INFORMATION CONCERNING VOTING AND SOLICITATION

General Information

The IR Board of Directors is soliciting proxies to be used at the June 2, 2004 Annual General Meeting of Shareholders. This proxy statement and the accompanying proxy card are being distributed beginning on or about April 15, 2004.

In this proxy statement, IR, the Company, we, us and our refer to Ingersoll-Rand Company Limited or, for any information prior to January 2002, to Ingersoll-Rand Company, a New Jersey corporation which, as of that date, became the primary U.S. subsidiary of Ingersoll-Rand Company Limited.

Our principal executive offices are located at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. The telephone number there is (441) 295-2838. The executive offices of our principal United States subsidiary are located at 200 Chestnut Ridge Road, Woodcliff Lake, New Jersey 07677. The telephone number there is (201) 573-0123.

Annual General Meeting Admission

Either an admission ticket or proof of ownership of Class A common shares, as well as a form of personal identification, must be presented in order to be admitted to the Annual General Meeting. If you are a shareholder of record, your admission ticket is attached to your proxy card. If you plan to attend the Annual General Meeting, please vote your proxy, but keep the admission ticket and bring it to the Annual General Meeting together with a form of personal identification.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

If your shares are held in the name of a bank, broker or other holder of record and you plan to attend the Annual General Meeting, you must present proof of your ownership of Class A common shares, such as a bank or brokerage account statement, together with a form of personal identification to be admitted to the Annual General Meeting. If you would rather have an admission ticket, you can obtain one in advance by mailing a written request, **along with proof of your ownership of Class A common shares**, to:

Secretary
Ingersoll-Rand Company Limited
200 Chestnut Ridge Road
Woodcliff Lake, New Jersey 07677

No cameras, recording equipment, electronic devices, large bags, briefcases or packages will be permitted in the Annual General Meeting.

Who Can Vote

Shareholders of record of our Class A common shares at the close of business on April 2, 2004 may vote at the Annual General Meeting.

Table of Contents

On April 2, 2004, 172,558,004 Class A common shares were outstanding. Each shareholder has one vote for each Class A common share owned of record at the close of business on the record date.

How You Can Vote

Shareholders of record can give a proxy to be voted at the meeting in any one of the following ways:

over the telephone by calling the toll-free number identified on the attached proxy card;

over the Internet; or

by completing, signing and returning the enclosed proxy card.

Shareholders who hold their shares through a broker (in street name) must vote their shares in the manner prescribed by their brokers.

The telephone and Internet voting procedures have been set up for your convenience. These procedures are designed to authenticate your identity, to allow you to give voting instructions, and to confirm that those instructions have been recorded properly. If you are a shareholder of record and you would like to vote by telephone or by using the Internet, please refer to the specific instructions contained on the enclosed proxy card. If you wish to vote using the enclosed proxy card, please sign and return your signed proxy to us before the annual general meeting, and we will vote your shares as you direct.

Whether you vote by telephone, over the Internet or by mail, you can specify whether your shares should be voted for all, some or none of the nominees for director (Item 1 on the proxy card). You can also specify whether you approve, disapprove or abstain from the other proposals presented at the meeting.

If you do not specify on your proxy card (or when giving your proxy by telephone or over the Internet) how you want to vote your shares, we will vote them FOR the election of all nominees for director as set forth under Item 1, FOR Items 2, 3 and 4, and AGAINST Items 5, 6 and 7.

How to Vote under Our Employee Plans

If you participate in the Ingersoll-Rand Company Employee Savings Plan, the IR/Clark Leveraged Employee Stock Ownership Plan, the Ingersoll-Rand Company Employee Savings Plan for Bargained Employees, or the Dresser-Rand Company Retirement Savings Plan, then you may be receiving these materials because of shares held for you in those plans. In that case, you may use the enclosed proxy card to instruct the plan trustees of those plans how to vote your shares, or give those instructions over the telephone or the Internet. They will vote the shares in accordance with your instructions and the terms of the plan.

If you do not provide voting instructions for shares held for you in any of these plans, they will vote these shares in the same ratio as the shares for which voting instructions are provided.

Revocation of Proxies

You may revoke your proxy at any time before it is exercised in any of following ways:

by notifying IR's Secretary in writing;

by submitting another proxy by telephone, via the Internet or by mail that is received later and, if by mail, that is properly signed; or

by voting in person at the meeting.

You may not revoke a proxy merely by attending the meeting. To revoke a proxy, you must take one of the actions described above.

Table of Contents

Quorum and Required Votes

The presence, in person or by proxy, of the holders of a majority of all outstanding Class A common shares is necessary to constitute a quorum.

In voting for the election of directors, shareholders have cumulative voting rights. Accordingly, you may cumulate your voting power and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of your votes, or distribute your votes on the same principle among two or more candidates, as you see fit. The enclosed proxy grants discretionary authority for the exercise of such cumulative voting rights. The cumulative voting feature applicable to the election of directors is only available by voting the proxy card. It is not available if you vote by telephone or over the Internet. In the election of directors, persons receiving the highest number of FOR votes will be elected.

The affirmative vote of a majority of shares present in person or represented by proxy at the meeting and entitled to vote, and voting on the matter presented, is required to approve each proposal other than the election of directors.

Abstentions are counted as shares present at the meeting for the purposes of determining whether a quorum exists. However, since abstentions are not votes in favor of or against any matter, they will not affect the outcome of the vote. Proxies submitted by brokers that do not indicate a vote for some or all of the proposals because they do not have discretionary voting authority and have not received instructions as to how to vote on those proposals (so-called broker nonvotes) are also considered shares present, but also will not affect the outcome of any vote.

Solicitation

We have hired Georgeson Shareholder Communications Inc. to assist in the distribution of proxy materials and the solicitation of proxies for a fee estimated at \$12,500, plus out-of-pocket expenses. Proxies will be solicited on behalf of the Board of Directors by mail, in person and by telephone. We will bear the cost of soliciting proxies. We will also reimburse brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy materials to the persons for whom they hold shares.

Audited Financial Statements

Under our Bye-laws and Bermuda law, audited financial statements must be presented to shareholders at an annual general meeting of shareholders. To fulfill this requirement, we will present at the annual general meeting audited consolidated financial statements for the fiscal year 2003. Copies of the financial statements are contained in our 2003 Annual Report to Shareholders, which is being mailed to shareholders together with this proxy statement.

Other Matters to be Acted Upon

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

We do not know of any matters to be presented or acted upon at the meeting other than the items described in this proxy statement. Under our Bye-laws, shareholders may only bring business before an annual general meeting if it is submitted to our Secretary in a timely manner. (The deadline for timely proposals for future meetings is discussed under Shareholder Proposals and Nominations on page 36 of this proxy statement.) If any other matter is presented at the meeting on which a vote may properly be taken, the shares represented by proxies will be voted in accordance with the judgment of the person or persons voting those shares.

CORPORATE GOVERNANCE

Pursuant to our Bye-laws, the Company's business is managed by the Board of Directors. Members of the Board are kept informed of the Company's business through discussions with the Chief Executive Officer and other officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees.

Corporate Governance Principles

Our Corporate Governance Principles, together with the charters of the various Board committees, provide a framework for the corporate governance of the Company. The following is a summary of our Corporate Governance Principles. You can find a copy of our Corporate Governance Principles attached to this proxy statement as Appendix A. In addition, our Corporate Governance Principles, as well as the charters of our Board committees, are available on our website at <http://www.irco.com> under the heading Investor Relations.

Our Corporate Governance Principles, together with our Board committee charters, outline the responsibilities, composition and operation of our Board of Directors. Among the core responsibilities of the Board of Directors are: to oversee the management and governance of the Company; to select, monitor and evaluate senior management; to assure that management succession planning is ongoing; to review the Company's financial controls and reporting systems; and to review the Company's ethical standards and compliance procedures.

The Board of Directors has determined that all of our directors, except Herbert Henkel and Patricia Nachtigal, who are employees of the Company, are independent under the standards set forth in Exhibit I to our Corporate Governance Principles. It is the policy of the Board that directors' fees be the sole compensation received from the Company by any non-employee director. All directors must advise the Chairman of the Board and the Chair of the Corporate Governance and Nominating Committee if they are being considered for membership on the board of another public company. The Chief Executive Officer and other members of senior management of the Company must receive approval of the Board before accepting a public company board membership.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

Our Corporate Governance Principles require that all members of the committees of the Board must be independent directors. Committee memberships and chairs are rotated periodically. The Board and each of its committees have the authority to engage independent legal, financial or other advisers as they may deem necessary.

Our Corporate Governance Principles provide for executive sessions of the independent members of the Board of Directors, without management present, to consider such matters as the independent directors deem appropriate. Such executive sessions are held no less than twice each year. Our Lead Director (a) presides at all meetings of the directors at which the Chairman is not present, including executive sessions of the independent directors; (b) serves as a liaison between the Chairman and the independent directors; (c) approves the information sent to the directors; (d) with input from the other independent directors, approves Board meeting agendas and Board meeting schedules to assure that there is sufficient time for discussion of all agenda items; (e) has the authority to call meetings of the independent directors; and (f) is available for direct communication from

Table of Contents

major shareholders. The Lead Director is appointed annually by the Board from among the directors who are not Board committee chairs. Our current Lead Director is Ann Berzin.

The Corporate Governance and Nominating Committee assists the Board in evaluating its performance and the performance of the Board committees. Each committee also conducts an annual self-evaluation. The effectiveness of individual directors is considered each time a director stands for renomination. The directors have full access to management and corporate staff and are provided with an orientation program for new directors and continuing education for all directors.

Our Board of Directors is divided into three classes for purposes of election. One class is elected at each annual general meeting of shareholders to serve for a three-year term. In addition, directors elected by the Board of Directors to fill vacancies caused by the resignation, retirement or death of a director or the creation of a new directorship stand for election at the next annual general meeting.

The Board of Directors held six meetings during 2003. Each incumbent director attended 75% or more of the total number of meetings of the Board and the committees on which he or she served.

The Company expects all Board members to attend the annual general meeting of shareholders, but from time to time other commitments prevent all directors from attending each meeting. All directors attended the most recent annual general meeting of shareholders, which was held on May 29, 2003.

Shareholder Communications with Directors

Shareholders and other interested parties may send communications to Board members (including our Lead Director) by either sending a communication to the Board and/or a particular Board member, in care of the Secretary of the Company, or by e-mail at irboard@irco.com. Depending upon the nature of the communication and to whom it is directed, the Secretary will (a) forward the communication to the appropriate director or directors, (b) forward the communication to a department within the Company or (c) attempt to handle the matter directly (for example, a communication dealing with a share ownership related matter).

Code of Conduct

As provided in our Corporate Governance Principles, we have adopted a worldwide Code of Conduct, applicable to all employees, directors and officers, including our Chief Executive Officer, our Chief Financial Officer and our Controller. The Code of Conduct covers topics including, but not limited to, conflicts of interest, confidentiality of information, and compliance with laws and regulations. A copy of the Code of Conduct is available at our website located at <http://www.irco.com> under the headings Investor Relations Corporate Governance . We may post amendments to, or waivers of the provisions of, the Code of Conduct, if any, made with respect to any of our directors and executive officers on that website.

Compensation of Directors

Our compensation program for directors was changed during 2003. Under the new program directors who are not our employees receive an annual cash retainer of \$50,000 and \$1,500 for attendance at each board or committee meeting, except that committee chairs receive \$3,000 per committee meeting. In addition, each non-employee director is credited annually with units representing \$60,000 in fair market value of Class A common shares. The units are credited to an account maintained for each non-employee director (a Deferred Compensation Account) under our Directors Deferred Compensation and Stock Award Plan (the Director Deferral Plan).

Table of Contents

Directors who are not employees may also defer all or a portion of the cash retainer and meeting fees to which they are entitled. If a director defers his or her fees and elects to have the deferred fees invested in Class A common share units we credit an additional 20% of the retainer and meeting fees that are deferred to the director's Deferred Compensation Account. Each director is fully vested in amounts credited to the director's Deferred Compensation Account, except that the additional 20% contributions in respect of deferred fees are not vested until five years after crediting or, if earlier, the cessation of the director's service on the Board of Directors by reason of death or normal retirement (i.e., age 70). We have amended the Director Deferral Plan to provide that all distributions under that Plan are made in cash. Distributions of amounts invested in Class A common share units equal the then fair market value of a Class A common share multiplied by the number of units credited to the director's Deferred Compensation Account.

Executive Compensation

Report of the Compensation Committee

The Company's executive compensation program is administered by the Compensation Committee of the Board of Directors (the "Compensation Committee"), which is composed solely of independent non-employee directors. A copy of the charter of the Compensation Committee is attached to this proxy statement as Appendix C.

Compensation Philosophy, Beliefs and Principles

The purpose of our compensation programs is to enable the Company to attract, retain, deploy and focus the energies of people who are capable of meeting the current and future goals of the enterprise, most notably, the creation of shareholder value.

Four design principles govern all compensation programs:

1. Principle of general program competitiveness:

Total compensation opportunities within the Company must serve to attract and retain top performers. All of IR's executive compensation programs are based on market data to ensure their basic competitiveness. We establish our program target award levels at the median (50th percentile) of the markets in which we operate; we explicitly do not set our target award levels above the median to achieve a competitive advantage independent of performance, as this would tend to inappropriately accelerate markets over time.

2. Principle of pay for performance:

At the executive level, a large percentage of the executive's total compensation opportunity is contingent on, and variable with, performance. Performance is measured on business unit and enterprise financial performance against plan, and on the executive's ability to support enterprise

objectives, develop and carry out strategic initiatives, contribute to both the dramatic growth and operational excellence of the Company, and demonstrate collaboration in the pursuit of a one-company culture. The only way total compensation can exceed the market median is if performance exceeds the target, such as it has this past year (performance year 2003). In 2003, the Company exceeded its earnings per share target by 6.0%, its free cash flow target by 26.8%, and its return on investment capital target by 8.2%. Thus, variable compensation awards for 2003 performance reflect above target pay levels. Conversely, if performance falls short of the target, compensation falls below the median. For example, in 2001, when we achieved some of our goals, e.g., \$500,000,000 of cash flow, but fell short of others, e.g., earnings per share, our Annual Incentive Matrix (AIM) program and our Stock Option program paid at only 65% of target and our Performance Share Program paid nothing for most participants (2 of the 40 participants got below-target awards based on the performance of their respective business units; the other participants received nothing).

Table of Contents

3. Principle of internal equity:

An employee's total compensation is proportionate with work contributions, which is a function of each individual's role, capabilities and performance and the collective performance of the business unit in which the individual works.

4. Principle of alignment with various business strategies:

Although we have a Company-wide philosophy regarding the design of our compensation programs, we also understand the need to align the different performance metrics of our individual business units with our over-arching philosophy of appropriate competitiveness and pay for performance. Thus, it is not only possible but also desirable for certain sector or business unit leaders to earn substantial awards in years when their units outperform the enterprise as a whole.

Compensation Policies Applicable to Executive Officers

The Compensation Committee's executive officer compensation policies are based on the belief that the interests of the Company's executive officers should be aligned with those of the Company's shareholders. The policies relate compensation to both short-term (annual) and long-term (multi-year) financial performance of the Company, as well as to long-term shareholder investment returns. Executive officer compensation policies provide that executive compensation be both contingent and variable based upon Company financial and operational performance.

The Mix of Total Direct Compensation

The IR Executive Compensation Structure is comprised of four key programs: the Salary Program, the AIM Program, the Stock Option Program and the Performance Share Program, which collectively represent the total direct compensation opportunity for executives (excluding benefits).

The chart below shows the relative proportion of each program, by executive category:

# In Category	Base Salary Program	Variable Pay Programs				Total Variable Pay Opportunity	Total Direct Compensation
		Compensation Components That Are Explicitly Contingent On And Variable With Performance					
		AIM Program	Stock Option Program	Performance Share Program			

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

						<u>@ Target</u>	
Chairman, President, CEO	1	15%	17%	40%	28%	85%	100%
Senior Vice Presidents	8	25%	19%	43%	13%	75%	100%
Other Officers & Senior Leaders	34	32%	21%	35%	12%	68%	100%
Total Group	43	24%	19%	39%	18%	76%	100%

This chart demonstrates the degree to which IR's executive compensation programs are tied to some combination of financial, operational and stock price performance, and are, therefore, aligned with the creation of shareholder value. On average 57% of Total Direct Compensation depends on common share price. On average 76% of Total Direct Compensation is a function of performance.

In support of the compensation philosophy, the objectives which guide compensation policy and program development are to (a) provide a total compensation package that will attract, motivate and retain as senior management exceptionally talented individuals who are essential for building shareholder value on a long-term basis, (b) establish annual incentives for members of senior management that are directly tied to the overall financial performance of the Company and to their respective individual performances and (c) create long-term incentives to focus executives on managing from the viewpoint of an owner with an equity stake in the business,

Table of Contents

thereby aligning executive compensation with the returns realized by the Company's shareholders. While many compensation determinations are based upon objective criteria, certain of such determinations include subjective elements.

The objectives described above are generally accomplished through a mix of compensation components, targeted degrees of competitiveness and direct linkages to Company financial performance. The value of the variable compensation components (annual cash incentive payments plus stock options and equity-based awards) is directly linked to the financial performance of the Company and to the value of the Company's Class A common shares. Thus, alignment of the interests of the shareholders and of the executives is achieved.

The Compensation Committee periodically reviews and evaluates its executive officer compensation practices against the practices and pay levels of other similar companies. These comparisons are conducted continuously throughout the year through a variety of methods such as direct analysis of peer company proxy statements, compilation of survey data published by several independent consulting firms, and customized compensation surveys performed by independent consulting firms. The companies included in these compensation surveys are not necessarily the same as those comprising the Standard Poor's Supercom Industrial Machinery Index referred to below under the caption "Performance Graph," although some of the companies comprising such Index are included in the compensation surveys.

Salary increases normally are granted annually to executive officers by the Compensation Committee based upon individual performance, the Compensation Committee's evaluation of general U.S. industry salary trends derived from surveys and various business publications and the salaries paid for comparable positions at the surveyed corporations referred to above. Weighing of these salary determination factors varies because each salary determination is based upon an individual's particular circumstances.

Executive officers with direct responsibility for business unit operations may receive annual cash incentive awards under the terms of written performance agreements established early each year. The agreements for 2003 provided that a bonus equal to 60-70% of salary would be payable if their respective business units met certain pre-established sales, operating income, cash flow and return on invested capital targets, and an additional 30-35% of salary would be payable for substantially exceeding those targets. Conversely, if performance in one or more of those financial performance categories falls to 80% or lower, then no award is earned for that category. In addition, a discretionary bonus of up to 40% of salary would be payable based upon subjective criteria applicable to the respective operations managed by these executive officers.

Other executive officers, including those responsible for staff functions, may receive annual cash incentive awards based upon both the Company's and their individual performance during each such year. Individual performance assessments are based on judgments about the achievement of pre-established objectives. In fixing such bonus awards, the Compensation Committee considers several financial metrics, including the Company's earnings per share, cash flow, and return on invested capital performance compared to the annual plan and also the individual's contribution to such performance. In addition, the general economic environment in which the Company operated during such year is taken into account as are the prevailing pay levels for similar positions in similar companies.

The Senior Executive Performance Plan (the "Performance Plan") limits the cash incentive awards that may be granted to participants in the Performance Plan, who consist of the Chief Executive Officer plus the four other highest compensated executive officers (as determined under Securities Exchange Act regulations). Annual cash incentive awards to Performance Plan participants are limited to their respective allocated share of the Performance Plan's pool for the year in question. The pool is established based on the profit after tax in excess of 6% Return on Equity (ROE). Thus, if the Company fails to generate profits in excess of 6% ROE, then the five most highly-compensated executive officers are not eligible for any cash award.

The Company's executive officer compensation program provides that a substantial component of total executive officer compensation reflects the returns realized by shareholders and the degree to which performance

Table of Contents

targets are met. This aligns the long-term interests of the Company’s executive officers with those of the Company’s shareholders and is accomplished through the following long-term incentive programs:

Stock options under the Company’s Incentive Stock Plans generally have been granted annually at an exercise price equal to the fair market value of the Class A common shares of IR on the date of grant. Currently, options granted to executive officers generally become exercisable in three equal annual installments beginning one year from the date of grant and expire on the tenth anniversary of the grant.

The Performance Share Program provides annual awards based on a combination of the achievement of longer-term strategic initiatives and annual financial performance. Awards are based on target levels of common share equivalents assigned to each participant and are completely contingent on and variable with the collective performance of the program participants in relation to pre-established strategic initiatives and financial performance goals. Payments are made in cash (based on the value of the Class A common shares), unless previously deferred into the Executive Deferral Plan described below.

The IR Executive Deferred Compensation Plan (the Executive Deferral Plan) enables and encourages eligible executives to defer receipt of all or part of their annual cash incentive award and/or their performance share award in exchange for Class A common share equivalents or mutual fund investments. The Executive Deferral Plan is designed to increase stock ownership by executives. Certain participants who are subject to stock ownership requirements (see below) are eligible for a 20% supplemental amount on those deferrals invested in Class A common share equivalents. Vesting of the 20% supplemental amount is generally subject to the completion of five years of employment following the date of deferral. In certain years, such executives may also be given the option to elect to forego cash incentive payments in exchange for options to purchase our Class A common shares issued under the Company’s Incentive Stock Plan.

The number of stock options and Performance Share Program awards granted are based upon the position responsibility of each recipient, his or her individual performance, the Company’s performance, and the long-term incentive practices of the surveyed corporations referred to above. These factors are periodically reevaluated by the Compensation Committee. The Compensation Committee seeks to target compensation, comprised of salary, annual incentives and long-term incentives, for executive officers at approximately the median of the pay levels for equivalent positions as determined through the survey processes discussed above. This level of opportunity is earned only with commensurate achievement of business results. The Compensation Committee uses these guidelines in making its award grant determinations.

A formal share-ownership program has been established by the Company, which requires that the senior-most executives of the enterprise achieve and maintain sufficient ownership of IR common shares at or above a prescribed level. The guidelines are as follows:

	Share Ownership	Approximate Current Average
	Target	Ownership
Chief Executive Officer	100,000 shares	237,300 shares
Senior Vice Presidents	25,000 shares	35,100 shares
Corporate Vice Presidents	7,500 shares	20,300 shares
Other Participants (approximately 30)	3,000 shares	4,400 shares

The program allows for the accumulation of shares (or equivalents) over a five-year period starting in February 2004, at the rate of 20% of the guideline target each year. Ownership credit is given for actual IR stock purchased by the executive, deferred cash awards that are invested in IR Class A common share units within the Executive Deferral Plan and IR Class A common shares accumulated in the Employee Savings Plan

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

(ESP). Stock options themselves do not count towards meeting the share ownership target. If executives fall behind their scheduled accumulation level over the five years, their stock option exercises will be limited to buy and hold until the guideline schedule is achieved. Likewise, if executives fail to maintain their target level of ownership after the five-year accumulation period, their stock option exercise will be limited to buy and hold until the guideline schedule is achieved.

Table of Contents*2003 Chief Executive Officer Compensation*

Throughout calendar year 2003, Mr. Henkel's annual salary was \$1,100,000, which is consistent with the salary levels of the chief executive officers of peer group companies.

In addition, based upon Mr. Henkel's contribution to the Company's 2003 business results, the Compensation Committee approved cash incentive awards to Mr. Henkel as follows:

Annual Incentive Matrix	\$ 1,900,000
Performance Share Program	4,505,550
	<hr/>
Total Cash Incentive	\$ 6,405,550

These awards are based on the following performance factors:

	2003	2003	Approximate	Percent
	Plan	Results	Amount	Above
	<hr/>	<hr/>	<hr/>	<hr/>
Earnings Per Share	\$ 3.15	\$ 3.34	\$ 0.19	6.0%

Return on Invested Capital	9.8%	10.6%	0.8 pts	8.2%
Achievement of Individual Objectives	100%	137.5%	37.5 pts	37.5%

2003 Compensation of Other Named Executive Officers

During 2003, in accordance with the policies stated above, the executive officers named in the Summary Compensation Table, other than Mr. Henkel, were granted salary increases averaging approximately 9.45%. Annual cash incentive awards to Messrs. McLevish, Smith, Vasiloff, Rice and Turpin were granted pursuant to performance agreements of the type described above. Based on the Company's financial performance, and the contributions made by these executives, they were granted annual incentive awards averaging approximately 104.2% of year-end salary. All annual incentive awards were in accordance with the Performance Plan, which limits the payment of cash awards to the executive officers named in the Summary Compensation Table contingent on profit performance in excess of 6% ROE.

The named executive officers were also granted stock options in respect of the Company's Class A common shares, as indicated in the Summary Compensation Table and under the caption "Stock Options", in accordance with the practices referred to above.

Summary

The Compensation Committee believes the compensation program for the Company's executive officers is competitive with the compensation programs provided to similarly situated officers in the surveyed corporations. The Compensation Committee believes the bonus payments made to the executive officers named in the Summary Compensation Table below in respect of the year 2003 are appropriate and commensurate with the Company's 2003 financial and strategic performance and their respective individual achievements during the year. Based on information the Compensation Committee has been provided by consultants relative to the compensation practices of surveyed corporations, it believes the stock incentive compensation opportunities provided to these officers, in the form of stock options, are also appropriate and are awarded in a manner fully consistent with the Company's strategy of basing a substantial component of total executive officer compensation on the total returns realized by the Company's shareholders.

equivalents equal to 120% of the deferred amounts. Common share equivalents representing deferred cash bonuses are included in the Bonus column, while the 20% additional amounts are included in the column captioned Restricted Stock Awards. The deferred cash bonus amounts for the executive officers named above who elected to defer bonus payments in exchange for common share equivalents were as follows:

<u>Name</u>	<u>2001</u>	<u>2002</u>	<u>2003</u>
H. L. Henkel	\$ 760,000	\$ 1,205,275	\$

* In addition to deferring his bonus for 2001, Mr. Turpin deferred the \$75,000 to which he was entitled as part of his initial employment arrangement with the Company (see footnote (j) below).

- (c) These amounts (except for the amount paid to Mr. Turpin described in footnote (j) below) represent that portion of relocation benefit payments which compensated the named executive officers for the income taxes payable in respect of relocation compensation. The relocation benefit amounts are reflected in the column headed All Other Compensation.
- (d) The amounts reflected as Restricted Stock Awards are composed of the following:

amounts credited under the Executive Deferral Plan equal to 20% of the cash bonuses (and, for 2002 and 2003, the Performance Share Program) deferred by the named executives (see footnote (b) above);

the crediting of additional Class A common share equivalents to accounts of the named executives under the Executive Deferral Plan arising from the reinvestment of dividend equivalents under that plan of the 20% amount referred to above; and

for Messrs. Rice and Vasiloff, the crediting of Class A common share equivalents under the Company's Management Incentive Unit Plan (the MIU Plan). Under the MIU Plan, when cash dividends are paid on the Company's Class A common shares, a participant is paid a cash amount equal to one-half of the dividends such participant would have received had the participant owned one share of Class A common share for each MIU granted to the participant. The remaining one-half of each cash dividend is credited to an account for the participant and is converted into Class A common share equivalents which also are held in the participant's MIU account. Amounts credited as Class A common share equivalents become vested after five years. Distributions are made in cash following retirement in cash equal to the fair market value of one share of Class A common share for each Class A common share equivalent credited to the participant's account.

The total number and fair market value as of December 31, 2003, of Class A common shares issuable contingent upon the continued employment of the named executives are as follows:

- (e) The amounts reflected in this column represent the value of the performance portion of stock awards distributed to the named executives. The shares subject to the performance portion of the stock awards were distributable subject to the Company achieving established earnings per share goals. Distributions of 100% of shares subject to awards granted were contingent on Company performance (other than certain awards to Mr. Henkel as part of his initial employment arrangement with the Company).

(f) The amounts reflected in this column represent:

our contributions for the account of the named executive officers under our Employee Savings Plan (the ESP) (which includes contributions under our Leveraged Employee Stock Ownership Plan (the LESOP)), as well as amounts credited to the accounts of such executive officers under the related supplemental plans, which provide benefits which would have been provided under the applicable tax-qualified plan but for Internal Revenue Code restrictions on such benefits;

dividend equivalents paid to the named executive officers in respect of the performance portion of stock awards (see footnote (e) above); and

relocation benefits paid to the named executive officers.

For 2003 such amounts were as follows:

J. E. Turpin	39,340	

(g) Receipt of all or a portion of these amounts has been deferred at the election of the executives.

(h) Mr. McLevish joined the Company in May 2002.

(i) Includes options to purchase 17,059 shares at an exercise price of \$44.23 awarded to Mr. Rice in connection with his election to forego \$133,019 of his bonus awarded in 2001 in respect of 2000 performance.

(j) Mr. Turpin joined the Company in January 2001. As part of his initial employment arrangement, the Company agreed to pay Mr. Turpin \$75,000 (which he deferred). He ceased being an executive officer of the Company on August 6, 2003, in anticipation of his retirement.

- (b) Grant date value is based on the Black-Scholes option pricing model adapted for use in valuing executive stock options. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised, so that there is no assurance the value realized by an executive will be at or near the value estimated by the Black-Scholes model. The grant date values were determined based in part upon the following assumptions:

Long-Term Incentive Plan Awards

Prior to 2002, as part of our executive officer compensation program, we awarded Class A common shares under our Incentive Stock Plans to executive officers and other key employees. Distributions were contingent upon a combination of our earnings per share performance and business sector operating income during the payout period. The relative weighting of the components varied based upon the particular executive's business responsibilities. No such awards were made in 2003.

Table of Contents**Retirement Plans**

The Company and its subsidiaries maintain a number of defined benefit pension plans for their officers and other employees. The pension plans provide for fixed benefits in the event of retirement at a specified age and after a specified number of years of service. All of the executive officers of the Company named above are eligible to participate in the Ingersoll-Rand Company Pension Plan Number One (the Pension Plan) and the Elected Officers Supplemental Program. The following table illustrates approximate annual pensions for retirements in 2003 under the Pension Plan and under the Elected Officers Supplemental Program computed as a straight life annuity, before the reduction specified in footnote (a) below and based on the indicated assumptions:

- (b) Final average compensation means the sum of (i) the individual's current salary, plus (ii) the average of the five highest bonus awards to that individual during the most recent six years.

The credited years of service and covered compensation (i.e., the final average compensation) as of December 31, 2003 for the individuals named above are as follows:

Name	Years of Credited Service	Covered Compensation(\$)
H. L. Henkel	16(a)	2,242,000
T. R. McLevish	2	870,700
D. H. Rice	28	628,586
R. P. Smith	4	933,139
C. P. Vasiloff	28	674,733
J. E. Turpin	3	430,933

- (a) Mr. Henkel's credited years of service exceed his actual service pursuant to the provisions of his employment arrangement. In addition, under his employment arrangement Mr. Henkel's benefit accrues at an accelerated rate so that he will be entitled at age 62 to an annual

benefit equivalent to 65% of his then covered compensation (less the pension benefit he receives from his former employer).

Other Post-Employment Arrangements

The Company has entered into an arrangement with Mr. Henkel, whereby the Company is obligated to pay Mr. Henkel \$125,000 annually for a ten-year period commencing upon normal retirement, so long as his employment with the Company is not terminated by the Company for cause (as defined), so long as he meets certain noncompetition obligations and, in certain cases, so long as he retires from the Company at normal

Table of Contents

retirement age. In the event of death, the benefits are payable to Mr. Henkel's estate to the extent not already paid. Under this arrangement, the Company is a beneficiary of life insurance policies on Mr. Henkel and, based on actuarial assumptions, the life insurance proceeds receivable by the Company will defray the costs associated with this program.

The Company has also adopted a program which provides the executive officers named above with life insurance coverage ranging from one times annual earnings (as defined) to two times annual earnings (increased in certain instances to account for income tax obligations payable in respect of such supplemental coverage).

The Company has also entered into an agreement with Mr. Henkel providing him with severance benefits if he is terminated without cause. The benefit amount payable to Mr. Henkel will equal twice the sum of his annual salary plus his last bonus.

Change in Control Arrangements

The Company has entered into agreements with each of the executive officers named above which provide that if the employment of a particular executive officer is terminated (by the Company or, under certain circumstances, by the executive officer) within five years following a change in control of the Company (as defined in such agreements), the executive will receive a lump sum severance payment from the Company equal to three times the sum of (a) the executive's highest annual salary from the date of the change in control to the date of termination plus (b) the highest bonus awarded to the executive during the period beginning five years prior to the change in control and ending on the date of termination. In addition, the executive will receive an amount approximating the Company's contribution which would have been made for such executive's account under the ESP (including the related supplemental plan) during the three years following termination of employment and will be entitled during such three-year period to continue to participate in the Company's welfare employee benefit programs. For purposes of calculating the executive's retirement benefits, five years will be added to both the executive's age and service with the Company. The agreements further provide that if the payments described above constitute excess parachute payments under applicable provisions of the Internal Revenue Code and related regulations, the Company will pay the executive an additional amount sufficient to place the executive in the same after-tax financial position the executive would have been in if the executive had not incurred the excise tax imposed under Section 4999 of the Internal Revenue Code in respect of excess parachute payments.

Compensation Committee Interlocks and Insider Participation

None of the directors who served on the Compensation Committee during 2003 (i.e. Messrs. Martin, Smith and White and Mrs. Horner) is or has been an officer or employee of the Company. Kenneth Martin, a son of Theodore E. Martin, a director of the Company, is employed by Ingersoll-Rand Company in a non-executive capacity and in 2003 was paid salary and bonus aggregating approximately \$144,000. Under The New York Stock Exchange standards and the Company's Corporate Governance Principles, this relationship does not affect Mr. Martin's status as an independent director.

ITEM 2. ADOPTION OF AMENDED AND RESTATED INCENTIVE STOCK PLAN OF 1998

The Board of Directors is submitting to the shareholders for approval amendments of the Incentive Stock Plan of 1998 (the 1998 Plan). The significant amendments to the 1998 Plan as previously in effect are to:

provide for an increase in the number of Class A common shares issuable under the 1998 Plan by 12,000,000; and

extend the termination date of the 1998 Plan to May 31, 2007.

We have had shareholder approved incentive compensation programs in existence since 1959, to provide long-term incentives to key executives. The Board believes that these plans have proved to be an important means of attracting, holding and motivating key employees.

The closing price of the Class A common shares on The New York Stock Exchange composite tape on April 2, 2004 was \$69.83.

Description of 1998 Plan

The 1998 Plan, as originally adopted, authorized the grant through April 30, 2003, of up to 13,000,000 of stock incentives. In 2001, the shareholders approved amendments to the 1998 Plan to increase the number of stock incentives issuable under the 1998 Plan by 5,000,000 and to extend the date through which grants may be made under the 1998 Plan to April 30, 2004. As of April 2, 2004, we have granted an aggregate of 19,726,957 (including the regranting of awards previously forfeited) of such stock incentives and 776,437 are available for grant. The adoption of the proposed amendment will result in 12,776,437 being available for grant, which represents approximately 7.4% of the outstanding shares as of April 2, 2004. Of the total available stock incentives, no more than 20% shall be in the form of stock awards. Shares not issued because of the termination of individual stock incentives, or for other reasons, can be reused under the 1998 Plan.

The 1998 Plan permits the grant of stock incentives to key employees as determined by the Compensation Committee. Approximately 825 employees are currently considered eligible for the grant of stock incentives. We cannot state the value or number of shares subject to any particular stock incentive to be granted to key employees, since these matters will be determined by the Compensation Committee in the future based on the guidelines described above under the heading *Executive Compensation* Report of the Compensation and Nominating Committee. We expect, therefore, that key employees will continue to be granted stock incentives on a basis generally comparable to prior grants. During 2003, all current executive officers as a group were granted options to purchase a total of 407,000 Class A common shares at a weighted average exercise price of \$39.34 and all employees as a group were granted options (or stock appreciation rights) to purchase a total of 3,397,083 shares at a weighted average exercise price of \$39.20. Information concerning stock incentives granted to the executive officers named in the Summary Compensation Table is set forth under the heading *Executive Compensation*.

Other provisions of the 1998 Plan are summarized below.

Stock Options and Stock Appreciation Rights

Stock options and stock appreciation rights are forms of stock incentives which are exercisable only after completion of at least twelve months of employment after the date of grant. Neither options nor stock appreciation rights may be granted at less than the fair market value of our common stock on the date of grant. The term of an option or a stock appreciation right cannot exceed ten years. The 1998 Plan prohibits amending, or canceling and regranting, an option or a stock appreciation right to lower the exercise price.

Stock appreciation rights entitle the holder to receive the difference between the fair market value of the common stock at the time of exercise and the fair market value at the time the rights were granted. Payment may be made in the sole discretion of the Compensation Committee in Class A common shares, in cash or in part Class A common shares and part cash. Stock appreciation rights may be granted either independently or in conjunction with options, and may carry dividend equivalents which, as more fully discussed below under the heading *Dividend Equivalents*, entitle the holder of the stock appreciation rights to payments equal to the cash dividends paid on shares equal to the number subject to stock appreciation rights.

Options and stock appreciation rights terminate within specified periods upon the holder's termination of employment. However, if termination is the result of death, disability or retirement, an option or right may be exercised for up to three years following such termination, and the Compensation Committee may similarly extend the period for exercise by up to three years following termination for other reason. A holder of options or rights may not exercise them under any circumstances once they have expired.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

Shares purchased under an option must be paid for in full at the time of the exercise. However, such shares shall be paid for upon such terms as the Compensation Committee may permit, including cash, secured or unsecured debt, or by exchange for other property, including shares of common stock. Consequently, if an optionee also holds common stock having a fair market value greater than the option price, the optionee may be permitted to exchange the shares the optionee holds for a greater number, under the option.

Table of Contents

Stock Awards

The 1998 Plan permits the payment of incentive awards in Class A common shares. A stock award may, but need not, be contingent in whole or in part upon continued service with the Company or upon the attainment of certain pre-established Company performance objectives such as earnings per share or return on shareholders' equity. Shares subject to an award may be issued at the time the award is granted, or at any time thereafter, or in installments and may be subject to forfeiture as the Compensation Committee may decide.

If the shares are not issued at the time of grant, the Compensation Committee may provide for the payment or crediting of dividend equivalents to the holder. In lieu of issuing shares, the Company may elect to pay cash equal to the then fair market value of the shares otherwise issuable.

Dividend Equivalents

The 1998 Plan permits the granting of dividend equivalents in connection with the grant of stock options, stock appreciation rights or stock awards to key employees. A dividend equivalent is the right to receive, immediately or on a deferred basis, an amount equivalent to all or part of the dividends paid or payable on a Class A common share subject to a stock incentive. Dividend equivalents may be awarded either at the time of a stock incentive or at any time thereafter. Dividend equivalents may be credited either in cash, Class A common shares or in Class A common share equivalents, valued at fair market value. Class A common share equivalents entitle the holder to receive amounts equivalent to dividends paid on Class A common shares or appreciation in value of Class A common shares during the period the Class A common share equivalent is held, or both. Amounts representing dividends paid on Class A common share equivalents either may be paid in cash or may be credited in additional Class A common share equivalents. As the 1998 Plan has been administered, dividend equivalents have been credited only with regard to stock awards.

Adjustment and Change in Control Provisions

The 1998 Plan provides that in the event of a recapitalization, split-up or consolidation of Class A common shares or of other significant corporate transaction involving the Company, shares subject to a stock incentive shall be equitably adjusted as to number, classification, exercise price or fair market value (in the case of stock appreciation rights) and date of exercise.

The 1998 Plan also provides that under certain circumstances involving a change in control of the Company, the holders of stock incentives shall have the right to surrender such stock incentives in exchange for a cash payment based upon the then current fair market value of the Class A common shares.

Administration and Amendment

The 1998 Plan is administered by the Compensation Committee which is composed of disinterested independent directors. In general, the Compensation Committee may exercise all of the authority of the Company under the 1998 Plan except amending the Plan. In addition, all determinations in respect of awards to any key employee who is also a member of the Board of Directors are made, based upon the

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

recommendations of such Committee, by a committee consisting of all non-employee directors under Rule 16b-3 under the Securities Exchange Act of 1934 and as outside directors under Section 162(m) of the Internal Revenue Code of 1986 (the Code) and the regulations issued under that provision.

The 1998 Plan may be amended by the Board at any time without shareholder approval. No such amendment may, however, increase the total number of shares that may be issued under the Plan, permit a person who is not a key employee or a non-employee director to be granted a stock incentive, or extend the term of the Plan.

Federal Income Tax Consequences

Under present law, a participant who is granted a stock option will not be subject to federal income tax at the time of grant, and the Company will not be entitled to a tax deduction by reason of such grant. Upon exercise

Table of Contents

of a nonqualified option (which all options granted under the 1998 Plan have been), the excess of the share's fair market value on the exercise date over the option price will be considered ordinary income. The Company is entitled to a tax deduction at the same time and in the same amount, provided that the Company complies with the applicable reporting requirements under the Code and the regulations promulgated thereunder. Upon the exercise of an incentive stock option (as defined in the Code), no taxable income will be recognized by the participant and the Company is not entitled to a tax deduction by reason of such exercise. However, if shares purchased pursuant to the exercise of an incentive stock option are sold within two years from the date of grant or within one year after the transfer of such shares to the participant, then the difference, with certain adjustments, between the fair market value of the shares at the date of exercise and the option prices will be considered ordinary income, and the Company will be entitled to a tax deduction at the same time and in the same amount. In the event of a sale of shares purchased upon exercise of either a nonqualified option or an incentive stock option, any appreciation above or depreciation below the fair market value at the date of exercise will generally qualify as capital gain or loss. If shares purchased upon the exercise of a nonqualified option are transferred to the participant subject to restrictions, then, depending upon the nature of the restrictions, the income realized by the participant and the Company's tax deduction may be deferred and measured by the excess of the fair market value of the shares over the option price at the time the restrictions lapse.

Stock appreciation rights, stock awards and dividend equivalents will not result in taxable income upon grant unless the award is paid at the time of grant. Generally, the above grants will be taxable to the participants as compensation in the year when paid. The participant will recognize income in an amount equal to the sum of the cash and the fair market value of any shares received. The Company is entitled to a deduction at the same time and in the same amount, provided that the Company complies with the applicable Code withholding requirements. Any appreciation or depreciation on the sale of shares after transfer to the participant will result in capital gain or loss, and the Company will have no tax consequences with respect thereto.

The Board of Directors recommends a vote FOR this proposal.

ITEM 3. APPROVAL OF AMENDED AND RESTATED BYE-LAWS OF THE COMPANY

Shareholders are being asked to consider and approve Amended and Restated Bye-laws of the Company. Under Section 13 of the Companies Act of 1981 Bermuda and Section 74 of IR's current Bye-laws, the shareholders must approve any amendments to the current Bye-laws by the affirmative vote of a majority of the votes cast by shareholders present in person or by proxy at the annual general meeting. The Board has unanimously approved the proposed Amended and Restated Bye-laws of the Company and recommends their approval by the shareholders.

In 2001, when the Board of Directors proposed to the shareholders the Company's reincorporation to Bermuda, management and the Board attempted to preserve as many shareholder rights as was legally possible. Our Bye-laws, for example, include provisions in the following areas which are substantially similar to those which were applicable to shareholders of the previous New Jersey corporation:

Quorum requirements

Voting rights

Voting requirements at general meetings of shareholders

Removal of directors

Indemnification of directors and officers

Business combinations with interested shareholders

As part of its ongoing review of the Company's Bermuda incorporation, the Board undertook a review of the Company's Bye-laws to determine whether changes were appropriate to better align the Bye-laws with provisions applicable to large U.S. publicly-traded companies. Particular attention was given to New Jersey law

Table of Contents

(the Company's former jurisdiction of incorporation) and Delaware law (the jurisdiction of incorporation of many publicly traded U.S. companies). As a result, the Board is proposing that the Amended and Restated Bye-laws reflect the following changes from the Bye-laws currently in effect:

- (a) require that any contract or other transaction to which the Company or any subsidiary is a party and in which one or more directors has a direct or indirect interest that is material to such director or directors shall be authorized, approved or ratified by the affirmative vote of a majority of the disinterested directors;
- (b) provide that notices of general meetings of shareholders shall be given not more than 60 days prior to the meeting;
- (c) explicitly provide that a transaction involving the sale, lease or exchange of substantially all the Company's assets requires the approval by a majority vote of the shareholders; and
- (d) provide that record dates for determining shareholders entitled to dividends or to receive notice of and to vote at general meetings shall be fixed a maximum of 60 days prior to the dividend payment or meeting date.

The full text of the proposed Amended and Restated Bye-laws, with the proposed changes reflected therein, is attached to this proxy statement as Appendix G.

The following table provides a summary comparison of the changes between the current Bye-laws and the proposed Amended and Restated Bye-laws:

<u>Subject</u>	<u>Bye-law Number</u>	<u>Current Bye-law Provision</u>	<u>Proposed Amendment</u>
Transactions in which one or more directors have an interest	18	A director must declare to the Board a direct or indirect interest in a contract or arrangement with IR, as required by the Bermuda Companies Act. Add requirement that any contract or other transaction to which the Company or any subsidiary is a party and in which one or more directors has a direct or indirect interest that is material to such director or directors be approved by a majority of disinterested directors.
Notices of General Meetings	27, 28	Notices of general meetings must be given not less than five days before the meeting. There is no outer limit.	Add outer limit of 60 days.
Sale, lease or exchange of substantially all assets	39	No explicit statement that sale, lease or exchange of all or substantially all of the assets of IR shall require the approval of shareholders.	Clarify that shareholder approval by a majority of votes cast is required for any such transaction.

The Board of Directors recommends a vote FOR the proposal to approve the Amended and Restated Bye-laws of the Company.

ITEM 4. APPROVAL OF APPOINTMENT OF INDEPENDENT AUDITORS

Under Bermuda law our shareholders have the authority to appoint the independent auditors of the Company and to authorize our Board of Directors to fix the auditors' remuneration. At the annual general meeting, shareholders will be asked to appoint PricewaterhouseCoopers LLP as our independent auditors for the fiscal year ending December 31, 2004, and to authorize the Board of Directors to fix the independent auditors' remuneration. PricewaterhouseCoopers LLP has been acting as our independent auditors for many years and, both by virtue of its long familiarity with the Company's affairs and its ability, is considered best qualified to perform this important function.

Audit Committee Report

While management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls, the Audit Committee reviews the Company's financial statements and financial reporting process on behalf of the Board of Directors. In this context, the Committee has met and held discussions with management and the independent auditors regarding the fair and complete presentation of the Company's results. The Committee has discussed significant accounting policies applied by the Company in its financial statements. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The Committee discussed with the independent auditors matters as required by Statement on Auditing Standards No. 61 (Communication With Audit Committees).

In addition, the Committee has discussed with the independent auditors the auditors' independence from the Company and its management, including the matters in the written disclosures required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Committee also has considered whether the independent auditors' provision of non-audit services to the Company is compatible with the auditors' independence. The Committee has concluded that the independent auditors are independent from the Company and its management.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets separately with the internal and independent auditors, with and without management present to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission. The Committee has selected, subject to shareholder approval, the Company's independent auditors for the fiscal year ending December 31, 2004.

The Audit Committee has adopted policies and procedures which require that the Audit Committee pre-approve all non-audit services that may be provided to the Company by its independent auditor. The Audit Committee has determined that the provision of the services described under All Other Fees is compatible with maintaining the independence of PricewaterhouseCoopers LLP.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the annual general meeting and to be available to respond to appropriate questions. They will have an opportunity to make a statement if they so desire.

The Board of Directors recommends a vote FOR the proposal to appoint PricewaterhouseCoopers LLP as independent auditors of the Company and to authorize the Board of Directors to fix the auditors' remuneration.

ITEM 5. SHAREHOLDER PROPOSAL TO DECLASSIFY THE BOARD OF DIRECTORS

The California Public Employees Retirement System, having an office at P.O. Box 942708, Sacramento, California 94229-2708, the owner of 727,509 Class A common shares of the Company, has notified us that it intends to propose the adoption of the following resolution. The

proponents have furnished a supporting statement which follows the proposed resolution.

RESOLVED, that the stockholders of Ingersoll-Rand Company Limited urge the Board to take the steps necessary, in compliance with applicable law, to reorganize itself into one class subject to election each year.

Table of Contents

Supporting Statement

Is accountability by the board of directors important to you as a shareholder of Ingersoll-Rand Company Limited (the Company)? As a trust fund with more than 1.4 million participants, and as the owner of approximately 727,509 shares of the Company's common stock, the California Public Employees Retirement System (CalPERS) thinks accountability is of paramount importance. This is why we are sponsoring this proposal which, if passed, would urge the Board to reorganize itself so that each director stands before the shareholders for re-election each year. We hope to eliminate the Company's so-called "classified board", whereby the directors are divided into three classes, each serving a three-year term. Under the current structure, shareholders can only vote on one-third of the Board at any given time.

Insularity may have made sense in the past (e.g., during the takeover frenzy of the 1980s). But now, we believe that insularity works primarily to hamper accountability. A classified board can prevent shareholders from mounting a successful opposition to the entire board, because only one-third of the directors are up for election in any given year. By way of contrast, a declassified board would stand for election in its entirety, every year.

CalPERS believes that corporate governance procedures and practices, and the level of accountability they impose, are closely related to financial performance. It is intuitive that, when directors are accountable for their actions, they perform better. CalPERS also believes that shareholders are willing to pay a premium for corporations with excellent corporate governance as illustrated by a recent study by McKinsey & Co. The Company's decision to incorporate in Bermuda has fractured some shareholder's perception that the Company is concerned with its corporate governance practices. If the Company were to declassify its Board, it would be a strong statement that this Company is committed to good corporate governance and its long-term financial performance.

We seek to improve that performance and ensure the Company's continued viability through this structural reorganization of the Board. If the Board acts on our proposal, shareholders would have the opportunity to register their views at each annual meeting on performance of the Board as a whole, and of each director as an individual.

CalPERS urges you to join us in VOTING TO DE-STAGGER the terms of election of directors, as a powerful tool for management incentive and accountability. We urge your support FOR this proposal.

Board Recommendation AGAINST This Proposal

IR's system of electing directors by classes has been in place since the 1940's. Under this method, as provided in the Company's By-laws, approximately one-third of the directors are elected annually by the shareholders. The Board of Directors has reviewed the issues raised in the proposal and continues to believe that the classified Board best serves the interests of the Company and its shareholders for the following reasons:

Continuity and stability. IR's classified Board provides continuity and stability by ensuring that generally two-thirds of the directors at any given time have prior experience as IR directors, thereby providing them with a deeper awareness of IR's portfolio of businesses, products, markets, opportunities and challenges and enabling them to build on past experience. IR and its shareholders benefit greatly from the wisdom and institutional knowledge that IR's directors develop through such prior experience.

Long-term focus. The Board believes that the three-year term of service for directors prevents abrupt changes in corporate strategy based on misplaced short-term objectives, thereby enhancing the directors' ability to represent the long-term interests of IR and its shareholders.

Value protection. The Board believes that the classified Board encourages any person seeking to acquire control of IR to initiate such action through arm's-length negotiations with the Board, which is in a position to negotiate a transaction that is in the best interests of IR and all its shareholders.

Table of Contents

The Board believes that directors elected to a classified Board are no less accountable than they would be if all directors were elected annually. All directors are required to uphold their fiduciary duties to IR regardless of the length of their term of office. The Board addresses many important issues during the year and disagrees with any suggestion that its attention to these issues is in any way affected by the timing of elections. A classified Board strikes the optimal balance between the ability of shareholders to evaluate the Board's performance on a regular basis and the need for continuity and stability, the enhanced ability of directors to focus on long-term strategic business considerations and the protection of shareholder value.

For the Reasons Stated Above, the Board of Directors Unanimously Recommends a Vote AGAINST this Shareholder Proposal.

ITEM 6. SHAREHOLDER PROPOSAL TO CHANGE THE COMPANY'S JURISDICTION OF INCORPORATION FROM BERMUDA TO A U.S. STATE

The American Federation of State, County and Municipal Employees Pension Plan, having an office at 1625 L Street, N.W., Washington, D.C. 20036, the owner of 1,863 Class A common shares of the Company, has notified us that it intends to propose the adoption of the following resolution.

RESOLVED, that shareholders of Ingersoll-Rand Company Limited (IR) urge IR's Board of Directors to take the measures necessary to change IR's jurisdiction of incorporation from Bermuda to a U.S. state.

Supporting Statement

We believe that it would be in the interests of both IR and its shareholders for IR to reincorporate back to the U.S. On December 31, 2001, IR changed its jurisdiction of incorporation from New Jersey to Bermuda. Since that time, legislative and regulatory developments, as well as a shift in public sentiment regarding corporate accountability and reincorporation in tax haven jurisdictions, have created the risk that IR will be financially harmed by its Bermuda incorporation.

The disadvantages of IR's Bermuda incorporation, we think, outweigh any tax savings it currently enjoys. First, those tax savings can be eliminated by Congress at any time. In 2002, bills were introduced in the House and Senate to require companies like IR that reincorporated using an inversion transaction be treated as U.S. companies. All of the bills were retroactive, some to September 11, 2001, bringing IR within their coverage.

Second, IR's Bermuda incorporation could harm its ability to obtain government contracts. The state of California has banned companies that reincorporate offshore from contracting with the state and its agencies, with certain exceptions, and North Carolina has implemented a similar ban. Bills were passed by the House and Senate in 2002 prohibiting U.S. companies that reincorporated using inversion transactions from receiving military contracts and contracts with the proposed Homeland Security Department. An August 20, 2002 *Washington Post* article estimated that IR stands to lose \$20 million a year if it is prohibited from contracting with the military and Homeland Security Department, as was proposed in 2002.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

Third, we believe that incorporation in a tax haven has the potential to harm IR's reputation and image. Commentators have noted that the Bermuda incorporations of scandal-plagued companies like Tyco and Global Crossing have linked tax avoidance, in the minds of some, to more unsavory practices. Senator Charles Grassley, who coauthored a 2002 Senate bill to eliminate the tax advantages of reincorporation, called such reincorporations immoral and unethical. An article in the April 22-29, 2002 issue of *The New Yorker* entitled "Tax Cheat, Inc." highlighted IR's move to Bermuda and noted that IR has major contracts with the federal government. Yet, when it comes to paying taxes, Ingersoll-Rand is not an American company.

Finally, incorporation in Bermuda makes it more difficult for shareholders to hold companies, officers and directors legally accountable in the event of wrongdoing. Recent events, we think, demonstrate how crucial it is

Table of Contents

that, in the event of legal violations by officers or directors, shareholders have the ability to pursue legal remedies. Class actions are generally not available under Bermuda law. Under Bermuda law, unlike the law of all U.S. states, shareholders have extremely limited ability to sue officers and directors derivatively, on behalf of the corporation. Incorporation in Bermuda may affect the enforceability of judgments obtained in a U.S. court.

For these reasons, we urge shareholders to vote FOR this proposal.

Board Recommendation AGAINST this Proposal

The Board of Directors believes that the shareholder proposal is not in the best interests of the Company or its shareholders and therefore unanimously recommends a vote **AGAINST** the proposal.

Since last year's annual general meeting, at which virtually the same proposal was presented and rejected by the shareholders, the Corporate Governance and Nominating Committee of the Board, as well as the full Board of Directors, have further reviewed and evaluated legislative and regulatory developments affecting the Company's jurisdiction of incorporation. In connection with these reviews outside legal and tax advisors were consulted. Based on these analyses, the Board of Directors has unanimously concluded (as it did prior to the overwhelming December 2001 shareholder vote in favor of reincorporation and prior to last year's annual general meeting) that the benefits to the Company and shareholders of the Company of being incorporated in Bermuda substantially outweigh any actual or potential negative impacts.

The Company's incorporation in Bermuda enables it to realize a variety of business, financial and strategic benefits and allows the Company to implement its business strategy more effectively. Among other things, the reorganization of the Company in Bermuda has enhanced the Company's business growth and cash flow, reduced its worldwide effective tax rate and improved its ability to compete in an increasingly globalized economy.

Financial Impact

Moving the Company's place of incorporation to the United States would have substantial negative financial consequences for the Company and would also have negative financial consequences for certain of its shareholders. Had the Company been a U.S. corporation during fiscal year 2003, we estimate that the effective tax rate on income from continuing operations would have increased from 13.7% to at least 30%, thereby reducing 2003 net earnings. The Board believes that the resulting impact on the Company's 2003 earnings could have caused a reduction in the Company's market capitalization (assuming a price to earnings ratio of 20, equivalent to that recently applicable to the Company's Class A common shares) amounting to approximately \$2.2 billion (about 20% of our total market capitalization). Moreover, this adverse impact on market capitalization will increase as the Company's earnings grow.

If the Company were to reincorporate to the U.S., the Company or its shareholders, depending upon the transaction structure, would be required to recognize for Federal income tax purposes incremental income in the amount of approximately \$1.5 billion (assuming a 2004 transaction). The precise amount of additional tax liabilities to which the Company or the shareholders would be subject would depend upon the structure of the transaction and the specific composition of the Company's shareholders at that time, but would, in any event, be substantial.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

The Board does not believe that IR's business results have suffered any adverse consequences as a result of its move to Bermuda and believes that as a result of the move it has become on the whole a more attractive investment alternative to a wider range of investors. No laws have been adopted which have affected the Company's ability to retain the tax benefits of its Bermuda reincorporation.

Despite our Bermuda incorporation, the Company supports efforts in Congress to simplify the international provisions of the U.S. tax code and to amend those provisions which discriminate against U.S. incorporated entities. Numerous legislators, regulators and commentators agree with the Company's position regarding the unfairness of the U.S. tax system to multinational companies. For example, Representative Bill Thomas,

Table of Contents

Chairman of the House Ways and Means Committee of the United States House of Representatives, stated at a June 2002 hearing of that Committee:

Corporate inversions, I think, are a symptom of a larger underlying problem of our tax code, and if the corporate tax code has driven many companies to move their mailboxes to other jurisdictions, then I think we need to examine the tax code for suggested changes. The U.S. has some of the world's most complicated rules on international taxation. These rules originated in part, I think, from a misguided belief that we can keep capital in the U.S. if we just have enough restrictive tax regimes.

Impact on Government Contracting Business

With respect to the potential loss of government contracts arising from the Company being incorporated in Bermuda, we have determined that, in 2003, the Company generated an aggregate of approximately \$70 million in federal government contracting revenues and an aggregate of approximately \$38 million in state and municipal government contract revenues. This total of approximately \$108 million represented approximately 1.1% of our total 2003 revenues. Applying that same percentage to our net earnings from continuing operations, we estimate that our government contracts contributed about \$7 million to our 2003 net earnings. Assuming the loss of *all* such government contracts, we estimate that our market capitalization could have been reduced by about \$140 million, far less than the \$2.2 billion reduction caused by the loss of tax benefits discussed above.

In fact, while there have been proposals to adopt legislation which might affect our ability to be awarded government contracts, with one possible exception, no such proposed legislation has been enacted. A statute adopted by North Carolina only affects those companies which reincorporated subsequent to the December 31, 2001 effective date of our reincorporation. The one possible exception is California's recent adoption of its Senate Bill 640. Assuming this legislation applies to IR, we note that in 2003 our total revenues from California state government contracts were approximately \$400,000, or less than 0.005% of our total 2003 revenues. Applying that percentage to our net earnings from continuing operations, we estimate that California state government contracts contributed less than \$40,000 to our 2003 net earnings. This clearly minimal impact is far outweighed by the benefits inuring to our shareholders from our Bermuda incorporation.

Impact on Shareholder Rights

The Board is committed to sound and effective corporate governance and is confident that the Company's incorporation in Bermuda is compatible in every respect with this vital commitment. Bermuda corporate law is based upon the well-developed and sophisticated corporate law of England and any assertion that shareholders are unable to hold the Company and its directors and officers legally accountable in the event of wrongdoing is simply not correct. In addition, and notwithstanding the Company's incorporation in Bermuda, the Company remains fully subject to the securities laws of the United States and the requirements of The New York Stock Exchange. Indeed, as was announced at the time of the reorganization, the Company has irrevocably agreed to be served with process with respect to actions based on offers and sales of securities made in the United States by having its U.S. subsidiary be the Company's agent appointed for that purpose. Moreover, as indicated by the discussion under Item 3. Approval of Amended and Restated Bye-laws of the Company, the Board is continually reviewing the Company's governance structure seeking to the extent possible, to align that structure with that of other large, publicly-traded U.S. companies.

The Board of Directors continues to monitor the Company's business results, as well as legislative and regulatory developments, in light of the Company's move to Bermuda and continues to believe that the Company currently realizes substantial business, financial and strategic benefits from its Bermuda incorporation that would be forfeited if the Company were to reorganize as a company incorporated in a U.S. state. Accordingly, the Board of Directors believes that it is not now in the best interests of the Company or its shareholders to change the Company's

jurisdiction of incorporation from Bermuda to a U.S. state.

For the Reasons Stated Above, the Board of Directors Unanimously Recommends a Vote AGAINST this Shareholder Proposal.

ITEM 7. SHAREHOLDER PROPOSAL TO REQUIRE THE SEPARATION OF THE POSITIONS OF THE COMPANY'S CHIEF EXECUTIVE OFFICER AND CHAIR OF THE BOARD

Amalgamated Bank LongView Collective Investment Fund, having an office at 15 Union Square, New York, New York 10003-3378, the owner of 71,647 Class A common shares of the Company, has notified us that it intends to propose the adoption of the following resolution. The proponents have furnished a supporting statement which follows the proposed resolution.

RESOLVED: that the shareholders urge the Board of Directors to take the necessary steps to amend the by-laws to require that, subject to any presently existing contractual obligations of the Company, an independent director shall serve as Chairman of the Board of Directors, and that the Chairman of the Board of Directors shall not concurrently serve as the Chief Executive Officer.

Supporting Statement

A key duty of the Board of Directors is to protect shareholders' interests by providing independent oversight of management, including the CEO. We believe that separating the positions of Chairman of the Board and CEO will enhance accountability of management to the shareholders and provide more independent oversight of management, including the CEO, by the Board of Directors.

Corporate governance experts have questioned how one person serving as both Chairman of the Board and CEO can effectively monitor and evaluate his or her own performance. The NACD Blue Ribbon Commission on Directors' Professionalism has recommended that an independent director should be charged with organizing the board's evaluation of the CEO and provide ongoing feedback; chairing executive sessions of the board; setting the agenda and leading the board in anticipating and responding to crises.

In January 2003, the Conference Board's Blue Ribbon Commission on Public Trust and Private Enterprise, co-chaired by John W. Snow (soon to become Secretary of the Treasury), recommended that the positions of Chairman and CEO be performed by two separate persons. The Commission recommended that, at a minimum, an independent chairman, lead director, or presiding director should be responsible for approving all information that goes to the board, serving as a liaison to independent directors, presiding at meetings of non-management directors, and setting or assisting in setting board meeting agendas.

By contrast, Ingersoll-Rand's Corporate Governance Principles explicitly endorse vesting the same person with the positions of Chairman and CEO, except in unusual circumstances, which are not defined.

We believe that the independence of the Board of Directors would best be ensured if the office of CEO becomes independent of the Board, the body that is responsible for overseeing management, and that the position of Chairman of the Board be held by an independent director, a non-employee of Ingersoll-Rand.

We urge you to vote FOR this proposal.

Board Recommendation AGAINST this Shareholder Proposal

The Board of Directors believes that the best interests of the Company and its shareholders would not be served by amending the Bye-laws to require that the Chairman of the Board be an independent director who is not concurrently the Chief Executive Officer. The Board believes the interests of the Company and its shareholders are best served where the Board retains the flexibility to exercise its best judgment to determine who should serve as Chairman at any particular point in time in light of the Company's then-current and anticipated future circumstances. The proposed Bye-law would instead require a particular structure and deprive the Board of flexibility to organize its functions and conduct its business in the manner it deems most advantageous to the Company.

Table of Contents

The Board of Directors believes its independence is not compromised by having a single person serve as Chairman and Chief Executive Officer. A principal function of the Board is oversight of the Company's management, including the Chief Executive Officer, which is carried out by the full Board and by the Board committees. The Board has been, and continues to be, a strong proponent of Board independence, and has already taken effective measures to ensure that a substantial majority of the Board, as well as all the members of the Board's committees, are independent directors under New York Stock Exchange standards of independence. In addition, and consistent with our Corporate Governance Principles attached as Appendix A to this proxy statement, our independent directors meet privately in executive sessions without the Chief Executive Officer on a regular basis.

Moreover, and again consistent with our Corporate Governance Principles, the Company has established the position of Lead Director, selected annually from among the independent directors not concurrently serving as chair of one of the Board committees. The Lead Director develops, with input from the other independent directors, the agendas for the executive sessions and meetings of the independent directors, presides over such executive sessions and meetings and communicates with the Chief Executive Officer regarding the results of such sessions, meetings and executive sessions of the independent directors.

The Board believes that by establishing a strong and independent board of directors and implementing effective governance principles and practices, it has already adopted measures directed at maintaining the appropriate balance between senior management and the independent directors. The Board also believes that it should be afforded the flexibility to select a Chairman as circumstances warrant at the time and that the proposal imposes an unnecessary restriction.

For the Reasons Stated Above, the Board of Directors Unanimously Recommends a Vote AGAINST this Shareholder Proposal.

TRANSACTIONS WITH MANAGEMENT

Since January 1, 2003, we have engaged in transactions in the ordinary course of business with, or have used products or services of, a number of organizations in which our directors have interests. The amounts involved have in no case been material in relation to our business and we believe that they have not been material in relation to the businesses of the other organizations or to the individual directors concerned.

We have not made payments to directors other than the fees to which they are entitled as directors (described under the heading "Compensation of Directors" on page 11) and the reimbursement of expenses relating to their services as directors. We have made no loans to any director or officer nor have we purchased any shares of the Company from any director or officer.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and officers, and persons who own more than ten percent of the Company's common stock, to file reports of ownership and reports of changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. To the Company's knowledge, based solely on its review of such forms received by the Company and written representations that no other reports were required, all Section 16(a) filing requirements were complied with for the year 2003.

Appendix A

INGERSOLL-RAND COMPANY LIMITED

CORPORATE GOVERNANCE PRINCIPLES

The following corporate governance principles and the charters of the committees of the Board of Directors of the Company, have been approved by the Board of Directors and provide the framework for the corporate governance of the Company.

Role of the Board of Directors

The Company's business is managed under the direction of the Board of Directors. The Board delegates to the Chief Executive Officer, and through that individual to other senior management, the authority and responsibility for managing the Company's business. The Board's role is to oversee the management and governance of the Company and to monitor senior management's performance.

Among the Board's core responsibilities are to:

Select individuals for Board membership and evaluate the performance of the Board, Board committees and individual directors.

Select, monitor, evaluate and compensate senior management.

Assure that management succession planning is adequate.

Review and approve significant corporate actions.

Review and monitor implementation of management's strategic plans.

Review and approve the Company's annual operating plans and budgets.

Monitor corporate performance and evaluate results compared to the strategic plans and other long-range goals.

Review the Company's financial controls and reporting systems.

Review and approve the Company's financial statements and financial reporting.

Review the Company's ethical standards and legal compliance programs and procedures.

Monitor relations with shareholders, employees, and the communities in which the Company operates.

Board Size and Composition

The Board of Directors is comprised of such number of directors as the Board deems appropriate to function efficiently as a body, subject to the Company's By-Laws. The Corporate Governance and Nominating Committee considers and makes recommendations to the Board concerning the appropriate size and needs of the Board. The Board is made up of a substantial majority of independent, non-employee directors. The Board considers that the Bermuda law requiring two directors to be officers of the Company should be the maximum number of employee directors. The Board establishes principles and procedures to determine whether or not any particular director is independent in accordance with applicable regulations and the requirements of the New York Stock Exchange. The standards currently in effect for determining the independence of individual directors are attached as Exhibit I to these Corporate Governance Principles.

Selection of Directors

Under the By-Laws, the Board of Directors has authority to fill vacancies in the Board and to nominate candidates for election by the shareholders. The screening process is done by the Corporate Governance and

Table of Contents

Nominating Committee with direct input from the Chairman and CEO and from the other directors. Board candidates are selected for their judgment, character, achievements and experience in matters affecting business and industry. The Corporate Governance and Nominating Committee reviews employment and other relationships of directors to advise the Board that nothing would interfere with the exercise of independent judgment as a director.

Chairman of the Board and CEO

The positions of Chairman of the Board and CEO are held by the same person, except in unusual circumstances. This policy has worked well for the Company. It is the Board's view that the Company's corporate governance principles, the quality, stature and substantive business knowledge of the members of the Board of Directors, as well as the Board's culture of open communication with the CEO and senior management are conducive to Board effectiveness with a combined Chairman and CEO position.

Committees of the Board

The Board of Directors has the following committees: Audit, Compensation, Corporate Governance and Nominating, and Finance. All committees have written, Board-approved charters detailing their responsibilities. Only non-employee directors serve on these committees. Chairpersons and members of these four committees are rotated periodically, as appropriate. At each meeting of the Audit Committee, committee members meet privately with representatives of the Company's independent auditors, and with the Company vice president responsible for the internal audit function.

The Audit Committee meets at least five times each year, the Compensation and Finance Committees each meet at least four times each year and the Corporate Governance and Nominating Committee meets at least three times each year. Additional committee meetings are called as required.

Board Agenda and Meetings

The Chairman and Chief Executive Officer establishes the agendas for the Board meetings. Each director is free to suggest items for inclusion in the agenda, and each director is free to raise at any Board meeting subjects that are not on the agenda for that meeting. Board materials relating to agenda items are provided to Board members in advance of meetings to allow the directors to prepare for discussion of matters at the meeting. The Board reviews and approves the Company's yearly operating plan and specific financial goals at the start of each year, and the Board monitors performance throughout the year. The Board also reviews the Company's long-range strategic plan regularly. At an expanded Board meeting once a year, the Board reviews in depth the long-range strategic plan. At the expanded meeting, it also reviews senior management development and succession planning.

Management presentations are made to the Board and its committees regularly on various aspects of the Company's operations. The directors have unrestricted access to management and corporate staff.

Executive Sessions of Non-employee Directors

The non-employee directors meet privately in executive sessions to review the performance of the CEO and to review recommendations of the Compensation Committee concerning compensation for the employee directors. The non-employee directors also meet as necessary, but at least twice a year, in executive session to consider such matters as they deem appropriate without management being present.

Lead Director

It is the policy of the Board that a Lead Director be appointed annually on a rotating basis from among the independent directors not concurrently serving as a chair of a Board committee. The Lead Director (a) presides at

A-2

Table of Contents

all meetings of the directors at which the Chairman is not present, including executive sessions of the independent directors; (b) serves as a liaison between the Chairman and the independent directors; (c) approves the information sent to the directors; (d) with input from the other independent directors, approves Board meeting agendas and Board meeting schedules to assure that there is sufficient time for discussion of all agenda items; (e) has the authority to call meetings of the independent directors; and (f) is available for direct communication from major shareholders.

Director Orientation and Continuing Education

In order to become familiar with the Company, as well as the functioning of the Board of Directors, newly-appointed directors receive a variety of materials, including a Directors Handbook, which provide an overview of the Company, its operations and organization. They are also provided with access to key management personnel to provide additional information, including significant issues currently facing the Company. Management will also maintain a program to keep directors up to date on legal, regulatory and other matters relevant to their positions as directors of a large publicly-held corporation.

Director Compensation and Stock Ownership

The Corporate Governance and Nominating Committee periodically reviews the Board of Directors compensation and benefits and compares them with director compensation and benefits at peer companies. It is the Board of Directors policy that a significant portion of director compensation is in the form of IR shares or share equivalent units. All directors are expected to invest a minimum of \$180,000 in IR shares or share equivalents within three years from the date of their first election to the Board of Directors. It is also the policy of the Board that directors fees be the sole compensation received from the Company by any non-employee director.

CEO Performance Evaluation

At the beginning of each year, the CEO presents his performance objectives for the upcoming year to the non-employee directors for their approval. At the end of the year, the non-employee directors then meet privately to discuss the CEO's performance for the current year against his performance objectives. The non-employee directors use this performance evaluation in the course of their deliberations when considering the compensation of the CEO. The non-employee directors and the CEO then meet to review the CEO's performance evaluation and compensation.

Chief Executive Officer Succession

The Board of Directors views CEO selection as one of its most important responsibilities. To assist the Board in succession planning, the CEO reports at least annually to the Board providing an assessment of senior managers and their potential to succeed the CEO, either in the event of a sudden emergency or in anticipation of the CEO's future retirement.

Director Retirement

Each non-employee director must retire at the annual general meeting immediately following his or her 70th birthday. Directors who change the occupation they held when initially elected must offer to resign from the Board. At that time, the Corporate Governance and Nominating Committee reviews the continued appropriateness of Board membership under the new circumstances and makes a recommendation to the Board. Employee directors, including the CEO, must retire from the Board at the time of a change in their status as an officer of the Company, unless the policy is waived by the Board.

Board and Board Committee Performance Evaluation

With the goal of increasing the effectiveness of the Board of Directors and its relationship to management, the Corporate Governance and Nominating Committee assists the Board in evaluating its performance as a whole

A-3

Table of Contents

and the performance of its committees. Each Board committee is also responsible for conducting an annual evaluation of its performance. The effectiveness and contributions of individual directors are considered each time a director stands for renomination.

Board Memberships

The CEO and other members of senior management must seek the approval of the Board (or the Board committee to which this responsibility has been delegated), before accepting outside board memberships with for-profit entities.

Non-employee directors must advise the Chairman of the Board and the Chair of the Corporate Governance and Nominating Committee if they are being considered for election or appointment to a board of directors of another publicly-held company.

Independent Advice

The Board (or with the Board's approval, a committee of the Board) may seek legal or other expert advice from a source independent of management. Generally, this would be with the knowledge of the CEO.

Code of Conduct

The Company will maintain a code of business conduct and ethics which will articulate for employees, shareholders, customers and suppliers the standards of conduct, including conflicts of interest matters, to which the Company expects to adhere. Directors will also be required to abide by the code of conduct. Any waivers of the conflict of interest requirements of such code in favor of a director or executive officer will be subject to approval by the Board. In the case of the consideration of such a waiver in favor of a director, such director shall not participate in the deliberation or vote relating to such waiver.

Internal Audit Function

The Company will maintain an internal audit function whose head will report directly to the CFO or CEO. The internal audit function is responsible for bringing a systematic, disciplined approach to evaluate the effectiveness of risk management, control and governance processes. Its duties include monitoring the compliance by Company operations with the Company's internal controls and identifying any deficiencies in the design or operation of such internal controls which could adversely affect the Company's ability to record, process, summarize and report financial data.

Exhibit I

Guidelines for Determining Independence of Directors

(A) A director will not be deemed independent if, within the preceding three years: (i) the director was employed by the Company or any of its subsidiaries; (ii) an immediate family member of the director was employed by the Company or any of its subsidiaries as an executive officer; (iii) the director or an immediate family member of the director received more than \$100,000 per year in direct compensation (other than director and Board committee fees and pension or other forms of deferred compensation not contingent on continued service as a director from the Company and its subsidiaries), provided, however that for purposes of this subparagraph (iii), compensation received by an immediate family member for service as a non-executive employee of the Company shall not be included in determining a director's independence; (iv) the director, or an immediate family member of the director, was employed by, or affiliated with, the Company's independent auditor in a professional capacity; (v) an executive officer of the Company was on the compensation committee of the board of directors of a company that employed the director, or an immediate family member of the director, as an executive officer; or (vi) the director was an executive officer or employee, or has an immediate family member who was an executive officer, of a company or charitable organization having any of the relationships with the Company described in paragraph (B) below.

(B) The following commercial or charitable relationships will not be considered to be material relationships that would impair a director's independence: (i) if a director is an executive officer of another company that does business with the Company and the annual sales to, or purchases from, the Company in any fiscal year are less than \$1 million, or, if greater, less than 2% of the annual revenues of that other company; or (ii) if a director serves as an executive officer or employee, or has an immediate family member who is an executive officer of a charitable organization, and the Company's discretionary charitable contributions to the organization in the aggregate are less than \$1 million or, if greater, less than 2% of that organization's consolidated gross revenues. (The amount of any match of charitable contributions under the Company's matching gifts program will not be included in calculating the amount of the Company's contributions for this purpose.) The Board will annually review all commercial and charitable relationships of directors.

(C) For relationships other than those of the types described in (A) and (B), the determination of whether the director has a material relationship with the Company, and therefore may not be independent, will be made in good faith by the directors who satisfy the guidelines set forth in such preceding paragraphs.

(D) For purposes of these guidelines the term immediate family member includes an individual's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone (other than domestic employees) who shares such individual's house.

Shares subject to a Performance Stock Award granted to any individual whose compensation from the Company is covered by Section 162(m) of the Code shall be issued only after the Committee certifies in writing that the performance goals have been met.

Section 6. Options: Stock Incentives in the form of Options shall be subject to the following provisions:

(c) The Option may be exercised solely by the person to whom it is granted, except as hereinafter provided in the case of such person's death or Disability. During the lifetime of the optionee, the Option and any rights and privileges pertaining thereto shall not be transferred, assigned, pledged or hypothecated in any way, whether by operation of law or otherwise, and shall not be subject to execution, attachment or similar process.

(d) Each optionee must complete twelve months of continuous employment with the Company or Subsidiary, or both, before any part of the Option may be exercised by such optionee (subject to the provisions of paragraph (f) below).

(e) After the completion of the required period of employment, the Option may be exercised, in whole or in part, and from time to time, during the balance of the term of the Option, subject to the terms and conditions specified in the Option or by the Committee.

(f) Unless otherwise determined by the Committee each Option (to the extent then exercisable) shall terminate 90 days after the optionee shall terminate employment with the Company and its Subsidiaries, except that if the optionee shall die or become subject to a Disability while in the employ of the Company or of a Subsidiary, then the Option shall be exercisable within such period as shall be set forth in the Option, by the optionee or by such person or persons as shall have acquired the optionee's rights under the Option by will or by the laws of descent and distribution, or by the optionee's guardian, conservator or similar legal representative, but not later than three years after the date of death or Disability. In the event of the Retirement of the optionee, if the optionee shall have completed at least twelve months of continuous employment (or such shorter period as the Committee may determine) then the Option shall be exercisable within such period as shall be set forth in the Option but not later than three years after the date of Retirement (or such longer period as the Committee may determine).

(g) Shares purchased under the Option shall be paid for in full at the time of the exercise of the Option as to such shares upon such terms as the Committee may approve, including cash, secured or unsecured indebtedness, by exchange for other property (including shares of Common Stock), by delivery of irrevocable instructions to a financial institution to deliver promptly to the Company the portion of sale or loan proceeds sufficient to pay the Option exercise price, or otherwise.

(h) The Committee may at any time and from time to time provide for the payment to an optionee of Dividend Equivalents.

(i) Except as otherwise provided in Section 10, in no event will the Committee decrease the price per share at which a share subject to an Option may be purchased after the date of grant or cancel outstanding Options and

F-5

grant replacement Stock Options or Stock Appreciation Rights with a lower purchase price than that of the replaced Stock Options without first obtaining the approval of the shareholders of the Company.

(j) The Option agreements or Option grants authorized by the Plan may contain such other provisions as the Committee shall deem advisable. Without limiting the foregoing, if so authorized by the Committee and subject to such terms and conditions as are specified in the Option or by the Committee, the Company may, with the consent of the holder of the Option, and at any time or from time to time, cancel all or a portion of the Option then subject to exercise and discharge its obligation in respect of the Option either by payment to the holder of an amount of money equal to the excess, if any, of the Fair Market Value, at such time or times, of the shares subject to the portion of the Option so cancelled over the aggregate purchase price of such shares, or by the issuance or transfer to the holder of shares of Common Stock with the Fair Market Value at such time or times equal to any such excess, or by a combination of cash and shares. The number of shares of Common Stock subject to the Option, or portion thereof, so cancelled shall, in the event that a payment of money or transfer of shares is made by the Company in respect of such cancellation, be charged against the maximum limitation set forth in paragraph (a) of Section 4 of the Plan.

(k) Options may be granted under the Plan from time to time in substitution for stock options held by employees of other corporations who are about to become employees of the Company or a Subsidiary as the result of a merger or consolidation of the employing corporation with the Company or a Subsidiary, or the acquisition by the Company or a Subsidiary of the assets of the employing corporation, or the acquisition by the Company or a Subsidiary of stock of the employing corporation as the result of which it becomes a Subsidiary. The terms and conditions of the substitute options so granted may vary from the terms and conditions set forth in this Section 6 to such extent as the Committee at the time of grant may deem appropriate to conform, in whole or in part, to the provisions of the options in substitution for which they are granted.

Section 7. Stock Appreciation Rights:

(a) Stock Appreciation Rights may be granted in connection with any Option granted under the Plan, either at the time of the grant of such Option or at any time thereafter during the term of the Option, or may be granted independently of the grant of an Option.

(b) If granted in connection with an Option, Stock Appreciation Rights shall entitle the holder of the related Option, upon surrender of the Option, or any portion thereof, to exercise the Stock Appreciation Rights, to the extent unexercised, and to receive a number of shares of Common Stock, or cash, determined pursuant to paragraph (c) (iii) of this Section 7. Such Option shall, to the extent so surrendered, thereupon cease to be exercisable. If granted independently of an Option, Stock Appreciation Rights shall entitle the holder of the Stock Appreciation Rights to receive a number of shares of Common Stock, or cash, determined pursuant to paragraph (c) (iii) of this Section 7.

(c) Stock Appreciation Rights shall be subject to the following terms and conditions and to such other terms and conditions not inconsistent with the Plan as shall from time to time be approved by the Committee:

(i) If granted in connection with an Option, Stock Appreciation Rights shall be exercisable at such time or times and to the extent, but only to the extent, that the Option to which they relate shall be exercisable, except that, at the time of granting such Stock Appreciation Rights, the Committee may provide that the period during which such Stock Appreciation Rights may be exercised shall expire prior to the expiration of the period during which the related Option may be exercised. If granted independently of an Option, Stock Appreciation Rights shall be exercisable at such time or times as shall be determined by the Committee at the time of the grant of the Stock Appreciation Rights but, unless otherwise determined by the Committee, in no event later than the date the employment of the holder of the Stock Appreciation Rights shall have terminated other than by reason of death, Disability or Retirement. In the event of termination of employment by reason of death or Disability, Stock Appreciation Rights shall be exercisable for such period as the Committee may specify at the time of granting of the Stock Appreciation

Rights, but in no event later than three years after such termination of employment by the holder of the Stock Appreciation Rights or by

F-6

the beneficiary designated pursuant to paragraph (1) of Section 13, and in the case of Retirement, no later than three years after the date of such Retirement. Unless otherwise determined by the Committee, each Stock Appreciation Right shall terminate if and when the holder thereof shall terminate employment with the Company and its Subsidiaries for reasons other than the death, Disability or Retirement of such holder.

(ii) Stock Appreciation Rights shall in no event be exercisable unless and until the holder of the Stock Appreciation Rights shall have completed at least twelve months of continuous service with the Company or a Subsidiary, or both, immediately following the date upon which the Stock Appreciation Rights shall have been granted.

(iii) Upon exercise of Stock Appreciation Rights, the holder thereof shall be entitled to receive a number of shares equal in Fair Market Value on the date of exercise to the amount by which the Fair Market Value of one share of Common Stock on the date of such exercise shall exceed the Fair Market Value of a share of Common Stock on the date of grant of such Stock Appreciation Rights multiplied by the number of shares in respect of which the Stock Appreciation Rights shall have been exercised. The Company may determine, by action of the Committee, to settle all or any part of its obligation arising out of an exercise of Stock Appreciation Rights by the payment of cash equal to the aggregate value of shares of Common Stock (or a fraction of a share) that it would otherwise be obligated to deliver under the preceding sentence of this paragraph (c) (iii) of Section 7.

(d) To the extent that Stock Appreciation Rights shall be exercised, an Option in connection with which such Stock Appreciation Rights shall have been granted shall be deemed to have been exercised for the purpose of the maximum limitation set forth in the Plan under which such Option shall have been granted. In the case of Stock Appreciation Rights granted independently of an Option, the number of shares of Common Stock in respect of which such Stock Appreciation Rights shall be exercised shall be charged against the maximum limitation set forth in paragraph (a) of Section 4.

(e) If so directed by the Committee at any time and from time to time, the grant of Stock Appreciation Rights may provide for payment of Dividend Equivalents to the holder of the Stock Appreciation Rights.

(f) Stock Appreciation Rights may provide that, upon exercise of such Stock Appreciation Rights, the shares or cash, as the case may be, which the holder of such Stock Appreciation Rights shall be entitled to receive, shall be distributed or paid in such installments and over such number of years as the Committee may direct, with distribution or payment of each such installment contingent upon continued services of the employee to the Company or a Subsidiary, or both (except for death, Disability, Retirement or termination of employment by the Company or with its consent), to the time for distribution or payment of such installment.

(g) Except as otherwise provided in Section 10, in no event will the Committee, for purposes of a Stock Appreciation Right, decrease the Fair Market Value of a share of Common Stock on the date of grant of a Stock Appreciation Right after the date of grant or cancel outstanding Stock Appreciation Rights and grant replacement Options or Stock Appreciation Rights with a lower Fair Market Value of a share of Common Stock on the date of grant.

Section 8. Dividend Equivalents:

A grant of Dividend Equivalents shall be made subject to such terms and conditions as the Committee may determine, and may be awarded only in connection with a Stock Incentive granted under Section 5, 6 or 7. Dividend Equivalents may be awarded either at the time of grant of a Stock

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

Incentive or at any time thereafter during the term of the Stock Incentive. Dividend Equivalents may be payable or credited either in cash, shares of Common Stock, or in Common Stock Equivalents. If credited in Common Stock or in Common Stock Equivalents, they shall be credited at the Fair Market Value of a share of Common Stock on the day of such crediting. The Committee may provide that any amounts representing dividends earned by Common Stock Equivalents may either be paid currently or credited in cash or in Common Stock or that they may be represented by further Common Stock Equivalents, or any combination thereof. The Committee may provide that when

F-7

Common Stock Equivalents shall become payable to the holder, they may be paid in cash or in shares of Common Stock, or a combination of both. To the extent that any payment to the holder with respect to Dividend Equivalents is made in shares of Common Stock, the number of shares of Common Stock used for such payment shall be charged against the maximum limitation set forth in paragraph (a) of Section 4.

Section 9. Outside Directors Options:

(a) On the date of the first Board of Directors meeting after each annual general meeting of the shareholders through 2003, each Outside Director shall automatically be granted Options to purchase 2,250 shares of Common Stock. In the event an adjustment is made under the provisions of Section 10 in the outstanding unexercised Options granted to Outside Directors hereunder, a similar adjustment shall be made in the number of Options to be granted to Outside Directors subsequent to the effectiveness of such adjustment. Notwithstanding the foregoing, Options shall not be granted under the Plan to an Outside Director who on the date referred to above in this paragraph (a) of Section 9 is awarded Options under another Incentive Stock Plan of the Company.

(b) The price at which each share of Common Stock covered by Options granted to Outside Directors may be purchased shall be the Fair Market Value of the Common Stock on the date the Options are granted.

(c) Options granted to Outside Directors hereunder shall be fully vested on the date of grant and shall become exercisable on the first anniversary of such date of grant. Such Options may be exercised by the Outside Director during the period that the Outside Director remains a member of the Board and for a period of five years following retirement or resignation, provided that in no event shall any such Option be exercisable more than ten years after the date of grant.

(d) In the event of the death of an Outside Director, the Options shall be exercisable only within the three years next succeeding the date of death, and then only by the executor or administrator of the Outside Director's estate or by the person or persons to whom the Outside Director's rights under the Options shall pass by the Outside Director's will or the laws of descent and distribution, provided that in no event shall the Option be exercisable more than ten years after the date of grant.

(e) Except as expressly provided in this Section 9, Options granted to Outside Directors shall be subject to the terms and conditions of Section 6 regarding the terms of Options and to the other relevant provisions of the Plan.

Section 10. Adjustment and Change in Control Provisions:

(a) In the event that any recapitalization, reclassification, split-up or consolidation of shares of Common Stock shall be effected, or the outstanding shares of Common Stock are, in connection with a merger or consolidation of the Company or a sale by the Company of all or a part of its assets, exchanged for a different number or class of shares of stock or other securities of the Company or for shares of the stock or other securities of any other corporation, or new, different or additional shares of other securities of the Company or of another corporation are received by the holders of Common Stock or any distribution is made to the holders of Common Stock other than a cash dividend, (i) the number and class of shares or other securities that may be issued or transferred pursuant to Stock Incentives, (ii) the number and class of shares or other securities which have not been issued or transferred under outstanding Stock Incentives, (iii) the purchase price to be paid per share under outstanding Options and other Stock Incentives, (iv) the Fair Market Value of a share of Common Stock on the date of grant of outstanding Stock Appreciation Rights, (v) the dates or events upon which Options and Stock Appreciation Rights may be exercised, which may, in

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

appropriate instances, be related to specific dates or events under any of the aforesaid actions, and (vi) the price to be paid per share by the Company or a Subsidiary for shares or other securities issued or transferred pursuant to Stock Incentives which are subject to a right of the Company or a Subsidiary to reacquire such share or other securities, shall in each case be equitably adjusted. In addition, the Committee may, in its discretion, make the adjustments described above in this paragraph (a) of Section 10 in the event the Company pays a cash dividend in respect of the Common Stock other than a regular quarterly dividend.

(b) Notwithstanding any other provision of the Plan to the contrary (and notwithstanding any requirement that conditions the receipt of benefits of a Stock Incentive granted hereunder on the completion of a specified period of employment by the holder thereof or on the attainment of certain performance goals by the Company or any group, Subsidiary or division thereof), in the event of a Change in Control of the Company the holders of Stock Incentives outstanding as of the date of the occurrence of the Change in Control of the Company shall have the right to surrender such Stock Incentives within the 60-day period following the occurrence of the Change in Control of the Company and to receive cash as consideration for such surrender in accordance with the following:

(i) A holder of a Stock Award being surrendered shall be entitled to the amount equal to the highest Fair Market Value of one share of Common Stock during the 60 days preceding the date on which the Change in Control of the Company occurs, multiplied by the number of shares in respect of which the Stock Award shall have been surrendered.

(ii) A holder of Options being surrendered shall be entitled to the amount by which the highest Fair Market Value of one share of Common Stock during the 60 days preceding the date on which the Change in Control of the Company occurs exceeds the exercise price of one share of Common Stock subject to such Option, multiplied by the number of shares in respect of which the Option shall have been surrendered.

(iii) The holder of Stock Appreciation Rights being surrendered shall be entitled to the amount by which the highest Fair Market Value of one share of Common Stock during the 60 days preceding the date on which the Change in Control occurs exceeds the Fair Market Value of one share of Common Stock on the date of grant of such Stock Appreciation Rights (as adjusted, if applicable under the terms of the Plan), multiplied by the number of shares in respect of which the Stock Appreciation Rights shall have been surrendered. Stock Appreciation Rights granted in connection with the grant of Options may be surrendered only if surrendered together with the surrender of the related Options and the holder thereof shall be entitled to the payment described in this subparagraph (iii) only.

(iv) All payments to be made pursuant to this paragraph (b) of Section 10 shall be made within ten days of the delivery of written notice of such surrender by the holder to the Company.

Section 11. Term: The Plan shall be deemed adopted and shall become effective on the date it is approved by the shareholders of the Company. No Stock Incentives shall be granted under the Plan after May 31, 2007.

Section 12. Administration:

(a) The Plan shall be administered by the Committee which shall consist of not less than three directors of the Company designated by the Board; *provided, however*, that no director shall be designated as or continue to be a member of the Committee, unless such director shall be (i) a Non-Employee Director within the meaning of Rule 16b-3 under the Act (or any successor rule or regulation), (ii) an outside director within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder (or any successor provisions, rules or regulations) and (iii) an independent director under the rules of The New York Stock Exchange.

(b) The Committee shall have full authority to act for the Company under the Plan, except the authority to amend or discontinue the Plan, which power shall be solely that of the Board.

Edgar Filing: INGERSOLL RAND CO LTD - Form DEF 14A

(c) The Committee may establish such rules and regulations not inconsistent with the provisions of the Plan as it deems necessary to determine eligibility to participate in the Plan and for the proper administration of the Plan, and may amend or revoke any rule or regulation so established. The Committee may make such determinations and interpretations under or in connection with the Plan as it deems necessary or advisable. All such rules, regulations, determinations and interpretations shall be binding and conclusive upon the Company, its Subsidiaries, its shareholders and all employees, and upon their respective legal representatives, beneficiaries, successors and assigns and upon all other persons claiming under or through any of them.

(d) Any action required or permitted to be taken by the Committee under the Plan shall require the affirmative vote of a majority of all the members of the Committee. The Committee may act by written

F-9

determination instead of by affirmative vote at a meeting, provided that any written determination shall be signed by all of the members of the Committee, and any such written determination shall be as fully effective as a unanimous vote at a meeting.

(e) Members of the Committee acting under the Plan shall be fully protected in relying in good faith upon the advice of counsel and shall incur no liability except for gross negligence or willful misconduct in the performance of their duties.

Section 13. General Provisions:

(a) With respect to any shares of Common Stock issued or transferred under any provision of the Plan, such shares may be issued or transferred subject to such conditions, in addition to those specifically provided in the Plan, as the Committee may direct and, without limiting the generality of the foregoing, provision may be made in the grant of Stock Incentives that shares issued or transferred upon their grant or exercise shall be subject to forfeiture upon failure to comply with conditions and restrictions imposed in the grant of such Stock Incentives.

(b) The Committee may fix a uniform date, within any specified period, either before or after the date so fixed, as of which any exercise of an Option or Stock Appreciation Rights shall be deemed to be effective.

(c) The Committee may, in its discretion, in the event of termination of employment with the consent of the Company or the death, Retirement or Disability of the holder of a Stock Incentive, reduce the period of employment required before such Stock Incentive may be exercised.

(d) In the event of the termination of employment with the consent of the Company of an optionee or a Key Employee who is a holder of Stock Appreciation Rights, other than by death, Retirement or Disability, the Committee may extend the period during which such Options or Stock Appreciation Rights may be exercised after the date of termination of employment but not beyond the expiration date of the term of the Options or Stock Appreciation Rights.

(e) Whether an authorized leave of absence or an absence for military or government service shall constitute termination of employment or interruption of required additional continuous employment for the purpose of the Plan shall be determined by the Committee.

(f) Nothing in the Plan nor in any instrument executed pursuant thereto shall confer upon any employee any right to continue in the employ of the Company or any Subsidiary or shall affect the right of the Company or of a Subsidiary to terminate the employment of any employee with or without cause.

(g) No shares of Common Stock shall be issued or transferred pursuant to a Stock Incentive unless and until all legal requirements applicable to the issuance or transfer of such shares have, in the opinion of counsel to the Company, been complied with. In connection with any such issuance or transfer, the person acquiring the shares shall, if requested by the Company, give assurances satisfactory to counsel to the Company that the shares are being acquired for investment and not with a view to resale or distribution thereof and assurances in respect of such other matters as the Company or a Subsidiary may deem desirable to assure compliance with applicable legal requirements.

(h) No holder of a Stock Incentive (individually or as a member of a group), and no beneficiary or other person claiming under or through such holder, shall have any right, title or interest in or to any shares of Common Stock allocated or reserved for the purposes of the Plan or subject to any Stock Incentive except as to such shares of Common Stock, if any, as shall have been issued or transferred to such individual.

(i) The Company or a Subsidiary may, with the approval of the Committee, enter into an agreement or other commitment to grant a Stock Incentive in the future to a person who is or will be a Key Employee at the time of grant, and, notwithstanding any other provision of the Plan, any such agreement or commitment shall not be deemed the grant of a Stock Incentive until the date on which the Committee takes action to implement such agreement or commitment.

F-10

Table of Contents

(j) In the case of a grant of a Stock Incentive to any employee of a Subsidiary, such grant may, if the Committee so directs, be implemented by the Company issuing or transferring the shares, if any, covered by the Stock Incentive to the Subsidiary, for such lawful consideration as the Committee may specify, upon the condition or understanding that the Subsidiary will transfer the shares to the employee in accordance with the terms of the Stock Incentive specified by the Committee pursuant to the provisions of the Plan. Notwithstanding any other provision hereof, such Stock Incentive may be issued by and in the name of the Subsidiary and shall be deemed granted on the date it is approved by the Committee, on the date it is delivered by the Subsidiary, or on such other date between such two dates, as the Committee shall specify.

(k) The Company or a Subsidiary may make such provisions as it may deem appropriate for the withholding of any taxes which the Company or Subsidiary determines it is required to withhold in connection with any Stock Incentive.

(l) No Stock Incentive and no rights under the Plan, contingent or otherwise, shall be assignable or subject to any encumbrance, pledge or charge of any nature except that, under such rules and regulations as the Committee may establish, a beneficiary may be designated in respect of a Stock Incentive in the event of the death of the holder of such Stock Incentive and except that if such beneficiary shall be the executor or administrator of the estate of the holder of such Stock Incentive, any rights in respect of such Stock Incentive may be transferred to the person or persons or entity (including a trust) entitled thereto under the will of the holder of such Stock Incentive or, in the case of intestacy, under the laws relating to intestacy. A Stock Incentive shall be exercisable during the lifetime of the holder thereof only by the holder or by the holder's guardian, conservator or similar legal representative.

(m) Nothing in the Plan is intended to be a substitute for, or shall preclude or limit the establishment or continuation of, any other plan, practice or arrangement for the payment of compensation or fringe benefits to employees generally, or to any class or group of employees, which the Company or any Subsidiary now has or may hereafter lawfully put into effect, including, without limitation, any retirement, pension, insurance, stock purchase, incentive compensation or bonus plan.

(n) The place of administration of the Plan shall conclusively be deemed to be within the State of New Jersey and the validity, construction, interpretation and administration of the Plan and of any rules and regulations or determinations or decisions made thereunder, and the rights of any and all persons having or claiming to have any interest therein or thereunder, shall be governed by, and determined exclusively and solely in accordance with, the laws of the State of New Jersey. Without limiting the generality of the foregoing, the period within which any action must be commenced arising under or in connection with the Plan, or any payment or award made or purportedly made under or in connection therewith, shall be governed by the laws of the State of New Jersey, irrespective of the place where the act or omission complained of took place and of the residence of any party to such action and irrespective of the place where the action may be brought.

Section 14. Amendment or Discontinuance of Plan:

(a) The Plan may be amended by the Board at any time; *provided, however*, that, without the approval of the shareholders of the Company, no amendment shall be made which (i) increases the aggregate number of shares of Common Stock that may be issued or transferred pursuant to Stock Incentives as provided in paragraph (a) of Section 4, (ii) amends the provisions of paragraph (a) of Section 12 with respect to the eligibility of the members of the Committee, (iii) permits any person to be granted a Stock Incentive who is not at the time of such grant a Key Employee or an Outside Director, (iv) amends Section 11 to extend the term of the Plan, or (v) amends this Section 14.

(b) The Board may by resolution adopted by a majority of the entire Board discontinue the Plan.

(c) No amendment or discontinuance of the Plan shall adversely affect any Stock Incentive theretofore granted without the consent of the holder thereof.
