CHECK POINT SOFTWARE ANNOUNCES

CONTINUING SHARE REPURCHASE PROGRAM

*Board of Directors Approves Plan to Acquire up to \$200 Million Additional
Outstanding Common Stock*

REDWOOD CITY, Calif.- July 25, 2005 Check Point Software Technologies Ltd. (Nasdaq: CHKP), the worldwide leader in securing the Internet, today announced that its Board of Directors has authorized the repurchase of up to an additional \$200,000,000 of its outstanding common stock in the open market or through privately negotiated transactions.

Under the repurchase program, share purchases may be made from time to time depending on market conditions, share price, trading volume and other factors. The repurchase program has no time limit and may be suspended from time to time or discontinued. The share repurchases will be funded from available working capital. As of June 30, 2005, Check Point had approximately 252 million shares of common stock outstanding on a fully diluted basis.

Since its initial share repurchase program commenced in October 2003, Check Point has purchased approximately 18.7 million shares for a total of \$397 million.

Safe Harbor Statement

Certain statements in this press release are forward-looking statements. Forward-looking statements include statements regarding Check Point's anticipated re-purchase of shares. Because such statements deal with future events, they are subject to various risks and uncertainties and actual results could differ materially from Check Point's current expectations. Factors that could cause or contribute to such differences include, but are not limited to: the price of the shares, the impact on revenues of economic and political uncertainties and weaknesses in various regions of the world, including the commencement or escalation of hostilities or acts of terrorism; the inclusion of network security functionality in third-party hardware or system software; any unforeseen developmental or technological difficulties with regard to Check Point's products; changes in the competitive landscape, including new competitors or the impact of competitive pricing and products; a shift in demand for products such as Check Point's; unknown factors affecting third parties with which Check Point has formed business alliances; timely availability and customer acceptance of Check Point's new and existing products, and other factors and risks discussed in Check Point's Annual Report on Form 20-F for the year ended December 31, 2004, which is on file with the Securities and Exchange Commission. Check Point assumes no obligation to update information concerning its expectations.

About Check Point Software

Check Point Software Technologies Ltd. (www.checkpoint.com) is the worldwide leader in securing the Internet. It is the market leader in the worldwide enterprise firewall, personal firewall and VPN markets. Through its NGX platform, the company delivers a unified security architecture for a broad range of perimeter, internal and Web security solutions that protect business communications and resources for corporate networks and applications, remote employees, branch offices and partner extranets. The company's ZoneAlarm product line is one of the most trusted brands in Internet security, creating award-winning endpoint security solutions that protect millions of PCs from hackers, spyware and data theft. Extending the power of the Check Point solution is its Open Platform for Security (OPSEC), the industry's framework and alliance for integration and interoperability with best-of-breed solutions from over 350 leading companies. Check Point solutions are sold, integrated and serviced by a network of more than 2,200 Check Point partners in 88 countries.
