INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Q: Why did you send me this Proxy Statement?

A: We sent you this Proxy Statement and the enclosed proxy card because the board of directors of the Company (the Board or the Board of Directors) is soliciting your proxy to vote at the 2005 Annual Meeting of Shareholders (the Annual Meeting). The Annual Meeting will be held at the Meydenbauer Center, 11100 NE 6th Street, Bellevue, Washington on June 30, 2005, at 9:00 a.m.

This Proxy Statement summarizes the information regarding the matters to be voted upon at the Annual Meeting. You do not need to attend the Annual Meeting, however, to vote your shares. You may simply complete, sign, and return the enclosed proxy card or vote your shares by telephone or over the Internet in accordance with the instructions contained on the proxy card.

On May 5, 2005 there were 21,480,669 shares of common stock of the Company outstanding. If you owned shares of our common stock at the close of business on the record date, you are entitled to one vote for each share of common stock you owned as of that date. We began mailing this Proxy Statement on or about May 18, 2005 to all shareholders entitled to vote their shares at the Annual Meeting.

Q: How many votes do I have?

A: You have one vote for each share of common stock that you owned on the record date. The proxy card will indicate the number of shares.

Q: How do I vote by proxy?

A: If you properly cast your vote by either executing and returning the enclosed proxy card or by voting your proxy by telephone or via the Internet, and your vote is not subsequently revoked by you, your vote will be voted in accordance with your instructions. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the Board as follows:

FOR electing all eight nominees for Director, and

FOR the proposed amendment to the Company's Independent Director Stock Option Plan.

If any other matter is presented, your proxy will vote in accordance with his best judgment. At the time we printed this Proxy Statement, we knew of no matters that needed to be acted on at the Annual Meeting other than those discussed in this Proxy Statement.

Q: May my broker vote for me?

A: Under the rules of the National Association of Securities Dealers, if your broker holds your shares in its street name, the broker may vote your shares on routine matters even if it does not receive instructions from you. At the Annual Meeting your broker may, without instructions from you, vote on Proposal 1 but not Proposal 2.

Q: What are abstentions and broker non-votes?

A: An abstention represents the action by a shareholder to refrain from voting for or against a proposal. Broker non-votes represent votes that could have been cast on a particular matter by a broker, as a shareholder of record, but that were not cast because the broker (i) lacked discretionary voting authority on the matter and did not receive voting instructions from the beneficial owner of the shares, or (ii) had discretionary voting authority but nevertheless refrained from voting on the matter.

Table of Contents

Q: May I revoke my proxy?

A: Yes. You may change your mind after you send in your proxy card or vote your shares by telephone, via the Internet or at the Annual Meeting by following these procedures. To revoke your proxy:

Send in another signed proxy card with a later date;

Send a letter revoking your proxy to Microvision's Secretary at the Company's offices in Bothell, Washington;

Vote again by telephone or Internet; or

Attend the Annual Meeting and vote in person.

Q: How do I vote in person?

A: If you plan to attend the Annual Meeting and vote in person, we will give you a ballot when you arrive. If your shares are held in the name of your broker, bank, or other nominee, you must bring an account statement or letter from that broker, bank, or nominee. The account statement or letter must show that you were the direct or indirect beneficial owner of the shares on May 12, 2005, the record date for voting. Alternatively, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

Q: What is the quorum requirement for the meeting?

A: The quorum requirement for holding the meeting and transacting business is a majority of the outstanding shares entitled to be voted. The shares may be present in person or represented by proxy at the meeting. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Q: What vote is required to approve the election of directors?

A: The eight nominees for director who receive the most votes will be elected. So, if you do not vote for a nominee, or you withhold authority to vote for a nominee, your vote will not count either for or against the nominee. Abstentions and broker non-votes will have no effect on the outcome of voting for directors.

Q: What vote is required to approve the proposed amendment to the Company's Independent Director Stock Option Plan?

A: The amendment to the Independent Director Stock Option Plan will be approved if the number of votes cast in favor of this proposal exceeds the number of votes cast against this proposal. Abstentions and broker non-votes will not be counted for or against the proposal and will have no effect on the outcome of the vote.

Q: Is voting confidential?

A: We keep all the proxies and ballots private as a matter of practice.

Q: **What are the costs of soliciting these proxies?**

A: The Company will pay all the costs of soliciting these proxies. In addition to the solicitation of proxies by mail, our officers and employees also may solicit proxies by telephone, fax or other electronic means of communication, or in person. We will reimburse banks, brokers, nominees, and other fiduciaries for the expenses they incur in forwarding the proxy materials to you.

Q: **Who should I call if I have any questions?**

A: If you have any questions about the Annual Meeting, voting or your ownership of Microvision common stock, please call us at (425) 415-6847 or send an e-mail to ir@microvision.com.

Table of Contents**DISCUSSION OF PROPOSALS RECOMMENDED BY THE BOARD****Proposal One Election Of Directors**

The Board of Directors oversees our business and affairs and monitors the performance of management. In accordance with corporate governance principles, the Board does not involve itself in day-to-day operations of the Company. The directors keep themselves informed through discussions with the Chief Executive Officer, other key executives, and our principal advisers by reading the reports and other materials that we send them regularly and by participating in Board and committee meetings. Our directors hold office until their successors have been elected and duly qualified unless the director resigns or by reason of death or other cause is unable to serve. We currently have one vacancy on our Board of Directors due to William Owens' resignation from the Board of Directors in December 2003. The Board of Directors continues to seek, from time to time, additional board members to fill any vacancies who bring expertise in technology, commercialization, and distribution. Until the vacancy is filled, our Board of Directors will consist of the members who are elected at the Annual Meeting to serve until their successors are duly elected and qualified at the next annual meeting of shareholders, unless the director resigns or by reason of death or other cause is unable to serve in the capacity of director. Proxies cannot be voted for a greater number of persons than the number of nominees named.

If any nominee is unable to stand for election, the shares represented by all valid proxies will be voted for the election of such substitute nominee as the Board of Directors may recommend. All of the nominees are currently directors of the Company. The Company is not aware that any nominee is or will be unable to stand for election.

Proxies received from shareholders, unless directed otherwise, will be voted FOR the election of the nominees listed below. THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR ALL OF THE NOMINEES NAMED BELOW AS DIRECTORS OF THE COMPANY.

Set forth below are the name, position held and age of each of the nominees for director of the Company. The principal occupation and recent employment history of each of the nominees are described below, and the number of shares of common stock beneficially owned by each nominee as of May 5, 2005, is set forth on pages 16 and 17.

Proposal Two Amendment to the Independent Director Stock Option Plan

The Board of Directors has authorized an amendment to the Company's Independent Director Stock Option Plan (the Director Plan), subject to shareholder approval. The amendment will increase the number of shares of common stock reserved for issuance upon exercise of options granted under the Director Plan by 400,000 to a total of 900,000 shares.

Summary of the Director Plan

The Director Plan was originally adopted by the Board in February 2000 and approved by the shareholders in June 2000. The Company currently has 6 Independent Directors.

Under the Director Plan, each Independent Director is granted a nonstatutory option to purchase 15,000 shares of common stock on the date on which he or she is first elected or appointed to the Board of Directors. These options are fully vested and immediately exercisable upon the date of grant. Each Independent Director also receives, upon his or her initial appointment or election and upon each subsequent reelection to the Board of Directors, an option to purchase 15,000 shares that will vest in full on the earlier of (i) the day prior to the date of the Company's annual meeting of shareholders next following the date of grant, or (ii) one year from the date of grant, provided the Independent Director continues to serve as a director on the vesting date. If an Independent Director ceases to be a director for any reason other than death or disability before his or her term expires, then any outstanding unvested options issued under the Director Plan to such Independent Director will be forfeited. Options vested as of the date of termination for any reason other than death or disability are exercisable through the date of expiration. The exercise price for each option is equal to the closing price of the Company's common stock as reported on the Nasdaq National Market on the date of grant. The options generally expire on the tenth anniversary of the date of grant.

The Board of Directors has reserved a total of 900,000 shares of common stock for issuance under the Director Plan. Unless earlier suspended or terminated by the Board, the Director Plan will continue in effect until the earlier of: (i) ten years from the date on which it was adopted by the Board, or (ii) the date on which all shares available for issuance under the Director Plan have been issued. The Plan may be administered by the Board of Directors or by a committee of directors and, in certain circumstances, officers of the Company, except that only the Board of Directors

may suspend, amend or terminate the Director Plan.

Table of Contents

Federal Income Tax Consequences

The following is a general description of the principal U.S. federal income tax consequences of option grants under the Director Plan based on the federal income tax rules as in effect on the date of this Proxy Statement, and does not attempt to describe all potential tax consequences. State and local tax treatment, which is not discussed below, may vary from such federal income tax treatment. Furthermore, tax consequences are subject to change and an optionee's particular situation may be such that some variation of the described rules applies. As a result, optionees are advised to consult their own tax advisors as to the tax consequences of participating in the Plan.

Options granted under the Director Plan are treated as nonstatutory options (NSOs) for U.S. federal income tax purposes. The grant of an NSO does not result in taxable income to the recipient or in a tax deduction to the Company. At the time of exercise of an NSO, the optionee will realize ordinary compensation income, and the Company will generally be entitled to a deduction, in each case in the amount by which the market value of the shares subject to the option at the time of exercise exceeds the exercise price. Any gain or loss recognized upon a sale or exchange of shares acquired upon exercise of an NSO will be taxed as capital gain or loss, long-term or short-term depending on the holder's tax holding period in the shares. The Company is not entitled to claim a deduction for any such gain or loss.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE FOREGOING AMENDMENT TO THE COMPANY'S INDEPENDENT DIRECTOR STOCK OPTION PLAN.

OTHER BUSINESS

We know of no other matters to be voted on at the Annual Meeting or any adjournment or postponement of the meeting. If, however, other matters are presented for a vote at the meeting, the proxy holders (the individuals designated on the proxy card) will vote your shares according to their judgment on those matters.

Executive Loan Plans

The Company previously adopted two loan plans under which Richard F. Rutkowski, Stephen Willey, and Richard Raisig were able to borrow funds from the Company. At the end of each year, the Company will forgive the interest that accrued under the loans if the executive remains employed by the Company. In 2004, the Company forgave \$95,632, \$29,865, and \$37,749 of interest for Messrs. Rutkowski, Willey, and Raisig, respectively. No additional loans have been made under either the Executive Option Exercise Loan Plan or the Executive Loan Plan since July 2002, and the Company does not intend to make any additional loans under these plans. On February 16, 2005, Stephen Willey transferred 28,844 shares of the Company's common stock in full repayment of an existing loan and accrued interest thereon, which had become due on December 31, 2004. For additional details regarding loan balances and terms, see "Certain Relationships and Related Transactions" on page 22.

Certain Tax Considerations Related to Executive Compensation

Edgar Filing: MICROVISION INC - Form DEF 14A

As a result of Section 162(m) of the Internal Revenue Code of 1986, as amended, in the event that compensation paid by the Company to the Named Executive Officers in a year were to exceed an aggregate of \$1,000,000, the Company's deduction for such compensation could be limited to \$1,000,000.

Report On Executive Compensation For 2004 By The Compensation Committee

Executive Compensation Philosophy

The Compensation Committee of the Board of Directors is comprised of four Independent Directors. The Compensation Committee is responsible for evaluating compensation levels and compensation programs for executives and for making appropriate compensation awards for executive management.

The executive compensation program of the Company is designed to attract, retain and motivate executive officers capable of leading the Company to meet its business objectives. These objectives include creating and preserving strong financial performance, positioning the Company in markets and industry segments offering long-term growth opportunities, enhancing long term shareholder value and ensuring the survival of the

Table of Contents

Company. The Compensation Committee's philosophy is for the Company to use compensation policies and programs that align the interests of executive management with those of the shareholders and to provide compensation programs that incentivize and reward both the short and long-term performance of the executive officers based on the success of the Company in meeting its business objectives. The accomplishment of these objectives is measured against conditions prevalent in the industry in which the Company operates.

Executive Compensation Components

The available forms of executive compensation include base salary, incentive bonus awards, and stock options. Performance of the Company is a key consideration. However, the Company's executive compensation policy recognizes that stock price is only one measure of performance, and given industry business conditions and the long-term strategic direction and goals of the Company, it may not necessarily be the best current measure of executive performance. Therefore, the Compensation Committee also considers the Company's achievement of business objectives when determining executive compensation.

Base Salary. Base salaries for executive officers are set at levels believed by the Compensation Committee to be sufficient to attract and retain qualified executive officers based on the stage of development of the Company and the market practices of other companies. A change in base salary of an executive officer is based on an evaluation of the performance of the executive, prevailing market practices and of the performance of the Company as a whole. In determining base salaries, the Compensation Committee not only considers the short term performance of the Company, but also the success of the executive officers in developing and executing the Company's strategic plans, developing management employees and exercising leadership in the development of the Company.

Incentive Bonus. The Compensation Committee believes that a portion of the total cash compensation for executive officers should be based on the Company's success in meeting its short term performance objectives and contributions by the executive officers that enable the Company to meet its long term objectives, and has structured the executive compensation program to reflect this philosophy. This approach creates a direct incentive for executive officers to achieve desired short term corporate goals that also further the long term objectives of the Company, and places a significant portion of each executive officer's annual compensation at risk.

Stock Options. The Compensation Committee believes that equity participation is a key component of the Company's executive compensation program. Stock options are awarded by the Compensation Committee to executive officers primarily based on their responsibilities and expected contributions to the Company's growth and development and marketplace practices. These awards are designed to attract and retain executive officers and to motivate them to enhance shareholder value by aligning the financial interests of executive officers with those of shareholders.

Compensation of Chief Executive Officer

Based on the executive compensation policy and components described above, the Compensation Committee recommended the salary and incentive bonus received by Richard F. Rutkowski, the Chief Executive Officer of the Company, for services rendered in fiscal year 2004. Mr. Rutkowski received a base salary of \$364,000 for 2004 and earned a bonus for the year of \$50,000. The Company also forgave \$95,632 in interest on \$1,708,000 owed to the Company by Mr. Rutkowski under the Company's Executive Loan Plan. Mr. Rutkowski's compensation was based upon achieving technical successes, progress made in the staffing and organizational development of the Company, and advances in the market acceptance and commercialization of the Company's technology.

Equity compensation plans not approved by shareholders	686,000	23.20	
Total	5,449,000	\$ 12.92	2,954,000

As of December 31, 2004, there were non-plan options to purchase a total of 355,000 shares of Microvision common stock outstanding. 346,000 of these were options approved by the Board of Directors and issued in October 2001, with an exercise price in excess of the fair value of Microvision common stock on the date of grant. The October 2001 options have a \$15.00 exercise price and vest 25% on the grant date and 25% at six-month intervals thereafter. The remaining 9,000 non-plan options were granted at fair value on the date of grant and vest 25% at each annual anniversary date of the grant.

All non-plan options are non-qualified options with 10 year terms granted to non-executive employees. The options are administered by the Compensation Committee of the Board of Directors or its authorized agents. Options surrendered, exchanged for another option, canceled or terminated without having been exercised in full will again be available for issuance by the Company. The options are not transferable other than by will or the laws of descent and distribution. Each option is exercisable during the lifetime of the optionee only by such optionee, upon its vest date and thereafter through the expiration date, subject to the termination of employment provisions. Following termination of employment by the Company other than for cause, resignation in lieu of dismissal, disability or death, an option holder may exercise options, vested as of the date of termination, within three months before the options will automatically expire, and any unvested options will automatically expire upon the termination date. The number and class of shares covered by the options and the exercise price per share shall be proportionately adjusted for any change in the number of issued shares of common stock of the Company resulting from a stock split, stock dividend or consolidation of shares or any like capital stock adjustment. In the event of a merger, consolidation or plan of exchange to which the Company is a party or a sale of all or substantially all of the Company's assets, the Board of Directors may elect to treat the options in one of the following ways: (i) outstanding options would remain in effect in accordance with their terms; (ii) outstanding options would be converted into options to purchase stock in the surviving or acquiring corporation in the transaction; or (iii) outstanding options would be exercised within a period determined by the Board of Directors prior to the consummation of the transaction, after which time the options automatically expire. The Board may accelerate the vesting of the options so they are exercisable in full.

In August 2000, the Company issued two non-plan warrants to purchase an aggregate of 200,000 shares of Microvision common stock to two consultants in connection with entering into certain consulting agreements with the Company. Subsequently, one of the consultants was elected to the Board of Directors by shareholders. The warrants were fully outstanding as of December 31, 2003. The warrants have an exercise price of \$34.00 per share and are exercisable prior to their expiration in August 2010. As of the date of grant, all but 25,000 of the underlying shares of common stock issuable to each consultant upon exercise of the warrants were subject to lock-up restrictions that prevent the holder from transferring such shares. The number of shares subject to the lock-up restrictions is reduced by 25,000 for each consultant on each June 7 subsequent to the grant date. Rather

than issue shares of common stock upon exercise of the warrants, the Company may elect to redeem the warrants if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrants are transferable upon prior written approval of the Company. The Company cannot unreasonably withhold such approval with respect to transfers of warrants to purchase at least 10,000 shares that are not subject to the lock-up restrictions. If the Company terminates the consulting agreement due to the consultant's failure to provide consulting services during the first three years of the agreement, the consultant must return to the Company a pro-rata portion of the 75,000 warrants initially subject to the lock-up restrictions based on the number of calendar days remaining in the initial three year period. The number, class and price of securities for which the warrants may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share will be proportionately adjusted if outstanding shares of the Company's common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has a warrant outstanding to purchase 50,000 shares of Microvision common stock that was issued in April 2000 in exchange for equity placement services by a non-employee. The warrant was issued fully vested, has an exercise price of \$53.00 per share and is exercisable prior to its expiration in April 2005. Rather than issue shares of common stock upon exercise of the warrant, the Company may elect to redeem the warrant if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrant is not transferable without prior written approval of the Company. The number, class and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has a warrant outstanding to purchase 6,250 shares of Microvision common stock issued in exchange for equity placement services by a non-employee. The warrant was issued fully vested in June 2000 for 6,250 shares with an exercise price of \$19.20 per share and is exercisable prior to its expiration in June 2005. Rather than issue shares of common stock upon exercise of the warrant, the Company may elect to redeem the warrant if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrant is not transferable without prior written approval of the Company. The number, class and price of securities for which the warrants may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrant the kind and amount of shares of stock, other securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrant, and the exercise price will be proportionately adjusted.

The Company has a warrant outstanding to purchase 4,907 shares of Microvision common stock that was issued in December 2000 in exchange for equity placement services by a non-employee. The warrant was issued fully vested, has an exercise price of \$61.13 per share and is exercisable prior to its expiration in April 2005. Rather than issue shares of common stock upon exercise of the warrant, the Company may elect to redeem the warrant if, in the opinion of the Board of Directors upon advice of counsel, it would be unlawful to issue the underlying securities. The warrant is not transferable without prior written approval of the Company. The number, class and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. The number of securities and exercise price per share shall all be proportionately adjusted where outstanding shares of common stock are divided into a greater number of shares or combined into a smaller number of shares, or a stock dividend is paid on the common stock. In the event of a change in the common stock from a merger, consolidation, reclassification, reorganization, partial or complete liquidation, or other change in the capital structure of the Company, the Company will, as a condition of the change in capital structure, make provision for the warrant holder to receive upon the exercise of the warrants the kind and amount of securities or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of the warrants, and the exercise price will be proportionately adjusted.

The Company has two warrants outstanding to purchase an aggregate of 70,000 shares of Microvision common stock that were issued in September 2003 to a third party for services. The first warrant for 60,000 shares has an exercise price of \$7.50 per share and vests in three equal tranches. The first tranche vests on the issue date, the second and third tranches vest three and six months following the issue date, respectively. The second warrant for 10,000 shares has an exercise price of \$12.00 per share and vests six months after the issue date. The Company may cancel unvested tranches or the second warrant prior to their respective vest dates if it determines in good faith, and notifies the holder, that it is not satisfied with the holder's performance under the agreement. Vested warrants are exercisable prior to their expiration in September 2007. The warrant holder may transfer any portion or all of the warrant shares by delivering the original warrant certificate and a form of assignment to the Company. The number and price of securities for which the warrant may be exercised are subject to adjustment for certain changes in the Company's capital structure. Where the outstanding shares of common stock are divided into a greater number of shares, combined into a smaller number of shares, or a stock dividend is paid on the common stock, the exercise price per share shall be proportionately adjusted by the ratio of common shares outstanding immediately before and after the transaction. In the event of a change in the common stock from a merger, consolidation, reclassification, tender offer or exchange offer, or partial or complete liquidation, the holder will be entitled to receive, upon the exercise of the warrants, the same amount and kind of securities, cash or property to which the holder would have been entitled if, immediately prior to the change in capital structure, the warrant holder had held the number of shares of common stock obtainable upon the exercise of warrants.

AUDIT COMMITTEE REPORT

Role of the Audit Committee

The Audit Committee operates under a written charter adopted by the Board of Directors. The Audit Committee's primary role is to assist the Board of Directors in its general oversight of the Company's financial reporting, internal controls, and audit functions. The Audit Committee provides advice, counsel and direction to management and the auditors on the basis of the information it receives and discussions with management and the auditors. The Audit Committee is also responsible for overseeing the engagement and independence of the Company's independent auditors.

Among other matters, the Audit Committee monitors the activities and performance of the Company's external auditors, including the audit scope, external audit fees, auditor independence matters and the extent to which the independent auditor may be retained to perform non-audit services. The Audit Committee and the Board of Directors have ultimate authority and responsibility to select, evaluate and, when appropriate, replace the Company's independent auditor. The Audit Committee also reviews the results of the external audit work with regard to the adequacy and appropriateness of the Company's financial, accounting and internal controls. Management and independent auditor presentations to and discussions with the Audit Committee also cover various topics and events that may have significant financial impact or are the subject of discussions between management and the independent auditor. In addition, the Audit Committee generally oversees the Company's internal financial controls and financial disclosure procedures.

Membership and Meetings

The Audit Committee is composed of three non-employee directors (Messrs. Cowell, Lack, and Reimer), each of whom is an Independent Director under the rules of the Nasdaq National Market governing the qualifications of audit committees. The Audit Committee held six meetings during the fiscal year ended December 31, 2004.

Audit Committee Financial Expert

The audit committee financial expert designated by our Board is Col. Richard A. Cowell (Ret.), an Independent Director. Col. Cowell holds a degree in accounting and has served for six years as Chair of the Company's Audit Committee. During his twenty-five years of service in the United States Army, Col. Cowell oversaw and actively supervised various complex governmental projects that involved government accounting with a breadth and level of complexity comparable to accounting issues raised by the Company's financial statements, including issues relating to estimates, accruals, and reserves. Since retiring from the Army, Col. Cowell has served as a principal at Booz Allen Hamilton, where he provides consulting services relating to significant government projects and grants which involve significant and complex accounting issues.

Review of the Company's Audited Financial Statements

Edgar Filing: MICROVISION INC - Form DEF 14A

The Audit Committee has reviewed and discussed the audited consolidated financial statements of the Company for the fiscal year ended December 31, 2004 with the Company's management and management represented to the Audit Committee that the Company's consolidated financial statements were prepared in conformity with generally accepted accounting principles. The Audit Committee has discussed with PricewaterhouseCoopers LLP, the Company's independent auditors for the fiscal year ended December 31, 2004, the matters required to be discussed by Statement of Auditing Standards No. 61, as amended (Communication with Audit Committees). The Audit Committee also reviewed with the independent auditors their judgments as to the quality and the acceptability of the Company's accounting principles and such other matters as are required to be discussed with audit committees under generally accepted accounting standards.

Table of Contents

The Audit Committee received from PricewaterhouseCoopers LLP the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees) and discussed with the firm its independence. Based on the review and discussions noted above, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in the Charter of the Audit Committee, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2004 for filing with the Securities and Exchange Commission.

Limitations on Role and Responsibilities of Audit Committee and Use and Application of Audit Committee Report

Management is responsible for the Company's financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors, PricewaterhouseCoopers LLP, are responsible for auditing those financial statements. The Audit Committee is responsible for monitoring and reviewing these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Audit Committee members are not employees of the Company and are not, and do not represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and on the representations of the independent auditors included in their report on the Company's financial statements. The Audit Committee's oversight does not provide the Audit Committee with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that PricewaterhouseCoopers LLP is in fact independent.

This report of the Audit Committee shall not be deemed to be incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference.
