Explanatory Note

On March 15, 2005, Nanophase Technologies Corporation filed its Annual Report on Form 10-K for the fiscal year ended December 31, 2004. This Amendment No. 1 has been filed only to correct the following errors of omission:

- 1. To change the date and add the following required wording to the Report of Independent Registered Public Accounting Firm: Furthermore, in our opinion, Nanophase Technologies Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2004, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).
- 2. To change a date and correct certain text included within the Consent of Independent Registered Public Accounting Firm filed as Exhibit 23.1 to the Form 10-K.

In accordance with Rule 12b-15 under the Securities Exchange Act of 1934, as amended, the Company has included the complete text of Item 15 of the Form 10-K with this Amendment No. 1.

2

PART IV

Item 15. Exhibits, Financial Statement Schedules and Reports on Form 8-K

- (a) The following documents are filed as part of this Form 10-K:
 - 1. The following financial statements of the Company, with the report of independent auditors, are filed as part of this Form 10-K:

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Nanophase Technologies Corporation

Romeoville, Illinois

We have audited the accompanying balance sheets of Nanophase Technologies Corporation as of December 31, 2004 and 2003, and the related statements of operations, stockholders—equity, and cash flows for each of the years in the three-year period ended December 31, 2004. We also have audited management—s assessment, included in the accompanying Annual Report on the Form 10-K, that Nanophase Technologies Corporation maintained effective internal control over financial reporting as of December 31, 2004, based on criteria established in Internal Control- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Nanophase Technologies Corporation—s management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on these financial statements, an opinion on management—s assessment, and an opinion on the effectiveness of the company—s internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audit of financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, evaluating management s assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nanophase Technologies Corporation as of December 31, 2004 and 2003, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, management s assessment that Nanophase Technologies Corporation maintained effective internal control over financial reporting as of December 31, 2004, is fairly stated, in all material respects, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Furthermore, in our opinion, Nanophase Technologies Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2004, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS

(1) Description of Business

The Company was incorporated on November 30, 1989, for the purpose of developing nanocrystalline materials for commercial production and sale in domestic and international markets.

Nanophase Technologies is a nanocrystalline materials developer and commercial manufacturer with an integrated family of nanomaterial technologies. Nanophase produces engineered nanomaterials for use in a variety of diverse existing and developing markets: personal care, sunscreens, abrasion-resistant applications, environmental catalysts, antimicrobial products and a variety of polishing applications, including semiconductors and optics. New markets and applications also are being developed. The Company targets markets in which it feels practical solutions may be found using nanoengineered products. The Company works with leaders in these target markets to identify and supply their material and performance requirements.

The Company also recognizes regular other revenue from a technology license and previously has recognized revenue from the occasional sale of production equipment to its technology licensee, as well as \$600,000 in revenue for 2004 (only) as discussed in Note 16. None of these activities are expected to drive the long-term growth of the business. All of these types of items are recognized as other revenue in the Company s Statement of Operations, as they do not represent revenue directly from the Company s Nanocrystalline materials.

(2) Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements requires the Company to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents primarily consist of demand deposits. The Company has employed corporate sweep accounts, when cost-effective in order to maximize interest income earned with its operating funds. From time to time, the Company s cash accounts may exceed federally insured limits.

Investments

Investments are classified by the Company at the time of purchase for appropriate designation and are reevaluated as of each balance sheet date. The Company s policy is to classify money market funds and certificates of deposit as investments. These investments are classified as held-to maturity when the Company has the positive intent and ability to hold the securities to maturity. Held-to maturity securities are stated at amortized cost and are adjusted to maturity for the amortization of premiums and accretion of discounts. Such adjustments for amortization and accretion are included in interest income. The Company has also made investments in variable rate demand notes. The investments have been

F-8

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

classified as available for sale securities. Investments classified as available for sale securities are recorded at market value using the specific identification method; unrealized gains and losses (excluding other-than-temporary impairments) are reflected in other comprehensive income (OCI). Due to the nature of the Company is investments being short-term, the fair value of these investments approximates their cost, accordingly, no unrealized gains or losses have been reflected in OCI.

Investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. The Company employs a systematic methodology that considers available evidence in evaluating potential impairment of its investments on a quarterly basis. If the cost of an investment exceeds its fair value, the Company evaluates, among other factors, general market conditions, the duration and extent to which the fair value is less than cost, as well as the Company s intent and ability to hold the investment. The Company also considers specific adverse conditions related to the financial health of and business outlook for the investee, including industry and sector performance, changes in technology, operational and financing cash flow factors and rating agency actions. Once a decline in fair value is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis in the investment is established.

The Company s investments are held by its investment bank who is a member of all major stock exchanges and the Securities Investor Protection Corporation (SIPC). Securities and cash held in custody by the Company s investment bank are afforded complete protection for the Company s investment positions through SIPC and a commercial insurer (commonly known as Excess SIPC coverage), however, it does not protect against losses from the rise and fall in market value of investments.

Trade Accounts Receivable

Trade accounts receivable are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Trade accounts receivable are written off when deemed uncollectible. Recoveries of trade accounts receivable previously written off are recorded when received.

The Company s typical credit terms are thirty days from shipment and invoicing.

The activity in the Allowance for Doubtful Accounts is as follows:

	2004	2003
Balance, Beginning of year	\$ 25,000	\$ 25,000
Charge offs	(729)	Ψ 23,000

Recoveries		
Provision		
Balance, End of year	\$ 24,271	\$ 25,000

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

Inventories

Inventories are stated at the lower of cost, maintained on a first in, first out basis, or market. The Company has recorded allowances to reduce inventory relating to excess quantities of certain materials. Write-downs of inventories establish a new cost basis, which is not increased for future increases in market value of inventories or changes in estimated excess quantities.

Equipment and Leasehold Improvements

Equipment is stated at cost and is being depreciated over its estimated useful life (3-20 years) using the straight-line method. Leasehold improvements are stated at cost and are being amortized using the straight-line method over the shorter of the useful life of the asset or the term of the lease (3-16 years). Depreciation expense for leased assets is included with depreciation expense for owned assets. From time to time the company has self-constructed assets. These assets are stated at cost plus the capitalization of labor and have an estimated useful life (7-10 years) using the straight-line method.

The Company follows the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Reviews are performed whenever events or changes in circumstances indicate that the carrying amount of assets may not be recoverable or that the useful life is shorter than originally estimated. The Company assesses the recoverability of its assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. If assets are determined to be recoverable, but the useful lives are shorter than originally estimated, the net book value of the assets is depreciated over the newly determined remaining useful lives.

Asset Retirement Obligations

In connection with its leased facilities, the Company is required to remove certain leasehold improvements upon termination of its occupancy. Effective January 1, 2003, the Company follows the provisions of SFAS 143, Accounting for Asset Retirement Obligations , under which the Company recognizes a liability for the fair value of its asset retirement obligations. The fair value of that liability is measured based on an expected cash flow approach and accretion expense is recognized each period to recognize increases to the fair value of the liability due to the passage of time. Increases to the fair value of the liability, except for accretion, are added to the carrying value of the long-lived asset. Those increases are then reported in amortization expense over the estimated useful life of the long-lived asset.

The Company adopted the provisions of SFAS 143, as of January 1, 2003. At the date of adoption the Company recorded an asset retirement obligation and related asset in the amount of \$82,000. The cumulative effect of the change on 2003 and the pro forma amounts for 2002, had the newly adopted method been applied retroactively, have not been presented because the amounts were immaterial to the financial statements.

Activity in the asset retirement obligation account for the year ended December 31, 2004, is as follows:

	2004	2003
Balance, beginning	\$ 94,157	\$
Adoption of standard		82,000
Accretion due to passage of time	11,260	12,157
Balance, ending	\$ 105,417	\$ 94,157
-		

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

The effect of the implementation of this standard resulted in an increase in net loss of \$40,912 and \$50,551 (no effect on per common share calculation) for 2004 and 2003, respectively. The added expenses were comprised of \$11,260 and \$12,157 in accretion expense and \$29,109 and \$38,394 in amortization expense for 2004 and 2003, respectively.

Intangible Assets

Intangible assets are included in other assets and are being amortized over the estimated useful life (17 or 20 years) of the respective patents and trademarks using the straight-line method.

Product Revenue

Product revenue consists of sales of product that are recognized when realized and earned. This occurs when persuasive evidence of an arrangement exists, title transfers via shipment of products or when delivery has occurred, the price is fixed or determinable and collectibility is reasonably assured.

Other Revenue

Other revenue consists of revenue from development funding (see RHEM discussion in Note 16) and fees from a technology license and the sale of production equipment that is designed and built by the Company. Such sale of equipment last occurred in the first quarter of 2003. These types of equipment sales occur on occasion and are also treated as other revenue. Technology license fees are recognized when earned pursuant to the agreed upon contractual arrangement, when performance obligations are satisfied, the amount is fixed or determinable, and collectibility is reasonably assured. Shipping and handling costs are included in other revenue when products are shipped and included in cost of goods sold when invoiced by the Company s vendors.

Advertising Expenses

The Company does not capitalize advertising expenses, they are either expensed when incurred or when related advertisements are first published. The Company recognized \$21,248, \$800 and \$0 in advertising expenses for the years 2004, 2003 and 2002, respectively.

Income Taxes

The Company accounts for income taxes using the liability method. As such, deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are calculated using the enacted tax rates and laws that are expected to be in effect when the anticipated reversal of these differences is scheduled to occur. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

F-11

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

Employee Stock Options

For the year ended December 31, 2004, 283,526 shares of Common Stock were issued pursuant to option exercises and no shares were issued in the form of an annual restricted stock grant to the Company s outside directors, compared to 287,446 and 24,350 shares of Common Stock respectively, in the same period in 2003.

As permitted by Statement of Financial Accounting Standards No. 123 Accounting for Stock-Based Compensation (FASB 123), the Company accounts for stock options granted to employees in accordance with APB Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25). As long as the exercise price of the options granted equals the estimated fair value of the underlying stock on the measurement date, no compensation expense is recognized by the Company for these options. FASB 123, established an alternative fair value method of accounting for stock-based compensation plans. As required by FASB 123 for companies using APB No. 25 for financial reporting purposes, the Company makes pro forma disclosures regarding the impact on net loss of using the fair value method of FASB Statement No. 123.

F-12

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

Pro forma information regarding net income is required by FASB No. 123, which also requires that the information be determined as if the Company had accounted for the employee stock options granted subsequent to December 31, 1994 under the fair value method of that Statement. The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following assumptions for the years ended December 31, 2004, 2003 and 2002:

The following table illustrates the various assumptions used to calculate the Black-Scholes option pricing model:

	Years	Years Ended December 31,			
	2004	2003	2002		
U.S. Government zero coupon 7-year bond interest rates:	3.93%	3.79%	4.93%		
Dividend yield:	0.00%	0.00%	0.00%		
Weighted-average expected life of the option:	7 years	7 years	7 years		
Volatility factors:	79.10%	102.49%	78.36%		
Weighted-average fair value of the options granted:	\$ 4.12	\$ 3.21	\$ 4.905		

For purposes of the pro forma disclosures, the estimated fair value of the options is amortized to expense over the vesting period of the respective option. Because FASB No. 123 is applicable only to options granted subsequent to December 31, 1994, its pro forma impact was not fully reflected until 2002. The pro forma impact on the three years shown is meant to approximate the effects of the expensing of stock options.

The following table illustrates the effect on net loss and loss per share had compensation cost for all of the stock-based compensation plans been determined based on the grant date fair values of awards (the method described in FASB Statement No. 123, Accounting for Stock-Based Compensation):

	Years Ended December 31,			
	2004	2003	2002	
Net Loss:				
As reported	\$ (6,446,955)	\$ (5,827,650)	\$ (5,155,237)	
Deduct total stock-based employee compensation expense determined				
under fair value based method for all awards	(835,394)	(1,824,906)	(2,298,786)

Diluted - As reported	(0.37)	(0.38)	(0.35)
Diluted Pro forma	(0.42)	(0.50)	(0.51)

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

Fair Value of Financial Instruments

The Company s financial instruments include investments, accounts receivable, accounts payable, accrued liabilities and long-term debt. The fair values of all financial instruments were not materially different from their carrying values.

Net Loss Per Share

Net loss per common share is computed based upon the weighted average number of common shares outstanding. Common equivalent shares of 497,671 for 2004, 342,652 for 2003 and 476,473 for 2002 are not included in the per share calculations because the effect of their inclusion would be anti-dilutive.

	Ye	Years ended December 31,		
	2004	2003	2002	
Net loss	\$ (6,446,955)	\$ (5,827,650)	\$ (5,155,237)	
Weighted average common shares outstanding	17,266,228	15,391,537	14,551,479	
Net loss per common share-basic and diluted	\$ (0.37)	\$ (0.38)	\$ (0.35)	

Recently Issued Accounting Standards

In December 2004, the FASB issued FASB Staff Position (FSP) 109-1, Application of FASB Statement No. 109, Accounting for Income Taxes, to the Tax Deduction on Qualified Production Activities Provided by the American Jobs Creation Act of 2004 (FSP 109-1). The American Jobs Creation Act (AJCA) introduces a special tax deduction related to qualified production activities. This deduction is equal to 3% of qualified income for years 2005 and 2006, then is scheduled to increase to a 6% deduction for years 2007 through 2009, and finally, will be fully phased-in as a 9% deduction beginning in year 2010. FSP 109-1 clarifies that this tax deduction should be accounted for as a special tax deduction in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes. Pursuant to the ACJA, the Company will not be able to claim this benefit during any annual periods during which losses are incurred. We do not expect the adoption of these new tax provisions to have a material impact on the Company s financial statements.

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R) SFAS 123R will require that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. SFAS 123R covers a wide range of share-based compensation arrangements including share (or stock) options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. SFAS 123R replaces FASB 123, *Accounting for Stock Issued to Employees*. SFAS 123R will be effective for Nanophase for the third fiscal quarter ending September 30, 2005, beginning on July 1, 2005. SFAS 123R allows two methods for determining the effects of the transition: the modified prospective transition method and the modified retrospective method of transition. Under the modified prospective transition method, an entity would use the fair value-based accounting method for all employee awards granted, modified, or settled after the effective date. As of the effective date, compensation cost related to the nonvested portion of awards outstanding as of that date would be based on the grant-date fair value of those awards as calculated under the original provisions of Statement No. 123; that is, an entity would not remeasure the grant-date fair value estimate of the unvested portion of awards granted prior to the

F-14

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

effective date of the final Statement. Under the modified retrospective method of transition, an entity would recognize employee compensation cost for prior periods presented in accordance with the original provisions of Statement No. 123; that is, an entity would recognize employee compensation cost in the amounts reported in the proforma disclosures provided in accordance with Statement No.123. Although it has not yet completed its study of the transition methods, the Company believes it will elect the modified prospective transition method. The Company is in the process of evaluating the impact of adopting SFAS 123R and of determining the impact on our results of operations or financial position.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs-an Amendment of ARB No. 43, Chapter 4* (SFAS 151), which is the result of the FASB s efforts to converge U.S. accounting standards for inventory with International Accounting Standards. SFAS 151 requires that abnormal amounts of idle facility expense, freight, handling costs and wasted material be recognized as current period charges. It also requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. We do not expect adoption of SFAS 151 to have a material impact on the Company s results of operations.

(3) Investments

Investments at December 31, 2004 and 2003 were comprised of variable rate demand notes, certificates of deposit and a money market fund. Included in investments is \$110,090 and \$581,489 at December 31, 2004 and 2003, respectively, in the form of certificates of deposit which are pledged as collateral, primarily for the Company s business insurance premiums (see Note 7), and restricted as to withdrawal or usage. Investments held in short-term variable rate demand notes and certificates of deposit have maturity days of less than 30 days. The Company s investments on December 31, 2004 and 2003 were as follows:

	As of Deco	As of December 31,	
	2004	2003	
Variable rate demand notes	\$ 10,000,000	\$ 3,500,000	
Money market fund	1,039,225	479,090	
Certificates of deposit	110,090	581,489	
Accrued interest	5,811	1,785	
	\$ 11,155,126	\$ 4,562,364	

(4) Inventories

Inventories consist of the following:

	As of Dece	As of December 31,		
	2004	2003		
Raw materials	\$ 391,346	\$ 393,995

Construction in progress	182,305	74,029	
	14,219,857	13,657,176	
Less: Accumulated depreciation and amortization	(6,762,093)	(5,464,181)	
	\$ 7,457,764	\$ 8,192,995	
	<u> </u>		

Depreciation expense was \$1,297,912, \$1,460,853 and \$1,223,359, for the years ended December 31, 2004, 2003 and 2002, respectively.

F-16

NANOPHASE TECHNOLOGIES CORPORATION

NOTES TO FINANCIAL STATEMENTS - (Continued)

(6) Intangible Assets

The following is a summary of intangible assets on December 31, 2004 and 2003:

	20	2004		2003		
	Gross Carrying	Accumulated	Accumulated Gross Carrying			
	Amount	Amortization		Amount		
Subject to Amortization:						
Trademarks	\$ 14,921	\$ 6	184	\$ 14,921	\$	5,062
Patents	343,950	96	797	167,249		56,000
		-			_	
	\$ 358,871	\$ 102	981	\$ 182,170	\$	61,062
					_	

Amortization expense recognized on all amortizable intangibles totaled \$41,919, \$9,949 and \$14,459 for the years ended December 31, 2004, 2003 and 2002, respectively.

Estimated aggregate amortization expenses for each of the next five years is as follows:

Year ending December 31:	
2005	\$ 28,000
2006	28,000
2007	28,000
2008	28,000
2009	28,000

(7) Pledged Assets and Long-Term Debt

In November 2000, the Company executed a three-year promissory note, held by the Company s largest customer, in the amount of \$1,293,895 for the construction of additional production capabilities at the Company s Romeoville, Illinois facility. On December 31, 2004, 2003 and 2002, borrowings against this note amounted to \$579,472, \$856,267 and \$1,051,035, respectively. The note bears interest at 8.45% per annum, with

interest accruing beginning January 1, 2002, and the first payment commencing in February of 2002. The note is collateralized by certain powder coating, packaging, lab and related equipment. Contractually, as of December 31, 2004, the Company has five months to pay back this note, based on a rate per kilogram of product shipped, with any remaining outstanding balance at June 1, 2005 becoming payable on demand.

In December 2003, the Company financed \$430,000 in insurance premiums at 4.87% per annum through October 2004. The balance due on the note was at \$0 and \$429,955 on December 31, 2004 and 2003, respectively. The note is collateralized by a declining letter of credit to be reduced over the life of the obligation.

(8) Lease Commitments

The Company leases its operating facilities under operating leases. Nanophase leases its Romeoville facility under an agreement whose initial term will expire in July 2006, with an option to extend the lease for two additional periods of five years each. The current monthly rent on this lease amounts to \$25,568. Nanophase leases its Burr Ridge facility under an agreement whose initial term expired in September 1999. The Company then exercised its options to extend the lease for five additional one-year terms, the last of which expired in September 2004. The Company executed a new lease for its Burr Ridge facility in September 2004. The initial term of the new lease expires in September 2007, but the Company has options to extend the lease for up to three additional one-year terms. The current monthly rent on this lease amounts to \$10,000.

The following is a schedule of future minimum lease payments as required under the above operating leases:

\$ 447,313
308,874
95,481
\$ 851,668

Rent expense, including real estate taxes, under these leases amounted to \$521,264, \$511,112 and \$516,352, for the years ended December 31, 2004, 2003 and 2002, respectively.

During the years ended December 31, 2004 and 2003, the Company entered into capital leases for equipment. On December 31, 2004 and 2003, equipment under capital leases for both years had a cost of \$205,314 with accumulated depreciation of \$128,413 and \$87,350, respectively. The following is a schedule of future minimum lease payments as required under the above capital leases:

Year ending December 31, 2005	\$ 12,111
Less: Amount representing interest	(285)
Present value of net future minimum lease payments	11,286
Less: Current Portion	(11,826)
	\$

(9) Accrued Expenses

Accrued expenses consist of the following:

	As of Dec	As of December 31,	
	2004	2003

(10) License Agreements

The Company was granted a non-exclusive license by a third party to make, use, and sell products of the type claimed in two U.S. patents. In consideration for this license, the Company agreed to pay royalties of 1% of net sales, as defined, and made an advance royalty payment of \$17,500. Royalties under this agreement amounted to approximately \$29,200, \$25,600 and \$37,000 for the years ended December 31, 2004, 2003 and 2002, respectively

In December 1997, the Company entered into a license agreement whereby the Company granted a royalty-bearing exclusive right and license, as defined, to purchase, make, use and sell nanocrystalline materials in designated parts of Asia to C. I. Kasei, a division of Itochu Corporation (CIK). Under this agreement, the Company also will earn royalties on net sales of manufactured products containing nanocrystalline materials. The agreement also provided for minimum sales targets and minimum royalty payments to maintain exclusivity. The agreement expires on March 31, 2013 unless earlier terminated as provided therein. The Company recorded royalty revenues, classified as Other Revenue on the Statements of Operations, under this agreement of \$300,000 for the years ended December 31, 2004, 2003 and 2002, respectively.

(11) Income Taxes

The Company s provision for income taxes, as presented on its Statements of Operations for the periods presented, is attributable to foreign income taxes paid as a result of certain transactions with customers in foreign countries. The Company has no income tax provision, current or deferred, relating to U.S. federal, state or local income taxes.

A reconciliation of income tax expense to the amount computed by applying the Federal income tax rate to loss before provision for income taxes as of December 31, 2004, 2003 and 2002, is as follows:

	2004	2003	2002
Income tax credit at statutory rates	\$ (2,181,765)	\$ (1,971,201)	\$ (1,729,431)
Nondeductible expenses	9,084	31,348	5,419
Tax benefit of disqualifying dispositions of stock by employees	(683,900)	(405,459)	(38,060)
State income tax, net of federal benefits	(320,848)	(289,883)	(254,328)
Foreign income taxes	30,000	30,000	68,674
Other	24,429	40,195	(76,600)
Benefit of net operating loss and foreign tax credits not recognized,			
Increase in valuation allowance	3,153,000	2,595,000	2,09
