The Fund values equity securities at the last reported sale price on the principal exchange or in the principal OTC market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if there are no sales, at the mean between the last available bid and asked prices on that day. Securities traded on NASDAQ are valued at the NASDAQ Official Closing

Edgar Filing: Claymore/Guggenheim Strategic Opportunities Fund - Form N-Q

Price. Debt securities are valued at the last available bid price for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality and type. For those securities where quotations or prices are not available, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Short-term securities with maturities of 60 days or less at time of purchase are valued at amortized cost, which approximates market value.

Ratings shown are per Standard & Poor's and Moody's. Securities classified as NR are not rated.

Securities are classified by sectors that represent broad groupings of related industries.
