ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 [NO FEE REQUIRED]
For the fiscal year ended December 31, 2007

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 [NO FEE REQUIRED]
For the transition period from _____ to _____

Commission file number 0-12255

YRC WORLDWIDE INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Delaware
(State or other jurisdiction of
incorporation or organization)

48-0948788
(I.R.S. Employer
Identification No.)

10990 Roe Avenue, Overland Park, Kansas
(Address of principal executive offices)

66211
(Zip Code)

Registrant's telephone number, including area code: (913) 696-6100

Securities registered pursuant to Section 12(b) of the Act:

Common Stock, \$1 Par Value Per Share

(Title of class)

Securities registered pursuant to Section 12(g) of the Act:

NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common equity held by nonaffiliates of the registrant at June 30, 2007 was \$2,111,572,850.

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Class	Outstanding at January 31, 2008
Common Stock, \$1 Par Value Per Share	56,798,398 shares

Table of Contents

This entire annual report, including (among other items) Item 7, Management's Discussion of Analysis of Financial Condition and Results of Operations and certain statements in the Notes to Consolidated Financial Statements contained in Item 8, Financial Statements and Supplementary Data, includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (each a forward-looking statement). Forward-looking statements include those preceded by, followed by or including the words should, could, may, expect, believe, estimate or similar expressions. Our actual results could differ materially from those projected by these forward-looking statements due to a number of factors, including (without limitation), inflation, inclement weather, price and availability of fuel, sudden changes in the cost of fuel or the index upon which the Company bases its fuel surcharge, competitor pricing activity, expense volatility, including (without limitation) expense volatility due to changes in rail service or pricing of rail service, ability to capture cost reductions, including (without limitation) those cost reduction opportunities arising from acquisitions, changes in equity and debt markets, a downturn in general or regional economic activity, effects of a terrorist attack, and labor relations, including (without limitation), the impact of work rules, work stoppages, strikes or other disruptions, any obligations to multi-employer health, welfare and pension plans, wage requirements and employee satisfaction, the risk factors included in Item 1A Risk Factors and the risk factors that are from time to time included in the Company's reports filed with the Securities and Exchange Commission (the SEC).

Other factors as well as more details regarding certain of these factors are provided in greater detail in Item 1A Risk Factors.

PART I**Item 1. Business
General Description of the Business**

YRC Worldwide Inc. (also referred to as YRC Worldwide, the Company, we or our), one of the largest transportation service providers in the world, is a holding company that through wholly owned operating subsidiaries offers its customers a wide range of transportation services. These services include global, national and regional transportation as well as logistics. The YRC Worldwide portfolio of brands provides a comprehensive suite of services for the shipment of industrial, commercial and retail goods domestically and internationally. Our reportable segments, which are comprised of our various operating subsidiaries, include the following:

In January 2007, we announced organizational changes that brought the management of Yellow Transportation and Roadway under one organization established as YRC National Transportation (National Transportation). Accordingly, beginning in 2007 we have combined these previously separate segments into one. National Transportation is a holding company for our transportation service providers focused on business opportunities in regional, national and international services. National Transportation is comprised of Yellow Transportation and Roadway. These companies each provide for the movement of industrial, commercial and retail goods, primarily through regionalized and centralized management and customer facing organizations. National Transportation also includes Reimer Express Lines, a Roadway subsidiary located in Canada that specializes in shipments into, across and out of Canada. Approximately 37% of National Transportation shipments are completed in two days or less. In addition to the United States (U.S.) and Canada, National Transportation also serves parts of Mexico, Puerto Rico and Guam.

YRC Regional Transportation (Regional Transportation) is a holding company for our transportation service providers focused on business opportunities in the regional and next-day delivery markets. Regional Transportation is comprised of New Penn Motor Express, USF Holland and USF Reddaway. These companies each provide regional, next-day ground services in their respective regions through a network of facilities located across the U.S.; Quebec, Canada; Mexico and Puerto Rico. USF Glen Moore, a provider of truckload services throughout the U.S., is also a subsidiary of Regional Transportation. Approximately 90% of Regional Transportation less-than-truckload (LTL) shipments are completed in two days or less. In 2006, Regional Transportation also included USF Bestway. In February 2007, the majority of USF Bestway's operations were consolidated into USF Reddaway.

YRC Logistics (formerly Meridian IQ) plans and coordinates the movement of goods worldwide to provide customers a single source for logistics management solutions. YRC Logistics delivers a wide range of global logistics management services, with the ability to provide customers improved return-on-investment results through flexible, fast and easy-to-implement logistics services and technology management solutions.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

For revenue and other information regarding these segments, see the [Business Segments](#) note to our consolidated financial statements.

Table of Contents

Incorporated in Delaware in 1983 and headquartered in Overland Park, Kansas, we employed approximately 63,000 people as of December 31, 2007. The mailing address of our headquarters is 10990 Roe Avenue, Overland Park, Kansas 66211, and our telephone number is (913) 696-6100. Our website is www.yrcw.com. Through the SEC Filings link on our website, we make available the following filings as soon as reasonably practicable after they are electronically filed with or furnished to the SEC: our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended. All of these filings may be viewed or printed from our website free of charge.

Narrative Description of the Business

Operating Units

YRC National Transportation

National Transportation is comprised of Yellow Transportation, Roadway and Reimer Express Lines. These companies offer a full range of services for the transportation of industrial, commercial, and retail goods in regional, national and international markets, primarily through the operation of owned or leased equipment in their respective North American surface distribution networks. Transportation services are provided for various categories of goods, which may include (among others) apparel, appliances, automotive parts, chemicals, food, furniture, glass, machinery, metal, metal products, non-bulk petroleum products, rubber, textiles, wood and other manufactured products or components. National Transportation provides both LTL services, which combines shipments from multiple customers on a single truck, and truckload services. Most deliveries are LTL shipments with truckload services offered to maximize equipment utilization and reduce empty miles (the distance empty or partially full trailers travel back to origin to balance the network). Each National Transportation company provides higher-margin specialized services, including guaranteed expedited services, time-specific deliveries, cross-border services, coast-to-coast air delivery, global transportation, product returns, temperature-sensitive shipment protection and government material shipments.

The National Transportation companies serve more than 600,000 manufacturing, wholesale, retail and government customers throughout North America. National Transportation's 42,000 employees are dedicated to operating its expansive network which support over 485,000 shipments in transit at any time. National Transportation shipments have an average shipment size of 1,200 pounds and travel an average distance of roughly 1,200 miles. Approximately 37% of shipments are delivered in two days or less. Operations research and engineering teams centrally coordinate the equipment, routing, sequencing and timing necessary to transport shipments more than 118 million miles per month. At December 31, 2007, National Transportation had 14,758 owned tractors, 2,379 leased tractors, 61,183 owned trailers and 3,579 leased trailers. The National Transportation network includes 586 strategically located facilities with 25,777 doors. National Transportation companies accounted for 69% of our total operating revenue in 2007, 69% of our total operating revenue in 2006, and 77% of our total operating revenue in 2005.

Yellow Transportation

Founded in 1924, Yellow Transportation provides service throughout North America, including within Puerto Rico, Guam and Hawaii. The Yellow Transportation affiliates, YRC Services, S. de R.L. de C.V. and Yellow Transportation of Ontario, Inc. and Yellow Transportation of British Columbia, Inc., provide services in Mexico and Canada, respectively. Yellow Transportation is headquartered in Overland Park, Kansas.

Yellow Transportation helps customers turn transportation into a competitive advantage through such innovative services as:

Exact Express[®] and Expedited Direct – seamless air and ground delivery for expedited shipments through North America, featuring flexible pickup and delivery times and an industry-leading 100% satisfaction guarantee.

Definite Delivery[®] – a guaranteed on-time service with constant shipment monitoring and proactive notification and more direct points than any other guaranteed standard delivery service.

Standard Ground – a ground service with expansive coverage throughout the U.S., Canada, Mexico, Puerto Rico and Guam.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

MyYellow®.com a leading edge e-commerce web site offering online transportation management tools for everything from obtaining rate quotes to scheduling pickups, generating bills of lading, tracking shipments and resolving questions.

Table of Contents

Roadway

Founded in 1930, Roadway provides seamless service throughout Canada, Mexico and the U.S., including Alaska, Hawaii and Puerto Rico. Two-day, three-day and coast-to-coast service connect key markets throughout North America. Reimer Express Lines, a subsidiary of Roadway, provides service in Canada, and the Roadway affiliate, YRC Services, S. de R.L. de C.V, provides services in Mexico. Roadway is headquartered in Akron, Ohio.

Roadway adds value to global supply chains through service offerings such as:

Roadway Time-Critical Service Expedited, emergency and window deliveries via ground or air anywhere in North America with shipment arrival timed to the hour, day, or span of days and a 100% on-time guarantee. Guaranteed multiple-day window deliveries meet a retail industry need to reduce chargeback fees.

Roadway Time-Advantage Service Cost-effective blend of ground and air transportation to provide highly reliable deliveries at any speed throughout North America, with both expedited and deferred air capabilities.

Roadway Custom Solutions Innovative combinations of network resources, capabilities, technologies and flexibility to customize services for unique distributions, new store openings, product returns, and other special projects.

Roadway Sealed Divider Service Patented shipment protection unique to the marketplace and designed for products that are difficult or expensive to package for shipping, are of high value, or need verifiable security throughout transit.

Roadway Global Services Global offerings expanded in cooperation with YRC Logistics in 2007 to provide air, ocean and ground transportation and logistics services at any point in the supply chain; an expedited ocean service from China to U.S. with guaranteed delivery to final destination; and the only standard service delivery guarantee in the marketplace for U.S./Canada cross-border shipping.

my.roadway.com A secure e-commerce website offering online resources for supply chain visibility and shipment management in real time.

Reimer Express Lines

Founded in 1952, Reimer Express Lines, a wholly owned subsidiary of Roadway, offers Canadian shippers a selection of direct connections within Canada, throughout North America and around the world. Its network and information systems are completely integrated with those of Roadway enabling Reimer Express Lines to provide seamless cross-border services between Canada, Mexico and the U.S. and markets overseas.

YRC Regional Transportation

Regional Transportation is comprised of New Penn, USF Holland, USF Reddaway and USF Glen Moore. In 2006, Regional Transportation also included USF Bestway. In February 2007, we consolidated the majority of USF Bestway's operations into USF Reddaway. Together, the Regional Transportation companies deliver services in the next-day, second-day and time-sensitive markets nationwide, which are among the fastest-growing transportation segments. The Regional Transportation service portfolio includes:

Regional delivery including next-day local area delivery and second-day services; consolidation/distribution services; protect-from-freezing and hazardous materials handling; and a variety of other specialized offerings.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Expedited delivery including day-definite, hour-definite and time definite capabilities.

Truckload delivery including regional, national, dedicated and team-based services.

Inter-regional delivery combining our best-in-class regional networks with reliable sleeper teams, Regional Transportation provides reliable, high-value services between our regional operations.

Cross-border delivery through strategic partnerships, the Regional Transportation companies provide full-service capabilities between the U.S. and Canada, Mexico and Puerto Rico.

Table of Contents

USFNet.com and NewPenn.com are both leading edge e-commerce web sites offering secure and customized online resources to manage transportation activity.

The Regional Transportation companies are described as follows:

New Penn Motor Express, headquartered in Lebanon, Pennsylvania, provides local next-day, day-definite, and time-definite services through a network located in the Northeastern United States; Quebec, Canada; and Puerto Rico.

USF Holland, headquartered in Holland, Michigan, provides local next-day, regional and expedited services through a network located in the Midwestern, Southeastern and portions of the Northeast United States. USF Holland also provides service to the provinces of Ontario and Quebec, Canada.

USF Reddaway, headquartered in Clackamas, Oregon, provides local next-day, regional and expedited services through a network located in California, the Pacific Northwest, the Rocky Mountain States and the Southwest. Additionally USF Reddaway provides services to Alaska and to the provinces of Alberta and British Columbia, Canada. In February 2007, we consolidated the majority of USF Bestway's operations into USF Reddaway.

USF Glen Moore, headquartered in Carlisle, Pennsylvania, provides spot, dedicated and single-source customized truckload services through the use of company and team-based drivers. USF Glen Moore has two primary domiciles located in Carlisle, Pennsylvania, and Knoxville, Tennessee.

The Regional Transportation companies serve more than 200,000 manufacturing, wholesale, retail and government customers throughout North America. At December 31, 2007, the Regional Transportation network included 193 service centers with 8,396 doors and the fleet included 9,000 tractors and 21,700 trailers. In February 2008, Regional Transportation closed 27 service centers primarily those in the former USF Bestway footprint. Regional Transportation's 16,000 employees are dedicated to supporting the delivery of over 14.7 million shipments annually. In addition to over 347 local, company-based sales executives, Regional Transportation has 19 corporate account managers who provide corporate sales services to the entire group of companies. In 2007, each of our four companies was recognized with the prestigious *Quest for Quality* award by the readers of Logistics Management magazine.

Headquartered in Overland Park, Kansas, the Regional Transportation companies accounted for 25% of our total operating revenue in 2007, 25% of the total operating revenue in 2006 and 18% of the total operating revenue in 2005.

YRC Logistics

In June 2007, Meridian IQ changed its name to YRC Logistics. This name change better reflects the company's expertise in logistics and its heritage as the logistics arm of YRC Worldwide. YRC Logistics is a global logistics services provider that plans and coordinates the movement of goods worldwide to provide customers a single source for logistics management solutions.

YRC Logistics delivers a wide range of global logistics services, with the ability to provide clients services through the design, implementation and execution of innovative logistics solutions. Our broad portfolio of services makes it possible to offer end-to-end supply chain solutions supported by the visibility of Web-native technology. YRC Logistics service portfolio includes the following services:

Distribution Services that include:

Flow Through & Pool Distribution

Dedicated Warehousing

Value Added Services
Global Services that include:

International Freight Forwarding

Customs Brokerage

Value Added Services
Transportation Services that include:

Truckload Brokerage

Dedicated Contract Carriage

Domestic Freight Forwarding

Transportation Management

Table of Contents

YRC Logistics has continued its strategic focus on growing the global logistics offering in China. In December 2007, YRC Logistics entered into a definitive agreement to acquire Shanghai Jiayu Logistics Co., Ltd., one of the largest providers of less-than-truckload ground transportation services in China, with over 30,000 customers, 1,800 employees and a network of over 3,000 vehicles.

At December 31, 2007, YRC Logistics had more than 2,700 employees in North America, Asia, Latin America, and Europe (predominately in the United Kingdom). Based in Overland Park, Kansas, YRC Logistics accounted for 6% of our total operating revenue in 2007, 6% of our total operating revenue in 2006, and 5% of our total operating revenue in 2005.

Shared Services

We have four wholly owned subsidiaries that provide shared support services across the YRC Worldwide enterprise. These are YRC Worldwide Technologies, YRC North American Transportation, YRC Enterprise Solutions Group and YRC Assurance Co. Ltd (YRC Assurance).

YRC Worldwide Technologies is headquartered in Overland Park, Kansas and has approximately 600 employees. YRC Worldwide Technologies and YRC Logistics together provide hosting, infrastructure services and managed transportation business systems development.

YRC North American Transportation, formerly YRC Worldwide Enterprise Services, headquartered in Overland Park, Kansas, provides a wide variety of centrally managed support services to our operating companies. These services span nearly all functions including components of finance, operations support, sales and marketing and security. This entity employs approximately 1,500 people.

In January 2007, we announced the formation of YRC Enterprise Solutions Group. YRC Enterprise Solutions Group, headquartered in Overland Park, Kansas, provides sales and marketing services to our operating subsidiaries for an identified group of large accounts who desire to buy services from more than one of these operating subsidiaries in a coordinated manner.

YRC Assurance Co. Ltd., is a captive insurance company domiciled in Bermuda and a wholly owned and consolidated subsidiary of YRC Worldwide Inc. YRC Assurance provides insurance services to certain wholly owned subsidiaries of YRC Worldwide.

In addition, YRC Worldwide provides certain services to its subsidiaries such as legal, risk management, finance and coordination services. Each of our shared services organizations charges the operating companies for their services, either based upon usage or on an overhead allocation basis.

Competition

Customers have a wide range of choices. The companies of YRC Worldwide believe that overall brand strategy, service quality, technology, a broad service portfolio, responsiveness and flexibility are important competitive differentiators.

Few U.S.-based transportation companies offer comparable transportation and logistics capabilities. By integrating traditional ground, expedited, air, ocean and managed transportation capabilities, we provide business organizations with a single-source answer to shipping challenges globally. Our market studies show a continued preference among customers for transportation and logistics providers based on service value, which is the relationship between overall quality and price. We believe that we can compete against any transportation and logistics competitor from a value perspective.

The companies of YRC Worldwide Yellow Transportation, Roadway, Reimer, YRC Logistics, New Penn, USF Holland, USF Reddaway and USF Glen Moore operate in a highly competitive environment. Their competitors include global, integrated transportation services providers; global forwarders; national transportation services providers; regional or interregional providers; and small, intraregional transportation companies. The companies of YRC Worldwide also compete against providers within several modes of transportation including: LTL, truckload, air and ocean cargo, rail, transportation consolidators and privately owned fleets.

Ground-based transportation includes private fleets and two for-hire provider groups. The private provider segment consists of fleets that companies who move their own goods own and operate. The two for-hire groups are based on typical shipment sizes that transportation service companies handle. Truckload refers to providers transporting shipments that generally fill an entire 48- or 53-foot trailer and LTL or shared load refers to providers transporting goods from multiple shippers in a single load that would not fill a full-sized trailer on their own.

Table of Contents

Shared load or LTL transportation providers consolidate numerous orders generally ranging from 100 to 10,000 pounds from varying businesses at individual service centers in close proximity to where those shipments originated. Utilizing expansive networks of pickup and delivery operations around these local service centers, shipments are moved between origin and destination utilizing distribution centers when necessary, where consolidation and deconsolidation of loads occurs. Depending on the distance shipped, shared load providers (asset and non-asset based) are often classified into one of four sub-groups:

Regional - Average distance is typically less than 500 miles with a focus on one- and two-day delivery times. Regional transportation companies can move shipments directly to their respective destination centers, which increases service reliability and avoids costs associated with intermediate handling.

Interregional - Average distance is usually between 500 and 1,000 miles with a focus on two- and three-day delivery times. There is a competitive overlap between regional and national providers in this category as each group sees the interregional segment as a growth opportunity, and there are no providers focusing exclusively on this sector.

National - Average distance is typically in excess of 1,000 miles with focus on two- to five-day delivery times. National providers rely on interim shipment handling through a network of terminals, which require numerous satellite service centers, multiple distribution centers, and a relay network. To gain service and cost advantages, they often ship directly between service centers, minimizing intermediate handling.

Global - providing freight forwarding and final-mile delivery services to companies shipping to and from multiple regions around the world. This service can be offered through a combination of owned assets or through a purchased transportation or third-party logistics model.

Competitive cost of entry into the asset-based LTL sector on a small scale, within a limited service area, is relatively small (although more than in other sectors of the transportation industry). The larger the service area, the greater the barriers to entry, due primarily to the need for additional equipment and facilities associated with broader geographic service coverage. Broader market coverage in the competitive transportation landscape also requires increased technology investment and the ability to capture cost efficiencies from shipment density (scale), making entry on a national basis more difficult.

Yellow Transportation, Roadway, and YRC Logistics (through transportation management services) provide service in all four sub-groups. New Penn and the USF companies compete in the regional, interregional and national transportation marketplace. Each brand competes against a number of providers in these markets from small firms with one or two vehicles, to global competitors with thousands of physical assets.

The competition specifically for YRC Logistics includes all of the same types of providers mentioned previously in addition to transportation management systems providers, domestic and international freight forwarders, freight brokers, warehouse management providers, and third party logistics companies.

Regulation

National Transportation, Regional Transportation and other interstate carriers were substantially deregulated following the enactment of the Motor Carrier Act of 1980, the Trucking Industry Regulatory Reform Act of 1994, the Federal Aviation Administration Authorization of 1994 and the ICC Termination Act of 1995. Prices and services are now largely free of regulatory controls, although the states retained the right to require compliance with safety and insurance requirements, and interstate motor carriers remain subject to regulatory controls that agencies within the U.S. Department of Transportation impose.

Our operating companies are subject to regulatory and legislative changes, which can affect our economics and those of our competitors. Various state agencies regulate us, and our operations are also subject to various federal, foreign, state, provincial and local environmental laws and regulations dealing with transportation, storage, presence, use, disposal and handling of hazardous materials, discharge of storm-water and underground fuel storage tanks.

We are also subject to regulations to combat terrorism that the Department of Homeland Security and other agencies impose.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

We believe that our operations are in substantial compliance with current laws and regulations.

We further describe our operations in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of this report.

Table of Contents

Environmental Matters

Our operations are subject to U.S. federal, foreign, state, provincial and local regulations with regard to air and water quality and other environmental matters. We believe that we are in substantial compliance with these regulations. Regulation in this area continues to evolve and changes in standards of enforcement of existing regulations, as well as the enactment and enforcement of new legislation may require us and our customers to modify, supplement or replace equipment or facilities or to change or discontinue present methods of operation.

During 2007, we spent approximately \$6.5 million to comply with U.S. federal, state and local provisions regulating the discharge of materials into the environment or otherwise relating to the protection of the environment (collectively, "Environmental Regulations"). In 2008, we expect to spend approximately \$6.8 million to comply with the Environmental Regulations. Based upon current information, we believe that our compliance with Environmental Regulations will not have a material adverse effect upon our capital expenditures, results of operation and competitive position because we have either made adequate reserves for such compliance expenditures or the cost for such compliance is expected to be small in comparison with our overall net worth.

We estimate that we will incur approximately \$0.5 million in capital expenditures for environmental control equipment during 2008. We believe that capital expenditures for environmental control equipment for 2008 will not have a material adverse effect upon our financial condition because the aggregate amount of these expenditures is expected to be immaterial.

The Comprehensive Environmental Response, Compensation and Liability Act (known as the "Superfund Act") imposes liability for the release of a hazardous substance into the environment. Superfund liability is imposed without regard to fault and even if the waste disposal was in compliance with the then current laws and regulations. With the joint and several liability imposed under the Superfund Act, a potentially responsible party ("PRP") may be required to pay more than its proportional share of such environmental remediation. Several of our subsidiaries have been identified as PRPs at various sites discussed below. The U.S. Environmental Protection Agency (the "EPA") and appropriate state agencies are supervising investigative and cleanup activities at these sites. The EPA has identified Yellow Transportation as a PRP for five locations: Angeles Chemical Co., Santa Fe Springs, CA; Ilada Waste Co., a site at Dupon, IL; Alburn Incinerator, Inc., Chicago, IL; Mercury Refinery, Albany, NY and IWI, Inc., Summit, IL. We estimate that the combined potential costs at these sites will not exceed \$0.2 million. With respect to these sites, it appears that Yellow Transportation delivered minimal amounts of waste to these sites, which is *de minimis* in relation to other respondents. The EPA has identified Roadway Express as a PRP for five locations: Operating Industries Site, Monterey Park, CA; BEMS Landfill, Mt. Holly, NJ; Double Eagle Site, Oklahoma City, OK; Jones Industrial, South Brunswick, NJ and Berry's Creek, Carlstadt, NJ. We estimate that combined potential costs at the first four sites will not exceed \$0.6 million. The EPA has notified Roadway and 140 other potential parties of their potential responsibility status at the Berry's Creek site where Roadway owns and operates a service center in the watershed area that discharges into Berry's Creek. We estimate the Berry's Creek potential cost to be \$0.6 million. The EPA has identified USF Red Star, a non-operating subsidiary, as a PRP at six locations: Champion Chemical, Marlboro, NJ; Booth Oil, N. Tonawanda, NJ; Quanta Resources, Syracuse, NY and three separate landfills in Byron, NJ, Moira, NY and Palmer, MA. We believe the potential combined costs at these sites to be \$0.4 million. The EPA has identified New Penn as a PRP for one location, Pennsauken Landfill, Pennsauken, NJ. We believe the potential cost at this site to be immaterial. The EPA has identified USF Holland as a PRP for one location, Horton Sales Piedmont Site, Greenville County, SC. We believe the potential cost at this site to be immaterial.

While PRPs in Superfund actions have joint and several liabilities for all costs of remediation, it is not possible at this time to quantify our ultimate exposure because the projects are either in the investigative or early remediation stage. Based upon current information, we do not believe that probable or reasonably possible expenditures in connection with the sites described above are likely to have a material adverse effect on our financial condition or results of operations because:

To the extent necessary, we have established adequate reserves to cover the estimate we presently believe will be our liability with respect to the matter;

We and our subsidiaries have only limited or *de minimis* involvement in the sites based upon a volumetric calculation;

Other PRPs involved in the sites have substantial assets and may reasonably be expected to pay their share of the cost of remediation;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

We have adequate resources to cover the ultimate liability; and

We believe that our ultimate liability is relatively small compared with our overall net worth.

Table of Contents

We are subject to various other governmental proceedings and regulations, including foreign regulations, relating to environmental matters, but we do not believe that any of these matters are likely to have a material adverse effect on our financial condition or results of operation.

This section, Environmental Matters, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words believe, expect, will, estimate, may and similar expressions are intended to identify forward-looking statements. Our expectations regarding our compliance with Environmental Regulations and our expenditures to comply with Environmental Regulations, including (without limitation) our capital expenditures on environmental control equipment, and the effect that liability from Environmental Regulation or Superfund sites may have on our financial condition or results of operations, are only our forecasts regarding these matters. These forecasts may be substantially different from actual results, which may be affected by the following factors: changes in Environmental Regulations; unexpected, adverse outcomes with respect to sites where we have been named as a PRP, including (without limitation) the sites described above; the discovery of new sites of which we are not aware and where additional expenditures may be required to comply with Environmental Regulations; an unexpected discharge of hazardous materials in the course of our business or operations; an acquisition of one or more new businesses; a catastrophic event causing discharges into the environment of hydrocarbons; the inability of other PRPs to pay their share of liability for a Superfund site; and a material change in the allocation to us of the volume of discharge and a resulting change in our liability as a PRP with respect to a site.

Economic Factors and Seasonality

Our business is subject to a number of general economic factors that may have a materially adverse effect on the results of our operations, many of which are largely out of our control. These include recessionary economic cycles and downturns in customers' business cycles, particularly in market segments and industries, such as retail and manufacturing, where we have a significant concentration of customers. Economic conditions may adversely affect our customers' business levels, the amount of transportation services they need and their ability to pay for our services. We operate in a highly price-sensitive and competitive industry, making pricing, customer service, effective asset utilization and cost control major competitive factors. National Transportation, Regional Transportation and YRC Logistics revenues are subject to seasonal variations. Customers tend to reduce shipments after the winter holiday season, and operating expenses as a percent of revenue tend to be higher in the winter months primarily due to colder weather. Generally, the first quarter is the weakest while the third quarter is the strongest. The availability and cost of labor can significantly impact our cost structure and earnings.

Financial Information About Geographic Areas

Our revenue from foreign sources is largely derived from Canada, the United Kingdom, Asia and Mexico. We have certain long-lived assets located in these countries as well. We discuss this information in the Business Segments note to our consolidated financial statements.

Item 1A. Risk Factors

In addition to the risks and uncertainties contained elsewhere in this report or in our other SEC filings, the following risk factors should be considered carefully in evaluating us. These risks could have a material adverse effect on our business, financial condition and results of operations.

We are subject to general economic factors that are largely out of our control, any of which could have a material adverse effect on our business, financial condition and results of operations.

Our business is subject to a number of general economic factors that may adversely affect our business, financial condition and results of operations, many of which are largely out of our control. These factors include recessionary economic cycles and downturns in customers' business cycles and changes in their business practices, particularly in market segments and industries, such as retail and manufacturing, where we have a significant concentration of customers. Economic conditions may adversely affect our customers' business levels, the amount of transportation services they need and their ability to pay for our services. Due to our high fixed-cost structure, in the short-term it is difficult for us to adjust expenses proportionally with fluctuations in volume levels. Customers encountering adverse economic conditions represent a greater potential for loss, and we may be required to increase our reserve for bad-debt losses.

We are subject to business risks and increasing costs associated with the transportation industry that are largely out of our control, any of which could have a material adverse effect on our business, financial condition and results of operations.

We are subject to business risks and increasing costs associated with the transportation industry that are largely out of our control, any of which could adversely affect our business, financial condition and results of operations. The factors contributing to these

Table of Contents

risks and costs include weather, excess capacity in the transportation industry, interest rates, fuel prices and taxes, fuel surcharge collection, terrorist attacks, license and registration fees, insurance premiums and self-insurance levels, difficulty in recruiting and retaining qualified drivers, the risk of outbreak of epidemical illnesses, the risk of widespread disruption of our technology systems, and increasing equipment and operational costs. Our results of operations may also be affected by seasonal factors.

We operate in a highly competitive industry, and our business will suffer if we are unable to adequately address potential downward pricing pressures and other factors that could have a material adverse effect on our business, financial condition and results of operations.

Numerous competitive factors could adversely affect our business, financial condition and results of operations. These factors include the following:

We compete with many other transportation service providers of varying sizes, some of which have a lower cost structure, more equipment and greater capital resources than we do or have other competitive advantages.

Some of our competitors periodically reduce their prices to gain business, especially during times of reduced growth rates in the economy, which limits our ability to maintain or increase prices or maintain or grow our business.

Our customers may negotiate rates or contracts that minimize or eliminate our ability to offset fuel price increases through a fuel surcharge on our customers.

Many customers reduce the number of carriers they use by selecting so-called "core carriers" as approved transportation service providers, and in some instances, we may not be selected.

Many customers periodically accept bids from multiple carriers for their shipping needs, and this process may depress prices or result in the loss of some business to competitors.

The trend towards consolidation in the ground transportation industry may create other large carriers with greater financial resources and other competitive advantages relating to their size.

Advances in technology require increased investments to remain competitive, and our customers may not be willing to accept higher prices to cover the cost of these investments.

Competition from non-asset-based logistics and freight brokerage companies may adversely affect our customer relationships and prices.

If our relationship with our employees were to deteriorate, we may be faced with labor disruptions or stoppages, which could have a material adverse effect on our business, financial condition and results of operations and place us at a disadvantage relative to non-union competitors.

Virtually all of our operating subsidiaries have employees who are represented by the International Brotherhood of Teamsters (the "IBT"). These employees represent approximately 70% of our workforce.

Each of Yellow Transportation, Roadway, New Penn and USF Holland employ most of their unionized employees under the terms of a common national master freight agreement with the IBT, as supplemented by additional regional supplements and local agreements. The IBT members have ratified a new five-year agreement that will take effect on April 1, 2008 and will expire on March 31, 2013. The IBT also represents a

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

number of employees at USF Reddaway under more localized agreements, which have wages, benefit contributions and other terms and conditions that better fit the cost structure and operating models of these business units.

Certain of our subsidiaries are regularly subject to grievances, arbitration proceedings and other claims concerning alleged past and current non-compliance with applicable labor law and collective bargaining agreements.

Neither we nor any of our subsidiaries can predict the outcome of any of the matters discussed above. These matters, if resolved in a manner unfavorable to us, could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Ongoing self-insurance and claims expenses could have a material adverse effect on our business, financial condition and results of operations.

Our future insurance and claims expenses might exceed historical levels. We currently self-insure for a majority of our claims exposure resulting from cargo loss, personal injury, property damage and workers' compensation. If the number or severity of claims for which we are self-insured increases, our business, financial condition and results of operations could be adversely affected and we may have to post additional letters of credit to support our insurance policies. If we lose our ability to self-insure, our insurance costs could materially increase and we may find it difficult to obtain adequate levels of insurance coverage.

We have significant ongoing capital requirements that could reduce our income if we are unable to generate sufficient cash from operations.

Our business is capital intensive. If we are unable to generate sufficient cash from operations to fund our capital requirements, we may have to limit our growth, utilize our existing, or enter into additional, financing arrangements, including leasing arrangements, or operate our revenue equipment (including tractors and trailers) for longer periods resulting in increased maintenance costs, any of which could reduce our income. If our cash from operations and existing financing arrangements are not sufficient to fund our capital requirements, we may not be able to obtain additional financing at all or on terms acceptable to us.

We operate in an industry subject to extensive government regulations, and costs of compliance with, or liability for violation of, existing or future regulations could significantly increase our costs of doing business.

The U.S. Departments of Transportation and Homeland Security and various federal, state, local and foreign agencies exercise broad powers over our business, generally governing such activities as authorization to engage in motor carrier operations, safety and permits to conduct transportation business. We may also become subject to new or more restrictive regulations that the Departments of Transportation and Homeland Security, the Occupational Safety and Health Administration, the Environmental Protection Agency or other authorities impose, including regulations relating to engine exhaust emissions, the hours of service that our drivers may provide in any one time period, security and other matters. Compliance with these regulations could substantially impair equipment productivity and increase our costs.

We are subject to various environmental laws and regulations, and costs of compliance with, or liabilities for violations of, existing or future laws and regulations could significantly increase our costs of doing business.

Our operations are subject to environmental laws and regulations dealing with, among other things, the handling of hazardous materials, underground fuel storage tanks and discharge and retention of stormwater. We operate in industrial areas, where truck terminals and other industrial activities are located, and where groundwater or other forms of environmental contamination may have occurred. Our operations involve the risks of fuel spillage or seepage, environmental damage, and hazardous waste disposal, among others. If we are involved in a spill or other accident involving hazardous substances, or if we are found to be in violation of applicable environmental laws or regulations, it could significantly increase our cost of doing business. Under specific environmental laws and regulations, we could be held responsible for all of the costs relating to any contamination at our past or present terminals and at third party waste disposal sites. If we fail to comply with applicable environmental laws and regulations, we could be subject to substantial fines or penalties and to civil and criminal liability.

In addition, as global warming issues become more prevalent, federal and local governments and our customers are beginning to respond to these issues. This increased focus on sustainability may result in new regulations and customer requirements that could negatively affect us. This could cause us to incur additional direct costs or to make changes to our operations in order to comply with any new regulations and customer requirements, as well as increased indirect costs or loss of revenue resulting from, among other things, our customers incurring additional compliance costs that affect our costs and revenues. We could also lose revenue if our customers divert business from us because we haven't complied with their sustainability requirements. These costs, changes and loss of revenue could have a material adverse affect on our business, financial condition and results of operations.

We may be obligated to make additional contributions to multi-employer pension plans.

If a surcharge is assessed on any of the multi-employer pension plans to which our operating subsidiaries contribute and the funds available under our collective bargaining agreements are insufficient, we may have to contribute more to the plans than our contracted amounts. See the Employee Benefits note to our consolidated financial statements.

Our management team is an important part of our business and loss of key personnel could impair our success.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

We benefit from the leadership and experience of our senior management team and depend on their continued services to successfully implement our business strategy. Other than William D. Zollars, our President and Chief Executive Officer, we have not entered into employment agreements for a fixed period with members of our current management. The loss of key personnel could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Our business may be harmed by anti-terrorism measures.

In the aftermath of the terrorist attacks on the United States, federal, state and municipal authorities have implemented and are implementing various security measures, including checkpoints and travel restrictions on large trucks. Although many companies will be adversely affected by any slowdown in the availability of freight transportation, the negative impact could affect our business disproportionately. For example, we offer specialized services that guarantee on-time delivery. If the security measures disrupt or impede the timing of our deliveries, we may fail to meet the needs of our customers, or may incur increased expenses to do so. We cannot assure you that these measures will not significantly increase our costs and reduce our operating margins and income.

The outcome of legal proceedings and IRS audits to which the Company and its subsidiaries are a party could have a material adverse effect on our businesses, financial condition and results of operations.

The Company and its subsidiaries are a party to various legal proceedings, including claims related to personal injury, property damage, cargo loss, workers' compensation, employment discrimination, breach of contract, multi-employer pension plan withdrawal liability and antitrust violations. See the Commitments, Contingencies and Uncertainties note to our consolidated financial statements. The IRS may issue adverse tax determinations in connection with its audit of our prior year tax returns or the returns of a consolidated group that we acquired in 2005. See the Income Taxes note to our consolidated financial statements. We may incur significant expenses defending these legal proceedings and IRS audits. In addition, we may be required to pay significant awards, settlements or taxes in connection with these proceedings and audits, which could have a material adverse effect on our businesses, financial condition and results of operations.

We may not obtain the projected benefits and cost savings from operational changes and performance improvement initiatives.

In response to our business environment, we initiated operational changes and process improvements to reduce costs and improve financial performance. The changes and initiatives included reorganizing our management, reducing corporate overhead, closing redundant offices and eliminating unnecessary activities. There is no assurance that these changes and improvements will be successful or that we will not have to initiate additional changes and improvements in order to achieve the projected benefits and cost savings.

Our credit agreement and other financing arrangements subject us to various covenants and restrictions that could limit our operating flexibility.

Our credit agreement and other financing arrangements contain covenants and other restrictions that, among other things, require us to satisfy certain financial ratios and restrict our ability to take certain actions, including incur additional indebtedness. The covenants and restrictions in our financing arrangements may limit our ability to respond to market conditions or take advantage of business opportunities by limiting, among other things, the amount of additional borrowings we may incur. See Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition Liquidity for additional information regarding our liquidity.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties

At December 31, 2007, we operated a total of 845 transportation service centers located in 50 states, Puerto Rico, Canada and Mexico. Of this total, 504 were owned and 341 were leased, generally with renewal terms of three years or less. The number of vehicle back-in doors totaled 34,173, of which 23,011 were at owned facilities and 11,162 were at leased facilities. The transportation service centers vary in size ranging from one to three doors at small local facilities, to over 426 doors at the largest consolidation and distribution facility. We own substantially all of the larger facilities which contain the greatest number of doors. In addition, we and our subsidiaries own and occupy general office buildings in Overland Park, Kansas; Akron, Ohio; Lebanon, Pennsylvania; Carlisle, Pennsylvania; Holland, Michigan; and Winnipeg, Manitoba. Our owned transportation service centers and office buildings are unencumbered.

Our facilities and equipment are adequate to meet current business requirements in 2008. Refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, for a more detailed discussion of expectations regarding capital spending in 2008.

(a) The 2007 fourth quarter amounts include an impairment charge of \$782 million, additional depreciation expense of \$8 million related to the abandonment of certain in-process technology projects and reorganization charges, primarily severance, of \$9 million.

(b) The 2006 fourth quarter amounts reflect lower employee benefits expense of \$12 million for a change in a non-union vacation payout practice, lower depreciation expense of \$14 million for revised depreciation policies and higher acquisition charges of \$13 million related to the USF Red Star multi-employer pension plan withdrawal liability.

Purchases of Equity Securities by the Issuer

In April 2006, our Board of Directors approved a stock repurchase program that authorized the Company to repurchase up to \$100 million of its common stock. During 2007, the Company purchased 1.1 million shares under this program at a weighted-average cost of \$31.13 per share for a total cost of \$35.0 million. In 2006, the Company purchased 521,100 shares under this program at a weighted-average cost of \$38.34 per share for a total cost of \$20.0 million. At December 31, 2007, \$45 million remains available under the authorized program.

We did not declare any cash dividends on our common stock in 2007 or 2006.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. See the introductory section immediately prior to Part I of this report regarding these statements.

Overview

YRC Worldwide Inc., one of the largest transportation service providers in the world, is a holding company that through wholly owned operating subsidiaries offers its customers a wide range of transportation services. These operating subsidiaries are primarily represented by National Transportation, a holding company that includes Yellow Transportation and Roadway, both leading transportation service providers offering a full range of regional, national and international services; Regional Transportation, a holding company for our transportation service providers focused on business opportunities in the regional and next-day delivery markets; and YRC Logistics, a global logistics management company that plans and coordinates the movement of goods worldwide to provide customers a single source for logistics management solutions. These companies represent our reporting segments and are more fully described in Item 1 Business.

The following management's discussion and analysis explains the main factors impacting our results of operations, liquidity and capital expenditures and the critical accounting policies of YRC Worldwide. This information should be read in conjunction with the accompanying financial statements and notes thereto, as well as our detailed discussion of risk factors included in Item 1A.

Our Operating Environment

We operate in a highly competitive environment, yet one where we believe the right value proposition for our customers permits us to recover our cost of capital over the business cycle. Over the last several years, significant changes have occurred in our environment, including: consolidation and liquidation of LTL carriers; the increased presence of large global, service providers; and increasing needs and demands of our customers. We continue to proactively address these changes through our strategy of being a global transportation services provider. Over the last few years, we have expanded our service offerings and completed multiple acquisitions of asset and non-asset-based companies. While growth domestically is always a focus, we have more recently expanded our operations in a global manner initially by completing a freight forwarding joint venture with a Chinese corporation in September 2005. In 2007, we entered into a definitive agreement to acquire a Shanghai based LTL ground transportation provider. This transaction is expected to close in the second quarter of 2008. In 2007, we continued to realign our management structure to identify the best composition of experience and efficiency. In that regard, we announced the consolidation of management of our national LTL companies, Yellow Transportation and Roadway, and the creation of our Enterprise Solutions Group to increase customer focus and service improvements. This combination was designed to allow more focus on offering our entire portfolio of services to our customers. We also announced the formation of YRC North American Transportation, a holding company for all domestic asset based operating companies. This alignment was intended to create one unified management structure for this significant portion of our business.

We will continue to face challenges in the environment that we operate, primarily due to the changing competitive landscape and meeting our stakeholders' demands. Specific economic areas that impact our ability to generate profits and cash flows include the levels of consumer spending, manufacturing and overall economic activity. We monitor these areas primarily through several common economic indices, including the gross domestic product (GDP) and the industrial production index (IPI). Real GDP measures the value of goods and services produced in the U.S., excluding inflation, and the IPI measures the physical units and inputs into the U.S. production process. Over time the IPI has been a relatively good indicator for general levels of freight volume available in our markets. We manage the impact of our customers' spending, manufacturing and economic activity through, among others, pricing discipline, cost management programs, maintaining adequate debt capacity, investment in technology and continuous improvement programs. In 2007, market conditions were especially weak and contributed to a resulting impairment charge in both our National Transportation and Regional Transportation operating segments totaling \$781.9 million.

Table of Contents

Acquisitions and Investments

Shanghai Jiayu Logistics Co., Ltd.

In December 2007, we entered into a definitive agreement to acquire majority ownership of Shanghai Jiayu Logistics Co., Ltd., a Shanghai, China ground transportation company. We plan to acquire 65% of the stock of Jiayu for between US \$29.5 million to US \$43 million, based upon Jiayu's final 2007 financial performance. Pursuant to the definitive agreement, YRC Logistics will acquire 65% of the stock of Jiayu for Chinese Yuan (CNY) 228.6 million plus an additional payment of up to CNY 104.6 million (approximately \$29.5 million to \$43 million) based upon Jiayu's 2007 financial performance. If Jiayu meets certain financial performance targets during 2008 and 2009, YRC Logistics will purchase the remaining 35% interest in 2010 for an amount not to exceed CNY 248.0 million (approximately \$32 million), as determined by the level of the financial performance. If Jiayu does not meet these financial targets, YRC Logistics has a call option to purchase the remaining 35% of the shares of Jiayu in 2010 for the greater of CNY 77.5 million (approximately \$10 million) and 35% of the appraised value of the net assets of Jiayu at that time. All payments will be made in Chinese Yuan, and their estimated dollar equivalents are provided herein. The acquisition is subject to Chinese regulatory approvals, restructuring of certain of Jiayu's operations and other ordinary conditions to closing. We expect the first step of this acquisition to be completed in 2008. We are capitalizing transaction costs incurred related to this acquisition, the balance of which is not significant at December 31, 2007.

USF Corporation

On May 24, 2005, YRC Worldwide completed the acquisition of USF Corporation (USF), headquartered in Chicago, IL, through the merger (the Merger) of a wholly owned subsidiary of YRC Worldwide with and into USF, resulting in USF becoming a wholly owned subsidiary of YRC Worldwide. USF, a leader in the transportation industry, specialized in high-value next-day, regional and national LTL transportation, third-party logistics, and premium regional and national truckload transportation. The company serves the North American market, including the United States, Canada and Mexico, as well as the U.S. territories of Puerto Rico and Guam under the following brands: USF Holland, USF Reddaway, USF Glen Moore and USF Logistics (now part of YRC Logistics). The combined entity offers customers a broad range of transportation services including next day, inter-regional, national and international capabilities.

Pursuant to the Merger, each share of common stock of USF was converted into the right to receive \$29.25 in cash and 0.31584 shares of YRC Worldwide common stock resulting in consideration of approximately \$835.4 million in cash and 9 million shares for a total purchase price of \$1.3 billion. The purchase price also included approximately \$14.6 million for investment banking, legal and accounting fees that YRC Worldwide incurred to consummate the acquisition, resulting in total cash consideration of \$743.1 million, net of cash acquired. The cash portion of the merger consideration was financed with a combination of proceeds from the issuance of floating rate notes, borrowings under our ABS facility and cash on hand.

GPS Asia

In March 2005, YRC Logistics purchased GPS Logistics Group Ltd., the Asian freight forwarding operations of GPS Logistics and in turn, made a payment of \$5.7 million (\$3.2 million net of cash acquired). Under the terms of the purchase agreement, this payment was subject to subsequent upward and downward adjustments based on the financial performance of the Asia business through March 2007. Additional earn-out payments could have been required based on the financial performance of the Asia business during the period March 2007 to March 2009.

In January 2006, we paid an additional \$11.1 million and issued a promissory note in the amount of \$10.8 million representing a buyout of the earn out arrangements and potential purchase price adjustments. These amounts were allocated to goodwill in the consolidated balance sheet. In December 2006, we paid \$10.8 million to satisfy the promissory note in full.

JHJ

On September 1, 2005, the Company completed the purchase of a 50% equity interest in JHJ International Transportation Co., Ltd., (JHJ) a Shanghai, China-based freight forwarder, with a purchase price of \$46.0 million including transaction costs. The Company accounts for its ownership in JHJ using the equity method of accounting.

Table of Contents**Results of Operations**

This section focuses on the highlights and significant items that impacted our operating results over the last three years. We will discuss the areas that caused material fluctuations and required specific evaluation by management. Our discussion will also explain the adjustments to operating income that management excludes when internally evaluating segment performance because the items are not related to the segments core operations.

Consolidated Results

Our consolidated results include the results of each of the operating segments discussed below and corporate charges for the periods presented. In 2005, consolidated results also included the results of USF from the date of acquisition, May 24, through December 31. A more detailed discussion of the operating results of our segments is presented below.

The following table summarizes the Statement of Consolidated Operations for the three years ended December 31:

(in millions)	2007	2006	2005	Percent Change	
				2007 vs. 2006	2006 vs. 2005
Operating revenue	\$ 9,621.3	\$ 9,918.7	\$ 8,741.6	(3.0)%	13.5%
Operating income (loss)	(565.1)	545.4	536.3	n/m ^(a)	1.7%
Nonoperating expenses, net	86.6	89.5	64.0	(3.2)%	39.8%
Net income (loss)	\$ (638.4)	\$ 276.6	\$ 288.1	n/m	(4.0)%

(a) Not meaningful.
2007 compared to 2006

Our consolidated revenue declined 3% in 2007 versus 2006 as reflected in each of our asset-based operating segments. This decrease was primarily a function of decreased shipments resulting from the slowing economy, weak consumer spending trends and the resulting intense competitive pricing environment. While we have experienced lower volumes throughout our entire network, the industrial Midwest has been especially challenging largely due to its dependence on the automotive and related industries. In general, pricing or yield, including fuel surcharge revenue, increased modestly for our National Transportation segment yet was relatively flat for our Regional Transportation segment, which suffered more dramatic competitive pricing pressure.

Consolidated operating revenue includes fuel surcharge revenue. Fuel surcharges are common throughout our industry and represent an amount that we charge to customers that adjusts with changing fuel prices. We base our fuel surcharge on a published national index and adjust it weekly. Rapid material changes in the index or our cost of fuel can positively or negatively impact our revenue and operating income versus prior periods as there is a lag in the Company's adjustment of base rates in response to changes in fuel surcharge. Fuel surcharge is an accepted and important component of the overall pricing of our services to our customers. Without an industry accepted fuel surcharge program, our base pricing for our transportation services would require changes. We believe the distinction between base rates and fuel surcharge has been blurring over time, and it is impractical to clearly separate all the different factors that influence the price that our customers are willing to pay. In general, under our present fuel surcharge program, we believe rising fuel costs are beneficial to us in the short term.

Consolidated operating income decreased significantly from 2006 resulting in an operating loss of \$565.1 million in 2007. Included in this operating loss are impairment charges of \$781.9 million representing a complete write off of goodwill associated with our Regional Transportation segment as well as reductions in the tradename values attributed to USF (a part of the Regional Transportation segment) and Roadway (a part of the National Transportation segment.) Absent this charge, consolidated operating income was \$216.8 million for 2007 versus \$545.4 million for 2006. This significant downturn in earnings was experienced by all of our operating companies; however, our Regional Transportation segment experienced the greatest percentage decline on a year-over-year basis. Given its regional concentration, the weak economy in the Upper Midwest impacted this segment more severely. Additionally, we were less effective in reducing our variable costs in the regional market in response to the decline in revenue than in our national market. This is partly attributable to continued challenges associated with the USF Reddaway and USF Bestway February 2007 consolidation. In response to these and other challenges, in February 2008 USF Reddaway closed 21 service centers primarily representing the former USF Bestway footprint. USF Holland closed 6 service centers at this same time.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Our 2007 consolidated operating results were negatively impacted by \$27.3 million of reorganization charges, primarily severance and acceleration of stock compensation charges related to terminated executives, of which \$9.5 million was included in the Corporate results. Our 2006 consolidated operating results included \$10.2 million of similar charges as well as \$13.3 million

Table of Contents

related to a USF Red Star multi-employer pension plan matter. In 2007, we successfully settled certain of these USF Red Star multi-employer pension plan obligations resulting in a gain of \$6.4 million. Consolidated operating income also included gains on the sale of property and equipment of \$5.8 million and \$8.4 million for the years ended December 31, 2007 and 2006, respectively.

Our 2007 nonoperating expenses of \$86.6 million included \$88.8 million of interest expense as compared to \$87.8 million in 2006. Included in the 2007 interest amount is \$5.6 million attributed to income tax items. In conjunction with our adoption of FIN No. 48, Accounting for Uncertainty in Income Taxes effective January 1, 2007, we now classify interest related to income tax items in interest expense as opposed to the 2006 classification in income tax provision (benefit). Interest expense attributed to financing arrangements is down slightly from 2006 due to decreased borrowings. Other nonoperating charges in 2007 included foreign currency losses of \$5.4 million offset by interest income of \$4.4 million and other gains of \$3.2 million while 2006 included \$4.6 million of charges related to the write down of certain nonoperating assets offset by interest income of \$3.1 million.

Our effective tax rate for 2007 was 2.0% compared to 39.3% for 2006. The 2007 rate reflects a \$638.6 million goodwill impairment charge that is non deductible for tax purposes. The 2007 rate was favorably impacted by a \$1.8 million alternative fuel tax credit related to 2006 and reflects a benefit of \$7.1 million for the same type of credit in 2007.

2006 compared to 2005

Our consolidated revenue increased during 2006 as a result of the 2005 USF acquisition and moderate growth at all of our operating segments, including fuel surcharge revenue. In general, pricing or yield increased modestly while overall volumes were down slightly compared to 2005. The volume decline is reflective of a weaker economy especially during the second half of 2006.

Consolidated operating income for 2006 improved slightly versus 2005 primarily due to the USF acquisition; however our consolidated operating ratio declined 0.6 percentage points. Operating ratio refers to a common industry measurement calculated by dividing a company's operating expenses by its operating revenue. Our 2006 results were impacted by adverse development in prior years workers compensation claims offset by favorable accounting changes related to a change in depreciable lives and salvage values of revenue equipment and a change in employees vacation benefit at Roadway as more fully described in our segment discussion. Overall, our operating results were below our internal expectations. As a result, we reduced our performance incentive awards for nearly all employees thereby reducing our expense by \$56.3 million versus the prior year period. Our consolidated operating income in 2006 was also unfavorably impacted by a \$13.3 million charge related to a USF Red Star multi-employer pension plan matter, \$10.2 million of restructuring and reorganization charges and \$2.8 million due to the loss on sale of a subsidiary. These amounts were offset by \$8.4 million of gains generated from the sale of property and equipment.

Our 2006 nonoperating expenses of \$89.5 million included \$87.8 million of interest expense while the 2005 comparable amount was \$63.4 million. The increase is reflective of our higher interest rates on variable rate debt in 2006 as compared to 2005 and our higher average debt levels due to the USF acquisition. We did reduce our overall indebtedness by \$204.6 million during 2006. The 2006 nonoperating expense amount also includes \$4.6 million of impairment charges relating to certain nonoperating assets with no corresponding amount in the prior year.

Our effective tax rate for 2006 was 39.3% compared to 39.0% for 2005. The 2006 amount is reflective of a slightly higher effective state rate.

National Transportation Results

National Transportation represented approximately 69%, 69% and 77% of our consolidated revenue in 2007, 2006 and 2005, respectively. The table below provides summary information for National Transportation for the three years ended December 31:

(in millions)	2007	2006	2005	Percent Change	
				2007 vs. 2006	2006 vs. 2005
Operating revenue	\$ 6,657.8	\$ 6,878.6	\$ 6,735.3	(3.2)%	2.1%
Operating income	159.3	423.3	464.4	(62.4)%	(8.9)%
Operating ratio	97.6%	93.8%	93.1%	3.8pp	0.7pp ^(a)

(a) Percentage points.

Table of Contents*2007 compared to 2006*

National Transportation revenue decreased \$220.8 million or 3.2% in 2007 compared to 2006. The two primary components of operating revenue are volume, comprised of the number of shipments and weight per shipment, and price or yield, usually evaluated on a per hundred weight basis for LTL business. The decline in operating revenue was largely driven by a 6.1% decline in total picked up tonnage per day, with truckload tonnage per day down more dramatically at 7.5% and LTL tonnage per day down 5.8%. The tonnage decline is primarily the result of a slowing economy, and we believe that the freight transportation sector has also experienced softening business levels in 2007 based on reports of tonnage declines. As the economy has slowed, capacity has become more readily available and competition for available loads has increased. The decline in LTL tonnage was made up of a 4.4% decrease in shipments per day and a 1.6% decline in weight per shipment. Partially offsetting the reduction in volume was a 2.4% increase in LTL revenue per hundred weight which includes higher fuel surcharge revenue.

Operating income for National Transportation decreased \$264.0 million or 62.4% in 2007 compared to the previous year. The decrease was primarily a result of lower revenue, a tradename impairment charge of \$76.6 million and higher purchased transportation of \$34.6 million, partially offset by lower salaries, wages and benefits of \$45.7 million, lower depreciation and amortization expense of \$17.2 million and lower other operating expenses of \$6.8 million. Additionally, the prior year results included a \$4.0 million recovery of business interruption insurance related to hurricane Katrina and \$3.5 million of costs associated with hosting an industry conference. No such conference was held in 2007, resulting in lower costs compared to the prior year period.

The impairment charge resulted from a reduction in the calculated fair value of the Roadway tradename. The fair value decline in our tradename was largely the result of a change in the assumptions (primarily discount rate and long-term revenue growth) used in the valuation model versus those used at the original acquisition date in 2003. Assumptions are reflective of current economic conditions, including the slow recovery in sectors impacting transportation.

Purchased transportation costs were higher primarily due to a change in administering certain intercompany transactions, certain new business initiatives with one of our largest customers and a contractual increase with our primary rail provider, partially offset by lower rail usage due largely to lower volumes. Effective July 2007, we began recording both revenue and intercompany expense, primarily purchased transportation, for transactions serviced by YRC Logistics that we otherwise could not service within our network. We also pay a transaction fee to YRC Logistics that is included in purchased transportation. Previously the revenue and purchased transportation were recorded by YRC Logistics. This change does not affect the consolidated financial statements of YRC Worldwide.

Salaries, wages and benefits were lower due to lower workers' compensation costs of \$24.9 million and lower hourly wages and benefits of \$17.7 million. Hourly wages and benefits declined due to lower volumes and were partially offset by the annual contractual wage and benefit increase combined with having fewer new hire employees on the lower end of the union wage progression scale and having fewer casual (i.e. part time, supplemental) employees. As volumes decline, it is more challenging to utilize casual employees who are used to supplement our regular workforce and have a lower overall cost as employees with greater seniority at higher wage rates must be utilized first under our labor agreement. Additionally, there have been fewer newly hired employees who have a lower initial cost than regular employees due to the wage progression. The prior year results included a reduction to expense of \$11.8 million due to a change in our vacation practices. The reduced workers' compensation cost is attributed to the absence of material unfavorable changes in the development of prior year claims that we experienced in 2006.

Depreciation expense was lower primarily because of a change in depreciable lives and salvage values of revenue equipment effective July 1, 2006 reducing 2007 depreciation expense by \$26.5 million. This reduction was offset by \$9.3 million of technology amortization expense related to certain abandoned internal technology projects previously considered in process. As National Transportation moves to a common technology platform, these projects were identified as non-strategic and not a part of the future direction of the reporting unit.

Other operating expenses decreased mostly due to lower operating taxes and licenses of \$4.3 million. Cargo claims expense in 2007 was flat when compared to 2006. Additional resources were allocated for improving cargo claim frequency and resulted in lower year over year claims expense primarily during the second half of 2007.

During the year ended December 31, 2007, National Transportation reported net gains of property disposals of \$8.3 million versus \$6.4 million in 2006. The primary contributor to the 2007 amount was a gain of \$5.7 million on the sale of a property in California.

Reorganization charges in 2007, primarily severance costs, of \$6.7 million were largely the result of combining management structures of Yellow Transportation and Roadway to form National Transportation, as discussed in the Overview. During the year ended 2006, we incurred \$4.3 million of severance costs associated with a significant realignment in operations and a related reduction in workforce.

Table of Contents

Operating expenses as a percentage of revenue increased during the year ended 2007 by 3.8 percentage points compared to 2006, resulting in a year-to-date 2007 operating ratio of 97.6%.

2006 compared to 2005

National Transportation revenue increased by \$143.3 million or 2.1% in 2006 compared to 2005 due to a firm pricing environment including higher fuel surcharge revenue but was partially offset by lower tonnage. LTL revenue per hundred weight, which includes increased fuel surcharge revenue, increased in 2006 by 3.1% compared to the prior year. In 2006, LTL shipments per day declined 1.8% and LTL tonnage per day decreased 0.5% from 2005 which resulted in LTL weight per shipment increasing by 1.4%. The decline in volume was primarily attributable to slower economic growth in 2006 than in 2005.

National Transportation operating income declined by \$41.1 million or 8.9% in 2006 compared to 2005. This decline resulted from higher wages and benefits of \$81.3 million due primarily to contractual labor increases, higher operating expenses and supplies (mainly fuel) of \$53.2 million, higher workers' compensation expense of \$33.8 million associated with unfavorable development of prior year claims, and higher purchased transportation costs of \$43.8 million.

Other cost increases during 2006 included increase cargo claims expense of \$9.5 million due to higher claim frequency and \$4.3 million of expense related to a realignment of operations during 2006. In January 2006, we hosted an industry conference incurring \$3.5 million of costs that were not present in 2005. Additionally, depreciation expense was \$0.6 million higher than 2005 despite the favorable impact of useful life and salvage changes described below.

A portion of the purchased transportation increase is due to the railroad providers discontinuing their business practice of providing rail-owned trailers for intermodal movement. This change led to leasing and purchasing of additional trailers, additional costs for repositioning trailers and declining productivity.

The decline in operating income was partially offset by higher operating revenues, including higher fuel surcharge revenue, as well as lower nonunion incentive compensation of \$40.5 million, the favorable impact of \$11.8 million associated with a change in the vacation payout practice during the year, the favorable impact of \$19.7 million associated with lower depreciation due to the increase in useful lives and salvage values as well as \$4.0 million related to the recovery of business interruption insurance related to hurricane Katrina.

Operating expenses as a percentage of revenue increased by 0.7 percentage points in 2006 compared to 2005 and resulted in an operating ratio of 93.8% for 2006.

Regional Transportation Results

Regional Transportation represented approximately 25%, 25% and 18% of our consolidated revenue in 2007, 2006 and 2005, respectively. This segment includes the results of New Penn and, effective May 24, 2005, the results of the LTL and truckload (TL) operating companies of USF. Beginning in 2006, results do not include USF Red Star and USF Dugan, entities that have ceased operations, that are now included in the Corporate results.

The table below provides summary financial information for Regional Transportation for the three years ended December 31:

(in millions)	2007	2006	2005	Percent Change	
				2007 vs. 2006	2006 vs. 2005
Operating revenue	\$ 2,369.6	\$ 2,441.4	\$ 1,570.8	(2.9)%	n/m ^(a)
Operating income (loss)	(706.7)	142.2	85.8	n/m	n/m
Operating ratio	n/m	94.2%	94.5%	n/m	(0.3pp) ^(b)

(a) Not meaningful.

(b) Percentage points.

2007 compared to 2006

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Regional Transportation reported 2007 operating revenue of \$2,369.6 million, representing a decrease of \$71.8 million or 2.9% from 2006. With the same number of workdays in both years, the decline in operating revenue was largely driven by a 3.8%

Table of Contents

decline in total tonnage picked up, with truckload tonnage being down more dramatically at 9.7% and LTL tonnage down 2.4%. Regional Transportation volume decline is consistent with that experienced by National Transportation and also heavily concentrated in the industrial Midwest. As the economy slowed, capacity became more readily available, particularly in the truckload portion of the business, and competition for available loads increased. The decline in LTL tonnage was made up of a 0.9% decrease in shipments per day and a 1.6% decline in weight per shipment.

Partially offsetting the reduction in volume was a 0.8% increase in LTL revenue per hundred weight, which includes increased fuel surcharge revenue. Although pricing remains slightly positive on a year-over-year basis, it continues to be a challenge to obtain sustainable increases due to the amount of capacity in the market and increased pricing pressure from competitors.

Operating loss in 2007 for Regional Transportation was \$706.7 million, compared to \$142.2 million operating income for 2006. Although revenue declined \$71.8 million, operating expenses increased \$777.1 million. The largest factor was a \$705.3 million non-cash charge taken in the fourth quarter relating to impairment of goodwill and intangible assets on Regional Transportation's balance sheet. Other expense increases were in salaries, wages and benefits of \$39.3 million, operating expenses and supplies of \$34.3 million, and other operating expenses of \$3.4 million. Slightly offsetting these increases were decreases in purchased transportation of \$9.3 million and depreciation of \$5.3 million.

Salaries, wages and benefits expense increased despite lower LTL tonnage and reductions in non-union incentive accruals and salaried headcount. The primary reasons for the increase were higher contractual wage expenses and associated benefits. Inefficiencies in the networks of USF Holland and USF Reddaway drove higher wages because of their negative impact on productivity.

Operating expenses and supplies were higher due to several unfavorable factors including higher fuel costs, vehicle maintenance costs and corporate overhead, offset by reductions in uncollectible revenue. Other operating expenses were higher due to higher fuel taxes driven by correspondingly higher fuel costs, and a higher provision for bodily injury and property damage claims.

Purchased transportation was lower due mainly to the in-sourcing of linehaul carriage from third-party providers. Depreciation was lower due to a change in depreciable life policy beginning in July 2006, reduction in assets due to terminal consolidation at USF Reddaway and lower equipment counts.

During 2007, Regional Transportation incurred impairment charges of \$705.3 million as previously discussed. Additionally, Regional Transportation incurred \$7.9 million of reorganization expenses related to the closure of USF Bestway and the consolidation of terminals into USF Reddaway's California network. Regional Transportation also reported net gains on property disposals in 2007 of \$1.4 million compared to net gains on property disposals of \$3.0 million in 2006.

2006 compared to 2005

Regional Transportation's 2005 results reflect the inclusion of the USF companies as of May 24, 2005. This makes the comparison of 2006 to 2005 less meaningful. Due to the lack of comparability, management evaluated the segment's results in 2006 and 2005 primarily based on a combination of sequential growth month over month and attainment of plan performance.

Regional Transportation reported revenue of \$2,441.4 million for 2006, as compared to \$1,570.8 million for 2005. The increased revenue, including higher fuel surcharge revenue, is primarily attributed to the USF acquisition reduced by the impact of a slowing economy.

Regional Transportation reported operating income of \$142.2 million for 2006 as compared to \$85.8 million, for 2005. The 2006 operating income reflects the contribution from the USF acquisition for a full year, higher fuel surcharge revenue and continued cost management.

For 2006 net adjustments to operating income were a negative \$3.0 million representing gains from the disposal of property and equipment, primarily related to the sale of USF Bestway's headquarters. For 2005, net adjustments to operating income were a positive \$8.8 million representing \$8.3 million of shut down and acquisition charges as well as \$0.5 million of losses on fixed asset disposals. Regional Transportation reported a 2006 operating ratio of 94.2% compared to 94.5% in 2005 which included New Penn for the entire year, and the USF companies after the May 24, 2005 acquisition.

Table of Contents**YRC Logistics Results**

YRC Logistics represented approximately 6%, 6% and 5% of our consolidated revenue in 2007, 2006 and 2005, respectively. This segment includes the results of YRC Logistics and, effective May 24, 2005, the results of the USF Logistics group of entities. The table below provides summary financial information for YRC Logistics for the three years ended December 31:

(in millions)	2007	2006	2005	Percent Change	
				2007 vs. 2006	2006 vs. 2005
Operating revenue	\$ 623.2	\$ 609.7	\$ 447.6	2.2%	36.2%
Operating income	5.2	13.7	15.2	(62.4)%	(9.9)%
Operating ratio	99.2%	97.8%	96.6%	1.4pp ^(a)	(1.2pp)

(a) Percentage points.
2007 compared to 2006

For the year 2007, YRC Logistics revenue increased by \$13.5 million or 2.2%. Revenue and expense associated with the fulfillment of certain of National Transportation's domestic forwarding business line were recorded within the National Transportation segment effective July 2007. Previously such revenue and related expense were recorded in the YRC Logistics segment. The transfer of this revenue resulted in a decrease of revenue of \$27.2 million for 2007 compared to the same period in 2006 with minimal impact on operating income as the corresponding purchased transportation was also transferred. Excluding this revenue, YRC Logistics revenue increased by \$40.7 million or 6.7% driven by increases in transportation services and distribution services.

Operating income decreased \$8.5 million in 2007 including \$3.3 million in reorganization charges in 2007. Despite the 6.7% growth discussed above, in the current year YRC Logistics was challenged with pressure from an economic slowdown which hampered revenue growth as it relates to our expectations. Operating expenses were not reduced as quickly in response to sluggish revenue growth rates. Distribution services however performed better than our other offerings with stronger revenue gains. As a result, operating expenses for this business line increased \$5.4 million or 9.7% in 2007 as compared to 2006. Claims and insurance expenses increased approximately \$3.6 million in 2007 compared to 2006, primarily attributable to a favorable adjustment in 2006 relating to prior year claims development.

2006 compared to 2005

For the year 2006, YRC Logistics revenue increased by \$162.1 million or 36.2% from 2005. A significant portion of this increase is attributable to the USF Logistics acquisition which occurred May 24, 2005. In addition to the acquisition growth, the Global Services and Transportation Services business lines all had significant organic gains (approximately \$9 million and \$15 million, respectively). Operating income decreased from \$15.2 million in 2005 to \$13.7 million in 2006 yet reflects \$7.0 million in reorganization charges in 2006. Absent these charges operating income would have increased 37.7% from 2005.

In the second quarter of 2006 YRC Logistics decided to relocate substantially all of its operations in Greenwood, Indiana to Overland Park, Kansas. This relocation was completed in 2006 and reorganization charges of \$4.2 million were incurred.

In September 2006, YRC Logistics sold its mainland China freight forwarding operations into the joint venture that it maintains with JHJ. YRC Logistics acquired this freight forwarding operation in 2005 as part of the acquisition of GPS Logistics. In 2005 we acquired a 50% stake in the freight forwarding operations of JHJ, which is one of the largest freight forwarders in China. The two organizations had overlapping capabilities in multiple locations in China, and therefore a decision was made to combine the operations to increase operational focus. Reorganization charges of \$2.8 million were recorded as a result of the loss on the sale of this subsidiary.

Table of Contents**Financial Condition****Liquidity**

Our liquidity needs arise primarily from capital investment in new equipment, land and structures and information technology, as well as funding working capital requirements and acquisitions. To provide short-term and longer-term liquidity, we maintain capacity under a \$1.1 billion unsecured bank credit agreement, which includes a fully drawn \$150 million term loan and a \$950 million revolving loan, and a \$700 million asset backed securitization (ABS) facility involving the accounts receivable of Yellow Transportation, Roadway, USF Holland and USF Reddaway.

The following table provides details of the outstanding components and unused capacity under the unsecured revolving credit facility and the ABS facility at December 31:

(in millions)	2007	2006
Capacity:		
Revolving loan	\$ 950.0	\$ 850.0
ABS facility	700.0	650.0
Total capacity	1,650.0	1,500.0
Amounts outstanding:		
Revolving loan	(5.1)	
Letters of credit	(473.2)	(482.0)
ABS facility	(180.0)	(225.0)
ABS usage for captive insurance company (see below)	(201.4)	(189.4)
Total outstanding	(859.7)	(896.4)
Unused capacity	\$ 790.3	\$ 603.6

As shown above, the ABS facility permits borrowings of up to \$700 million based on qualifying accounts receivable of the Company. However, at December 31, 2007, our underlying accounts receivable supported total capacity under the ABS facility of \$598.9 million. Considering this limitation, our unused capacity at December 31, 2007 was \$689.2 million.

While the above reflects the stipulated unused capacity per the respective agreements, our borrowing ability is further restricted by our performance covenants, specifically the leverage ratio, that limits total outstanding indebtedness to three times our trailing twelve months earnings before interest, taxes, depreciation and amortization or EBITDA, as defined. Given this requirement, total indebtedness could only have been increased by approximately \$245 million at December 31, 2007 despite the unused capacity reflected above in order for us to remain in compliance with the leverage ratio covenant.

YRC Assurance Co. Ltd. (YRC Assurance) is the Company's captive insurance company domiciled in Bermuda and a wholly owned and consolidated subsidiary of YRC Worldwide. YRC Assurance provides insurance services to certain wholly owned subsidiaries of YRC Worldwide. As a part of the structure of YRC Assurance, certain qualifying investments are periodically made by YRC Assurance as defined by Bermuda regulations. These investments can include taking an ownership position in certain receivables that secure our ABS facility. As a result, as shown in the table above, our capacity under the ABS facility is reduced by YRC Assurance's investment in receivables of \$201.4 million at December 31, 2007.

Contingent Convertible Notes

The balance sheet classification of our contingent convertible notes between short-term and long-term is dependent upon certain conversion triggers, as defined in the applicable indentures. At December 31, 2007 and 2006, the conversion triggers had not been met. Accordingly, based on the effective maturity dates pursuant to noteholder put rights as more fully described in Note 6. Debt and Financing, this obligation has been classified as a long-term liability on the accompanying balance sheets.

Table of Contents*Credit Rating*

As of the date of this filing, the credit rating and outlook assigned to us by the three major rating agencies were as follows:

	Corporate/Issuer Rating	Outlook
Fitch	BB+	Negative
Moody's	Ba1	Negative
S&P	BB	Negative

A credit rating reflects an assessment by the rating agency of the credit risk associated with a corporate entity or particular securities issued by that entity. Credit ratings are not recommendations to buy, sell or hold securities and are subject to revision or withdrawal at any time by the assigning rating agency. Each rating agency may have different criteria for evaluating risk, and therefore, ratings should be evaluated independently. Lower credit ratings generally result in higher borrowing costs and reduced access to capital markets. The agencies have indicated that our lower ratings are primarily a reflection of the rating agencies' concerns regarding ongoing weakness in the U.S. economy pressuring our financial performance, specifically cash flow and profitability.

As a result of the credit rating actions by the rating agencies since December 2007, our borrowing costs under our Credit Facility have increased up to .25%. If our credit rating is lowered by Moody's to Ba2 or by Fitch to BB, our borrowing costs will increase by an additional .25%. Further downgrades by the three major rating agencies would not result in additional increased borrowing costs.

None of our debt agreements require accelerated repayment as a result of lower credit ratings. However, our Contingent Convertible Senior Notes have a conversion right if our note rating is lower than B2 by Moody's or B by S&P or if the notes are no longer rated by at least one rating service. Despite our existing credit ratings, we believe we will continue to have adequate access to the capital markets sufficient to meet our expected needs for financial flexibility.

Cash Flow Measurements

We use free cash flow as a measurement to determine the amounts available to fund strategic capital allocation alternatives. Free cash flow indicates cash available to fund additional capital expenditures, to reduce outstanding debt (including current maturities), repurchase outstanding common shares, or to invest in our growth strategies. This measurement is used for internal management purposes and should not be construed as a better measurement than net cash from operating activities as defined by generally accepted accounting principles.

The following table illustrates our calculation for determining free cash flow for the years ended December 31:

(in millions)	2007	2006	2005
Net cash from operating activities	\$ 392.6	\$ 532.3	\$ 497.7
Net property and equipment additions	(338.4)	(303.1)	(256.4)
Proceeds from stock options	6.5	5.7	11.2
Free cash flow	\$ 60.7	\$ 234.9	\$ 252.5

Net cash provided by operating activities decreased from 2006 to 2007 and is reflective of our decreased operating results. During 2007 we made pension contributions of \$134.3 million and accrued pension expense of \$48.7 million versus \$72.1 million of pension contributions and accrued pension expense of \$61.5 million in 2006. Additionally, we settled certain obligations with multi-employer pension plans and remitted payments of \$45.5 million related to this withdrawal liability in 2007 compared to \$16.2 million of payments remitted and accrued expense of \$13.3 million in 2006. Our accounts receivable declined in the current year due to a combination of lower business volumes and increased efforts at improving our cash collections. Further, in 2007 we received net tax refunds of \$48.1 million, included in Prepaid expenses and other in the accompanying balance sheets, versus net tax payments in 2006 of \$109.5 million.

Net cash provided by operating activities increased \$34.6 million from 2005 to 2006. Pre-tax operating income adjusted for non-cash items such as depreciation, amortization and gains/losses on dispositions increased \$34.8 million during 2006 as compared to 2005. This earnings-based

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

increase was offset by increases in pension contributions of \$23.1 million, interest payments of \$27.9 million and income tax payments of \$9.1 million. Additionally, positive trends in accounts receivable resulting in cash provided of \$42.1 million was offset by a reduction in incentive bonus accruals of \$42.0 million. Prepaid amounts decreased by \$11.0 million and a USF investment account of \$7 million was liquidated, both of which provided cash in 2006.

Table of Contents

In 2007, net property and equipment additions increased by \$35.3 million compared to 2006. Gross property and equipment additions for 2007 were \$393.8 million versus \$377.7 million for 2006 with the increase primarily due to technology investments and terminal and facility construction. Revenue equipment purchases of \$268.9 million were consistent with 2006 which is in line with our fleet replacement patterns. See a more detailed discussion of 2007 activity below in Capital Expenditures .

In 2006, net property and equipment additions increased by \$46.7 million compared to 2005. Gross property and equipment additions for 2006 were \$377.7 million versus \$304.7 million for 2005 with the increase primarily due to increased revenue equipment purchases at Roadway of \$37.4 million and Yellow Transportation of \$15.0 million in an effort to continue to reduce the overall age of our fleet.

Other than property and equipment activity discussed above, cash used in investing activities in 2007 also includes transaction costs associated with the pending acquisition of Shanghai Jiayu Logistics Co., Ltd. and other immaterial investments. The amounts reported in 2006 include the additional payments of \$21.9 million to the seller of GPS Asia and \$2.5 million to GPS Logistics (EU) Limited, both under contractual earn-out obligations. The amounts reported for 2005 reflect our acquisition of the USF companies of \$742.7 million and our investment in the JHJ joint venture of \$46.0 million.

Net cash used in financing activities was \$69.7 million in 2007 versus \$209.3 million for 2006. The 2007 activity is a result of \$35.0 million of treasury stock repurchases, \$39.9 million of net debt reduction and \$1.3 million of debt issuance costs related to the modification and expansion of our credit facility, offset by stock option proceeds of \$6.5 million. The 2006 activity is the result of \$20.0 million of treasury stock repurchases and \$195.0 million of debt pay down offset by stock option proceeds of \$5.7 million. Cash provided by financing activities of \$522.5 million in 2005 reflect the borrowings related to the acquisition of the USF companies and stock option proceeds of \$11.2 million offset by treasury stock repurchases of \$50.0 million.

Capital Expenditures

Our capital expenditures focus primarily on the replacement of revenue equipment, land and structures, investments in information technology and acquisitions. As reflected on our Consolidated Balance Sheets, our business is capital intensive with significant investments in service center facilities and a fleet of tractors and trailers. We determine the amount and timing of capital expenditures based on numerous factors, including anticipated growth, economic conditions, new or expanded services, regulatory actions and availability of financing.

The table below summarizes our actual net capital expenditures by type and investments for the years ended December 31:

(in millions)	2007	2006	2005
Revenue equipment	\$ 261.4	\$ 268.2	\$ 180.4
Land, structures and technology	77.0	34.9	76.0
Total net capital expenditures	338.4	303.1	256.4
Acquisition of companies and affiliates		25.6	799.9
Total	\$ 338.4	\$ 328.7	\$ 1,056.3

Capital expenditures for revenue equipment in 2007 were consistent with 2006. Our 2007 technology expenditures increased \$11.5 million versus 2006 as we continue to invest in common platforms for our asset-based operating companies. Proceeds on land sales in 2007 were \$47.7 million versus \$74.6 million in 2006. Capital expenditures for 2006 reflect a full year of revenue equipment purchases for Regional Transportation as well as continued reinvestment in the National Transportation fleet. The 2006 amount also reflects \$21.9 million related to the acquisition of GPS Asia. Capital expenditures for 2005 reflect the inclusion of \$63.7 million net expenditures of USF activity at Regional Transportation and the cash portion of the USF acquisition of \$742.7 million. We expect 2008 net capital spending to approximate \$200 to \$250 million. We believe our financial condition and access to capital, as they exist today, are adequate to fund our anticipated capital expenditures and future growth opportunities.

Our expectation regarding our ability to fund capital expenditures out of existing financing facilities and cash flow is only our forecast regarding this matter. This forecast may be substantially different from actual results. In addition to the factors previously described in the Forward-Looking Statements section, the following factors could affect levels of capital expenditures: the accuracy of our estimates regarding our spending requirements; the occurrence of any unanticipated acquisition opportunities; changes in our strategic direction; the need to spend additional capital on cost reduction opportunities; the need to replace any unanticipated losses in capital assets and our ability to dispose of

excess real estate at our anticipated sales price.

Table of Contents**Nonunion Pension Obligations**

We provide defined benefit pension plans for certain employees not covered by collective bargaining agreements. The two largest plans are the qualified plans for Yellow Transportation and Roadway. The Yellow Transportation and Roadway qualified plans cover approximately 4,000 employees each. On January 1, 2004, the existing qualified benefit plans were closed to new participants. All new U.S. salaried nonunion employees (except those currently participating in other profit sharing plans) and all YRC Logistics employees now participate in a defined contribution retirement plan.

We expect pension funding and expense to remain an area of management focus over the next several years. The Pension Protection Act of 2006 encourages companies to fully fund their benefit obligation by 2011. Based on discussions with our pension advisors, we made significant contributions in 2007 and expect to continue to accelerate our contributions in the near term to better meet the fully funded requirement. Given the dependence on the economy and the significant amounts involved, pension funding could have a material impact on our liquidity. Using our current plan assumptions, which include an assumed 8.50% return on assets and discount rate of 6.61%, we either recorded or expect to record the following for all YRC sponsored pension plans.

(in millions)	Cash Funding	Pension Expense	Under Funded Status at December 31
2007 Actual	\$ 134.3	\$ 48.7	\$ 137.0
2008 Expected	58.6	34.7	108.2
2009 Expected	46.4	30.3	86.9
2010 Expected	44.9	27.9	62.9

Due to the impact of economic conditions on the Company's plan assumptions it is reasonably possible that such assumptions may change in the near term and that such changes could materially impact amounts recorded or expected to be recorded in the consolidated financial statements.

The above discussion includes forward-looking statements as indicated by "expect" and "estimate" and the actual results may be materially different. Factors that affect these results include actual return on plan assets and discount rate changes among others.

Contractual Obligations and Other Commercial Commitments

The following tables provide aggregated information regarding our contractual obligations and commercial commitments as of December 31, 2007. Most of these obligations and commitments have been discussed in detail either in the preceding paragraphs or the notes to the financial statements. The tables do not include expected pension funding as disclosed separately in the previous section.

Contractual Cash Obligations

(in millions)	Payments Due by Period				Total
	Less than 1 year	2-3 years	4-5 years	After 5 years	
Balance sheet obligations: ^(a)					
ABS borrowings	\$ 180.0	\$	\$	\$	\$ 180.0
Current and long-term debt including interest ^(b)	297.5	582.0	325.5		1,205.0
USF Red Star multi-employer pension withdrawal obligation including interest	1.7	3.5	3.5	1.2	9.9
Off balance sheet obligations:					
Operating leases	101.7	109.6	37.4	19.2	267.9
Capital expenditures	80.0				80.0
Total contractual obligations	\$ 660.9	\$ 695.1	\$ 366.4	\$ 20.4	\$ 1,742.8

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

- (a) Total liabilities for unrecognized tax benefits as of December 31, 2007, were \$75.9 million and are classified on the Company's consolidated balance sheet within Other Current and Accrued Liabilities.
- (b) Long-term debt maturities are reflected by contractual maturity for all obligations other than the contingent convertible senior notes. These notes are instead presented based on the earliest possible redemption date defined as the first date on which the note holders have the option to require us to purchase their notes.

Table of Contents

As previously discussed in *Acquisitions and Investments*, we entered into a definitive agreement to acquire Shanghai Jiayu Logistics Co., Ltd. We anticipate this transaction closing in 2008 at which time we will pay between \$29.5 million to \$43 million. Further, in 2010 we could pay an additional amount not to exceed \$32 million.

We expect in the ordinary course of business that our operating leases will be renewed or replaced as they expire. The leases provide for fixed and escalating rentals and contingent escalating rentals based on the Consumer Price Index not to exceed certain specified amounts. We record rent expense for our operating leases on a straight-line basis over the base term of the lease agreements. In many cases our subsidiaries enter into leases and a parent guarantee is issued. The maximum amount of undiscounted future payments under the guarantee are the same as the contractual cash obligations disclosed above.

Other Commercial Commitments

The following table reflects other commercial commitments or potential cash outflows that may result from a contingent event, such as a need to borrow short-term funds due to insufficient free cash flow.

(in millions)	Amount of Commitment Expiration Per Period				Total
	Less than 1 year	2-3 years	4-5 years	After 5 years	
Unused line of credit	\$ 190.9	\$	\$ 599.4	\$	\$ 790.3
Letters of credit	473.2				473.2
Lease guarantees	0.4				0.4
Surety bonds	105.3	0.1	0.1		105.5
Total commercial commitments	\$ 769.8	\$ 0.1	\$ 599.5	\$	\$ 1,369.4

Critical Accounting Policies

Preparation of our financial statements requires accounting policies that involve significant estimates and judgments regarding the amounts included in the financial statements and disclosed in the accompanying notes to the financial statements. We continually review the appropriateness of our accounting policies and the accuracy of our estimates including discussion with the Audit/Ethics Committee of our Board of Directors who make recommendations to management regarding these policies. Even with a thorough process, estimates must be adjusted based on changing circumstances and new information. Management has identified the policies described below as requiring significant judgment and having a potential material impact to our financial statements.

Revenue Reserves

We consider our policies regarding revenue-related reserves as critical based on their significance in evaluating our financial performance by management and investors. We have an extensive system that allows us to accurately capture, record and control all relevant information necessary to effectively manage our revenue reserves.

For shipments in transit, National Transportation and Regional Transportation record revenue based on the percentage of service completed as of the period end and accrue delivery costs as incurred. In addition, National Transportation and Regional Transportation recognize revenue on a gross basis because the entities are the primary obligors even when they use other transportation service providers who act on their behalf. National Transportation and Regional Transportation remain responsible to their customers for complete and proper shipment, including the risk of physical loss or damage of the goods and cargo claims issues. YRC Logistics recognizes revenue upon the completion of services. In certain logistics transactions where YRC Logistics acts as an agent, revenue is recorded on a net basis. Net revenue represents revenue charged to customers less third party transportation costs. Where YRC Logistics acts as principal, it records revenue from these transactions on a gross basis, without deducting transportation costs. Management believes these policies most accurately reflect revenue as earned. Our revenue-related reserves involve three primary estimates: shipments in transit, rerate reserves and uncollectible accounts.

Shipments in Transit

We assign pricing to bills of lading at the time of shipment based primarily on the weight, general classification of the product, the shipping destination and individual customer discounts. This process is referred to as rating. At the end of each period, we estimate the amount of revenue earned on shipments in transit based on actual shipments picked up and scheduled delivery dates. We calculate a percentage of completion using

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

this data and the day of the week on which the period ends. Management believes this provides a reasonable estimation of the revenue actually earned.

Table of Contents*Rerate Reserves*

At various points throughout our customer invoicing process, incorrect ratings could be identified based on many factors, including weight verifications or updated customer discounts. Although the majority of rerating occurs in the same month as the original rating, a portion occurs during the following periods. We accrue a reserve for rerating based on historical trends. At December 31, 2007 and 2006, our financial statements included a rerate reserve of \$35.7 million and \$37.9 million, respectively. The modest decrease in the rerate reserve from 2006 to 2007 resulted primarily from the decrease in operating revenue in 2007.

Uncollectible Accounts

We record an allowance for doubtful accounts primarily based on historical uncollectible amounts. We also take into account known factors surrounding specific customers and overall collection trends. Our process involves performing ongoing credit evaluations of customers, including the market in which they operate and the overall economic conditions. We continually review historical trends and make adjustments to the allowance for doubtful accounts as appropriate. Our allowance for doubtful accounts totaled \$34.9 million and \$35.7 million as of December 31, 2007 and 2006, respectively.

Claims and Self-Insurance

We are self-insured up to certain limits for workers' compensation, cargo loss and damage, property damage and liability claims. We measure the liabilities associated with workers' compensation and property damage and liability claims primarily through actuarial methods that an independent third party performs. Actuarial methods include estimates for the undiscounted liability for claims reported, for claims incurred but not reported and for certain future administrative costs. These estimates are based on historical loss experience and judgments about the present and expected levels of costs per claim and the time required to settle claims. The effect of future inflation for costs is implicitly considered in the actuarial analyses. Actual claims may vary from these estimates due to a number of factors, including but not limited to, accident frequency and severity, claims management, changes in healthcare costs and overall economic conditions. We discount the actuarial calculations of claims liabilities for each calendar year to present value based on the average U.S. Treasury rate, during the calendar year of occurrence, for maturities that match the initial expected payout of the liabilities. As of December 31, 2007 and 2006, we had \$478.3 million and \$504.4 million accrued for claims and insurance, respectively. The decrease in claims and insurance from 2006 to 2007 is a result of favorable development in prior year workers' compensation claims and increased payments on property damage and liability claims.

Pension

With the exception of YRC Logistics, Regional Transportation, Reimer and certain of our foreign operations, YRC Worldwide and its operating subsidiaries sponsor qualified and nonqualified defined benefit pension plans for most employees not covered by collective bargaining agreements. YRC Logistics and Regional Transportation do not offer defined benefit pension plans and instead offer retirement benefits through either contributory 401(k) savings plans or profit sharing plans. Effective January 1, 2004, the existing YRC Worldwide qualified defined benefit plans were closed to new participants, and all new U.S. salaried nonunion employees (except those currently participating in other profit sharing plans) and all YRC Logistics employees participate in a defined contribution retirement plan. We account for pension benefits using actuarial methods based on numerous estimates, including employee turnover, mortality and retirement ages, expected return on plan assets, discount rates, and future salary increases. The most critical of these factors, due to their potential impact on pension cost, are discussed in more detail below.

Return on Plan Assets

The assumption for expected return on plan assets represents a long-term assumption of our portfolio performance that can impact our pension expense. With \$929 million of plan assets for the YRC Worldwide funded pension plans, a 50-basis-point decrease in the assumption for expected rate of return on assets would increase annual pension expense by approximately \$4.3 million and would have no effect on the underfunded pension liability reflected on the balance sheet.

In determining the expected rate of return on assets, we consider our historical experience in the plans' investment portfolio, historical market data and long-term historical relationships as well as a review of other objective indices including current market factors such as inflation and interest rates. Although plan investments are subject to short-term market volatility, we believe they are well diversified and closely managed. Our asset allocation as of December 31, 2007 consisted of 64% in equities, 31% in debt securities and 5% in real estate. Our asset allocation as of December 31, 2006 consisted of 65% of equities, 29% of debt securities, 5% of real estate and 1% in other investments. These allocations are consistent with the targeted long-term asset allocation for the plans. Based on various market factors, we have selected an expected rate of return on assets of 8.5% for 2008. We will continue to review our expected long-term rate of return on an annual basis and revise appropriately. The

pension trust holds no YRC Worldwide securities.

Table of Contents*Discount Rate*

The discount rate refers to the interest rate used to discount the estimated future benefit payments to their present value, also referred to as the benefit obligation. The discount rate allows us to estimate what it would cost to settle the pension obligations as of the measurement date, December 31, and impacts the following year's pension cost. We determine the discount rate by choosing a portfolio of high quality (those rated AA- or higher by Standard & Poors) non-callable bonds such that the coupons and maturities approximate our expected benefit payments. When developing the bond portfolio, there are some years when benefit payments are expected with no corresponding bond maturing. In these instances, we estimated the appropriate bond by interpolating yield characteristics between the bond maturing in the immediately preceding year and the bond maturing in the next available year. This analysis is reperformed on a bi-annual basis. For the years that we do not prepare a bond matching analysis, we utilize a spread against a specific index, the Citigroup Pension Liability Index, which is consistent with the actual spread observed in the year the analysis is performed.

Although the discount rate used requires little judgment, changes in the discount rate can significantly impact our pension cost. For example, a 50-basis-point decrease in our discount rate would increase annual pension expense by approximately \$6.0 million and increase our underfunded pension liability reflected in shareholders' equity by approximately \$75.3 million, net of tax, assuming all other factors remain constant. The discount rate can fluctuate considerably over periods depending on overall economic conditions that impact long-term corporate bond yields. At December 31, 2007 and 2006, we used a discount rate of 6.61% and 6.12%, respectively.

Future Salary Increases

We make assumptions of future salary increases for plan participants based on general inflation and cost of living expectations. As pension benefits are based on participants' earned wages, estimated levels of our future performance also factor into the calculation. We believe these increases require less judgment than other pension estimates but can have a significant impact on our future pension expense. Our 2007 assumed rate of future annual increases of 4.2% reflects the recent experience of our plans.

Gains and Losses

Gains and losses occur due to changes in the amount of either the projected benefit obligation or plan assets from experience different than assumed and from changes in assumptions. We recognize computed amortization of the unrecognized net gain or loss as a component of net pension cost for a year if, as of the beginning of the year, that unrecognized net gain or loss exceeds ten percent of the greater of the benefit obligation or the market-related value of plan assets. If amortization is required, it equals the amount of unrecognized net gain or loss that exceeds the ten percent corridor, amortized over the average remaining service period of active employees.

As of year end 2007, the pension plans have an unrecognized net loss of \$19.5 million and a projected benefit obligation of \$1,065.9 million. The average remaining service period is approximately 11 years.

Multi-Employer Pension Plans

Yellow Transportation, Roadway, New Penn, USF Holland and USF Reddaway contribute to approximately 20 separate multi-employer pension plans for employees that our collective bargaining agreements cover (approximately 70% of total YRC Worldwide employees). The pension plans provide defined benefits to retired participants.

We do not directly manage multi-employer plans. Trustees, half of whom the International Brotherhood of Teamsters (the Teamsters) appoints and half of whom various contributing employers appoint, manage the trusts covering these plans.

Our labor agreements with the Teamsters determine the amounts of our contributions to these plans. We recognize as net pension cost the contractually required contribution for the period and recognize as a liability any contributions due and unpaid.

In 2006, the Pension Protection Act became law and modified both the Internal Revenue Code (as amended, the Code) as it applies to multi-employer pension plans and the Employment Retirement Income Security Act of 1974 (as amended, ERISA). The Code and ERISA (in each case, as so modified) and related regulations establish minimum funding requirements for multi-employer pension plans. The funding status of these plans is determined by the following factors:

10:00 AM

B

400 99.9 3:00 PM

400 99.9 4:45 PM

S-42

Table of Contents

In this example, 100.0 is not the market-clearing price because only 400 of the notes offered could be sold at that price. Furthermore, 99.8 is not the market-clearing price because, although all of the notes being offered will be sold for prices over 99.8, this is not the highest price at which the auction amount could be sold. Instead, the auction amount in this example will be sold at the higher price of 99.9. Therefore, 99.9 is the market-clearing price in this example. The entire auction amount will be sold at the market-clearing price, unless we decide, in our discretion, to refrain from selling any notes in the offering after the market-clearing price has been determined. Even the notes that were bid for at 100.0 will be sold for 99.9. In this auction, the winning bidders will pay \$999.00 for each note, which has a principal amount of \$1,000. Bidder A, Bidder B, Bidder D and Bidder E will each be awarded 400 notes at a price of \$999.0 per note. Bidder C will not be awarded any notes in this auction.

We caution you that the market-clearing price may have little or no relationship to the price that would be established using other indicators of value. The scenario above is an example only and should not be considered indicative of an appropriate or likely market-clearing price of our notes.

Allocation

During the auction, notes are allocated to bids with the lowest interest rate (in the case of auctions based on interest rate bidding) or highest price (or, equivalently, lowest yield) (in the case of auctions based on price bidding). Bids with the same interest rate or price (or yield), as the case may be, are allocated by time stamp to the earliest bid. Once bids have been received for the auction amount in an auction, the allocation of notes being auctioned is determined first by interest rate or price (or yield), as the case may be, and second by time stamp. Bidders bidding below the market-clearing interest rate or above the market-clearing price, as the case may be, will be allocated the entire quantity of notes for which they bid; however, in no event will a bidder be allowed to successfully bid for a greater number of notes than the lesser of (1) the number of notes that that bidder's individual bid limit would purchase at the principal amount of the notes (in the case of auctions based on interest rate bidding) or the prices bid for such notes (in the case of auctions based on price bidding) and (2) the total number of that bidder's bids designated as "in-the-money" by the auction website. In the event that multiple bidders bid at exactly the market-clearing interest rate or market-clearing price, as the case may be, and the total quantity of notes for which they have bid exceeds the aggregate amount of notes not allocated to higher bidders, the auction service provider will allocate the remaining notes to the bids with the earliest time stamp. The notes will first be allocated to the bid with the earliest time stamp, then to the bid with the next earliest time stamp, and so on until all of the notes being offered are allocated to bidders. To preserve the bidder's earliest time stamp, a bidder will be required to use an additional bid row to increase the number of notes bid for without decreasing the interest rate or improving the price.

For example, in an auction based on interest rate bidding, assume that the auction amount is 1,000 notes and that the following bidders have bid as follows:

Bidder	Number of Notes Represented by Bid	Interest Rate Bid	Time Stamp
A	400	5.10%	11:00 AM
B	400	5.20%	10:00 AM
C	400	5.20%	10:30 AM

In this example, 5.20% is the market-clearing interest rate because it is the lowest stated interest rate at which the auction amount could be sold at a purchase price equal to their indicated principal amount. Therefore, Bidder A is allocated all 400 notes bid for, because Bidder A's bid was lower than the market-clearing interest rate. This leaves 600 notes to be allocated to the bidders that bid at the market-clearing interest rate. Bidder B and Bidder C bid for an aggregate of 800 notes at the same interest rate. However, Bidder B has a time stamp that is earlier than Bidder C's time stamp. Therefore, the remaining 600 notes are allocated first to Bidder B and the remaining notes are allocated to Bidder C. Bidder B will be allocated 400 notes and Bidder C will be allocated 200 notes. This scenario is an example only and should not be considered indicative of an appropriate or likely market-clearing interest rate for our notes.

Table of Contents

In the event that a single bidder bids at the market-clearing interest rate but the available quantity is less than that for which the bidder bid, the bidder will receive only the available quantity.

Similarly, in an auction based on price bidding, assume again that the auction amount is 1,000 and that the following bidders have bid as follows:

Bidder	Number of Notes Represented by Bid	Bid Price	Time Stamp
A	400	100.0	11:00 AM
B	400	99.9	10:00 AM
C	400	99.9	10:30 AM
D	400	99.9	10:31 AM

In this example, 99.9 is the market-clearing price because it is the highest price at which the auction amount could be sold. Therefore, Bidder A is allocated all 400 notes bid for, because Bidder A's bid was higher than the market-clearing price. This leaves 600 notes to be allocated to the bidders that bid at the market-clearing price. Bidder B, Bidder C and Bidder D bid for an aggregate of 1,200 notes at the same price. However, Bidder B has a time stamp that is earlier than Bidder C's time stamp, and Bidder C's time stamp is earlier than Bidder D's time stamp. Therefore, the remaining 600 notes are allocated first to Bidder B and the remaining notes are allocated to Bidder C, so Bidder B will be allocated 400 notes and Bidder C will be allocated 200 notes. Bidder D receives no notes. This scenario is an example only and should not be considered indicative of an appropriate or likely market-clearing price for our notes.

In the event that a single bidder bids at the market-clearing price or market-clearing yield but the available quantity is less than that for which the bidder bid, the bidder will receive only the available quantity.

We reserve the right to alter the method of allocation of our notes as we deem necessary to ensure a fair and orderly distribution. The auction service provider reserves the right, in its sole discretion, to reject any bid that it deems to be manipulative, mistaken or made due to a misunderstanding of our notes on the part of the bidder. The auction service provider reserves this right in order to preserve the integrity of the auction process. We further reserve the right to reject all bids for any reason. You will not be entitled to an allocation of notes, even if your bid is in-the-money at the time an auction closes, until the auction service provider has reviewed the results of the auction and you are informed that your bid or bids have been accepted.

Non-Competitive Bidding

We may allow bidders to place bids for a specified amount of notes indicating that the bidder is willing to accept that amount of notes at whatever market-clearing interest rate (in the case of auctions based on interest rate bidding) or market-clearing price (in the case of auctions based on price bidding) is eventually established pursuant to the auction process, which we refer to as non-competitive bids. Non-competitive bids may be limited to a certain percentage of notes being offered in a particular auction. Whether a particular auction will allow non-competitive bidding, and if so, the percentage of notes offered that will be available for non-competitive bidding will be specified in the preliminary pricing supplement or other document furnished by us for each auction. The amount of notes that are the subject of each non-competitive bid will be treated in the auction process as having been bid for at the minimum interest rate or at the maximum price, as applicable, and except as discussed below will otherwise be treated identically to bids specifically made at the minimum interest rate or at the maximum price, as applicable. In any auction where non-competitive bidding is limited to a certain percentage of notes being offered, non-competitive bids and bids at the minimum interest rate or the maximum price, as applicable, will be aggregated in determining if such limitation has been reached. After the limitation has been reached, bidders may not make a non-competitive bid, although they will continue to be able to make bids at the minimum interest rate or maximum price, as applicable, which will have the same result as a non-competitive bid. The amount of notes that are the subject of non-competitive bids (subject to any percentage limitation set for a particular auction) and bids at the minimum interest rate or maximum price, as the case may be, will not be available for bids that are above the minimum interest rate or below the maximum price, as the case may be. Accepted non-competitive bids and bids at the minimum interest rate or at the maximum price, as applicable, will

Table of Contents

be allocated notes at whatever final market clearing interest rate or market clearing price, as applicable, is eventually established at the particular auction ahead of standard competitive interest rate bids or price bids that are above the minimum interest rate or below the maximum price, as applicable.

Institutional Up-Sizing Option

For any given auction, we will specify in the applicable preliminary pricing supplement or other document furnished by us or Zions Direct whether that auction is subject to institutional up-sizing. If institutional up-sizing is applicable, this will mean that we have reserved the right to sell, outside of the auction, additional notes of the same series to any institutional or individual bidder who satisfies all of the following requirements. The bidder must: (i) contact a representative at our auction service provider's trading desk before the end of the auction and must indicate the desire to make such an additional purchase; (ii) inform the representative of the additional amount it would like to purchase; (iii) satisfy the credit requirements for such additional purchase; (iv) bid for an aggregate principal amount of notes equal to the lesser of such bidder's bid limit or the auction amount; and (v) win at least 20% of the auction amount of the notes, or such other percentage as may be indicated in the applicable preliminary pricing supplement. Any additional notes so purchased will be purchased outside the auction and will not affect the auction or the final market-clearing interest rate or market-clearing price (or yield), as the case may be, set by the auction, but will be sold at the market-clearing interest rate or market-clearing price, as the case may be, set by the auction. If you are interested in qualifying for such an additional purchase, please call your sales representative at (888) 357-3375 for dealers, (800) 524-4819 for institutions, or (800) 524-8875 for individuals.

While we will endeavor in the applicable pricing supplement or other document furnished by us or Zions Direct to provide a good faith estimate of the amount of notes that we expect to issue pursuant to the institutional up-sizing option with respect to that auction, we cannot assure you that we will not issue more or less notes than that good faith estimate.

Results of Auction and Bid Acceptance

As soon as practicable after an auction has ended, the auction service provider shall notify via telephone or e-mail each successful bidder who was awarded notes in the auction, which notice shall specify at a minimum (i) that the auction has closed; (ii) that such bidder's bid has, or bids have, been accepted; (iii) the principal amount of the notes that have been allocated to such successful bidder; and (iv) the market-clearing interest rate or market-clearing price, as the case may be, to be paid for such notes. As a result of the varying delivery times involved in sending e-mails over the Internet or other methods of delivery, you may receive notices of acceptance before or after other bidders. If you submit successful bids, you will be obligated to purchase the notes allocated to you regardless of whether you are aware that the notice of acceptance of your bid has been sent. The auction service provider will also cause the results of the auction to be posted on the website.

Settlement and Payment

We expect that settlement of all notes with respect to a given auction (including those purchased pursuant to any institutional up-sizing option) will take place three business days following the conclusion of an auction and the allocation of our notes (the settlement cycle being referred to as T+3). Institutional customers will settle delivery versus payment through their Zions Direct Account. Winning bidders who are individuals and who do not have an account with Zions Direct will be required to open such an account in order to facilitate delivery and payment for their notes. Zions Direct will make a suitability determination with respect to those successful bidders seeking to open a Zions Direct account.

Material Developments

During the course of the auction, you should monitor your relevant e-mail accounts, telephone and facsimile for notifications related to the offering, which may include:

Notice of Additional Information by Free Writing Prospectus. Additional information relating to an offering or Zions may become available during the course of an auction in a free writing prospectus.

Table of Contents

Potential Request for Reconfirmation. If material information becomes available during the course of an auction, you (or your broker, if you submitted your bid through a broker) may be requested to reconfirm your bid, although neither we nor the auction service provider is under any obligation to reconfirm bids for any reason. If you are requested to reconfirm your bid and fail to do so in a timely manner, your bid may be deemed withdrawn. However, your bid may be accepted even if it has not been reconfirmed.

Potential Notice of Cancellation. If material information relating to Zions becomes available during the course of an auction, Zions may choose to cancel such auction.

Distribution Agreement

We may elect to distribute all or part of the notes under a distribution agreement with Zions Direct, as distribution agent or principal, relating to the notes. Such a distribution may be done concurrently with an auction conducted by Zions Direct, as auction service provider, as described above.

Pursuant to the distribution agreement, the distribution agent has agreed to use its reasonable best efforts to solicit and receive offers to purchase the notes from us upon the terms and conditions set forth in the applicable pricing supplement. The distribution agent may also purchase the notes as principal for its own account. In the event the distribution agent purchases notes from us as principal, the distribution agent intends to resell the offered notes at a price equal to the market-clearing price for such notes, if an auction of the offered notes is being held concurrently, or at the original issue price, in each case as specified in the applicable pricing supplement. The distribution agent may also resell the notes to securities dealers at a discount from the price at which it purchased such notes of up to the underwriting discount set forth in the applicable pricing supplement.

We have the right to accept offers to purchase notes and may reject any proposed purchase of the notes. The distribution agent may also reject any offer to purchase the notes. We will pay the distribution agent a commission on any notes distributed through the distribution agent, as specified in the applicable pricing supplement.

We may appoint distribution agents under the distribution agreement other than or in addition to Zions Direct. Any of these distribution agents will enter into the distribution agreement referred to above, and the applicable pricing supplement will name any of these distribution agents involved in the offering and issue of the notes and any commission that we will pay to them. Distribution agents through whom we distribute notes may enter into arrangements with other institutions with respect to the distribution of the notes, and those institutions may share in the commissions, discounts or other compensation received by our distribution agents, may be compensated separately and may also receive commissions from purchasers for whom they may act as distribution agents. The other distribution agents may be our affiliates or customers and may engage in transactions with and perform services for us in the ordinary course of business.

The distribution agent, whether acting as agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act of 1933, as amended, or the Securities Act. We have agreed to indemnify the agent against liabilities under the Securities Act, or contribute to payment which the agent may be required to make in that respect. We have also agreed to reimburse the distribution agent for certain expenses.

Broker-dealers and other persons are cautioned that some of their activities may result in their being deemed participants in the distribution of the notes in a manner that would render them statutory underwriters and subject them to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Securities Exchange Act of 1934, or the Exchange Act. The profits and compensation realized by any such broker-dealer upon resale of the notes may be deemed to be underwriting discounts and commissions. A determination of whether a particular market participant is an underwriter must take into account all the facts and circumstances pertaining to the activities of the participant in the particular case.

Table of Contents

Direct Placement

We may offer the notes for sale through Zions Direct as placement agent. The placement agent would use its reasonable efforts to solicit purchases of the notes. We have the right to accept offers to purchase notes and may reject any proposed purchase of the notes. The placement agent may also reject any offer to purchase notes. We will pay the placement agent a placement fee on any notes sold through the placement agent. The placement fee will be specified in the applicable pricing supplement. The placement agent, whether acting as placement agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act of 1933, or the Securities Act.

In a direct placement of the notes, we may sell notes to broker-dealers. These broker-dealers may be deemed to be underwriters within the meaning of the Securities Act in connection with the resale of notes. The profits and compensation realized by any such broker-dealer upon resale of the notes may be deemed to be underwriting discounts and commissions. A determination of whether a particular market participant is an underwriter must take into account all the facts and circumstances pertaining to the activities of the participant in the particular case. To the extent the placement agent or any broker-dealer may be deemed to be an underwriter, the placement agent or any such broker-dealer, as the case may be, will be subject to the prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

Conflicts of Interest

Zions Direct is our auction service provider and is an affiliate of Zions Bancorporation. As such, Zions Direct has a conflict of interest in any offering pursuant to this prospectus supplement in which it participates within the meaning of FINRA Rule 5121. Consequently, any offering of notes pursuant to this prospectus supplement shall be conducted in compliance with the provisions of Rule 5121. Zions Direct is not permitted to sell notes in any such offering with respect to an account over which it exercises discretionary authority without the prior specific written approval of the account holder.

Purchases for Customer Accounts

Other affiliates of ours, including Zions First National Bank's Liquid Asset Management Department, Zions First National Bank's Trust Department and/or Contango Capital Advisors, Inc., may make purchases of (or submit bids for) the notes being offered for the accounts of certain customers who have provided to such affiliate or department of such affiliate specific written instructions authorizing it to do so. If any affiliate of ours submits bids for the notes in an offering utilizing Zions Direct's auction platform, the market-clearing interest rate or market-clearing price, as the case may be, may be higher due to the participation of such affiliate in the auction, which may benefit us.

Other Arrangements

For more information about the other methods of distribution we may utilize and possible market-making activities, see **Plan of Distribution** in the accompanying prospectus.

Table of Contents

VALIDITY OF THE NOTES

The validity of the notes offered by this prospectus supplement will be passed upon for us by Callister Nebeker & McCullough, a Professional Corporation, Salt Lake City, Utah. Certain matters relating to the offering may be passed upon for us by Sullivan & Cromwell LLP, Los Angeles, California. Sullivan & Cromwell LLP will rely upon the opinion of Callister Nebeker & McCullough as to matters of Utah law and Callister Nebeker & McCullough will rely upon the opinion of Sullivan & Cromwell LLP as to matters of New York law. The opinions of Sullivan & Cromwell LLP and Callister Nebeker & McCullough will be conditioned upon, and subject to certain assumptions regarding, future action to be taken by Zions, its board of directors, the Trustee and any authenticating agents in connection with the issuance and sale of any particular series of notes, the specific terms of the notes and other matters which may affect the validity of the notes but which cannot be ascertained on the date of such opinions. Sullivan & Cromwell LLP and Callister Nebeker & McCullough regularly perform legal services for Zions.

EXPERTS

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2011 and the effectiveness of our internal control over financial reporting as of December 31, 2011, as set forth in their reports, which are incorporated in this prospectus supplement by reference. Our consolidated financial statements and our management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2011 are incorporated by reference in reliance on Ernst & Young LLP's reports, given on their authority as experts in accounting and auditing.

As fully and unconditionally

guaranteed as described herein by Zions Bancorporation

Zions Bancorporation and the Issuer Trusts from time to time may offer to sell the securities listed above. The debt securities, warrants, rights, purchase contracts and preferred stock may be convertible into or exercisable or exchangeable for common or preferred stock or other securities of the Company or debt or equity securities of one or more other entities. The common stock of the Company is quoted on the Nasdaq Global Select Market under the symbol ZION.

Zions Bancorporation and the Issuer Trusts may offer and sell these securities to or through one or more underwriters, dealers and/or agents on a continuous or delayed basis.

This prospectus describes some of the general terms that may apply to these securities and the general manner in which they may be offered. The specific terms of any securities to be offered, and the specific manner in which they may be offered, will be described in one or more supplements to this prospectus. Such supplements may also add to, update or change information contained in this prospectus.

Investing in these securities involves risks. See Risk Factors section beginning on page 6 of this prospectus.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

These securities will not be savings accounts, deposits or other obligations of any bank or non-bank subsidiary of ours and are not insured by the Federal Deposit Insurance Corporation (the FDIC), the Board of Governors of the Federal Reserve System (the Federal Reserve Board) or any other governmental agency.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus is dated April 4, 2011.

Prospectus

ABOUT THIS PROSPECTUS

This document is called a prospectus, and it provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include a discussion of any risk factors or other special considerations that apply to those securities. The prospectus supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading **Where You Can Find More Information**.

Zions Bancorporation, a Utah corporation, also referred to in this document as Zions, and Zions Capital Trust C and Zions Capital Trust D, each a statutory trust created under the laws of the State of Delaware (each trust is also referred to as an Issuer Trust and together as the Issuer Trusts), have filed a registration statement with the Securities and Exchange Commission, or the SEC, using a shelf registration or continuous offering process. Under the shelf registration process, from time to time, Zions and the Issuer Trusts may offer and sell securities described in this prospectus or any combination of such securities in one or more offerings.

Our SEC registration statement containing this prospectus, including exhibits, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC's web site or at the SEC's offices. The SEC's web site and street addresses are provided under the heading **Where You Can Find More Information**.

When acquiring securities, you should rely only on the information provided in this prospectus and in the related prospectus supplement, including any information incorporated by reference. No one is authorized to provide you with different information. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is truthful or complete for any date other than the date indicated on the cover page of these documents.

We are not offering the securities in any state where the offer is prohibited. The distribution of this prospectus and any prospectus supplement and the offering of our securities in certain jurisdictions may be restricted by law. Persons into whose possession this prospectus and any prospectus supplement come should inform themselves about and observe any such restrictions. This prospectus and any prospectus supplement do not constitute, and may not be used in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

After the securities are issued, one or more of our subsidiaries, including Zions Direct, Inc. or Amegy Investments, Inc., may buy and sell any of the securities as part of their business as a broker-dealer. Those subsidiaries may use this prospectus and the related prospectus supplement in those transactions. Any sale by a subsidiary will be made at the prevailing market price at the time of sale.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus to **the Company**, **Zions**, **we**, **us**, **our** or similar references mean Zions Bancorporation and its subsidiaries.

Unless otherwise stated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars.

Zions® and Zions Bank® are registered service marks of Zions Bancorporation. All other service marks, trademarks and trade names referred to in this prospectus or any prospectus supplement are the property of their respective owners.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file at the SEC's public reference room in Washington, D.C. at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. In addition, our SEC filings are available to the public at the SEC's web site at <http://www.sec.gov>. However, information on this website does not constitute a part of this prospectus. You can also inspect reports, proxy statements and other information about us at the offices of the Nasdaq Global Select Market, 1735 K Street, N.W., Washington, D.C. 20006.

The SEC allows us to incorporate by reference information into this prospectus. This means that we can disclose important information to you by referring you to another document Zions has filed separately with the SEC that contains that information. The information incorporated by reference is considered to be part of this prospectus and any prospectus supplement. Information that Zions files with the SEC after the date of this prospectus and any prospectus supplement will automatically modify and supersede the information included or incorporated by reference in this prospectus and any prospectus supplement to the extent that the subsequently filed information modifies or supersedes the existing information.

We incorporate by reference:

our Annual Report on Form 10-K for the fiscal year ended December 31, 2010;

our Current Reports on Form 8-K filed on January 24, 2011, January 27, 2011, February 10, 2011 and February 15, 2011 (except in each case, any information that has been deemed to be furnished and not filed, and any exhibits related thereto);

the description of our common stock and rights set forth in our Current Report on Form 8-K filed on April 4, 2011 and any amendments or reports filed for the purpose of updating such description;

the description of our Series A Floating-Rate Non-Cumulative Perpetual Preferred Stock (Series A Preferred Stock), 9.50% Series C Non-Cumulative Perpetual Preferred Stock (Series C Preferred Stock) and Series E Fixed-Rate Resettable Non-Cumulative Perpetual Preferred Stock (Series E Preferred Stock) and respective rights set forth in Forms 8-A filed on December 7, 2006, July 9, 2008 and June 18, 2010, respectively, and any amendments or reports filed for the purpose of updating such descriptions;

and the description of the warrants set forth in our registration statement on Form 8-A, dated May 25, 2010, filed pursuant to Section 12 of the Securities Exchange Act of 1934, as amended (the Exchange Act), including any amendment or report filed with the SEC for the purpose of updating such description.

In addition, all reports and other documents we subsequently file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus and any prospectus supplement (other than any information furnished pursuant to Item 2.02 or Item 7.01 of any Current Report on Form 8-K unless we specifically state in such Current Report that such information is to be considered filed under the Exchange Act or we incorporate it by reference into a filing under the Securities Act of 1933, as amended (the Securities Act), or the Exchange Act) will be deemed to be incorporated by reference in this prospectus and any prospectus supplement and to be part of this prospectus and any prospectus supplement from the date of the filing of such reports and documents. Any statement contained in this prospectus, any prospectus supplement or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this prospectus and any prospectus supplement to the extent that a statement contained in any subsequently filed document which is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus or any prospectus supplement.

Table of Contents

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Statements in this prospectus, including information incorporated by reference, that are based on other than historical data are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others:

statements with respect to the beliefs, plans, objectives, goals, guidelines, expectations, anticipations and future financial condition, results of operations and performance of Zions Bancorporation and its subsidiaries; and

statements preceded by, followed by or that include the words may, could, should, would, believe, anticipate, estimate, expect, intend, plan, projects, or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing management's views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties and actual results may differ materially from those presented, either expressed or implied, in this prospectus, including the information incorporated by reference. You should carefully consider those risks and uncertainties in reading this prospectus. Factors that might cause such differences include, but are not limited to:

the Company's ability to successfully execute its business plans, manage its risks, and achieve its objectives;

changes in political and economic conditions, including without limitation the political and economic effects of the current economic crisis, delay of recovery from the current economic crisis, and other major developments, including wars, military actions and terrorist attacks;

changes in financial market conditions, either internationally, nationally or locally in areas in which the Company conduct its operations, including without limitation, reduced rates of business formation and growth, commercial and residential real estate development and real estate prices;

fluctuations in markets for equity, fixed-income, commercial paper and other securities, including availability, market liquidity levels, and pricing;

changes in interest rates, the quality and composition of the loan and securities portfolios, demand for loan products, deposit flows and competition;

acquisitions and integration of acquired businesses;

increases in the levels of losses, customer bankruptcies, bank failures, claims, and assessments;

changes in fiscal, monetary, regulatory, trade and tax policies and laws, and regulatory assessments and fees, including policies of the U.S. Department of Treasury (the U.S. Treasury), the Federal Reserve Board, and the FDIC;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

our participation or lack of participation in, or exit from, governmental programs implemented under the Emergency Economic Stabilization Act of 2008, as amended (EESA) and the American Recovery and Reinvestment Act (ARRA), including without limitation the Troubled Asset Relief Program (TARP) and the Capital Purchase Program (CPP) and the impact of such programs and related regulations on the Company and on international, national, and local economic and financial markets and conditions;

the impact of the EESA and the ARRA and related rules and regulations, and changes in those rules and regulations, on the business operations and competitiveness of the Company and that of other participating American financial institutions, including the impact of the executive compensation limits of these acts, which may impact the ability of the Company and that of other participating American financial institutions to retain and recruit executives and other personnel necessary for their businesses and competitiveness;

Table of Contents

the impact of the financial reform bill, known as the Dodd-Frank Wall Street Reform and Consumer Protection Act and rules and regulations thereunder most of which have not yet been promulgated;

new capital and liquidity requirements, which U.S. regulatory agencies are expected to establish in response to new international standards known as Basel III;

continuing consolidation in the financial services industry;

new litigation or changes in existing litigation;

success in gaining regulatory approvals, when required;

changes in consumer spending and savings habits;

increased competitive challenges and expanding product and pricing pressures among financial institutions;

demand for financial services in the Company's market areas;

inflation and deflation;

technological changes and the Company's implementation of new technologies;

the Company's ability to develop and maintain secure and reliable information technology systems;

legislation or regulatory changes which adversely affect the Company's operations or business;

the Company's ability to comply with applicable laws and regulations;

changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or regulatory agencies; and

increased costs of deposit insurance and changes with respect to FDIC insurance coverage levels.

We have identified some additional important factors that could cause future events to differ from our current expectations and they are described in this prospectus under the caption "Risk Factors," as well as in our most recent Annual Report on Form 10-K for the year ended December 31, 2010, including without limitation under the captions "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Quantitative and Qualitative Disclosures About Market Risk" and in other documents that we may file with the SEC, all of which you should review carefully.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Except to the extent required by law, the Company specifically disclaims any obligation to update any factors or to publicly announce the result of revisions to any of the forward-looking statements, including the information incorporated by reference, to reflect future events or developments.

Table of Contents

RISK FACTORS

We have included discussions of cautionary factors describing risks relating to our business and an investment in our securities in our Annual Report on Form 10-K for the year ended December 31, 2010, including without limitation under the captions Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures About Market Risk, which is incorporated by reference into this prospectus. See Where You Can Find More Information for an explanation of how to get a copy of this report. Additional risks related to our securities may also be described in a prospectus supplement. Before purchasing our securities, you should carefully consider the risk factors we describe in any prospectus supplement or in any report incorporated by reference into this prospectus or such prospectus supplement, including our Annual Report on Form 10-K for the year ended December 31, 2010. Although we discuss key risks in those risk factor descriptions, additional risks not currently known to us or that we currently deem immaterial also may impair our business. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.

Table of Contents

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement for any offering of securities, the net proceeds we receive from the sale of these securities will be used for general corporate purposes, which may include:

funding investments in, or extensions of credit to, our subsidiaries;

funding investments in non-affiliates;

reducing or refinancing debt;

redeeming outstanding securities;

financing possible acquisitions; and

working capital.

Pending such use, we may temporarily invest net proceeds. We will disclose any proposal to use the net proceeds from any offering of securities in connection with an acquisition in the prospectus supplement relating to such offering.

Each Issuer Trust will use the proceeds from any offering of capital securities to purchase the corresponding junior subordinated debentures issued by us. We expect to use the net proceeds from the sale of the subordinated debt securities to the Issuer Trusts as described above.

Table of Contents

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

*Please note that in this section entitled **Description of Debt Securities We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to **Zions Bancorporation** and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own debt securities registered in their own names, on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositaries. Owners of beneficial interests in the debt securities should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

*The following description summarizes the material provisions of the senior indenture, the subordinated indenture and the debt securities to be issued under these indentures. This description is not complete and is subject to, and is qualified in its entirety by reference to, the indenture under which the debt securities are issued and the Trust Indenture Act of 1939, as amended (the **Trust Indenture Act**). The specific terms of any series of debt securities will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. The senior indenture and the subordinated indenture have been filed as exhibits to the registration statement of which this prospectus forms a part. Whenever particular defined terms of the senior indenture or the subordinated indenture, each as supplemented or amended from time to time, are referred to in this prospectus or a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.*

Debt Securities May Be Senior or Subordinated

We may issue senior or subordinated debt securities. Unless we specify otherwise in the applicable prospectus supplement, neither the senior debt securities nor the subordinated debt securities will be secured by any property or assets of ours or of our subsidiaries. If you own an unsecured debt security, you are one of our unsecured creditors.

The senior debt securities and, in the case of senior debt securities in bearer form, any related interest coupons, will constitute part of our senior indebtedness, will be issued under the senior debt indenture described below and will rank on a parity with all of our other unsubordinated debt (except to the extent such other indebtedness is secured by collateral that does not also secure the senior debt securities offered by this prospectus).

The subordinated debt securities and, in the case of subordinated debt securities in bearer form, any related interest coupons, will constitute part of our subordinated debt, will be issued under the subordinated debt indenture described below and will be subordinate in right of payment to all of our senior indebtedness, as defined below under **Subordination Provisions**. Upon the occurrence of certain events of insolvency, the subordinated debt securities will be contractually subordinated to the prior payment in full of our general obligations, as defined under **Subordination Provisions**.

Neither indenture limits our ability to incur additional secured or unsecured senior or subordinated indebtedness.

When we use the terms **debt security** or **debt securities** in this description, we mean either the senior debt securities or the subordinated debt securities.

We Are A Holding Company

We are a holding company and a legal entity separate and distinct from our subsidiaries, and our right to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and

Table of Contents

the ability of holders of debt securities to benefit indirectly from such distribution, is subject to superior claims. Accordingly, our senior debt securities and subordinated debt securities will be structurally subordinated to all indebtedness and other liabilities, including trade payables and lease obligations, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. If we are entitled to participate in any assets of any of our subsidiaries upon the liquidation or reorganization of the subsidiary, the rights of holders of the senior debt securities and subordinated debt securities with respect to those assets will be subject to the contractual subordination of the subordinated debt securities.

The Senior Debt Indenture and the Subordinated Debt Indenture

The senior debt securities are governed by the senior debt indenture, and the subordinated debt securities are governed by the subordinated debt indenture. Each indenture is a contract between us and The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association, as trustee, which indenture may be supplemented from time to time as provided therein. The indentures are substantially identical, except for our covenants described under [Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks](#), which are included only in the senior debt indenture, the provisions relating to subordination, which are included only in the subordinated debt indenture, and the provisions relating to defaults and events of default.

The trustee under each indenture has two main roles:

first, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, which we describe later under [Events of Default and Defaults](#); and

second, the trustee performs administrative duties for us, such as sending you interest payments and notices. See [Our Relationship with the Trustee](#) below for more information about the trustee.

When we refer to the indenture or the trustee with respect to any debt securities, we mean the indenture under which those debt securities are issued and the trustee under that indenture.

We May Issue Many Debt Securities or Series of Debt Securities

We may issue as many debt securities or distinct series of debt securities under either indenture as we wish. This section summarizes terms of the debt securities that apply generally to all debt securities or series of debt securities. The provisions of each indenture allow us not only to issue debt securities with terms different from those of debt securities previously issued under that indenture, but also to reopen previously issued debt securities and issue additional debt securities of the same series as such debt securities, with the same CUSIP number, stated maturity, interest payment dates, if any, and other terms, except for the date of issuance and issue price. We will describe the financial and other specific terms of your debt securities in the applicable prospectus supplement. Those terms may vary from the terms described here.

As you read this section, please remember that the specific terms of your debt security as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. The statements we make in this section may not apply to your debt security.

Table of Contents

When we refer to a series of debt securities, we mean a series issued under the applicable indenture. When we refer to your prospectus supplement, we mean the prospectus supplement describing the specific terms of the debt security you purchase.

Amounts That We May Issue

Neither indenture limits the aggregate amount of debt securities that we may issue, whether secured or unsecured, or the number of series or the aggregate amount of any particular series of debt securities. We may issue debt securities, as well as increase the total authorized amount, at any time without your consent and without notifying you.

In addition, we have issued and have outstanding, and may in the future issue, junior subordinated debentures to certain financing trust affiliates, which will issue capital securities guaranteed by us on the same subordinated basis as the junior subordinated debentures. The junior subordinated debentures and related guarantees generally rank junior to the subordinated debt securities. The terms debt securities, senior debt securities and subordinated debt securities do not include the junior subordinated debentures or related guarantees.

We are not subject to financial or similar restrictions by the terms of the debt securities, except as described under **Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks** below. The indentures do not contain any covenants designed to afford holders of debt securities protection in the event of a highly leveraged transaction involving us.

Principal Amount, Stated Maturity and Maturity

Unless otherwise specified in the applicable prospectus supplement, the principal amount of a debt security means the principal amount payable at its stated maturity, unless such amount is not determinable, in which case the principal amount of a debt security is its face amount.

The term **stated maturity** with respect to any debt security means the day on which the principal amount of your debt security is scheduled to become due. The principal of your debt security may become due sooner, by reason of redemption or acceleration after an event of default or otherwise in accordance with the terms of your debt security. The day on which the principal of your debt security actually becomes due, whether at the stated maturity or otherwise, is called the maturity of the principal.

We also use the terms **stated maturity** and **maturity** to refer to the days when other payments become due. For example, we may refer to a regular interest payment date when an installment of interest is scheduled to become due as the **stated maturity** of that installment. When we refer to the **stated maturity** or the **maturity** of a debt security without specifying a particular payment, we mean the stated maturity or maturity, as the case may be, of the principal.

Governing Law

The indentures are, and the debt securities will be, governed by New York law.

Currency of Debt Securities

Unless otherwise specified in the applicable prospectus supplement, amounts that become due and payable on your debt security will be payable in U.S. dollars. You will have to pay for your debt securities by delivering

Table of Contents

the requisite amount for the principal, in U.S. dollars or other specified currency, to the underwriter or dealer that we name in the prospectus supplement related to your debt securities, unless other arrangements have been made between you and us or you and that dealer.

Types of Debt Securities

We may issue any of the three types of senior debt securities or subordinated debt securities described below. A debt security may have elements of each of the three types of debt securities described below. For example, a debt security may bear interest at a fixed rate for some periods and at a floating rate in others. Similarly, a debt security may provide for a payment of principal at maturity linked to an index and also bear interest at a fixed or floating rate.

Fixed Rate Debt Securities

A debt security of this type will bear interest at a fixed rate described in the applicable prospectus supplement. This type includes zero coupon debt securities, which bear no interest and are instead issued at a price lower than the principal amount. See Original Issue Discount Debt Securities below for more information about zero coupon and other original issue discount debt securities.

Each fixed rate debt security, except any zero coupon debt security, will bear interest from its original issue date or from the most recent date to which interest on the debt security has been paid or made available for payment. Interest will accrue on the principal of a fixed rate debt security at the fixed rate per annum stated in the applicable prospectus supplement, until the principal is paid or made available for payment. Each payment of interest due on an interest payment date or at maturity will include interest accrued from and including the last date to which interest has been paid, or made available for payment, or from the issue date if none has been paid, or made available for payment, to but excluding the interest payment date or the date of maturity. We will compute interest on fixed rate debt securities on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention). We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

If your debt security is a zero coupon debt security, the applicable prospectus supplement may specify the original issue discount and the information necessary to determine the accreted value. The accreted value will be (1) as of any date prior to the stated maturity, an amount equal to the sum of (A) the original issue price of your debt security and (B) the portion of the excess of the principal amount of your debt security over the original issue price that shall have been accreted from the original issue price on a daily basis and compounded annually on a date specified in the applicable prospectus supplement, up to and including the stated maturity, at a rate that will be specified in the applicable prospectus supplement from the original issue date, computed on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention); and (2) as of any date on or after the stated maturity, the principal amount of your debt security.

Floating Rate Debt Securities

A debt security of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. If your debt security is a floating rate debt security, the formula and any adjustments that apply to the interest rate will be specified in your prospectus supplement.

Each floating rate debt security will bear interest from its original issue date or from the most recent date to which interest on your debt security has been paid or made available for payment. Interest will accrue on the principal of a floating rate debt security at a rate per annum determined according to the interest rate formula

Table of Contents

stated in the applicable prospectus supplement, until the principal is paid or made available for payment. We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

Calculation Agent. Calculations relating to floating rate debt securities will be made by the calculation agent, an institution that we appoint as our agent for this purpose. That institution may include any affiliate of ours, such as Zions First National Bank. The prospectus supplement for a particular floating rate debt security will name the institution that we have appointed to act as the calculation agent for that debt security as of its original issue date. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the debt security without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you and us, without any liability on the part of the calculation agent.

Calculation of Interest. For each floating rate debt security, the calculation agent will determine, on the corresponding interest calculation or interest determination date, as described in the applicable prospectus supplement, the interest rate that takes effect on each interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period i.e., the period from and including an interest payment date (or with respect to the initial interest period, the original issue date) to but excluding the next succeeding interest payment date. For each interest period, the calculation agent will calculate the amount of accrued interest by multiplying the face amount of the floating rate debt security by an accrued interest factor for the interest period. Unless we specify otherwise in the applicable prospectus supplement, this factor will be equal to the number of days in the applicable interest period divided by 360 (Actual/360 (ISDA) day count convention).

Upon the request of the holder of any floating rate debt security, the calculation agent will provide for that debt security the interest rate then in effect, and, if determined, the interest rate that will become effective on the next interest reset date.

All percentages resulting from any calculation relating to any debt security will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point, e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). All amounts used in or resulting from any calculation relating to a floating rate debt security will be rounded upward or downward, as appropriate, to the nearest cent, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward.

In determining the base rate that applies to a floating rate debt security during a particular interest period, the calculation agent may obtain rate quotes from various reference banks or dealers active in the relevant market, as described in the applicable prospectus supplement. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any underwriter, dealer or agent participating in the distribution of the relevant floating rate debt securities and its affiliates, and they may include our affiliates.

Indexed Debt Securities

A debt security of this type provides that the principal amount payable at its maturity, and/or the amount of interest payable on an interest payment date, will be determined by reference to

securities of one or more issuers;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance;

Table of Contents

one or more indices; and/or

one or more baskets of the items described above.

An indexed debt security may provide either for cash settlement or for physical settlement by delivery of the underlying security or another property of the type listed above. An indexed debt security may also provide that the form of settlement may be determined at our option or at the holder's option. Some indexed debt securities may be exchangeable, at our option or the holder's option, for securities of an issuer other than us.

If you purchase an indexed debt security, your prospectus supplement will include information about the relevant index or indices, about how amounts that are to become payable will be determined by reference to the price or value of that index and about the terms on which the security may be settled physically or in cash. Your prospectus supplement will also identify the calculation agent that will calculate the amounts payable with respect to the indexed debt security and will have sole discretion in doing so. The calculation agent may be one of our affiliates. See *Considerations Relating to Indexed Securities* for more information about risks of investing in debt securities of this type.

Original Issue Discount Debt Securities

A fixed rate debt security, a floating rate debt security or an indexed debt security may be an original issue discount debt security. A debt security of this type is issued at a price lower than its principal amount and may provide that, upon redemption or acceleration of its maturity, an amount less than its principal amount may be payable. An original issue discount debt security may be a zero coupon debt security. A debt security issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount debt security, regardless of the amount payable upon redemption or acceleration of maturity. See *United States Taxation Taxation of Debt Securities United States Holders Original Issue Discount* below for a brief description of the U.S. federal income tax consequences of owning an original issue discount debt security.

Form of Debt Securities

We will issue each debt security in global (i.e., book-entry) form only, unless we specify otherwise in the applicable prospectus supplement. Debt securities in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the debt securities represented by the global security. Those who own beneficial interests in a global debt security will do so through participants in the depository's securities clearing system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities under *Legal Ownership and Book-Entry Issuance*.

In addition, we will issue each debt security in registered form, without coupons, unless the conditions for issuance of bearer securities described under *Securities Issued in Bearer Form* are met and we choose to issue the debt security in bearer form. We describe bearer securities under *Securities Issued in Bearer Form*. As we note in that section, some of the features that we describe in this section entitled *Description of Debt Securities We May Offer* may not apply to bearer securities.

Information in Your Prospectus Supplement

Your prospectus supplement will describe the specific terms of your debt security, which will include some or all of the following, as applicable:

whether it is a senior debt security or a subordinated debt security;

the aggregate principal amount of your debt security or the debt securities of the same series, as applicable;

Table of Contents

the stated maturity;

the specified currency or currencies for principal and interest and, if the specified currency is not U.S. dollars, certain other terms relating to your debt security;

the issue price at which we originally issue your debt security, expressed as a percentage of the principal amount, and the original issue date;

whether your debt security is a fixed rate debt security, a floating rate debt security or an indexed debt security or any combination thereof and also whether it is an original issue discount debt security;

if your debt security is a fixed rate debt security, the rate per annum at which your debt security will bear interest, if any, and the interest payment dates;

if your debt security is a floating rate debt security, the interest rate basis; any applicable index currency or index maturity, spread or spread multiplier or initial base rate, maximum or minimum rate; the interest reset, determination, calculation and payment dates; the day count convention used to calculate interest payments; and the calculation agent;

if your debt security is an original issue discount debt security, the yield to maturity;

if your debt security is an indexed debt security, the principal amount, if any, we will pay you at maturity, the amount of interest, if any, we will pay you on an interest payment date or the formula we will use to calculate these amounts, if any, and the terms on which your debt security will be exchangeable for or payable in cash, securities or other property;

if your debt security may be converted into or exercised or exchanged for common stock or preferred stock or other securities of Zions Bancorporation or debt or equity securities of one or more third parties, the terms on which conversion, exercise or exchange may occur, including whether conversion, exercise or exchange is mandatory, at the option of the holder or at our option, the period during which conversion, exercise or exchange may occur, the initial conversion, exercise or exchange price or rate and the circumstances or manner in which the amount of common stock or preferred stock or other securities issuable upon conversion, exercise or exchange may be adjusted;

the circumstances under which your debt security may be redeemed at our option or repaid at the holder's option before the stated maturity including any redemption commencement date, repayment date(s), redemption price(s) and redemption period(s);

the authorized denominations, if other than \$1,000 and integral multiples of \$1,000 in excess thereof;

the depository for your debt security, if other than DTC, and any circumstances under which the holder may request securities in non-global form, if we choose not to issue your debt security in book-entry form only;

if your debt security will be issued in bearer form, any special provisions relating to bearer securities that are not addressed in this prospectus;

the circumstances under which we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes and under which we can redeem the debt securities if we have to pay additional amounts;

the names and duties of any co-trustees, depositaries, authenticating agents, paying agents, transfer agents or registrars for your debt securities;

the terms and conditions, if any, pursuant to which the debt securities of a series are secured; and

any other terms of your debt security which could be different from those described in this prospectus.

Your prospectus supplement will summarize specific financial and other terms of your debt security, while this prospectus describes terms that apply generally to all the debt securities. Consequently, the terms described

Table of Contents

in your prospectus supplement will supplement those described in this prospectus and, if the terms described there are inconsistent with those described here, the terms described there will be controlling. The terms used in your prospectus supplement have the meanings described in this prospectus, unless otherwise specified.

Redemption and Repayment

Unless otherwise indicated in your prospectus supplement, your debt security will not be entitled to the benefit of any sinking fund that is, we will not deposit money on a regular basis into any separate custodial account to repay your debt securities. In addition, we will not be entitled to redeem your debt security before its stated maturity unless your prospectus supplement specifies a redemption commencement date. You will not be entitled to require us to buy your debt security from you, before its stated maturity, unless your prospectus supplement specifies one or more repayment dates.

If your prospectus supplement specifies a redemption commencement date or a repayment date, it will also specify one or more redemption prices or repayment prices, which may be expressed as a percentage of the principal amount of your debt security. It may also specify one or more redemption periods during which the redemption prices relating to a redemption of debt securities during those periods will apply.

If your prospectus supplement specifies a redemption commencement date, your debt security will be redeemable at our option at any time on or after that date or at a specified time or times. If we redeem your debt security, we will do so at the specified redemption price, together with interest accrued to but excluding the redemption date. If different prices are specified for different redemption periods, the price we pay will be the price that applies to the redemption period during which your debt security is redeemed.

If your prospectus supplement specifies a repayment date, your debt security will be repayable at your option on the specified repayment date at the specified repayment price, together with interest accrued to but excluding the repayment date.

If we exercise an option to redeem any debt security, we will give to the trustee and the holder written notice of the principal amount of the debt security to be redeemed, not less than 30 days nor more than 60 days before the applicable redemption date. We will give the notice in the manner described below in Notices.

If a debt security represented by a global debt security is subject to repayment at the holder's option, the depository or its nominee, as the holder, will be the only person that can exercise the right to repayment. Any indirect owners who own beneficial interests in the global debt security and wish to exercise a repayment right must give proper and timely instructions to their banks or brokers through which they hold their interests, requesting that they notify the depository to exercise the repayment right on their behalf. Different firms have different deadlines for accepting instructions from their customers, and you should take care to act promptly enough to ensure that your request is given effect by the depository before the applicable deadline for exercise.

Street name and other indirect owners should contact their banks or brokers for information about how to exercise a repayment right in a timely manner.

We or our affiliates may purchase debt securities from investors who are willing to sell from time to time, either in the open market at prevailing prices or in private transactions at negotiated prices. Debt securities that we or they purchase may, at our discretion, be held, resold or canceled.

Mergers and Similar Transactions

We are generally permitted to merge or consolidate with another corporation or other entity. We are also permitted to sell our assets substantially as an entirety to another corporation or other entity or to have another

Table of Contents

entity sell its assets substantially as an entirety to us. With regard to any series of debt securities, however, we may not take any of these actions unless all of the following conditions are met:

if we are not the successor entity, the person formed by the consolidation or into or with which we merge or the person to which our properties and assets are conveyed, transferred or leased must be an entity organized and existing under the laws of the United States, any state or the District of Columbia and must expressly assume the due and punctual payment of the principal of, any premium, and interest on the debt securities of that series and the performance of our other covenants under the relevant indenture;

immediately after giving effect to that transaction, no default or event of default under the debt securities of that series, and no event which, after notice or lapse of time or both, would become a default or an event of default under the debt securities of that series, has occurred and is continuing; and

an officer's certificate and legal opinion relating to these conditions must be delivered to the trustee.

If the conditions described above are satisfied with respect to the debt securities of any series, we will not need to obtain the approval of the holders of those debt securities in order to merge or consolidate or to sell our assets. Also, these conditions will apply only if we wish to merge or consolidate with another entity or sell our assets substantially as an entirety to another entity or to acquire the assets of another entity substantially as an entirety. We will not need to satisfy these conditions if we enter into other types of transactions, including any transaction in which we acquire the stock or assets of another entity, any merger of another entity with one of our subsidiaries, any transaction that involves a change of control of us but in which we do not merge or consolidate and any transaction in which we sell less than substantially all our assets.

Also, if we merge, consolidate or sell our assets substantially as an entirety and the successor is a non-U.S. entity, neither we nor any successor would have any obligation to compensate you for any resulting adverse tax consequences relating to your debt securities.

Subordination Provisions

The subordinated debt securities are subordinated in right of payment to the prior payment in full of all of our senior indebtedness and, under specified circumstances, to our general obligations. This means that, in certain circumstances where we may not be making payments on all of our debt obligations as they become due, the holders of all of our senior indebtedness and general obligations will be entitled to receive payment in full of all amounts due or to become due to them before the holders of the subordinated debt securities will be entitled to receive any amounts under the subordinated debt securities. These circumstances include when we make a payment or distribute assets to creditors upon our liquidation, dissolution, winding up or reorganization.

These subordination provisions mean that if we are insolvent, a direct holder of our senior indebtedness may ultimately receive out of our assets more than a holder of the same amount of subordinated debt securities, and a senior creditor of ours that is owed a specific amount may ultimately receive more than a holder of the same amount of subordinated debt securities. The subordinated debt indenture does not limit our ability to incur senior or subordinated indebtedness or general obligations, including indebtedness ranking on an equal basis with the subordinated debt securities.

The subordinated debt indenture provides that, unless all principal of and any premium or interest on senior indebtedness has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for the benefit of creditors or other similar proceedings or events involving us or our assets;

Table of Contents

(a) in the event and during the continuation of any default in the payment of principal, premium or interest on any senior indebtedness beyond any applicable grace period or (b) in the event that any judicial proceeding is pending with respect to any such default; or

in the event that any subordinated debt securities have been declared due and payable before their stated maturity.

If the trustee under the subordinated debt indenture or any holders of the subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, and if this fact is made known to the trustee or holders at or prior to the time of such payment or distribution, then the trustee or the holders will have to repay that money to us.

Further, in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for the benefit of creditors or other similar proceedings or events involving us or our assets, any creditors in respect of general obligations, which we define below, will be entitled to receive payment in full of all amounts due or to become due on or in respect of such general obligations after payment in full to the holders of senior indebtedness, before any amount is made available for payment or distribution to the holders of any subordinated debt security. However, upon the occurrence of a termination event, which we define below, such subordination to the creditors in respect of general obligations will become null and void and have no further effect.

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under the subordinated debt indenture and the holders of that series can take action against us, but they will not receive any money until the claims of the holders of senior indebtedness have been fully satisfied.

The subordinated debt indenture allows the holders of senior indebtedness to obtain a court order requiring us and any holder of subordinated debt securities to comply with the subordination provisions.

The subordinated debt indenture defines senior indebtedness as:

the principal of, and premium, if any, and interest in respect of our indebtedness for purchased or borrowed money, whether or not evidenced by securities, notes, debentures, bonds or other similar instruments issued by us;

all our capital lease obligations;

all our obligations issued or assumed as the deferred purchase price of property, all our conditional sale obligations and all our obligations under any conditional sale or title retention agreement, but excluding trade accounts payable in the ordinary course of business;

all our obligations in respect of any letters of credit, bankers acceptance, security purchase facilities and similar credit transactions;

all our obligations in respect of interest rate swap, cap or other agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts and other similar agreements;

all obligations of other persons of the type referred to in the bullets above the payment of which we are responsible or liable for as obligor, guarantor or otherwise;

all obligations of the type referred to in the bullets above of other persons secured by any lien on any of our properties or assets whether or not we assume such obligation; and

any deferrals, renewals or extensions of any such senior indebtedness.

Table of Contents

However, senior indebtedness does not include:

the subordinated debt securities;

any indebtedness that by its terms is subordinated to, or ranks on an equal basis with, the subordinated debt securities, including our 5.50% Subordinated Notes due November 16, 2015, our 5.65% Subordinated Notes due May 15, 2014, our 6.0% Subordinated Notes due September 15, 2015, our 2009 5.50% Subordinated Notes due 2015, our 2009 5.65% Subordinated Notes due 2014, our 2009 6.0% Subordinated Notes due 2015, our Floating Rate Subordinated Notes due September 22, 2014, and our debentures or guarantees of debentures underlying each of Zions Capital Trust B's 8% Capital Securities due September 1, 2032, Stockmen's Statutory Trust II's Floating Rate Capital Securities due March 26, 2033, and Stockmen's Statutory Trust III's Floating Rate Capital Securities due March 17, 2034; and

any indebtedness between or among us and our affiliates, including all other debt securities and guarantees in respect of debt securities issued to any trust, or a trustee of such trust, partnership or other entity affiliated with us which is a financing vehicle of ours in connection with the issuance by such financing vehicle of capital securities or other securities guaranteed by us pursuant to an instrument that ranks on an equal basis with or junior in respect of payment to the subordinated debt securities.

The subordinated debt indenture defines general obligations as all our obligations to make payments on account of claims of general creditors, other than:

obligations on account of senior indebtedness; and

obligations on account of the subordinated debt securities and indebtedness for money borrowed ranking on an equal basis with or junior to the subordinated debt securities.

However, if the Federal Reserve Board (or other federal banking supervisor that is at the time of determination our primary federal banking supervisor) promulgates any rule or issues any interpretation defining or describing the term general creditor or general creditors or senior indebtedness for purposes of its criteria for the inclusion of subordinated debt of a bank holding company in capital, or otherwise defining or describing the obligations to which subordinated debt of a bank holding company must be subordinated to be included in capital, to include any obligations not included in the definition of senior indebtedness as described above, then the term general obligations will mean such obligations as defined or described in the first such rule or interpretation, other than obligations as described immediately above in bullet points.

Termination event means the promulgation of any rule or regulation or the issuance of any interpretation of the Federal Reserve Board (or other federal banking supervisor that is at the time of determination our primary federal banking supervisor) that:

defines or describes the terms general creditor or general creditors or senior indebtedness for purposes of its criteria for the inclusion of subordinated debt of a bank holding company in capital, or otherwise defines or describes the obligations to which subordinated debt of a bank holding company must be subordinated for the debt to be included in capital, to include no obligations other than those covered by the definition of senior indebtedness without regard to any of our other obligations;

permits us to include the subordinated debt securities in our capital if they were subordinated in right of payment to the senior indebtedness without regard to any of our other obligations;

otherwise eliminates the requirement that subordinated debt of a bank holding company and its subsidiaries must be subordinated in right of payment to the claims of its general creditors in order to be included in capital; or

causes the subordinated debt securities to be excluded from capital notwithstanding the provisions of the subordinated debt indenture.

Table of Contents

Termination event also means any event that results in our not being subject to capital requirements under the rules, regulations or interpretations of the Federal Reserve Board (or other federal banking supervisor).

Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks

With respect to the senior debt securities, we have agreed that we will not, and will not permit any subsidiary to, sell, assign, pledge, transfer, or otherwise dispose of, any shares of capital stock, or any securities convertible into shares of capital stock, of any major constituent bank, which we define below, or any subsidiary owning, directly or indirectly, any shares of capital stock of any major constituent bank. In addition, with respect to the senior debt securities, we have agreed that we will not permit any major constituent bank or any subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank to issue any shares of its capital stock or any securities convertible into shares of its capital stock. Notwithstanding the foregoing, we are permitted to make sales, assignments, transfers or other dispositions which:

are for the purpose of qualifying a person to serve as a director; or

are for fair market value, as determined by our board, and, after giving effect to those dispositions and to any potential dilution, we will own not less than 80% of the shares of capital stock of the major constituent bank in question or any subsidiary owning any shares of capital stock of the major constituent bank in question; or

are made

in compliance with court or regulatory authority order; or

in compliance with a condition imposed by any court or regulatory authority permitting our acquisition of any other bank or entity; or

in compliance with an undertaking made to any regulatory authority in connection with such an acquisition described in the immediately preceding bullet; or

to us or any wholly-owned subsidiary;

provided, in the case of the bullet-points relating to acquisitions, the assets of the bank or entity being acquired and its consolidated subsidiaries equal or exceed 75% of the assets of the major constituent bank in question or the subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank and its respective consolidated subsidiaries on the date of acquisition.

Despite the above requirements, any major constituent bank may be merged into or consolidated with, or may lease, sell or transfer all or substantially all of its assets to, another entity if, after giving effect to that merger, consolidation, sale or transfer, we or any of our wholly-owned subsidiaries owns at least 80% of the capital stock of the other entity, or if such merger, consolidation, sale or transfer is made:

in compliance with court or regulatory authority order; or

in compliance with a condition imposed by any court or regulatory authority permitting our acquisition of any other bank or entity;
or

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

in compliance with an undertaking made to any regulatory authority in connection with such an acquisition described in the immediately preceding bullet;
provided, in the case of the bullet-points relating to acquisitions, the assets of the bank or entity being acquired and its consolidated subsidiaries equal or exceed 75% of the assets of the major constituent bank in question or the subsidiary owning, directly or indirectly, any shares of capital stock of a major constituent bank and its respective consolidated subsidiaries on the date of acquisition.

Table of Contents

A major constituent bank is defined in the senior debt indenture to mean any subsidiary which is a bank and has total assets equal to 30% or more of our consolidated assets determined on the date of our most recent audited financial statements. As of the date of this prospectus, and based on our audited financial statements for the year ended December 31, 2010, our subsidiary, Zions First National Bank, would be considered a major constituent bank.

The above covenants are not covenants for the benefit of any series of subordinated debt securities.

Defeasance and Covenant Defeasance

Unless we say otherwise in the applicable prospectus supplement, the provisions for full defeasance and covenant defeasance described below apply to each senior and subordinated debt security as indicated in the applicable prospectus supplement.

Full Defeasance

If there is a change in U.S. federal tax law, as described below, we can legally release ourselves from all payment and other obligations on any debt securities. This is called full defeasance. For us to do so, each of the following must occur:

we must deposit in trust for the benefit of all holders of those debt securities money or a combination of money and U.S. government or U.S. government agency notes or bonds that, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the trustee, will generate enough cash to make interest, principal and any other payments on those debt securities on their various due dates;

there must be a change in current U.S. federal tax law or an Internal Revenue Service ruling that lets us make the above deposit without causing the holders to recognize gain or loss for federal income tax purposes as a result of such deposit and full defeasance to be effected with respect to such securities or be taxed on those debt securities any differently than if such deposit and full defeasance were not to occur;

we must deliver to the trustee a legal opinion of our counsel confirming the tax law change described above;

we must confirm that neither the debt securities nor any securities of the same series, if listed on any securities exchange, will be delisted as a result of depositing such amount in trust;

no default or event of default, as defined below and as applicable under the relevant indenture for such series of securities, shall have occurred and be continuing at the time of such deposit or, with regard to an event of default relating to certain events of bankruptcy, insolvency, reorganization or the appointment of a receiver by us or any major constituent bank, on the date of the deposit referred to above or during the 90 days after that date;

such defeasance will not cause the trustee to have a conflicting interest within the meaning of the Trust Indenture Act, assuming all securities are in default within the meaning of the Trust Indenture Act;

such defeasance will not result in a breach or violation of, or constitute a default under, any other agreement or instrument by which we are bound;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

such defeasance will not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended (the Investment Company Act), unless such trust shall be registered or exempt from registration thereunder;

in the case of the subordinated debt securities, no event or condition may exist that, under the provisions described under Subordination Provisions above, would prevent us from making

Table of Contents

payments of interest, principal and any other payments on those subordinated debt securities on the date of the deposit referred to above or during the 90 days after that date; and

we must deliver to the trustee an officers' certificate and a legal opinion of our counsel confirming that all conditions precedent with respect to such defeasance described above have been complied with.

If we ever fully defease your debt security, you will need to rely solely on the trust deposit for payments on your debt security. You could not look to us for payment in the event of any shortfall.

Covenant Defeasance

Under current U.S. federal tax law, we can make the same type of deposit described above and be released from the covenants described under *Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks* above and certain other covenants relating to your debt security as provided for in the relevant indenture or described in your prospectus supplement. This is called covenant defeasance. In that event, you would lose the protection of those covenants. In the case of subordinated debt securities, you would be released from the subordination provisions on your subordinated debt security described under *Subordination Provisions* above. In order to achieve covenant defeasance for any debt securities, we must satisfy substantially the same conditions specified above for full defeasance, except with regard to the second bullet point above, which for covenant defeasance requires only a legal opinion of our counsel delivered to the trustee confirming that the holders of such securities will not recognize gain or loss for federal income tax purposes as a result of such deposit and covenant defeasance to be effected with respect to such securities or be taxed on those debt securities any differently than if such deposit and covenant defeasance were not to occur.

If we accomplish covenant defeasance with regard to your debt security, the following provisions, among others, of the applicable indenture and your debt security would no longer apply:

if your debt security is a senior debt security, our promise not to take certain actions with respect to our major constituent banks as described above under *Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks*;

any covenants that your prospectus supplement may state are applicable to your debt security;

the events of default resulting from a breach of covenants, described below under *Events of Default and Defaults*; and

with respect to subordinated debt securities, the subordination provisions described under *Subordination Provisions* above.

If we accomplish covenant defeasance on your debt security, you can still look to us for repayment of your debt security in the event of any shortfall in the trust deposit. You should note, however, that if one of the remaining events of default occurred, such as our bankruptcy, and your debt security became immediately due and payable, there may be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Events of Default and Defaults

You will have special rights if a default or an event of default with respect to your debt security occurs and is not cured, as described in this subsection. You should note that under each indenture, we may change, eliminate, or add to provisions related to defaults or events of default with respect to any particular series or any particular debt security or debt securities within a series, under certain circumstances. Any such changes will be described in the prospectus supplement applicable to your debt security.

Table of Contents

Events of Default under the Senior Debt Indenture

When we refer to an event of default with respect to any series of senior debt securities, we mean any of the following:

failure to pay principal of or any premium on any senior debt security of that series when due;

failure to pay any interest on any senior debt security of that series when due and that default continues for 30 days;

failure to deposit any sinking fund payment, when and as due by the terms of any senior debt security of that series;

failure to perform any other covenant in the senior debt indenture and that failure continues for 60 days after written notice to us by the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding senior debt securities;

our filing for bankruptcy or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank;

failure to pay any portion of the principal when due of any indebtedness of ours or any major constituent bank in excess of \$25,000,000, or acceleration of the maturity of any such indebtedness exceeding that amount if acceleration results from a default under the instrument giving rise to that indebtedness and is not annulled within 60 days after due notice (*provided* that any such failure or acceleration shall not be deemed to be an event of default if and for so long as we or the applicable major constituent bank contests the validity of the failure or acceleration in good faith by appropriate proceedings); and

any other event of default provided with respect to senior debt securities of that series which will be described in the applicable prospectus supplement for that series.

Events of Default and Defaults under the Subordinated Debt Indenture

When we refer to an event of default with respect to any series of subordinated debt securities, we mean:

our filing for bankruptcy or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank.

When we refer to a default with respect to any series of subordinated debt securities, we mean:

failure to pay principal of or any premium on any subordinated debt security of that series when due;

failure to pay any interest on any subordinated debt security of that series when due and that default continues for 30 days;

failure to deposit any sinking fund payment, when and as due by the terms of any subordinated debt security of that series;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

failure to perform any other covenant in the subordinated debt indenture and that failure continues for 60 days after written notice to us by the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding subordinated debt securities;

any event of default; and

any other default provided with respect to subordinated debt securities of that series which will be described in the applicable prospectus supplement for that series.

Remedies upon an Event of Default or Default

If an event of default occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the relevant outstanding debt securities may accelerate the maturity of such debt securities.

Table of Contents

Additionally, the senior debt indenture provides that in the event of the filing for bankruptcy by us or any major constituent bank or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or any major constituent bank, the maturity of the outstanding senior debt securities will accelerate automatically. After acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of the relevant outstanding debt securities may, under circumstances set forth in the relevant indenture, rescind the acceleration if we have deposited monies on account of certain overdue amounts with the trustee.

With respect to subordinated debt securities, if a default occurs that is not also an event of default with respect to the subordinated debt securities, neither the trustee nor the holders of subordinated debt securities may act to accelerate the maturity of the subordinated debt securities. However, if a default occurs, the trustee may proceed to enforce any covenant and other rights of the holders of the subordinated debt securities, and if the default relates to our failure to make any payment of interest when due and payable and such default continues for a period of 30 days or such default is made in the payment of the principal or any premium at its maturity, then the trustee may demand payment of the amounts then due and payable and may proceed to prosecute any failure on our part to make such payments.

Subject to the provisions of the relevant indenture relating to the duties of the trustee in case an event of default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the relevant indenture at the request or direction of any of the holders of the debt securities issued thereunder, unless the holders of such debt securities shall have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the relevant outstanding debt securities will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

Before you may take any action to institute any proceeding relating to the indenture, or to appoint a receiver or a trustee, or for any other remedy, each of the following must occur:

you must have given the trustee written notice of a continuing event of default or defaults;

the holders of at least 25% of the aggregate principal amount of all relevant outstanding debt securities of your series must make a written request of the trustee to take action because of the event of default or default, as the case may be, and must have offered reasonable indemnification to the trustee against the cost, liabilities and expenses of taking such action;

the trustee must not have taken action for 60 days after receipt of such notice and offer of indemnification; and

no contrary notice shall have been given to the trustee during such 60-day period by the holders of a majority in aggregate principal amount of the securities of your series.

These limitations do not apply to a suit for the enforcement of payment of the principal of or any premium or interest on a security on or after the due dates for such payments.

We will furnish to the trustee annually a statement as to our performance of our obligations under the indentures and as to any default in performance.

Book-entry and other indirect owners should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of the maturity. Book-entry and other indirect owners are described under Legal Ownership and Book-Entry Issuance below.

Table of Contents

Modification of the Indentures and Waiver of Covenants

Certain limited modifications of the indentures may be made without obtaining the consent of the holders of the relevant debt securities. Other modifications and amendments of the indentures may be made only with the consent of the holders of 66 2/3% in principal amount of the outstanding debt securities affected by those modifications and amendments. However, a modification or amendment affecting securities issued under the senior debt indenture or the subordinated debt indenture requires the consent of the holder of each outstanding debt security under the relevant indenture affected if it would:

change the stated maturity of the principal or interest of any security;

reduce the principal amounts of, any premium or interest on, any security or change the currency in which any such amounts are payable;

change the place of payment on a security;

impair the right to institute suit for the enforcement of any payment on any security on or after its stated maturity or redemption date;

reduce the percentage of holders whose consent is needed to modify or amend the indenture;

reduce the percentage of holders whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;

modify the provisions with respect to subordination of the subordinated debt securities in a manner adverse to the holders of those securities; or

modify the provisions dealing with modification and waiver of the indenture.

In addition, no modification or amendment to the subordinated debt indenture that affects the superior position of the holders of senior indebtedness shall be effective against any holder of senior indebtedness unless the holder shall have consented to the modification or amendment.

The holders of 66 2/3% in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all securities of that series, waive compliance by us with certain restrictive provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all securities of that series, waive any past default, except a default in the payment of principal or interest, and defaults in respect of a covenant or provision which cannot be modified or amended without the consent of each holder of each outstanding debt security affected.

We will generally be entitled to set any day as a record date for the purpose of determining the holders of relevant outstanding debt securities that are entitled to take any action under the relevant indenture. In limited circumstances, the trustee will be entitled to set a record date for action by holders of the relevant debt securities. If a record date is set for any action to be taken by holders of debt securities, such action may be taken only by persons who are holders of relevant outstanding debt securities on the record date and must be taken within 180 days following the record date or such other period as we may specify (or as the trustee may specify, if it set the record date). This period may be shortened or lengthened (but not beyond 180 days) from time to time.

Book-entry and other indirect owners should consult their banks or brokers for information on how approval may be granted or denied if we seek to change an indenture or any debt securities or request a waiver.

Special Rules for Action by Holders

When holders take any action under either indenture, such as giving a notice of default, declaring an acceleration, approving any change or waiver or giving the trustee an instruction, we will apply the following rules.

Table of Contents

Only Outstanding Debt Securities Are Eligible

Only holders of outstanding debt securities or the outstanding debt securities of the applicable series, as applicable, will be eligible to participate in any action by holders of such debt securities or the debt securities of that series. Also, we will count only outstanding debt securities in determining whether the various percentage requirements for taking action have been met. For these purposes, a debt security will not be outstanding if:

it has been surrendered for cancellation;

we have deposited or set aside, in trust for its holder, money for its payment or redemption;

we have fully defeased it as described above under Defeasance and Covenant Defeasance Full Defeasance; or

we or one of our affiliates is the beneficial owner.

Eligible Principal Amount of Some Debt Securities

In some situations, we may follow special rules in calculating the principal amount of a debt security that is to be treated as outstanding for the purposes described above. This may happen, for example, if the principal amount increases over time or is not to be fixed until maturity.

For any debt security of the kind described below, we will decide how much principal amount to attribute to the debt security as follows:

for an original issue discount debt security, we will use the principal amount that would be due and payable on the action date if the maturity of the debt security were accelerated to that date because of a default;

for a debt security whose principal amount is not known, we will use any amount that we indicate in the prospectus supplement for that debt security. The principal amount of a debt security may not be known, for example, because it is based on an index that changes from time to time and the principal amount is not to be determined until a later date; or

for debt securities with a principal amount denominated in one or more non-U.S. dollar currencies or currency units, we will use the U.S. dollar equivalent, which we will determine.

Form, Exchange and Transfer of Debt Securities in Registered Form

If any debt securities cease to be issued in registered global form, they will be issued as follows unless we indicate otherwise in your prospectus supplement:

only in fully registered form;

without interest coupons; and

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof.

Holders may exchange their debt securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. You may not exchange your debt securities for securities of a different series or having different terms, unless your prospectus supplement says you may.

Holders may exchange or transfer their debt securities at the office of the trustee. They may also replace lost, stolen, destroyed or mutilated debt securities at that office. We have appointed the trustee to act as our agent for registering debt securities in the names of holders and transferring and replacing debt securities. We may appoint another entity to perform these functions or perform them ourselves.

Table of Contents

Holders will not be required to pay a service charge to transfer or exchange their debt securities, but they may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange, and any replacement, will be made only if our transfer agent is satisfied with the holder's proof of legal ownership. The transfer agent may require an indemnity before replacing any debt securities.

If we have designated additional transfer agents for your debt security, they will be named in your prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If the debt securities of any series are redeemable and we redeem less than all those debt securities, we may block the transfer or exchange of those debt securities during the period beginning 15 calendar days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any debt security selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed.

If a debt security is issued as a global debt security, only the depositary, e.g. DTC, Euroclear or Clearstream, will be entitled to transfer and exchange the debt security as described in this subsection, since the depositary will be the sole holder of the debt security.

The rules for exchange described above apply to exchange of debt securities for other debt securities of the same series and kind. If a debt security is convertible, exercisable or exchangeable into or for a different kind of security, such as one that we have not issued, or for other property, the rules governing that type of conversion, exercise or exchange will be described in the applicable prospectus supplement.

Payment Mechanics for Debt Securities in Registered Form

Who Receives Payment?

If interest is due on a debt security on an interest payment date, we will pay the interest to the person in whose name the debt security is registered at the close of business on the regular record date relating to the interest payment date as described under **Payment and Record Dates for Interest** below. If interest is due at maturity but on a day that is not an interest payment date, we will pay the interest to the person entitled to receive the principal of the debt security. If principal or another amount besides interest is due on a debt security at maturity, we will pay the amount to the holder of the debt security against surrender of the debt security at a proper place of payment or, in the case of a global debt security, in accordance with the applicable policies of the depositary, DTC, Euroclear or Clearstream, as applicable.

Payment and Record Dates for Interest

Unless we specify otherwise in the applicable prospectus supplement, interest on any fixed rate debt security will be payable semiannually each February 15 and August 15 and at maturity, and the regular record date relating to an interest payment date for any fixed rate debt security will be the February 1 or August 1 next preceding that interest payment date. Unless we specify otherwise in the applicable prospectus supplement, the regular record date relating to an interest payment date for any floating rate debt security will be the 15th calendar day before that interest payment date. These record dates will apply regardless of whether a particular record date is a business day, as defined below. For the purpose of determining the holder at the close of business on a regular record date when business is not being conducted, the close of business will mean 5:00 P.M., New York City time, on that day.

Unless we specify otherwise in this prospectus or in the applicable prospectus supplement, the term **days** refers to calendar days.

Table of Contents

Business Day. Unless we specify otherwise in the applicable prospectus supplement, the term *business day* means, for any debt security, a day that meets all the following applicable requirements:

for all debt securities, is a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in Salt Lake City, Utah or New York City generally are authorized or required by law or executive order to close;

if the debt security is a floating rate debt security whose interest rate is based on the London interbank offered rate, or LIBOR, is also a day on which dealings in the relevant index currency specified in the applicable prospectus supplement are transacted in the London interbank market;

if the debt security either is a floating rate debt security whose interest rate is based on the euro interbank offered rate, or EURIBOR, or a floating rate debt security whose interest rate is based on LIBOR and for which the index currency is euros, is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System, or any successor system, is open for business;

if the debt security is held through Euroclear, is also not a day on which banking institutions in Brussels, Belgium are generally authorized or obligated by law, regulation or executive order to close; and

if the debt security is held through Clearstream, is also not a day on which banking institutions in Luxembourg are generally authorized or obligated by law, regulation or executive order to close.

Business Day Conventions

As specified in the applicable prospectus supplement, one of the following business day conventions may apply to any debt security with regard to any relevant date other than one that falls on the maturity date:

Following business day convention means, for any interest payment date, other than the stated maturity date, if such date would otherwise fall on a day that is not a business day, then such date will be postponed to the next day that is a business day.

Modified following business day convention means, for any interest payment date, other than the stated maturity date, if such date would otherwise fall on a day that is not a business day, then such date will be postponed to the next day that is a business day, except that, if the next business day falls in the next calendar month, then such date will be advanced to the immediately preceding day that is a business day.

Following unadjusted business day convention means, for any interest payment date, other than the stated maturity date, that falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date shall not accrue from and including the original interest payment date to and including the date of payment of such interest as so postponed.

Modified following unadjusted business day convention means, for any interest payment date, other than the stated maturity date, that falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date shall not accrue from and including the original interest payment date to and including the date of payment of such interest as so postponed, and *provided further* that, if such day would fall in the succeeding calendar month, the date of payment with respect to the original interest payment date will be advanced

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

to the business day immediately preceding such interest payment date.

In all cases, if the stated maturity date or any earlier redemption date or repayment date with respect to a debt security falls on a day that is not a business day, any payment of principal, premium, if any, and interest

Table of Contents

otherwise due on such day will be made on the next succeeding business day, and no interest on such payment shall accrue for the period from and after such stated maturity, redemption date or repayment date, as the case may be.

Unless we specify otherwise in the applicable pricing supplement, payment of interest on your debt security will be governed by the following unadjusted business day convention.

Postponement of payments pursuant to the applicable business day convention will not result in a default under any debt security or the applicable indenture.

How We Will Make Payments Due

We will follow the practice described in this subsection when paying amounts due on the debt securities. All amounts due will be paid in U.S. dollars, unless we indicate otherwise in the applicable prospectus supplement.

Payments on Global Debt Securities. We will make payments on a global debt security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will pay directly to the depositary, or its nominee, and not to any indirect owners who own beneficial interests in the global debt security. An indirect owner's right to receive those payments will be governed by the rules and practices of the depositary and its participants, as described in the section entitled "Legal Ownership and Book-Entry Issuance: What Is a Global Security?"

Payments on Non-Global Debt Securities. We will make payments on a debt security in non-global, registered form as follows. We will pay interest that is due on an interest payment date by check mailed on the interest payment date to the holder at his or her address shown on the trustee's records as of the close of business on the regular record date. We will make all other payments by check at the paying agent described below, against surrender of the debt security. All payments by check will be made in next-day funds i.e., funds that become available on the day after the check is cashed.

Alternatively, if a non-global debt security has a principal amount of at least \$1,000,000 (or the equivalent in another currency) and the holder asks us to do so, we will pay any amount that becomes due on the debt security by wire transfer of immediately available funds to an account at a bank in New York City, on the due date. To request wire payment, the holder must give the paying agent appropriate wire transfer instructions at least five business days before the requested wire payment is due. In the case of any interest payment due on an interest payment date, the instructions must be given by the person or entity who is the holder on the relevant regular record date. In the case of any other payment, payment will be made only after the debt security is surrendered to the paying agent. Any wire instructions, once properly given, will remain in effect unless and until new instructions are given in the manner described above.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive payments on their debt securities.

Paying Agent

We may appoint one or more financial institutions to act as our paying agents, at whose designated offices debt securities in non-global entry form may be surrendered for payment at their maturity. We call each of those offices a paying agent. We may add, replace or terminate paying agents from time to time. We may also choose to act as our own paying agent. Initially, we have appointed Zions First National Bank, at its principal office in Salt Lake City, Utah, as the paying agent for the debt securities. We must notify you of changes in the paying agents.

Table of Contents

Unclaimed Payments

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of two years after the amount is due to a holder will be repaid to us. After that two-year period, the holder may look only to us for payment and not to the trustee, any other paying agent or anyone else.

Notices

Notices to be given to holders of a global debt security will be given only to the depository, in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of debt securities not in global form will be sent by mail to the respective addresses of the holders as they appear in the trustee's records, and will be deemed given when mailed. Neither the failure to give any notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive notices.

Our Relationship with the Trustee

The Bank of New York Mellon Trust Company, N.A., is initially serving as the trustee for both the senior debt securities and the subordinated debt securities. Consequently, if an actual or potential event of default occurs with respect to any debt securities, the trustee may be considered to have a conflicting interest for purposes of the Trust Indenture Act. In that case, the trustee may be required to resign under one of the indentures, and we would be required to appoint a successor trustee. For this purpose, a potential event of default means an event that would be an event of default if the requirements for giving us default notice or for the default having to exist for a specific period of time were disregarded.

Under the indentures, we are required to file with the trustee any information, documents and other reports, or summaries thereof, as may be required under the Trust Indenture Act, at the times and in the manner provided under the Trust Indenture Act. However, in case of documents filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act, any such filing with the trustee need not be made until the 15th day after such filing is actually made with the SEC.

Table of Contents

DESCRIPTION OF WARRANTS OR OTHER RIGHTS WE MAY OFFER

*Please note that in this section entitled **Description of Warrants or Other Rights We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own warrants or other rights registered in their own names, on the books that we or any applicable trustee or warrant or rights agent maintain for this purpose, and not those who own beneficial interests in warrants or rights registered in street name or in warrants or rights issued in book-entry form through one or more depositaries. Owners of beneficial interests in warrants or rights should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

*This section outlines some of the provisions of each warrant or rights agreement pursuant to which warrants or rights may be issued, the warrants or rights and any warrant or rights certificates. This information may not be complete in all respects and is qualified entirely by reference to any warrant agreement or rights agreement with respect to the warrants or rights of any particular series. The specific terms of any series of warrants or rights will be described in the applicable prospectus supplement. If so described in the prospectus supplement, the terms of that series of warrants or rights may differ from the general description of terms presented below. Owners of warrants or rights should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

We may issue warrants or other rights. We have no restriction on the number of warrants or rights or the number of distinct series of warrants or rights we may issue. We will issue each series of warrants under either a warrant or rights indenture or agreement. This section summarizes terms to be included in such indenture or agreement and terms of the warrants or rights that apply generally to the warrants or rights. We will describe the specific terms of your warrant or right in the applicable prospectus supplement. Those terms may vary from the terms described here.

Warrants

We may issue warrants, options or similar instruments for the purchase of our debt securities, preferred stock, common stock, depositary shares or units. We refer to these collectively as **warrants**. Warrants may be issued independently or together with debt securities, preferred stock, common stock, depositary shares or units, and may be attached to or separate from those securities.

Rights

We may also issue rights, on terms to be determined at the time of sale, for the purchase or sale of, or whose cash value or stream of cash payments is determined by reference to, the occurrence or non-occurrence of or the performance, level or value of, one or more of the following:

securities of one or more issuers, including our common or preferred stock or other securities described in this prospectus or debt or equity securities of third parties;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance;

one or more indices; and/or

one or more baskets of the items described above.

Table of Contents

We refer to each property described above as a right property.

We may satisfy our obligations, if any, and the holder of a right may satisfy its obligations, if any, with respect to any rights by delivering, among other things:

the right property;

the cash value of the right property; or

the cash value of the rights determined by reference to the performance, level or value of the right.

The applicable prospectus supplement will describe what we may deliver to satisfy our obligations, if any, and what the holder of a right may deliver to satisfy its obligations, if any, with respect to any rights.

Agreements

Each series of warrants or rights may be evidenced by certificates and may be issued under a separate indenture, agreement or other instrument to be entered into between us and a bank that we select as agent with respect to such series. The agent, if any, will have its principal office in the U.S. and have a combined capital and surplus of at least \$50,000,000. The prospectus supplement relating to a series of warrants or rights will identify the name and address of the warrant or rights agent, if any. Warrants or rights in book-entry form will be represented by a global security registered in the name of a depositary, which will be the holder of all the securities represented by the global security. Those who own beneficial interests in a global security will do so through participants in the depositary's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. We describe book-entry securities under Legal Ownership and Book-Entry Issuance.

General Terms of Warrants or Rights

The prospectus supplement will describe the terms of the series of warrants or rights in respect of which this prospectus is being delivered, including:

the offering price;

the currency for which the warrants or rights may be purchased;

the designation and terms of any securities with which the warrants or rights are issued and in that event the number of warrants or rights issued with each security or each principal amount of security;

the date, if any, on which the warrants or rights and any related securities will be separately transferable;

whether the warrants or rights are to be sold separately or with other securities, as part of units or otherwise;

any securities exchange or quotation system on which the warrants or rights or any securities deliverable upon exercise of such securities may be listed;

whether the warrants or rights will be issued in fully registered form or bearer form, in global or non-global form or in any combination of these forms;

the dates on which the right to exercise the warrants will commence and expire;

material U.S. Federal income tax consequences of holding or exercising these securities; and

any other terms of the warrants or rights.

Table of Contents

Warrant or rights certificates may be exchanged for new certificates of different denominations and may be presented for transfer of registration and, if exercisable for other securities or other property, may be exercised at the agent's corporate trust office or any other office indicated in the prospectus supplement. If the warrants or rights are not separately transferable from any securities with which they were issued, this exchange may take place only if the certificates representing the related securities are also exchanged. Prior to exercise of any warrant or right exercisable for other securities or other property, securityholders will not have any rights as holders of the underlying securities, including the right to receive any principal, premium, interest, dividends, or payments upon our liquidation, dissolution or winding up or to exercise any voting rights.

Exercise of Warrants or Rights

If any warrant or right is exercisable for other securities or other property, the following provisions will apply. Each such warrant or right may be exercised at any time up to any expiration date and time mentioned in the prospectus supplement relating to those warrants or rights as may otherwise be stated in the prospectus supplement. After the close of business on any applicable expiration date, unexercised warrants or rights will become void.

Warrants or rights may be exercised by delivery of the certificate representing the securities to be exercised, or in the case of global securities, as described below under "Legal Ownership and Book-Entry Issuance," by delivery of an exercise notice for those warrants or rights, together with certain information, and payment to any agent in immediately available funds, as provided in the prospectus supplement, of the required purchase amount, if any. Upon receipt of payment and the certificate or exercise notice properly executed at the office indicated in the prospectus supplement, we will, in the time period the relevant agreement provides, issue and deliver the securities or other property purchasable upon such exercise. If fewer than all of the warrants or rights represented by such certificates are exercised, a new certificate will be issued for the remaining amount of warrants or rights.

If mentioned in the prospectus supplement, securities may be surrendered as all or part of the exercise price for warrants or rights.

Antidilution Provisions

In the case of warrants or rights to purchase common stock, the exercise price payable and the number of shares of common stock purchasable upon warrant exercise may be adjusted in certain events, including:

the issuance of a stock dividend to common stockholders or a combination, subdivision or reclassification of common stock;

the issuance of rights, warrants or options to all common and preferred stockholders entitling them to purchase common stock for an aggregate consideration per share less than the current market price per share of common stock;

any distribution to our common stockholders of evidences of our indebtedness of assets, excluding cash dividends or distributions referred to above; and

any other events mentioned in the prospectus supplement.

The prospectus supplement will describe which, if any, of these provisions shall apply to a particular series of warrants or rights. Unless otherwise specified in the applicable prospectus supplement, no adjustment in the number of shares purchasable upon warrant or right exercise will be required until cumulative adjustments require an adjustment of at least 1% of such number and no fractional shares will be issued upon warrant or right exercise, but we will pay the cash value of any fractional shares otherwise issuable.

Table of Contents

Modification

We and any agent for any series of warrants or rights may amend any warrant or rights agreement and the terms of the related warrants or rights by executing a supplemental agreement, without any such warrant holders or rightholders' consent, for the purpose of:

curing any ambiguity or any defective or inconsistent provision contained in the agreement, or making any other corrections to the agreement that are not inconsistent with the provisions of the warrant or rights certificates;

evidencing the succession of another corporation to us and its assumption of our covenants contained in the agreement and the securities;

appointing a successor depository, if the securities are issued in the form of global securities;

evidencing a successor agent's acceptance of appointment with respect to any securities;

adding to our covenants for the benefit of securityholders or surrendering any right or power we have under the agreement;

issuing warrants or rights in definitive form, if such securities are initially issued in the form of global securities; or

amending the agreement and the warrants or rights as we deem necessary or desirable and that will not adversely affect the interests of the applicable warrant holders or rightholders in any material respect.

We and any agent for any series of warrants or rights may also amend any agreement and the related warrants or rights by a supplemental agreement with the consent of the holders of a majority of the warrants or rights of any series affected by such amendment, for the purpose of adding, modifying or eliminating any of the agreement's provisions or of modifying the rights of the holders of warrants or rights. However, no such amendment that:

reduces the number or amount of securities receivable upon any exercise of any such security;

shortens the time period during which any such security may be exercised;

otherwise adversely affects the exercise rights of warrant holders or rightholders in any material respect; or

reduces the number of securities the consent of holders of which is required for amending the agreement or the related warrants or rights;

may be made without the consent of each holder affected by that amendment.

Consolidation, Merger and Sale of Assets

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Any agreement with respect to warrants or rights will provide that we are generally permitted to merge or consolidate with another corporation or other entity. Any such agreement will also provide that we are permitted to sell our assets substantially as an entirety to another corporation or other entity or to have another entity sell its assets substantially as an entirety to us. With regard to any series of securities, however, we may not take any of these actions unless all of the following conditions are met:

if we are not the successor entity, the person formed by the consolidation or into or with which we merge or the person to which our properties and assets are conveyed, transferred or leased must be an entity organized and existing under the laws of the United States, any state or the District of Columbia and must expressly assume the performance of our covenants under any relevant indenture, agreement or other instrument; and

we or that successor corporation must not immediately be in default under that agreement.

Table of Contents

Enforcement by Holders of Warrants or Rights

Any agent for any series of warrants or rights will act solely as our agent under the relevant agreement and will not assume any obligation or relationship of agency or trust for any securityholder. A single bank or trust company may act as agent for more than one issue of securities. Any such agent will have no duty or responsibility in case we default in performing our obligations under the relevant agreement or warrant or right, including any duty or responsibility to initiate any legal proceedings or to make any demand upon us. Any securityholder may, without the agent's consent or consent of any other securityholder, enforce by appropriate legal action its right to exercise any warrant or right exercisable for any property.

Replacement of Certificates

We will replace any destroyed, lost, stolen or mutilated warrant or rights certificate upon delivery to us and any applicable agent of satisfactory evidence of the ownership of that certificate and of its destruction, loss, theft or mutilation, and (in the case of mutilation) surrender of that certificate to us or any applicable agent, unless we have, or the agent has, received notice that the certificate has been acquired by a bona fide purchaser. That securityholder will also be required to provide indemnity satisfactory to us and the relevant agent before a replacement certificate will be issued.

Title

Zions, any agents for any series of warrants or rights and any of their agents may treat the registered holder of any certificate as the absolute owner of the securities evidenced by that certificate for any purpose and as the person entitled to exercise the rights attaching to the warrants or rights so requested, despite any notice to the contrary. See Legal Ownership and Book-Entry Issuance.

Table of Contents

DESCRIPTION OF STOCK PURCHASE CONTRACTS WE MAY OFFER

Please note that in this section entitled Description of Stock Purchase Contracts We May Offer, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own stock purchase contracts registered in their own names, on the books that we or our agent maintain for this purpose, and not those who own beneficial interests in stock purchase contracts registered in street name or in purchase contracts issued in book-entry form through one or more depositories. Owners of beneficial interests in the purchase contracts should read the section below entitled Legal Ownership and Book-Entry Issuance.

This section outlines some of the provisions of the stock purchase contracts, the purchase contract agreement and the pledge agreement. This information is not complete in all respects and is qualified entirely by reference to the purchase contract agreement and pledge agreement with respect to the stock purchase contracts of any particular series. The specific terms of any series of stock purchase contracts will be described in the applicable prospectus supplement. If so described in the applicable prospectus supplement, the specific terms of any series of stock purchase contracts may differ from the general description of terms presented below.

We may issue stock purchase contracts including contracts obligating holders to purchase from us and us to sell to the holders a specified or varying number of shares of common stock, preferred stock, depositary shares or other security or property, at a future date or dates. Alternatively, the stock purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specified or varying number of shares of common stock, preferred stock, depositary shares or other security or property. The consideration per share of common stock or preferred stock or per depositary share or other security or property may be fixed at the time the stock purchase contracts are issued or may be determined by a specific reference to a formula set forth in the stock purchase contracts. The stock purchase contracts may provide for settlement by delivery by or on behalf of Zions of shares of the underlying security or property or it may provide for settlement by reference or linkage to the value, performance or trading price of the underlying security or property. The stock purchase contracts may be issued separately or as part of stock purchase units consisting of a stock purchase contract and debt securities, preferred stock or debt obligations of third parties, including U.S. treasury securities, other stock purchase contracts or common stock, or other securities or property, securing the holders obligations to purchase or sell, as the case may be, the common stock or the preferred stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and such payments may be unsecured or prefunded on some basis and may be paid on a current or on a deferred basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner and may provide for the prepayment of all or part of the consideration payable by holders in connection with the purchase of the underlying security or other property pursuant to the stock purchase contracts.

The securities related to the stock purchase contracts may be pledged to a collateral agent for Zions benefit pursuant to a pledge agreement to secure the obligations of holders of stock purchase contracts to purchase the underlying security or property under the related stock purchase contracts. The rights of holders of stock purchase contracts to the related pledged securities will be subject to Zions security interest therein created by the pledge agreement. No holder of stock purchase contracts will be permitted to withdraw the pledged securities related to such stock purchase contracts from the pledge arrangement except upon the termination or early settlement of the related stock purchase contracts or in the event other securities, cash or property are made subject to the pledge agreement in lieu of the pledged securities, if permitted by the pledge agreement, or as otherwise provided in the pledge agreement. Subject to such security interest and the terms of the purchase contract agreement and the pledge agreement, each holder of a stock purchase contract will retain full beneficial ownership of the related pledged securities.

Except as described in the applicable prospectus supplement, the collateral agent will, upon receipt of distributions on the pledged securities, distribute such payments to Zions or the purchase contract agent, as provided in the pledge agreement. The purchase agent will in turn distribute payments it receives as provided in the purchase contract agreement.

Table of Contents

DESCRIPTION OF UNITS WE MAY OFFER

Please note that in this section entitled Description of Units We May Offer, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own units registered in their own names, on the books that we or our agent maintain for this purpose, and not those who own beneficial interests in units registered in street name or in units issued in book-entry form through one or more depositaries. Owners of beneficial interests in the units should read the section below entitled Legal Ownership and Book-Entry Issuance.

This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement. If so described the applicable prospectus supplement, the specific terms of any series of units may differ from the general description of terms presented below.

We may issue units comprised of one or more debt securities, shares of common stock, shares of preferred stock, stock purchase contracts, warrants, rights and other securities in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions of the governing unit agreement that differ from those described below; and

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units. The provisions described in this section, as well as those described under Description of Debt Securities We May Offer, Description of Preferred Stock We May Offer, Description of Our Capital Stock, Description of Warrants or Other Rights We May Offer and Description of Stock Purchase Contracts We May Offer, will apply to the securities included in each unit, to the extent relevant.

Issuance in Series

We may issue units in such amounts and in as many distinct series as we wish. We may also reopen a previously issued series of units and issue additional units of that series. This section summarizes terms of the units that apply generally to all series. Most of the financial and other specific terms of your series will be described in the applicable prospectus supplement. Those terms may vary from the terms described here.

Unit Agreements

We will issue the units under one or more unit agreements to be entered into between us and a bank or other financial institution, as unit agent. We may add, replace or terminate unit agents from time to time. We will identify the unit agreement under which each series of units will be issued and the unit agent under that agreement in the applicable prospectus supplement.

The following provisions will generally apply to all unit agreements unless otherwise stated in the applicable prospectus supplement.

Table of Contents

Enforcement of Rights

The unit agent under a unit agreement will act solely as our agent in connection with the units issued under that agreement. The unit agent will not assume any obligation or relationship of agency or trust for or with any holders of those units or of the securities comprising those units. The unit agent will not be obligated to take any action on behalf of those holders to enforce or protect their rights under the units or the included securities.

Except as indicated in the next paragraph, a holder of a unit may, without the consent of the unit agent or any other holder, enforce its rights as holder under any security included in the unit, in accordance with the terms of that security and the indenture, warrant agreement, rights agreement or other instrument under which that security is issued. Those terms are described elsewhere in this prospectus under the sections relating to debt securities, preferred stock, common stock, warrants and capital securities, as relevant.

Notwithstanding the foregoing, a unit agreement may limit or otherwise affect the ability of a holder of units issued under that agreement to enforce its rights, including any right to bring a legal action, with respect to those units or any securities, other than debt securities, that are included in those units. Limitations of this kind will be described in the applicable prospectus supplement.

Modification Without Consent of Holders

We and the applicable unit agent may amend any unit or unit agreement without the consent of any holder:

to cure any ambiguity;

to correct or supplement any defective or inconsistent provision; or

to make any other change that we believe is necessary or desirable and will not adversely affect the interests of the affected holders in any material respect.

We do not need any approval to make changes that affect only units to be issued after the changes take effect. We may also make changes that do not adversely affect a particular unit in any material respect, even if they adversely affect other units in a material respect. In those cases, we do not need to obtain the approval of the holder of the unaffected unit; we need only obtain any required approvals from the holders of the affected units.

Modification With Consent of Holders

We may not amend any particular unit or a unit agreement with respect to any particular unit unless we obtain the consent of the holder of that unit, if the amendment would:

impair any right of the holder to exercise or enforce any right under a security included in the unit if the terms of that security require the consent of the holder to any changes that would impair the exercise or enforcement of that right; or

reduce the percentage of outstanding units or any series or class the consent of whose holders is required to amend that series or class, or the applicable unit agreement with respect to that series or class, as described below.

Any other change to a particular unit agreement and the units issued under that agreement would require the following approval:

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

If the change affects only the units of a particular series issued under that agreement, the change must be approved by the holders of a majority of the outstanding units of that series; or

If the change affects the units of more than one series issued under that agreement, it must be approved by the holders of a majority of all outstanding units of all series affected by the change, with the units of all the affected series voting together as one class for this purpose.

Table of Contents

These provisions regarding changes with majority approval also apply to changes affecting any securities issued under a unit agreement, as the governing document.

In each case, the required approval must be given by written consent.

Unit Agreements Will Not Be Qualified Under Trust Indenture Act

No unit agreement will be qualified as an indenture, and no unit agent will be required to qualify as a trustee, under the Trust Indenture Act. Therefore, holders of units issued under unit agreements will not have the protections of the Trust Indenture Act with respect to their units.

Mergers and Similar Transactions Permitted; No Restrictive Covenants or Events of Default

The unit agreements will not restrict our ability to merge or consolidate with, or sell our assets to, another corporation or other entity or to engage in any other transactions. If at any time we merge or consolidate with, or sell our assets substantially as an entirety to, another corporation or other entity, the successor entity will succeed to and assume our obligations under the unit agreements. We will then be relieved of any further obligation under these agreements.

The unit agreements will not include any restrictions on our ability to put liens on our assets, including our interests in our subsidiaries, nor will they restrict our ability to sell our assets. The unit agreements also will not provide for any events of default or remedies upon the occurrence of any events of default.

Governing Law

The unit agreements and the units will be governed by New York law.

Form, Exchange and Transfer

We will issue each unit in global i.e., book-entry form only. Units in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the units represented by the global security. Those who own beneficial interests in a unit will do so through participants in the depository's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities below under Legal Ownership and Book-Entry Issuance.

In addition, we will issue each unit in registered form, unless we say otherwise in the applicable prospectus supplement. Bearer securities would be subject to special provisions, as we describe below under Securities Issued in Bearer Form.

Each unit and all securities comprising the unit will be issued in the same form.

If we issue any units in registered, non-global form, the following will apply to them:

The units will be issued in the denominations stated in the applicable prospectus supplement. Holders may exchange their units for units of smaller denominations or combined into fewer units of larger denominations, as long as the total amount is not changed.

Holders may exchange or transfer their units at the office of the unit agent. Holders may also replace lost, stolen, destroyed or mutilated units at that office. We may appoint another entity to perform these functions or perform them ourselves.

Table of Contents

Holders will not be required to pay a service charge to transfer or exchange their units, but they may be required to pay for any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange, and any replacement, will be made only if our transfer agent is satisfied with the holder's proof of legal ownership. The transfer agent may also require an indemnity before replacing any units.

If we have the right to redeem, accelerate or settle any units before their maturity, and we exercise our right as to less than all those units or other securities, we may block the exchange or transfer of those units during the period beginning 15 days before the day we mail the notice of exercise and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any unit selected for early settlement, except that we will continue to permit transfers and exchanges of the unsettled portion of any unit being partially settled. We may also block the transfer or exchange of any unit in this manner if the unit includes securities that are or may be selected for early settlement.

Only the depositary will be entitled to transfer or exchange a unit in global form, since it will be the sole holder of the unit.

Payments and Notices

In making payments and giving notices with respect to our units, we will follow the procedures we plan to use with respect to our debt securities, where applicable. We describe those procedures above under **Description of Debt Securities We May Offer Payment Mechanics for Debt Securities in Registered Form** and **Description of Debt Securities We May Offer Notices**.

Table of Contents

DESCRIPTION OF OUR CAPITAL STOCK

Please note that in this section entitled Description of Our Capital Stock, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own shares of our capital stock, registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in shares of our capital stock should also read the section entitled Legal Ownership and Book-Entry Issuance.

The following summary description of our capital stock is based on the provisions of our restated articles of incorporation, as amended, or articles of incorporation, and restated bylaws, or bylaws, and the applicable provisions of the Utah Revised Business Corporation Act, or the UBCA. This description is not complete and is subject to, and is qualified in its entirety by reference to our articles of incorporation, bylaws and the applicable provisions of the UBCA. For information on how to obtain copies of our articles of incorporation and bylaws, see Where You Can Find More Information.

Authorized Capital

Our articles of incorporation authorize us to issue 354,400,000 shares of capital stock, without par value, of which:

350,000,000 shares are designated as common stock, approximately 183,855,866 shares of which were outstanding as of March 25, 2011; and

4,400,000 shares are designated as preferred stock,

140,000 shares of which are designated as Series A Floating-Rate Non-Cumulative Perpetual Preferred Stock, 59,460 of which were issued and outstanding as of the date of this prospectus;

1,400,000 shares of which are designated as 9.50% Series C Non-Cumulative Perpetual Preferred Stock, 539,066 of which were issued and outstanding as of the date of this prospectus;

1,400,000 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series D (Series D Preferred Stock), all of which were issued and outstanding as of the date of this prospectus; and

250,000 shares of which are designated as Series E Fixed-Rate Resettable Non-Cumulative Perpetual Preferred Stock, 142,500 of which were issued and outstanding as of the date of this prospectus.

in each case with a liquidation preference of \$1,000 per share of preferred stock.

Common Stock

We may offer from time to time shares of our common stock. We may also offer common stock issuable upon the conversion of debt securities or preferred stock, the exercise of warrants and pursuant to stock purchase contracts.

Voting Rights

Unless otherwise provided in our articles of incorporation, in the UBCA, or other applicable law, the holders of common stock of Zions are entitled to voting rights for the election of directors and for other purposes, subject to voting rights which may in the future be granted to subsequently created series of preferred stock. Shares of Zions common stock do not have cumulative voting rights.

Table of Contents

Dividend and Liquidation Rights

The holders of outstanding shares of our common stock are entitled to receive dividends when and if declared by the Zions board out of any funds legally available therefor, and are entitled upon liquidation, after claims of creditors and preferences of any series of preferred stock hereafter authorized, to receive pro rata the net assets of Zions. Holders of Zions common stock have no preemptive or conversion rights.

Certain Provisions of Utah Law and of Our Articles of Incorporation and Bylaws

Zions is incorporated under the laws of the State of Utah and, accordingly, the rights of our shareholders are governed by our articles of incorporation, our bylaws and the laws of the State of Utah, including the UBCA.

Certain Anti-Takeover Matters

Our articles of incorporation and bylaws include a number of provisions that may have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts. These provisions include:

Provisions Regarding Election/Removal of Directors. Our articles of incorporation provide that, while shareholders generally may act by written consent, consents from 100% of our shareholders are required to elect directors by written consent. Our articles of incorporation and bylaws do not authorize cumulative voting for directors.

Our bylaws also provide that a vacancy on the board of directors may be filled by the shareholders or the board of directors. However, if the directors remaining in office constitute less than a quorum of the board, they may fill the vacancy by the affirmative vote of a majority of all directors remaining in office. Our articles of incorporation further provide that, while the shareholders may remove any director for or without cause, it may only be done with the affirmative vote of the holders of two-thirds of the outstanding shares then entitled to vote at an election of directors.

Advance Notice Requirements for Director Nominations and Presentation of Business at Meetings. Our bylaws specify a procedure for shareholders to follow in order to bring business before an annual meeting of the shareholders. Generally, notice of any proposal to be presented by any shareholder or the name of any person to be nominated by any shareholder for election as a director of Zions at any annual meeting of shareholders must be delivered to Zions at least 120 days, but not more than 150 days, prior to the date Zions' proxy statement was released to shareholders in connection with the annual meeting for the preceding year. The notice must also provide certain information set forth in Zions' bylaws.

Restrictions on Certain Business Transactions. Our articles of incorporation provide that certain business transactions with a person who owns, directly or indirectly, over 10% of our outstanding stock must be approved by a majority vote of the continuing directors or a shareholder vote of at least 80% of our outstanding voting shares. Such business transactions include mergers, consolidations, sales of all or more than 20% of the corporation's assets, issuance of securities of the corporation, reclassifications that increase voting power of the interested shareholder, or liquidations, spin-offs or dissolution of the corporation. Zions is also subject to the Utah Control Shares Acquisitions Act, which limits the ability of persons acquiring more than 20% of Zions' voting stock to vote those shares absent approval of voting rights by the holders of a majority of all shares entitled to be cast, excluding all interested shares.

Blank Check Preferred Stock. Our articles of incorporation provide for 4,400,000 shares of preferred stock. As of the date of this prospectus, we had issued and outstanding 59,460 shares of our Series A Preferred Stock, 539,066 shares of our Series C Preferred Stock, 1,400,000 shares of our Series D Preferred Stock and 142,500 shares of our Series E Preferred Stock, in each case with a \$1,000 liquidation preference per share. The existence of authorized but unissued shares of preferred may enable the board to render more difficult or to discourage an

Table of Contents

attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise. For example, if in the due exercise of its fiduciary obligations, the board determines that a takeover proposal is not in the best interests of Zions, the board could cause shares of preferred stock to be issued without shareholder approval in one or more private offerings or other transactions that might dilute the voting or other rights of the proposed acquiror or insurgent shareholder or shareholder group. In this regard, the articles of incorporation grant our board of directors broad power to establish the rights and preferences of authorized and unissued shares of preferred stock. The issuance of shares of preferred stock could decrease the amount of earnings and assets available for distribution to holders of common stock. The issuance may also adversely affect the rights and powers, including voting rights, of such holders and may have the effect of delaying, deterring or preventing a change in control of Zions.

Supermajority Vote for Certain Amendments to Articles of Incorporation

Our articles of incorporation provide that they may be amended, altered, changed or repealed in any manner prescribed by statute. The UBCA permits an amendment of the articles of incorporation by approval of a majority of the board of directors and a majority of the outstanding common stock entitled to vote. However, our articles of incorporation further provide that the affirmative vote of two-thirds of the outstanding and issued shares entitled by statute to vote shall be required to amend, alter, change or repeal the third paragraph of Article IX (regarding the removal of directors), or any provision of Articles X (regarding quorum requirement and management of Zions by the board) or XVI (regarding amendment of our articles of incorporation) or any other provision of our articles of incorporation if the amendment, alteration, change or repeal would restrict, limit or alter the power or authority of the board of directors or any other officer or agent of Zions; would vest any powers of Zions in any other officer or agent other than the board of directors, or officers and agents appointed by or under the authority of the board of directors; would require the approval of any shareholders in order for the board of directors or any officer or agent to take any action; or would change the number of directors, the quorum requirements for any meeting of the board of directors, the vote by which it must act in connection with any matter, the manner of calling or conducting meetings of directors, or the place of such meetings.

Indemnification and Liability Elimination Provisions

Under our articles of incorporation, directors are not personally liable to us or our shareholders for monetary damages for breaches of fiduciary duty as a director, except (1) for breach of the director's duty of loyalty to Zions or its shareholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or knowing violations of law, or (3) any transaction from which the director derived an improper personal benefit.

The UBCA and our bylaws provide that we may indemnify a director, officer, employee or agent if he or she acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of Zions and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Listing; Exchange, Transfer Agent and Registrar

Our common stock is listed on the Nasdaq Global Select Market. The transfer agent and registrar for our common stock is Zions First National Bank.

Preferred Stock

Series A Preferred Stock

The Series A Preferred Stock was issued in December 2006 in the form of 9,600,000 depositary shares with each depositary share representing a 1/40th ownership interest in a share of the Series A Preferred Stock. During the second quarter of 2009, through a tender offer, Zions purchased 4,020,435 depositary shares with each

Table of Contents

depository share representing a 1/40th ownership interest in a share of the Series A Preferred Stock. Since July 2009, holders of certain series of Zions Bancorporation subordinated notes that are convertible into the Series A Preferred Stock or the Series C Preferred Stock converted a cumulative amount of \$0.1 million of subordinated notes into the Series A Preferred Stock, equaling 4,920 depository shares each representing a 1/40th interest in a share of the Series A Preferred Stock (representing 123 shares of the Series A Preferred Stock in the aggregate). Dividends are non-cumulative and are computed at an annual rate equal to the greater of three-month LIBOR plus 0.52%, or 4.0%. Dividend payments are made on the 15th day of March, June, September, and December.

Ranking

Shares of the Series A Preferred Stock rank senior to our common stock, equally with our Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution or winding up of Zions, holders of the Series A Preferred Stock are entitled to receive out of assets of Zions available for distribution to shareholders, after satisfaction of liabilities to creditors and subject to the rights of holders of any securities ranking senior to the Series A Preferred Stock, before any distribution of assets is made to holders of common stock or of any of our other shares of junior stock, a liquidating distribution in the amount of the liquidation preference of \$1,000 per share (equivalent to \$25 per depository share) plus declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of the Series A Preferred Stock will not be entitled to any other amounts from us after they have received their full liquidating distribution.

In any such distribution, if the assets of Zions are not sufficient to pay the liquidation preferences plus declared and unpaid dividends in full to all holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock, the Series E Preferred Stock and all holders of any other shares of parity stock, the amounts paid to the holders of Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock, the Series E Preferred Stock and to the holders of all parity stock will be paid pro rata in accordance with the respective aggregate liquidating distribution owed to those holders. If the liquidation preference plus declared and unpaid dividends has been paid in full to all holders of Series A Preferred Stock, Series C Preferred Stock, Series D Preferred Stock, Series E Preferred Stock and any other shares of parity stock, the holders of our junior stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

Redemption

The Series A Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. The Series A Preferred Stock is not redeemable prior to December 15, 2011. On and after that date, the Series A Preferred Stock is redeemable at our option, in whole or in part, at a redemption price equal to \$1,000 per share (equivalent to \$25 per depository share), plus any declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of Series A Preferred Stock have no right to require the redemption or repurchase of the Series A Preferred Stock.

Under the Federal Reserve Board's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series A Preferred Stock is subject to prior approval of the Federal Reserve Board.

Voting Rights

Except as required by law and as provided below, the holders of the Series A Preferred Stock have no voting rights.

Table of Contents

Right to Elect Two Directors Upon Non-Payment of Dividends. If and whenever dividends on any shares of the Series A Preferred Stock or any class or series of voting parity stock (as defined below) have not been declared and paid in an aggregate amount at least equal, as to any such class or series, to the amount of dividends payable on such class and series at its stated dividend rate for a period of six dividend periods, whether or not for consecutive dividend periods (a "Nonpayment"), the number of directors then constituting our board will be increased by two. Holders of all classes and series of any voting parity stock as to which a Nonpayment exists are entitled to vote as a single class for the election of the two additional members of our board of directors (the "Preferred Directors"), but only if the election of any such directors would not cause us to violate the listing standards of the Nasdaq Stock Market (or any other exchange on which our securities may be listed) or the rules and regulations of any other regulatory or self-regulatory body. In addition, our board of directors will at no time include more than two Preferred Directors. As used herein, "voting parity stock" means each class or series of preferred stock that ranks on parity with the Series A Preferred Stock as to payment of dividends and has voting rights similar to those described in this paragraph, which in this case includes our Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock.

In the event of a Nonpayment, at the written request of any holder of record of at least 20% of the outstanding shares of any voting parity stock with respect to which a Nonpayment exists addressed to our Secretary at our principal office, our Secretary will call a special meeting of the holders of all voting parity stock with respect to which a Nonpayment exists for the election of the two directors (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the shareholders, in which event such election will be held at such next annual or special meeting of shareholders). So long as these voting rights have not ceased, holders of any and all voting parity stock with respect to which a Nonpayment exists voting as a single class will continue to elect such directors at each subsequent annual meeting.

If and when full dividends have been paid for at least four dividend periods following a Nonpayment on any class or series of voting parity stock as to which a Nonpayment exists or existed, the foregoing voting rights will cease with respect to that class or series (subject to revesting in the event of each subsequent Nonpayment). If and when full dividends have been paid for at least four dividend periods on all classes and series of voting parity stock as to which a Nonpayment exists or existed, the term of office of each Preferred Director so elected will immediately terminate and the number of directors on the board of directors will automatically decrease by two.

Other Voting Rights. So long as any shares of Series A Preferred Stock remain outstanding:

the affirmative vote or consent of the holders of at least two-thirds of all outstanding shares of Series A Preferred Stock and any class or series of preferred stock that ranks on a parity with such series of preferred stock as to payment of dividends and the distribution of assets upon liquidation, dissolution or winding-up of Zions (which in this case would include our Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock), voting together as a class, is required to issue, authorize or increase the authorized amount of, or to issue or authorize any obligation or security convertible into or evidencing the right to purchase, any class or series of stock ranking senior to such series of preferred stock with respect to the payment of dividends or the distribution of assets upon liquidation, dissolution or winding-up of Zions; and

the affirmative vote or consent of the holders of at least two-thirds of all shares of such series of preferred stock at the time outstanding, voting separately as a class, is required to amend any provisions of Zions' articles of incorporation, whether by merger, consolidation or otherwise, so as to materially and adversely affect the powers, preferences, privileges or rights of such series of preferred stock, taken as a whole.

Series C Preferred Stock

The Series C Preferred Stock offering was completed on July 2, 2008. The offering was issued in the form of 1,877,971 depository shares representing a 1/40th ownership interest in a share of the Series C Preferred

Table of Contents

Stock. Since July 2009, holders of certain series of Zions Bancorporation subordinated notes that are convertible into the Series A Preferred Stock or the Series C Preferred Stock converted a cumulative amount of \$492.1 million of subordinated notes into the Series C Preferred Stock, equaling 19,684,680 depository shares each representing a 1/40th interest in a share of the Series C Preferred Stock (representing 492,117 shares of the Series C Preferred Stock in the aggregate). Dividends are non-cumulative and are computed at a rate per annum of 9.50%. Dividend payments are made on the 15th day of March, June, September, and December.

Ranking

Shares of the Series C Preferred Stock rank senior to our common stock, equally with our Series A Preferred Stock, Series D Preferred Stock and Series E Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution or winding up of Zions, holders of the Series C Preferred Stock are entitled to receive out of assets of Zions available for distribution to shareholders, after satisfaction of liabilities to creditors and subject to the rights of holders of any securities ranking senior to the Series C Preferred Stock, before any distribution of assets is made to holders of common stock or of any of our other shares of junior stock, a liquidating distribution in the amount of the liquidation preference of \$1,000 per share (equivalent to \$25 per depository share) plus declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of the Series C Preferred Stock will not be entitled to any other amounts from us after they have received their full liquidating distribution.

In any such distribution, if the assets of Zions are not sufficient to pay the liquidation preferences plus declared and unpaid dividends in full to all holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and all holders of any other shares of parity stock, the amounts paid to the holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and to the holders of all parity stock will be paid pro rata in accordance with the respective aggregate liquidating distribution owed to those holders. If the liquidation preference plus declared and unpaid dividends has been paid in full to all holders of Series A Preferred Stock, Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock and any other shares of parity stock, the holders of our junior stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

Redemption

The Series C Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. The Series C Preferred Stock is not redeemable prior to September 15, 2013. On and after that date, the Series C Preferred Stock will be redeemable at our option, in whole or in part, at a redemption price equal to \$1,000 per share (equivalent to \$25 per depository share) and an amount equal to the dividend for the then-current quarterly dividend period (whether or not declared but without accumulation of any undeclared dividends for prior periods) accrued to but excluding the date of redemption. Holders of Series C Preferred Stock have no right to require the redemption or repurchase of the Series C Preferred Stock.

Under the Federal Reserve Board's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series C Preferred Stock is subject to prior approval of the Federal Reserve Board.

Table of Contents

Voting Rights

The voting rights of holders of the Series C Preferred Stock are substantially the same as holders of the Series A Preferred Stock. See Series A Preferred Stock Voting Rights.

Series D Preferred Stock

The Series D Preferred Stock was issued on November 14, 2008 to the U.S. Department of the Treasury (the U.S. Treasury) with an aggregate liquidation preference of \$1.4 billion. The Emergency Economic Stabilization Act of 2008 authorized the U.S. Treasury to appropriate funds to eligible financial institutions participating in the Troubled Asset Relief Program Capital Purchase Program. The capital investment includes the issuance of preferred shares of Zions and a warrant to purchase common shares pursuant to a Letter Agreement and a Securities Purchase Agreement (collectively, the TARP Agreement). Cumulative dividends accrue at a rate of 5% per annum for the first five years, and at a rate of 9% per annum thereafter. Dividend payments are made on the 15th day of February, May, August and November. The TARP Agreement subjects us to certain restrictions and conditions including those related to common dividends, share repurchases, executive compensation, and corporate governance.

Ranking

Shares of the Series D Preferred Stock rank senior to our common stock, equally with our Series A Preferred Stock, Series C Preferred Stock and Series E Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series C Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

In the event of any liquidation, dissolution or winding up of the affairs of Zions, whether voluntary or involuntary, holders of the Series D Preferred Stock are entitled to receive for each share of Series D Preferred Stock, out of the assets of Zions or proceeds thereof (whether capital or surplus) available for distribution to shareholders of Zions, subject to the rights of any creditors of Zions, before any distribution of such assets or proceeds is made to or set aside for the holders of common stock and any other stock of the Zions ranking junior to the Series D Preferred Stock as to such distribution, payment in full in an amount equal to the sum of (i) \$1,000 per share and (ii) the amount of any accrued and unpaid dividends, whether or not declared, to the date of payment (such amounts collectively, the liquidation preference).

If in any such distribution, the assets of Zions or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of the Series D Preferred Stock and the corresponding amounts payable with respect of any other stock of Zions ranking equally with Series D Preferred Stock as to such distribution, holders of Series D Preferred Stock and the holders of such other stock will share ratably in any such distribution in proportion to the full respective distributions to which they are entitled.

If the liquidation preference has been paid in full to all holders of Series D Preferred Stock and the corresponding amounts payable with respect of any other stock of Zions ranking equally with the Series Preferred Stock as to such distribution has been paid in full, the holders of our other stock are entitled to receive all of our remaining assets (or proceeds thereof) according to their respective rights and preferences.

Redemption

The Series D Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. Shares of Series D Preferred Stock are redeemable at our option at 100% of their liquidation preference or \$1,000 per share plus accrued and unpaid dividends, whether or not declared; *provided, however,*

Table of Contents

that such shares may be redeemed prior to November 15, 2011 only if (i) we have raised aggregate gross proceeds in one or more Qualified Equity Offerings (as defined below) in excess of \$350 million and (ii) the aggregate redemption price does not exceed the aggregate net proceeds from such Qualified Equity Offerings.

Qualified Equity Offering means the sale and issuance for cash by us to persons other than Zions or its subsidiaries after November 14, 2008, of shares of perpetual preferred stock, common stock or any combination of such stock, that, in each case, qualify as and may be included in Tier I capital of Zions at the time of issuance under the applicable risk-based capital guidelines of the Federal Reserve Board (other than any such sales and issuances made pursuant to agreements or arrangements entered into, or pursuant to financing plans which were publicly announced, on or prior to October 13, 2008).

Holders of Series D Preferred Stock have no right to require the redemption or repurchase of the Series D Preferred Stock.

Under the Federal Reserve Board's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series D Preferred Stock is subject to prior approval of the Federal Reserve Board.

Voting Rights

Except as required by law and as provided below, the holders of the Series D Preferred Stock have no voting rights.

Right to Elect Two Directors Upon Non-Payment of Dividends. The voting rights of the Series D Preferred Stock in the event of our nonpayment of dividends on the Series D Preferred Stock for an aggregate of six quarterly dividend periods or more, whether or not consecutive, are substantially the same as holders of the Series A Preferred Stock. See Series A Preferred Stock Voting Rights Right to Elect Two Directors Upon Non-Payment of Dividends.

Other Voting Rights. So long as any shares of Series D Preferred Stock are outstanding, in addition to any other vote or consent of stockholders required by law or by our articles of incorporation, the vote or consent of the holders of at least 66 2/3% of the shares of Series D Preferred Stock at the time outstanding, voting as a separate class, given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, is necessary for effecting or validating:

any amendment or alteration of the articles of amendment for the Series D Preferred Stock or our articles of incorporation to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Series D Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on any liquidation, dissolution or winding;

any amendment, alteration or repeal of any provision of the articles of amendment for the Series D Preferred Stock or our articles of incorporation (including, unless no vote on such merger or consolidation is required as provided below, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Series D Preferred Stock; or

any consummation of a binding share exchange or reclassification involving the Series D Preferred Stock, or of our merger or consolidation with another corporation or other entity, unless in each case:

the shares of Series D Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which we are not the surviving or resulting entity, are converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and

Table of Contents

such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of Series D Preferred Stock immediately prior to such consummation, taken as a whole.

Series E Preferred Stock

The Series E Preferred Stock offering was completed on June 15, 2010. The offering was issued in the form of 5,000,000 depositary shares representing a 1/40th ownership interest in a share of the Series E Preferred Stock. An overallotment option closed on June 22, 2010 with an additional 700,000 depositary shares issued in the overallotment. Dividends are non-cumulative and are computed at a rate per annum equal to (i) 11% for dividend periods prior to June 15, 2012 and (ii) 10.22% above the 2-year treasury rate (calculated pursuant to Article VIII of our articles of incorporation) for dividend periods including and after June 15, 2012, which will be reset on such date and each subsequent two-year anniversary following such date. Dividend payments are made on the 15th day of March, June, September, and December.

Ranking

Shares of the Series E Preferred Stock rank senior to our common stock, equally with our Series A Preferred Stock, Series C Preferred Stock and Series D Preferred Stock and at least equally with each other series of our preferred stock we may issue (except for any senior series that may be issued with the requisite consent of the holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and any other class or series whose vote is required) with respect to the payment of dividends and distributions of assets upon liquidation, dissolution or winding up.

Liquidation Rights

Upon any voluntary or involuntary liquidation, dissolution or winding up of Zions, holders of the Series E Preferred Stock are entitled to receive out of assets of Zions available for distribution to shareholders, after satisfaction of liabilities to creditors and subject to the rights of holders of any securities ranking senior to the Series E Preferred Stock, before any distribution of assets is made to holders of common stock or of any of our other shares of junior stock, a liquidating distribution in the amount of the liquidation preference of \$1,000 per share (equivalent to \$25 per depositary share) plus declared and unpaid dividends, without accumulation of any undeclared dividends. Holders of the Series E Preferred Stock will not be entitled to any other amounts from us after they have received their full liquidating distribution.

In any such distribution, if the assets of Zions are not sufficient to pay the liquidation preferences plus declared and unpaid dividends in full to all holders of the Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and all holders of any other shares of parity stock, the amounts paid to the holders of Series A Preferred Stock, the Series C Preferred Stock, the Series D Preferred Stock and the Series E Preferred Stock and to the holders of all parity stock will be paid pro rata in accordance with the respective aggregate liquidating distribution owed to those holders. If the liquidation preference plus declared and unpaid dividends has been paid in full to all holders of Series A Preferred Stock, Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock and any other shares of parity stock, the holders of our junior stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

Redemption

The Series E Preferred Stock is not subject to any mandatory redemption, sinking fund or other similar provisions. The Series E Preferred Stock is not redeemable prior to June 15, 2012. On such date and every

Table of Contents

second anniversary thereafter, the Series E Preferred Stock will be redeemable at our option, in whole or in part, at a redemption price equal to \$1,000 per share (equivalent to \$25 per depositary share) and an amount equal to the dividend for the then-current quarterly dividend period (whether or not declared but without accumulation of any undeclared dividends for prior periods) accrued to but excluding the date of redemption. Holders of Series E Preferred Stock have no right to require the redemption or repurchase of the Series E Preferred Stock.

Under the Federal Reserve Board's risk-based capital guidelines applicable to bank holding companies, any redemption of the Series E Preferred Stock is subject to prior approval of the Federal Reserve Board.

Voting Rights

The voting rights of holders of the Series E Preferred Stock are substantially the same as holders of the Series A Preferred Stock. See Series A Preferred Stock Voting Rights.

TARP Warrant

On November 14, 2008, we issued and sold to the U.S. Treasury, in connection with the issuance and sale of the Series D Preferred Stock, a ten-year warrant (the TARP Warrant) to purchase up to 5,789,909 shares of our common stock at an exercise price of \$36.27 per share. As of the date of this prospectus, we have no warrants other than the TARP Warrant outstanding. See Preferred Stock Series D Preferred Stock.

Rights as a Shareholder

The warrant holder has no rights or privileges of the holders of our common stock, including any voting rights, until (and then only to the extent) the TARP Warrant has been exercised.

Adjustments to the TARP Warrant

Adjustments in Connection with Stock Splits, Subdivisions, Reclassifications and Combinations

The number of shares for which the TARP Warrant may be exercised and the exercise price applicable to the TARP Warrant will be proportionately adjusted in the event we pay dividends or make distributions on our common stock in shares of common stock, or subdivide, combine or reclassify outstanding shares of our common stock.

Anti-dilution Adjustment

Until the earlier of November 14, 2011 and the date the U.S. Treasury no longer holds the TARP Warrant (and other than in certain permitted transactions described below), if we issue any shares of common stock (or securities convertible or exercisable into common stock) for less than 90% of the market price of the common stock on the last trading day prior to pricing such shares, then the number of shares of common stock into which the TARP Warrant is exercisable and the exercise price will be adjusted. Permitted transactions include issuances:

as consideration for or to fund the acquisition of businesses and/or related assets;

in connection with employee benefit plans and compensation related arrangements in the ordinary course and consistent with past practice approved by our board of directors;

in connection with public or broadly marketed offerings and sales of common stock or convertible securities for cash conducted by us or our affiliates pursuant to registration under the Securities Act of 1933, as amended (the Securities Act) or Rule 144A thereunder on a basis consistent with capital-raising transactions by comparable financial institutions; and

in connection with the exercise of preemptive rights on terms existing as of November 14, 2008.

Table of Contents

Other Distributions

If we declare any dividends or distributions other than our historical, ordinary cash dividends, the exercise price of the TARP Warrant will be adjusted to reflect such distribution.

Certain Repurchases

If we effect a pro rata repurchase of common stock, both the number of shares issuable upon exercise of the TARP Warrant and the exercise price will be adjusted.

Business Combinations

In the event of a merger, consolidation or similar transaction involving Zions and requiring shareholder approval, the warrant holder's right to receive shares of our common stock upon exercise of the TARP Warrant will be converted into the right to exercise the TARP Warrant for the consideration that would have been payable to the warrant holder with respect to the shares of common stock for which the TARP Warrant may be exercised, as if the TARP Warrant had been exercised prior to such merger, consolidation or similar transaction.

Table of Contents

DESCRIPTION OF PREFERRED STOCK WE MAY OFFER

*Please note that in this section entitled **Description of Preferred Stock We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to **Zions Bancorporation** and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own shares of preferred stock registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in shares of preferred stock should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

The following description summarizes the material provisions of the preferred stock we may offer. This description is not complete and is subject to, and is qualified in its entirety by reference to our restated articles of incorporation, as amended, which we will refer to as our articles of incorporation. The specific terms of any series of preferred stock will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. Any series of preferred stock we issue will be governed by our articles of incorporation and by the articles of amendment related to that series. We will file the articles of amendment with the SEC and incorporate it by reference as an exhibit to our registration statement at or before the time we issue any preferred stock of that series of authorized preferred stock.

Authorized Preferred Stock

Our articles of incorporation authorize us to issue 4,400,000 shares of preferred stock, without par value. We may issue preferred stock from time to time in one or more series, without stockholder approval, when authorized by our board of directors or a duly authorized committee thereof. We may also reopen a previously issued series of preferred stock and issue additional preferred stock of that series. Upon issuance of a particular series of preferred stock, our board of directors, or a duly authorized committee thereof, is authorized to specify:

the serial designation of the series and the number of shares to be included in such series;

dividend rights for the series (which may be cumulative or non-cumulative) and any restrictions or conditions on the payment of dividends;

the redemption price, if any, and the terms and conditions of redemption;

any sinking fund provisions for the purchase or redemption of the series;

if the series is convertible or exchangeable, the terms and conditions of conversion or exchange;

voting rights;

the amounts payable to holders upon our liquidation, dissolution or winding up; and

any other rights, preferences and limitations relating to the series.

The board's ability to authorize, without stockholder approval, the issuance of preferred stock with conversion and other rights may adversely affect the rights of holders of our common stock or other series of preferred stock that may be outstanding.

Please see **Description of Our Capital Stock Authorized Capital** and **Description of Our Capital Stock Preferred Stock** for a description of our authorized and issued preferred stock.

Specific Terms of a Series of Preferred Stock We May Offer

The preferred stock we may offer will be issued in one or more series. Shares of preferred stock, when issued against full payment of its purchase price, will be fully paid and non-assessable. Their liquidation preference, however, will not be indicative of the price at which they will actually trade after their issue. If

Table of Contents

necessary, the prospectus supplement will provide a description of U.S. Federal income tax consequences relating to the purchase and ownership of the series of preferred stock offered by that prospectus supplement.

The preferred stock will have the dividend, liquidation, redemption and voting rights discussed below, unless otherwise described in a prospectus supplement relating to a particular series. A prospectus supplement will discuss the following features of the series of preferred stock to which it relates:

the designations and stated value per share;

the number of shares offered;

the amount of liquidation preference per share;

the initial public offering price at which the preferred stock will be issued;

the dividend rate, the method of its calculation, the dates on which dividends would be paid and the dates, if any, from which dividends would cumulate;

any redemption or sinking fund provisions;

any conversion or exchange rights; and

any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions.

Rank

Unless otherwise stated in the applicable prospectus supplement, the preferred stock will have priority over our common stock with respect to dividends and distribution of assets, but will rank junior to all our outstanding indebtedness for borrowed money. Any series of preferred stock could rank senior, equal or junior to our other capital stock, as may be specified in the applicable prospectus supplement, as long as our articles of incorporation so permit.

Dividends

Holders of each series of preferred stock shall be entitled to receive cash dividends to the extent specified in the applicable prospectus supplement when, as and if declared by our board of directors, from funds legally available for the payment of dividends. The rates and dates of payment of dividends of each series of preferred stock will be stated in the applicable prospectus supplement. Dividends will be payable to the holders of record of preferred stock as they appear on our books on the record dates fixed by our board of directors. Dividends on any series of preferred stock may be cumulative or non-cumulative, as discussed in the applicable prospectus supplement.

Conversion or Exchange Rights

Shares of a series of preferred stock may be exchangeable or convertible into shares of our common stock, another series of preferred stock or other securities or property. The conversion or exchange may be mandatory or optional. The applicable prospectus supplement will specify whether the preferred stock being offered has any conversion or exchange features, and will describe all the related terms and conditions.

Redemption

The terms, if any, on which shares of preferred stock of a series may be redeemed will be discussed in the applicable prospectus supplement. Before exercising its option to redeem any shares of preferred stock, we will obtain the approval of the Federal Reserve Board if then required by applicable law.

Table of Contents

Liquidation

Upon any voluntary or involuntary liquidation, dissolution or winding up of the affairs of Zions, holders of each series of preferred stock will be entitled to receive distributions upon liquidation in the amount described in the applicable prospectus supplement plus an amount equal to any accrued and unpaid dividends for the then-current dividend period (including any accumulation in respect of unpaid dividends for prior dividend periods, if dividends on that series of preferred stock are cumulative). These distributions will be made before any distribution is made on any securities ranking junior to the preferred stock with respect to liquidation, including our common stock. If the liquidation amounts payable relating to the preferred stock of any series and any other securities ranking on a parity regarding liquidation rights are not paid in full, the holders of the preferred stock of that series will share ratably in proportion to the full liquidation preferences of each security. Holders of our preferred stock will not be entitled to any other amounts from us after they have received their full liquidation preference.

Voting Rights

The holders of shares of preferred stock will have no voting rights, except:

as otherwise stated in the applicable prospectus supplement;

as otherwise stated in the articles of amendment establishing the series; or

as required by applicable law.

Under existing interpretations of the Federal Reserve Board, if the holders of preferred stock become entitled to vote for the election of directors because dividends on the preferred stock are in arrears, the preferred stock may then be deemed a class of voting securities and a holder of 25% or more of the preferred stock, or a holder of 5% or more of the preferred stock that is otherwise a bank holding company, may then be regulated as a bank holding company with respect to Zions Bancorporation in accordance with the Bank Holding Company Act. In addition, at the time holders of preferred stock become entitled to such voting rights:

any bank holding company or foreign bank with a U.S. presence would generally be required to obtain the approval of the Federal Reserve Board under the Bank Holding Company Act to acquire or retain 5% or more of the preferred stock; and

any person other than a bank holding company may be required to obtain the approval of the Federal Reserve Board under the U.S. Change in Bank Control Act of 1978 to acquire or retain 10% or more of the preferred stock.

No Other Rights

The shares of a series of preferred stock will not have any preferences, voting powers or relative, participating, optional or other special rights except:

as discussed above or in the applicable prospectus supplement;

as provided in our articles of incorporation and in the articles of amendment; and

as otherwise required by law.

Transfer Agent

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

The transfer agent for each series of preferred stock will be named and described in the prospectus supplement for that series.

Table of Contents

DESCRIPTION OF DEPOSITARY SHARES WE MAY OFFER

*Please note that in this section entitled **Description of Depositary Shares We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to **Zions Bancorporation** and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own depositary shares registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in depositary shares should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

*This section outlines some of the provisions of the deposit agreement to govern any depositary shares, the depositary shares themselves and the depositary receipts. This information may not be complete in all respects and is qualified entirely by reference to the relevant deposit agreement and depositary receipts with respect to the depositary shares related to any particular series of preferred stock. The specific terms of any series of depositary shares will be described in the applicable prospectus supplement. If so described in the prospectus supplement, the terms of that series of depositary shares may differ from the general description of terms presented below. Owners of beneficial interests in depositary shares should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

Fractional Shares or Multiple Shares of Preferred Stock

We may elect to offer fractional shares or some multiple of shares of our preferred stock instead of whole shares of preferred stock. If so, we will allow a depositary to issue to the public depositary shares, each of which will represent a fractional interest of a share or an interest in multiple shares of preferred stock as described in the applicable prospectus supplement.

Deposit Agreement

The shares of the preferred stock underlying any depositary shares will be deposited under a separate deposit agreement between us and a bank or trust company acting as depositary with respect to those shares of preferred stock. The depositary will have its principal office in the United States and have a combined capital and surplus of at least \$50,000,000. The prospectus supplement relating to a series of depositary shares will specify the name and address of the depositary. Under the deposit agreement, each owner of a depositary share will be entitled, in proportion of its fractional interest in a share or interest in multiple shares of the preferred stock underlying that depositary share, to all the rights and preferences of that preferred stock, including dividend, voting, redemption, conversion, exchange and liquidation rights.

Depositary shares will be evidenced by one or more depositary receipts issued under the deposit agreement.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions in respect of the preferred stock underlying the depositary shares to each record depositary shareholder based on the number of the depositary shares owned by that holder on the relevant record date. The depositary will distribute only that amount which can be distributed without attributing to any depositary shareholders a fraction of one cent, and any balance not so distributed will be added to and treated as part of the next sum received by the depositary for distribution to record depositary shareholders.

If there is a distribution other than in cash, the depositary will distribute property to the entitled record depositary shareholders, unless the depositary determines that it is not feasible to make that distribution. In that

Table of Contents

case the depositary may, with our approval, adopt the method it deems equitable and practicable for making that distribution, including any sale of property and the distribution of the net proceeds from this sale to the concerned holders.

Each deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights we offer to holders of the relevant series of preferred stock will be made available to depositary shareholders.

Withdrawal of Stock

Upon surrender of depositary receipts at the depositary's office, the holder of the relevant depositary shares will be entitled to the number of whole shares of the related series of preferred stock and any money or other property those depositary shares represent. Depositary shareholders will be entitled to receive whole shares of the related series of preferred stock on the basis described in the applicable prospectus supplement, but holders of those whole preferred stock shares will not afterwards be entitled to receive depositary shares in exchange for their shares. If the depositary receipts the holder delivers evidence a depositary share number exceeding the whole share number of the related series of preferred stock to be withdrawn, the depositary will deliver to that holder a new depositary receipt evidencing the excess number of depositary shares.

Redemption and Liquidation

The terms on which the depositary shares relating to the preferred stock of any series may be redeemed, and any amounts distributable upon our liquidation, dissolution or winding up, will be described in the applicable prospectus supplement.

Conversion of Preferred Stock

If the prospectus supplement relating to the depositary shares says that the deposited preferred stock underlying the depositary shares is convertible into or exercisable or exchangeable for common stock, preferred stock of another series or other securities of ours or debt or equity securities of one or more third parties, the following will apply unless we indicate otherwise in your prospectus supplement. The depositary shares, as such, will not be convertible into or exercisable or exchangeable for any securities of ours or any third party. Rather, any holder of the depositary shares may surrender the related depositary receipts to the preferred stock depositary with written instructions to instruct us to cause conversion, exercise or exchange of the preferred stock represented by the depositary shares into or for whole shares of common stock, shares of another series of preferred stock or other securities of ours or debt or equity securities of the relevant third party, as applicable. Upon receipt of those instructions and any amounts payable by the holder in connection with the conversion, exercise or exchange, we will cause the conversion, exercise or exchange using the same procedures as those provided for conversion, exercise or exchange of the deposited preferred stock. If only some of the depositary shares are to be converted, exercised or exchanged, a new depositary receipt or receipts will be issued for any depositary shares not to be converted, exercised or exchanged.

Voting

Upon receiving notice of any meeting at which preferred stockholders of any series are entitled to vote, the depositary will mail the information contained in that notice to the record depositary shareholders relating to those series of preferred stock. Each depositary shareholder on the record date, which will be the same date as the record date for the related preferred stock, will be entitled to instruct the depositary on how to vote the shares of preferred stock underlying that holder's depositary shares. To the extent possible, the depositary will vote the

Table of Contents

shares of preferred stock underlying those depositary shares according to those instructions, and we will take reasonably necessary actions to enable the depositary to do so. If the depositary does not receive specific instructions from the depositary shareholders relating to that preferred stock, it will abstain from voting those shares of preferred stock, unless otherwise discussed in the applicable prospectus supplement.

Amendment and Termination of Deposit Agreement

We and the depositary may amend the depositary receipt form evidencing the depositary shares and the related deposit agreement. However, any amendment that significantly affects the rights of the depositary shareholders will not be effective unless a majority of the outstanding depositary shareholders approve that amendment. We or the depositary may terminate a deposit agreement only if:

we redeemed or reacquired all outstanding depositary shares relating to the deposit agreement;

all preferred stock of the relevant series has been withdrawn; or

there has been a final distribution in respect of the preferred stock of any series in connection with our liquidation, dissolution or winding up and such distribution has been made to the related depositary shareholders.

Charges of Depositary

We will pay all charges of each depositary in connection with the initial deposit and any redemption of the preferred stock. Depositary shareholders will be required to pay any other transfer and other taxes and governmental charges and any other charges expressly provided in the deposit agreement to be for their accounts.

Miscellaneous

Each depositary will forward to the relevant depositary shareholders all our reports and communications that we are required to furnish to preferred stockholders of any series.

Neither the depositary nor Zions will be liable if it is prevented or delayed by law or any circumstance beyond its control in performing its obligations under any deposit agreement. The obligations of Zions and each depositary under any deposit agreement will be limited to performance in good faith of their duties under that agreement, and they will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or preferred stock unless they are provided with satisfactory indemnity. They may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred stock for deposit, depositary shareholders or other persons believed to be competent and on documents believed to be genuine.

Title

Zions, each depositary and any of their agents may treat the registered owner of any depositary share as the absolute owner of that share, whether or not any payment in respect of that depositary share is overdue and despite any notice to the contrary, for any purpose. See Legal Ownership and Book-Entry Issuance.

Table of Contents

Resignation and Removal of Depositary

A depositary may resign at any time by issuing us a notice of resignation, and we may remove any depositary at any time by issuing it a notice of removal. Resignation or removal will take effect upon the appointment of a successor depositary and its acceptance of appointment. That successor depositary must:

be appointed within 60 days after delivery of the notice of resignation or removal;

be a bank or trust company having its principal office in the United States; and

have a combined capital and surplus of at least \$50,000,000.

Table of Contents

THE ISSUER TRUSTS

The following description summarizes the formation, purposes and material terms of each Issuer Trust. This description is followed by descriptions of:

the capital securities to be issued by each Issuer Trust;

the junior subordinated debentures to be issued by us to each Issuer Trust, and the junior indenture under which they will be issued;

our guarantees for the benefit of the holders of the capital securities; and

the relationship among the capital securities, the corresponding junior subordinated debentures, a related expense agreement and the guarantees.

Each Issuer Trust is a statutory trust formed under Delaware law pursuant to:

a trust agreement executed by us, as depositor of the Issuer Trust, and the Delaware trustee of such Issuer Trust; and

a certificate of trust filed with the Delaware Secretary of State.

Before trust securities are issued, the trust agreement for the relevant Issuer Trust will be amended and restated in its entirety substantially in the form filed with the registration statement of which this prospectus forms a part. The trust agreements will be qualified as indentures under the Trust Indenture Act.

Each Issuer Trust may offer to the public, from time to time, preferred securities representing preferred beneficial interests in the applicable Issuer Trust, which we call capital securities. In addition to capital securities offered to the public, each Issuer Trust will sell common securities representing common beneficial interests in such Issuer Trust to us, which we call trust common securities. All of the trust common securities of each Issuer Trust will be owned by us. The trust common securities and the capital securities are also referred to together as the trust securities.

Each Issuer Trust exists for the exclusive purposes of:

issuing and selling its trust securities;

using the proceeds from the sale of these trust securities to acquire corresponding junior subordinated debentures from us; and

engaging in only those other activities necessary or incidental to these purposes (for example, registering the transfer of the trust securities).

When any Issuer Trust sells trust securities, it will use the money it receives to buy a series of our junior subordinated debentures, which we call the corresponding junior subordinated debentures. The payment terms of the corresponding junior subordinated debentures will be virtually the same as the terms of that Issuer Trust's capital securities, which we call the related capital securities.

Each Issuer Trust will own only such series of corresponding junior subordinated debentures as it purchases with the funds received by it in connection with sale of the applicable trust securities. The only source of funds for each Issuer Trust will be the payments it receives from us on

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

the corresponding junior subordinated debentures. Each Issuer Trust will use these funds to make any cash payments due to holders of its related capital securities.

Each Issuer Trust will also be a party to an expense agreement with us. Under the terms of the expense agreement, the Issuer Trust will have the right to be reimbursed by us for certain expenses.

The trust common securities of an Issuer Trust will rank equally, and payments on them will be made pro rata, with the capital securities of that Issuer Trust, except that upon the occurrence and continuance of an event

Table of Contents

of default under a trust agreement resulting from an event of default under the junior indenture, our rights, as holder of the trust common securities, to payment in respect of distributions and payments upon liquidation or redemption will be subordinated to the rights of the holders of the capital securities of that Issuer Trust. See Description of Capital Securities and Related Instruments Subordination of Trust Common Securities. We will acquire trust common securities in an aggregate liquidation amount equal to 3% of the total capital of each Issuer Trust or such other amount as may be specified in the applicable prospectus supplement. The prospectus supplement relating to any capital securities will contain the details of the cash distributions to be made periodically.

Under certain circumstances, we may redeem the corresponding junior subordinated debentures that we sold to an Issuer Trust. If this happens, the Issuer Trust will redeem a like amount of the capital securities which it sold to the public and the trust common securities which it sold to us.

Under certain circumstances, we may dissolve an Issuer Trust and, after satisfaction of the liabilities to creditors of the Issuer Trust as provided by applicable law, cause the corresponding junior subordinated debentures to be distributed to the holders of the related capital securities. If this happens, owners of the related capital securities will no longer have any interest in such Issuer Trust and will only own the corresponding junior subordinated debentures we issued to the Issuer Trust.

We may need the approval of the Federal Reserve Board to redeem the corresponding junior subordinated debentures or to dissolve one or more of the Issuer Trusts. A more detailed description is provided under the heading Description of Capital Securities and Related Instruments Liquidation Distribution Upon Dissolution.

Unless otherwise specified in the applicable prospectus supplement:

each Issuer Trust will have a term of approximately 55 years from the date it issues its trust securities, but may dissolve earlier as provided in the applicable trust agreement;

each Issuer Trust's business and affairs will be conducted by its trustees;

except as provided below, we, as holder of the trust common securities, will appoint the trustees;

the trustees for each Issuer Trust will be The Bank of New York Mellon Trust Company, N.A., as property trustee and BNY Mellon Trust of Delaware, as Delaware trustee, and two or more individual administrative trustees who are employees or officers of or affiliated with us. These trustees are also referred to as the Issuer Trust trustees. The Bank of New York Mellon Trust Company, N.A., as property trustee, will act as sole indenture trustee under each trust agreement for purposes of compliance with the Trust Indenture Act. The Bank of New York Mellon Trust Company, N.A. will also act as trustee under the guarantees and the junior indenture. See Description of Guarantees and Description of Junior Subordinated Debentures;

if an event of default under the trust agreement for an Issuer Trust has occurred and is continuing, we, as the holder of the trust common securities of that Issuer Trust, or the holders of a majority in liquidation amount of the related capital securities, will be entitled to appoint, remove or replace the property trustee and/or the Delaware trustee for such Issuer Trust;

under all circumstances, only we, as the holder of the trust common securities, have the right to vote to appoint, remove or replace the administrative trustees for the applicable Issuer Trust;

the duties and obligations of each Issuer Trust trustee are governed by the applicable trust agreement; and

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

we will pay all fees and expenses related to each Issuer Trust and the offering of the capital securities and will pay, directly or indirectly, all ongoing costs, expenses and liabilities of each Issuer Trust.

The principal executive office of each Issuer Trust is c/o Zions Bancorporation, One South Main Street, 15th Floor, Salt Lake City, Utah 84133 and its telephone number is (801) 524-4787.

Table of Contents

DESCRIPTION OF CAPITAL SECURITIES AND RELATED INSTRUMENTS

*Please note that in this section entitled **Description of Capital Securities and Related Instruments** and the following sections of this prospectus entitled **Description of Junior Subordinated Debentures**, **Description of Guarantees** and **Relationship Among the Capital Securities and the Related Instruments**, references to **Zions Bancorporation**, **Zions**, **we**, **our** and **us** refer only to **Zions Bancorporation** and not to its consolidated subsidiaries. Also, in this section and the following sections of this prospectus indicated above, references to **holders** mean those who own capital securities registered in their own names, on the books that the **Issuer Trust** or the securities registrar maintain for this purpose, and not those who own beneficial interests in capital securities registered in street name or in capital securities issued in book-entry form through one or more depositories. Owners of beneficial interests in the capital securities should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

The following description summarizes the material provisions of the capital securities and trust agreements. This description is not complete and is subject to, and is qualified in its entirety by reference to, each trust agreement and the Trust Indenture Act. The specific terms of the capital securities will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. The trust agreements have been filed as exhibits to the registration statement of which this prospectus forms a part. Whenever particular defined terms of a trust agreement are referred to in this prospectus or in a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.

General

Pursuant to the terms of the trust agreement for each Issuer Trust, each Issuer Trust will sell capital securities to the public and trust common securities to us. The capital securities represent preferred undivided beneficial interests in the assets of the Issuer Trust that sold them. A more complete discussion appears under the heading **Subordination of Trust Common Securities**. Holders of the capital securities will also be entitled to other benefits as described in the corresponding trust agreement.

Each of the Issuer Trusts is a legally separate entity and the assets of one are not available to satisfy the obligations of the other.

The capital securities of an Issuer Trust will rank on parity, and payments on them will be made pro rata, with the trust common securities of that Issuer Trust except as described under **Subordination of Trust Common Securities**. Legal title to the corresponding junior subordinated debentures will be held and administered by the property trustee in trust for the benefit of the holders of the related capital securities and trust common securities.

Each guarantee agreement executed by us for the benefit of the holders of an Issuer Trust's capital securities will be a guarantee on a subordinated basis with respect to the related capital securities but will not guarantee payment of distributions or amounts payable on redemption or liquidation of such capital securities when the related Issuer Trust does not have funds on hand available to make such payments. See the section of this prospectus entitled **Description of Guarantees** for additional information.

Each Issuer Trust May Issue Series of Capital Securities With Different Terms

Each Issuer Trust may issue one distinct series of capital securities. This section summarizes terms of the securities that apply generally to all series of capital securities. The provisions of the trust agreements allow the Issuer Trusts to issue series of capital securities with terms different from the other Issuer Trusts. We describe most of the financial and other specific terms of your series in the prospectus supplement accompanying this prospectus. Those terms may vary from the terms described here.

Table of Contents

As you read this section, please remember that the specific terms of your capital security as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. If there are any differences between your prospectus supplement and this prospectus, your prospectus supplement will control. Thus, the statements we make in this section may not apply to your capital security.

When we refer to a series of capital securities, we mean a series issued under the applicable trust agreement. When we refer to your prospectus supplement, we mean the prospectus supplement describing the specific terms of the capital security you purchase. The terms used in your prospectus supplement will have the meanings described in this prospectus, unless otherwise specified.

Amounts That We May Issue

The trust agreements do not limit the aggregate amount of capital securities that may be issued or the aggregate amount of any particular series. We and the Issuer Trusts may issue capital securities and other securities at any time without your consent and without notifying you. We may also reopen a previously issued series of capital securities and issue additional capital securities of that series.

The trust agreements and the capital securities do not limit our ability to incur indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the capital securities.

In the future, we may form additional trusts or other entities similar to the Issuer Trusts, and those other entities could issue securities similar to the trust securities described in this section. In that event, we may issue subordinated debt securities under the subordinated debt indenture to those other issuer entities and guarantees under a guarantee agreement with respect to the securities they issue. We may also enter into expense agreements with those other issuers. The subordinated debt securities and guarantees we issue (and expense agreements we enter into) in those cases would be similar to those described in this prospectus, with such modifications as may be described in the applicable prospectus supplement.

Distributions

Distributions on the capital securities will be cumulative, will accumulate from the date of original issuance (unless otherwise specified in the applicable prospectus supplement), and will be payable on the dates specified in the applicable prospectus supplement. In the event that any date on which distributions on the capital securities are payable is not a business day, payment of that distribution will be made on the next business day and without any interest or other payment in connection with this delay except that, if the next business day falls in the next calendar year, payment of the distribution will be made on the immediately preceding business day. In either case, the payment will have the same force and effect as if made on the original distribution date. Each date on which distributions are payable in accordance with the previous sentence is referred to as a distribution date. A business day means, for any capital security, any day that is a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in Salt Lake City, Utah, San Francisco, California or New York City generally are authorized or required by law or executive order to close or a day on which the corporate trust office of the property trustee or the trustee under the junior subordinated indenture, referred to in this prospectus as the debenture trustee, is closed for business.

Each Issuer Trust's capital securities represent preferred beneficial interests in the applicable Issuer Trust, and the distributions on each capital security will be payable at a rate specified in the applicable prospectus supplement. The amount of distributions payable for any period will be computed on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention) unless otherwise specified in the applicable prospectus supplement. Distributions to which holders of capital securities are entitled will accumulate additional distributions at the rate per annum if and as specified in the applicable prospectus supplement. The term distributions as used in this summary includes these additional distributions unless otherwise stated.

Table of Contents

If interest payments on the corresponding junior subordinated debentures are deferred by us, distributions on the related capital securities will be correspondingly deferred, but will continue to accumulate additional distributions at the rate per annum set forth in the prospectus supplement for the capital securities. See the section of this prospectus entitled "Description of Junior Subordinated Debentures - Option to Defer Interest Payments."

The revenue of each Issuer Trust available for distribution to holders of its capital securities will be limited to payments under the corresponding junior subordinated debentures which the Issuer Trust will acquire with the proceeds from the issuance and sale of its trust securities. See the section of this prospectus entitled "Description of Junior Subordinated Debentures - Corresponding Junior Subordinated Debentures" for additional information. If we do not make interest payments on the corresponding junior subordinated debentures, the property trustee will not have funds available to pay distributions on the related capital securities. The payment of distributions (if and to the extent the Issuer Trust has funds legally available for the payment of distributions and cash sufficient to make payments) is guaranteed by us on a limited basis as described under the heading "Description of Guarantees."

Distributions on the capital securities will be payable to the holders of capital securities as they appear on the register of the Issuer Trust at the close of business on the relevant record dates, which, as long as the capital securities remain in book-entry form, will be one business day prior to the relevant distribution date. Subject to any applicable laws and regulations and the provisions of the applicable trust agreement, each such payment will be made as described under the heading "Legal Ownership and Book-Entry Issuance." In the event any capital securities are not in book-entry form, the relevant record date for such capital securities will be the date 15 days prior to the relevant distribution date (whether or not a business day), unless otherwise specified in the applicable prospectus supplement.

Redemption or Exchange

Mandatory Redemption

Upon the repayment or redemption, in whole or in part, of any corresponding junior subordinated debentures, whether at their stated maturity or upon earlier redemption as provided in the junior indenture, the proceeds from the repayment or redemption will be applied by the property trustee to redeem a like amount, which term we define below, of the capital securities, upon not less than 30 nor more than 60 days notice. Unless provided otherwise in the applicable prospectus supplement, the redemption will occur at a redemption price equal to the aggregate liquidation amount of such trust securities plus accumulated but unpaid distributions to the date of redemption and the related amount of the premium, if any, paid by us upon the concurrent redemption of the corresponding junior subordinated debentures. See the section of this prospectus entitled "Description of Junior Subordinated Debentures - Redemption" for additional information. If less than all of any series of corresponding junior subordinated debentures are to be repaid or redeemed on a redemption date, then the proceeds from the repayment or redemption will be allocated to the redemption pro rata of the related capital securities and the trust common securities based upon the relative liquidation amounts of these classes. The amount of premium, if any, paid by us upon the redemption of all or any part of any series of any corresponding junior subordinated debentures to be repaid or redeemed on a redemption date will be allocated to the redemption pro rata of the related capital securities and the trust common securities. The redemption price will be payable on each redemption date only to the extent that the Issuer Trust has funds then on hand and available in the payment account for the payment of the redemption price.

We will have the right to redeem any series of corresponding junior subordinated debentures:

on or after such date as may be specified in the applicable prospectus supplement, in whole at any time or in part from time to time;

Table of Contents

at any time, in whole but not in part, upon the occurrence of a tax event or capital treatment event, which terms we define below or under Description of Junior Subordinated Debentures Redemption; or

as may be otherwise specified in the applicable prospectus supplement, in each case subject to receipt of prior approval by the Federal Reserve Board if then required under applicable Federal Reserve capital guidelines or policies.

Distribution of Corresponding Junior Subordinated Debentures

Subject to our having received prior approval of the Federal Reserve Board to do so if such approval is then required under applicable capital guidelines or policies of the Federal Reserve Board, we have the right at any time to dissolve any Issuer Trust and, after satisfaction of the liabilities of creditors of the Issuer Trust as provided by applicable law, cause to be distributed in respect of each series of capital securities and trust common securities issued by the Issuer Trust, to the holders of such trust securities, a like amount (as defined below) of the corresponding junior subordinated debentures in liquidation of the Issuer Trust.

Tax Event or Capital Treatment Event Redemption

If a tax event or capital treatment event in respect of a series of capital securities and trust common securities has occurred and is continuing, we have the right to redeem the corresponding junior subordinated debentures in whole but not in part and thereby cause a mandatory redemption of the capital securities and trust common securities in whole but not in part at the redemption price within 90 days following the occurrence of the tax event or capital treatment event. If a tax event has occurred and is continuing in respect of a series of capital securities and trust common securities and we do not elect to redeem the corresponding junior subordinated debentures and thereby cause a mandatory redemption of the capital securities or to dissolve the related Issuer Trust and cause the corresponding junior subordinated debentures to be distributed to holders of the capital securities and trust common securities in liquidation of the Issuer Trust as described above, such capital securities will remain outstanding and additional sums (as defined below) may be payable on the corresponding junior subordinated debentures.

The term additional sums means the additional amounts as may be necessary in order that the amount of distributions then due and payable by an Issuer Trust on the outstanding capital securities and trust common securities of the Issuer Trust will not be reduced as a result of any additional taxes, duties and other governmental charges to which the Issuer Trust has become subject as a result of a tax event.

General

The term like amount means:

with respect to a redemption of any series of trust securities, trust securities of that series having a liquidation amount, which term we define below, equal to the principal amount of corresponding junior subordinated debentures to be contemporaneously redeemed in accordance with the junior indenture, the proceeds of which will be used to pay the redemption price of the trust securities; and

with respect to a distribution of corresponding junior subordinated debentures to holders of any series of trust securities in connection with a dissolution or liquidation of the related Issuer Trust, corresponding junior subordinated debentures having a principal amount equal to the liquidation amount of the trust securities in respect of which the distribution is made.

The term liquidation amount means the stated amount per trust security of \$25, or another stated amount set forth in the applicable prospectus supplement.

Table of Contents

After the liquidation date fixed for any distribution of corresponding junior subordinated debentures for any series of related capital securities:

the series of related capital securities will no longer be deemed to be outstanding;

the depository or its nominee, as the record holder of the related capital securities, will receive a registered global certificate or certificates representing the corresponding junior subordinated debentures to be delivered upon the distribution; and

any certificates representing the related capital securities not held by DTC or its nominee will be deemed to represent the corresponding junior subordinated debentures having a principal amount equal to the stated liquidation amount of the related capital securities, and bearing accrued and unpaid interest in an amount equal to the accrued and unpaid distributions on the related capital securities until the certificates are presented to the administrative trustees or their agent for transfer or reissuance.

Any distribution of corresponding junior subordinated debentures to holders of related capital securities will be made to the applicable record holders as they appear on the register for the related capital securities on the relevant record date, which will be one business day prior to the liquidation date. In the event that any related capital securities are not in book-entry form, the relevant record date will be a date at least 15 calendar days prior to the liquidation date, as specified in the applicable prospectus supplement.

There can be no assurance as to the market prices for the related capital securities or the corresponding junior subordinated debentures that may be distributed in exchange for related capital securities if a dissolution and liquidation of an Issuer Trust were to occur. Accordingly, the related capital securities that an investor may purchase, or the corresponding junior subordinated debentures that the investor may receive on dissolution and liquidation of an Issuer Trust, may trade at a discount to the price that the investor paid to purchase the related capital securities being offered in connection with this prospectus.

Redemption Procedures

Capital securities redeemed on each redemption date will be redeemed at the redemption price with the applicable proceeds from the contemporaneous redemption of the corresponding junior subordinated debentures. Redemptions of the capital securities will be made and the redemption price will be payable on each redemption date only to the extent that the related Issuer Trust has funds on hand available for the payment of the redemption price. See also Subordination of Trust Common Securities.

If the property trustee gives a notice of redemption in respect of any capital securities, then, while such capital securities are in book-entry form, by 12:00 noon, New York City time, on the redemption date, to the extent funds are available, the property trustee will deposit irrevocably with DTC funds sufficient to pay the applicable redemption price and will give DTC irrevocable instructions and authority to pay the redemption price to the holders of the capital securities. See Legal Ownership and Book-Entry Issuance below. If the capital securities are no longer in book-entry form, the property trustee, to the extent funds are available, will irrevocably deposit with the paying agent for the capital securities funds sufficient to pay the applicable redemption price and will give the paying agent irrevocable instructions and authority to pay the redemption price to the holders upon surrender of their certificates evidencing the capital securities. Notwithstanding the above, distributions payable on or prior to the redemption date for any capital securities called for redemption will be payable to the holders of the capital securities on the relevant record dates for the related distribution dates. If notice of redemption has been given and funds deposited as required, then upon the date of the deposit, all rights of the holders of the capital securities so called for redemption will cease, except the right of the holders of the capital securities to receive the redemption price and any distribution payable in respect of the capital securities on or prior to the redemption date, but without interest on the redemption price, and the capital securities will cease to be outstanding. In the event that any date fixed for redemption of capital securities is not a business day, then payment of the redemption price will be made on the next business day (and without any interest or other payment in connection with this delay) except that, if the next business day falls in the next

Table of Contents

calendar year, the payment of the redemption price will be made on the immediately preceding business day, in either case with the same force and effect as if made on the original date. In the event that payment of the redemption price in respect of capital securities called for redemption is improperly withheld or refused and not paid either by an Issuer Trust or by us pursuant to the related guarantee as described under Description of Guarantees, distributions on the capital securities will continue to accrue at the then applicable rate from the redemption date originally established by the Issuer Trust for the capital securities to the date the redemption price is actually paid, in which case the actual payment date will be the date fixed for redemption for purposes of calculating the redemption price.

Subject to applicable law, including, without limitation, U.S. federal securities law, we or our affiliates may at any time and from time to time purchase outstanding capital securities by tender, in the open market or by private agreement.

Payment of the redemption price on the capital securities and any distribution of corresponding junior subordinated debentures to holders of capital securities will be made to the applicable record holders as they appear on the register for the capital securities on the relevant record date, which, as long as the capital securities remain in book-entry form, will be one business day prior to the relevant redemption date or liquidation date, as applicable; *provided, however*, that in the event that the capital securities are not in book-entry form, the relevant record date for the capital securities will be a date at least 15 calendar days prior to the redemption date or liquidation date, as applicable, as specified in the applicable prospectus supplement.

If less than all of the capital securities and trust common securities issued by an Issuer Trust are to be redeemed on a redemption date, then the aggregate liquidation amount of the capital securities and trust common securities to be redeemed will be allocated pro rata to the capital securities and the trust common securities based upon the relative liquidation amounts of these classes. The particular capital securities to be redeemed will be selected on a pro rata basis not more than 60 days prior to the applicable redemption date by the property trustee from the outstanding capital securities not previously called for redemption, by a customary method that the property trustee deems fair and appropriate and which may provide for the selection for redemption of portions (equal to \$25 or an integral multiple of \$25 in excess thereof, unless a different amount is specified in the applicable prospectus supplement) of the liquidation amount of capital securities of a denomination larger than \$25 (or another denomination as specified in the applicable prospectus supplement). The property trustee will promptly notify the securities registrar in writing of the capital securities selected for redemption and, in the case of any capital securities selected for partial redemption, the liquidation amount to be redeemed. For all purposes of each trust agreement, unless the context otherwise requires, all provisions relating to the redemption of capital securities will relate, in the case of any capital securities redeemed or to be redeemed only in part, to the portion of the aggregate liquidation amount of capital securities which has been or is to be redeemed.

If we exercise an option to redeem any capital securities, notice of such redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of trust securities to be redeemed at its registered address by the property trustee. Unless we default in payment of the redemption price on the corresponding junior subordinated debentures, on and after the redemption date interest will cease to accrue on the junior subordinated debentures or portions thereof (and distributions will cease to accrue on the related capital securities or portions thereof) called for redemption.

Subordination of Trust Common Securities

Payment of distributions on, and the redemption price of, each Issuer Trust's capital securities and trust common securities, as applicable, will be made pro rata based on the liquidation amount of the capital securities and trust common securities. However, if on any distribution date, redemption date or liquidation date a debenture event of default (as defined below under Description of Junior Subordinated Debentures Events of Default) has occurred and is continuing as a result of any failure by us to pay any amounts in respect of the junior subordinated debentures when due, no payment of any distribution on, or redemption price of, or

Table of Contents

liquidation distribution in respect of, any of the Issuer Trust's trust common securities, and no other payment on account of the redemption, liquidation or other acquisition of the trust common securities, will be made unless payment in full in cash of all accumulated and unpaid distributions on all of the Issuer Trust's outstanding capital securities for all distribution periods terminating on or prior to that date, or in the case of payment of the redemption price the full amount of the redemption price on all of the Issuer Trust's outstanding capital securities then called for redemption, or in the case of payment of the liquidation distribution the full amount of the liquidation distribution on all of the Issuer Trust's outstanding capital securities, has been made or provided for, and all funds available to the property trustee must first be applied to the payment in full in cash of all distributions on, or the redemption price of, the Issuer Trust's outstanding capital securities then due and payable.

In the case of any event of default under the applicable trust agreement resulting from a debenture event of default (as defined under Description of Junior Subordinated Debentures Events of Default), we as holder of the Issuer Trust's trust common securities will have no right to act with respect to the event of default until the effect of all events of default with respect to such Issuer Trust's capital securities have been cured, waived or otherwise eliminated. Until any events of default under the applicable trust agreement with respect to the applicable capital securities have been cured, waived or otherwise eliminated, the property trustee will act solely on behalf of the holders of the capital securities and not on behalf of us as holder of the Issuer Trust's trust common securities, and only the holders of the capital securities will have the right to direct the property trustee to act on their behalf.

Liquidation Distribution Upon Dissolution

Pursuant to each trust agreement, each Issuer Trust will dissolve on the first to occur of:

the expiration of its term;

certain events of bankruptcy, dissolution or liquidation of the holder of the trust common securities;

the distribution of a like amount of the corresponding junior subordinated debentures to the holders of its trust securities, if we, as holder of the common securities, have given written direction to the property trustee to dissolve the Issuer Trust. This written direction by us is optional and solely within our discretion;

redemption of all of such Issuer Trust's capital securities in connection with the redemption of all of the junior subordinated securities; and

the entry of an order for the dissolution of such Issuer Trust by a court of competent jurisdiction.

If dissolution occurs as described in the second, third or fifth bullet points above, the relevant Issuer Trust will be liquidated by the related Issuer Trust trustees as expeditiously as the Issuer Trust trustees determine to be possible by distributing, after satisfaction of liabilities to creditors of the Issuer Trust as provided by applicable law, to the holders of the trust securities a like amount of the corresponding junior subordinated debentures in exchange for their trust securities, unless the distribution is determined by the administrative trustees not to be practical, in which event the holders will be entitled to receive out of the assets of the Issuer Trust available for distribution to holders, after satisfaction of liabilities to creditors of such Issuer Trust as provided by applicable law, an amount equal to, in the case of holders of capital securities, the aggregate of the liquidation amount plus accrued and unpaid distributions to the date of payment, an amount which we refer to as the liquidation distribution. If the liquidation distribution can be paid only in part because the Issuer Trust has insufficient assets available to pay in full the aggregate liquidation distribution, then the amounts payable directly by the Issuer Trust on its capital securities will be paid on a pro rata basis. The holder of the Issuer Trust's trust common securities will be entitled to receive distributions upon any liquidation pro rata with the holders of its capital securities, except that if a debenture event of default has occurred and is continuing as a result of any failure by us to pay any amounts in respect of the junior subordinated debentures when due, the capital securities will have a priority over the trust common securities.

Table of Contents

Events of Default; Notice

The following events will be events of default with respect to each series of capital securities issued under a trust agreement:

any debenture event of default with respect to the corresponding junior subordinated debentures (see Description of Junior Subordinated Debentures Events of Default);

default for 30 days by the Issuer Trust in the payment of any distribution on any capital security of such series or any trust common security of such Issuer Trust;

default by the Issuer Trust in the payment of any redemption price of any capital security of such series or any trust common security of such Issuer Trust;

failure by the Issuer Trust trustees for 60 days in performing in any material respect any other covenant or warranty in the trust agreement after the holders of at least 25% in aggregate liquidation amount of the outstanding capital securities of the applicable Issuer Trust give written notice to us and the Issuer Trust trustees; or

bankruptcy, insolvency or reorganization of the property trustee and the failure by us to appoint a successor property trustee within 90 days.

Within five business days after the occurrence of any event of default with respect to a series of capital securities actually known to the property trustee, the property trustee will transmit notice of the event of default to the holders of such capital securities, the administrative trustees and us, as depositor, unless the event of default has been cured or waived.

We, as depositor, and the administrative trustees are required to file annually with the property trustee a certificate as to whether or not we are in compliance with all the conditions and covenants applicable to us under each trust agreement.

If a debenture event of default has occurred and is continuing with respect to a series of corresponding junior subordinated debentures, the series of related capital securities will have a preference over the related trust common securities of the relevant Issuer Trust as described above. See

Liquidation Distribution Upon Dissolution. The existence of an event of default does not entitle the holders of capital securities to accelerate the maturity of the capital securities.

Whenever we refer to a debenture event of default in connection with any series of capital securities, we mean a debenture event of default with respect to the corresponding junior subordinated debentures.

Removal of Issuer Trust Trustees

Unless a debenture event of default has occurred and is continuing, any Issuer Trust trustee may be removed at any time by the holder of the Issuer Trust's trust common securities. If a debenture event of default has occurred and is continuing with respect to a series of capital securities, the property trustee and the Delaware trustee may be removed under the applicable trust agreement by the holders of a majority in liquidation amount of the outstanding capital securities of such series. In no event will the holders of the capital securities have the right to vote to appoint, remove or replace the administrative trustees. Such voting rights are vested exclusively in us as the holder of the trust common securities. No resignation or removal of an Issuer Trust trustee and no appointment of a successor trustee will be effective until the acceptance of appointment by the successor trustee in accordance with the provisions of the applicable trust agreement.

Table of Contents

Co-Trustees and Separate Property Trustee

Unless an event of default with respect to a series of capital securities issued under a trust agreement has occurred and is continuing, at any time or from time to time, for the purpose of meeting the legal requirements of the Trust Indenture Act or of any jurisdiction in which any part of the trust property may at the time be located, we, as the holder of the trust common securities, and the administrative trustees will have power to appoint one or more persons either to act as a co-trustee, jointly with the property trustee, of all or any part of the trust property, or to act as separate trustee of any trust property, in either case with the powers specified in the instrument of appointment, and to vest in the person or persons in this capacity any property, title, right or power deemed necessary or desirable, subject to the provisions of the applicable trust agreement. If a debenture event of default has occurred and is continuing, the property trustee alone will have the power to make this appointment.

Merger or Consolidation of Issuer Trust Trustees

Any person into which the property trustee, the Delaware trustee or any administrative trustee that is not a natural person may be merged or converted or with which it may be consolidated, or any person resulting from any merger, conversion or consolidation to which the trustee will be a party, or any person succeeding to all or substantially all the corporate trust business of the trustee, will automatically become the successor of the trustee under each trust agreement, provided the person is otherwise qualified and eligible.

Mergers, Consolidations, Amalgamations or Replacements of the Issuer Trusts

An Issuer Trust may not merge with or into, consolidate, amalgamate, or be replaced by, or convey, transfer or lease its properties and assets substantially as an entirety to any corporation or other person, except as described below and under Liquidation Distribution Upon Dissolution. An Issuer Trust may, at our request, with the consent of the administrative trustees and without the consent of the holders of the related capital securities, merge with or into, consolidate, amalgamate, or be replaced by or convey, transfer or lease its properties and assets substantially as an entirety to a trust organized under the laws of any state, *provided that*:

the successor entity either:

expressly assumes all of the obligations of the Issuer Trust with respect to its capital securities; or

substitutes for the capital securities of the Issuer Trust other securities having substantially the same terms as the capital securities, referred to as the successor securities, so long as the successor securities rank the same as the capital securities in priority with respect to distributions and payments upon liquidation, redemption and otherwise;

we expressly appoint a trustee of the successor entity possessing the same powers and duties as the property trustee as the holder of the corresponding junior subordinated debentures;

the successor securities are listed, or any successor securities will be listed upon notification of issuance, on any national securities exchange or other organization on which the capital securities are then listed, if any;

the merger, consolidation, amalgamation, replacement, conveyance, transfer or lease does not cause the capital securities of the Issuer Trust to be downgraded by any nationally recognized statistical rating organization which assigns ratings to the capital securities;

the merger, consolidation, amalgamation, replacement, conveyance, transfer or lease does not adversely affect the rights, preferences and privileges of the holders of the capital securities of the Issuer Trust, including any successor securities, in any material respect;

the successor entity has a purpose substantially identical to that of the Issuer Trust;

Table of Contents

prior to the merger, consolidation, amalgamation, replacement, conveyance, transfer or lease, we have received an opinion from counsel to the Issuer Trust to the effect that:

the merger, consolidation, amalgamation, replacement, conveyance, transfer or lease does not adversely affect the rights, preferences and privileges of the holders of the capital securities of the Issuer Trust, including any successor securities, in any material respect; and

following the merger, consolidation, amalgamation, replacement, conveyance, transfer or lease, neither the Issuer Trust nor the successor entity will be required to register as an investment company under the Investment Company Act; and

we or any permitted successor or assignee owns all of the trust common securities of the successor entity and guarantees the obligations of the successor entity under the successor securities at least to the extent provided by the related guarantee.

Notwithstanding the foregoing, an Issuer Trust will not, except with the consent of holders of 100% in liquidation amount of the related capital securities, consolidate, amalgamate, merge with or into, or be replaced by or convey, transfer or lease its properties and assets substantially as an entirety to any other entity or permit any other entity to consolidate, amalgamate, merge with or into, or replace it if such consolidation, amalgamation, merger, replacement, conveyance, transfer or lease would cause the Issuer Trust or the successor entity to be classified as an association taxable as a corporation or as other than a grantor trust for U.S. federal income tax purposes.

There are no provisions that afford holders of any capital securities protection in the event of a sudden and dramatic decline in our credit quality resulting from any highly leveraged transaction, takeover, merger, recapitalization or similar restructuring or change in control of Zions, nor are there any provisions that require the repurchase of any capital securities upon a change in control of Zions.

The junior indenture does not restrict Zions' ability to participate in a merger or other business combination or any other transaction, except to the limited extent described below under Description of Junior Subordinated Debentures Consolidation, Merger, Sale of Assets and Other Transactions.

Voting Rights; Amendment of Each Trust Agreement

Except as provided below and under Description of Guarantees Amendments and Assignment and as otherwise required by law and the applicable trust agreement, the holders of the capital securities will have no voting rights or the right to in any manner otherwise control the administration, operation or management of the relevant Issuer Trust.

Each trust agreement may be amended from time to time by us, the property trustee and the administrative trustees, without the consent of the holders of the capital securities:

to cure any ambiguity, correct or supplement any provisions in the trust agreement that may be inconsistent with any other provision, or to make any other provisions with respect to matters or questions arising under the trust agreement, which will not be inconsistent with the other provisions of the trust agreement; or

to modify, eliminate or add to any provisions of the trust agreement as necessary to ensure that the relevant Issuer Trust:

will not be taxable as a corporation or classified for U.S. federal income tax purposes other than as a grantor trust at all times that any trust securities are outstanding; or

will not be required to register as an investment company under the Investment Company Act,

Table of Contents

provided that:

no such amendment will adversely affect in any material respect the rights of the holders of the capital securities issued under the trust agreement; and

any such amendment will become effective when notice of the amendment is given to the holders of trust securities issued under the trust agreement.

Each trust agreement may be amended by the related Issuer Trust trustees and us with:

the consent of holders representing at least a majority (based upon liquidation amounts) of the outstanding trust securities; and

receipt by the Issuer Trust trustees of an opinion of counsel to the effect that the amendment or the exercise of any power granted to the Issuer Trust trustees in accordance with the amendment will not cause the Issuer Trust to be taxable as a corporation or affect the Issuer Trust's status as a grantor trust for U.S. federal income tax purposes or the Issuer Trust's exemption from status as an investment company under the Investment Company Act,

provided that, without the consent of the holder of each affected trust security issued under the trust agreement, the trust agreement may not be amended to:

change the amount or timing of any distribution on the trust securities or otherwise adversely affect the amount of any distribution required to be made in respect of the trust securities as of a specified date; or

restrict the right of a holder of trust securities to institute suit for the enforcement of any such payment on or after such date. So long as any corresponding junior subordinated debentures are held by the property trustee, the related Issuer Trust trustees will not:

direct the time, method and place of conducting any proceeding for any remedy available to the debenture trustee, or executing any trust or power conferred on the property trustee with respect to the corresponding junior subordinated debentures;

waive any past default with respect to the corresponding junior subordinated debentures that is waivable under the junior indenture;

exercise any right to rescind or annul a declaration that the principal of all the junior subordinated debentures will be due and payable; or

consent to any amendment, modification or termination of the junior indenture or the corresponding junior subordinated debentures, where this consent is required, without, in each case, obtaining the prior approval of the holders of a majority in aggregate liquidation amount of all outstanding capital securities of the Issuer Trust;

provided, however, that where a consent under the junior indenture would require the consent of each holder of corresponding junior subordinated debentures affected, no such consent will be given by the property trustee without the prior consent of each holder of the related capital securities affected. The Issuer Trust trustees will not revoke any action previously authorized or approved by a vote of the holders of the relevant capital securities except by subsequent vote of the holders of those capital securities. The property trustee will notify each holder of

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

capital securities of any notice of default with respect to the corresponding junior subordinated debentures. In addition to obtaining the foregoing approvals of the holders of the capital securities, prior to taking any of the foregoing actions, the Issuer Trust trustees will obtain an opinion of counsel to the effect that:

the Issuer Trust will not be classified as an association taxable as a corporation for U.S. federal income tax purposes on account of the action; and

the action would not cause the Issuer Trust to be classified as other than a grantor trust for U.S. federal income tax purposes.

Table of Contents

Any required approval of holders of capital securities may be given at a meeting of holders of capital securities convened for that purpose or pursuant to written consent. The administrative trustees or, at the written request of the administrative trustees, the property trustee will cause a notice of any meeting at which holders of capital securities are entitled to vote to be given to each holder of record of capital securities in the manner set forth in each trust agreement.

No vote or consent of the holders of capital securities will be required for an Issuer Trust to redeem and cancel its capital securities in accordance with the applicable trust agreement.

Notwithstanding that holders of capital securities are entitled to vote or consent under any of the circumstances described above, any of the capital securities that are owned by us, the Issuer Trust trustees or any affiliate of us or any Issuer Trust trustees, will, for purposes of that vote or consent, be treated as if they were not outstanding.

Global Capital Securities

Unless otherwise set forth in the applicable prospectus supplement, any capital securities will be represented by fully registered global certificates issued as global capital securities that will be deposited with, or on behalf of, a depository with respect to that series instead of paper certificates issued to each individual holder. The depository arrangements that will apply, including the manner in which principal of and premium, if any, and interest on capital securities and other payments will be payable are discussed in more detail under the heading **Legal Ownership and Book-Entry Issuance** **What is a Global Security?**

Payment and Paying Agency

Payments in respect of capital securities will be made in accordance with the applicable policies of DTC as described under **Legal Ownership and Book-Entry Issuance** **What is a Global Security?** If any capital securities are not represented by global certificates, payments will be made by check mailed to the address of the holder entitled to them as it appears on the register. Unless otherwise specified in the applicable prospectus supplement, the paying agent will initially be Zions First National Bank. The paying agent will be permitted to resign as paying agent upon 30 days' written notice to the property trustee and us. In the event that Zions First National Bank is no longer the paying agent, the administrative trustees will appoint a successor (which will be a bank or trust company acceptable to the administrative trustees and us) to act as paying agent.

Registrar and Transfer Agent

Unless otherwise specified in the applicable prospectus supplement, the property trustee will act as registrar and transfer agent for the capital securities.

Registration of transfers of capital securities will be effected without charge by or on behalf of each Issuer Trust, but upon payment of any tax or other governmental charges that may be imposed in connection with any transfer or exchange. The Issuer Trusts will not be required to register or cause to be registered the transfer of their capital securities after the capital securities have been called for redemption.

Information Concerning the Property Trustee

The property trustee, other than during the occurrence and continuance of an event of default, undertakes to perform only those duties specifically set forth in each trust agreement and, after an event of default, must

Table of Contents

exercise the same degree of care and skill as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the property trustee is under no obligation to exercise any of the powers vested in it by the applicable trust agreement at the request of any holder of capital securities unless it is offered reasonable indemnity against the costs, expenses and liabilities that might be incurred as a result. If no event of default has occurred and is continuing and the property trustee is required to decide between alternative causes of action, construe ambiguous provisions in the applicable trust agreement or is unsure of the application of any provision of the applicable trust agreement, and the matter is not one on which holders of capital securities are entitled under the trust agreement to vote, then the property trustee will take such action as is directed by us and if not so directed, will take such action as it deems advisable and in the best interests of the holders of the trust securities and will have no liability except for its own negligence or willful misconduct.

Miscellaneous

The property trustee, the Delaware trustee and the administrative trustees are authorized and directed to conduct the affairs of and to operate the Issuer Trusts in such a way that no Issuer Trust will be (1) deemed to be an investment company required to be registered under the Investment Company Act or (2) classified as an association taxable as a corporation or as other than a grantor trust for U.S. federal income tax purposes and so that the corresponding junior subordinated debentures will be treated as indebtedness of Zions for U.S. federal income tax purposes. In addition, we, the property trustee and the administrative trustees are authorized to take any action not inconsistent with applicable law, the certificate of trust of each Issuer Trust or each trust agreement, that we, the property trustee or the administrative trustees determine in that person's discretion to be necessary or desirable for such purposes as long as such action does not adversely affect in any material respect the interests of the holders of the related capital securities.

Holders of the capital securities have no preemptive or similar rights.

No Issuer Trust may borrow money or issue debt or mortgage or pledge any of its assets.

Table of Contents

DESCRIPTION OF JUNIOR SUBORDINATED DEBENTURES

Please note that in this section entitled Description of Junior Subordinated Debentures, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own junior subordinated debentures registered in their own names, on the books that we or the debenture trustee maintain for this purpose, and not those who own beneficial interests in the junior subordinated debentures registered in street name or in junior subordinated debentures issued in book-entry form through one or more depositaries. Owners of beneficial interests in the junior subordinated debentures should also read the section entitled Legal Ownership and Book-Entry Issuance.

The following description summarizes the material provisions of the junior indenture and the junior subordinated debentures to be issued under the indenture. This description is not complete and is qualified in its entirety by reference to the junior indenture and the Trust Indenture Act. The specific terms of any series of junior subordinated debentures will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. The junior indenture is qualified under the Trust Indenture Act and has been filed as an exhibit to the registration statement of which this prospectus forms a part. Whenever particular defined terms of the junior indenture (as supplemented or amended from time to time) are referred to in this prospectus or a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.

General

The junior subordinated debentures are to be issued in one or more series under a Junior Subordinated Indenture, as may be supplemented from time to time, between us and The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association, as trustee. The indenture is referred to as the junior indenture and the related trustee is referred to as the debenture trustee. Each series of junior subordinated debentures will rank equally with all other series of junior subordinated debentures and will be unsecured and subordinate and junior in right of payment to the extent and in the manner set forth in the junior indenture to all of our senior indebtedness, as defined in the junior indenture. See Subordination of Junior Subordinated Debentures.

The junior subordinated debentures will constitute part of our junior subordinated debt, will be issued under the junior indenture and will be contractually subordinate and junior in right of payment to all of our senior indebtedness, as that term is defined in the junior indenture and summarized below. In addition, the junior subordinated debentures will be structurally subordinated to all indebtedness and other liabilities, including trade payables and lease obligations, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. This is because we are a holding company and a legal entity separate and distinct from our subsidiaries, and our right to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and the ability of holders of debt securities to benefit indirectly from such distribution, is subject to superior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. If we are entitled to participate in any assets of any of our subsidiaries upon the liquidation or reorganization of the subsidiary, the rights of holders of the junior subordinated debentures and senior indebtedness with respect to those assets will be subject to the contractual subordination of the junior subordinated debentures.

The junior indenture places no limitation on the amount of additional senior indebtedness, whether secured or unsecured, or junior subordinated debentures that may be incurred by us. We expect from time to time to incur additional indebtedness constituting senior indebtedness or junior subordinated debentures. See

Table of Contents

Subordination of Junior Subordinated Debentures and the prospectus supplement relating to any offering of capital securities or junior subordinated debentures.

The junior indenture does not contain any covenants designed to afford holders of debt securities protection in the event of a highly leveraged transaction involving us.

The junior subordinated debentures will be issuable in one or more series pursuant to an indenture supplemental to the junior indenture or a resolution of our board of directors or a committee thereof. We may also reopen a previously issued series of junior subordinated debentures and issue additional junior subordinated debentures of that series.

The applicable prospectus supplement will describe the specific terms of the junior subordinated debentures, which will include some or all of the following, as applicable:

the title of the junior subordinated debentures;

any limit upon the aggregate principal amount of the junior subordinated debentures;

the date or dates on which the principal of the junior subordinated debentures must be paid;

the interest rate or rates, if any, applicable to the junior subordinated debentures;

the dates on which any such interest will be payable;

our right, if any, to defer or extend an interest payment date;

the record dates for any interest payable on any interest payment date or the method by which any of the foregoing will be determined;

the place or places where the principal of and premium, if any, and interest on the junior subordinated debentures will be payable and where, subject to the terms of the junior indenture as described below under Denominations, Registration and Transfer, the junior subordinated debentures may be presented for registration of transfer or exchange and the place or places where notices and demands to or upon us in respect of the junior subordinated debentures and the junior indenture may be made;

any period or periods within which or date or dates on which, the price or prices at which and the terms and conditions upon which junior subordinated debentures may be redeemed, in whole or in part, at the holder's option or at our option;

the obligation or the right, if any, of Zions or a holder to redeem, purchase or repay the junior subordinated debentures and the period or periods within which, the price or prices at which and the other terms and conditions upon which the junior subordinated debentures will be redeemed, repaid or purchased, in whole or in part, pursuant to that obligation;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

if other than denominations of integral multiples of \$25, the denominations in which any junior subordinated debentures will be issued;

any additions, modifications or deletions in the events of default under the junior indenture or covenants of Zions specified in the junior indenture with respect to the junior subordinated debentures;

if other than the principal amount, the portion of the junior subordinated debentures principal amount that will be payable upon declaration of acceleration of the maturity thereof;

any additions or changes to the junior indenture with respect to a series of junior subordinated debentures that are necessary to permit or facilitate the issuance of such series in bearer form, registrable or not registrable as to principal, and with or without interest coupons;

any index or indices used to determine the amount of payments of principal of and premium, if any, on the junior subordinated debentures and the manner in which such amounts will be determined;

Table of Contents

the terms and conditions relating to the issuance of a temporary global security representing all of the junior subordinated debentures of such series and the exchange of such temporary global security for definitive junior subordinated debentures of such series;

whether the junior subordinated debentures of the series will be issued in whole or in part in the form of one or more global securities and, in such case, the depositary for such global securities;

the names and duties of any co-trustees, depositaries, authenticating agents, paying agents, transfer agents or registrars for the junior subordinated debentures;

the terms and conditions of any obligation or right of us or a holder to convert or exchange the junior subordinated debentures into capital securities;

any additions or changes to the form of trust agreement, guarantee agreement and expense agreement entered into in connection with respect the junior subordinated debentures;

the relative degree, if any, to which such junior subordinated debentures of the series will be senior to or be subordinated to other series of such junior subordinated debentures or other indebtedness of Zions in right of payment, whether such other series of junior subordinated debentures or other indebtedness are outstanding or not; and

any other terms of the junior subordinated debentures which could be different from those described in this prospectus.

Unless otherwise described in the applicable prospectus supplement, principal, premium, if any, and interest, if any, on the junior subordinated debentures will be payable, and the junior subordinated debentures will be transferable, at the office of the debenture trustee, except that interest may be paid at our option by check mailed to the address of the holder entitled to it as it appears on the security register.

Junior subordinated debentures may be sold at a substantial discount below their stated principal amount bearing no interest or interest at a rate which at the time of issuance is below market rates. Federal income tax consequences and other special considerations applicable to any such junior subordinated debentures will be summarized in the applicable prospectus supplement.

The junior indenture allows us to merge or consolidate with another company, or to sell all or substantially all of our assets to another company. If these events occur, the other company will be required to assume our responsibilities relating to the junior subordinated debentures, and we will be released from all liabilities and obligations. See Consolidation, Merger, Sale of Assets and Other Transactions below for a more detailed discussion. The junior indenture provides that we and the debenture trustee may change certain of our obligations or certain of your rights concerning the junior subordinated debentures of that series. However, to change the amount or timing of principal, interest or other payments under the junior subordinated debentures, every holder in the series must consent. See Modification of the Junior Indenture below for a more detailed discussion.

The applicable prospectus supplement will summarize specific financial and other terms of the particular series of junior subordinated debentures, while this prospectus describes terms that apply generally to all junior subordinated debentures. Consequently, the terms described in the applicable prospectus supplement will supplement those described in this prospectus and, if the terms described there are inconsistent with those described here, the terms described there will be controlling. The terms used in the applicable prospectus supplement have the meanings described in this prospectus, unless otherwise specified.

Denominations, Registration and Transfer

Unless otherwise described in the applicable prospectus supplement, the junior subordinated debentures will be issued only in registered form, without coupons, in denominations of \$25 and any integral multiple of \$25. Subject to restrictions relating to junior subordinated debentures represented by global securities, junior

Table of Contents

subordinated debentures of any series will be exchangeable for other junior subordinated debentures of the same issue and series, of any authorized denominations, of a like aggregate principal amount, of the same original issue date and stated maturity and bearing the same interest rate.

Subject to restrictions relating to junior subordinated debentures represented by global securities, junior subordinated debentures may be presented for exchange as provided above, and may be presented for registration of transfer (with the form of transfer endorsed thereon, or a satisfactory written instrument of transfer, duly executed) at the office of the appropriate securities registrar or at the office of any transfer agent designated by us for such purpose with respect to any series of junior subordinated debentures and referred to in the applicable prospectus supplement, without service charge and upon payment of any taxes and other governmental charges as described in the junior indenture. We will appoint the debenture trustee as securities registrar under the junior indenture. If the applicable prospectus supplement refers to any transfer agents (in addition to the securities registrar) initially designated by us for any series of junior subordinated debentures, we may at any time rescind the designation of any of these transfer agents or approve a change in the location through which any of these transfer agents acts, *provided* that we maintain a transfer agent in each place of payment for that series. We may at any time designate additional transfer agents for any series of junior subordinated debentures.

In the event of any redemption, neither we nor the debenture trustee will be required to:

issue, register the transfer of or exchange junior subordinated debentures of any series during the period beginning at the opening of business 15 days before the day of selection for redemption of junior subordinated debentures of that series and ending at the close of business on the day of mailing of the relevant notice of redemption; and

transfer or exchange any junior subordinated debentures so selected for redemption, except, in the case of any junior subordinated debentures being redeemed in part, any portion thereof not being redeemed.

Option to Defer Interest Payments

If provided in the applicable prospectus supplement, so long as no debenture event of default has occurred and is continuing, we will have the right at any time and from time to time during the term of any series of junior subordinated debentures to defer payment of interest for up to the number of consecutive interest payment periods that is specified in the applicable prospectus supplement, referred to as an extension period, subject to the terms, conditions and covenants, if any, specified in the prospectus supplement, *provided* that the extension period may not extend beyond the stated maturity of the applicable series of junior subordinated debentures. Prior to the termination of any applicable extension period, we may further defer the payment of interest (subject to the terms, conditions and covenants, if any, specified in the prospectus supplement), but not beyond the specified number of interest payment periods or the stated maturity of the junior subordinated debentures.

As a consequence of any such deferral, distributions on the capital securities would be deferred and would not result in any default (but would continue to accumulate additional distributions at the rate per annum described in the prospectus supplement for the capital securities) by the Issuer Trust of the capital securities during the extension period. During any applicable extension period, we may not:

declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any of our capital stock; or

make any payment of principal of or interest or premium, if any, on or repay, repurchase or redeem any of our debt securities that rank on a parity in all respects with or junior in interest to the corresponding junior subordinated debentures; in each case, other than:

repurchases, redemptions or other acquisitions of shares of our capital stock in connection with any employment contract, benefit plan or other similar arrangement with or for the benefit of one or more

Table of Contents

employees, officers, directors or consultants, in connection with a dividend reinvestment or shareholder stock purchase plan or in connection with the issuance of our capital stock (or securities convertible into or exercisable for our capital stock) as consideration in an acquisition transaction entered into prior to the applicable period during which we have elected to defer interest payments;

as a result of any exchange or conversion of any class or series of our capital stock (or any capital stock of a subsidiary of Zions) for any class or series of our capital stock or of any class or series of our indebtedness for any class or series of our capital stock;

the purchase of fractional interests in shares of our capital stock in accordance with the conversion or exchange provisions of such capital stock or the security being converted or exchanged;

any declaration of a dividend in connection with any shareholders' rights plan, or the issuance of rights, stock or other property under any shareholders' rights plan, or the redemption or repurchase of rights in accordance with any shareholders' rights plan; or

any dividend in the form of stock, warrants, options or other rights where the dividend stock or the stock issuable upon exercise of the warrants, options or other rights is the same stock as that on which the dividend is being paid or ranks on a parity with or junior to such stock.

These restrictions will also apply if:

we have actual knowledge of an event that with the giving of notice or the lapse of time, or both, would constitute an event of default under the junior indenture with respect to the junior subordinated debentures and we have not taken reasonable steps to cure the event, or

the junior subordinated debentures are held by an Issuer Trust and we are in default with respect to its payment of any obligations under the guarantee related to the related capital securities.

Unless otherwise indicated in the applicable prospectus supplement, in the event of an interest deferral with respect to any corresponding series of junior subordinated debentures, we must provide the debenture trustee notice of our election to defer interest at least one business day prior to the earlier of:

the next date distributions on the affected capital securities would have been payable except for the election to defer interest; and

the date the property trustee or the administrative trustees of the applicable Issuer Trust or both are required to give notice to any applicable self-regulatory organization or to holders of capital securities of the record date or the date such distributions are payable, but in any event not later than one business day prior to such record date.

Unless otherwise indicated in the applicable prospectus supplement, the property trustee with respect to the corresponding series of capital securities will give notice of our election to defer interest to the holders of the affected capital securities.

Redemption

Unless otherwise indicated in the applicable prospectus supplement, junior subordinated debentures will not be subject to any sinking fund.

Unless otherwise indicated in the applicable prospectus supplement, we may, at our option and subject to receipt of prior approval by the Federal Reserve Board if such approval is then required under applicable capital guidelines or policies, redeem the junior subordinated debentures of any series in whole at any time or in part from time to time. If the junior subordinated debentures of any series are so redeemable only on or after a specified date or upon the satisfaction of additional conditions, the applicable prospectus supplement will specify this date or describe these

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

conditions. Unless otherwise indicated in the form of security for such series, junior subordinated debentures in denominations larger than \$25 may be redeemed in part but only in integral multiples

Table of Contents

of \$25. Except as otherwise specified in the applicable prospectus supplement, the redemption price for any junior subordinated debenture will equal any accrued and unpaid interest, including additional interest, to the redemption date, plus 100% of the principal amount.

Except as otherwise specified in the applicable prospectus supplement, if a tax event in respect of a series of junior subordinated debentures or a capital treatment event has occurred and is continuing, we may, at our option and subject to receipt of prior approval by the Federal Reserve Board if such approval is then required under applicable capital guidelines or policies, redeem that series of junior subordinated debentures in whole (but not in part) at any time within 90 days following the occurrence of the tax event or capital treatment event, at a redemption price equal to 100% of the principal amount of the junior subordinated debentures then outstanding plus accrued and unpaid interest to the date fixed for redemption, except as otherwise specified in the applicable prospectus supplement.

A capital treatment event means the reasonable determination by us that as a result of

any amendment to or change, including any announced prospective change, in the laws, or any rules or regulations under the laws, of the United States or of any political subdivision of or in the United States, if the amendment or change is effective on or after the date the capital securities are issued; or

any official or administrative pronouncement or action or any judicial decision interpreting or applying such laws, rules or regulations, if the pronouncement, action or decision is announced on or after the date the capital securities are issued, there is more than an insubstantial risk that we will not be entitled to treat the liquidation amount of the capital securities as Tier 1 Capital for purposes of the applicable Federal Reserve Board capital adequacy guidelines as then in effect.

A tax event means the receipt by us and the Issuer Trust of an opinion of independent counsel, experienced in tax matters, to the following effect that, as a result of any tax change, there is more than an insubstantial risk that any of the following will occur:

the Issuer Trust is, or will be within 90 days after the date of the opinion of counsel, subject to U.S. federal income tax on income received or accrued on the corresponding junior subordinated debentures;

interest payable by us on the corresponding junior subordinated debentures is not, or within 90 days after the opinion of counsel will not be, deductible by us, in whole or in part, for U.S. federal income tax purposes; or

the Issuer Trust is, or will be within 90 days after the date of the opinion of counsel, subject to more than a de minimis amount of other taxes, duties or other governmental charges.

As used above, the term tax change means any of the following:

any amendment to or change, including any announced prospective change, in the laws or any regulations under the laws of the United States or of any political subdivision or taxing authority of or in the United States, if the amendment or change is enacted, promulgated or announced on or after the date the capital securities are issued; or

any official administrative pronouncement, including any private letter ruling, technical advice memorandum, field service advice, regulatory procedure, notice or announcement, including any notice or announcement of intent to adopt any procedures or regulations, or any judicial decision interpreting or applying such laws or regulations, whether or not the pronouncement or decision is issued to or in connection with a proceeding involving us or the trust or is subject to review or appeal, if the pronouncement or decision is enacted, promulgated or announced on or after the date of the issuance of the capital securities.

Table of Contents

Notice of any redemption will be mailed at least 45 days but not more than 75 days before the redemption date to each holder of junior subordinated debentures to be redeemed at its registered address. Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the junior subordinated debentures or portions thereof called for redemption.

Modification of the Junior Indenture

We may modify or amend the junior indenture with the consent of the debenture trustee, in some cases without obtaining the consent of security holders. Certain modifications and amendments also require the consent of the holders of at least a majority in principal amount of the outstanding junior subordinated debentures of each series issued under the junior indenture that would be affected by the modification or amendment. Further, without the consent of the holder of each outstanding junior subordinated debenture issued under the junior indenture that would be affected, we may not:

change the stated maturity of the principal, or any installment of principal or interest, on any outstanding junior subordinated debenture;

reduce any principal amount, premium or interest, on any outstanding junior subordinated debenture, including in the case of an original issue discount security the amount payable upon acceleration of the maturity of that security or change the manner of calculating interest;

change the place of payment where, or the currency in which, any principal, premium or interest, on any junior subordinated debenture is payable;

impair the right to institute suit for the enforcement of any payment on or after the stated maturity or, in the case of redemption, on or after the redemption date;

reduce the above-stated percentage of outstanding junior subordinated debentures necessary to modify or amend the applicable indenture; or

modify the above requirements or reduce the percentage of aggregate principal amount of outstanding junior subordinated debentures of any series required to be held by holders seeking to waive compliance with certain provisions of the relevant indenture or seeking to waive certain defaults,

and *provided* that, in the case of corresponding junior subordinated debentures, so long as any of the related capital securities remain outstanding,

no modification may be made that adversely affects the holders of such capital securities in any material respect, and no termination of the junior indenture may occur, and no waiver of any event of default or compliance with any covenant under the junior indenture may be effective, without the prior consent of the holders of at least a majority of the aggregate liquidation amount of all outstanding related capital securities affected unless and until the principal of the corresponding junior subordinated debentures and all accrued and unpaid interest have been paid in full and certain other conditions have been satisfied, and

where a consent under the junior indenture would require the consent of each holder of corresponding junior subordinated debentures, no such consent will be given by the property trustee without the prior consent of each holder of related capital securities.

We may, with the debenture trustee's consent, execute, without the consent of any holder of junior subordinated debentures, any supplemental indenture for the purpose of creating any new series of junior subordinated debentures.

Table of Contents

Events of Default

The following events will be debenture events of default with respect to each series of junior subordinated debentures:

default for 30 days in interest payment of any security of that series, including any additional interest (subject to the deferral of any interest payment in the case of an extension period);

default in any principal or premium payment on any security of that series at maturity;

failure by us for 90 days in performing any other covenant or warranty in the junior indenture after:

we are given written notice by the debenture trustee; or

the holders of at least 25% in aggregate principal amount of the outstanding securities of that series give written notice to us and the debenture trustee;

our bankruptcy, insolvency or reorganization; or

any other event of default provided for with respect to junior subordinated debentures of that series.

The holders of a majority in aggregate outstanding principal amount of junior subordinated debentures of each series affected have the right to direct the time, method and place of conducting any proceeding for any remedy available to the debenture trustee. The debenture trustee or the holders of at least 25% in aggregate outstanding principal amount of junior subordinated debentures of each series affected may declare the principal (or, if the junior subordinated debentures of such series are discount securities, the portion of the principal amount specified in the applicable prospectus supplement) due and payable immediately upon a debenture event of default. In the case of corresponding junior subordinated debentures, should the debenture trustee or the property trustee fail to make this declaration, the holders of at least 25% in aggregate liquidation amount of the related capital securities will have the right to make this declaration. The property trustee may annul the declaration and waive the default, provided all defaults have been cured and all payment obligations have been made current. In the case of corresponding junior subordinated debentures, should the property trustee fail to annul the declaration and waive the default, the holders of a majority in aggregate liquidation amount of the related capital securities will have the right to do so. In the event of our bankruptcy, insolvency or reorganization, junior subordinated debentures holders' claims would fall under the broad equity power of a federal bankruptcy court, and to that court's determination of the nature of those holders' rights.

The holders of a majority in aggregate outstanding principal amount of each series of junior subordinated debentures affected may, on behalf of the holders of all the junior subordinated debentures of that series, waive any default, except a default in the payment of principal or interest including any additional interest, unless the default has been cured and a sum sufficient to pay all matured installments of interest including any additional interest and principal due otherwise than by acceleration has been deposited with the debenture trustee, or a default in respect of a covenant or provision which under the junior indenture cannot be modified or amended without the consent of the holder of each outstanding junior subordinated debenture of that series. In the case of corresponding junior subordinated debentures, should the holders of such corresponding junior subordinated debentures fail to waive the default, the holders of a majority in aggregate liquidation amount of the related capital securities will have the right to do so. We are required to file annually with the debenture trustee a certificate as to whether or not we are in compliance with all the conditions and covenants applicable to us under the junior indenture.

In case a debenture event of default has occurred and is continuing as to a series of corresponding junior subordinated debentures, the property trustee will have the right to declare the principal of and the interest on the corresponding junior subordinated debentures, and any other amounts payable under the junior indenture, to be immediately due and payable and to enforce its other rights as a creditor with respect to the corresponding junior subordinated debentures.

Table of Contents

Enforcement of Certain Rights by Holders of Capital Securities

If a debenture event of default with respect to a series of corresponding junior subordinated debentures has occurred and is continuing and the event is attributable to our failure to pay interest or principal on the corresponding junior subordinated debentures on the date the interest or principal is due and payable, a holder of the related capital securities may institute a legal proceeding directly against us for enforcement of payment to that holder of the principal or interest (including any additional interest) on corresponding junior subordinated debentures having a principal amount equal to the aggregate liquidation amount of the related capital securities of that holder. We refer to this proceeding in this document as a direct action. We may not amend the junior indenture to remove this right to bring a direct action without the prior written consent of the holders of all of the related capital securities outstanding. If the right to bring a direct action is removed, the applicable Issuer Trust may become subject to reporting obligations under the Exchange Act. We will have the right under the junior indenture to set-off any payment made to the holder of the related capital securities by us in connection with a direct action.

The holders of related capital securities will not be able to exercise directly any remedies other than those set forth in the preceding paragraph available to the holders of the junior subordinated debentures unless there has occurred an event of default under the trust agreement. See Description of Capital Securities and Related Instruments Events of Default; Notice.

Consolidation, Merger, Sale of Assets and Other Transactions

The junior indenture provides that we may not consolidate with or merge into another corporation or transfer our properties and assets substantially as an entirety to another person unless:

if we are not the successor entity, the entity formed by the consolidation or into which we merge, or to which we transfer our properties and assets (1) is a corporation, partnership or trust organized and existing under the laws of the United States, any state of the United States or the District of Columbia and (2) expressly assumes by supplemental indenture the payment of any principal, premium or interest on the junior subordinated debentures, and the performance of our other covenants under the junior indenture;

immediately after giving effect to this transaction, no debenture event of default, and no event which, after notice or lapse of time or both, would become a debenture event of default, will have occurred and be continuing under the relevant indenture; and

an officer's certificate and legal opinion relating to these conditions must be delivered to the debenture trustee.

The general provisions of the junior indenture do not afford holders of the junior subordinated debentures protection in the event of a highly leveraged or other transaction involving us that may adversely affect holders of the junior subordinated debentures.

Satisfaction and Discharge

The junior indenture provides that when, among other things, all junior subordinated debentures not previously delivered to the debenture trustee for cancellation:

have become due and payable;

will become due and payable at their stated maturity within one year; or

are to be called for redemption within one year under arrangements satisfactory to the debenture trustee for the giving of notice of redemption by the debenture trustee;

Table of Contents

and we deposit or cause to be deposited with the debenture trustee funds, in trust, for the purpose and in an amount sufficient to pay and discharge the entire indebtedness on the junior subordinated debentures not previously delivered to the debenture trustee for cancellation, for the principal, premium, if any, and interest, including any additional interest, to the date of the deposit or to the stated maturity, as the case may be, then the junior indenture will cease to be of further effect (except as to our obligations to pay all other sums due under the junior indenture and to provide the officers' certificates and opinions of counsel described therein), and we will be deemed to have satisfied and discharged the junior indenture.

Conversion or Exchange

If and to the extent indicated in the applicable prospectus supplement, a series of junior subordinated debentures may be convertible or exchangeable into junior subordinated debentures of another series or into capital securities of another series. The specific terms on which series may be converted or exchanged will be described in the applicable prospectus supplement. These terms may include provisions for conversion or exchange, whether mandatory, at the holder's option, or at our option, in which case the number of shares of capital securities or other securities the junior subordinated debenture holder would receive would be calculated at the time and manner described in the applicable prospectus supplement.

Subordination of Junior Subordinated Debentures

The junior subordinated debentures will be subordinate in right of payment, to the extent set forth in the junior indenture, to all our senior indebtedness, which we define below. If we default in the payment of any principal, premium, if any, or interest, if any, or any other amount payable on any senior indebtedness when it becomes due and payable, whether at maturity or at a date fixed for redemption or by declaration of acceleration or otherwise, then, unless and until the default has been cured or waived or has ceased to exist or all senior indebtedness has been paid, no direct or indirect payment (in cash, property, securities, by set-off or otherwise) may be made or agreed to be made on the junior subordinated debentures, or in respect of any redemption, repayment, retirement, purchase or other acquisition of any of the junior subordinated debentures.

As used in this prospectus, the term "senior indebtedness" means (1) our senior debt and (2) the allocable amounts of our senior subordinated debt. Each of these terms is defined as follows. The term "senior debt" means any obligation of ours to our creditors, whether now outstanding or subsequently incurred, other than any obligation as to which, in the instrument creating or evidencing the obligation or pursuant to which the obligation is outstanding, it is provided that such obligation is not senior in right of payment to the junior subordinated debentures. Senior debt does not include:

any of our indebtedness that, when incurred and without respect to any election under section 1111(b) of the Bankruptcy Reform Act of 1978, was without recourse to us;

any of our indebtedness to any of our subsidiaries;

any of our indebtedness to any of our employees;

any other junior subordinated debentures issued pursuant to the junior indenture;

any of our trade accounts payable;

any accrued liabilities arising in the ordinary course of our business; and

our senior subordinated debt (to the extent such debt is not considered an "allocable amount").

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

The term "senior subordinated debt" means any obligation of ours to our creditors, whether now outstanding or subsequently incurred, where the instrument creating or evidencing the obligation or pursuant to which it is

Table of Contents

outstanding, provides that it is subordinate and junior in right of payment to senior debt pursuant to subordination provisions substantially similar to those contained in the indenture governing our outstanding senior subordinated debt. Senior subordinated debt includes our outstanding securities titled as senior subordinated debt securities and any senior subordinated debt securities issued in the future with substantially similar subordination terms, but does not include our obligations related to Zions Capital Trust B's 8.0% Capital Securities due September 1, 2032, Stockmen's Statutory Trust II's Floating Rate Capital Securities due March 26, 2033, and Stockmen's Statutory Trust III's Floating Rate Capital Securities due March 17, 2034 or junior subordinated debentures of any series or any junior subordinated debentures issued in the future with subordination terms substantially similar to those of the junior subordinated debentures. Finally, the term allocable amounts, when used with respect to any senior subordinated debt, means the amount necessary to pay all principal, any premium and any interest on that senior subordinated debt in full less, if applicable, any portion of those amounts which would have been paid to, and retained by, the holders of senior subordinated debt, whether from us or any holder of or trustee for debt subordinated to that senior subordinated debt, but for the fact that such senior subordinated debt is subordinate or junior in right of payment to trade accounts payable or accrued liabilities arising in the ordinary course of business.

Senior indebtedness includes certain of our obligations with respect to our outstanding senior securities titled as subordinated debt securities and any subordinated debt securities issued in the future with substantially similar subordination terms, but does not include the junior subordinated debentures of any series or any junior subordinated debentures issued in the future with subordination terms substantially similar to those of the junior subordinated debentures.

In the event of:

any insolvency, bankruptcy, receivership, liquidation, reorganization, readjustment, composition or other similar proceeding relating to us, our creditors or our property;

any proceeding for the liquidation, dissolution or other winding up of us, voluntary or involuntary, whether or not involving insolvency or bankruptcy proceedings;

any assignment by us for the benefit of creditors; or

any other marshaling of our assets,

then all senior indebtedness, including any interest accruing after the commencement of any of the proceedings described above, must first be paid in full before any payment or distribution, whether in cash, securities or other property, may be made on account of the junior subordinated debentures. Any payment or distribution on account of the junior subordinated debentures, whether in cash, securities or other property, that would otherwise but for the subordination provisions be payable or deliverable in respect of the junior subordinated debentures will be paid or delivered directly to the holders of senior indebtedness in accordance with the priorities then existing among those holders until all senior indebtedness, including any interest accruing after the commencement of any such proceedings, has been paid in full.

In the event of any of the proceedings described above, after payment in full of all senior indebtedness, the holders of junior subordinated debentures, together with the holders of any of our obligations ranking on a parity with the junior subordinated debentures, which for this purpose includes the allocable amounts of subordinated debt, will be entitled to be paid from our remaining assets the amounts at the time due and owing on the junior subordinated debentures and the other obligations before any payment or other distribution, whether in cash, property or otherwise, will be made on account of any of our capital stock or obligations ranking junior to the junior subordinated debentures. If any payment or distribution on account of the junior subordinated debentures of any character or any security, whether in cash, securities or other property, is received by any holder of any junior subordinated debentures in contravention of any of the terms described above and before all the senior indebtedness has been paid in full, that payment or distribution or security will be received in trust for the benefit

of, and must be paid over or delivered and transferred to, the holders of the senior indebtedness at the time

Table of Contents

outstanding in accordance with the priorities then existing among those holders for application to the payment of all senior indebtedness remaining unpaid to the extent necessary to pay all senior indebtedness in full. Because of this subordination, in the event of our insolvency, holders of senior indebtedness may receive more, ratably, and holders of the junior subordinated debentures may receive less, ratably, than our other creditors. Such subordination will not prevent the occurrence of any event of default under the junior indenture.

Trust Expenses

Pursuant to the expense agreement for each series of corresponding junior subordinated debentures, we, as holder of the trust common securities, will irrevocably and unconditionally agree with each Issuer Trust that holds junior subordinated debentures that we will pay to the Issuer Trust, and reimburse the Issuer Trust for, the full amounts of any costs, expenses or liabilities of the Issuer Trust, other than obligations of the Issuer Trust to pay to the holders of any capital securities or other similar interests in the Issuer Trust the amounts due such holders pursuant to the terms of the capital securities or such other similar interests, as the case may be. This payment obligation will include any costs, expenses or liabilities of the Issuer Trust that are required by applicable law to be satisfied in connection with a dissolution of the Issuer Trust.

Governing Law

The junior indenture is, and the junior subordinated debentures will be, governed by and construed in accordance with the laws of the State of New York.

Information Concerning the Debenture Trustee

The debenture trustee will have, and be subject to, all the duties and responsibilities specified with respect to an indenture trustee under the Trust Indenture Act. Subject to these provisions, the debenture trustee is under no obligation to exercise any of the powers vested in it by the junior indenture at the request of any holder of junior subordinated debentures, unless offered reasonable indemnity by that holder against the costs, expenses and liabilities which might be incurred thereby. The debenture trustee is not required to expend or risk its own funds or otherwise incur personal financial liability in the performance of its duties.

Corresponding Junior Subordinated Debentures

The corresponding junior subordinated debentures may be issued in one or more series of junior subordinated debentures under the junior indenture with terms corresponding to the terms of a series of related capital securities. In that event, concurrently with the issuance of each Issuer Trust's capital securities, the Issuer Trust will invest the proceeds thereof and the consideration paid by us for the trust common securities of the Issuer Trust in such series of corresponding junior subordinated debentures issued by us to the Issuer Trust. Each series of corresponding junior subordinated debentures will be in the principal amount equal to the aggregate stated liquidation amount of the related capital securities and trust common securities of the Issuer Trust and will rank on a parity with all other series of junior subordinated debentures. Holders of the related capital securities for a series of corresponding junior subordinated debentures will have the rights in connection with modifications to the junior indenture or upon occurrence of debenture events of default, as described under **Modification of the Junior Indenture** and **Events of Default**, unless provided otherwise in the prospectus supplement for such related capital securities.

Unless otherwise specified in the applicable prospectus supplement, if a tax event or a capital treatment event in respect of an Issuer Trust has occurred and is continuing, we may, at our option and subject to prior

Table of Contents

approval of the Federal Reserve Board if then required under applicable capital guidelines or policies, redeem the corresponding junior subordinated debentures at any time within 90 days of the occurrence of such tax event or capital treatment event, in whole but not in part, subject to the provisions of the junior indenture and whether or not the corresponding junior subordinated debentures are then otherwise redeemable at our option. Unless provided otherwise in the applicable prospectus supplement, the redemption price for any corresponding junior subordinated debentures will be equal to 100% of the principal amount of the corresponding junior subordinated debentures then outstanding plus accrued and unpaid interest to the date fixed for redemption. For so long as the applicable Issuer Trust is the holder of all the outstanding corresponding junior subordinated debentures, the proceeds of any redemption will be used by the Issuer Trust to redeem the corresponding trust securities in accordance with their terms. We also have the right at any time to dissolve the applicable Issuer Trust and to distribute the corresponding junior subordinated debentures to the holders of the related series of trust securities in liquidation of the Issuer Trust. See

Description of Capital Securities and Related Instruments Redemption or Exchange Distribution of Corresponding Junior Subordinated Debentures for a more detailed discussion. We may not redeem a series of corresponding junior subordinated debentures in part unless all accrued and unpaid interest has been paid in full on all outstanding corresponding junior subordinated debentures of that series for all interest periods terminating on or prior to the redemption date.

We have agreed in the junior indenture, as to each series of corresponding junior subordinated debentures, that if and so long as:

the Issuer Trust of the related series of trust securities is the holder of all the corresponding junior subordinated debentures;

a tax event in respect of such Issuer Trust has occurred and is continuing; and

we elect, and do not revoke that election, to pay additional sums in respect of the trust securities, we will pay to the Issuer Trust these additional sums (as defined under Description of Capital Securities and Related Instruments Redemption or Exchange). We also have agreed, as to each series of corresponding junior subordinated debentures:

to maintain directly or indirectly 100% ownership of the trust common securities of the Issuer Trust to which the corresponding junior subordinated debentures have been issued, *provided* that certain successors which are permitted under the junior indenture may succeed to our ownership of the trust common securities;

not to voluntarily dissolve, wind-up or liquidate any Issuer Trust, except:

in connection with a distribution of corresponding junior subordinated debentures to the holders of the capital securities in exchange for their capital securities upon liquidation of the Issuer Trust; or

in connection with certain mergers, consolidations or amalgamations permitted by the related trust agreement, in either such case, if specified in the applicable prospectus supplement, upon prior approval of the Federal Reserve Board, if then required under applicable Federal Reserve Board capital guidelines or policies; and

to use reasonable efforts, consistent with the terms and provisions of the related trust agreement, to cause the Issuer Trust to be classified as a grantor trust and not as an association taxable as a corporation for U.S. federal income tax purposes.

Table of Contents

DESCRIPTION OF GUARANTEES

Please note that in this section entitled Description of Guarantees, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own capital securities registered in their own names, on the books that we or the guarantee trustee maintain for this purpose, and not those who own beneficial interests in the capital securities registered in street name or in capital securities issued in book-entry form through one or more depositories. Owners of beneficial interests in the capital securities should also read the section entitled Legal Ownership and Book-Entry Issuance.

The following description summarizes the material provisions of the guarantees and the agreements as to expenses and liabilities. This description is not complete and is subject to, and is qualified in its entirety by reference to, all of the provisions of each guarantee and each expense agreement, including the definitions therein, and the Trust Indenture Act. The forms of the guarantee and the expense agreement have been filed as an exhibit to the registration statement of which this prospectus forms a part. Reference in this summary to capital securities means the capital securities issued by the related Issuer Trust to which a guarantee or expense agreement relates. Whenever particular defined terms of the guarantees or expense agreements are referred to in this prospectus or in a prospectus supplement, those defined terms are incorporated in this prospectus or the prospectus supplement by reference.

General

A guarantee will be executed and delivered by us at the same time each Issuer Trust issues its capital securities. Each guarantee is for the benefit of the holders from time to time of the capital securities. The Bank of New York Mellon Trust Company, N.A. will act as indenture trustee (referred to below as the guarantee trustee) under each guarantee for the purposes of compliance with the Trust Indenture Act and each guarantee will be qualified as an indenture under the Trust Indenture Act. The guarantee trustee will hold each guarantee for the benefit of the holders of the related Issuer Trust's capital securities.

We will irrevocably and unconditionally agree to pay in full on a subordinated basis, to the extent described below, the guarantee payments (as defined below) to the holders of the capital securities, as and when due, regardless of any defense, right of set-off or counterclaim that the Issuer Trust may have or assert other than the defense of payment. The following payments or distributions with respect to the capital securities, to the extent not paid by or on behalf of the related Issuer Trust (referred to as the guarantee payments), will be subject to the related guarantee:

any accumulated and unpaid distributions required to be paid on the capital securities, to the extent that the Issuer Trust has funds on hand available for the distributions;

the redemption price with respect to any capital securities called for redemption, to the extent that the Issuer Trust has funds on hand available for the redemptions; or

upon a voluntary or involuntary dissolution, winding up or liquidation of the Issuer Trust (unless the corresponding junior subordinated debentures are distributed to holders of such capital securities in exchange for their capital securities), the lesser of:

the liquidation distribution; and

the amount of assets of the Issuer Trust remaining available for distribution to holders of capital securities after satisfaction of liabilities to creditors of the Issuer Trust as required by applicable law.

Our obligation to make a guarantee payment may be satisfied by direct payment of the required amounts by us to the holders of the applicable capital securities or by causing the Issuer Trust to pay these amounts to the holders.

Table of Contents

Each guarantee will be an irrevocable and unconditional guarantee on a subordinated basis of the related Issuer Trust's obligations under the capital securities, but will apply only to the extent that the related Issuer Trust has funds sufficient to make such payments, and is not a guarantee of collection. See Status of the Guarantees.

If we do not make interest payments on the corresponding junior subordinated debentures held by the Issuer Trust, the Issuer Trust will not be able to pay distributions on the capital securities and will not have funds legally available for the distributions. Each guarantee constitutes an unsecured obligation of ours and will rank subordinate and junior in right of payment to all of our senior indebtedness. See Status of the Guarantees.

The junior subordinated debentures and, in the case of junior subordinated debentures in bearer form, any related interest coupons, will constitute part of our junior subordinated debt, will be issued under the junior indenture and will be subordinate and junior in right of payment to all of our senior indebtedness, as defined in the junior indenture. In addition, the junior subordinated debentures will be structurally subordinated to all indebtedness and other liabilities, including trade payables and lease obligations, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. This is because we are a holding company and a legal entity separate and distinct from our subsidiaries, and our right to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and the ability of holders of debt securities to benefit indirectly from such distribution, is subject to superior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. If we are entitled to participate in any assets of any of our subsidiaries upon the liquidation or reorganization of the subsidiary, the rights of holders of the junior subordinated debentures and senior indebtedness with respect to those assets will be subject to the contractual subordination of the junior subordinated debentures.

Except as otherwise provided in the applicable prospectus supplement, the guarantees do not limit the incurrence or issuance of other secured or unsecured debt of ours, including senior indebtedness, whether under the junior indenture, any other existing indenture or any other indenture that we may enter into in the future or otherwise. See the applicable prospectus supplement relating to any offering of capital securities.

We have, through the applicable guarantee, the applicable trust agreement, the applicable series of corresponding junior subordinated debentures, the junior indenture and the applicable expense agreement, taken together, fully, irrevocably and unconditionally guaranteed all of the Issuer Trust's obligations under the related capital securities. No single document standing alone or operating in conjunction with fewer than all of the other documents constitutes a guarantee. It is only the combined operation of these documents that has the effect of providing a full, irrevocable and unconditional guarantee of an Issuer Trust's obligations under its related capital securities. See Relationship Among the Capital Securities and the Related Instruments.

Status of the Guarantees

Each guarantee will constitute an unsecured obligation of ours and will rank subordinate and junior in right of payment to all of our senior indebtedness in the same manner as corresponding junior subordinated debentures.

Each guarantee will rank equally with all other similar guarantees issued by us on behalf of the holders of capital securities issued by any issuer trust. Each guarantee will constitute a guarantee of payment and not of collection (i.e., the guaranteed party may institute a legal proceeding directly against us to enforce its rights under the guarantee without first instituting a legal proceeding against any other person or entity). Each guarantee will be held for the benefit of the holders of the related capital securities. Each guarantee will not be discharged

Table of Contents

except by payment of the guarantee payments in full to the extent not paid by the Issuer Trust or upon distribution to the holders of the capital securities of the corresponding junior subordinated debentures. None of the guarantees places a limitation on the amount of additional senior indebtedness that may be incurred by us. We expect from time to time to incur additional indebtedness constituting senior indebtedness.

Amendments and Assignment

Except with respect to any changes which do not materially adversely affect the material rights of holders of the related capital securities (in which case no vote of the holders will be required), no guarantee may be amended without the prior approval of the holders of at least a majority of the aggregate liquidation amount of the related outstanding capital securities. The manner of obtaining any such approval will be as described under Description of Capital Securities and Related Instruments Voting Rights; Amendment of Each Trust Agreement. All guarantees and agreements contained in each guarantee will bind our successors, assigns, receivers, trustees and representatives and will inure to the benefit of the holders of the related capital securities then outstanding. We may not assign our obligations under the guarantees except in connection with a consolidation, merger or sale involving us that is permitted under the terms of the junior indenture and then only if any such successor or assignee agrees in writing to perform our obligations under the guarantees.

Events of Default

An event of default under each guarantee will occur upon our failure to perform any of our payment obligations under the guarantee or to perform any non-payment obligations if this non-payment default remains unremedied for 30 days. The holders of at least a majority in aggregate liquidation amount of the related capital securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the guarantee trustee in respect of the guarantee or to direct the exercise of any trust or power conferred upon the guarantee trustee under the guarantee.

The holders of at least a majority in aggregate liquidation amount of the related capital securities have the right, by vote, to waive any past events of default and its consequences under each guarantee. If such a waiver occurs, any event of default will cease to exist and be deemed to have been cured under the terms of the guarantee.

Any holder of the capital securities may, to the extent permissible under applicable law, institute a legal proceeding directly against us to enforce its rights under the guarantee without first instituting a legal proceeding against the Issuer Trust, the guarantee trustee or any other person or entity.

We, as guarantor, are required to file annually with the guarantee trustee a certificate as to whether or not we are in compliance with all the conditions and covenants applicable to us under the guarantee.

Information Concerning the Guarantee Trustee

The guarantee trustee, other than during the occurrence and continuance of a default by us in performance of any guarantee, undertakes to perform only those duties specifically set forth in each guarantee and, after default with respect to any guarantee, must exercise the same degree of care and skill as a prudent person would exercise or use in the conduct of his or her own affairs. Subject to this provision, the guarantee trustee is under no obligation to exercise any of the powers vested in it by any guarantee at the request of any holder of any capital securities unless it is offered reasonable indemnity against the costs, expenses and liabilities that might be incurred as a result. However, such a requirement does not relieve the guarantee trustee of its obligations to exercise its rights and powers under the guarantee upon the occurrence of an event of default.

Table of Contents

Termination of the Guarantees

Each guarantee will terminate and be of no further force and effect upon:

full payment of the redemption price of the related capital securities;

full payment of the amounts payable upon liquidation of the related Issuer Trust; or

the distribution of corresponding junior subordinated debentures to the holders of the related capital securities in exchange for their capital securities.

Each guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of the related capital securities must restore payment of any sums paid under the capital securities or the guarantee.

Governing Law

Each guarantee will be governed by and construed in accordance with the laws of the State of New York.

The Expense Agreement

Pursuant to the expense agreement that will be entered into by us under each trust agreement, we will irrevocably and unconditionally guarantee to each person or entity to whom the Issuer Trust becomes indebted or liable, the full payment of any costs, expenses or liabilities of the Issuer Trust, other than obligations of the Issuer Trust to pay to the holders of any capital securities or other similar interests in the Issuer Trust of the amounts owed to holders pursuant to the terms of the capital securities or other similar interests, as the case may be. The expense agreement will be enforceable by third parties.

Our obligations under each expense agreement will be subordinated in right of payment to the same extent as the related junior subordinated debentures.

Table of Contents

**RELATIONSHIP AMONG THE CAPITAL SECURITIES
AND THE RELATED INSTRUMENTS**

Please note that in this section entitled Relationship Among the Capital Securities and the Related Instruments, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries. Also, in this section, references to holders mean those who own capital securities registered in their own names, on the books that we or the guarantee trustee maintain for this purpose, and not those who own beneficial interests in the capital securities registered in street name or in capital securities issued in book-entry form through one or more depositaries. Owners of beneficial interests in the capital securities should also read the section entitled Legal Ownership and Book-Entry Issuance.

The following description of the relationship among the capital securities, the corresponding junior subordinated debentures, the relevant expense agreement and the relevant guarantee is not complete and is subject to, and is qualified in its entirety by reference to, each trust agreement, the junior indenture and the form of guarantee, each of which is incorporated as an exhibit to the registration statement of which this prospectus forms a part, and the Trust Indenture Act.

Full and Unconditional Guarantee

Payments of distributions and other amounts due on the capital securities (to the extent the related Issuer Trust has funds available for the payment of such distributions) are irrevocably guaranteed by us as described above under Description of Guarantees. Taken together, our obligations under each series of corresponding junior subordinated debentures, the junior indenture, the related trust agreement, the related expense agreement, and the related guarantee provide, in the aggregate, a full, irrevocable and unconditional guarantee of payments of distributions and other amounts due on the related capital securities. No single document standing alone or operating in conjunction with fewer than all of the other documents constitutes such guarantee. It is only the combined operation of these documents that has the effect of providing a full, irrevocable and unconditional guarantee of the Issuer Trust's obligations under the related capital securities. If and to the extent that we do not make payments on any series of corresponding junior subordinated debentures, the Issuer Trust will not pay distributions or other amounts due on its related capital securities. The guarantees do not cover payment of distributions when the related Issuer Trust does not have sufficient funds to pay such distributions. In such an event, the remedy of a holder of any capital securities is to institute a legal proceeding directly against us pursuant to the terms of the junior indenture for enforcement of payment of amounts of such distributions to such holder. Our obligations under each guarantee are subordinate and junior in right of payment to all of our senior indebtedness.

If we make payment on the corresponding subordinated junior subordinated debentures and the relevant Issuer Trust has funds available to make payments on its related capital securities but fails to do so, a holder of such capital securities may begin a legal proceeding against us to enforce our obligations under the related guarantee to make these payments or to cause the Issuer Trust to make these payments. In the event an Issuer Trust receives payments on the corresponding subordinated junior debentures, but these funds are available for payment on the related capital securities only after claims made by creditors of the trust are paid, we would be obligated under the related expense agreement to pay those claims.

Sufficiency of Payments

As long as payments of interest and other payments are made when due on each series of corresponding junior subordinated debentures, such payments will be sufficient to cover distributions and other payments due on the related capital securities, primarily because:

the aggregate principal amount of each series of corresponding junior subordinated debentures will be equal to the sum of the aggregate stated liquidation amount of the related capital securities and related trust common securities;

Table of Contents

the interest rate and interest and other payment dates on each series of corresponding junior subordinated debentures will match the distribution rate and distribution and other payment dates for the related capital securities;

we will pay, under the related expense agreement, for all and any costs, expenses and liabilities of the Issuer Trust except the Issuer Trust's obligations to holders of its capital securities under the capital securities; and

each trust agreement provides that the Issuer Trust will not engage in any activity that is inconsistent with the limited purposes of such Issuer Trust.

Notwithstanding anything to the contrary in the junior indenture, we have the right to set-off any payment we are otherwise required to make under the junior indenture with a payment we make under the related guarantee.

Enforcement Rights of Holders of Capital Securities

A holder of any related capital security may, to the extent permissible under applicable law, institute a legal proceeding directly against us to enforce its rights under the related guarantee without first instituting a legal proceeding against the guarantee trustee, the related Issuer Trust or any other person or entity.

A default or event of default under any of our senior indebtedness would not constitute a default or event of default under the junior indenture. However, in the event of payment defaults under, or acceleration of, our senior indebtedness, the subordination provisions of the junior indenture provide that no payments may be made in respect of the corresponding junior subordinated debentures until the senior indebtedness has been paid in full or any payment default has been cured or waived. Failure to make required payments on any series of corresponding junior subordinated debentures would constitute an event of default under the junior indenture.

Limited Purpose of Issuer Trusts

Each Issuer Trust's capital securities evidence a preferred and undivided beneficial interest in the assets of the Issuer Trust, and each Issuer Trust exists for the sole purpose of issuing its capital securities and trust common securities and investing the proceeds thereof in corresponding junior subordinated debentures and engaging in only those other activities necessary or incidental thereto. A principal difference between the rights of a holder of a capital security and a holder of a corresponding junior subordinated debenture is that a holder of a corresponding junior subordinated debenture is entitled to receive from us the principal amount of and interest accrued on corresponding junior subordinated debentures held, while a holder of capital securities is entitled to receive distributions from the Issuer Trust (or from us under the applicable guarantee) if and to the extent the Issuer Trust has funds available for the payment of such distributions.

Rights Upon Dissolution

Upon any voluntary or involuntary dissolution of any Issuer Trust involving our liquidation, the holders of the related capital securities will be entitled to receive, out of the assets held by such Issuer Trust, the liquidation distribution in cash. See Description of Capital Securities and Related Instruments Liquidation Distribution Upon Dissolution. Upon any voluntary or involuntary liquidation or bankruptcy of ours, the property trustee, as holder of the corresponding junior subordinated debentures, would be a subordinated creditor of ours, subordinated in right of payment to all senior indebtedness as set forth in the junior indenture, but entitled to receive payment in full of principal and interest, before any shareholder of ours receives payments or distributions. Since we are the guarantor under each guarantee and have agreed, under the related expense agreement, to pay for all costs, expenses and liabilities of each Issuer Trust (other than the Issuer Trust's obligations to the holders of its capital securities), the positions of a holder of such capital securities and a holder

Table of Contents

of such corresponding junior subordinated debentures relative to other creditors and to our shareholders in the event of our liquidation or bankruptcy are expected to be substantially the same.

Notices

Notices to be given to holders of a global capital security will be given only to the depositary, in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of any capital securities not in global form will be sent by mail to the respective addresses of the holders as they appear in the trustee's records, and will be deemed given when mailed. Neither the failure to give any notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive notices.

Table of Contents

LEGAL OWNERSHIP AND BOOK-ENTRY ISSUANCE

In this section, we describe special considerations that will apply to registered securities issued in global i.e., book-entry form. First we describe the difference between legal ownership and indirect ownership of registered securities. Then we describe special provisions that apply to global securities.

Who Is the Legal Owner of a Registered Security?

Each security in registered form will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. We refer to those who have securities registered in their own names, on the books that we or the trustee, warrant agent or other agent maintain for this purpose, as the holders of those securities. These persons are the legal holders of the securities. We refer to those who, indirectly through others, own beneficial interests in securities that are not registered in their own names as indirect owners of those securities. As we discuss below, indirect owners are not legal holders, and investors in securities issued in book-entry form or in street name will be indirect owners.

Book-Entry Owners

We or the Issuer Trusts, as applicable, will issue each security in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means securities will be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Under each indenture, agreement or other instrument relating to a security, only the person in whose name a security is registered is recognized as the holder of that security. Consequently, for securities issued in global form, we or the Issuer Trusts will recognize only the depositary as the holder of the securities and we or the Issuer Trusts will make all payments on the securities, including deliveries of any property other than cash, to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers. They are not obligated to do so under the terms of the securities.

As a result, investors will not own securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the securities are issued in global form, investors will be indirect owners, and not holders, of the securities.

Street Name Owners

In the future we or the Issuer Trusts, as applicable, may terminate a global security or issue securities initially in non-global form. In these cases, investors may choose to hold their securities in their own names or in street name. Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we or the Issuer Trusts, as applicable, will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities and we or the Issuer Trusts, as applicable, will make all payments on those securities, including deliveries of any property other than cash, to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect owners, not holders, of those securities.

Table of Contents

Legal Holders

Our obligations, the obligations of the Issuer Trusts, as well as the obligations of the trustee under any indenture and the obligations, if any, of any warrant agents, unit agents, or other agents and any other third parties employed by us, the trustee or any of those agents, run only to the holders of the securities. Neither we nor the Issuer Trusts have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect owner of a security or has no choice because we or the Issuer Trusts, as applicable, are issuing the securities only in global form.

For example, once we or the Issuer Trusts, as applicable, make a payment or give a notice to the holder, we or the Issuer Trusts, as applicable, have no further responsibility for that payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect owners but does not do so. Similarly, if we or the Issuer Trusts want to obtain the approval of the holders for any purpose e.g., to amend the indenture for a series of debt securities or warrants or the warrant agreement for a series of warrants or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture we or the Issuer Trusts would seek the approval only from the holders, and not the indirect owners, of the relevant securities. Whether and how the holders contact the indirect owners is up to the holders.

When we refer to *you* in this prospectus, we mean those who invest in the securities being offered by this prospectus, whether they are the holders or only indirect owners of those securities. When we refer to *your securities* in this prospectus, we mean the securities in which you will hold a direct or indirect interest.

Special Considerations for Indirect Owners

If you hold securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

whether and how you can instruct it to exercise any rights to purchase or sell warrant property under a warrant or purchase contract property under a purchase contract or to exchange or convert a security for or into other property;

how it would handle a request for the holders' consent, if ever required;

whether and how you can instruct it to send you securities registered in your own name so you can be a holder, if that is permitted in the future;

how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

What Is a Global Security?

We or the Issuer Trusts, as applicable, will issue each security in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Each security issued in book-entry form will be represented by a global security that we or the Issuer Trusts deposit with and register in the name of one or more financial institutions or clearing systems, or their nominees, which we select. A financial institution or

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

clearing system that we or the Issuer Trusts select for any security for this purpose is called the depositary for that security. A security will usually have only one depositary but it may have more.

Table of Contents

Each series of securities will have one or more of the following as the depositaries:

The Depository Trust Company, New York, New York, which is known as DTC;

a financial institution holding the securities on behalf of Euroclear Bank SA/NV, which is known as Euroclear;

a financial institution holding the securities on behalf of Clearstream Banking, société anonyme, which is known as Clearstream; and

any other clearing system or financial institution named in the applicable prospectus supplement.

The depositaries named above may also be participants in one another's clearing systems. Thus, for example, if DTC is the depository for a global security, investors may hold beneficial interests in that security through Euroclear or Clearstream, as DTC participants. The depository or depositaries for your securities will be named in your prospectus supplement; if none is named, the depository will be DTC.

A global security may represent one or any other number of individual securities. Generally, all securities represented by the same global security will have the same terms. We or the Issuer Trusts may, however, issue a global security that represents multiple securities of the same kind, such as debt securities, that have different terms and are issued at different times. We call this kind of global security a master global security. Your prospectus supplement will not indicate whether your securities are represented by a master global security.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under **Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated**. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all securities represented by a global security, and investors will be permitted to own only indirect interests in a global security. Indirect interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that does. Thus, an investor whose security is represented by a global security will not be a holder of the security, but only an indirect owner of an interest in the global security.

If the prospectus supplement for a particular security indicates that the security will be issued in global form only, then the security will be represented by a global security at all times unless and until the global security is terminated. We describe the situations in which this can occur below under **Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated**. If termination occurs, we or the Issuer Trusts, as applicable, may issue the securities through another book-entry clearing system or decide that the securities may no longer be held through any book-entry clearing system.

Special Considerations for Global Securities

As an indirect owner, an investor's rights relating to a global security will be governed by the account rules of the depository and those of the investor's financial institution or other intermediary through which it holds its interest (e.g., Euroclear or Clearstream, if DTC is the depository), as well as general laws relating to securities transfers. We or the Issuer Trusts, as applicable, do not recognize this type of investor or any intermediary as a holder of securities and instead deal only with the depository that holds the global security.

If securities are issued only in the form of a global security, an investor should be aware of the following:

an investor cannot cause the securities to be registered in his or her own name, and cannot obtain non-global certificates for his or her interest in the securities, except in the special situations we describe below;

an investor will be an indirect holder and must look to his or her own bank or broker for payments on the securities and protection of his or her legal rights relating to the securities, as we describe above under **Who Is the Legal Owner of a Registered Security** **Legal**

Holders above;

Table of Contents

an investor may not be able to sell interests in the securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

an investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

the depositary's policies, will govern payments, deliveries, transfers, exchanges, notices and other matters relating to an investor's interest in a global security, and those policies may change from time to time. We, the Issuer Trusts, the trustee and any warrant agents and unit agents will have no responsibility for any aspect of the depositary's policies, actions or records of ownership interests in a global security. We, the Issuer Trusts, the trustee and any warrant agents, unit agents or other agents also do not supervise the depositary in any way;

the depositary will require that those who purchase and sell interests in a global security within its book-entry system use immediately available funds and your broker or bank may require you to do so as well; and

financial institutions that participate in the depositary's book-entry system and through which an investor holds its interest in the global securities, directly or indirectly (including Euroclear and Clearstream, if you hold through them when the depositary is DTC), may also have their own policies affecting payments, deliveries, transfers, exchanges, notices and other matters relating to the securities, and those policies may change from time to time. For example, if you hold an interest in a global security through Euroclear or Clearstream, when DTC is the depositary, Euroclear or Clearstream, as applicable, will require those who purchase and sell interests in that security through them to use immediately available funds and comply with other policies and procedures, including deadlines for giving instructions as to transactions that are to be effected on a particular day. There may be more than one financial intermediary in the chain of ownership for an investor. We or the Issuer Trusts, as applicable, do not monitor and are not responsible for the policies or actions or records of ownership interests of any of those intermediaries.

Holder's Option to Obtain a Non-Global Security; Special Situations When a Global Security Will Be Terminated

If we or the Issuer Trusts, as applicable, issue any series of securities in book-entry form but we choose to give the beneficial owners of that series the right to obtain non-global securities, any beneficial owner entitled to obtain non-global securities may do so by following the applicable procedures of the depositary, any transfer agent or registrar for that series and that owner's bank, broker or other financial institution through which that owner holds its beneficial interest in the securities.

In addition, in a few special situations described below, a global security will be terminated and interests in it will be exchanged for certificates in non-global form representing the securities it represented. After that exchange, the choice of whether to hold the securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of holders and street name investors above under "Who Is the Legal Owner of a Registered Security."

The special situations for termination of a global security are as follows:

the depositary notifies us or the Issuer Trusts that it is unwilling, unable or no longer qualified to continue as depositary for that global security and we do not appoint another institution to act as depositary within 60 days;

we or the Issuer Trusts order in our sole discretion that such global security will be transferable, registrable, and exchangeable; or

Table of Contents

in the case of a global security representing debt securities or warrants issued under an indenture, an event of default has occurred with regard to that global security and is continuing.

None of we, any Issuer Trust, the trustee for any debt securities, the warrant agent for any warrants, the unit agent for any units or any other applicable agent will be responsible for maintaining any records of ownership interests in a global security. If a global security is terminated, only the depositary, and not we, any Issuer Trust, the trustee for any debt securities, the warrant agent for any warrants, the unit agent for any units or any other applicable agent, is responsible for following the depositary's procedures to determine the names of the institutions in whose names the securities represented by the global security will be registered and, therefore, who will be the holders of those securities.

Considerations Relating to Euroclear and Clearstream

Euroclear and Clearstream are securities clearing systems in Europe. Both systems clear and settle securities transactions between their participants through electronic, book-entry delivery of securities against payment.

As long as any global security is held by Euroclear or Clearstream, as depositary, you may hold an interest in the global security only through an organization that participates, directly or indirectly, in Euroclear or Clearstream. If you are a participant in either of those clearing systems, you may hold your interest directly in that clearing system. If you are not a participant, you may hold your interest indirectly through organizations that are participants in that clearing system.

If Euroclear or Clearstream is the depositary for a global security and there is no depositary in the United States, you will not be able to hold interests in that global security through any securities clearance system in the United States.

If Euroclear or Clearstream is the depositary for a global security, or if DTC is the depositary for a global security and Euroclear and Clearstream hold interests in the global security as participants in DTC, then Euroclear and Clearstream will hold interests in the global security on behalf of the participants in their systems.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the securities made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those clearing systems could change their rules and procedures at any time. Neither we nor the Issuer Trusts have control over those systems or their participants, and neither we nor the Issuer Trusts take responsibility for their activities. Transactions between participants in Euroclear or Clearstream on one hand, and participants in DTC, on the other hand, when DTC is the depositary, would also be subject to DTC's rules and procedures.

Special Timing Considerations for Transactions in Euroclear and Clearstream

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those clearing systems only on days when those systems are open for business. These clearing systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the securities through these clearing systems and wish to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than would be the case for transactions within one clearing system.

Table of Contents

SECURITIES ISSUED IN BEARER FORM

We or the Issuer Trusts, as applicable, may issue securities in bearer, rather than registered, form. If we do, those securities will be subject to special provisions described in this section. This section primarily describes provisions relating to debt securities issued in bearer form. Other provisions may apply to securities of other kinds issued in bearer form. To the extent the provisions described in this section are inconsistent with those described elsewhere in this prospectus, they supersede those described elsewhere with regard to any bearer securities. Otherwise, the relevant provisions described elsewhere in this prospectus will apply to bearer securities.

Temporary and Permanent Bearer Global Securities

If we or the Issuer Trusts, as applicable, issue securities in bearer form, all securities of the same series and kind will initially be represented by a temporary bearer global security, which we or the Issuer Trusts will deposit with a common depository for Euroclear and Clearstream. Euroclear and Clearstream will credit the account of each of their subscribers with the amount of securities the subscriber purchases. We or the Issuer Trusts will promise to exchange the temporary bearer global security for a permanent bearer global security, which we will deliver to the common depository upon the later of the following two dates:

the date that is 40 days after the later of (a) the completion of the distribution of the securities as determined by the underwriter, dealer or agent and (b) the closing date for the sale of the securities by us; we may extend this date as described below under Extensions for Further Issuances; and

the date on which Euroclear and Clearstream provide us or our agent with the necessary tax certificates described below under U.S. Tax Certificate Required.

Unless we or the Issuer Trusts say otherwise in the applicable prospectus supplement, owners of beneficial interests in a permanent bearer global security will be able to exchange those interests at their option, in whole but not in part, for:

non-global securities in bearer form with interest coupons attached, if applicable; or

non-global securities in registered form without coupons attached.

A beneficial owner will be able to make this exchange by giving us or our designated agent 60 days prior written notice in accordance with the terms of the securities.

Extensions for Further Issuances

Without the consent of the trustee, any holders or any other person, we or the Issuer Trusts, as applicable, may issue additional securities identical to a prior issue from time to time. If we issue additional securities before the date on which we would otherwise be required to exchange the temporary bearer global security representing the prior issue for a permanent bearer global security as described above, that date will be extended until the 40th day after the completion of the distribution and the closing, whichever is later, for the additional securities. Extensions of this kind may be repeated if we or the Issuer Trusts sell additional identical securities. As a result of these extensions, beneficial interests in the temporary bearer global security may not be exchanged for interests in a permanent bearer global security until the 40th day after the additional securities have been distributed and sold.

U.S. Tax Certificate Required

We or the Issuer Trusts, as applicable, will not pay or deliver interest or other amounts in respect of any portion of a temporary bearer global security unless and until Euroclear or Clearstream delivers to us, the Issuer Trusts or our agent a tax certificate with regard to the owners of the beneficial interests in that portion of the

Table of Contents

global security. Also, neither we nor any Issuer Trust will exchange any portion of a temporary bearer global security for a permanent bearer global security unless and until we or the Issuer Trusts receive from Euroclear or Clearstream a tax certificate with regard to the owners of the beneficial interests in the portion to be exchanged. In each case, this tax certificate must state that each of the relevant owners:

is not a United States person, as defined below under Limitations on Issuance of Bearer Debt Securities;

is a foreign branch of a United States financial institution, as defined in applicable U.S. Treasury Regulations, purchasing for its own account or for resale, or is a United States person who acquired the security through a financial institution of this kind and who holds the security through that financial institution on the date of certification, provided in either case that the financial institution provides a certificate to us or the distributor selling the security to it stating that it agrees to comply with the requirements of Section 165(j)(3)(A), (B) or (C) of the U.S. Internal Revenue Code and the U.S. Treasury Regulations under that Section; or

is a financial institution holding for purposes of resale during the restricted period, as defined in U.S. Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7). A financial institution of this kind, whether or not it is also described in either of the two preceding bullet points, must certify that it has not acquired the security for purposes of resale directly or indirectly to a United States person or to a person within the United States or its possessions.

The tax certificate must be signed by an authorized person satisfactory to us.

No one who owns an interest in a temporary bearer global security will receive payment or delivery of any amount or property in respect of its interest, and will not be permitted to exchange its interest for an interest in a permanent bearer global security or a security in any other form, unless and until we, the Issuer Trusts or our agent have received the required tax certificate on its behalf.

Special requirements and restrictions imposed by United States federal tax laws and regulations will apply to bearer debt securities. We describe these below under Limitations on Issuance of Bearer Debt Securities.

Legal Ownership of Bearer Securities

Securities in bearer form are not registered in any name. Whoever is the bearer of the certificate representing a security in bearer form is the legal owner of that security. Legal title and ownership of bearer securities will pass by delivery of the certificates representing the securities. Thus, when we use the term holder in this prospectus with regard to bearer securities, we mean the bearer of those securities.

The common depositary for Euroclear and Clearstream will be the bearer, and thus the holder and legal owner, of both the temporary and permanent bearer global securities described above. Investors in those securities will own beneficial interests in the securities represented by those global securities; they will be only indirect owners, not holders or legal owners, of the securities.

As long as the common depositary is the bearer of any bearer security in global form, the common depositary will be considered the sole legal owner and holder of the securities represented by the bearer security in global form. Ownership of beneficial interests in any bearer security in global form will be shown on records maintained by Euroclear or Clearstream, as applicable, or by the common depositary on their behalf, and by the direct and indirect participants in their clearing systems, and ownership interests can be held and transferred only through those records. We or the Issuer Trusts, as applicable, will pay any amounts owing with respect to a bearer global security only to the common depositary.

None of we, the Issuer Trusts, the trustee or any agent will recognize any owner of indirect interests as a holder or legal owner. Nor will we, the Issuer Trusts, the trustee or any agent have any responsibility for the

Table of Contents

ownership records or practices of Euroclear or Clearstream, the common depository or any direct or indirect participants in those systems or for any payments, transfers, deliveries, notices or other transactions within those systems, all of which will be subject to the rules and procedures of those systems and participants. If you own a beneficial interest in a bearer global security, you must look only to the common depository for Euroclear or Clearstream, and to their direct and indirect participants through which you hold your interest, for your ownership rights. You should read the section above entitled **Legal Ownership and Book-Entry Issuance** for more information about holding interests through Euroclear and Clearstream.

Payment and Exchange of Non-Global Bearer Securities

Payments and deliveries owing on non-global bearer securities will be made, in the case of interest payments, only to the holder of the relevant coupon after the coupon is surrendered to the paying agent. In all other cases, payments and deliveries will be made only to the holder of the certificate representing the relevant security after the certificate is surrendered to the paying agent.

Non-global bearer securities, with all unmatured coupons relating to the securities, if any, may be exchanged for a like aggregate amount of non-global bearer or registered securities of like kind. Non-global registered securities may be exchanged for a like aggregate amount of non-global registered securities of like kind, as described above in the sections on the different types of securities we may offer. However, neither we nor the Issuer Trusts will issue bearer securities in exchange for any registered securities.

Replacement certificates and coupons for non-global bearer securities will not be issued in lieu of any lost, stolen or destroyed certificates and coupons unless we or the Issuer Trusts, and our transfer agent receive evidence of the loss, theft or destruction, and an indemnity against liabilities, satisfactory to us and our agent. Upon redemption or any other settlement before the stated maturity or expiration, as well as upon any exchange, of a non-global bearer security, the holder will be required to surrender all unmatured coupons to us, the Issuer Trusts or our designated agent. If any unmatured coupons are not surrendered, we, the Issuer Trusts or our agent may deduct the amount of interest relating to those coupons from the amount otherwise payable or deliverable or we, the Issuer Trusts or our agent may demand an indemnity against liabilities satisfactory to us and our agent.

We and the Issuer Trusts may make payments, deliveries and exchanges in respect of bearer securities in global form in any manner acceptable to us and the depository.

Notices

If we or the Issuer Trusts are required to give notice to the holders of bearer securities, we or the Issuer Trusts will do so by publication in a daily newspaper of general circulation in a city in Western Europe. The term **daily newspaper** means a newspaper that is published on each day, other than a Saturday, Sunday or holiday, in the relevant city. If these bearer securities are listed on the Luxembourg Stock Exchange and its rules so require, that city will be Luxembourg and we expect that newspaper to be the *d Wort*. If publication in Luxembourg is impractical, the publication will be made elsewhere in Western Europe. A notice of this kind will be presumed to have been received on the date it is first published. If we or the Issuer Trusts, as applicable, cannot give notice as described in this paragraph because the publication of any newspaper is suspended or it is otherwise impractical to publish the notice, then we or the Issuer Trusts will give notice in another form. That alternate form of notice will be deemed to be sufficient notice to each holder. Neither the failure to give notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

We or the Issuer Trusts may give any required notice with regard to bearer securities in global form to the common depository for the securities, in accordance with its applicable procedures. If these provisions do not require that notice be given by publication in a newspaper, we or the Issuer Trusts may omit giving notice by publication.

Table of Contents

Limitations on Issuance of Bearer Debt Securities

In compliance with United States federal income tax laws and regulations, bearer debt securities, including bearer debt securities in global form, will not be offered, sold, resold or delivered, directly or indirectly, in the United States or its possessions or to United States persons, as defined below, except as otherwise permitted by U.S. Treasury Regulations Section 1.163-5(c)(2)(i)(D). Any underwriters, dealers or agents participating in the offerings of bearer debt securities, directly or indirectly, must agree that they will not, in connection with the original issuance of any bearer debt securities or during the restricted period applicable under the U.S. Treasury Regulations cited earlier, offer, sell, resell or deliver, directly or indirectly, any bearer debt securities in the United States or its possessions or to United States persons, other than as permitted by the applicable Treasury Regulations described above.

In addition, any underwriters, dealers or agents must have procedures reasonably designed to ensure that their employees or agents who are directly engaged in selling bearer debt securities are aware of the above restrictions on the offering, sale, resale or delivery of bearer debt securities.

We and the Issuer Trusts will not issue bearer debt securities under which the holder has a right to purchase bearer debt securities in non-global form. Upon the holder's purchase of any underlying bearer debt securities, those bearer debt securities will be issued in temporary global bearer form and will be subject to the provisions described above relating to bearer global securities.

We and the Issuer Trusts will make payments on bearer debt securities only outside the United States and its possessions except as permitted by the applicable U.S. Treasury Regulations described above.

Bearer debt securities and any coupons will bear the following legend:

Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code.

The sections referred to in this legend provide that, with exceptions, a United States person will not be permitted to deduct any loss, and will not be eligible for capital gain treatment with respect to any gain, realized on the sale, exchange or redemption of that bearer debt security or coupon.

As used in this subsection entitled Limitations on Issuance of Bearer Debt Securities, the term bearer debt securities includes bearer debt securities that are part of units.

As used in this section entitled Securities Issued in Bearer Form, United States person means:

a citizen or resident of the United States for United States federal income tax purposes;

a corporation or partnership, including an entity treated as a corporation or partnership for United States federal income tax purposes, created or organized in or under the laws of the United States, any state of the United States or the District of Columbia;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust.

United States means the United States of America, including the States and the District of Columbia, and possessions of the United States include Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island and the Northern Mariana Islands. In addition, some trusts treated as United States persons before August 20, 1996 may elect to continue to be so treated to the extent provided in the U.S. Treasury Regulations.

Table of Contents

CONSIDERATIONS RELATING TO INDEXED SECURITIES

We use the term *indexed securities* to mean any of the securities described in this prospectus, or any units that include securities, whose value is linked to an underlying asset or index or another property (including one or more securities or indices of securities). Indexed securities may present a high level of risk, and investors in certain indexed securities may lose their entire investment. In addition, the treatment of indexed securities for U.S. federal income tax purposes is often unclear due to the absence of any authority specifically addressing the issues presented by any particular indexed security. Thus, if you propose to invest in indexed securities, you should independently evaluate the federal income tax consequences of purchasing an indexed security that apply in your particular circumstances. You should also read *United States Taxation* below for a discussion of U.S. tax matters.

Investors in Indexed Securities Could Lose Their Investment

The amount of principal and/or interest payable on an indexed debt security, the cash value or physical settlement value of a physically settled debt security and the cash value or physical settlement value of an indexed warrant or purchase contract will be determined by reference to the price, value or level of one or more securities, currencies, commodities or other properties, any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance, one or more indices and/or one or more baskets of any of these items. We refer to each of these as an *index*. The direction and magnitude of the change in the price, value or level of the relevant index will determine the amount of principal and/or interest payable on an indexed debt security, the cash value or physical settlement value of a physically settled debt security and the cash value or physical settlement value of an indexed warrant or purchase contract. The terms of a particular indexed debt security may or may not include a guaranteed return of a percentage of the principal amount at maturity or a minimum interest rate. An indexed warrant or purchase contract generally will not provide for any guaranteed minimum settlement value. Thus, if you purchase an indexed security that does not guarantee the return of 100% of the principal or other amount you invest, you may lose all or a portion of the principal or other amount you invest and may receive no interest on your investment.

The Return on Indexed Securities May Be Below the Return on Similar Securities

Depending on the terms of an indexed security, as specified in the applicable pricing supplement, you may not receive any periodic interest payments or receive only very low payments on such indexed security. As a result, the overall return on such indexed security may be less than the amount you would have earned by investing the principal or other amount you invest in such indexed security in a non-indexed debt security that bears interest at a prevailing market fixed or floating rate.

The Issuer of a Security or Currency That Serves as an Index Could Take Actions That May Adversely Affect an Indexed Security

The issuer of a security that serves as an index or part of an index for an indexed security will have no involvement in the offer and sale of the indexed security and no obligations to the holder of the indexed security. The issuer may take actions, such as a merger or sale of assets, without regard to the interests of the holder. Any of these actions could adversely affect the value of a security indexed to that security or to an index of which that security is a component.

If the index for an indexed security includes a non-U.S. dollar currency or other asset denominated in a non-U.S. dollar currency, the government that issues that currency will also have no involvement in the offer and sale of the indexed security and no obligations to the holder of the indexed security. That government may take actions that could adversely affect the value of the security.

Table of Contents

An Indexed Security May Be Linked to a Volatile Index, Which May Adversely Affect Your Investment

Some indices are highly volatile, which means that their value may change significantly, up or down, over a short period of time. It is impossible to predict the future performance of an index based on its historical performance. The amount of principal or interest that can be expected to become payable on an indexed debt security or the expected settlement value of an indexed warrant or purchase contract may vary substantially from time to time. Because the amounts payable with respect to an indexed security are generally calculated based on the price, value or level of the relevant index on a specified date or over a limited period of time, volatility in the index increases the risk that the return on the indexed security may be adversely affected by a fluctuation in the level of the relevant index.

The volatility of an index may be affected by financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of an indexed security.

An Index to Which a Security Is Linked Could Be Changed or Become Unavailable

Some indices compiled by us or our affiliates or third parties may consist of or refer to several or many different securities, commodities or currencies or other instruments or measures. The index sponsor of such an index typically reserves the right to alter the composition of the index and the manner in which the value or level of the index is calculated. Changes to the composition of an index may result in a decrease in the value of or return on an indexed security that is linked to such index. The indices for our indexed securities may include published indices of this kind or customized indices developed by us or our affiliates in connection with particular issues of indexed securities.

A published index may become unavailable, or a customized index may become impossible to calculate in the normal manner, due to events such as war, natural disasters, cessation of publication of the index or a suspension or disruption of trading in one or more securities, commodities or currencies or other instruments or measures on which the index is based. If an index becomes unavailable or impossible to calculate in the normal manner, the terms of a particular indexed security may allow us to delay determining the amount payable as principal or interest on an indexed debt security or the settlement value of an indexed warrant or purchase contract, or we may use an alternative method to determine the value of the unavailable index. Alternative methods of valuation are generally intended to produce a value similar to the value resulting from reference to the relevant index. However, it is unlikely that any alternative method of valuation we use will produce a value identical to the value that the actual index would produce. If we use an alternative method of valuation for a security linked to an index of this kind, the value of the security, or the rate of return on it, may be lower than it otherwise would be.

Some indexed securities are linked to indices that are not commonly used or that have been developed only recently. The lack of a trading history may make it difficult to anticipate the volatility or other risks associated with an indexed security of this kind. In addition, trading in these indices or their underlying stocks, commodities or currencies or other instruments or measures, or options or futures contracts on these stocks, commodities or currencies or other instruments or measures, may be limited, which could increase their volatility and decrease the value of the related indexed securities or the rates of return on them.

We May Engage in Hedging Activities that Could Adversely Affect an Indexed Security

In order to hedge an exposure on a particular indexed security, we may, directly or through our affiliates, enter into transactions involving the securities, commodities or currencies or other instruments or measures that underlie the index for that security, or derivative instruments, such as swaps, options or futures, on the index or any of its component items. By engaging in transactions of this kind, we could adversely affect the value of an indexed security. It is possible that we could achieve substantial returns from our hedging transactions while the value of the indexed security may decline.

Table of Contents

Information About an Index or Indices May Not Be Indicative of Future Performance

If we issue an indexed security, we may include historical information about the relevant index or indices in the applicable prospectus supplement. Any information about indices that we may provide will be furnished as a matter of information only, and you should not regard the information as indicative of the range of, or trends in, fluctuations in the relevant index or indices that may occur in the future.

We May Have Conflicts of Interest Regarding an Indexed Security

Zions Direct, Inc., Amegy Investments, Inc. and our other affiliates may have conflicts of interest with respect to some indexed securities. Zions Direct, Inc., Amegy Investments, Inc. and our other affiliates may engage in trading, including trading for hedging purposes, for their proprietary accounts or for other accounts under their management, in indexed securities and in the securities, commodities or currencies or other instruments or measures on which the index is based or in other derivative instruments related to the index or its component items. These trading activities could adversely affect the value of indexed securities. We and our affiliates may also issue or underwrite securities or derivative instruments that are linked to the same index as one or more indexed securities. By introducing competing products into the marketplace in this manner, we could adversely affect the value of an indexed security.

Zions Direct, Inc. or another of our affiliates may serve as calculation agent for the indexed securities and may have considerable discretion in calculating the amounts payable in respect of the securities. To the extent that Zions Direct, Inc. or another of our affiliates calculates or compiles a particular index, it may also have considerable discretion in performing the calculation or compilation of the index. Exercising discretion in this manner could adversely affect the value of an indexed security based on the index or the rate of return on the security.

If You Purchase an Indexed Security, You Will Have No Rights with Respect to any Underlying Index to which Such Indexed Security is Linked

Investing in an indexed security will not make you a holder of the underlying asset or index or other property. As a result, you will not have any voting rights, any right to receive dividends or other distributions or any other rights with respect to any of the index components.

Table of Contents

UNITED STATES TAXATION

This section describes the material United States federal income tax consequences of owning certain of the debt securities, preferred stock, depositary shares we are offering and the capital securities that the Issuer Trusts are offering. The material United States federal income tax consequences of owning the debt securities described below under Taxation of Debt Securities United States Holders Indexed and Other Debt Securities, of owning preferred stock that may be convertible into or exercisable or exchangeable for securities or other property, of owning capital securities that contain, or that represent any subordinated debt security that contains, any material term not described in this prospectus or of owning employee stock option rights units, warrants, rights, purchase contracts and units will be described in the applicable prospectus supplement. This section is the opinion of Sullivan & Cromwell LLP, United States tax counsel to Zions. It applies to you only if you hold your securities as capital assets for tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

a dealer in securities or currencies;

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;

a bank;

an insurance company;

a thrift institution;

a regulated investment company;

a tax-exempt organization;

a person that owns debt securities that are a hedge or that are hedged against interest rate or currency risks;

a person that owns debt securities as part of a straddle or conversion transaction for tax purposes; or

a United States holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

This section is based on the United States Internal Revenue Code of 1986, as amended (the Internal Revenue Code), its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds the debt securities, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the debt securities should consult its tax advisor with regard to the United States federal income tax treatment of an investment in the debt securities.

Please consult your own tax advisor concerning the consequences of owning these securities in your particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.

Taxation of Debt Securities

This subsection describes the material United States federal income tax consequences of owning, selling and disposing of the debt securities we are offering, other than the debt securities described below under United States Holders Indexed and Other Debt Securities, which will be described in the applicable prospectus supplement. It deals only with debt securities that are due to mature 30 years or less from the date on which they are issued. The United States federal income tax consequences of owning debt securities that are due to mature more than 30 years from their date of issue will be discussed in the applicable prospectus supplement.

Table of Contents

United States Holders

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of a debt security and you are:

a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If you are not a United States holder, this section does not apply to you and you should refer to **United States Alien Holders** below.

Payments of Interest

Except as described below in the case of interest on an original issue discount debt security that is not qualified stated interest, each as defined below under **Original Issue Discount**, you will be taxed on any interest on your debt security, whether payable in U.S. dollars or a non-U.S. dollar currency, including a composite currency or basket of currencies other than U.S. dollars, as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for tax purposes.

Cash Basis Taxpayers

If you are a taxpayer that uses the cash receipts and disbursements method of accounting for tax purposes and you receive an interest payment that is denominated in, or determined by reference to, a non-U.S. dollar currency, you must recognize income equal to the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether you actually convert the payment into U.S. dollars.

Accrual Basis Taxpayers

If you are a taxpayer that uses an accrual method of accounting for tax purposes, you may determine the amount of income that you recognize with respect to an interest payment denominated in, or determined by reference to, a non-U.S. dollar currency by using one of two methods. Under the first method, you will determine the amount of income accrued based on the average exchange rate in effect during the interest accrual period or, with respect to an accrual period that spans two taxable years, that part of the period within the taxable year.

If you elect the second method, you would determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period, or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year. Additionally, under this second method, if you receive a payment of interest within five business days of the last day of your accrual period or taxable year, you may instead translate the interest accrued into U.S. dollars at the exchange rate in effect on the day that you actually receive the interest payment. If you elect the second method, it will apply to all debt instruments that you hold at the beginning of the first taxable year to which the election applies and to all debt instruments that you subsequently acquire. You may not revoke this election without the consent of the United States Internal Revenue Service.

When you actually receive an interest payment, including a payment attributable to accrued but unpaid interest upon the sale or retirement of your debt security, denominated in, or determined by reference to, a non-U.S. dollar currency for which you accrued an amount of income, you will recognize ordinary income or

Table of Contents

loss measured by the difference, if any, between the exchange rate that you used to accrue interest income and the exchange rate in effect on the date of receipt, regardless of whether you actually convert the payment into U.S. dollars.

Original Issue Discount

If you own a debt security, other than a short-term debt security with a term of one year or less, it will be treated as an original issue discount debt security if the amount by which the debt security's stated redemption price at maturity exceeds its issue price is more than a de minimis amount. Generally, a debt security's issue price will be the first price at which a substantial amount of debt securities included in the issue of which the debt security is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. A debt security's stated redemption price at maturity is the total of all payments provided by the debt security that are not payments of qualified stated interest. Generally, an interest payment on a debt security is qualified stated interest if it is one of a series of stated interest payments on a debt security that are unconditionally payable at least annually at a single fixed rate, with certain exceptions for lower rates paid during some periods, applied to the outstanding principal amount of the debt security. There are special rules for variable rate debt securities that are discussed below under Variable Rate Debt Securities.

In general, your debt security is not an original issue discount debt security if the amount by which its stated redemption price at maturity exceeds its issue price is less than the de minimis amount of 0.25 percent of its stated redemption price at maturity multiplied by the number of complete years to its maturity. Your debt security will have de minimis original issue discount if the amount of the excess is less than the de minimis amount. If your debt security has de minimis original issue discount, you must include the de minimis amount in income as stated principal payments are made on the debt security, unless you make the election described below under Election to Treat All Interest as Original Issue Discount. You can determine the includible amount with respect to each such payment by multiplying the total amount of your debt security's de minimis original issue discount by a fraction equal to:

the amount of the principal payment made divided by:

the stated principal amount of the debt security.

Generally, if your original issue discount debt security matures more than one year from its date of issue, you must include original issue discount in income before you receive cash attributable to that income. The amount of original issue discount that you must include in income is calculated using a constant-yield method, and generally you will include increasingly greater amounts of original issue discount in income over the life of your debt security. More specifically, you can calculate the amount of original issue discount that you must include in income by adding the daily portions of original issue discount with respect to your original issue discount debt security for each day during the taxable year or portion of the taxable year that you hold your original issue discount debt security. You can determine the daily portion by allocating to each day in any accrual period a pro rata portion of the original issue discount allocable to that accrual period. You may select an accrual period of any length with respect to your original issue discount debt security and you may vary the length of each accrual period over the term of your original issue discount debt security. However, no accrual period may be longer than one year and each scheduled payment of interest or principal on the original issue discount debt security must occur on either the first or final day of an accrual period.

You can determine the amount of original issue discount allocable to an accrual period by:

multiplying your original issue discount debt security's adjusted issue price at the beginning of the accrual period by your debt security's yield to maturity; and then

subtracting from this figure the sum of the payments of qualified stated interest on your debt security allocable to the accrual period.

Table of Contents

You must determine the original issue discount debt security's yield to maturity on the basis of compounding at the close of each accrual period and adjusting for the length of each accrual period. The yield to maturity of a debt security is the discount rate that causes the present value of all payments on the debt security as of its original issue date to equal the issue price of such debt security. Further, you determine your original issue discount debt security's adjusted issue price at the beginning of any accrual period by:

adding your original issue discount debt security's issue price and any accrued original issue discount for each prior accrual period; and then

subtracting any payments previously made on your original issue discount debt security that were not qualified stated interest payments.

If an interval between payments of qualified stated interest on your original issue discount debt security contains more than one accrual period, then, when you determine the amount of original issue discount allocable to an accrual period, you must allocate the amount of qualified stated interest payable at the end of the interval, including any qualified stated interest that is payable on the first day of the accrual period immediately following the interval, pro rata to each accrual period in the interval based on their relative lengths. In addition, you must increase the adjusted issue price at the beginning of each accrual period in the interval by the amount of any qualified stated interest that has accrued prior to the first day of the accrual period but that is not payable until the end of the interval. You may compute the amount of original issue discount allocable to an initial short accrual period by using any reasonable method if all other accrual periods, other than a final short accrual period, are of equal length.

The amount of original issue discount allocable to the final accrual period is equal to the difference between:

the amount payable at the maturity of your debt security, other than any payment of qualified stated interest; and

your debt security's adjusted issue price as of the beginning of the final accrual period.

Acquisition Premium

If you purchase your debt security for an amount that is less than or equal to the sum of all amounts, other than qualified stated interest, payable on your debt security after the purchase date but is greater than the amount of your debt security's adjusted issue price, as determined above, the excess is acquisition premium. If you do not make the election described below under Election to Treat All Interest as Original Issue Discount, then you must reduce the daily portions of original issue discount by a fraction equal to:

the excess of your adjusted basis in the debt security immediately after purchase over the adjusted issue price of the debt security divided by:

the excess of the sum of all amounts payable, other than qualified stated interest, on the debt security after the purchase date over the debt security's adjusted issue price.

Pre-Issuance Accrued Interest

An election may be made to decrease the issue price of your debt security by the amount of pre-issuance accrued interest if:

a portion of the initial purchase price of your debt security is attributable to pre-issuance accrued interest;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

the first stated interest payment on your debt security is to be made within one year of your debt security's issue date; and

the payment will equal or exceed the amount of pre-issuance accrued interest.

Table of Contents

If this election is made, a portion of the first stated interest payment will be treated as a return of the excluded pre-issuance accrued interest and not as an amount payable on your debt security.

Debt Securities Subject to Contingencies Including Optional Redemption

Your debt security is subject to a contingency if it provides for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies, other than a remote or incidental contingency, whether such contingency relates to payments of interest or of principal. In such a case, you must determine the yield and maturity of your debt security by assuming that the payments will be made according to the payment schedule most likely to occur if:

the timing and amounts of the payments that comprise each payment schedule are known as of the issue date; and

one of such schedules is significantly more likely than not to occur.

If there is no single payment schedule that is significantly more likely than not to occur, other than because of a mandatory sinking fund, you must include income on your debt security in accordance with the general rules that govern contingent payment obligations. These rules will be discussed in the applicable prospectus supplement.

Notwithstanding the general rules for determining yield and maturity, if your debt security is subject to contingencies, and either you or we have an unconditional option or options that, if exercised, would require payments to be made on the debt security under an alternative payment schedule or schedules, then:

in the case of an option or options that we may exercise, we will be deemed to exercise or not exercise an option or combination of options in the manner that minimizes the yield on your debt security; and

in the case of an option or options that you may exercise, you will be deemed to exercise or not exercise an option or combination of options in the manner that maximizes the yield on your debt security.

If both you and we hold options described in the preceding sentence, those rules will apply to each option in the order in which they may be exercised. You may determine the yield on your debt security for the purposes of those calculations by using any date on which your debt security may be redeemed or repurchased as the maturity date and the amount payable on the date that you chose in accordance with the terms of your debt security as the principal amount payable at maturity.

If a contingency, including the exercise of an option, actually occurs or does not occur contrary to an assumption made according to the above rules then, except to the extent that a portion of your debt security is repaid as a result of this change in circumstances and solely to determine the amount and accrual of original issue discount, you must redetermine the yield and maturity of your debt security by treating your debt security as having been retired and reissued on the date of the change in circumstances for an amount equal to your debt security's adjusted issue price on that date.

Election to Treat All Interest as Original Issue Discount

You may elect to include in gross income all interest that accrues on your debt security using the constant-yield method described above, with the modifications described below. For purposes of this election, interest will include stated interest, original issue discount, de minimis original issue discount, market discount, de minimis market discount and unstated interest, as adjusted by any amortizable bond premium, described below under Debt Securities Purchased at a Premium, or acquisition premium.

Table of Contents

If you make this election for your debt security, then, when you apply the constant-yield method:

the issue price of your debt security will equal your cost;

the issue date of your debt security will be the date you acquired it; and

no payments on your debt security will be treated as payments of qualified stated interest.

Generally, this election will apply only to the debt security for which you make it; however, if the debt security has amortizable bond premium, you will be deemed to have made an election to apply amortizable bond premium against interest for all debt instruments with amortizable bond premium, other than debt instruments the interest on which is excludible from gross income, that you hold as of the beginning of the taxable year to which the election applies or any taxable year thereafter. Additionally, if you make this election for a market discount debt security, you will be treated as having made the election discussed below under **Market Discount** to include market discount in income currently over the life of all debt instruments having market discount that you acquire on or after the first day of the first taxable year to which the election applies. You may not revoke any election to apply the constant-yield method to all interest on a debt security or the deemed elections with respect to amortizable bond premium or market discount debt securities without the consent of the United States Internal Revenue Service.

Variable Rate Debt Securities

Your debt security will be a variable rate debt security if:

your debt security's issue price does not exceed the total noncontingent principal payments by more than the lesser of:

.015 multiplied by the product of the total noncontingent principal payments and the number of complete years to maturity from the issue date; or

15 percent of the total noncontingent principal payments; and

your debt security provides for stated interest, compounded or paid at least annually, only at:

one or more qualified floating rates;

a single fixed rate and one or more qualified floating rates;

a single objective rate; or

a single fixed rate and a single objective rate that is a qualified inverse floating rate.

Your debt security will have a variable rate that is a qualified floating rate if:

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which your debt security is denominated; or

the rate is equal to such a rate multiplied by either:

a fixed multiple that is greater than 0.65 but not more than 1.35; or

a fixed multiple greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate; and

the value of the rate on any date during the term of your debt security is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

If your debt security provides for two or more qualified floating rates that are within 0.25 percentage points of each other on the issue date or can reasonably be expected to have approximately the same values throughout the term of the debt security, the qualified floating rates together constitute a single qualified floating rate.

Table of Contents

Your debt security will not have a qualified floating rate, however, if the rate is subject to certain restrictions (including caps, floors, governors, or other similar restrictions) unless such restrictions are fixed throughout the term of the debt security or are not reasonably expected to significantly affect the yield on the debt security.

Your debt security will have a variable rate that is a single objective rate if:

the rate is not a qualified floating rate;

the rate is determined using a single, fixed formula that is based on objective financial or economic information that is not within the control of or unique to the circumstances of the issuer or a related party; and

the value of the rate on any date during the term of your debt security is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

Your debt security will not have a variable rate that is an objective rate, however, if it is reasonably expected that the average value of the rate during the first half of your debt security's term will be either significantly less than or significantly greater than the average value of the rate during the final half of your debt security's term.

An objective rate as described above is a qualified inverse floating rate if:

the rate is equal to a fixed rate minus a qualified floating rate; and

the variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the cost of newly borrowed funds.

Your debt security will also have a single qualified floating rate or an objective rate if interest on your debt security is stated at a fixed rate for an initial period of one year or less followed by either a qualified floating rate or an objective rate for a subsequent period, and either:

the fixed rate and the qualified floating rate or objective rate have values on the issue date of the debt security that do not differ by more than 0.25 percentage points; or

the value of the qualified floating rate or objective rate is intended to approximate the fixed rate.

In general, if your variable rate debt security provides for stated interest at a single qualified floating rate or objective rate, or one of those rates after a single fixed rate for an initial period, all stated interest on your debt security is qualified stated interest. In this case, the amount of original issue discount, if any, is determined by using, in the case of a qualified floating rate or qualified inverse floating rate, the value as of the issue date of the qualified floating rate or qualified inverse floating rate, or, for any other objective rate, a fixed rate that reflects the yield reasonably expected for your debt security.

If your variable rate debt security does not provide for stated interest at a single qualified floating rate or a single objective rate, and also does not provide for interest payable at a fixed rate other than a single fixed rate for an initial period, you generally must determine the interest and original issue discount accruals on your debt security by:

determining a fixed rate substitute for each variable rate provided under your variable rate debt security;

constructing the equivalent fixed rate debt instrument, using the fixed rate substitute described above;

determining the amount of qualified stated interest and original issue discount with respect to the equivalent fixed rate debt instrument; and

adjusting for actual variable rates during the applicable accrual period.

Table of Contents

When you determine the fixed rate substitute for each variable rate provided under the variable rate debt security, you generally will use the value of each variable rate as of the issue date or, for an objective rate that is not a qualified inverse floating rate, a rate that reflects the reasonably expected yield on your debt security.

If your variable rate debt security provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate, and also provides for stated interest at a single fixed rate other than at a single fixed rate for an initial period, you generally must determine interest and original issue discount accruals by using the method described in the previous paragraph. However, your variable rate debt security will be treated, for purposes of the first three steps of the determination, as if your debt security had provided for a qualified floating rate, or a qualified inverse floating rate, rather than the fixed rate. The qualified floating rate, or qualified inverse floating rate, that replaces the fixed rate must be such that the fair market value of your variable rate debt security as of the issue date approximates the fair market value of an otherwise identical debt instrument that provides for the qualified floating rate, or qualified inverse floating rate, rather than the fixed rate.

Short-Term Debt Securities

In general, if you are an individual or other cash basis United States holder of a short-term debt security, you are not required to accrue original issue discount, as specially defined below for the purposes of this paragraph, for United States federal income tax purposes unless you elect to do so (although it is possible that you may be required to include any stated interest in income as you receive it). If you are an accrual basis taxpayer, a taxpayer in a special class, including, but not limited to, a regulated investment company, common trust fund, or a certain type of pass-through entity, or a cash basis taxpayer who so elects, you will be required to accrue original issue discount on short-term debt securities on either a straight-line basis or under the constant-yield method, based on daily compounding. If you are not required and do not elect to include original issue discount in income currently, any gain you realize on the sale or retirement of your short-term debt security will be ordinary income to the extent of the accrued original issue discount, which will be determined on a straight-line basis unless you make an election to accrue the original issue discount under the constant-yield method, through the date of sale or retirement. However, if you are not required and do not elect to accrue original issue discount on your short-term debt securities, you will be required to defer deductions for interest on borrowings allocable to your short-term debt securities in an amount not exceeding the deferred income until the deferred income is realized.

When you determine the amount of original issue discount subject to these rules, you must include all interest payments on your short-term debt security, including stated interest, in your short-term debt security's stated redemption price at maturity.

Non-U.S. Dollar Currency Original Issue Discount Debt Securities

If your original issue discount debt security is denominated in, or determined by reference to, a non-U.S. dollar currency, you must determine original issue discount for any accrual period on your original issue discount debt security in the non-U.S. dollar currency and then translate the amount of original issue discount into U.S. dollars in the same manner as stated interest accrued by an accrual basis United States holder, as described above under **Payments of Interest**. You may recognize ordinary income or loss when you receive an amount attributable to original issue discount in connection with a payment of interest or the sale or retirement of your debt security.

Market Discount

You will be treated as if you purchased your debt security, other than a short-term debt security, at a market discount, and your debt security will be a market discount debt security if:

you purchase your debt security for less than its issue price as determined above; and

the difference between the debt security's stated redemption price at maturity or, in the case of an original issue discount debt security, the debt security's revised issue price, and the price you paid for

Table of Contents

your debt security is equal to or greater than 0.25 percent of your debt security's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the debt security's maturity. To determine the revised issue price of your debt security for these purposes, you generally add any original issue discount that has accrued on your debt security to its issue price.

If your debt security's stated redemption price at maturity or, in the case of an original issue discount debt security, its revised issue price, exceeds the price you paid for the debt security by less than 0.25 percent multiplied by the number of complete years to the debt security's maturity, the excess constitutes de minimis market discount, and the rules discussed below are not applicable to you.

You must treat any gain you recognize on the maturity or disposition of your market discount debt security as ordinary income to the extent of the accrued market discount on your debt security. Alternatively, you may elect to include market discount in income currently over the life of your debt security. If you make this election, it will apply to all debt instruments with market discount that you acquire on or after the first day of the first taxable year to which the election applies. You may not revoke this election without the consent of the United States Internal Revenue Service. If you own a market discount debt security and do not make this election, you will generally be required to defer deductions for interest on borrowings allocable to your debt security in an amount not exceeding the accrued market discount on your debt security until the maturity or disposition of your debt security.

You will accrue market discount on your market discount debt security on a straight-line basis unless you elect to accrue market discount using a constant-yield method. If you make this election, it will apply only to the debt security with respect to which it is made and you may not revoke it.

Debt Securities Purchased at a Premium

If you purchase your debt security for an amount in excess of its principal amount, you may elect to treat the excess as amortizable bond premium. If you make this election, you will reduce the amount required to be included in your income each year with respect to interest on your debt security by the amount of amortizable bond premium allocable to that year, based on your debt security's yield to maturity. If your debt security is denominated in, or determined by reference to, a non-U.S. dollar currency, you will compute your amortizable bond premium in units of the non-U.S. dollar currency and your amortizable bond premium will reduce your interest income in units of the non-U.S. dollar currency. Gain or loss recognized that is attributable to changes in foreign currency exchange rates between the time your amortized bond premium offsets interest income and the time of the acquisition of your debt security is generally taxable as ordinary income or loss. If you make an election to amortize bond premium, it will apply to all debt instruments, other than debt instruments the interest on which is excludible from gross income, that you hold at the beginning of the first taxable year to which the election applies or that you thereafter acquire, and you may not revoke it without the consent of the United States Internal Revenue Service. See also Election to Treat All Interest as Original Issue Discount.

Purchase, Sale and Retirement of the Debt Securities

Your tax basis in your debt security will generally be the U.S. dollar cost, as defined below, of your debt security, adjusted by:

adding any original issue discount and market discount previously included in income with respect to your debt security; and then

subtracting any payments on your debt security that are not qualified stated interest payments and any amortizable bond premium applied to reduce interest on your debt security.

If you purchase your debt security with non-U.S. dollar currency, the U.S. dollar cost of your debt security will generally be the U.S. dollar value of the purchase price on the date of purchase. However, if you are a cash basis taxpayer, or an accrual basis taxpayer if you so elect, and your debt security is traded on an established

Table of Contents

securities market, as defined in the applicable United States Treasury regulations, the U.S. dollar cost of your debt security will be the U.S. dollar value of the purchase price on the settlement date of your purchase.

You will generally recognize gain or loss on the sale or retirement of your debt security equal to the difference between the amount you realize on the sale or retirement and your tax basis in your debt security. If your debt security is sold or retired for an amount in non-U.S. dollar currency, the amount you realize will be the U.S. dollar value of such amount on the date the note is disposed of or retired, except that in the case of a note that is traded on an established securities market, as defined in the applicable Treasury regulations, a cash basis taxpayer, or an accrual basis taxpayer that so elects, will determine the amount realized based on the U.S. dollar value of the specified currency on the settlement date of the sale.

You will recognize capital gain or loss when you sell or retire your debt security, except to the extent:

described above under Short-Term Debt Securities or Market Discount;

attributable to accrued but unpaid interest;

the rules governing contingent payment obligations apply; or

attributable to changes in exchange rates as described below.

Capital gain of a noncorporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year. The deductibility of capital losses is subject to limitations.

You must treat any portion of the gain or loss that you recognize on the sale or retirement of a debt security as ordinary income or loss to the extent attributable to changes in exchange rates. However, you take exchange gain or loss into account only to the extent of the total gain or loss you realize on the transaction.

Exchange of Amounts in Other Than U.S. Dollars

If you receive non-U.S. dollar currency as interest on your debt security or on the sale or retirement of your debt security, your tax basis in the non-U.S. dollar currency will equal its U.S. dollar value when the interest is received or at the time of the sale or retirement. If you purchase non-U.S. dollar currency, you generally will have a tax basis equal to the U.S. dollar value of the non-U.S. dollar currency on the date of your purchase. If you sell or dispose of a non-U.S. dollar currency, including if you use it to purchase debt securities or exchange it for U.S. dollars, any gain or loss recognized generally will be ordinary income or loss.

Medicare Tax

For taxable years beginning after December 31, 2012, a United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the United States holder's net investment income for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its interest income and its net gains from the disposition of debt securities, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the debt securities.

Indexed and Other Debt Securities

The applicable prospectus supplement will discuss the material United States federal income tax rules with respect to contingent non-U.S. dollar currency debt securities, debt securities that may be convertible into or

Table of Contents

exercisable or exchangeable for common or preferred stock or other securities of Zions or debt or equity securities of one or more third parties, debt securities the payments on which are determined by reference to any index and other debt securities that are subject to the rules governing contingent payment obligations which are not subject to the rules governing variable rate debt securities, any renewable and extendible debt securities and any debt securities providing for the periodic payment of principal over the life of the debt security.

United States Alien Holders

This subsection describes the tax consequences to a United States alien holder. You are a United States alien holder if you are the beneficial owner of a debt security and are, for United States federal income tax purposes:

a nonresident alien individual;

a foreign corporation; or
an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from a debt security.

If you are a United States holder, this section does not apply to you.

This discussion assumes that the debt security or coupon is not subject to the rules of Section 871(h)(4)(A) of the Internal Revenue Code, relating to interest payments that are determined by reference to the income, profits, changes in the value of property or other attributes of the debtor or a related party.

Under United States federal income and estate tax law, and subject to the discussion of backup withholding below, if you are a United States alien holder of a debt security or coupon:

we and other United States payors generally will not be required to deduct United States withholding tax from payments of principal, premium, if any, and interest, including original issue discount, to you if, in the case of payments of interest:

you do not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;

you are not a controlled foreign corporation that is related to us through stock ownership;

you are not a bank receiving interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of your trade or business;

in the case of a debt security other than a bearer debt security, the United States payor does not have actual knowledge or reason to know that you are a United States person and:

you have furnished to the United States payor an Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

in the case of payments made outside the United States to you at an offshore account (generally, an account maintained by you at a bank or other financial institution at any location outside the United States), you have furnished to the United States payor documentation that establishes your identity and your status as the beneficial owner of the payment for United States federal income tax purposes and as a person who is not a United States person;

the United States payor has received a withholding certificate (furnished on an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form) from a person claiming to be:

a withholding foreign partnership (generally a foreign partnership that has entered into an agreement with the Internal Revenue Service to assume primary withholding responsibility with respect to distributions and guaranteed payments it makes to its partners);

Table of Contents

a qualified intermediary (generally a non-United States financial institution or clearing organization or a non-United States branch or office of a United States financial institution or clearing organization that is a party to a withholding agreement with the Internal Revenue Service); or

a United States branch of a non-United States bank or of a non-United States insurance company; and the withholding foreign partnership, qualified intermediary or United States branch has received documentation upon which it may rely to treat the payment as made to a person who is not a United States person that is, for United States federal income tax purposes, the beneficial owner of the payments on the debt securities in accordance with United States Treasury regulations (or, in the case of a qualified intermediary, in accordance with its agreement with the Internal Revenue Service);

the United States payor receives a statement from a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business:

certifying to the United States payor under penalties of perjury that an Internal Revenue Service Form W-8BEN or an acceptable substitute form has been received from you by it or by a similar financial institution between it and you; and

to which is attached a copy of the Internal Revenue Service Form W-8BEN or acceptable substitute form; or

the United States payor otherwise possesses documentation upon which it may rely to treat the payment as made to a person who is not a United States person that is, for United States federal income tax purposes, the beneficial owner of the payments on the debt securities in accordance with United States Treasury regulations; and

in the case of a bearer debt security that is issued on or before March 18, 2012, the debt security is offered, sold and delivered in compliance with the restrictions described above under "Securities Issued in Bearer Form" and payments on the debt security are made in accordance with the procedures described above under that section; and

no deduction for any United States federal withholding tax will be made from any gain that you realize on the sale or exchange of your debt security or coupon.

Further, a debt security or coupon held by an individual who at death is not a citizen or resident of the United States will not be includible in the individual's gross estate for United States federal estate tax purposes if:

the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote at the time of death; and

the income on the debt security would not have been effectively connected with a United States trade or business of the decedent at the same time.

Withholdable Payments to Foreign Financial Entities and Other Foreign Entities

Under recently enacted legislation, a 30% withholding tax would be imposed on certain payments that are made after December 31, 2012 to certain foreign financial institutions, investment funds and other United States alien holders that fail to comply with information reporting requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. Such payments would include United States-source interest on debt securities issued after March 18, 2012 and the gross proceeds from the sale or other disposition of

debt securities issued after March 18, 2012 that can produce United States-source interest.

Table of Contents

Treasury Regulations Requiring Disclosure of Reportable Transactions

Pursuant to Treasury regulations, United States taxpayers must report certain transactions that give rise to a loss in excess of certain thresholds (a Reportable Transaction). Under these regulations, if the debt securities are denominated in a foreign currency, a United States holder (or a United States alien holder that holds the debt securities in connection with a United States trade or business) that recognizes a loss with respect to the debt securities that is characterized as an ordinary loss due to changes in currency exchange rates (under any of the rules discussed above) would be required to report the loss on Internal Revenue Service Form 8886 (Reportable Transaction Statement) if the loss exceeds the thresholds set forth in the regulations. For individuals and trusts, this loss threshold is \$50,000 in any single taxable year. For other types of taxpayers and other types of losses, the thresholds are higher. You should consult with your tax advisor regarding any tax filing and reporting obligations that may apply in connection with acquiring, owning and disposing of debt securities.

Backup Withholding and Information Reporting

United States Holders

In general, if you are a noncorporate United States holder, we and other payors are required to report to the United States Internal Revenue Service all payments of principal, any premium and interest on your debt security, and the accrual of original issue discount on an original issue discount debt security. In addition, we and other payors are required to report to the United States Internal Revenue Service any payment of proceeds of the sale of your debt security before maturity within the United States. Additionally, backup withholding will apply to any payments, including payments of original issue discount, if you fail to provide an accurate taxpayer identification number, or you are notified by the United States Internal Revenue Service that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

Pursuant to recently enacted legislation, certain payments in respect of debt securities made to corporate United States holders after December 31, 2011 may be subject to information reporting and backup withholding.

United States Alien Holders

In general, if you are a United States alien holder, payments of principal, premium or interest, including original issue discount, made by us and other payors to you will not be subject to backup withholding and information reporting, *provided* that the certification requirements described above under Taxation of Debt Securities United States Alien Holders are satisfied or you otherwise establish an exemption. However, we and other payors are required to report payments of interest on your debt securities on Internal Revenue Service Form 1042-S even if the payments are not otherwise subject to information reporting requirements. In addition, payment of the proceeds from the sale of debt securities effected at a United States office of a broker will not be subject to backup withholding and information reporting *provided* that:

the broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the broker:

an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person; or

other documentation upon which it may rely to treat the payment as made to a person who is not a United States person that is, for United States federal income tax purposes, the beneficial owner of the payment on the debt securities in accordance with United States Treasury regulations; or

you otherwise establish an exemption.

If you fail to establish an exemption and the broker does not possess adequate documentation of your status as a person who is not a United States person, the payments may be subject to information reporting and backup withholding. However, backup withholding will not apply with respect to payments made outside the United States to an offshore account maintained by you unless the broker has actual knowledge that you are a United States person.

Table of Contents

In general, payment of the proceeds from the sale of debt securities effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States;

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address; or

the sale has some other specified connection with the United States as provided in United States Treasury regulations; unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of debt securities effected at a United States office of a broker) are met or you otherwise establish an exemption.

In addition, payment of the proceeds from the sale of debt securities effected at a foreign office of a broker will be subject to information reporting if the broker is:

a United States person;

a controlled foreign corporation for United States tax purposes;

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in United States Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership; or

such foreign partnership is engaged in the conduct of a United States trade or business; unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of debt securities effected at a United States office of a broker) are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Taxation of Preferred Stock and Depositary Shares

This subsection describes the material United States federal income tax consequences of owning, selling and disposing of the preferred stock and depositary shares that we may offer other than preferred stock that may be convertible into or exercisable or exchangeable for securities or other property, which will be described in the applicable prospectus supplement. When we refer to preferred stock in this subsection, we mean both preferred stock and depositary shares.

United States Holders

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of a share of preferred stock and you are:

a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

Table of Contents

If you are not a United States holder, this subsection does not apply to you and you should refer to **United States Alien Holders** below.

Distributions on Preferred Stock

You will be taxed on distributions on preferred stock as dividend income to the extent paid out of our current or accumulated earnings and profits for United States federal income tax purposes. If you are a noncorporate United States holder, dividends paid to you in taxable years beginning before January 1, 2013 that constitute qualified dividend income will be taxable to you at a maximum rate of 15%, *provided* that you hold your shares of preferred stock for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date (or, if the dividend is attributable to a period or periods aggregating over 366 days, *provided* that you hold your shares of preferred stock for more than 90 days during the 181-day period beginning 90 days before the ex-dividend date) and meet other holding period requirements. If you are taxed as a corporation, except as described in the next subsection, dividends would be eligible for the 70% dividends-received deduction.

You generally will not be taxed on any portion of a distribution not paid out of our current or accumulated earnings and profits if your tax basis in the preferred stock is greater than or equal to the amount of the distribution. However, you would be required to reduce your tax basis (but not below zero) in the preferred stock by the amount of the distribution, and would recognize capital gain to the extent that the distribution exceeds your tax basis in the preferred stock. Further, if you are a corporation, you would not be entitled to a dividends-received deduction on this portion of a distribution.

Limitations on Dividends-Received Deduction

Corporate shareholders may not be entitled to take the 70% dividends-received deduction in all circumstances and, even if they are so entitled, may be subject to special rules in respect of their ownership of the preferred stock. Prospective corporate investors in preferred stock should consider the effect of:

Section 246A of the Internal Revenue Code, which reduces the dividends-received deduction allowed to a corporate shareholder that has incurred indebtedness that is directly attributable to an investment in portfolio stock such as preferred stock;

Section 246(c) of the Internal Revenue Code, which, among other things, disallows the dividends-received deduction in respect of any dividend on a share of stock that is held for less than the minimum holding period (generally at least 46 days during the 91 day period beginning on the date which is 45 days before the date on which such share becomes ex-dividend with respect to such dividend); and

Section 1059 of the Internal Revenue Code, which, under certain circumstances, reduces the basis of stock for purposes of calculating gain or loss in a subsequent disposition by the portion of any extraordinary dividend (as defined below) that is eligible for the dividends-received deduction.

Extraordinary Dividends

If you are a corporate shareholder, you will be required to reduce your tax basis (but not below zero) in the preferred stock by the nontaxed portion of any extraordinary dividend if you have not held your stock for more than two years before the earliest of the date such dividend is declared, announced, or agreed. Generally, the nontaxed portion of an extraordinary dividend is the amount excluded from income by operation of the dividends-received deduction. An extraordinary dividend on the preferred stock generally would be a dividend that:

equals or exceeds 5% of the corporate shareholder's adjusted tax basis in the preferred stock, treating all dividends having ex-dividend dates within an 85 day period as one dividend; or

exceeds 20% of the corporate shareholder's adjusted tax basis in the preferred stock, treating all dividends having ex-dividend dates within a 365 day period as one dividend.

Table of Contents

In determining whether a dividend paid on the preferred stock is an extraordinary dividend, a corporate shareholder may elect to substitute the fair market value of the stock for its tax basis for purposes of applying these tests if the fair market value as of the day before the ex-dividend date is established to the satisfaction of the Secretary of the Treasury. An extraordinary dividend also includes any amount treated as a dividend in the case of a redemption that is either non-pro rata as to all stockholders or in partial liquidation of Zions, regardless of the stockholder's holding period and regardless of the size of the dividend. Any part of the nontaxed portion of an extraordinary dividend that is not applied to reduce the corporate shareholder's tax basis as a result of the limitation on reducing its basis below zero would be treated as capital gain and would be recognized in the taxable year in which the extraordinary dividend is received.

If you are a corporate shareholder, please consult your tax advisor with respect to the possible application of the extraordinary dividend provisions of the federal income tax law to your ownership or disposition of preferred stock in your particular circumstances.

Redemption Premium

If we may redeem your preferred stock at a redemption price in excess of its issue price, the entire amount of the excess may constitute an unreasonable redemption premium which will be treated as a constructive dividend. You generally must take this constructive dividend into account each year in the same manner as original issue discount would be taken into account if the preferred stock were treated as an original issue discount debt security for United States federal income tax purposes. See *Taxation of Debt Securities United States Holders Original Issue Discount* above for a discussion of the special tax rules for original issue discount. A corporate shareholder would be entitled to a dividends-received deduction for any constructive dividends unless the special rules denying a dividends-received deduction described above in *Limitations on Dividends-Received Deduction* apply. A corporate shareholder would also be required to take these constructive dividends into account when applying the extraordinary dividend rules described above. Thus, a corporate shareholder's receipt of a constructive dividend may cause some or all stated dividends to be treated as extraordinary dividends. The applicable prospectus supplement for preferred stock that is redeemable at a price in excess of its issue price will indicate whether tax counsel believes that a shareholder must include any redemption premium in income.

Sale or Exchange of Preferred Stock Other Than by Redemption

If you sell or otherwise dispose of your preferred stock (other than by redemption), you will generally recognize capital gain or loss equal to the difference between the amount realized upon the disposition and your adjusted tax basis of the preferred stock. Capital gain of a noncorporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year. The deductibility of capital losses is subject to limitations.

Redemption of Preferred Stock

If we are permitted to and redeem your preferred stock, it generally would be a taxable event. You would be treated as if you had sold your preferred stock if the redemption:

results in a complete termination of your stock interest in us;

is substantially disproportionate with respect to you; or

is not essentially equivalent to a dividend with respect to you.

In determining whether any of these tests has been met, shares of stock considered to be owned by you by reason of certain constructive ownership rules set forth in Section 318 of the Internal Revenue Code, as well as shares actually owned, must be taken into account.

Table of Contents

If we redeem your preferred stock in a redemption that meets one of the tests described above, you generally would recognize taxable gain or loss equal to the sum of the amount of cash and fair market value of property (other than stock of us or a successor to us) received by you less your tax basis in the preferred stock redeemed. This gain or loss would be long-term capital gain or capital loss if you have held the preferred stock for more than one year.

If a redemption does not meet any of the tests described above, you generally would be taxed on the cash and fair market value of the property you receive as a dividend to the extent paid out of our current and accumulated earnings and profits. Any amount in excess of our current or accumulated earnings and profits would first reduce your tax basis in the preferred stock and thereafter would be treated as capital gain. If a redemption of the preferred stock is treated as a distribution that is taxable as a dividend, you should consult with your own tax advisor regarding the allocation of your basis in the redeemed and remaining preferred stock.

Special rules apply if we redeem preferred stock for our debt securities. We will discuss these rules in an applicable prospectus supplement if we have the option to redeem your preferred stock for our debt securities.

Medicare Tax

For taxable years beginning after December 31, 2012, a United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the United States holder's net investment income for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its dividend income and its net gains from the disposition of preferred stock, unless such dividend income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the preferred stock.

United States Alien Holders

This section summarizes certain United States federal income and estate tax consequences of the ownership and disposition of preferred stock by a United States alien holder. You are a United States alien holder if you are, for United States federal income tax purposes:

a nonresident alien individual;

a foreign corporation; or

an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from preferred stock.

Dividends

Except as described below, if you are a United States alien holder of preferred stock, dividends paid to you are subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have furnished to us or another payor:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, your status as a person who is not a United States person and your entitlement to the lower treaty rate with respect to such payments;
or

Table of Contents

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with United States Treasury regulations.

If you are eligible for a reduced rate of United States withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the United States Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, and, if required by a tax treaty, the dividends are attributable to a permanent establishment that you maintain in the United States, we and other payors generally are not required to withhold tax from the dividends, provided that you have furnished to us or another payor a valid Internal Revenue Service Form W-8ECI or an acceptable substitute form upon which you represent, under penalties of perjury, that:

you are not a United States person; and

the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

Effectively connected dividends are taxed at rates applicable to United States citizens, resident aliens and domestic United States corporations.

If you are a corporate United States alien holder, effectively connected dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition of Preferred Stock

If you are a United States alien holder, you generally will not be subject to United States federal income tax on gain that you recognize on a disposition of preferred stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis;

you are an individual, you hold the preferred stock as a capital asset, you are present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist; or

we are or have been a United States real property holding corporation for federal income tax purposes and you held, directly or indirectly, at any time during the five-year period ending on the date of disposition, more than 5% of the relevant class of preferred stock and you are not eligible for any treaty exemption.

If you are a corporate United States alien holder, effectively connected gains that you recognize may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

Withholdable Payments to Foreign Financial Entities and Other Foreign Entities

Under recently enacted legislation, a 30% withholding tax would be imposed on certain payments that are made after December 31, 2012 to certain foreign financial institutions, investment funds and other United States

Table of Contents

alien holders that fail to comply with information reporting requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. Such payments would include United States-source dividends and the gross proceeds from the sale or other disposition of stock that can produce United States-source dividends.

Federal Estate Taxes

Preferred stock held by a United States alien holder at the time of death will be included in the holder's gross estate for United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Backup Withholding and Information Reporting

United States Holders

In general, if you are a non-corporate United States holder, dividend payments, or other taxable distributions, made on your preferred stock, as well as the payment of the proceeds from the sale or redemption of your preferred stock that are made within the United States will be subject to information reporting requirements. Additionally, backup withholding will apply to such payments if you are a non-corporate United States holder and you:

fail to provide an accurate taxpayer identification number;

are notified by the United States Internal Revenue Service that you have failed to report all interest or dividends required to be shown on your federal income tax returns; or

in certain circumstances, fail to comply with applicable certification requirements.

If you sell your preferred stock outside the United States through a non- United States office of a non- United States broker, and the sales proceeds are paid to you outside the United States, then United States backup withholding and information reporting requirements generally will not apply to that payment. However, United States information reporting will apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your preferred stock through a non- United States office of a broker that is:

a United States person;

a controlled foreign corporation for United States tax purposes;

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in United States Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership; or

such foreign partnership is engaged in the conduct of a United States trade or business.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

You generally may obtain a refund of any amounts withheld under the United States backup withholding rules that exceed your income tax liability by filing a refund claim with the United States Internal Revenue Service.

Pursuant to recently enacted legislation, certain payments in respect of preferred stock made to corporate United States holders after December 31, 2011 may be subject to information reporting and backup withholding.

Table of Contents

United States Alien Holders

If you are a United States alien holder, you are generally exempt from backup withholding and information reporting requirements with respect to:

dividend payments; and

the payment of the proceeds from the sale of preferred stock effected at a United States office of a broker; as long as the income associated with such payments is otherwise exempt from United States federal income tax, and:

the payor or broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the payor or broker:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person; or

other documentation upon which it may rely to treat the payments as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payments in accordance with United States Treasury regulations; or

you otherwise establish an exemption.

Payment of the proceeds from the sale of preferred stock effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale of preferred stock that is effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States;

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address; or

the sale has some other specified connection with the United States as provided in United States Treasury regulations; unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption.

In addition, a sale of preferred stock will be subject to information reporting if it is effected at a foreign office of a broker that is:

a United States person;

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

a controlled foreign corporation for United States tax purposes;

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in United States Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership; or

such foreign partnership is engaged in the conduct of a United States trade or business; unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person that is, for United States federal income tax purposes, the beneficial owner of the payments.

Table of Contents

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by filing a refund claim with the Internal Revenue Service.

Taxation of Capital Securities

The following discussion of the material United States federal income tax consequences to the purchase, ownership and disposition of capital securities only addresses the tax consequences to a United States holder that acquires capital securities on their original issue date at their original offering price and holds the capital securities as a capital asset for tax purposes. You are a United States holder if you are a beneficial owner of a capital security that is:

a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons have authority to control all substantial decisions of the trust.

This summary does not apply if the subordinated debt securities or capital securities:

are issued with more than a de minimis amount of original issue discount;

mature 1 year or less than or more than 30 years after the issue date;

are denominated or pay principal, premium, if any, or interest in a currency other than U.S. dollars;

pay principal, premium, if any, or interest based on an index or indices;

allow for deferral of interest for more than 5 years' worth of consecutive interest periods;

are issued in bearer form;

contain any obligation or right of us or a holder to convert or exchange the subordinated debt securities into other securities or properties of Zions;

contain any obligation or right of Zions to redeem, purchase or repay the subordinated debt securities (other than a redemption of the outstanding subordinated debt securities at a price equal to (1) 100% of the principal amount of the subordinated debt securities being redeemed, plus (2) accrued but unpaid interest, plus, if applicable, (3) a premium or make-whole amount determined by a

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

quotation agent, equal to the sum of the present value of scheduled payments of principal and interest from the issue date of the subordinated debt securities to their redemption date, discounted at a rate equal to a United States treasury rate plus some fixed amount or amounts); or

contain any other material provision described only in the prospectus supplement.

The material United States federal income tax consequences of the purchase, ownership and disposition of capital securities in a trust owning the underlying subordinated debt securities that contain these terms will be described in the applicable prospectus supplement.

The statements of law or legal conclusion set forth in this discussion constitute the opinion of Sullivan & Cromwell LLP, special tax counsel to us and each Issuer Trust. This summary is based upon the United States Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. The authorities on which this discussion is based are subject to various interpretations, and it is therefore possible that the federal income tax treatment of the purchase, ownership and disposition of capital securities may differ from the treatment described below.

Please consult your own tax advisor concerning the consequences of owning the capital securities in your particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.

Table of Contents

Classification of the Issuer Trusts

Under current law and assuming full compliance with the terms of an amended trust agreement substantially in the form attached to this prospectus as an exhibit and the indenture, each Issuer Trust will not be taxable as a corporation for United States federal income tax purposes. As a result, you will be required to include in your gross income your proportional share of the interest income, including original issue discount, paid or accrued on the subordinated debt securities, whether or not the trust actually distributes cash to you.

Interest Income and Original Issue Discount

Under Treasury regulations, an issuer and the Internal Revenue Service will ignore a remote contingency that stated interest will not be timely paid when determining whether a subordinated debt security is issued with original issue discount. On the date of this prospectus, we currently believe that the likelihood of exercising our option to defer interest payments is remote because we would be prohibited from making certain distributions on our capital stock and payments on our indebtedness if we exercise that option. Accordingly, we currently believe that the subordinated debt securities will not be considered to be issued with original issue discount at the time of their original issuance. However, if our belief changes on the date any capital security is issued, we will describe the relevant United States federal income tax consequences in the applicable prospectus supplement.

Under these regulations, if we were to exercise our option to defer any payment of interest, the subordinated debt securities would at that time be treated as issued with original issue discount, and all stated interest on the subordinated debt securities would thereafter be treated as original issue discount as long as the subordinated debt securities remained outstanding. In that event, all of your taxable interest income on the subordinated debt securities would be accounted for as original issue discount on an economic accrual basis regardless of your method of tax accounting, and actual distributions of stated interest would not be reported as taxable income. Consequently, you would be required to include original issue discount in gross income even though we would not make any actual cash payments during an extension period.

These regulations have not been addressed in any rulings or other interpretations by the Internal Revenue Service, and it is possible that the Internal Revenue Service could take a position contrary to the interpretation in this prospectus.

Because income on the capital securities will constitute interest or original issue discount, corporate United States holders of the capital securities will not be entitled to a dividends-received deduction for any income taken into account on the capital securities.

Moreover, because income on the capital securities will constitute interest or original issue discount, United States holders of the capital securities will not be entitled to the preferential tax rate (generally 15%) generally applicable to payments of dividends in taxable years beginning before January 1, 2013.

In the rest of this discussion, we assume that unless and until we exercise our option to defer any payment of interest, the subordinated debt securities will not be treated as issued with original issue discount, and whenever we use the term interest, it also includes income in the form of original issue discount.

Distribution of Subordinated Debt Securities to Holders of Capital Securities Upon Liquidation of the Issuer Trusts

If the applicable Issuer Trust distributes the subordinated debentures as described above under the caption *Description of Capital Securities and Related Instruments Liquidation Distribution Upon Dissolution*, you will receive directly your proportional share of the subordinated debt securities previously held indirectly through the trust. Under current law, you will not be taxed on the distribution and your holding period and aggregate tax basis in your subordinated debt securities will be equal to the holding period and aggregate tax basis you had in your capital securities before the distribution. If, however, the trust were to become taxed on the income received or accrued on the subordinated debt securities due to a tax event, the trust might be taxed on a distribution of

Table of Contents

subordinated debt securities to you, and you might recognize gain or loss as if you had exchanged your capital securities for the subordinated debt securities you received upon the liquidation of the trust. You will include interest in income in respect of subordinated debt securities received from the trust in the manner described above under **Taxation of Debt Securities** **United States Holders** **Original Issue Discount**.

Sale or Redemption of Capital Securities

If you sell your capital securities, including through a redemption for cash, you will recognize gain or loss equal to the difference between your adjusted tax basis in your capital securities and the amount you realize on the sale of your capital securities. Assuming that we do not exercise our option to defer payment of interest on the subordinated debt securities, your adjusted tax basis in your capital securities generally will be the price you paid for your capital securities.

If the subordinated debt securities are deemed to be issued with original issue discount as a result of an actual deferral of interest payments, your adjusted tax basis in your capital securities generally will be the price you paid for your capital securities, increased by original issue discount previously includible in your gross income to the date of disposition and decreased by distributions or other payments you received on your capital securities since and including the date of the first extension period. This gain or loss generally will be capital gain or loss, except to the extent any amount that you realize is treated as a payment of accrued interest on your proportional share of the subordinated debt securities required to be included in income. Capital gain of a non-corporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year.

If we exercise our option to defer any payment of interest on the subordinated debt securities, our capital securities may trade at a price that does not accurately reflect the value of accrued but unpaid interest with respect to the underlying subordinated debt securities. If you sell your capital securities before the record date for the payment of distributions, you will not receive payment of a distribution for the period before the sale. However, you will be required to include accrued but unpaid interest on the subordinated debt securities through the date of the sale as ordinary income for United States federal income tax purposes and to add the amount of accrued but unpaid interest to your tax basis in the capital securities. Your increased tax basis in the capital securities will increase the amount of any capital loss that you may have otherwise realized on the sale. In general, an individual taxpayer may offset only \$3,000 of capital losses against ordinary income during any year.

Medicare Tax

For taxable years beginning after December 31, 2012, a United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the United States holder's net investment income for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its interest income and its net gains from the disposition of capital securities, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the capital securities.

Backup Withholding and Information Reporting

We will be required to report the amount of interest income paid and original issue discount accrued on your capital securities to the Internal Revenue Service unless you are a corporation or other exempt United States holder. Backup withholding will apply to payments of interest to you unless you are an exempt United States

Table of Contents

holder or you furnish your taxpayer identification number in the manner prescribed in applicable regulations, certify that such number is correct, certify as to no loss of exemption from backup withholding and meet certain other conditions.

Pursuant to recently enacted legislation, certain payments in respect of capital securities made to corporate United States holders after December 31, 2011 may be subject to information reporting and backup withholding.

Payment of the proceeds from the disposition of capital securities to or through the United States office of a broker is subject to information reporting and backup withholding unless you establish an exemption from information reporting and backup withholding.

Any amounts withheld from you under the backup withholding rules will be allowed as a refund or a credit against your United States federal income tax liability, provided the required information is furnished to the Internal Revenue Service.

It is anticipated that each Issuer Trust or its paying agent will report income on the capital securities to the Internal Revenue Service and to you on Form 1099 by January 31 following each calendar year.

Table of Contents

PLAN OF DISTRIBUTION

Please note that in this section entitled Plan of Distribution, references to Zions, we, our and us refer only to Zions Bancorporation and not to its consolidated subsidiaries.

Initial Offering and Sale of Securities

We or the Issuer Trusts, as applicable, may offer and sell the securities from time to time as follows:

through agents;

to or through dealers or underwriters;

directly to other purchasers; or

through a combination of any of these methods of sale.

In addition, the securities may be issued as a dividend or distribution or in a subscription rights offering to existing holders of securities. In some cases, we or dealers acting with us or on our behalf may also purchase securities and reoffer them to the public by one or more of the methods described above. This prospectus may be used in connection with any offering of our securities or capital securities of the Issuer Trusts through any of these methods or other methods described in the applicable prospectus supplement.

The securities we distribute by any of these methods may be sold to the public, in one or more transactions, either:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale;

at prices related to prevailing market prices;

at prices determined by an auction process; or

at negotiated prices.

We or the Issuer Trusts, as applicable, may solicit offers to purchase securities directly from the public from time to time. We may also designate agents from time to time to solicit offers to purchase securities from the public on our behalf. If required, the prospectus supplement relating to any particular offering of securities will name any agents designated to solicit offers, and will include information about any commissions we or the Issuer Trusts may pay the agents, in that offering. Agents may be deemed to be underwriters as that term is defined in the Securities Act.

From time to time, we or the Issuer Trusts may sell securities to one or more dealers acting as principals. The dealers, who may be deemed to be underwriters as that term is defined in the Securities Act, may then resell those securities to the public.

Edgar Filing: YRC WORLDWIDE INC - Form 10-K

We or the Issuer Trusts may sell securities from time to time to one or more underwriters, who would purchase the securities as principal for resale to the public, either on a firm-commitment or best-efforts basis. If we or the Issuer Trusts sell securities to underwriters, we or the Issuer Trusts, as applicable, will execute an underwriting agreement with them at the time of sale and will name them in the applicable prospectus supplement. In connection with those sales, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agents. Underwriters may resell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from purchasers for whom they may act as agents. The applicable prospectus

Table of Contents

supplement will include any required information about any underwriting compensation we pay to underwriters, and any discounts, concessions or commissions underwriters allow to participating dealers, in connection with an offering of securities.

If we offer securities in a subscription rights offering to our existing security holders, we may enter into a standby underwriting agreement with dealers, acting as standby underwriters. We may pay the standby underwriters a commitment fee for the securities they commit to purchase on a standby basis. Additionally, before the expiration date for the subscription rights, the standby underwriters may offer the securities, including securities they may acquire through the purchase and exercise of subscription rights, on a when-issued basis at prices set from time to time by them. After the expiration date, the standby underwriters may offer the securities, whether acquired under the standby underwriting agreement, on exercise of subscription rights or by purchase in the market, to the public at prices to be determined by them. Thus, standby underwriters may realize profits or losses independent of the underwriting discounts or commissions we may pay them. If we do not enter into a standby underwriting arrangement, we may retain a dealer-manager to manage a subscription rights offering for us. Any dealer-manager we retain may acquire securities by purchasing and exercising the subscription rights and resell the securities to the public at prices it determines. As a result, a dealer manager may realize profits or losses independent of any dealer-manager fee paid by us.

We or the Issuer Trusts, as applicable, may authorize underwriters, dealers and agents to solicit from third parties offers to purchase securities under contracts providing for payment and delivery on future dates. The third parties with whom we or the Issuer Trusts may enter into contracts of this kind may include banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. The applicable prospectus supplement will describe the material terms of these contracts, including any conditions to the purchasers' obligations, and will include any required information about commissions we or the Issuer Trusts may pay for soliciting these contracts.

Underwriters, dealers, agents and other persons may be entitled, under agreements that they may enter into with us or the Issuer Trusts, to indemnification by us or the Issuer Trusts, as applicable, against certain liabilities, including liabilities under the Securities Act.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they hold, and must be closed out by purchasing those securities in the open market. Stabilizing transactions consist of various bids for or purchases made by the underwriters in the open market prior to the completion of an offering.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriting syndicate a portion of the underwriting discount received by it because the underwriting syndicate has repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own account, may have the effect of preventing or retarding a decline in the market price of the securities, and may stabilize, maintain or otherwise affect the market price of the securities. As a result, the price of the securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected on an exchange or automated quotation system, if the securities are listed on that exchange or admitted for trading on that automated quotation system, or in the over-the-counter market or otherwise.

The underwriters, dealers and agents, as well as their associates, may be customers of or lenders to, and may engage in transactions with and perform services for, Zions, its subsidiaries and the Issuer Trusts in the ordinary course of business. In addition, we expect to offer the securities to or through our affiliates, as underwriters,

Table of Contents

dealers or agents. Among our affiliates, Zions Direct, Inc. or Amegy Investments, Inc. may offer the securities for sale in the United States. Our affiliates may also offer the securities in other markets through one or more selling agents, including one another.

In compliance with guidelines of the Financial Industry Regulatory Authority, Inc., or FINRA, the maximum amount of underwriting compensation, including underwriting commissions or discounts, to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate principal amount of the securities offered pursuant to this prospectus. It is anticipated that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

Zions Direct, Inc. and Amegy Investments, Inc. are indirect wholly-owned subsidiaries of Zions. FINRA Rule 5121 imposes certain requirements when a FINRA member such as Zions Direct, Inc. or Amegy Investments, Inc. distributes an affiliated company's securities. Zions Direct, Inc. and Amegy Investments, Inc. have advised Zions that each particular offering of debt securities will comply with the applicable requirements of FINRA Rule 5121. In any offerings subject to FINRA Rule 5121, the underwriters will not confirm initial sales to accounts over which it exercises discretionary authority without the prior written approval of the customer.

Furthermore, offering of capital securities by each of the Issuer Trusts will be conducted in accordance with the requirements of FINRA Rule 2310.

Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. The applicable prospectus supplement may provide that the original issue date for your securities may be more or less than three scheduled business days after the trade date for your securities.

Market-Making Resales by Affiliates

This prospectus may be used by Zions Direct, Inc. and Amegy Investments, Inc. in connection with offers and sales of the securities in market-making transactions. In a market-making transaction, Zions Direct, Inc. or Amegy Investments, Inc. may resell a security it acquires from other holders, after the original offering and sale of the security. Resales of this kind may occur in the open market or may be privately negotiated, at prevailing market prices at the time of resale or at related or negotiated prices. In these transactions, Zions Direct, Inc. or Amegy Investments, Inc., as applicable, may act as principal or agent, including as agent for the counterparty in a transaction in which Zions Direct, Inc. or Amegy Investments, Inc. acts as principal or as agent for both counterparties in a transaction in which Zions Direct, Inc. or Amegy Investments, Inc. does not act as principal. Zions Direct, Inc. or Amegy Investments, Inc., as applicable, may receive compensation in the form of discounts and commissions, including from both counterparties in some cases. Other affiliates of Zions may also engage in transactions of this kind and may use this prospectus for this purpose.

The securities to be sold in market-making transactions include securities to be issued after the date of this prospectus, as well as securities previously issued.

We do not expect to receive any proceeds from market-making transactions. We do not expect that Zions Direct, Inc., Amegy Investments, Inc. or any other affiliate that engages in these transactions will pay any proceeds from its market-making resales to us.

A market-making transaction will have a settlement date later than the original issue date of the security. Information about the trade and settlement dates, as well as the purchase price, for a market-making transaction will be provided to the purchaser in a separate confirmation of sale.

Unless you are informed in your confirmation of sale that your security is being purchased in its original offering and sale, you may assume that you are purchasing your security in a market-making transaction.

Table of Contents

Matters Relating to Initial Offering and Market-Making Resales

Each series of securities will be a new issue, and there will be no established trading market for any security prior to its original issue date. We or the Issuer Trusts, if applicable, may not choose to list any particular series of securities on a securities exchange or quotation system. Zions Direct, Inc., Amegy Investments, Inc. and any underwriters to whom we or the Issuer Trusts sell securities for public offering may make a market in those securities. However, none of Zions Direct, Inc., Amegy Investments, Inc. or any underwriter that makes a market is obligated to do so, and any of them may stop doing so at any time without notice. No assurance can be given as to the liquidity or trading market for any of the securities.

Unless otherwise indicated in the applicable prospectus supplement or confirmation of sale, the purchase price of the securities will be required to be paid in immediately available funds in New York City.

In this prospectus, an offering of securities refers to the initial offering of the securities made in connection with their original issuance, and does not refer to any subsequent resales of securities in market-making transactions.

Table of Contents**BENEFIT PLAN INVESTOR CONSIDERATIONS**

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA) (each, a Plan), should consider the fiduciary standards of ERISA in the context of the Plan 's particular circumstances before authorizing an investment in the securities. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under ERISA or the Internal Revenue Code.

Section 406 of ERISA and Section 4975 of the Code prohibit Plans, as well as individual retirement accounts, Keogh plans and any other plans that are subject to Section 4975 of the Internal Revenue Code (also Plans), from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Internal Revenue Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Internal Revenue Code for those a party in interest or a disqualified person, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (Non-ERISA Arrangements) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Internal Revenue Code but may be subject to similar provisions under applicable federal, state, local, non-U.S or other laws (Similar Laws).

The acquisition or conversion of the securities by a Plan or any entity whose underlying assets include plan assets by reason of such Plan 's investment in such entities (a Plan Asset Entity) with respect to which we or certain of our affiliates is or becomes a party in interest or disqualified person may result in a prohibited transaction under Section 406 ERISA or Section 4975 of the Internal Revenue Code, unless the securities are acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued five prohibited transaction class exemptions, or PTCEs, that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase or holding of securities. These exemptions are PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, ERISA Section 408(b)(17) and Section 4975(d)(20) of the Internal Revenue Code provide an exemption for the purchase and sale of securities offered hereby, *provided* that neither the issuer of securities offered hereby nor any of its affiliates have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and *provided further* that the Plan pays no more and receives no less than adequate consideration in connection with the transaction (the service provider exemption). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Any purchaser or holder of securities or any interest therein and each fiduciary who causes any entity to purchase or hold a security (both in its corporate and fiduciary capacity) will be deemed to have represented by its purchase and holding of the securities offered hereby that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing, holding or converting the securities on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement or (2) the purchase, holding and conversion of the securities will not constitute a non-exempt prohibited transaction under Section 406 of ERISA, Section 4975 of the Internal Revenue Code or any provision of applicable Similar Laws.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing the securities on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement consult

Table of Contents

with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above, the service provider exemption or the potential consequences of any purchase, holding or converting securities under Similar Laws, as applicable. Purchasers of the securities have exclusive responsibility for ensuring that their purchase, holding and conversion of the securities do not violate the fiduciary or prohibited transaction rules of ERISA or the Internal Revenue Code or any similar provisions of Similar Laws. The sale of any of the securities to a Plan, Plan Asset Entity or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by any such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement or that such investment is appropriate for such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement.

Securities may be subject to additional restrictions under ERISA, the Internal Revenue Code or Similar Laws if indicated in the applicable prospectus supplement.

VALIDITY OF THE SECURITIES

In connection with particular offerings of the securities in the future, and if stated in the applicable prospectus supplements, the validity of those securities, other than capital securities, may be passed upon for us by Callister Nebeker & McCullough, a Professional Corporation, Salt Lake City, Utah. Certain matters for us may be passed upon by Sullivan & Cromwell LLP, Los Angeles, California, and for any underwriters or agents by Sullivan & Cromwell LLP or other counsel named in the applicable prospectus supplement. Sullivan & Cromwell LLP will rely upon the opinion of Callister Nebeker & McCullough as to matters of Utah law and Callister Nebeker & McCullough will rely upon the opinion of Sullivan & Cromwell LLP as to matters of New York law. In connection with particular offerings of capital securities in the future, and if stated in the applicable prospectus supplement, the validity of the capital securities may be passed upon for us and the Issuer Trusts by Richards, Layton & Finger, P.A., Wilmington, Delaware. The opinions of Callister Nebeker & McCullough and Sullivan & Cromwell LLP will be conditioned upon, and subject to certain assumptions regarding, future action to be taken by Zions and its board of directors in connection with the issuance and sale of any particular series of securities, the specific terms of the securities and other matters which may affect the validity of securities but which cannot be ascertained on the date of such opinions. Sullivan & Cromwell LLP and Callister Nebeker & McCullough regularly perform legal services for Zions.

EXPERTS

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2010 and the effectiveness of our internal control over financial reporting as of December 31, 2010, as set forth in their reports, which are incorporated by reference in this prospectus. Our consolidated financial statements and our management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2010 are incorporated by reference in reliance on Ernst & Young LLP's reports, given on their authority as experts in accounting and auditing.
