3 Forward - Looking Statements and Non - GAAP Financial Measures Certain statements contained in this presentation may not be based on historical facts and are "forward - looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward - looking statements may be identified by reference to a future period(s) or by the use of forward - looking terminology, such as "anticipate," "estimate," "expect," "foresee," "believe," "may," "might," "will," "would," "could" or "intend," future or conditional verb tenses, and variations or negatives of such terms. These forward - looking statements include, without limitation, those relating to the Company's future growth, revenue, assets, asset quality, profitability and customer service, critical accounting policies, net interest margin, non - interest revenue, market conditions related to the Company's common stock repurchase program, allowance for loan losses, the effect of certain new accounting standards on the Company's financial statements, income tax deductions, credit quality, the level of credit losses from lending commitments, net interest revenue, interest rate sensitivity, loan loss experience, liquidity, capital resources, market risk, earnings, effect of pending litigation, acquisition strategy, legal and regulatory limitations and compliance and competition. These forward - looking statements involve risks and uncertainties, and may not be realized due to a variety of factors, including, without limitation: changes in the Company's operating or expansion strategy or the Company's ability to successfully execute such strategy, the effects of future economic conditions, governmental monetary and fiscal policies, as well as legislative and regulatory changes; the risks of changes in interest rates and their effects on the level and composition of deposits, loan demand and the values of loan collateral, securities and interest - sensitive assets and liabilities; the costs of evaluating possible acquisitions and the risks inherent in integrating acquisitions; the effects of competition from other commercial banks, thrifts, mortgage banking firms, consumer finance companies, credit unions, securities brokerage firms, insurance companies, money market and other mutual funds and other financial institutions operating in the Company's market areas and elsewhere, including institutions operating regionally, nationally and internationally, together with such competitors offering banking products and services by mail, telephone, computer and the Internet; the failure of assumptions underlying the establishment of reserves for possible loan losses, fair value for covered loans, covered other real estate owned and FDIC indemnification asset; and those factors set forth under Item 1A. Risk Factors of the Company's Annual Report on Form 10 - K for the year ended December 31, 2017, and other cautionary statements set forth elsewhere in the Company's filings with the U.S. Securities and Exchange Commission. Many of these factors are beyond the Company's ability to predict or control. In addition, as a result of these and other factors, the Company's past financial performance should not be relied upon as an indication of future performance. The Company believes the expectations reflected in its forward - looking statements are reasonable, based on information available to the Company on the date hereof. However, given the described uncertainties and risks, the Company cannot guarantee our future performance or results of operations and you should not place undue reliance on these forward - looking statements. The Company undertakes no obligation to update or revise any forward - looking statements, whether as a result of new information, future events or otherwise, and all written or oral forward - looking statements attributable to the Company are expressly qualified in their entirety by this section. Annualized, pro forma, projected, and estimated numbers are used for illustrative purposes only, are not forecasts, and may not reflect actual results. Non - GAAP Financial Measures This document contains financial information determined by methods other than in accordance with generally accepted accounting principles (GAAP). The Company's management uses these non - GAAP financial measures in their analysis of the company's performance. These measures typically adjust GAAP performance measures to include the tax benefit associated with revenue items that are tax - exempt, as well as adjust income available to common shareholders for certain significant activities or nonrecurring transactions. Since the presentation of these GAAP performance measures and their impact differ between companies, management believes presentations of these non - GAAP financial measures provide useful supplemental information that is essential to a proper understanding of the operating results of the company's core businesses. These non - GAAP disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non - GAAP performance measures that may be presented by other companies. Non - GAAP financial measures in this presentation include, without limitation: Core ROA, Core ROTCE, Core EPS, Core Diluted EPS, Core NIM, Efficiency ratio, Core Non - Interest Income to

Edgar Filing: SIMMONS FIRST NATIONAL CORP - Form FWP

Revenue, Pre - Tax Income (Core), Tangible Common Equity to Tangible Assets ratio, Core ROAA and Core ROATCE . A reconciliation of these non - GAAP financial measures to the most directly comparable GAAP financial measures is set forth in the Appendix to this presentation.

25 Credit Quality: Loan & Credit Coverage Upon acquisition of a portfolio, all loans are considered acquired and have a credit mark (loan discount) in place to cover potential exposure . When an acquired, non - impaired loan is renewed or otherwise is re - underwritten for a formal modification or change in terms, the loan is then considered as a legacy credit (migrated loan) and is expected to conform to current policy guidelines . Acquired, impaired loans remain in the acquired pools for the life of the loan regardless of renewal or modification status . Migrated loans that convert to the legacy portfolio are considered to be of acceptable risk to the bank and are subject to ALLL methodology . As with newly originated loans, acceptable credit risk loans require a lower ALLL allocation than those with a higher level of risk . Therefore, our ALLL to total loans ratio has declined, as the quality of loans subject to our ALLL methodology has improved . When acquired loan credit mark is included, our total coverage ratio remains over 1 . 20 % .
