**ANNOUNCES CONSOLIDATED SIX-MONTH PERIOD ( 1H03 )**

**AND SECOND QUARTER ( 2Q03 ) RESULTS FOR FISCAL YEAR 2003\***

**MAJOR EVENTS AND DEVELOPMENTS FOR 1H03**

- Net Revenues amounted to P\$1,750MM (-P\$544 MM or -24% vs 1H02).
- Operating Loss amounted to P\$7 MM.
- Net Profit of P\$1,288 MM was due to:
  - Ø Financial & Holding Results was P\$1,019 MM mainly generated by the appreciation of the Argentine Peso.
  - Ø The Debt Restructuring Results originated by the tender offer for the financial debt (P\$374 MM).
- In spite of the Net Profit registered, the accumulated Net Loss amounted to P\$ 2,200 MM for the last 18 months (since the devaluation of the Argentine Peso).

## Edgar Filing: TELECOM ARGENTINA STET FRANCE TELECOM SA - Form 6-K

- Shareholders Equity amounted to P\$2,105 MM.
- Net Financial Debt as of June 30, 2003 reached P\$7,475 MM.
  - Ø The Financial Indebtedness Ratio (Net Financial Debt / Shareholders equity) reached 3.55.
- The operations of the Company are still being impacted by:
  - Ø The pesification and freeze of regulated tariffs.
  - Ø The low levels of consumption and the uncertainty with respect to the macroeconomic situation in Argentina.
- Going forward, Financial & Holding Results could be highly impacted by the fluctuation of the exchange rate.

	As of June 30			
	2003	2002	Δ %	Δ %
Net revenues (in MM P\$)	1.750	2.294	(544)	-24%

\* Non-financial data unaudited.

**Buenos Aires, August 8, 2003** **Telecom Argentina STET-France Telecom S.A. (BASE: TECO2, NYSE: TEO)**, one of Argentina's largest telecommunications companies, announced today a consolidated net income of P\$1,288 million, under Argentine GAAP, for the six-month period ended June 30, 2003 ( 1H03 ) as a result of the effect of the appreciation of the peso on the Company's holdings. Comparatively, consolidated net loss for the six-month period ended June 30, 2002( 1H02 ) was P\$4,631 million. Consolidated net income for the second quarter of fiscal year 2003 ( 2Q03 ) was P\$381 million. Comparatively, consolidated net loss for the second quarter of fiscal year 2002 ( 2Q02 ) was P\$897 million.

Earnings/(loss) per share and ADR for 1H03 amounted to P\$1.30 and P\$6.54, respectively. In comparison, earnings/(loss) per share and ADR for 1H02, were P\$(4.70) and P\$(23.52), respectively. Earnings/ (loss) per share and ADR for 2Q03 amounted to P\$0.38 and P\$1.93 respectively. In comparison, earnings/(loss) per share and ADR for 2Q02 were P\$(0.91) and P\$(4.55), respectively.

Gross profit/(loss), operating profit before depreciation and amortization, operating profit/(loss) and net income/(loss) for 1H03 represented 29%, 54%, (0.40%) and 74% of net sales, respectively; compared with 33%, 45%, (0.92%) and (202%), respectively, for 2H02. Gross profit/(loss), operating profit before depreciation and amortization, operating profit/(loss) and net income/(loss) for 2Q03 represented 32%, 55%, 2% and 42% of net sales, respectively; compared with 24%, 45%, (10%) and (97%), respectively, for 2Q02.

**Consolidated Operating**

**Profit before D&A**

(in MM P\$)

The Company has accounted for the effects of inflation adjustment as adopted by Resolution 415/02 of the Comisión Nacional de Valores ( CNV ) by following the method adopted by Resolution N°6 and modified by Resolution N°19, to of restating the figures using the wholesale rate of inflation as from January 1, 2002 according to Decree N°1,269/02.

However, the Government through Decree N°664/03 stated that regulatory entities are not allowed to receive financial statements adjusted by inflation. Accordingly, the CNV, through resolution N°441/03, required the Companies under their supervision to discontinue, as of March 1, 2003, the inflation adjustment method stated by Resolution N°6 and complementary regulations. Therefore, the Company has accounted for the inflation effect until February 28, 2003 and is showing the comparative figures using the adjustment factor of 1.1237 that corresponds to the period June 2002 to February 2003.

Moreover, in Point 9 of the financial tables included herein, the Company is providing additional information for a better

understanding of the business including figures that have not been adjusted by inflation and which were used as the base for the information presented in constant pesos. This information, which is not required by the current professional accounting rules, can be found in note 16 to the Consolidated Financial Statements as of June 30, 2003 as Relevant Additional Information . Comments related to variations in revenues and costs for the different activities correspond to figures non-adjusted by inflation or current pesos and are related to the mentioned note and tables.

### Company Activities

#### **Consolidated Net Revenues**

Consolidated net revenues for 1H03 totaled P\$1,750 million, a decrease of P\$544 million or 24%, compared with P\$2,294 million for 1H02. It must be noted that the regulated rates remained frozen after the pesification enforced by the Government. Revenues for 1H03, without the adjustment for inflation, would have reached P\$1,749 million, an increase of P\$232 million or 15% compared to 1H02 (P\$1,517 million). This increase is mainly a consequence of the increases in non-regulated services, as explained below.

#### **Fixed lines**

( 000)

In the basic telephony business, the main component of revenues, measured service, decreased by P\$150 million or 26% to P\$434 million during 1H03 as compared to 1H02 (P\$584 million). Non-adjusted figures would have shown an increase of P\$53 million or 14%. Revenues from domestic long distance increased as a consequence of higher traffic and higher average rates prompted by the reduction in promotional discounts. Revenues from local telephony increased slightly mainly due to higher traffic.

Total traffic volume (Local and DLD), measured in minutes, increased by 1% for 1H03 when compared to 1H02. Additionally, the outgoing international long distance traffic, measured in minutes, decreased by 20%, when compared to 1H02.

#### **Traffic**

(in MM minutes)

Monthly charges decreased by P\$170 million or 36%, to P\$297 million for 1H03 when compared to 1H02. Non-adjusted figures would have shown a decrease of P\$2 million or 1% reaching P\$297 million mainly due to a lower average number of lines in service of approximately 132,000 lines. Lines in services as of June 30, 2003 reached approximately

3,579,000 compared with approximately 3,632,000 as of June 30, 2002. Moreover, monthly charges remained stable after the pesification and freeze enforced by the Government.

Revenues from installation fees paid by new customers increased by P\$1 million or 9% to P\$12 million for 1H03 when compared to 1H02. Non-adjusted figures would have shown an increase of P\$4 million or 50%, largely due to a higher number of lines connected.

Revenues from public telephony decreased by P\$27 million or 24% to P\$84 million for 1H03 when compared to 1H02. Non-adjusted figures would have shown an increase of P\$12 million or 17% as a consequence of the higher traffic generated by public telephony telecommunication centers ( Telecentros ).

#### **Public Telephony Lines**

( 000)

Revenues generated by interconnection services during 1H03 decreased by P\$33 million or 32% to P\$70 million. Non-adjusted figures would have shown an increase of P\$3 million or 4%.

Regarding the international telephony business, during 1H03 revenues decreased by P\$46 million or 31% to P\$102 million when compared to 1H02. Non-adjusted figures would have shown an increase of P\$1 million or 1%, mainly due to the revenues generated by Telecom's subsidiary Telecom USA and lower discounts. These effects were partially offset by the freeze of regulated rates, lower outgoing traffic and lower revenues derived from incoming traffic.

#### **International Traffic**

(in MM minutes)

Revenues generated by the data transmission business totaled P\$166 million during 1H03, representing a decrease of P\$28 million or 14% when compared to 1H02. Non-adjusted figures would have shown an increase of P\$42 million or 34%, as a consequence of higher revenues generated by the ground networks and lease of data circuits. Additionally, internet dial-up measured services increased as a consequence of the higher number of Internet subscribers that use local numbers with 4004 numbering or similar to access Telecom's network. As of June 30, 2003 Internet minutes represented 32% of total traffic measured in minutes transported over the fixed-line network.

#### **Internet Traffic**

(in MM minutes)

Internet revenues from the Arnet unit, decreased by P\$3 million or 10% to P\$28 million during 1H03. Non-adjusted figures would have shown an increase of P\$8 million or 40%, mainly due to the increase in ADSL high-speed access and dial-up monthly fees. As of June 30, 2003, the number of ADSL subscribers reached approximately 35,000. Furthermore, Internet dial-up customers reached approximately 152,000.

The revenues generated by the cellular business during 1H03 decreased by P\$76 million or 13% to P\$512 million when compared to 1H02. Non-adjusted figures would have shown an increase of P\$103 million or 25%.

#### **Cellular Subscribers in Argentina**

**( 000)**

Non-adjusted revenues of Telecom Personal in Argentina would have increased by P\$129 million or 41% to P\$442 million when compared to 1H02 mainly due to higher sales of pre-paid cards and higher Calling Party Pays revenues.

#### **Cellular usage in Argentina**

**(ARPU in P\$/MOU in minutes)**

Furthermore, the average revenue per user increased by 30% (to P\$30 per customer per month for 1H03, denominated in current pesos). Total cellular subscribers of Telecom Personal in Argentina reached approximately 2,254,000, representing an increase of approximately 138,000 customers, or 7%, as compared to June 30, 2002.

#### **Total Cellular Traffic and Subscribers in Argentina**

The customer base as of June 30, 2003 amounted to approximately 1,838,000 prepaid subscribers, representing 82% of the total customer base, and approximately 416,000 post-paid subscribers, representing the remaining 18% of the total customer base.

Núcleo, Telecom Personal's subsidiary that provides cellular and PCS services in Paraguay, generated P\$70 million in revenues during 1H03, which are consolidated into the revenues of Telecom Personal. This represented a decrease of P\$38 million or 35% as compared to 1H02. Non-adjusted figures would have shown a decrease of P\$26 million or 27%. The decrease can be mainly attributed to the appreciation of the peso against the dollar as these revenues are denominated in foreign currency, the slight decrease in the customer base and the lower average revenue per user.

#### **Cellular Subscribers in Paraguay**

( 000)

As of June 30, 2003, Núcleo had approximately 516,000 cellular and PCS customers, a decrease of approximately 29,000 customers or 5% when compared to June 30, 2002.

In the telephone directories publishing business, revenues from our affiliated company Publicom remained at the same level of P\$2 million for both 1H03 and 1H02.

#### **Operating Costs**

The cost of services provided, administrative expenses and selling expenses for 1H03 decreased by P\$558 million or 24% to P\$1,757 million when compared to 1H02, mainly as a result of the adjustment by inflation of figures as of June 30, 2002 and to cost reduction plans implemented by the Company.

Salaries and social security contributions decreased by P\$121 million or 35% to P\$228 million for 1H03. Non-adjusted figures would have shown a slight decrease of P\$2 million or 1%, primarily due to the reduction in labor costs of unionized and non-unionized employees and reductions in headcount. As of June 30, 2003, the headcount totaled 13,091 as compared to 14,229 as of March 31, 2002. This effect was partially offset by the increase in social security contributions since March 1, 2003 and the salary increase for unionized employees mandated by the Government.

#### **Employees**

Expenses related to taxes decreased by P\$30 million or 19% to P\$125 million for 1H03. Non-adjusted figures would have shown an increase in taxes of P\$23 million or 23%, mainly due to the increase in the turnover tax in the fixed telephony, internet and data businesses as the sales in these businesses have increased. Additionally, an increase in the applicable rate in the turnover tax in the cellular activity was registered.

Materials and supplies charges decreased by P\$28 million or 29% to P\$69 million for 1H03. Non-adjusted figures would have shown an increase of P\$6 million or 10% reaching P\$67 million mainly due to higher expenses associated with higher costs for the maintenance of the network, hardware and software due to the high imported materials content. Additionally, higher expenses were registered for the maintenance of the submarine cable.

The allowance for doubtful accounts decreased by P\$149 million or 92% to P\$13 million for 1H03. Non-adjusted figures would have shown a decrease of P\$85 million or 87%. The decrease was evidenced in the residential segments and it is related to the decrease in customer lines. Furthermore, a better level of collections was applied.

Commissions paid to vendors and card sales increased by P\$9 million or 28% to P\$41 million for 1H03. Non-adjusted figures would have shown an increase of P\$16 million or 64%, as a consequence of higher commissions paid for new cellular customers and higher costs for distribution and prepaid card sales.

Interconnection costs decreased by P\$21 million or 26% to P\$60 million for 1H03. Non-adjusted figures would have shown an increase of P\$7 million or 13% mainly as a result of higher charges paid for local and long distance access, circuits rentals and termination charges for traffic related to 4004 services in the Internet business.

Service fees decreased by P\$13 million or 20% to P\$52 million for 1H03. Non-adjusted figures would have shown an increase of P\$8 million or 18%, principally due to higher fees related to information systems and advisory services.

Management fees decreased by P\$20 million, or 95%, to P\$1 million for 1H03. Non-adjusted figures would have shown a decrease of P\$11 million or 92%, as the Company and the Operators agreed to suspend certain provisions of both parties of the management contract, starting April 1<sup>o</sup>, 2002. As a consequence, the accrual and the payment of the management fee have been suspended from such day and until the termination of the Management Contract provided in point 7.2. of such contract (October 2004).

Costs related to advertising decreased by P\$11 million or 58% to P\$8 million for 1H03. Non-adjusted figures would have shown a decrease of P\$4 million or 33%. This is

mainly due to lower media advertising and promotional and institutional campaigns expenses resulting from the cost control plan.

Cost of cellular handsets decreased by P\$6 million or 67% to P\$3 million for 1H03. Non-adjusted figures would have shown a decrease of P\$4 million or 57% mainly due to the lower number of cellular handsets sold.

Other expenses decreased by P\$53 million or 27% for 1H03, reaching P\$147 million. Non-adjusted figures would have shown an increase of P\$16 million or 12%, mainly due to higher costs for to insurance policies.

#### Lines per employee

Depreciation of fixed assets decreased by P\$104 million or 10%, to P\$895 million during 1H03, as a consequence of the end of the amortization period of some assets and lower depreciation of capitalized foreign currency exchange differences originated by financial debt.

Finally, amortization of intangible assets increased by P\$11 million or 25% to P\$55 million for 1H03, mainly due to higher charges related to exclusivity rights and information systems development in the cellular business.

### **Financial and Holding Results**

The gains resulting from financial and holding results reached P\$1,019 million for 1H03 as compared to the loss of P\$6,921 million in 1H02. This improvement can be largely attributed to the \$1,399 million gain arising from currency exchange differences derived from the appreciation of the Peso during the six-month period, which affected the company's net foreign currency monetary position. Additionally, as a consequence of the lower exchange rate, the interest on foreign currency liabilities decreased by \$165 million when compared with 1H02.

### **Other Expenses**

Other expenses (net) increased P\$1 million or 1% to P\$86 million 1H03 in compared with 1H02 as a result of the inflation adjustment of figures as of June 30, 2002, higher reserves for lawsuits and contingencies and higher severance and termination charges.

### **Debt Restructuring Results Tender Offer**

## Edgar Filing: TELECOM ARGENTINA STET FRANCE TELECOM SA - Form 6-K

As a result of the Tender Offers described in "Other Matters" the Company registered an extraordinary result of \$374 million. This result corresponds to \$359 million of gains related to the discount on principal and \$50 million to reversal of accrued interest. Additionally, the result is net of the reversal of capitalized exchange differences (\$21 million) and related costs (\$14 million).

### **Cash flow and Net Financial Debt**

Net Financial Debt (Loans + Cash and banks plus Current Investments) decreased by P\$5,099 million or 41% to P\$7,475 million for 1H03 compared with 1H02 (P\$12,574 million in current pesos), as a consequence of the lower foreign exchange rate, the results of the Cash Tender Offer and the cash generation from operations.

### **Investment Plan**

Telecom has made investments in fixed assets of P\$20,831 million, since the start of operations on November 8, 1990, of which P\$34 million corresponds to 1H03. As of June 30, 2003, the net book value of fixed assets totaled P\$8,689 million.

Of the total amount invested during 1H03, P\$21 million or 62% corresponds to basic telephony, data transmission and Internet (public telephony 10%, transmission 24% and outside plant 38%, switching 19% and computer equipment 9%) and P\$13 million or 38% to cellular telephony.

### **Other Matters**

#### **Debt Restructuring Process**

On June 2, 2003, Telecom Argentina and its subsidiary Telecom Personal announced the expiration of their respective cash tender offers for a portion of their financial debt instruments which commenced on Wednesday, April 16, 2003.

Telecom Argentina purchased an aggregate principal amount equal to approximately US\$175 million of its outstanding notes and US\$34 million of its outstanding indebtedness under credit facilities, for the aggregate offer consideration of the equivalent of US\$115 million.

Telecom Personal purchased an aggregate principal amount equal to approximately US\$80 million of its outstanding indebtedness under credit facilities with financial creditors for the aggregate offer consideration of the equivalent of US\$44 million.

The purchase price for the Companies debt instruments, expressed as a percentage of the principal amount of the tendered debt instruments, was equal to 55%.

Edgar Filing: TELECOM ARGENTINA STET FRANCE TELECOM SA - Form 6-K

The Companies also announced that on June 2, 2003 they have made partial interest payments on their respective financial debt obligations. Telecom Argentina and Telecom Personal paid a total of US\$96 million and US\$11 million of accrued interest.

**Tariff renegotiations**

On June 4, 2003 through Decree 311, the Executive Power created the Unit for the Renegotiations and Analysis of the Public Services Contracts. The Unit, a joint body of the Ministry of Economy and the Ministry of Federal Planning, Public Investments and Services, will be in charge of the renegotiations of the contracts of the public services mandated by the Emergency Law N° 25.561. The Unit will sign the new contracts ad referendum of the Executive Power and will have the power to propose transitory increases of tariffs, prices or new segmentation of them.

The new body will continue the task initially undertaken by the Commission for the Renegotiations of Contracts and will have until December 2004 to finish the assignment.

\*\*\*\*\*

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers by itself or through its controlled subsidiaries local and long distance basic telephony, cellular, PCS, data transmission, and Internet services, among other services. Additionally, through a controlled subsidiary the Telecom Group offers cellular and PCS services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine Government's transfer of the telecommunications system in the northern region.

Nortel Inversora S.A. (Nortel), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company where the common stock (aprox. 68% of capital stock) is owned in equal parts by the Groups Telecom Italia and France Telecom. Additionally, the capital stock of Nortel is comprised of preferred shares that are in hands of minority shareholders.

On March 31, 2003, Telecom had 984,380,978 shares outstanding.

[Disclaimer](#)

This document may contain statements that could constitute forward-looking statements, including, but not limited to the Company's expectations for its

future performance, revenues, income, earnings per share, capital expenditures, dividends, liquidity and capital structure; the impact of recent emergency laws enacted by the Argentine Government; and the impact of rate changes and competition on the Company's future financial performance. Forward looking statements may be identified by words such as believes, expects, anticipates, projects, intends, should, estimates, future or other similar expressions. Forward-looking statements involve risks and uncertainties that could significantly affect the Company's expected results. The risks and uncertainties include, but are not limited to, uncertainties concerning the impact of recent emergency laws enacted by the Argentine Government which have resulted in the repeal of Argentina's Convertibility law, the devaluation of the peso, restrictions on the ability to exchange pesos into foreign currencies, the adoption of a restrictive currency transfer policy, the pesification of tariffs charged for public services, the elimination of indexes to adjust rates charged for public services and the Executive branch announcement to renegotiate the terms of the concessions granted to public service providers, including Telecom. Due to extensive and rapid changes in laws and economic and business conditions in Argentina, it is difficult to predict the impact of these changes on the Company's financial condition. Other factors may include, but are not limited to, the current and on-going recession in Argentina, growing inflationary pressure and reduction in consumer spending and the outcome of certain legal proceedings. Readers are cautioned not to place undue reliance on forward looking statements, which speak only as the date of this document. The Company undertakes no obligation to release publicly the results of any revisions to forward looking statements which may be made to reflect events and circumstances after the date of this press release, including, without limitation, changes in the Company's business or to reflect the occurrence of unanticipated events. Readers are encouraged to consult the Company's Annual Report and Form 20-F as well as periodic filings made on Form 6-K, which are filed with or furnished to the United States Securities and Exchange Commission.
