based on data available up to November, Bradesco's share of the exchange market for exports totaled some 20.1%, a similar performance to same period in 2002.

Bradesco's share of the exchange market for imports, also based on information available up to November, totaled 13.1%, which corresponds to an increase of 26.0% in market share, compared with the first 11 months of 2002.

As a result of these increases, the International Area ended the year with a balance of US\$ 7.1 billion in export and import financing and onlending to local customers.

The core objective of the foreign branches and subsidiaries is to obtain funds in the international market for onlending to customers, principally through the financing of Brazilian foreign trade.

The main activity of the subsidiary Banco Bradesco Luxembourg S.A. is to provide additional services to private banking customers and to increase foreign trade operations.

At the end of 2003, as well as short-term funds obtained from correspondent banks for foreign trade financing, loans of US\$ 2.822 billion on a consolidated basis were raised by the Bradesco Organization through public and private placements in the international capital market, earmarked for foreign trade financing and working capital loans.

This amount corresponds to a 195% increase compared to 2002, when the Organization obtained some US\$ 955.6 million

In the same context, emphasis should be given to the conclusion during the year of the Payment Order Securitization Program, with funds obtained, on August 20, 2003, in two tranches for the total amount of US\$ 400 million, under a 7-year term with a 2-year grace period for repayment of the principal and amortization on a quarterly basis. In addition, an amount of US\$ 270 million was obtained through Bradesco

### Underwriting Transactions

In 2003, Bradesco coordinated important transactions with stock, debentures and promissory notes which totaled R\$ 4.832 billion, comprising 47.92% of all issues registered at the Brazilian Securities Commission (CVM).

Among these transactions we highlight the following: issuance of debentures of CPFL Energia S.A. in the amount of R\$ 1.8 billion, issuance of debentures of Telesp Celular Participações S.A. in the total of R\$ 700.0 million and the transaction with promissory notes of Bandeirante Energia S.A. in the amount of R\$ 180.0 million. Bradesco also acted as co-manager for the structuring and distribution of the issuance of euro mid-term notes of Telesp Celular in the amount of US\$ 150.0 million.

### % Transactions

Of the total number of floating and fixed-return transactions registered at CVM up to December 2003, Bradesco participated in 22% of the primary and secondary stock issues and in 17% of debenture issues and 33% of promissory notes issues.

### Mergers, Acquisitions, Project Finance, Corporate Reorganization and Privatizations

Confirming its dynamic approach in the prospecting of new business, Bradesco concluded 9 operations in the Mergers and Acquisitions segment in 2003.

Bradesco's presence is also notable in Project Finance operations, acting as a financial advisor to major corporations operating in electric power generation and co-related projects, as well as in the structuring of the corresponding financings.

- Structured Transactions

Launched on June 23, 2003, this service area is part of the Organization's strategy to strengthen its positions, considering the highly competitive scenario produced by the policies of recent governments in their pursuit for economic stability.

Designed principally to attend customers from Bradesco Corporate Banking and Bradesco Empresas, this service is focused on developing personalized solutions for customer needs in the following areas: project financing, securitization of assets, loan syndication, etc. which are known in the financial market as structured transactions.

The department implementation process was concluded in the final quarter of 2003 following the designation of the different area managers and staff. During the same period, the O&M department formalized the structure and definition of the department's related activities and functions.

At the same time, the efforts made to disseminate this area's activities continued across the Bradesco Empresas and Corporate Banking Branches, with the approval and recording of transactions involving the disbursement of resources to the order of R\$ 150 million.

### Collection and Tax and Utility Collections

### Cash Management

Bradesco's cash management solutions comprise a portfolio of more than 40 products designed to meet public and private sector customer management needs in the areas of receipts, payments, human resources and administration, ensuring that their bank transactions are carried out with speed and convenience, in line with superior quality standards (ISO 9001:2000) and security (electronic certification and sound cryptography).

## Edgar Filing: BANK BRADESCO - Form 6-K

The innovations have secured the preference of a growing number of customers from all market segments and niches in diverse locations and different activity fields, using latest-generation technology means for connecting the Bank and its customers. We highlight, in particular, the following products:

### Receipt Solutions

#### Bradesco Online Collection

The high efficiency standards of Bradesco's online collection service generate confidence, minimizing costs and maximizing customer returns, covering all of their accounts receivable management needs. As a result of these features, Bradesco Collection is now market leader, generating other business opportunities for the Organization. Online collection is responsible for processing more than 98% of all documents registered in the Bradesco collection portfolio.

#### Tax and Utility Collections

Developed based on high standards of efficiency and quality, Bradesco's tax and utility collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other, they effectively interact with the different Government Departments in the federal, state and municipal spheres and with public utility concessionaires.

Bradesco's tax and utility collection services are noted for the speed and security of the data transmitted and amounts collected.

### Payment Solutions

#### Net Empresa, Pag-For and PTRB (Online Tax Payments)

As part of the same efficiency commitment, Bradesco's payment solutions, deployed through the Net Empresa, Pag-For and PTRB products, meet all customer needs, facilitating supplier payments, tax settlements and electronic transfers, online or through the transmission of files with maximum speed and security.

During the year, an amount of R\$ 302.1 billion was recorded for 80.5 million payment transactions, facilitating the management of Trade Accounts Payable for more than 189 thousand companies.

Operating Performance - Consolidated BCN

Funding and Portfolio Administration

At December 31, 2003, the overall funds obtained and managed by BCN totaled R\$ 24.2 billion. Deposits, the Bank's main source of funds, totaled R\$ 10.1 billion. Total funds include an amount of R\$ 3.2 billion in Investment Funds, obtained by BCN Branches, managed by BRAM - Bradesco Asset Management Ltda. and administrated by Banco Bradesco S.A.

Total Assets and Credit Operations

Assets totaled R\$ 23.4 billion at the end of the year and of this amount, R\$ 12.8 billion, or 54.6%, was allocated to credit operations, including leasing operations and advances on foreign exchange contracts and R\$ 7.8 billion or 33.5%, was allocated to short-term interbank accounts, securities and derivative financial instruments.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3068, of November 8, 2001, the Bank declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

Ratings

According to Fitch Atlantic Ratings, BCN's risk rating is the highest attributed among banks operating in Brazil and Banco Finasa, according to Austin Rating, obtained the maximum triple-A rating for financial soundness as well as a Low Risk for long-term.

Net Income and Stockholders' Equity for the Year

BCN reported net income of R\$ 277.8 million for the year, corresponding to an average return of 12.1% on stockholders' equity, which totaled R\$ 3.2 billion at the year-end. We highlight the capital increase in August 2003 of R\$ 1.5 billion.

In the first quarter, results include an amount of some R\$ 132.5 million in non-recurring income, derived from prior-year deferred tax assets and negative bases of social contribution recorded in Potenza Leasing S.A. Arrendamento Mercantil. And in the fourth quarter, prepaid expenses of R\$ 138.3 million, net of tax effects, as a result of the mark-to-market adjustment of swap transactions in Banco Finasa S.A., used to hedge direct consumer financing adjusted based on the corresponding contract terms, as well as R 32.1 million of expense, net of tax effects, as a result of the full amortization of goodwill in Banco de Crédito Real de Minas Gerais S.A., as part of the corporate restructuring process in progress.

Customer Service Network

At December 31, 2003, the Bank's customer service network comprised 220 Branches nationwide: 2 BCN Digital Branches (in São Paulo and Rio de Janeiro), through which managers attend customers by phone and products are delivered by courier service, with no need for customers to leave their homes or the office; 1 Branch abroad in Grand Cayman; 200 Banking Service Posts and Online Service Outlets installed on corporate customer premises and 1 Branch of Banco Finasa S.A. - a wholly owned subsidiary.

## Edgar Filing: BANK BRADESCO - Form 6-K

The ATM Network comprised 828 BCN terminals, 11,030 Bradesco Day and Night ATMs and 2,216 terminals in the 24-Hour Bank Network, as well as the services offered by BCN Office Banking and BCNNet Internet Banking and the BCN Live Line, a phonebank available to branch customers throughout Brazil.

Finasa Promotora de Vendas Ltda., a wholly owned subsidiary of Banco Finasa S.A., had 53 Branches at the end of the year and was present in 12,762 new and used vehicle dealerships and 1,097 stores selling furniture and home decor, tourism, auto parts and IT related equipment and software, among others.

At the end of 2003, BCN had 877 thousand customers of whom 721 thousand are checking account holders and 156 thousand are non-account holders, as well as some 901 thousand savings account holders and had issued a total of 161 thousand credit cards. Customers served by Banco Finasa S.A. totaled 936 thousand.

On February 25, 2004, the BCN Branches will be integrated with the Bradesco Customer Service Network. This measure is designed to optimize resources, combining expertise and ensuring that customers receive top-quality products and services.

### Corporate Reorganization

In the pursuit of increased competitiveness and productivity and the consequent rationalization and reduction of administrative and legal costs, the Bradesco Organization changed the organizational structure of BCN in 2003 as follows:

- In February, BCN Leasing Arrendamento Mercantil S.A. incorporated Bradesco Leasing S.A. Arrendamento Mercantil and changed its name to Bradesco BCN Leasing S.A. Arrendamento Mercantil.

- In April, Bradesco BCN Leasing incorporated Finasa Leasing Arrendamento Mercantil S.A.

- In July, the capital of Banco de Crédito Real de Minas Gerais S.A. was decreased by R\$ 2.0 billion.

- In August, the capital of Banco BCN was increased by R\$ 1.5 billion.

- In September, Bancocidade Distribuidora de Títulos e Valores Mobiliários Ltda. and BCN S.A. Distribuidora de Títulos e Valores Mobiliários were incorporated by Finasa Distribuidora de Títulos e Valores Mobiliários S.A. and as a result BCN now holds 80.0% of this company's capital; BCN Corretora de Títulos e Valores Mobiliários S.A., formerly CLSA-BCN Corretora de Títulos e Valores Mobiliários S.A., incorporated Bancocidade Corretora de Valores Mobiliários e de Câmbio Ltda. and Bradesco BCN Leasing acquired the portfolio of BBV Leasing Brasil S.A. Arrendamento Mercantil - now named Alvorada Leasing Brasil S.A. Arrendamento Mercantil.

- In October, BCN Corretora de Títulos e Valores Mobiliários S.A. incorporated Alvorada Banco de Investimentos S.A., acquired as part of the purchase process of BBV Banco by Bradesco; moreover following a partial spin-off of the capital of Boavista S.A. Arrendamento Mercantil, the spin-off portion in the amount of R\$ 195 million was incorporated by Bancocidade-Leasing Arrendamento Mercantil S.A.

- In December, Boavista S.A. Arrendamento Mercantil was incorporated by Banco Boavista InterAtlântico S.A.

### Significant Event

On November 6, the Bradesco Organization, through its subsidiary Banco Finasa S.A., acquired the total capital of Banco Zogbi S.A. and its subsidiaries Zogbi Leasing S.A. Arrendamento Mercantil, Zogbi Distribuidora de Títulos e Valores Mobiliários Ltda. and Promovel Empreendimentos e Serviços Ltda. This acquisition, currently pending ratification by the Brazilian Central Bank, represents a strategic advance by the Bank into the consumer financing sector, with the inclusion of 1.5 million active borrowers and some 4 million registered customers, a Network of 67 outlets and more than 11 thousand establishments capable of offering consumer financing (CDC) and card products with considerable growth potential.

### Social Action

During the year, the Bradesco Organization continued supporting sports activities through the BCN SPORTS PROGRAM, focused on the formation, maintenance and dissemination of women's basketball and volleyball. At the end of December, the Program covered 81 sports training centers, 48 for volleyball and 33 for basketball, where some 4,300 girls from 10 to 15 years of age have access to courts, uniforms, sports material, instructors and all the infrastructure required to practice these sports completely free of charge. The training centers are installed on the premises of private and state schools, at the City Hall sports complex in Osasco and at the Fundação Bradesco (Bradesco Foundation) and SESI units. Participation in this program requires proof of continuous and consecutive attendance at school and includes counseling on health issues, life quality, living in society, social behavior, citizenship issues and prevention of drug abuse.

## Edgar Filing: BANK BRADESCO - Form 6-K

As well as these training centers, the Program also maintains competitive Women's Volleyball and Basketball teams in all base categories (14 to 18 year olds), an initiative which is making an effective contribution towards the formation of future world-class Brazilian athletes.

Providing incentives and promoting premium-level sport in Brazil, the Program also maintains a senior Women's Volleyball team called BCN OSASCO, a benchmark in national sports. The team is currently the National Super League Champion and has won all of the most important championships played over recent years. The team is currently São Paulo State's fifth-time League Champion and has also won the Regional Championships 5 times and State Interior Championship 4 times.

The BCN Sports Association (Associação Desportiva Classista BCN) received authorization from the National Council for Child and Youth Rights - CONANDA to obtain funds for investment in its Socially Focused Sports Projects, designed to benefit children and youngsters through the National Foundation for Children and Youth (Fundo Nacional para a Criança e Adolescente - FNCA) in accordance with Resolution nº 93 of November 25, 2003, with the BCN Osasco - Volley and Basketball Training Center project.

In 2004, the BCN Sports Program will commence a new phase changing its name to FINASA SPORTS PROGRAM.

Profile

Banco Finasa S.A., a wholly owned subsidiary of Banco BCN S.A., operates in the financing sector, through Finasa Promotora de Vendas Ltda., which is responsible for securing customers and transactions.

Designed to increase the volume of business, as in the case of the partnerships entered into with Ford Credit and Microsoft, Finasa signed an agreement, in the first half of 2003, with ABRAPAR, subsequent to approval by the Brazilian Association of Fiat Automobile Dealerships - ABRACAF, to support the financing of vehicles sold by the associated dealerships.

At the end of December, Finasa Promotora had 53 Branches and was present in 12,762 new and used registered vehicle dealerships and 1,097 stores selling furniture and home decor, tourism, auto parts and IT related equipment and software, among others.

Customers served by Banco Finasa totaled some 936 thousand.

According to Austin Rating, Banco Finasa obtained the maximum triple-A rating for financial soundness, as well as a Low Risk for long-term

Significant Event

On November 6, the Bradesco Organization, through its subsidiary Banco Finasa S.A., acquired the total capital of Banco Zogbi S.A. and its subsidiaries Zogbi Leasing S.A. Arrendamento Mercantil, Zogbi Distribuidora de Títulos e Valores Mobiliários Ltda. and Promovel Empreendimentos e Serviços Ltda. This acquisition, currently pending ratification by the Brazilian Central Bank, represents a strategic advance by the Bank into the consumer financing sector, with the inclusion of 1.5 million active borrowers and some 4 million registered customers, a Network of 67 outlets and more than 11 thousand establishments capable of offering consumer financing (CDC) and card products with considerable growth potential.

Operating Performance

At the end of the year, assets totaled R\$ 5.5 billion, an increase of 36.3% compared to December 2002. The balance of the new and used auto financing portfolio, before allowance for loan losses, totaled R\$ 5.1 billion, an increase of 33.7%, as compared to 2002. Auto-financing production for 2003 totaled R\$ 4.1 billion, a 100.9% increase in comparison with the total of R\$ 2.1 billion produced in 2002.

In 2003, the Bank reported a loss of R\$ 19.3 million compared to stockholders' equity of R\$ 201.5 million, as a result of the mark-to-market adjustment of swap transactions, in compliance with Central Bank Circular 3082, in the amount of R\$ 138.3 million, net of tax effects.

These transactions are designed to hedge overall credit operations and were entirely successful from an economic viewpoint. However, from a formal standpoint, these transactions are not acceptable as hedges pursuant to the aforementioned legislation. As a result, the asset transactions to which they are a counter entry receive a different accounting treatment, ie, they are adjusted based on the rates established in the corresponding contracts, while swaps are marked to market.

If these transactions were formally accepted as hedges, the related assets (credit operations) could also be marked to market and in such case, the Bank would have reported net income of R\$ 150.4 million and stockholders' equity of R\$ 335.5 million, corresponding to a return of 44.8% for the year.

## Edgar Filing: BANK BRADESCO - Form 6-K

The accounting effects arising from the mark-to-market adjustment of the swaps will be reversed in future periods following the adjustment of the asset transactions and could be subject to further oscillation as a result of changes in market rates.

### Social Action

In 2004, the Bradesco Organization maintaining its support of sports activities will commence a new phase whereby the BCN Sports Program will be called FINASA Sports Program (PROGRAMA FINASA ESPORTES) continuing its activities focused on the formation, maintenance and dissemination of women's basketball and volleyball.

Number of Policyholders - Thousand

Up to December 31, 2003, the average number of customers grew by 9.5% compared to the same period in 2002.

Bradesco Saúde continues to maintain its outstanding market position, especially in the corporate health insurance segment. Brazilian consumers are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs (source: ANS). At present, Bradesco Saúde has more than 2.4 million customers.

The increasing number of policyholders employed by micro, small and medium companies, as well as major corporations that have contracted Bradesco Saúde, confirms the company's high level of expertise and personalization in Corporate Insurance services, a distinct advantage in the Health Insurance market.

More than 11 thousand companies in Brazil have acquired Bradesco Health Insurance. Out of Brazil's 100 largest companies in terms of billings, 34 are Bradesco clients in the Health and Dental Health lines and out of the country's 50 largest companies, 32% are Bradesco Saúde clients. (source: Exame Magazine's Biggest and Best List, July 2003).

Emphasis should also be given to the practical nature of the Bradesco Saúde Portal (<http://www.bradescosauade.com.br>), which, in addition to providing information on available products, also offers a number of services to policyholders, prospects and brokers.

The Bradesco Insurance Group consolidated its leadership position in the Brazilian Basic Line Insurance market, with premiums issued through November 2003 in the volume of R\$ 804 million, a 17.1% increase compared to the prior year and a significant 12.4% share of the overall market billings in this area.

As well as the increase in the volume of premiums issued, the total premiums earned up to November 2003 increased by 11.2% as compared to the same period in 2002.

In the Corporate Risk area, the Group consolidated its position by insuring major business conglomerates operating in the mining, oil, steel, agribusiness, paper and pulp, power, automobile, chemical and petrochemical, aluminum and aircraft industries, confirming its role as one of Brazil's main Insurance Groups with a strong presence in the following main types of insurance: operating risk, named risk, national and international transport risk, engineering risks, oil risks and port operator risks.

In the mass market insurance segment, focusing on consumer and small and medium corporate customers, product line sales registered an important growth, in particular, Bradesco Bilhete Residencial, which achieved a record of 548,365 homes insured in 2003, an increase of 26.6% compared to the prior year.

The launching of new products and the reformulation of others in the pursuit to offer our customers best quality products on a permanent basis, made a significant contribution to the results achieved in 2003.

## Edgar Filing: BANK BRADESCO - Form 6-K

The Automotive and RCF (Optional Third Party Liability) portfolio posted an important increase in the number of policyholders and obtained market leadership maintaining the technically correct pricing policy. Emphasis should also be given to the implementation of the differentiated services which add value to products, such as discounts given through the nationwide customer service networks and the increase in the number of relationships with brokers which are carried out exclusively online via the Internet.

Bradesco's market share of the Auto/RCF portfolio up to November 2003, published by SUSEP, increased from 15.5% to 17.3%.

In June, Bradesco Seguros launched a new product called Garantia Plus, which secured 72 thousand customers in its first 7 months of operation. The Bradesco Seguros Garantia Plus line offers coverage for personal accident (death and invalidity) and 6 more events comprising serious illnesses: heart surgery and angioplasty, cancer, strokes (CVA), chronic kidney disease, transplants, as well as assistance such as second opinions from abroad and funeral and personal expenses.

### Awards

#### Bradesco Seguros

1. On April 25, Bradesco Seguros won the Top de Marketing 2003 award given by the Brazilian Association of Sales and Marketing Directors - ADVB with the following case: Bradesco Seguros. Liderança de ponta a ponta é isso: 1ª em Share of Market, e agora também a 1ª em Top of Mind .
2. The Bradesco Seguros website, which had already won the iBEST internet award in the Insurance and Revelation categories in 2002, won the Grand Prix internet oscar again in 2003 by popular vote and its website was also rated best Insurance category site by the Academy and popular votes.
3. In July, Bradesco Seguros was ranked first place at the eighth edition of the Top of Mind awards - Marcas de Sucesso - Minas Gerais. The event was organized by the business economy magazine Mercado Comum to reveal outstanding brand awareness among consumers. Bradesco Seguros won the award in the Insurance Company Leadership category. The study was carried out by the Instituto de Perfil, with more than 1,221 household interviews carried out in nine different regions throughout the state.
4. Also in July, Bradesco Seguros was considered as most remembered mark in the state of Alagoas winning the Prêmio Marcas 2003, in the category Top of Mind - First remembered brand category. The award was given by the Tribuna de Alagoas newspaper based on a poll carried out by the Harrop Institute. The study revealed that 12.9% of those interviewed replied Bradesco Seguros , when asked which brand comes to mind first when insurance is mentioned. This percentage was double that achieved by the 2nd ranked company.
5. Bradesco Seguros won the Folha Top of Mind Insurance category award for the second year running. This award was based on the results of a poll carried out by Instituto Datafolha among thousands of people interviewed nationwide. The poll was designed to reveal which brands are most remembered by consumers. The award which was introduced in 1988 has 35 categories and 5 special awards.

#### Bradesco Saúde

1. Bradesco Saúde received the Top Hospitalar 2003 award for the third year in a row, an important title in the Brazilian medical-hospital market ranking. The award was based on the results of a preferred product brand survey (V Pesquisa de Preferência de Marcas em Produtos), carried out by the Guia de Fornecedores Hospitalares (Hospital Suppliers Guide). Bradesco Saúde was considered the most remembered brand and highlight of the year in the Health category. The awards ceremony took place at São Paulo's Credicard Hall on December 3, 2003.
2. Bradesco Saúde won the Hospital Best award in the Health Operator of the Year (Operadora de Saúde do Ano) category, based on a poll carried out among doctors, medical-hospital service suppliers and other health area professionals throughout Brazil. The first edition of this award is an initiative of the Brazilian Association of Health Area Marketing and the poll was monitored by Simonsen e Associados.

(1) Includes: Bradesco Capitalização and Atlântica Capitalização (formerly BCN Capitalização).

Bradesco Capitalização's outstanding position in the premium bond market is the result of its transparent operating policy, which is focused on the deployment of products in line with potential consumer demand.

The company is consolidating its outstanding position in diverse regions and holds a leadership position in two Brazilian states, according to the latest figures for November published by SUSEP. The company's market share in these states was as follows: 27.8% in Amazonas and 23.6% in São Paulo.

In pursuit of a bond which is suited to its customers' different profiles and budgets, the company developed a number of products varying in accordance with the type of payment (single or monthly), contribution terms, regularity of draws (weekly or monthly) and related prize amounts. This phase brought the company closer to the general public and consolidated the success of its Pé Quente (Lucky Bond) savings bond series.

Bradesco Capitalização was the first private savings bond company in Brazil to receive ISO9002 certification and in December 2002 this certificate was upgraded to the 2000 Version ISO 9001:2000. This certification from Fundação Vanzolini attests to the management quality of Bradesco savings bonds and confirms the principles on which their creation was based: good products, good services and continuous growth.

The outstanding savings bond portfolio also presented a significant increase of 512.7% compared to 2002, with more than 78 million outstanding bonds. Of this amount, 94.1% are certificates with Transfer of Draw Participation Rights, which were sold via partnership agreements with companies in different market segments, including Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa, Companhia Paulista de Força e Luz (CPFL), Bandeirante Energia, etc. Since the purpose of this type of savings bond certificate is to add value to partners' products or to provide incentives for customer payments, these are low-priced bonds with reduced terms and grace periods.

Highlights

Bradesco Capitalização was highlighted in an article published in the April edition of the Conjuntura Econômica magazine, and ranked as leader of its corresponding sector, based on a study conducted by Austin Rating. The methodology used to rank the best companies considered indicators such as stockholders' equity, liquidity and profitability.

At the end of 2003, Bradesco Corretora maintained its outstanding position in the Capital Market.

We present below a summary of the main activities carried out during the year:

Bradesco Corretora ended the year among the 11<sup>th</sup> most important brokerage firms, out of more than 100 operating in the São Paulo Stock Exchange (BOVESPA). During this period, services were provided to 50,499 investors and 279,665 buy and sell orders were carried out for a total financial volume of R\$ 11.3 billion. The Corretora participates with BOVESPA in the *Bovespa vai até você* campaign in an important effort to raise public awareness regarding the benefits of investing in the stock market.

Bradesco Corretora negotiated 2 million contracts in the Mercantile and Futures Exchange (BM&F) for a financial volume of R\$ 244.7 billion, ranking the Corretora 24th among the most important brokerage firms, out of more than 100 participants. The Corretora has centered its efforts

on the continued expansion of its business, as well as promoting the futures market. For example, in the agricultural area it acts directly in the country's main production centers, through visits, seminars and participation in agricultural fairs and expos. In conjunction with the BM&F, the company sponsored visits to the exchange and Bradesco Corretora in São Paulo by investors from all over the country. At the same time, the company hosted numerous visits by farmers, teachers, opinion-makers and brokers from the physical commodities market.

Online web trading for the twelve-month period totaled 166,694 orders with a financial volume of R\$ 960.1 million, representing 4.5% of all Home-Broker operations carried out in BOVESPA and placing the Corretora fifth in the overall ranking. The customer base increased by 34.1% with more than 4,889 new customers registered during the year and more than 39,883 e-mails received.

As a result of its role in Public Offerings of Share Purchases, Special Operations, Stock Swapping Auctions and Privatization Auctions, Bradesco Corretora continues in its important market position, with a financial volume of R\$ 515.5 million for the year.

Bradesco Corretora offers an investment analysis service, operating in conjunction with Banco Bradesco's economic area, delivering main market performance reports, suggested stock portfolios and comprehensive stock guide.

The company also offers a non-resident investor representation service for transactions carried out in the financial and capital markets, in accordance with the provisions of CMN Resolution 2689/000, of January 26, 2000.

Net income recorded for the year totaled R\$ 14.2 million.

Stockholders' equity at the end of the year increased to R\$ 65.6 million, corresponding to 19.28% of total assets of R\$ 340.2 million.

Bradesco Securities, Inc., a wholly owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of share purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by more than 90 programs involving ADRs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets and is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Edgar Filing: BANK BRADESCO - Form 6-K

Designed to provide leverage to its brokerage transactions abroad, Bradesco Securities, Inc. increased company capital in the amount of US\$ 20 million in May 2003.

### Leasing Companies

#### Corporate Reorganization

In 2003, the Bradesco Organization changed the organizational structure of the Leasing Companies as follows:

- In February, BCN Leasing Arrendamento Mercantil S.A. incorporated Bradesco Leasing S.A. Arrendamento Mercantil and changed its name to Bradesco BCN Leasing S.A. Arrendamento Mercantil.
- In April, Bradesco BCN Leasing incorporated Finasa Leasing Arrendamento Mercantil S.A.
- In September, Bradesco BCN Leasing acquired the leasing portfolio of BBV Leasing Brasil S.A. Arrendamento Mercantil - now named Alvorada Leasing Brasil S.A. Arrendamento Mercantil - and following the capital increase of R\$ 350 million in Bancocidade-Leasing Arrendamento Mercantil S.A., became its controlling stockholder.
- In October, the capital of Boavista S.A. Arrendamento Mercantil was partially spun off and the spun-off portion of R\$ 195 million was incorporated by Bancocidade - Leasing Arrendamento Mercantil S.A.
- In December, Boavista S.A. Arrendamento Mercantil was incorporated by Banco Boavista InterAtlântico S.A.

#### Stockholders' equity

The increase in stockholders' equity between September and December 2002 was mainly derived from a capital increase of R\$ 500 million in Potenza Leasing S.A. Arrendamento Mercantil and of R\$ 180 million in Boavista S.A. Arrendamento Mercantil, in November 2002, as well as by incorporated results in 2003, in particular, an amount of R\$ 132.5 million derived from deferred tax assets recorded on prior-year tax losses and negative bases of social contribution, in March, in Potenza Leasing S.A. Arrendamento Mercantil.

#### Leasing Performance - Consolidated Bradesco

Bradesco's leasing operations are carried out through Bradesco BCN Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

At December 31, 2003, leasing operations brought to present value totaled R\$ 1,421.0 million, with a balance of R\$ 31.1 million receivable in operating leases.

Edgar Filing: BANK BRADESCO - Form 6-K

According to the Brazilian Association of Leasing Companies (ABEL), the Bradesco Organization is one of the sector's leaders, with a 16.7% market share (base date: November 2003). This sound performance is rooted in its Branch Network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the heavy vehicle and machinery/equipment sectors.

The following pie graph presents the composition of Bradesco's consolidated leasing portfolio by types of asset.

Operations

On December 9, 2002, Bradesco Consórcios commenced the sale of consortium quotas to Bradesco employees and on January 21, 2003 sales were extended to the Bank's account holders and non-account holders and the consortium purchase system included as part of the Bradesco Organization's product portfolio.

The first online internet meeting of Bradesco Consortium holders was held on February 26, 2003 and by December 31, 2003, 52 meetings had been held.

At December 31, 2003, a total of 65 thousand consortium quotas had been sold, with billings in excess of R\$ 2.2 billion, 4,834 participants had been selected by bid or draw and 2,413 items had been delivered to members comprising 311 groups.

The company uses all the facilities of the Bradesco Organization customer service network to commercialize the products offered.

Mission

## Edgar Filing: BANK BRADESCO - Form 6-K

The company's mission is to manage consortium plans and groups for consumer and corporate purchasers regardless of whether they are Bradesco account holders or not, and to operate in the light and heavy vehicle (including cars, trucks, tractors and combine harvesters) and real estate segments, maintaining excellent standards in the quality of the services offered and in consortium system practice, pursuant to regulations determined by the Brazilian Central Bank and in line with the Bradesco Organization's philosophy.

### Segmentation

The Bradesco Organization's entry into this segment is part of its strategy to offer the most complete range of product and services possible to its customers.

Providing all income brackets with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices and considering inclusive, regarding in particular real estate products, the country's present housing deficit.

The Consortium segment is a complementary niche to regular banking activities and at present there are 3.1 million (\*) consortium group members nationwide. According to information gathered, only 15% (\*) of vehicles sold in Brazil are sold via the Consortium method.

The automobile consortium system recorded a 14.9% increase up to October, as compared to the same period in 2002. In the first 10 months of the year, 287.9 thousand quotas were sold in the consortium system, 15.7% (45 thousand quotas) of which were sold by Bradesco Consórcios.

645.9 thousand items were distributed by bid or draw from January to October 2003 (\*), 3.8% more than for the same period in 2002.

Expanding permanently over the last five years, the residential housing consortium sector recorded an accumulated growth of 47.3% in the sale of new quotas during the year (\*), compared to 2002. Bradesco Consórcios sold 15 thousand quotas up to October 31, 2003.

### Representation

Within this segment, Bradesco plays a central role in providing Brazilians with the opportunity to acquire consumer durables and real estate.

In less than a year, Bradesco Consórcios won the Marketing Best 2003 award, confirming that a good ideas, a sound product and considerable effort, are capable of leveraging our medium and long-term results, with positive effects on our capacity to secure new customers.

Awards

In 2003, important awards, distinctions and economic reports highlight Bradesco's excellence and corporate leadership, as well as the strength of its Brand. Once again, Bradesco was rated Best Retail Bank in Brazil based on a study by the consultants Austin Rating and the *Conjuntura Econômica* magazine published by Fundação Getulio Vargas.

Bradesco also received the Best Listed Company in 2002 award, from the Association of Capital Market Investment Analysts and Players - APIMEC Nacional. This award is the result of a poll carried out by members based on, among other criteria, the quality of the information released to the market, as well its accuracy and timeliness. For its outstanding role in the application of best corporate governance practices and respect for stockholders, the Bank was given the Quality Seal by the National Association of Capital Market Investors - ANIMEC. In the final quarter of 2003, Bradesco received the Walter Fredrich 2002 award from APIMEC Sul in the Best Corporate Presentation category.

Bradesco was also rated Best Local Partner in Brazil for carrying out business and for its capacity to meet customer demands by Euromoney magazine. In addition, the Bank received the Best Consumer Internet Bank award given by Global Finance magazine. The same magazine also rated Bradesco as Best Consumer Integrated Site and Best Corporate Institutional Integrated Site in Latin America, in terms of products offered, marketing and design.

Bradesco was also rated best out of the 100 Most-wired Companies in Brazil by INFO Exame magazine, which highlights spearhead companies in Information Technology. As well as leading the overall ranking, Bradesco also

won in two other categories: most-wired banking sector company and leader in São Paulo, in the ranking of Brazil's most industrialized states.

From the São Paulo Chamber of City Counselors, Bradesco received the 2003 Citizenship Company Seal, given every two years to companies that prioritize citizenship values and social responsibility in their relationship with different sectors of society. Emphasis should also be given to the 2002 Communications awards as Best Advertiser of the Year, according to the Brazilian Association of Advertising (ABP), which represents advertising activity in Brazil, as well as the National Business Image award, given to the country's most influential company, based on the results of a poll among *Gazeta Mercantil* subscribers.

In the 2003 Best Investment Fund Guide ( *Guia Melhores Fundos de Investimentos 2003* ) issued by *Exame* magazine, Bradesco appears for the second time in a row as the country's Best Private Fund Manager. The Guide also rates Bradesco as Best Retail Fund Manager and Best Leveraged Fund Manager, as well as rating 19 of the Organization's funds as five star, the highest grade awarded by this Guide.

The Bradesco Organization was winner of 2003 Social Value award in the 'Respect for the Consumer' category, by both the popular and expert juries and in the 'Respect for the Environment' category by popular vote. Sponsored by Valor Econômico, with support from the Ethos and Akatu Institutes, this award is designed to honor companies whose commitment with society is based on excellence and best management criteria.

#### Sociocultural Events

In 2003, Bradesco gave important support to some 814 social projects nationwide. These comprised cultural, regional, sector or professional venues, including trade fairs, seminars, conventions and community events.

As part of its strategy to provide incentives to agricultural development in Brazil's interior regions, Bradesco was present at the Agroindustrial Fair in Londrina, Paraná, the Cerrado Agrishow in Rondonópolis, Mato Grosso and at the Agrishow in Ribeirão Preto, São Paulo, which is the third largest farming technology expo in the world.

In the cultural area, Bradesco sponsored the Parintins Folklore Festival in Amazonas, the Summer Festival and Carnival in Salvador, Bahia and the St. John's Day festivities in Caruaru, Pernambuco, events which attract more visitors from all over the country every year.

Emphasis should also be given to the events sponsored by Bradesco Seguros, for example, the International Book Bial in Rio de Janeiro and the International Bial of Architecture and Design in São Paulo, as well as the *Sant'Ana - Coleção Ângela Gutierrez* exhibition of religious art, the French Film Festival and the entire series of the Dell'Arte International Classical Concerts in Rio de Janeiro.

Another significant event was the traditional Rio de Janeiro Christmas Project, the principal symbol of which is the enormous stylized Christmas Tree, which floats in the middle of the city's Rodrigo de Freitas Lake. Thousands of people assisted the lighting-up ceremony for the eighth year.

In the educational area, the Bradesco Foundation commenced the construction of its 40 th school in the town of Osasco, São Paulo. The new unit, which will open its doors in 2004, is designed to attend two thousand students from the local community. In 2003, the students, teachers and support staff at the 39 foundation schools took part together in a number of different voluntary efforts, offering among others, courses in basic computer skills and handicrafts, as well as free medical and dental check-ups, benefiting thousands of people from underprivileged communities.

The Bradesco Foundation's work received various accolades during the year, including the Young Scientist of the Future Award, organized by the National Council for Scientific and Technology Development (CNPq) and the 2003 School Award - Southeast Region, given by UNESCO.

### Fundação Bradesco - The Bradesco Organization's Social Arm

#### Background

The Bradesco Foundation, a not-for-profit entity, headquartered at Cidade de Deus, Osasco (SP), was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Convinced that education lies at the roots of equal opportunity and personal and collective fulfillment, the Bradesco Foundation currently maintains 39 schools installed as priority in the country's most underprivileged regions, in all of Brazil's states and in the Federal District.

#### Objectives and Goals

Through its pioneer action in private social investment, the Bradesco Foundation's chief mission is to provide formal, quality education to children, young people and adults ensuring that they receive the qualifications required to achieve personal fulfillment through their work and the exercising of their rights and duties as citizens.

Accordingly, the Foundation has expanded its activities yearly, increasing the number of students matriculated in its schools from 13,080 to more than 105,000 over the last twenty-four years. The Bradesco Foundation schools offer education free-of-charge at pre, junior and high school levels, as well as basic professional and technical training in IT, electronics, industry, management and agriculture and livestock raising. Distance learning is also offered as part of its Youth and Adult Education programs.

#### Important Events

The 39th Bradesco Foundation School, in the city of Boa Vista, Roraima, opened its doors on February 6 this year with modern facilities and the capacity to attend more than 1,200 students.

## Edgar Filing: BANK BRADESCO - Form 6-K

On March 9, all the Foundation Schools took part in Brazil's National Voluntary Action Day . More than 190 thousand people benefited from activities promoted in the leisure and entertainment, education, culture, sports, healthcare, community development and citizenship action areas. Four thousand volunteers participated, including students, parents, support staff, teachers and professionals from partner organizations, providing more than 200 quality services to community members residing in the vicinity of the Foundation schools.

On August 12, the Bradesco Foundation received the Order of Merit from the Supreme Labor Court at a ceremony held at the high court in Brasília, in the Federal District.

Through its Foundation, the Bradesco Organization is working in partnership with Media Lab, MIT's research center, on a project called The City We Want which encourages students and teachers to research urban issues during classes and at workshops, studying the use of IT resources in their solutions and sharing their ideas with other schools and communities from different countries via the Internet.

The neighborhood communities of 38 of the Foundation's Schools have access to the Digital Inclusion Program which offers mini-courses and workshops in basic computer skills, such as file management, typing and surfing the web, among others. Using a computer for the first time, participants also learn how to access important public utility services. More than 16 thousand people received related course participation certificates.

Designed to offer professional qualification for young people in the IT area, the Bradesco Foundation, in partnership with the São Paulo State education authorities and the State Foundation for Child and Youth Welfare (FEBEM), sponsors an Educational Program for the Promotion of Social and Professional Inclusion, through which courses are given inside the FEBEM's correctional units offering internees professional qualifications in this area. Once qualified, they can be employed as IT lab monitors and facilitators in the state school network.

The Bradesco Foundation's 40 th School is currently under construction in the Jardim Conceição region of the town of Osasco, SP, with modern facilities and the capacity to attend some 2000 students from the local community.

### School Locations

The majority of the Foundation's educational units are located on the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all four corners of Brazil are given the opportunity to study at the Foundation schools.

Annual Report 2003

Banco Bradesco S.A.

Message to Our Stockholders

To Our Stockholders,

The Bradesco Organization's 60 years of existence, completed on March 10, 2003, form the frame of a picture of achievements portraying the balance between pioneer spirit and prudent decisions, steadfast growth and carefully protected sustainability, new conquests and long-forged partnerships, justly remunerated stakeholders' capital and effectively exercised social responsibility.

In the same way, tangible assets - such as capital and reserves, funding and investment volume and the extensive nationwide Customer Service Network, exist side by side with intangible equity, symbolized by the image of security, efficiency and reliability, strengthened over six decades of existence and reinforced by an outstanding market share and vast portfolio of loyal customers, as well as a workforce of incalculable value, experienced, dedicated and motivated at all levels and internally developed processes which spearhead the banking technology field. And the sound and honorable association of Bradesco's name to a wealth of successful initiatives and its revealing statistics in the social area, in particular in the educational field through the Bradesco Foundation which maintains 40 Schools installed as a priority in Brazil's most deprived regions and which will attend more than 107 thousand students in 2004, free of charge.

We commemorate yet another year of achievements, consolidating the projections which comprise our core strategy, built on long-term prospects. Bradesco's original vision, still valid today, was that of a large retail Bank, leader in various market segments, capable of providing access to banking services to the largest possible number of companies and consumers in all regions of Brazil, particularly those which are least developed, aligning its operations with national growth on an economic level and with improved life quality on a social level.

The events which marked 2003 include the opening of more than 1,500 Banco Postal branches, which now total 4,000 units installed in the Correios Post-Office Network and are used by Bradesco as Correspondent Banks throughout Brazil; conclusion of the process to acquire the Administration and Management activities of the Securities and Investment Fund Portfolios managed by JPMorgan Fleming Asset Management; acquisition through an exchange of shares of the remaining minority interest in Banco Mercantil de São Paulo S.A. and the acquisition of Banco Bilbao Vizcaya Argentaria Brasil S.A., both transformed into wholly owned subsidiaries and their Branches integrated with the Bradesco Customer Service Network; acquisition of Banco Zogbi S.A.

In the Corporate Governance area, the Board of Directors was strengthened by the election of two external Members, indicated by Banco Bilbao Vizcaya Argentaria, S.A. - BBVA, Spain and Banco Espírito Santo, S.A. - BES, Portugal, highly qualified professionals who will undoubtedly add significant value to the already important activities of this board.

Seeking to equate the interests of controlling, minority and non-voting stockholders, tag-along rights were incorporated into the by-laws ensuring that in the event of the sale of the controlling interest, 100% of the price paid per share to the controlling stockholders will also be paid to minority stockholders and 80% of such price to non-voting stockholders. Following the same line of recommendations for good Governance, Bradesco introduced its Code of Corporate Ethics, a compilation of ethical principles on which the Bank's activities are based since its foundation; the Audit Committee, the Compliance and Internal Controls Committee, the Remuneration Committee and the Disclosure Committee, the latter responsible for ensuring control, consistency, quality and transparency in the disclosure of information

In the operational area, emphasis should also be given to the Bank's participation in the Microcredit system, which provides small loans to individuals and microbusinesses, as well as payroll consigned credit. We also highlight, during the year, the start-up of Bradesco Prime activities, an important step forward in the Bank's customer service segmentation process, which will certainly provide new momentum to the Organization's operations in terms of the quality and specialization required to meet the specific demands of the Bank's different customer segments.

## Edgar Filing: BANK BRADESCO - Form 6-K

Altogether, the good results for this year are accurately mirrored in Bradesco's total assets of R\$ 176.098 billion and net income of R\$ 2.306 billion, with interest attributed to own capital of some R\$ 1.347 billion, or 61.48% of adjusted income, well above the minimum statutory dividend.

The strong presence of the Insurance, Private Pension Plan and Savings Bond companies (the Bradesco Insurance Group) made a significant contribution to this performance, illustrating the Organization's product diversification strategy and comprehensive range of services offered to customers.

The Organization's global planning strategy lies at the roots of this year's achievements and is responsible for Bradesco's competitive advantages, the wide range of products and services offered and its far-reaching and efficient Customer Service Network, which is also present overseas. All this is underpinned by a solid equity and financial position and the constantly renewed support and preference of our stockholders and customers, whose confidence we thank, as well as the exemplary dedication of our directors, staff and stakeholders, to whom we offer our sincere gratitude.

## Directors Report

We are pleased to present the financial statements for the year ended December 31, 2003 of Banco Bradesco S.A., as well as the consolidated financial statements, prepared in accordance with the requirements of Brazilian corporate legislation.

In 2003, the uncertainty prevailing in the economic scenario, as a result of the prior-year general elections, was soon overcome by the government's successful efforts to build a solid reputation in the fiscal and monetary spheres. The highly liquid global scenario reduced the pressure on foreign exchange, ensuring that projected inflation continued in the right direction. As regards the balance of payments, significant headway was made as the external perception of Brazil's sovereign risk improved substantially following the exceptional surplus in the country's current-account transactions. As a result, the macroeconomic prospects for 2004 are favorable for both economic and credit activities. The optimistic projections were also favorably influenced by the approval of a number of structural reforms included in the broad legislative agenda and which will certainly continue in 2004.

On March 10, Bradesco commemorated its 60th anniversary, with an active presence in Brazilian everyday life, providing ongoing incentives to the distribution of banking products and services to all income brackets and renewing its commitment to the expansion of its business horizons. In this respect, 2003 was marked by a succession of significant events, among which we highlight the following:

- The marketing of Consórcio Bradesco commenced in January, achieving billings in excess of R\$ 2.282 billion for the year, with more than 65 thousand members and more than 4,800 items distributed.
- In March, conclusion of the process to acquire the Administration and Management activities of the Securities and Investment Fund Portfolios of JPMorgan Fleming Asset Management. The transaction involved the transfer of approximately R\$ 7 billion in third-party funds to Bradesco, to be managed by BRAM - Bradesco Asset Management Ltda.
- On March 31, the Stockholders' Meeting approved the acquisition, through an exchange of shares, of the remaining minority interest in Banco Mercantil de São Paulo S.A., converting Mercantil into a wholly owned subsidiary of Bradesco. For each Mercantil share held, the minority stockholders received 23.94439086 Bradesco shares, of which 12.06279162 were common and 11.88159924 were preferred shares.
- Conclusion of the integration process of Banco Mercantil de São Paulo with Bradesco, on May 19, with the conversion of the Mercantil Branches into Bradesco Branches. This initiative optimized resources, combining the specialized services and dedicated staff of both institutions in the pursuit to offer customers maximum quality in products and services.
- On May 19, start-up of Bradesco Prime activities, an important step forward in the Bank's segmentation process, offering personalized customer service with differentiated products and services to high-income consumer customers. At the end of the year, there were 143 Bradesco Prime Branches and 84 exclusively reserved customer service areas in conventional branches.
- On June 9, acquisition of 49% of the voting capital and 99.99% of the non-voting capital of Banco Bilbao Vizcaya Argentaria Brasil S.A. and subsequent acquisition of remaining shares by Bradesco, transforming BBV Banco into a wholly owned subsidiary. 44.422475667 Bradesco shares were exchanged for each BBV Banco share, of which 22.379315072 were common and 22.043160595 were preferred shares. Designed to streamline and optimize its customer service network, the Bilbao branches were converted into Bradesco branches in September.
- On June 9, the election of two External Members to the Bank's Board of Directors, José Fonollosa García and Ricardo Espírito Santo Silva Salgado, representing respectively Banco Bilbao Vizcaya Argentaria, S.A. - BBVA, Spain and Banco Espírito Santo, S.A. - BES, Portugal. Specialists in both the Brazilian and International Financial Systems, the new Board Members, with their professional experience and top qualifications, will join forces with the other members in enhancing the Board's present activities, guiding the Bank's business and development.
- Acquisition on November 6, through its subsidiary Banco Finasa S.A., of the total capital of Banco Zogbi S.A. and its subsidiaries Zogbi Leasing S.A. Arrendamento Mercantil, Zogbi Distribuidora de Títulos e Valores Mobiliários Ltda. and Promovel Empreendimentos e Serviços Ltda. This acquisition, currently pending ratification by the Brazilian Central Bank, represents a strategic advance by the Bank into the consumer financing sector, with the inclusion of 1.5 million active borrowers and some 4 million registered customers and a network of 67 outlets and more than 11 thousand establishments capable of offering consumer financing (CDC) and card products with considerable growth potential.
- On December 17, approval by the Extraordinary General Meeting of a 1-for-10,000 reverse stock split, designed to adjust the par value of its stock to a more appropriate level for stock exchange trading purposes, align its local and foreign market quotations, decrease trading costs and increase the efficiency of the shareholder information and registration system. The reverse split was ratified by the

Brazilian Central Bank on January 6, 2004 and stockholders, at their own discretion, will be able to adjust their stock positions by type and in multiples of 10,000 through March 19, 2004 at the stock exchanges.

### 1. Results for the Year

In terms of shareholder returns and contributions to the public coffers, the results reported for 2003 are significant:

R\$ 2.306 billion of net income for the year, or R\$ 1.45 per thousand shares, a return of 17.02% on closing stockholders' equity and 18.89% on average stockholders' equity.

R\$ 2.814 billion in taxes and contributions, including social security contributions, payable or accrued, on the main activities carried out by the Bradesco Organization during the year.

R\$ 1.347 billion was distributed to stockholders as monthly, interim and complementary interest attributed to own capital, computed in the calculation of the compulsory dividend. Accordingly, this comprises R\$ 0.8998433 (R\$ 0.7648668 net of withholding tax), including the additional 10%, per thousand preferred shares and R\$ 0.8180393 (R\$ 0.6953334 net of withholding tax), per thousand common shares. The Bank's capital remuneration policy is designed to add stockholder value through increased investment returns. Net interest distributed corresponds to 61.48% (net of withholding tax, 52.26%) of adjusted net income for the year, well above the 30% minimum payment established in the by-laws.

### 2. Operating Efficiency Ratio - IEO

This ratio is calculated based on the comparison between administrative expenses (including personnel) and operating results (adjusted result of financial intermediation) and reflects the success of Bradesco's simultaneous efforts to increase net revenues and decrease costs.

The ABC (Activity-Based Costing) methodology practiced by the Bradesco Organization permits, among others, the improvement of the criteria used to form and negotiate bank charges, the supply of costing information to GDAD (Performance Management and Decision-making Support) and for customer profitability determination purposes, as well as serving as a reliable basis for ongoing rationalization analyses.

As regards cost control practices, Bradesco adopts ABM (Activity-Based Management) methodology, a pro-active approach designed to produce effective results and identification of opportunities. Accordingly, at the same time as its processes are improved, operating performance is seamlessly integrated with strategic objectives in the pursuit to create and sustain competitive advantages and to add value for both customers and stockholders.

56.59% was the ratio at December 31, 2003, as compared to 56.55% in 2002 and 54.34% in 2001.

### 3. Capital and Reserves

R\$ 7.000 billion of capital at the end of the year.

R\$ 6.547 billion in reserves.

R\$ 13.547 billion of stockholders' equity, an increase of 24.91% in 2003, equivalent to 9.62% of assets, which totaled R\$ 140.888 billion. Managed stockholders' equity is equivalent to 7.76% of consolidated assets, which totaled R\$ 176.098 billion, and net equity per thousand shares was equivalent to R\$ 8.55.

The capital adequacy ratios were 19.85% on a consolidated financial basis and 17.22% on a consolidated economic and financial basis, above the 11% required minimum established by National Monetary Council Resolution 2099 of August 17, 1994, in conformity with the Basel Accord. As regards consolidated reference equity, the ratio of permanent assets to stockholders' equity (limited to a maximum of 50% in accordance with Brazilian Central Bank requirements) was 26.41% on a total consolidated basis and 40.78% on a consolidated financial basis.

The subordinated debt of the Bradesco Organization at the end of the year was R\$ 4.995 billion (foreign - R\$ 2.279 billion and local - R\$ 2.716 billion), included in stockholders' equity for purposes of determining the ratios described in the preceding paragraph.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3068, of November 8, 2001, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

### 4. Bradesco Shares - Trading

Highly liquid, Bradesco Shares maintained their strong presence in all trading sessions of the São Paulo Stock Exchange - BOVESPA, with a 4.79% share of the Index. Stock is also traded in the Madrid Stock Exchange in Spain, as part of the Latibex Index and through ADR-American Depositary Receipts - Level 2, in the New York Stock Exchange.

## Edgar Filing: BANK BRADESCO - Form 6-K

R\$ 6.394 billion was traded in Bradesco shares during the year in BOVESPA, corresponding to 31.517 billion common shares and 511.662 billion preferred shares.

R\$ 1.149 billion traded as ADR in the US market, representing 292.401 billion of the Bank's preferred shares.

### 5. Operating Performance

#### 5.1. Funding and Portfolio Administration

Bradesco's role in the country's economic development reaches new heights daily. Structured around clearly defined objectives in the production, consumption and service areas, it forms a steady basis for development in diverse sectors, assuring the ongoing implementation of its funding and administration activities. All told, more than 14.482 million checking accounts are managed by the Bank, which has a 19.16% share of the Brazilian Savings and Loan System (SBPE).

At the end of the year, overall funding and management by the Bradesco Organization totaled R\$ 239.341 billion, a 33.39% increase compared to 2002.

R\$ 90.817 billion in demand, time and interbank deposits, open market and savings accounts.

R\$ 81.527 billion in managed assets, comprising investment funds and managed portfolios.

R\$ 32.501 billion in foreign exchange portfolio, borrowings and onlendings, own working capital funds, collection and tax and utility collections and similar, as well as funds from the issuance of securities and local subordinated debt.

R\$ 26.409 billion recorded in technical reserves for insurance, private pension plans and savings bonds, a growth rate of 37.87% compared to the prior year.

R\$ 8.087 billion in foreign resources through public and private issues, subordinated debt and securitization of future financial flows, corresponding to a total of US\$ 2.799 billion.

#### 5.2. Credit Operations

This area is focused on providing continuous production incentives and meeting consumer demands. Occupying a leadership position among Brazil's private institutions, Bradesco plays an important role in direct operations or via partnerships with market agents, mainly as a result of its convenient operations which are accessible to all customer income brackets. Another important step in this direction was taken through the Bank's integration with the new Microcredit and Payroll Consigned Credit lines, available throughout the Branch and Banco Postal Networks.

R\$ 54.336 billion at the end of the year in consolidated credit operations, including advances on foreign exchange contracts and leasing operations, a growth rate of 6.96% compared to the prior year.

R\$ 4.059 billion comprised the consolidated balance of the allowance for loan loss, corresponding to 7.47% of the total volume of credit operations.

#### 5.3. Housing Loans

This area is an essential part of the Bank's strategy due to the volume of investments absorbed and the number of jobs generated. Bradesco attends a considerable number of end borrowers, as well as the civil construction industry in general.

R\$ 1.001 billion of funds released to this area for the construction and purchase of 15,379 properties.

#### 5.4. Onlending Operations

In 2003, the Bradesco Organization was leader in the onlending of funds from the National Bank for Economic and Social Development (BNDES), with a volume of R\$ 2.750 billion, in 16,850 contracts, corresponding to a 14.94% share of all transactions in this system, an increase of 50.20% compared to the prior year. Bradesco was also ranked first place in terms of the volume of funds released for onlending to micro, small and medium companies, with a total amount released of R\$ 1,700 billion, corresponding to 17.90% of the whole system.

R\$ 7.226 billion in portfolio onlendings at the end of the year, granted as a priority to small and medium companies, with 52,305 contracts registered.

#### 5.5. Agricultural Loans

Bradesco's mission in the agricultural and livestock raising sector, with which it maintains a traditional and consolidated relationship, is designed to provide incentives and support to crop production, processing and distribution cycles, particularly regarding quality and productivity gains, producing increased competitiveness both locally and in the international markets.

## Edgar Filing: BANK BRADESCO - Form 6-K

R\$ 4.443 billion of investments in agricultural loans at the year-end, comprising 31,221 transactions.

### 5.6. Bradesco Corporate Banking

Bradesco Corporate Banking is part of the specialized customer relationship model offered by the Organization to the economic groups comprising its target market, designed to ensure improved corporate customer service and the construction of solid partnerships. This area uses the following specialized structures: corporate, infrastructure, agribusiness, Asian desk and Euro desk, the latter at the implementation stage.

R\$ 46.551 billion of total funds managed by this area, which comprises 1,198 economic groups.

### 5.7. Bradesco Private Banking

With its complete range of diversified products and services, this area's mission is to provide a specialized service which offers high-income consumer customers personalized financial advice regarding the best local and foreign capital market investment alternatives, designed exclusively to increasing their wealth.

### 5.8. Bradesco Empresas (middle market companies)

Having forged a strong presence in the middle market segment, this area is designed to coordinate the Bank's commercial relationship with corporate customers whose annual billings range from R\$ 15 million to R\$ 180 million. In sync with the Bank's other sectors, this area is focused on developing product packages which are compatible with each customer's potential.

### 5.9. Banco Postal

Recognized for its importance in local neighborhoods, Banco Postal, a partnership between Bradesco and the ECT Post Office Network (Correios), is also an essential service for Bradesco customers who often need to carry out their bank transactions in different regions of Brazil. Banco Postal operates as a Correspondent Bank, offering services to the population in line with the Bank's strategy designed to increase its participation in the nationwide retail market. Banco Postal also encourages local market growth, as a result of the inclusion of new financial service consumers, particularly in areas with no previous access to a bank branch.

### 5.10. Capital Market

Bradesco's constructive participation in the capital market strengthens daily, thanks to the specialized services designed to structure the best alternatives for corporate capitalization and expansion, complemented by the premium line services offered to investors.

With 47.92% of all issues registered with the Brazilian Securities Commission (CVM), the Bank maintained its leadership position in the public placement of shares, debentures and promissory notes and also played an important part in significant special transactions.

R\$ 4.832 billion of transactions with shares, debentures and promissory notes coordinated by Bradesco in 2003.

9 special transactions, including mergers and acquisitions, project finance and corporate and financial restructurings, concluded with the support of advisory services provided by Bradesco in 2003.

### 6. International Area

With a growing presence in the international market, the Bradesco Organization benefits from its integrated structure in the foreign trade and exchange areas, offering expert advice and a complete range of banking services. The area comprises 17 specialized departments in Brazil, branches in New York, Grand Cayman and Nassau, Bahamas, as well as subsidiaries in Buenos Aires, Nassau and Luxembourg and an extensive international correspondent network.

R\$ 6.183 billion in advances on foreign exchange contracts at the year-end, for a portfolio of US\$ 3.187 billion in export financing.

US\$ 393.569 million of import financing in foreign currency.

US\$ 15.433 billion in purchases of forward export contracts, 23.77% more than in 2002.

US\$ 2.822 billion in medium and long-term, public and private placements in the international market.

### 7. Organizational Structure

#### 7.1. Bradesco Customer Service Network

## Edgar Filing: BANK BRADESCO - Form 6-K

Based on a comprehensive and contemporary structure, supported by an advanced data processing system, which extends nationwide, the Bradesco Organization's Customer Service Network is an excellent instrument for extending banking services to all income brackets.

The practical nature and comfort of Bradesco's branch facilities are continually improved, the ultra-modern self-service lobbies operate over extended business hours and are equipped with a number of different terminals designed to save time and facilitate customer transactions. Prime Customers receive differentiated treatment at the specific Bradesco Prime Branches or exclusive VIP lobbies in conventional branches. Similarly, middle market companies are served by Bradesco Empresas, another benchmark in terms of quality and expertise. The Bradesco Day and Night ATM Network offers services to customers through 21,605 terminals, 14,930 of which operate uninterruptedly at weekends and on bank holidays.

Bradesco Internet Banking, with its advanced technology and permanent expansion program, is accessed by more than 5.923 million users directly from their offices, homes or anywhere they happen to be in the world. Launched in 1996, this pioneer service currently provides access to 210 types of transactions, with a total volume of 320.306 million transactions per year.

Bradesco Net Empresa, an exclusive service for corporate customers, ensures that bank transactions are carried out in a completely secure environment through the use of digital certification and electronic signatures. The service is gaining the preference of an increasing number of companies who, through this website, have discovered a new ally for optimizing the financial management of their business. Companies can operate their checking and savings accounts, make payments, process collections and perform a number of other transactions. There are currently more than 178,600 companies registered.

Emphasis should also be given to the interactive online service offered by ShopInvest Bradesco, a home-broker service which permits online stock exchange investments, offering realtime prices and, among other functions, investments and redemptions, simulations, acquisition of savings bond certificates, complementary pension plans and all the information investors need to monitor the financial markets.

At ShopCredit, Bradesco's Financing and Loan website, visitors can access a complete portfolio of credit lines offered by the Bank. The products are grouped together for purchase by consumer or corporate customers with full details on each option and a simulator can be used to calculate amounts and terms in different areas, such as personal credit, current-account overdraft facilities, consumer financing (CDC), leasing, housing loans, agricultural loans, FINAME (industrial machinery and equipment) lines and auto insurance.

Available day and night, Fone Fácil Bradesco (Bradesco Easy Phone Service) offers information and banking services via telephone with ease, speed and security. Based on its philosophy of service excellence and transforming every call into a business opportunity, 229.423 million calls were received during the year and 2.540 million items sold.

The magnitude of the Bradesco customer service structure is reflected by the average 9.003 million transactions carried out daily by customers and other users, 2.277 million of which through our teller windows and 6.726 million (74.71%) through the Bank's service channels, in particular, the Bradesco Day and Night Self-service Network, Internet and Fone Fácil.

In 2003, investments for expanding the Bradesco Organization's functional capacity and its IT and telecommunications infrastructure, totaled some R\$ 1.694 billion. At the same time, through the program implemented to dispose of property and equipment items, mainly through public auctions, investors inclusive, the Bank raised approximately R\$ 626.145 million, generating both administrative gains and maintenance cost savings.

At the end of the year, the Bradesco Organization comprised 10,974 customer service outlets including:

3,052	Branches in Brazil (Bradesco - 2,831, Banco BCN - 220 and Banco Finasa - 1).

R\$ 32.722 billion in total assets in the insurance, private pension plan and savings bond areas.

### 9.2. Banco BCN S.A.

Banco BCN S.A. provides its consumer and corporate customers with personalized services through support teams specialized in different markets and businesses.

On February 25, 2004, the BCN Branch Network will be integrated with the Bradesco Customer Service Network. This measure is designed to optimize resources, combining expertise and ensuring that customers receive top-quality products and services.

Among others, BCN manages Banco Finasa S.A., the leader in consumer financing, allying the traditional Finasa Brand with the image of Bradesco, its parent company.

R\$ 277.811 million in net income reported for the year, with an average return of 12.13% and closing stockholders' equity of R\$ 3.228 billion.

R\$ 24.204 billion in funds raised and managed.

R\$ 23.353 billion in total assets.

R\$ 12.761 billion of total credit operations, including leases and advances on foreign exchange contracts.

### 9.3. BRAM - Bradesco Asset Management Ltda.

Specialized in the management of third-party funds, BRAM, under self administration, attends a number of different market segments, including retail, corporate and private sector banking, as well as institutional investors.

The funds managed by BRAM in 2003 were increased by third-party funds derived from the acquisition of the Administration and Management activities of Securities Portfolios and Investment Funds previously managed by JPMorgan Fleming Asset Management.

2.700 million estimated investors in 505 funds and 126 managed portfolios at December 31, 2003, corresponding to R\$ 81.527 billion.

### 9.4. Bradesco Leasing

In the leasing area, the Organization offers companies an alternative long-term financing option designed to facilitate the expansion and modernization of their businesses, without having to use their own capital, through Bradesco BCN Leasing. We highlight their highly competitive market position specifically focused on vehicles, machinery and equipment, as well as their vast experience in the structuring of operating agreements with manufacturers and dealerships.

R\$ 1.421 billion was the balance of leasing transactions at December 31, 2003, with 8,725 transactions contracted during the year.

30,670 lease agreements in force at the year-end, evidencing the wide distribution of the business.

### 9.5. Bradesco S.A. Corretora de Títulos e Valores Mobiliários

The Corretora maintained a strong presence in the trading sessions at the São Paulo Stock Exchange (BOVESPA) and the Mercantile and the Futures Exchange (BM&F) and is repeatedly rated among Brazil's top-ranking brokerage firms. During the year, the Corretora also recorded a significant increase in its online Home Broker trading activities.

Bradesco Corretora offers an excellent investment analysis service which operates in conjunction with the Bank's economic area, providing reports on the performance of the main markets, suggested stock portfolio and stock guide.

Structured to facilitate the participation of small investors in the stock market, its exclusive Automatic Share Trading System (SANA) permits the purchase and sale of stock in small lots via computer terminals available throughout the Bradesco Customer Service Network. This system can also be used for the intermediation of public offerings of shares.

R\$ 11.320 billion traded by Bradesco Corretora at the BOVESPA corresponding to 279,665 buy and sell orders for 50,499 investors during the year.

2.004 million contracts negotiated at the BM&F, corresponding to a financial volume of R\$ 224.715 billion.

## Edgar Filing: BANK BRADESCO - Form 6-K

R\$ 960.129 million traded via Home Broker, corresponding to 166,694 buy and sell orders; 19,223 registered investors at December 31, 2003.

9,303 registered customers in the Custody Portfolio (Carteira de Custódia Fungível) at December 31, 2003.

### 10. Corporate Governance

The modern corporate governance practices adopted by the Bradesco Organization have contributed to improving the performance of all of its activity segments. The figures posted to date confirm that this goal is being met, both in terms of increased operating efficiency and in the expansion of the Institution's funding capacity at home and abroad.

As from June 2001, Bradesco shares are included in the BOVESPA's Level 1 Corporate Governance index. Moreover, since Bradesco's shares are traded in foreign stock exchanges, the Bank also prepares its financial statements in US-GAAP, the accounting principles accepted in the U.S.A.

We stress that during the year, no non-audit services were contracted by the Bradesco Organization or rendered by KPMG Auditores Independentes for an amount which exceeds 5% of the total external audit costs. This policy complies with the principles designed to maintain the independence of external auditors as follows: auditors should not audit their own work, nor exercise management functions for their clients, nor promote the interests of such clients. Each external audit is contracted for a maximum five-year period pursuant to Brazilian Central Bank recommendations.

At the Ordinary General Meeting of March 10, 2003, approval was given to maintain the Fiscal Council (Conselho Fiscal) comprising 3 full members and 3 alternates with term of office through 2004 and, with one full member and his/her alternate elected from among non-voting stockholders. At the Extraordinary General Meeting held on June 9, 2003, another step forward was taken to consolidate the adoption of modern Corporate Governance practices through the election, by unanimous decision of those present, of two external members to the Board of Directors, who, based on their vast experience and knowledge of the Brazilian and international markets, will undoubtedly add significant value to the already important activities of this board.

A series of other initiatives reaffirm the Bradesco Organization's commitment to good corporate governance practice, including:

- Tag-along Rights, seeking to equate the interests of controlling, minority and non-voting stockholders, tag-along rights were incorporated into the by-laws, ensuring that in the event of the sale of the controlling interest, 100% of the price paid per share to the controlling stockholders will also be paid to minority stockholders, and 80% of such price to non-voting stockholders.
- Code of Corporate Ethics, a compilation of ethics on which the Bank's activities are based since its foundation, forming a practical guide addressing personal and professional conduct to be adopted organization-wide and in which the Organization's guiding principles are clearly stated and its moral values affirmed.
- Code of Business Sector Ethics - Accounting and Financial Management Areas, designed to define area activities based on Bradesco's commitment to disclose its financial information completely, accurately and fairly.
- Disclosure Policy for Significant Acts or Facts and Securities Trading, to be adopted by all directors and managers.
- Disclosure Committee, responsible for establishing the Disclosure Policy for Significant Acts or Facts, ensuring control, consistency, quality and transparency in the disclosure of information.
- Audit Committee, whose role it is to advise the Board of Directors in respect of the accounting and tax policies used to prepare the financial statements of the Bank and its subsidiaries.
- Compliance and Internal Controls Committee, whose role it is to advise the Board of Directors in respect of the adoption of strategies, policies and measures used to disseminate the internal controls culture, risk mitigation and compliance with applicable legislation.
- Remuneration Committee, whose role it is to submit to the Board of Directors proposals for policies and guidelines used to remunerate the Bank's Executive Directors and those of its subsidiaries.

#### 10.1. Internal Controls and Compliance

The Internal Controls and Compliance system is subordinated to the guidance and supervision of the Board of Directors and is an important instrument in the management of business activities, designed principally to ensure compliance with legal and regulatory standards, guidelines, plans, procedures and internal rules and to minimize risk of equity losses and damage to the Organization's institutional image. The Board is also responsible for analyzing and approving the Compliance Reports prepared by the Risk Management and Compliance Area.

### 10.2. Investor Relations - IR

Stockholders, customers and those seeking financial market information can visit this area's specific website, which has been redesigned and enhanced, at [www.bradesco.com.br/ir](http://www.bradesco.com.br/ir). Visitors will find information on the Bank itself, such as corporate profile, background, share structure, directors' reports, earnings reports, latest acquisitions and meetings with market analyst associations (APIMEC and ABAMEC), as well as other financial market information in general.

### 10.3. Information Transparency and Dissemination Policies

During the year, as part of its market relationship strategy, Bradesco organized 179 internal and external meetings with analysts, 12 conference calls and 12 presentations abroad. In addition, Bradesco publishes its financial statements for the first half and for the full year, as well as a quarterly Report on Economic and Financial Analysis. All significant related information is available in real time on the Bradesco website at [www.bradesco.com.br](http://www.bradesco.com.br) in Portuguese, English and Spanish.

The Bank distributes a monthly customer news bulletin called *Cliente Sempre em Dia* with a circulation of 900 thousand copies, as well as a quarterly magazine called *Revista Bradesco*, also focusing on its external public, with a circulation of 110 thousand copies.

## 11. Risk Management

The management of risks involves an integrated series of controls and processes, covering credit, market and liquidity, as well as operating risks. Risk management is fully independent and directly subordinated to an Executive Officer and the Bank's President. As a matter of principle, the Organization adopts a conservative policy in terms of exposure to risk, whereby policies and limits are defined by Senior Management, including risks directly affecting its minimum capital requirement.

### 11.1. Credit Risk

At Bradesco, the management of credit risk is based on existing best market practice and complies with the rules proposed in the New Basel Accord, which require a high level of discipline and control in the analysis of the transactions carried out, safeguarding process integrity and independence. Risk management involves a permanent and continuously developing process designed to map, check and diagnose the models, instruments, policies and procedures in place, based on studies and analyses compatible with the Organization's reality. These procedures are designed to provide a greater understanding of portfolio credit risks, identifying concentrations and opportunities for diversification and ensuring that capital is efficiently allocated.

### 11.2. Market and Liquidity Risk

The Organization's market risk management policy is conservative and limits (based on Value at Risk Methodology) are defined by Senior Management and monitored independently every day. On a complementary basis, the liquidity risk management policy is designed to ensure that the Organization is able to settle transactions, timely and securely, through a series of controls, the establishment of technical limits and the ongoing assessment of the positions assumed and financial instruments used. Both market and liquidity risks are monitored, checked and managed using models aligned with best local and international market practices and with the recommendations and standards established by the regulatory agencies.

### 11.3. Operating Risk

The operating risk management process, based on the recommendations established in the Basel Accord and instructions from regulatory agencies, is designed to implement the methodology and models which best meet the Bank's business characteristics and, at the same time, decrease the amount of regulatory capital to be allocated. The structure established to meet this objective includes dissemination of the Bank's culture, disclosure of policies, development of own systems, the construction of databases and quantitative and qualitative performance indicators to ensure that the Organization is able to identify its level of exposure to operating risks and implement measures to decrease loss. The combination of these processes will enhance competitive advantage, increasing the Institution's operating efficiency.

### 11.4. Information System Security

The Corporate Information Security Policy and Guidelines are designed to protect the Bank's information assets, including its databases, IT environments, documents, files, system backups and system access controls, especially when generating and transmitting data, among other security management tools. Restricted data and information which are of exclusive interest to customers, as well as strategic Organization information, are treated internally with strict secrecy and fully protected by internal controls and IT systems. To ensure procedure compliance, the Bank maintains ongoing staff training, awareness and policy review programs.

## Edgar Filing: BANK BRADESCO - Form 6-K

### 11.5. Credit Policy

As well as seeking security, quality and liquidity in the investment of assets, minimizing risks inherent to this type of operation, the Organization's credit policy is also designed to offer agile and profitable business and to guide the setting of operating limits and granting of credit.

As part of this system, the Branches operate within varying limits based on their size and the type of guarantees, while the specialized credit scoring systems facilitate and support the approvals process, based on specific security standards. The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits.

Operations are diversified, dispersed and intended for individuals and businesses with sound payment capacity and integrity and are secured by underlying guarantees which are deemed sufficient to cover the risks assumed.

### 11.6. Money Laundering Prevention

The internal structure of the Bradesco Organization maintains a specific area responsible for managing and monitoring its customers' transactions and financial activity, designed to avoid any involvement by the Institution in money laundering. The basic premise used to provide related guidance to the Operating Areas and Branch Network is rooted in the Bank's Know Your Customer policy, whereby customer transactions, including the source and destination of funds, are monitored by computerized systems which, together with specific analyses, ensure that possible money laundering activities are prevented or suppressed. The Organization has developed and put into place employee training and awareness programs, designed to maintain compliance with this policy, as well as permanently enhancing its technology tools for control and monitoring.

### 12. Marketing

An extensive institutional campaign commemorating Bradesco's 60th anniversary marked the beginning of 2003. Using innovative media language, the campaign addressed the Institution's important participation in Brazil's economic development and Bradesco's capacity to attend very different customers with the same top quality service.

In the second half of the year, an unprecedented initiative was used to launch Bradesco Prime, through the publication of personalized advertisements in the first edition of Exame Primeira Pessoa, a magazine published by Editora Abril and enclosed in the subscribers edition of Exame magazine. The messages were personally addressed to the subscribers and highlighted the exclusive services offered by Bradesco Prime.

Other marketing efforts were carried out during the year, showing that Bradesco is prepared to meet the specific demands of its customers with tailor-made products and services. Highlights include the Compra Premiável Cartões Bradesco promotion, in which cardholders took part in a draw to win houses, cars and cash prizes and the Show do Milhão Cartões Bradesco, with the exclusive participation of Bradesco Cardholders on the Win-a-Million Show (Show do Milhão) broadcast on SBT TV. Other successful campaigns launched in 2003 introduced diverse Bank products, such as HiperFundo Bradesco, an investment fund which gives away a car to an investor every day by draw, as well as other prizes, the Bradesco Consórcios consortium purchase system and Bradesco Vida e Previdência life insurance and private pension plans.

At the end of the year, the Bank aired a humorous TV campaign welcoming the New Year and transmitting its wishes for peace for all Brazilians in 2004.

814 regional, industry and/or professional events, including business fairs, seminars, conventions and cultural and community events throughout Brazil, received support from Bradesco.

### 13. Recognition

Risk Ratings - In 2003, Bradesco's risk ratings were among the highest attributed to Brazilian Banks by the national and international credit rating agencies: Austin Rating, Fitch Atlantic Ratings, Moody's Investors Service, SR Rating and Standard & Poor's.

Ranking - Recognition of Bradesco's leadership was highlighted by important national and internal publications during the year, including the following:

- Largest Private Group in Brazil by revenue, for the fifth consecutive year, according to the 2003 edition of Exame magazine's Guia Melhores e Maiores.
- Brazil's Largest Bank by stockholders' equity among public and private institutions, according to the Valor 1000 yearbook published by the Valor Econômico newspaper.

## Edgar Filing: BANK BRADESCO - Form 6-K

- Brazil's Largest Bank by stockholders' equity and leader among private-sector financial institutions in the total assets ranking, according to the Special List published by Valor Econômico.
- Leading Brazilian Bank by Assets, according to a study prepared by Consultoria Austin Rating, published by Valor Econômico.
- Best Internet Bank in Brazil, according to the poll published by the Business Standard/FGV magazine, which highlights the segment's outstanding services.
- Brazil's Best Bank for investments, according to the poll published in Você S/A magazine's personal investment guide, coordinated by the Financial Studies Center at Fundação Getúlio Vargas in São Paulo.

Awards - Bradesco received 35 awards in 2003, which confirm, based on independent opinion, Bradesco's market leadership and the quality of the products and services offered, among which we highlight the following:

- Global Finance Award, given by the Global Finance Magazine, for Best Bank in three categories: Brazil's Best Bank; Best Latam Bank in Risk Management and Best Bank in Foreign Exchange Transactions.
- Best Advertiser of the Year Award according to the Brazilian Association of Advertising (ABP).
- Best Retail Bank in Brazil 2003 Award from Conjuntura Econômica magazine and the consultants Austin Asis.
- Euromoney Excellence Award, given by Euromoney magazine as Best Local Partner in Brazil.
- Best Investment Fund in Brazil awarded by Exame Magazine and Fundação Getúlio Vargas, for achieving the titles of Best Fund Manager of the Year, Best Retail Fund Manager and Best Leveraged Fund Manager.
- Best Listed Company in 2002 awarded by the Association of Capital Market Investment Analysts and Professionals (APIMEC).
- Valor Social 2003 Award, given to the Organization in the following categories: Respect for the Environment, for the Bradesco Foundation project and Respect for Consumers, for the project carried out to reduce customer lines in the Bank's branches, given by Valor Econômico.
- Business Image Award, in the Brazil category, as the country's most representative company, given by Gazeta Mercantil.
- 100 Empresas Mais Ligadas do Brasil Award, given by INFO Exame magazine, rated Bradesco as the Best-Wired Bank in the State of São Paulo and in Brazil.
- iBEST 2003 Awards. The Organization won 8 awards in different categories and was rated overall champion at this Brazilian Internet oscar-equivalent awards ceremony.

ISO 9001/9002 Certification: The Bradesco Organization ended the year with 56 Products and Services recognized by this quality certificate, confirming its pursuit to ensure increasingly easy and convenient services for all its customers and users.

#### 14. The Bradesco Organization's Social Action Program

The history of Fundação Bradesco (The Bradesco Foundation) commenced 47 years ago and its main objective, consolidated over the years, is to provide formal education to children, young people and adults, particularly in areas which are both socially and economically deprived.

In February 2003, the Network's 39th school opened its doors in the city of Boa Vista, Roraima, with 1,800 students, as a result, the Foundation is now present in all of Brazil's states. In Osasco, headquarters of the Bradesco Organization, work has commenced on the 40th school with capacity to attend 2,000 students and which is forecast to begin activities in 2004.

During the year, more than 105 thousand students received free education, including youth and adult education and basic professional training courses. To its more than 49 thousand infant, junior, middle and technical school students, the Foundation also provides free meals, uniforms, school materials and medical/dental care.

The figures reflect the success of the Foundation's daily efforts. For example, for the last six years, the pass rate in the Foundation Schools has remained at an average 95.95%, which is equivalent to the best international pass rates.

## Edgar Filing: BANK BRADESCO - Form 6-K

The courses designed to provide Basic Professional Education strengthen the Foundation's strong ties with the regional employment market and prioritize the specific interests of the different communities. Courses include Printing Technology, Agriculture and Livestock Raising, Business Management, Information Technology, Fashion, Leisure, Development, among others. All these courses are designed to qualify participants to open their own businesses or pursue better jobs in the employment market.

For the Bradesco Foundation, knowledge is the raw material essential for personal and professional development and should be constantly up to date and available to all sectors of society. Accordingly, partnerships are forged based on ongoing and significant growth. Excellent results have been achieved from the alliance formed with Aban Informatics Limited for the use of educational software, based on animations and illustrations, in its junior and middle schools, in the areas of physics, chemistry, biology and math. Emphasis should also be given to the Digital Inclusion project carried out in partnership with Microsoft, which trained some 5,482 students free-of-charge at the Bradesco Foundation Schools.

Another important partnership involves NIIT from India, which will provide some 250 IT courses for the Virtual Classroom, the Bradesco Foundation's e-learning architecture. At the same time, in partnership with Cisco Systems, students are qualified, through the Cisco Networking Academy Project, to install, design and administrate computer networks. Some 5,160 students were qualified during the year.

The Foundation also entered into a partnership with Media Lab, MIT's research center. As in the majority of projects developed by Media Lab, designed to integrate technology with social issues, the project called "The City We Want" allows students and teachers to research urban issues during classes and at workshops, studying the use of IT resources in their solutions and sharing ideas through the integration of schools and communities from different countries via the Internet. 28 Bradesco Foundation schools, in 24 states, take part in the project and integration with researchers from a number of institutions in developing countries is scheduled for 2004.

Launched as a pioneer project six years ago, the basic computer skills course for the visually impaired has qualified 4,559 students at 32 Foundation units and 38 partner Institutions and is recognized internationally for its practical content focused on the use of Microsoft Windows and the Internet.

We also highlight the Intel Education for the Future program, a worldwide initiative organized by Intel Semiconductors, designed to eliminate barriers against the use of technology as a learning tool.

Among this range of quality projects, emphasis should also be given to Futura, the Learning Channel which through an operating agreement signed with the Globo Group's Roberto Marinho Foundation, has 20 million viewers. Futura is Brazil's first educational TV channel to be financed and managed entirely by private-sector initiative. The Foundation also participates in the Youth and Adult Literacy program Alfabetização Solidária, created in 1997 by the Comunidade Solidária Committee, which, in the North and Northeast regions of Brazil, is responsible for extending access to formal Youth and Adult Education. The Foundation's participation ensures that some 9,800 Brazilians learn how to read and write each year.

Also in partnership with the Roberto Marinho Foundation, the Ministry of Justice and Funap - Fundação Professor Manoel Pedro Pimentel, the Bradesco Foundation maintains a Prisoner Education Project designed to offer basic formal education to prisoners at 20 penitentiaries in the State of São Paulo. In 2003, more than 1,000 prisoners were given the opportunity to commence or resume their elementary grade studies, a significant contribution to their rehabilitation and social integration.

Designed to offer professional qualification to more than 2 thousand youths in the IT area, the Bradesco Foundation, in partnership with the São Paulo State education authorities and the State Foundation for Child and Youth Welfare (FEBEM), developed an Educational Program for the Promotion of Social and Professional Inclusion. The courses are given inside the FEBEM's correctional units and offer internees the opportunity to learn a profession in the area. Once qualified, they can be employed as facilitators and IT lab monitors in the state school network.

Emphasis should also be given to the Organization's BCN Sports project, now called Finasa Esportes (Finasa Sports), which maintained basketball and volleyball training centers for some 4,300 young girls from 10 to 15 years of age in 2003.

A number of awards and distinctions confirm the scope and depth of the Bradesco Foundation's contribution to Brazil's social development. Among these, we highlight the Valor Social Award given by Valor Econômico, in the category "Respect for the Environment", which recognized the work carried out by the Bradesco Foundation School students in Paranaíba, who planted more than 70 thousand indigenous tree seedlings on the banks of the town's Suruquá River.

We also highlight the first and second prizes won, respectively, at the Young Scientist of the Future awards by students from the Foundation Schools in Paragominas, PA, and Aparecida de Goiânia, GO, given by the National Council for Scientific and Technology Development (CNPq). Addressing the theme "Water - The Source of Life", this award was given to the students for two projects, the development of a homemade filter to improve the quality of drinking water supplied to the city's population and research relating to the quality of the water consumed by the school's neighborhood community.

## Edgar Filing: BANK BRADESCO - Form 6-K

The Bradesco Foundation investments and activities are funded exclusively by resources from its own income and donations made by the Bradesco Organization Companies.

R\$ 138.343 million of total investments in 2003 and a budget for 2004 of R\$ 148.309 million to attend more than 107 thousand students.

### 15. Human Resources

The ongoing improvement of the employee base is an essential part of the Bradesco Organization's strategy. The Bradesco Organization's headcount totals 75,781 employees, of whom 59,430 are employed by Bradesco and 16,351 by the subsidiary companies.

In its pursuit of quality, diversification and service, Bradesco's Human Resource policy continually improves its training and qualification programs, providing new opportunities, sharing knowledge and promoting the value of its staff. Particularly focusing on the operating, technical and behavioral areas, all employees are attended with the same care and attention.

Topics relating to new economic scenarios, advanced technology requirements and market demands are specifically addressed by specialized teams of instructors, with the support of an appropriate infrastructure. The online internet training program, TreiNet, has surpassed the mark of 290 thousand participations, enabling employees to acquire professional knowledge via distance learning.

The updating and continuous advances in Bradesco's Management Development Programs are the result of the partnerships established with Consulting Firms, Universities and Business Schools offering courses in the areas of economics, business administration and law, including at post-graduate level.

Internal communication also merits special attention from Bradesco since it represents a powerful tool for integrating information, concepts and moral values. Accordingly, a copy of the *Interação* (Interaction) magazine is sent personally to each employee and the *Sempre em Dia* - news bulletin is published daily. TV Bradesco strengthens and extends Bradesco's communication actions, together with the other media vehicles used to disseminate and characterize guidelines which are highly relevant to the Organization's staff.

We also highlight the welfare benefits designed to improve the quality of life, well being and security of the Organization's employees and their dependents, covering 191,540 persons. Among which, we present the following:

- Medical and Hospitalization Healthcare Plan;
- Dental Assistance Plan;
- Supplementary retirement and pension plan;
- Group life and group personal accident insurance policies;
- Group automobile insurance policy.

As independent recognition of its personnel policy, Bradesco was rated among the 40 best companies for women employees, published by the special edition of *Exame* magazine (*As Melhores Empresas para Você Trabalhar 2003*), based on a survey carried out among the Organization's staff. The career opportunities and the benefits offered by the Organization, providing women with equal opportunity for promotion, were among the criteria which assured Bradesco's presence in this prestigious publication. This recognition confirms, yet again, the motivation of our employees with their workplace and the possibilities for personal and professional development offered by the Organization.

R\$ 49.943 million invested in Training Programs with 414,314 participations.

R\$ 378.349 million spent on the Meals Program, with 92 thousand light meals served and 72,711 thousand meal vouchers supplied daily.

3.397 million medical and hospital consultations during the year.

725,386 dental consultations.

The achievements and results accomplished to date are witness to the Organization's leadership of Brazil's diverse financial market segments. More than mere milestones, they create a healthy stimulus for going beyond expectations and motivate increasingly consistent progress. They highlight Bradesco's unyielding optimism and willingness to permanently contribute to the construction of a genuinely modern and prosperous Nation.

## Edgar Filing: BANK BRADESCO - Form 6-K

### 1) OPERATIONS

Banco Bradesco S.A. is a private-sector open-capital company which, operating as a multiple bank, carries out all types of authorized banking activities including foreign exchange transactions through its commercial, investment, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in leasing, consortium management, insurance, savings bond and private pension plan activities. Operations are conducted within the context of the companies comprising the Bradesco Group, which are jointly active in the market.

Accordingly, Banco Bradesco S.A. carried out the following transactions in 2003:

- In March, conclusion of the process to acquire the Administration and Management activities of the Securities and Investment Fund Portfolios of JPMorgan Fleming Asset Management.
- Acquisition through an exchange of shares of the remaining minority interest in Banco Mercantil de São Paulo S.A., approved by the Extraordinary General Meeting on March 31.
- On June 9, acquisition of 49% of the voting capital and 99.99% of the non-voting capital of Banco Bilbao Vizcaya Argentaria Brasil S.A. (now Banco Alvorada S.A.) and subsequent acquisition of remaining shares by Bradesco.
- Acquisition on November 6, through its subsidiary Banco Finasa S.A., of the total capital of Banco Zogbi S.A. and its subsidiaries, the financial statements of which were not consolidated since the acquisition process is still pending approval by the corresponding authorities.

### 2) PRESENTATION OF THE FINANCIAL STATEMENTS

The financial statements of Banco Bradesco S.A. and its foreign branches (BRADESCO) are presented in conjunction with the consolidated financial statements of Banco Bradesco S.A., which include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments (CONSOLIDATED BRADESCO).

The financial statements of Banco Bradesco S.A. and the consolidated financial statements were prepared based on accounting policies determined by Brazilian Corporation Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM) and Superintendency of Private Insurance (SUSEP), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, which requires the reclassification of leasing operations to the current-asset and long-term-receivable accounts.

Accordingly, upon consolidation, intercompany investments, account balances, revenue, expenses and unrealized income were eliminated from the financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components, are included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries is presented in deferred assets and minority interests in net income and stockholders' equity are separately disclosed. Exchange variation arising from permanent investments in subsidiaries and foreign branches was allocated to the statement of income accounts in accordance with the corresponding assets and liabilities from which it originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical reserves for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

We present below the main direct and indirect subsidiaries, including their foreign branches and subsidiaries and jointly controlled investments:

### 3) SIGNIFICANT ACCOUNTING POLICIES

#### a) Determination of net income

Income and expenses are recorded on the accrual basis and are prorated daily when of a financial nature. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date. Income and expenses of a financial nature are calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated on the straight-line method.

The insurance and coinsurance premiums and income on commissions, net of premiums assigned in coinsurance and reinsurance and corresponding expenses for commission, are appropriated to results upon issuance of the corresponding insurance policies and are deferred for appropriation on a straight-line basis over the terms of the policies, through the recording and reversal of a provision for unearned premiums and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The revenue from savings bond plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded at the time the savings bond plan contributions are effectively received. The payment of prizes on winning bonds is recorded as an expense in the month in which the draw takes places.

The private pension plan contributions are recorded in income at the time they are effectively received.

#### b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to market value. Other assets are recorded at purchase cost, including accrued income up to the balance sheet date, net of loss accrual, where applicable.

#### c) Securities

Pursuant to BACEN Circular 3068/2001, as from June 30, 2002, securities are classified and recorded as presented below:

- Trading securities - securities which are acquired for the purpose of being actively and frequently traded are adjusted to market value as a counter-entry to results for the period.
- Securities available for sale - securities which are not specifically intended for trading purposes or as held to maturity, are adjusted to market value as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects.
- Securities held to maturity - securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at cost, plus accrued earnings, as a counter-entry to results for the period.

Up to June 2002, securities were valued at cost of acquisition, plus accrued earnings and less of the provision for adjustment to probable realizable value.

#### d) Derivative financial instruments (assets and liabilities)

Pursuant to BACEN Circular 3082/2002 and complementary regulations, the derivative financial instruments are classified based on management's intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

The derivative financial instruments used for protection against exposure to risk or for changing the characteristics of financial assets and liabilities and which are: (i) significantly co-related in relation to the adjustment of their market value to the market value of the hedged item, at both the start and over the duration of the contract; and (ii) considered to be effective in mitigating the risk associated with the exposure which is to be protected, are classified as hedges in accordance with their specific nature:

- Market risk hedge - the hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments recorded directly in income for the period.

## Edgar Filing: BANK BRADESCO - Form 6-K

- Cash flow hedge - hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments, net of tax effects, recorded in the stockholders' equity account. The non-hedged portion is recorded directly in results for the period.

e) Credit and leasing operations, advances on foreign exchange contracts, other receivables and allowance for loan and leasing losses

The credit and leasing operations, advances on foreign exchange contracts and other receivables are classified in compliance with: (i) the parameters established by CMN Resolution 2682/1999 at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management's risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. The length of the delay in payment defined in CMN Resolution 2682/1999 is also taken into account for customer risk classification purposes as follows:

Length of Delay	Customer Classification
No delay	AA
Up to 14 days	A
From 15 to 30 days	B
From 31 to 60 days	C
From 61 to 90 days	D
From 91 to 120 days	E
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	H

The accrual of credit operations past due up to 60 days is recorded in income on credit operations and subsequent to the 61st day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written off against the existing allowance and controlled over a five-year period in memorandum accounts and no longer presented in the balance sheet.

Renegotiated operations are maintained with a classification equal to their prior classification. Renegotiated operations, already written off against the allowance and which are recorded in memorandum accounts, are classified at H level and any gains derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for loan losses is recorded at an amount considered sufficient to cover estimated losses and is based upon current economic conditions, past loan loss experience, specific and general portfolio risks and on BACEN requirements and instructions.

f) Income tax and social contribution (asset and liability)

Deferred income tax and social contribution, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables - sundry, and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in Other liabilities - taxes and social security contributions. Only deferred tax assets which have already acquired, or are about to acquire, tax deductibility rights are recorded on amortization of goodwill.

Deferred tax assets on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Deferred tax assets on tax losses and negative basis of social contribution will be realized as taxable income is generated.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10% for income over established limits. The provision for social contribution is recorded at the rate of 9% of pre-tax income. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

## Edgar Filing: BANK BRADESCO - Form 6-K

### g) Technical reserves relating to insurance, pension plan and savings bond activities

#### Provision for unearned premiums

These are recorded at the amount of that portion of the insurance premiums issued retained, corresponding to the unexpired risk periods of the insurance contracts, in accordance with the criteria determined by SUSEP standards.

#### Benefits to be granted and benefits granted

Mathematical provisions comprise the amount of the liabilities assumed under the form of income, pension and savings plans and are calculated based on the financial method determined in the contract under the responsibility of a legally qualified actuary registered with the Brazilian Institute of Actuaries (IBA). The mathematical provisions comprise the present value of future benefits estimated based on actuarial methods and assumptions. The provision for benefits to be granted comprises participants whose receipt of benefits has not yet commenced and the provision for benefits granted comprises participants who are currently receiving benefits.

#### Savings Bonds - mathematical provisions

These are recorded in conformity with the technical notes approved by SUSEP, based on a variable percentage applicable to the amounts effectively received.

#### Unsettled claims and IBNR

The provision for payment of unsettled claims is recorded based on estimated probable payments, net of recoveries and adjusted for price-level restatement up to the balance sheet date. The reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the volume and amount of the claims incurred, but which have not yet been reported to the insurance companies by the policyholders/beneficiaries.

### h) Investments

Significant investments in subsidiaries, associated companies and jointly controlled investments are recorded on the equity method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into reais and their related effects recognized in income for the year.

The exchange membership certificates of Stock Exchanges, the Center for the Financial Clearance and Custody of Private Securities (CETIP) and the Mercantile and Futures Exchange (BM&F) were recorded at net book value and fiscal incentives and other investments were recorded at cost, plus restatements through December 31, 1995, net of the provision for loss, where applicable .

### i) Property and equipment in use

Property and equipment in use is stated at cost plus restatements through December 31, 1995, net of the corresponding accumulated depreciation, calculated on the straight-line method at annual rates which take into consideration the economic useful lives of the assets as follows: buildings in use - 4%; furniture and fixtures and machinery and equipment - 10%; data processing systems - 20% to 50%; and transport systems - 20%.

### j) Deferred charges

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization, calculated on the straight-line method and amortized at a rate of 20% to 50% per annum.

Goodwill on the acquisition of investments in subsidiary companies, based on expected future results, is amortized at rates of 10% to 20% per annum and is presented on a consolidated basis in deferred charges and in investments on an unconsolidated basis.

### k) Deposits and deposits received under security repurchase agreements

These are stated at the amount of the liabilities and include related charges up to the balance sheet date, on a daily pro rata basis.

### l) Other assets and liabilities

## Edgar Filing: BANK BRADESCO - Form 6-K

he assets are stated at their realizable amounts, including, where applicable, related income and monetary (on a daily pro rata basis) and exchange variations, less provisions when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary (on a pro rata basis) and exchange variations.
