Annual Report to Shareholders

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

The Market

Calendar year 2006 was a very difficult year for U.S. Treasury Inflation Protected Securities (U.S. TIPS), as real rates moved higher and Consumer Price Index for All Urban Consumers (CPI-U) accretion fell dramatically. The Barclays U.S. Government Inflation-Linked All Maturities Index^A generated a total return of 0.49%, while the U.S. Government Breakeven Index (composed of nominal U.S. Treasuries corresponding to the maturity of each U.S. TIPS issue) returned 2.45%. The Federal Reserve (Fed) raised short-term interest rates from 4.25% to 5.25%, which caused 10-year U.S TIPS real yields to rise from approximately 2.06% at the end of 2005 to approximately 2.41% at the end of 2006. At the same time, inflation in the U.S., as measured by the CPI-U, fell from 3.4% at the end of December 2005 to just 2.5% as of December 2006, mainly as result of the decline in energy prices during the second half of the year. This combination of higher real yields and declining inflation accretion resulted in the worst performance for U.S. TIPS since 1999.

Performance

In calendar year 2006, the Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 also underperformed U.S. Treasuries. For the year ended December 31, 2006, the Fund distributed \$0.055 per share monthly, of which \$0.0183 per share monthly was return of capital, and generated a total return of 1.76% on a net asset value (NAV) basis including reinvestment of dividends. On a share price basis, the Fund performed better, returning 3.15% during the same period including reinvestment of dividends. Although U.S. TIPS performed poorly, the emerging market bond component of the Fund contributed strongly to performance. Robust global growth and a large risk appetite, in combination with positive fundamental reform, was very supportive of valuations. Further, the growth of local institutional buyers, such as pension and insurance funds, have contributed to the deepening of local capital markets. Not only has this resulted in greater macroeconomic stability, but also a shift towards local currency bond issuance, and a fall in dollar-denominated financing. This provided a technical bid to the asset class, as new supply of sovereign external debt slowed appreciably.

In the fourth quarter, the Fund completed the redemption of its Auction Market Preferred Shares (AMPS), thus removing this form of leverage from the Fund's portfolio. The Fund made this proactive change to the leverage structure because it currently anticipates that this change in strategy will lead to better long-term shareholder value. Given Western Asset Management Company's current outlook for inflation, as measured by the CPI-U, as well as the current yield-curve environment, the Fund currently anticipates that it will be able to deliver better long-term performance with a more flexible approach to leverage utilization. The flexible approach enables the Fund to utilize leverage when market conditions warrant, but also allows the Fund to remove leverage when shareholder value-enhancing opportunities via the use of leverage do not exist.

Western Asset Management Company

January 23, 2007

^A This index is the U.S. component of the all maturities Barclays Global Inflation-Linked Bond Index, which measures the performance of the major government inflation-linked bond markets.

Dividends Paid to Preferred Shareholders	\$17,892	\$13,473
Per Common Share	\$0.29	\$0.22

The Fund

Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (*WIW* or the *Fund*) is a diversified, closed-end management investment company which seeks to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective. Substantially all of the *Fund*'s net investment income (after payment of dividends to holders of preferred shares and interest in connection with other forms of leverage (if applicable)) is distributed to the *Fund*'s common shareholders. A Dividend Reinvestment Plan is available to those common shareholders of record desiring it. The *Fund*'s common shares are listed on the New York Stock Exchange (*NYSE*) where they are traded under the symbol *WIW*.

Performance Information

Total return on market value measures investment performance in terms of appreciation or depreciation in market value per share, plus dividends and any capital gain distributions. Total return on net asset value measures investment performance in terms of appreciation or depreciation in net asset value per share, plus dividends and any capital gain distributions. Total return on market value assumes that dividends and distributions were reinvested at prices obtained under the *Fund*'s dividend reinvestment plan. Total return on net asset value assumes that dividends and distributions were reinvested at net asset value. Average annual returns tend to smooth out variations in a *Fund*'s return, so that they differ from actual year-to-year results. No adjustment has been made for any income taxes payable by shareholders.

	Fourth Quarter 2006	Year Ended December 31, 2006	Average Annual Return Since Inception ^B
Total Return Based on:			
Market Value	0.90%	3.15%	(2.19)%
Net Asset Value	(0.50)%	1.76%	3.05%
Barclays U.S. Government Inflation-Linked 1-10 Year Index ^{C,D}	(0.88)%	1.65%	2.65%
Barclays U.S. Government Inflation-Linked All Maturities Index ^{D,E}	(1.34)%	0.49%	2.82%

The performance data quoted represents past performance and does not guarantee future results. The performance stated may have been due to extraordinary market conditions, which may not be duplicated in the future. Current performance may be lower or higher than the performance data quoted. To obtain the most recent month-end performance information please visit <http://www.westernclaymore.com>. The investment return and principal value of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than the original cost. Calculations assume reinvestment of dividends and capital gain distributions.

^A Total dividend distribution of \$40,382 of which \$26,904 was from net investment income and \$13,478 was from return of capital.

^B The Fund's inception date is February 27, 2004.

^C This index is the U.S. component of the 1 to 10 year Barclays Global Inflation-Linked Bond Index, which measures the performance of the major government inflation-linked bond markets.

^D This return does not include reinvestment of dividends or capital gain distributions.

^E This index is the U.S. component of the all maturities Barclays Global Inflation-Linked Bond Index, which measures the performance of the major government inflation-linked bond markets.

Annual Report to Shareholders

Investment Policies

The Fund's investment policies include, among others, that its portfolio be invested as follows:

At least 80% of total managed assets^F in U.S. Treasury Inflation Protected Securities.

Up to 20% of total managed assets in corporate bonds or other securities and instruments, including securities and instruments of issuers located in developing or emerging market countries.

Reverse repurchase agreements and other forms of leverage will not exceed 38% of the Fund's total managed assets. The Fund completed the redemption of its outstanding preferred shares on November 22, 2006.

Dividend Reinvestment Plan

The Fund and Computershare Trust Company, N.A. (Agent), as the Transfer Agent and Registrar of WIW, offer a convenient way to add shares of WIW to your account. WIW offers to all common shareholders a Dividend Reinvestment Plan (Plan). Under the Plan, cash distributions (e.g., dividends and capital gains) on the common shares are automatically invested in shares of WIW unless the shareholder elects otherwise by contacting the Agent at the address set forth below.

As a participant in the Dividend Reinvestment Plan, you will automatically receive your dividend or net capital gains distribution in newly issued shares of WIW, if the market price of the shares on the date of the distribution is at or above the net asset value (NAV) of the shares, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, less estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market, the Agent will, as agent for the participants, buy shares of WIW through a broker on the open market. All common shares acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent.

Additional Information Regarding the Plan

WIW will pay all costs applicable to the Plan, except for brokerage commissions for open market purchases by the Agent under the Plan which will be charged to participants. All shares acquired through the Plan receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Trustees may declare.

You may terminate participation in the Plan at any time by giving notice to the Agent. Such termination shall be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant will receive a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue Service and only one Form 1099-DIV will be sent to participants each year.

Inquiries regarding the Plan, as well as notices of termination, should be directed to Computershare Trust Company, N.A., P.O. Box 43010, Providence, Rhode Island 02940-3010 Investor Relations telephone number (800) 426-5523.

Annual Certifications

On June 7, 2006, the Fund submitted its annual CEO certification to the NYSE in which the Fund's principal executive officer certified that he was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate

^F *Total managed assets* means the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities (other than liabilities representing leverage).

Annual Report to Shareholders

Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related Securities and Exchange Commission (SEC) rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Schedule of Portfolio Holdings

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. You may obtain a free copy of the Fund's Form N-Q by calling 1-800-345-7999, visiting the Fund's website (<http://www.westernclaymore.com>), or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>). Additionally, the Fund's Form N-Q can be viewed or copied at the SEC's Public Reference Room in Washington D.C. Information about the operation of the Public Reference Room can be obtained by calling 1-800-732-0330.

Proxy Voting

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by calling 1-800-345-7999 or by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>). You may request a free report regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30, by calling 1-800-345-7999 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>).

IMPORTANT TAX INFORMATION 2006

The portion of dividends attributable to interest earned on direct obligations of the U.S. Government is exempt from state income tax in many states. The percentage of such interest earned by the Fund for each quarter and for the year ended December 31, 2006, is as follows:

First Quarter 2006	Second Quarter 2006	Third Quarter 2006	Fourth Quarter 2006	Year Ended December 31, 2006
14.17%	84.57%	79.21%		68.29%

Annual Report to Shareholders

PORTFOLIO DIVERSIFICATION

December 31, 2006

The pie chart and bar chart above represent the Fund's portfolio as of December 31, 2006. The Fund's portfolio is actively managed, and its portfolio composition, credit quality breakdown, and other portfolio characteristics will vary from time to time. U.S. Treasury Inflation-Protected Securities are unrated, but are backed by the full faith and credit of the government of the United States of America and are therefore considered by the Fund's investment manager to be comparable to bonds rated AAA/Aaa.

Quarterly Comparison of Market Price and Net Asset Value (NAV), Discount or Premium to NAV and Average Daily Volume of Shares Traded

	Market Price	Net Asset Value	Premium/ (Discount)	Average Daily Volume (Shares)
March 31, 2006	\$ 11.50	\$ 13.08	(12.08)%	166,418
June 30, 2006	\$ 11.23	\$ 12.96	(13.35)%	163,157
September 30, 2006	\$ 11.63	\$ 13.26	(12.29)%	142,497

^A *Treasury Inflation-Protected Security* Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index for All Urban Consumers. Interest is calculated on the basis of the current adjusted principal value.

^B All or a portion of this security is on loan. See Note 6 to the financial statements.

^C All or a portion of this security is collateral to cover futures and options contracts written.

^D *Indexed Security* The rates of interest earned on these securities are tied to the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) Index, the Consumer Price Index (CPI), the one-year Treasury Bill Rate or ten-year Japanese Government Bond Rate. The coupon rates are the rates as of December 31, 2006.

^E *Private Placement*.

^F *Illiquid Security*.

^G *Yankee Bond* A dollar-denominated bond issued in the U.S. by a foreign entity.

^H *Rule 144a Security* A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund's investment adviser has determined to be liquid, represent 5.59% of net assets.

^I *Stepped Coupon Security* A security with a predetermined schedule of interest or dividend rate changes, at which time it begins to accrue interest or pay dividends according to the predetermined schedule.

^J Options and futures are described in more detail in the notes to financial statements.

N.M. Not Meaningful.

Asset coverage on preferred shares, end of year ^L	N/A ^J	301%	308%
Portfolio turnover rate	112%	113%	54% ^E
Net assets at end of year (in thousands)	\$ 797,316	\$ 823,471	\$ 856,560

^A For the period February 27, 2004 (commencement of operations) to December 31, 2004.

^B Net of sales load of \$0.675 on initial shares issued.

^C Computed using average daily shares outstanding.

^D Total return based on market value reflects changes in market value. Total return based on net asset value reflects changes in the Fund's net asset value during the period. Each figure includes reinvestments of distributions. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares trade during the period. Total investment return is not annualized for periods of less than one year. Brokerage commissions are not reflected in the calculations.

^E Not annualized.

^F Total return on NAV includes offering costs. If offering costs were excluded, the total return would be 4.20%.

^G This ratio reflects total expenses before compensating balance credits.

^H Annualized.

^I Includes liquidation value of preferred shares.

^J The last series of preferred shares was redeemed on November 22, 2006.

^K This ratio reflects expenses net of compensating balance credits.

^L Asset coverage on preferred shares equals net assets of common shares plus the redemption value of the preferred shares divided by the value of outstanding preferred stock.

N/A Not applicable.

See notes to financial statements.

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS

(Amounts in Thousands)

1. Significant Accounting Policies:

Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (Fund) is registered under the Investment Company Act of 1940 (1940 Act), as amended, as a diversified, closed-end management investment company. The Fund commenced operations on February 27, 2004.

The Fund's primary investment objective is to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements:

Security Valuation

The Fund's securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The Fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

With respect to the Fund, where a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund's adviser to be the primary market. The Fund will value its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.

Security Transactions

Security transactions are accounted for as of the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

Purchases and sales of investment securities (excluding short-term investments, U.S. government and U.S. government agency securities) aggregated \$138,791 and \$190,570, respectively, for the year ended December 31, 2006. Purchases and sales of U.S. government and government agency obligations were \$1,135,939 and \$1,526,667, respectively, for the year ended December 31, 2006.

Repurchase Agreements

The Fund may engage in repurchase agreement transactions. Under the terms of a typical repurchase agreement, a fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and a fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during a fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligation, including interest. In the event of counterparty default, a fund has the right to use the collateral to satisfy the terms of the repurchase agreement. However, there could be potential loss to the fund in the event the fund is delayed or prevented from exercising its right to dispose of the collateral securities, including the risk of a possible decline in the value of the collateral securities during the period in which the fund seeks to assert its rights. The Fund's investment adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement, a fund sells a security subject to an obligation to repurchase the security from the buyer at an agreed-upon time and price, thereby determining the yield to the buyer during the buyer's holding period. A reverse repurchase agreement involves the risk, among others, that the market value of the collateral retained by the fund may decline below the price of the securities the fund has sold but is obligated to repurchase under the agreement. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the fund's use of the proceeds of the agreement may be restricted pending a

Annual Report to Shareholders

determination by the party, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities. In entering into reverse repurchase agreements, the Fund will maintain cash, U.S. government securities or other liquid high grade debt obligations at least equal in value to its obligations with respect to reverse repurchase agreements or will take other actions permitted by law to cover its obligations.

Options, Futures and Swap Agreements

The current market value of an exchange traded option is the last sale price or, in the absence of a sale, the price obtained by reference to broker-dealer quotations. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As the contract's value fluctuates, payments known as variation margin are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a gain or loss when the contract is closed. Swap agreements are priced daily based upon valuations furnished by an independent pricing service or quotations provided by brokers and the change, if any, is recorded as unrealized appreciation or depreciation.

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the market price of that security. The Fund must then borrow the security sold short and deliver it to the dealer that brokered the short sale. A gain, limited to the price at which the security was sold short, or a loss, potentially unlimited in size, will be recognized upon the termination of the short sale. With respect to each short sale, the Fund must maintain collateral in a segregated account consisting of liquid assets with a value at least equal to the current market value of the shorted securities, marked-to-market daily, or take other actions permitted by law to cover its obligations. Dividend expenses and fees paid to brokers to borrow securities in connection with short sales are considered part of the short sale transactions. The Fund had no open short sales at December 31, 2006.

Distributions to Common Shareholders

Distributions to shareholders are recorded on the ex-dividend date. Dividends from net investment income are declared and paid monthly. Net capital gain distributions are declared and paid after the end of the tax year in which the gain is realized. An additional distribution may be made in December to the extent necessary in order to comply with federal excise tax requirements. Distributions are determined in accordance with federal income tax regulations, which may differ from those determined in accordance with accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under federal income tax regulations. Interest income and expenses are recorded on the accrual basis. Bond discounts and premiums are amortized and included in interest income for financial reporting and federal income tax purposes.

Compensating Balance Credits

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could

differ from these estimates.

Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent upon claims that may be made against the Fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

2. Federal Income Taxes:

No provision for federal income or excise taxes is required since the Fund intends to continue to qualify as a regulated investment company and distribute substantially all of its taxable income and capital gain to its shareholders. Because federal income tax regulations differ from accounting principles generally accepted in the United States of America, income and capital

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS Continued

gain distributions determined in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements.

Distributions to common shareholders of \$26,904 and \$13,478 during the year ended December 31, 2006, were characterized as ordinary income and return on capital, respectively. Distributions to preferred shareholders of \$17,892 during the year ended December 31, 2006, were characterized as ordinary income.

Pursuant to federal income tax regulations applicable to investment companies, the Fund has elected to treat net capital losses realized between November 1 and December 31 of each year (post-October loss) as occurring on the first day of the following tax year. For the period ended December 31, 2006, realized capital and currency losses reflected in the accompanying financial statements, which will not be recognized for federal income tax purposes until 2007, are shown in the table below.

The tax basis components of net assets at December 31, 2006, were:

Unrealized appreciation	\$ 14,480
Unrealized depreciation	(5,172)
Net unrealized appreciation/(depreciation)	9,308
Capital loss carryforwards	(67,256)
Post-October loss deferrals	(1,189)
Paid-in capital	856,453
Net assets	\$ 797,316

The difference between book and tax basis unrealized depreciation is primarily due to the tax deferral of wash sale losses.

At December 31, 2006, the cost of investments for federal income tax purposes was \$815,152.

The Fund intends to retain realized capital gains that may be offset against available capital loss carryforwards for federal income tax purposes. The Fund had unused capital loss carryforwards for federal income tax purposes at December 31, 2006, of \$27,145, expiring in 2012, \$10,088, expiring in 2013 and \$30,023, expiring in 2014.

For financial reporting purposes, capital accounts and distributions to shareholders are adjusted to reflect the tax character of permanent book/tax differences. For the year ended December 31, 2006, the Fund recorded the following permanent reclassifications, which relate primarily to the reclassification of return of capital, income from swaps, and paydown transactions. Results of operations and net assets were not affected by these reclassifications.

Undistributed net investment income	14,480
Accumulated net realized gain/(loss)	(1,002)
Paid-in capital	(13,478)

3. Financial Instruments:

Options Transactions

As part of its investment program, the Fund may utilize options and futures. Options may be written (sold) or purchased by the Fund. When the Fund purchases a put or call option, the premium paid is recorded as an investment and its value is marked-to-market daily. When the Fund writes a put or call option, an amount equal to the premium received by the Fund is recorded as a liability and its value is marked-to-market daily.

Annual Report to Shareholders

When options, whether written or purchased, expire, are exercised or are closed (by entering into a closing purchase or sale transaction), the Fund realizes a gain or loss as described in the chart below:

Purchased option: The option expires The option is closed through a closing sale transaction	Impact on the Fund: Realize a loss in the amount of the cost of the option. Realize a gain or loss depending on whether the proceeds from the closing sale transaction are greater or less than the cost of the option.
The Fund exercises a call option	The cost of the security purchased through the exercise of the option will be increased by the premium originally paid to purchase the option.
The Fund exercises a put option	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be reduced by the premium originally paid to purchase the put option.
Written option: The option expires The option is closed through a closing purchase transaction	Impact on the Fund: Realize a gain equal to the amount of the premium received. Realize a gain or loss without regard to any unrealized gain or loss on the underlying security and eliminate the option liability. The Fund will realize a loss in this transaction if the cost of the closing purchase exceeds the premium received when the option was written.
A written call option is exercised by the option purchaser	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be increased by the premium originally received when the option was written.
A written put option is exercised by the option purchaser	The amount of the premium originally received will reduce the cost of the security that the Fund purchased when the option was exercised.

The risk associated with purchasing options is limited to the premium originally paid. Options written by the Fund involve, to varying degrees, risk of loss in excess of the option value reflected in the portfolio of investments. The risk in writing a covered call option is that the Fund may forgo the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market or, for over-the-counter options, because of the counterparty's inability or unwillingness to perform.

Activity in written call and put options during the year ended December 31, 2006, was as follows:

	Calls		Puts	
	Actual Contracts	Premiums	Actual Contracts	Premiums
Options outstanding at December 31, 2005	3,027	\$ 1,862		\$
Options written	9,670	4,978	1,507	82
Options closed	(8,557)	(4,772)		
Options expired	(3,250)	(1,655)	(1,298)	(21)
Options exercised	(890)	(413)		
Options outstanding at December 31, 2006		\$	209	\$ 61

Swap Agreements

The Fund may invest in swaps for the purpose of managing its exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with ordinary portfolio transactions.

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS Continued

Total return swaps are agreements to exchange the return generated by one instrument for the return generated by another instrument, for example, the agreement to pay interest in exchange for a market-linked return based on a notional amount. To the extent the total return of the index exceeds the offsetting interest obligation, the Fund will receive a payment from the counterparty. To the extent it is less, the Fund will make a payment to the counterparty. Periodic payments received or made by the Fund are recorded in the accompanying statements of operations as realized gains or losses, respectively.

The credit default swaps listed in the table below involve the exchange of a fixed rate premium for protection against the loss in value of an underlying debt instrument in the event of a defined credit event (such as payment default or bankruptcy). Under the terms of the swap, one party acts as a guarantor, receiving a periodic payment that is a fixed percentage applied to a notional principal amount. In return, the party agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. The Fund may enter into credit default swaps in which the Fund or its counterparty act as guarantors. By acting as the guarantor of a swap, the Fund assumes the market and credit risk of the underlying instrument, including liquidity and loss of value.

Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation/(depreciation). Gains or losses are realized upon termination of the swap agreement. Periodic payments and premiums received or made by the Fund are recorded in the accompanying statements of operations as realized gains or losses, respectively. Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with swap contracts. Risks may exceed amounts recognized on the statement of assets and liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms, and the possible lack of liquidity with respect to the swap agreements.

The following is a summary of all open credit default swap contracts outstanding as of December 31, 2006:

Agreement With:	Termination Date	The Fund Agrees to Pay	The Fund will Receive	Contract Notional Amount	Unrealized Appreciation/ (Depreciation)
JPMorgan Chase & Co. (Eastman Kodak Corporation, 7.25%, due 11/15/13)	March 20, 2011	Specified amount upon credit event notice ^A	2.6% Quarterly	\$ 10,000	\$ 456
JPMorgan Chase & Co. (Ford Motor Credit Corporation, 7%, due 10/1/13)	March 20, 2011	Specified amount upon credit event notice ^A	5.1% Quarterly	10,000	902
JPMorgan Chase & Co. (General Motors Acceptance Corporation, 6.875%, due 8/28/12)	March 20, 2011	Specified amount upon credit event notice ^A	4.17% Quarterly	10,000	1,209
				\$ 30,000	\$ 2,567

^A Upon bankruptcy or failure to make a scheduled interest payment, the Fund will pay \$1,000; upon default, the Fund will pay \$10,000.

Futures

Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses and the Fund recognizes a realized gain or loss when the contract is closed. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded.

The Fund may enter into futures contracts for various reasons, including in connection with its interest rate management strategy. Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements.

Annual Report to Shareholders

The change in value of the futures contracts primarily corresponds with the value of the underlying instruments, which may not correlate with changes in interest rates, if applicable. In addition, there is a risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. The open futures positions and related appreciation or depreciation at December 31, 2006, are listed at the end of the Fund's portfolio of investments.

Reverse Repurchase Agreements

For the year ended December 31, 2006, the average amount of reverse repurchase agreements outstanding was \$43,972 and the daily weighted average interest rate was 4.97%.

As of December 31, 2006, the Fund did not hold any reverse repurchase agreements.

4. Common Shares:

Of the 61,184 shares of common stock outstanding at December 31, 2006, the Investment Manager owned 7 shares, and 102 shares had been issued pursuant to the Dividend Reinvestment Plan.

5. Preferred Shares (amounts are not in thousands):

Between November 9, 2006 and November 22, 2006, the 16,400 Auction Market Preferred Shares (Preferred Shares) outstanding consisting of five series: 3,280 shares each of Series M, Series T, Series W, Series TH, and Series F were redeemed. The Preferred Shares had a liquidation value of \$25,000 per share, plus any accumulated but unpaid dividends whether or not earned or declared.

Prior to the liquidation date, dividends on all series of Preferred Shares were cumulative and were paid at a rate typically reset every seven days based on the results of an auction. Dividend rates ranged from 4.11% to 5.40% from January 1, 2006 to November 21, 2006, and the average rate was 4.90%. Under the 1940 Act, the Fund could not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

6. Securities Lending:

The Fund may lend its securities to approved brokers to earn additional income and will receive cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of the loaned securities. On December 31, 2006, the market value of securities on loan was \$33,932.

7. Transactions With Affiliates and Certain Other Parties:

The Fund has entered into an Investment Advisory Agreement with Claymore Advisors, LLC (Investment Adviser), which provides for payment of a monthly fee computed at the annual rate of 0.60% of the Fund's average weekly assets. The Investment Adviser has, in turn, entered into an Investment Management Agreement with Western Asset Management Company (Investment Manager), pursuant to which the Investment Manager provides investment management services to the Fund. In exchange for the services provided by the Investment Manager, the Investment Adviser pays a portion of the fees it receives from the Fund to the Investment Manager, at the annual rate of 0.27% of the Fund's average weekly assets. Average weekly assets means the average weekly value of the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities (other than liabilities representing leverage). For purposes of calculating average weekly assets, neither the liquidation preference of any preferred shares outstanding nor any liabilities associated with any instrument or transactions used by the Investment Manager to leverage the Fund's portfolio (whether or not such instruments or transactions are covered as described in the prospectus) is considered a liability.

Under an administrative agreement with the Fund, Legg Mason Fund Adviser, Inc. (Administrator), an affiliate of the Investment Manager, provides certain administrative and accounting functions for the Fund. In consideration for these services, the Fund pays the Administrator a monthly fee at an annual rate of \$125.

8. Trustee Compensation (amounts are not in thousands):

Each Independent Trustee receives a fee of \$15,000 for serving as a Trustee of the Fund and a fee of \$1,000 and related expenses for each meeting of the Board of Trustees attended. The Chairman of the Board receives an additional \$2,000 for serving

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS Continued

in that capacity. The Audit Committee Chairman and the Governance and Nominating Committee Chairman each receive an additional \$1,500 for serving in their respective capacities. Members of the Audit Committee and the Governance and Nominating Committee receive \$500 for each committee meeting attended.

9. Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation 48 (FIN 48 or the Interpretation), *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109*. FIN 48 supplements FASB Statement 109, Accounting for Income Taxes and establishes financial reporting rules regarding recognition, measurement, presentation, and disclosure in its financial statements of tax positions that a fund has taken or expects to take on a tax return. Management has evaluated the impact of FIN 48 on the Fund and has determined that the adoption of FIN 48 will not have a material impact on the Fund's financial statements. FIN 48 is effective for fiscal periods beginning after June 1, 2007.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact on the financial statements has not yet been determined.

Annual Report to Shareholders

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Trustees of Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of the Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (the Fund) at December 31, 2006, and the results of its operations, the changes in its net assets, and the financial highlights for each of the fiscal periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2006 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

⁽¹⁾ Each Trustee also serves as a Trustee of Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund, a closed-end investment company, which is considered part of the same Fund Complex as the Fund. Western Asset Management Company serves as investment adviser to Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund. Messrs. Nyberg, Toupin and Dalmaso also serve as Trustees of Dremar/Claymore Dividend & Income Fund, MBIA Capital/Claymore Managed Duration Investment Grade Municipal Fund, TS&W/Claymore Tax-Advantaged Balanced Fund, Madison/Claymore Covered Call Fund, Fiduciary/Claymore MLP Opportunity Fund, Fiduciary/Claymore Dynamic Equity Fund, Old Mutual/Claymore Long-Short Fund and Claymore/Raymond James SB-1 Equity Fund, each of which is a closed-end management investment company, and Claymore Trust, (consisting of five separate portfolios) and Claymore Exchange-Traded Fund Trust (consisting of nine separate portfolios) each an open-end management investment company. Additionally, Messrs. Nyberg and Dalmaso serve as Trustees for Advent Claymore Convertible Securities & Income Fund and Advent/Claymore Enhanced Growth & Income Fund, each a closed-end investment company. Each of these Funds is considered part of the same Fund Complex as the Fund.

⁽²⁾ Member of the Audit Committee of the Board of Trustees.

⁽³⁾ Member of the Governance and Nominating Committee of the Board of Trustees.

⁽⁴⁾ Mr. Dalmaso is an interested person (as defined in section 2(a)(19) of the Investment Company Act of 1940, as amended) of the Fund because of his position as an officer of Claymore Advisors, LLC (Investment Adviser), the Fund's investment adviser, and his ownership interest in Claymore Group, LLC, the parent company of that entity.

⁽⁵⁾ Mr. Kohn is an interested person (as defined above) of the Fund on the basis of his employment with Western Asset and certain of its affiliated entities (as disclosed above), as well as his ownership of certain shares of common stock of Legg Mason, Inc., Western Asset's parent company. Mr. Kohn has previously informed the Board that he will be resigning as Trustee and President of the Fund effective as of February 28, 2007. On February 12, 2007, the Board of Trustees elected R. Jay Gerken as an interested Director and President of the Fund, effective as of March 1, 2007. Mr. Gerken is currently Managing Director of Legg Mason, Inc., President of Legg Mason Partners Fund Administration and serves as Director or Trustee and/or President and Chief Executive Officer of certain mutual funds associated with Legg Mason, Inc. or its affiliates.

⁽⁶⁾ Each officer shall hold office until his or her respective successor is chosen and qualified, or in each case until he or she sooner dies, resigns, is removed with or without cause or becomes disqualified.

⁽⁷⁾ Officers of the Fund are interested persons (as defined above).

Annual Report to Shareholders

TRUSTEES CONSIDERATION OF THE MANAGEMENT AND ADVISORY AGREEMENTS

The Independent Trustees considered the Investment Advisory Agreement (the *Advisory Agreement*) between Claymore Advisors, LLC (*Claymore*) and the Fund and the Investment Management Agreement (the *Management Agreement* and together with the *Advisory Agreement*, the *Agreements*) between Claymore and Western Asset Management Company (*Western Asset*) with respect to the Fund at meetings held on September 13, 2006 and October 31, 2006. At a meeting held on November 13, 2006, the Independent Trustees reported to the full Board of Trustees their considerations with respect to the *Agreements*, and the Board of Trustees, including a majority of the Independent Trustees, considered and approved renewal of the *Agreements*.

In arriving at their decision to renew the *Agreements*, the Trustees met with representatives of Claymore and Western Asset (together, the *Advisers*), including, in the case of Western Asset, relevant investment advisory personnel; reviewed a variety of information prepared by the *Advisers* and materials provided by Lipper Inc. (*Lipper*) and counsel to the Independent Trustees; reviewed performance and expense information for peer groups of comparable funds, selected and prepared by Lipper, and certain other products available from Western Asset for investments in U.S. TIPS; and requested and reviewed additional information as necessary. These reviews were in addition to information obtained by the Trustees at their regular quarterly meetings with respect to the Fund's performance and other relevant matters, such as information on public trading in the Fund's shares and differences between the Fund's share price and net asset value per share, and related discussions with the *Advisers'* personnel.

As part of their review, the Trustees examined Claymore's ability to provide high quality oversight and administrative and shareholder support services to the Fund, and Western Asset's ability to provide high quality investment management services to the Fund. The Trustees considered the experience of Claymore's personnel in providing the types of services that Claymore is responsible for providing to the Fund, such as oversight of the Fund and Western Asset with respect to portfolio management, and written and oral communications with the closed-end fund analyst community, investment advisers and current and prospective shareholders; the ability of Claymore to attract and retain capable personnel; the capability and integrity of Claymore's senior management and staff; and the level of skill required to provide such services to the Fund. The Trustees also considered the investment philosophy and research and decision-making processes of Western Asset; the experience of its key advisory personnel responsible for management of the Fund; the ability of Western Asset to attract and retain capable research and advisory personnel; the capability and integrity of Western Asset's senior management and staff; and the level of skill required to manage the Fund, noting in particular the substantial complexities in purchasing fixed income securities of below investment grade quality and emerging markets debt instruments. In addition, the Trustees reviewed the quality of the *Advisers'* services with respect to regulatory compliance and compliance with the investment policies of the Fund and conditions that might affect the *Advisers'* ability to provide high quality services to the Fund in the future under the *Agreements*, including each *Adviser's* business reputation, financial condition and operational stability. Based on the foregoing, the Trustees concluded that Western Asset's investment process, research capabilities and philosophy were well suited to the Fund given its investment objectives and policies, that Claymore's various services were valuable to the Fund and that the *Advisers* would be able to meet any reasonably foreseeable obligations under the *Agreements*.

In reviewing the quality of the services provided to the Fund, the Trustees also reviewed comparisons of the performance of the Fund to the performance of certain comparable peer groups selected by Lipper, including (i) a group consisting of the Fund and two other general U.S. government closed-end funds each of which invests at least 65% of its assets in U.S. government and agency issues (*Performance Group I*), (ii) a group consisting of the Fund and all leveraged closed-end general U.S. government funds regardless of asset size or primary channel of distribution (*Performance Universe I*), (iii) a group consisting of the Fund and seven open-end nonleveraged U.S. TIPS funds (*Performance Group II*), and (iv) a group consisting of the Fund and all open-end U.S. TIPS funds regardless of asset size or primary channel of distribution (*Performance Universe II*). The Trustees noted that the Fund had met its primary objective of producing current income, and though the performance of the Fund over most of the periods was below the average of *Performance Group I* and *Performance Universe I*, it was above the average of *Performance Group II* and *Performance Universe II*. The Trustees discussed the factors involved in the Fund's relative performance, and noted the adverse impact on its 2006 performance of the difficult environment for U.S. TIPS during the year (as a result of increases in real interest rates in 2006 combined with substantial decreases in the Consumer Price Index for all Urban Consumers), which impact was magnified by the Fund's current leverage strategy. As a result of ensuing discussions, management recommended and the Trustees approved redemption of the Fund's outstanding auction market preferred shares, which was concluded by year-end. Under all the circumstances, the Trustees concluded that the *Advisers'* management of the Fund would continue to be in the best interests of the shareholders.

Annual Report to Shareholders

TRUSTEES CONSIDERATION OF THE MANAGEMENT AND ADVISORY AGREEMENTS Continued

The Trustees also gave substantial consideration to the advisory fee payable by the Fund to Claymore, the management fee payable by Claymore to Western Asset and the total expenses payable by the Fund. They reviewed information concerning fees paid to investment advisers of similarly-managed funds, the fees paid by Claymore to other closed-end fund clients, as well as fees paid by Western Asset to other clients, including separate accounts managed by Western Asset. The Trustees observed that, although the advisory fee paid by the Fund to Claymore was above the average of both of the two Lipper peer groups reviewed for expense comparison purposes, the Fund's performance was also above the average of one of these peer groups and the Fund's total expenses were below the average of the other. The Trustees considered that the advisory fee paid by the Fund to Claymore was below the average of the fees paid to Claymore by other closed-end fund clients; that Claymore was responsible for payment of the management fees to Western Asset; and that the net fee retained by Claymore was below its fees from other closed-end fund clients. The Trustees noted that the management fee paid by Claymore to Western Asset was generally higher than the fees paid by clients of Western Asset for accounts with similar investment strategies, but that the administrative and operational responsibilities for Western Asset with respect to the Fund were also relatively higher and that the Fund's investment strategy included investments in asset classes other than U.S. TIPS, which was generally not the case for Western Asset's other clients. In light of these differences, the Trustees concluded that the differences in management fees from those paid by Western Asset to other clients were reasonable. The Trustees noted that the Fund's total expenses were below the average of the Lipper peer group consisting of ten leveraged closed-end funds.

The Trustees further evaluated the benefits of the advisory relationship to the Advisers, including, among others, the profitability of the relationship to the Advisers; the direct and indirect benefits that the Advisers may receive from their relationship with the Fund, including the fallout benefits, such as reputational value derived from serving as investment manager or adviser; and the affiliation between Western Asset and Legg Mason Fund Adviser, Inc., the Fund's administrator. In that connection, the Trustees concluded that the Advisers' profitability was consistent with levels of profitability that had been determined by courts not to be excessive.

Finally, the Trustees considered, in light of the profitability information provided by the Advisers, the extent to which economies of scale would be realized by the Advisers as the assets of the Fund grow. The Trustees concluded that, because the Fund is a closed-end fund and does not make a continuous offer of its securities, the Fund's size was relatively fixed and it would be unlikely that the Advisers would realize economies of scale from the Fund's growth. The Trustees further noted that, as the Advisers' profitability was consistent with levels of profitability that had been determined by courts not to be excessive, any economies of scale that may currently exist were being appropriately shared with shareholders.

In their deliberations with respect to these matters, the Independent Trustees were advised by their independent counsel, who are independent of the Advisers within the meaning of the SEC rules regarding the independence of counsel. The Independent Trustees weighed the foregoing matters in light of the advice given to them by their independent counsel as to the law applicable to the review of investment advisory contracts. In arriving at a decision, the Trustees, including the Independent Trustees, did not identify any single matter as all-important or controlling, and the foregoing summary does not detail all the matters considered. The Trustees judged the terms and conditions of the Agreements, including the investment advisory fees, in light of all of the surrounding circumstances.

Based upon their review, the Trustees, including all of the Independent Trustees, determined, in the exercise of their business judgment, that they were satisfied with the quality of investment advisory services being provided by Western Asset and the advisory, oversight, administrative and after-market support services being provided by Claymore; that the fees to be paid to the Advisers under the relevant Agreements were fair and reasonable, given the scope and quality of the services rendered by each Adviser; and that approval of the Agreements was in the best interest of the Fund and its shareholders.

PRIVACY POLICY

The Fund is committed to keeping nonpublic personal information secure and confidential. This notice is intended to help a shareholder understand how the Fund fulfills this commitment.

From time to time, the Fund, through its Service Provider, may collect a variety of personal information, including:

Information received on applications and forms, via the telephone, and through websites;

Information about transactions with the Fund, affiliates, or others (such as purchases, sales, or account balances); and

Information about shareholders received from consumer reporting agencies.

The Fund does not disclose shareholder nonpublic personal information, except as permitted by applicable law or regulation. For example, the Fund may share this information with others in order to process transactions. Any information provided to companies that perform services on behalf of the Fund, such as printing and mailing, or to other financial institutions with which the Fund has joint marketing agreements are required to protect the confidentiality of shareholders information and to use it only to perform the services for which the companies are hired.

The Fund, through its Service Provider, maintains physical, electronic, and procedural safeguards to protect shareholder non-public personal information. Access to this information is restricted.

If a shareholder decides at some point either to close his/her account(s) or become an inactive customer, the Fund will continue to adhere to these privacy policies and practices with respect to shareholder nonpublic personal information.

This notice is being provided on behalf of:

This report is sent to shareholders of Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

In accordance with Section 23(c) of the Investment Company Act of 1940, the Fund hereby gives notice that it may, from time to time, repurchase its shares in the open market at the option of the Board of Trustees, and on such terms as the Board of Trustees shall determine.

WIW-AR-06

Item 2. Code of Ethics

(a) Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (Registrant) has adopted a Code of Ethics, as defined in the instructions to Item 2 of Form N-CSR, that applies to the Registrant's principal executive, financial and accounting officers, a copy of which is attached as an exhibit to this Form N-CSR.

(b) Omitted.

(c) Not applicable.

(d) Not applicable.

(e) Not applicable.

Item 3. Audit Committee Financial Expert

The Audit Committee of the Registrant's Board of Trustees is comprised solely of Trustees who are independent (as such term has been defined by the Securities and Exchange Commission (SEC) in regulations implementing Section 407 of the Sarbanes-Oxley Act of 2002 (the Regulations)). In addition, the Board of Trustees of the Registrant has determined that Mr. Ronald E. Toupin, Jr. qualifies as an audit committee financial expert (as such term has been defined in the Regulations) based on its review of his pertinent experience, knowledge and education. The SEC has stated that the designation or identification of a person as an audit committee financial expert pursuant to this Item 3 of Form N-CSR does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liabilities imposed on such person as a member of the Audit Committee and the Board of Trustees in absence of such designation or identification.

Item 4. Principal Accounting Fees and Services

(a) Audit Fees

Fiscal Year Ended December 31, 2005 \$27,200

Fiscal Year Ended December 31, 2006 \$28,800

(b) Audit-Related Fees

Fiscal Year Ended December 31, 2005 \$6,500

Fiscal Year Ended December 31, 2006 \$0

During the year ended December 31, 2005, review of the rating agency compliance testing for the Registrant's auction market preferred shares outstanding was reviewed.

PricewaterhouseCoopers LLP did not bill fees for non-audit services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(c) Tax Fees

Fiscal Year Ended December 31, 2005 \$1,050

Fiscal Year Ended December 31, 2006 \$1,100

Services include preparation of federal and state income tax returns and preparation of excise tax returns.

PricewaterhouseCoopers LLP did not bill fees for tax services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(d) All Other Fees

There were no fees billed to the Registrant during each of the last two fiscal years by PricewaterhouseCoopers LLP that were not disclosed in Items 4(a), (b) or (c).

PricewaterhouseCoopers LLP did not bill fees for services not included in Items 4(a), (b) or (c) above that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(e) (1) The Audit Committee has determined that all work performed for the Registrant by PricewaterhouseCoopers LLP will be pre-approved by the full Audit Committee and, therefore, has not adopted preapproval policies and procedures.

(2) None.

(f) Not applicable.

(g) Non-Audit Fees

Fiscal Year Ended December 31, 2005 \$152,047

Fiscal Year Ended December 31, 2006 \$12,500

(h) The Audit Committee of the Registrant has considered whether the non-audit services that were rendered by the Registrant's principal accountant to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the investment adviser and that were not preapproved by the Audit Committee are compatible with maintaining the principal accountant's independence.

Item 5. *Audit Committee of Listed Registrants*

The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit

Committee of the Registrant is comprised of Peter Erichsen, Michael Larson, Ronald A. Nyberg and Ronald E. Toupin, Jr.

Item 6. *Schedule of Investments*

The schedule of investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the annual report to shareholders contained in Item 1 hereof.

Item 7. *Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies*

The Registrant has delegated the voting of proxies relating to its portfolio securities to its adviser, Western Asset Management Company (the Sub-Adviser). The Proxy Voting Policies and Procedures of the Sub-Adviser are attached as an exhibit to this Form N-CSR.

Item 8. *Portfolio Managers of Closed-End Management Investment Companies*

As of (date of filing), 2007, a team of investment professionals at the Sub-Adviser, led by Chief Investment Officer S. Kenneth Leech, Deputy Chief Investment Officer Stephen A. Walsh, and Portfolio Manager Peter H. Stutz, manages the Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (the Fund).

Messrs. Leech and Walsh have each served as portfolio managers for the Sub-Adviser for over 10 years. Mr. Stutz has served as a portfolio manager for the Sub-Adviser since 1997.

The Fund is managed by a team of portfolio managers, sector specialists and other investment professionals. Mr. Leech and Mr. Walsh serve as co-team leaders responsible for day-to-day strategic oversight of the Fund's investments and for supervising the day-to-day operations of the various sector specialist teams dedicated to the specific asset classes in which the Fund invests. Mr. Stutz is responsible for portfolio structure, including sector allocation, duration weighting and term structure decisions.

Other Accounts

As of December 31, 2006, in addition to the Fund, the portfolio managers were responsible for the day-to-day management of certain other accounts, as follows:

S. Kenneth Leech:

Type of Account	Number of Accounts Managed	Total Assets Managed	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based
Registered Investment Companies	135	\$ 101,777,319,224	0	0
Other pooled investment vehicles	119	\$ 125,569,214,102	0	0
Other accounts	953	\$ 274,000,744,331	96	\$ 31,138,791,430

Stephen A. Walsh:

Registered Investment Companies	135	\$ 101,777,319,224	0	0
Other pooled investment vehicles	119	\$ 125,569,214,102	0	0
Other accounts	953	\$ 274,000,744,331	96	\$ 31,138,791,430

Peter H. Stutz:

Registered Investment Companies	3	\$ 1,685,899,328	0	0
Other pooled investment vehicles	0	0	0	0
Other accounts	15	\$ 2,340,534,208	2	\$ 214,115,738

Note: With respect to Mr. Leech and Mr. Walsh, the numbers above reflect the overall number of portfolios managed by the Sub-Adviser. Mr. Leech and Mr. Walsh are involved in the management of all the Sub-Adviser's portfolios, but they are not solely responsible for particular portfolios. The Sub-Adviser's investment discipline emphasizes a team approach that combines the efforts of groups of specialists working in different market sectors. The individuals that have been identified are responsible for overseeing implementation of the Sub-Adviser's overall investment ideas and coordinating the work of the various sector teams. This structure ensures that client portfolios benefit from a consensus that draws on the expertise of all team members.

Potential Conflicts of Interest (as of December 31, 2006)

Potential conflicts of interest may arise in connection with the management of multiple accounts (including accounts managed in a personal capacity). These could include potential conflicts of interest related to the knowledge and timing of the Fund's trades, investment opportunities and broker selection. Portfolio managers may be privy to the size, timing and possible market impact of the Fund's trades.

It is possible that an investment opportunity may be suitable for both the Fund and other accounts managed by a portfolio manager, but may not be available in sufficient quantities for both the Fund and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by the Fund and another account. A conflict may arise where the portfolio manager may have an incentive to treat an account preferentially as compared to the Fund because the account pays a performance-based fee or the portfolio manager, the Sub-Adviser or an affiliate has an interest in the account. The Sub-Adviser has adopted procedures for allocation of portfolio transactions and investment opportunities across multiple client accounts on a fair and equitable basis over time. All eligible accounts that can participate in a trade share the same price on a pro-rata allocation basis in an attempt to mitigate any conflict of interest. Trades are allocated among similarly managed accounts to maintain consistency of portfolio strategy, taking into account cash availability, investment restrictions and guidelines, and portfolio composition versus strategy.

With respect to securities transactions for the Fund, the Sub-Adviser determines which broker or dealer to use to execute each order, consistent with their duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered investment companies and other accounts managed for organizations and individuals), the Sub-Adviser may be limited by the client with respect to the selection of brokers or dealers or may be instructed to direct trades through a particular broker or dealer. In these cases, trades for the Fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or the other account(s) involved. Additionally, the management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of the Fund and/or other account.

It is theoretically possible that portfolio managers could use information to the advantage of other accounts they manage and to the possible detriment of the Fund. For example, a portfolio manager could short sell a security for an account immediately prior to the Fund's sale of that security. To address this conflict, the Sub-Adviser has adopted procedures for reviewing and comparing selected trades of alternative investment accounts (which may make directional trades such as short sells) with long-only accounts (which includes the Fund) for timing and pattern-related issues. Trading decisions for alternative investment and long-only accounts may not be identical even though the same portfolio manager may manage both types of accounts. Whether the Sub-Adviser allocates a particular investment opportunity to only alternative investment accounts or to alternative investment and long-only accounts will depend on the investment strategy being implemented. If, under the circumstances, an investment opportunity is appropriate for both its alternative investment and long-only accounts, then it will be allocated to both on a pro-rata basis.

A portfolio manager may also face other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict of

interest that could be deemed to exist in managing both the Fund and the other accounts listed above.

Compensation of Portfolio Managers (as of December 31, 2006)

With respect to the compensation of the portfolio managers, the Sub-Adviser’s compensation system assigns each employee a total compensation target and a respective cap, which are derived from annual market surveys that benchmark each role with their job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience, and ability to produce desired results.

Standard compensation includes competitive base salaries, generous employee benefits, and a retirement plan.

In addition, employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Sub-Adviser, and are determined by the professional’s job function and performance as measured by a formal review process. All bonuses are completely discretionary. One of the principal factors considered is a portfolio manager’s investment performance versus appropriate peer groups and benchmarks. Because portfolio managers are generally responsible for multiple accounts (including the Fund) with similar investment strategies, they are compensated on the performance of the aggregate group of similar accounts, rather than a specific account. A smaller portion of a bonus payment is derived from factors that include client service, business development, length of service to the Sub-Adviser, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Sub-Adviser’s business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason, Inc. stock options and long-term incentives that vest over a set period of time past the award date.

Portfolio Manager Ownership of Fund Securities

The following table provides the dollar range of securities beneficially owned by each portfolio manager as of December 31, 2006:

Portfolio Manager	Dollar Range of Fund Securities Beneficially Owned
S. Kenneth Leech	None
Stephen A. Walsh	\$500,001-\$1,000,000
Peter H. Stutz	\$1-\$10,000

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that have been implemented since the Registrant last provided disclosure in response to the requirements of this Item 10.

Item 11. Controls and Procedures

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods in the SEC's rules and forms and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes in the Registrant's internal control over financial reporting during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits

(a)(1) Code of Ethics subject to the disclosure required by Item 2 filed as an exhibit hereto.

(a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 filed as an exhibit hereto.

(a)(3) Not applicable.

(b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 filed as an exhibit hereto.

(c) Proxy Voting Policies and Procedures pursuant to the disclosure required by Item 7 filed as an exhibit hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2
