Item 1.01. Entry Into a Definitive Material Agreement

On June 17, 2009, GreenMan Technologies, Inc., (the “Company”) entered into an Exclusive Patent License Agreement (the “License”), with American Power Group, Inc., an Iowa corporation (“APG”). Pursuant to the License, the Company acquired the exclusive worldwide right, with the right to grant sublicenses, to make, use, market and sell products and processes covered by U.S. Patent number 6,003,478, issued on December 21, 1999 (the “Patent”) and to use certain technology and information pertaining to the claims in the Patent. The Patent relates to dual-fuel-engine monitoring-and-control systems and the rights licensed by the Company include any additional patents which may be filed or issued by APG during the term of the License in the field of dual-fuel generational development involving hydrogen, methane, and/or other alternative fuels.

In consideration of the License, the Company agreed to issue 2,000,000 shares of its common stock, \$.01 par value per share, to APG. The parties have agreed to place 500,000 of the shares in escrow for one year as security for any indemnification claims by the Company under the License. The escrowed shares are intended as a non-exclusive remedy for such indemnification claims. Any shares released to the Company from escrow would be credited against the amount of the indemnified claim at the rate of \$.23 per share (the average of the last trading price per share of the Company’s common stock on the OTC Bulletin Board for the 10 consecutive trading days immediately preceding the date of the License), irrespective of the fair market value of Company’s common stock at the time a claim is made or resolved.

APG has agreed that, with certain exceptions, it will not sell or otherwise dispose of any of the shares for a period of one year after the date of the License.

In further consideration of the License, the Company is required to pay royalties to APG, as described in the License, upon the sales of products and services covered by the Patent and with respect to revenue received by the Company from sublicenses of the Patent.

The foregoing descriptions of the License the escrow agreement referred to in this Current Report on Form 8-K do not purport to be complete and are qualified in their entirety by reference to the complete text of such agreements, which are filed as Exhibits 10.1 and 10.2 hereto, respectively, and which are incorporated herein by reference.

Item 3.02. Unregistered Sales of Equity Securities.

See Item 1.01 of this Current Report on Form 8-K, which Item is incorporated herein by this reference, for a description of the issuance of 2,000,000 shares of the Company’s common stock to APG. The issuance of such shares is exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 4(2) of such Act.

Item 7.01. Regulation FD Disclosure.

On June 22, 2009, the Company issued a press release announcing the matters described in Item 1.01 of this Current Report on Form 8-K. The press release is attached hereto as Exhibit 99.1 and is incorporated herein by this reference. The press release and the information in Item 7.01 of this Form 8-K shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall they be deemed incorporated by reference in any filing under the Securities Act, except as shall be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.
